CASS CITY CHAMPION OF CLASS B SCHOOLS

BASKET BALL QUINTET MADE GREAT SHOWING AT STATE TOURNAMENT.

Cass City Athletes Enjoy Excellent Reputation All Over Michigan.

Cass City's fast team of basketball players who have won so many games for the local high school were again successful in earning high honors in a state contest Friday when they were proclaimed champions of Class B schools at the Central and Northern Michigan basketball tournament at Mt. Pleasant.

The team accompanied by Prof. Hoxie and Coach Frank Champion arrived at Mt. Pleasant Wednesday where they found 28 high schools registered for competition, as follows: Manistee, Bad Axe, Mesick, Mt. Pleasant, Alma, Rogers City, Marjion, Jennings, Lake City, Breckenridge, Vassar, Bay City Eastern, Carson City, Cass City, Clare, Gladwin, Bay City Western, Chesaning, Corunna, Reed City, Arthur Hill of Saginaw, Saginaw Eastern, Greenville, Clifford, Sebawaing, Edmore, Arcadia and Flint.

The Cass City team entered their first game Thursday at 5:10 p. m. with Grayling. Because the Grayling school had won the 1917 tournament at Ypsilanti, the locals anticipated some strong opposition and the result of the contest was surprisingly easy for the Cass City boys who had the better end of a 22-4 game.

Their next contest was with the Jennings team who came from a town of 500 in Missaukee county. This was played on a small floor and the Jennings team put up a strong fight in the first half. The second period was easier work for Cass City and the end of this contest stood—Cass City 22, Jennings 12.

Friday at 9:20 a. m., Cass City was afflicted with overconfidence when the boys met the Corunna high school and the Corunna quintette had the locals beaten in the first half 7-8. Jones took Pinney's place in the second half, and the team "sobering up" and recovering from their affliction, succeeded in regaining their old time speed and vigor. They won over their opponents by a lead of four points. Score, 14-18.

Greenville was the last team to compete with Cass City for Class B honors. Greenville contested with Cadillac in 1919 for the Class A championship, but owing to a different method of classification this year, Greenville was placed in competition with Class B schools. The local players knew they had a strong team to meet and brought their best efforts to the fore with the result that they had made six baskets before Greenville scored a point. Greenville played a very strong defensive game but Cass City early found they had succeeded in solving the defensive methods of their opponents and the end of the contest stood 22-14 in favor of the local team and Cass City was declared champion of Class B schools.

Having won the Class B honors, Cass City was slated to meet Arthur Hill high school of Saginaw, the winner of Class A series. The boys expected a hard battle with Arthur Hill but nevertheless went in to win the game, and they were succeeding very nicely and were leading their opponents, when Earl Gowen, in a fall at the end of the first four minutes at play, put two of his fingers out of joint and fractured a bone in his hand. Gowen is a star player on the Cass City team and his misfortune probably cost the team its victory in this contest. F. Pinney, who is playing his first year on the team, substituted for the injured man and finished the game in a very creditable manner. In the latter part of the contest, Cass City played a defensive game in order to keep their Saginaw opponents' score as low as possible. Arthur Hill won by a 31-9 score.

Not only in their own community are the Cass City athletes held in high esteem for their remarkable success, but they enjoy an excellent reputation all over the state. The basket ballers appeared in fine form and from every side came expressions of praise for the fine work of our high school boys throughout the tournament. The Cass City team consists of James Brooker, capt., Earl Gowen, Frederick Pinney, Creighton Cathcart, Stanley Craft, Park Jones, and Andrew Champion. Champion, who is recognized as one of the best high school players in the Thumb, was barred from playing at Mt. Pleasant because he did not have sufficient credits in school work in the first semester.

Crosswell's team arrived at Mt. Pleasant Monday morning and played two games with Mt. Pleasant Reserves so as to become familiar with

the floor. Hart eliminated them in their first game in the Class B contests 16-5, and Greenville defeated Hart later by 12-10, while Cass City wrestled Class B honors from Greenville as noted earlier in this article. Crosswell was defeated for the "consolation" championship by Mt. Pleasant. Other teams from Thumb high schools were early eliminated from the ranks of successful contestants for Class B honors.

Mt. Pleasant citizens and members of the Normal faculty proved themselves royal entertainers, and members of the various high school teams, all of whom were entertained at private homes of Mt. Pleasant, are loud in their praises for the kindness and thoughtfulness of their hosts.

Coach "Sammy" Champion says: "In behalf of the basketball team, I wish to thank those who assisted us in any way in making it possible for the team to go, and to the people and faculty of Mt. Pleasant and the school for its many courtesies and pleasant entertainment offered us while in that city. We also received a royal welcome from two of Cass City's girls, Miss Jean McCallum and Miss Marie Benkelman. Thanks girls."

GUS BRONSON GETS SEVEN YEARS IN JACKSON

Convicted in Connection with Robbery of the Postmaster at Gilford Dec. 5.

Gus Bronson of Bay City, who was convicted Friday night of robbery of the postmaster at Gilford on Dec. 5 last, was sentenced on Saturday by Judge Beach to serve from seven to 15 years in Jackson prison.

On the night of December 5 last two men aroused Postmaster Miller and got him to go over to his store under the pretense of selling them gasoline as they claimed their automobile had run out of fuel. The men covered Miller with pistols, compelled him to open his safe, and also held up a young man who entered the store whom they robbed of \$9. The robbers secured about \$200. Bronson and his partner were arrested in Bay City by Sheriff Morris.

Bronson, a short time ago, attempted to break through the Tuscola county jail, but failed. A fellow prisoner, Trask, who tried to escape with him was shot through the cheek by the sheriff.

COULTER-TUCKEY.

The home of Mr. and Mrs. John H. Coulter was the scene of a pretty wedding Thursday, March 18, when their second daughter, Melissa Orvanda, was united in marriage with Glen Tuckey. The ceremony was performed at high noon by O. R. Gratton, pastor of the Methodist Episcopal church of Cass City, the full ring service being used.

The bride was attended by Miss Florence Wanner and the best man was Clare Tuckey, brother of the groom. The bride was becomingly attired in a beautiful white dress trimmed with hand embroidery of silk in Mexican design, and carried a shower bouquet of Spencer sweet peas and plumosus fern. She is a young lady of sterling quality with many friends here, having been a teacher in local schools, also a graduate of the Detroit school of Elocution and Expression in the class of 1917. The groom is the eldest son of Mr. and Mrs. J. D. Tuckey of Elkland township.

The young people will be at home to their many friends after March 25 at their pleasant farm home in Novesta which Mr. Tuckey purchased from Amos Gingrich last fall.

INTER-CHURCH WORLD MOVEMENT CONVENTION

During the evening service the world survey will be presented by means of a stereopticon address to the permanent organization of the county will be completed. Ministers are kindly requested to announce this great meeting at every service until April 9. In like manner Sunday school superintendents are urged to do likewise. These are the days when Christians must play the team game and we desire close co-operation on the part of all the churches.

Anyone desiring further information with reference to any phase of the convention may call or write Rev. Scott and Rev. Jones, Mayville, Rev. W. Coach, Vassar, or Rev. Crandell and Rev. Charles, Caro.

During the convention special attention will be given to four of the great problems confronting the church, viz., the stewardship of life, missionary education, evangelism, and life work.

COUNTY ROAD SYSTEM FACTS

THREE COMMISSIONERS ELECTED FOR TERMS OF SIX YEARS EACH.

Highway Dept. Tells of Advantages of Operating under County Road Law.

Tuscola county will vote on the adoption of the county road system at the April election. The following information regarding this system has been received from the Michigan State Highway Department and is printed to give Chronicle readers a better idea of the county system:

The many advantages of operating under the county road law have been repeatedly enumerated, but it would be well to call attention to some of the new features of the law, as well as to show how a county which is working under its provisions is in a better position to build and maintain its roads than a township trying to do the same thing. The fact that the county roads are the heavy traffic ones often makes it necessary to place better surfaces on them than the average township feels able to do. A road commission in charge of county roads could be trusted to make such improvements as might be necessary in an economical and satisfactory way.

The County Road Board. Three commissioners are elected or appointed for terms of six years each. The tenure of office is so arranged that a new commissioner comes on the board every other year. He takes office January 1st. There are always two experienced men on the board and no sudden reversal of policy is possible. This board has already prepared a definite plan for the year's work approved by the Board of Supervisors. The year's plans fit in with the general outline of the county road system prepared by the board and approved by the State Highway Commissioner. Surveys having been made the previous year for the new work, plans can be drawn up and specifications prepared. Bids can be received early in the season, contracts awarded and the work actually be under way before the township authorities can organize and decide where the work is to be done. In fact, all arrangements can be made to have the necessary work begun as soon as weather conditions permit.

The board of county road commissioners is administrative only. It bears the same relation to county road matters that a board of directors does to a bank or corporation. It engages a competent superintendent, skilled in road building. This man is left in charge as long as the board is satisfied with his work. The superintendent engages, subject to the approval of the board, such employees as may be necessary to carry on the work, and may discharge them as soon as they are not satisfactory. Responsibility and authority are centralized. If anything is wrong, the blame can be placed where it belongs.

Covert Act Roads.

A good many roads have been petitioned for under the Covert Act. In counties not under the county road system, these petitions all had to be made to the State Highway Commissioner and all procedures for letting the contracts and constructing the roads are directly under the supervision of the State Highway Department. Although the State Highway Department would give value received for expenditures, nevertheless, the petitions under the county road system can be filed directly with the board of county road commissioners, except in case of inter-county roads, and it can act upon them in the place of the State Highway Commissioner.

There are two advantages in building roads under the Covert Act in counties operating under the county road system. First, the county at large is assessed a portion of the cost of the road, thus materially relieving the townships and the special assessment district. Second, the State Highway Department should only give its attention to roads that are of major importance and consequently roads which are naturally considered as important county roads might not always be considered as important roads by the state. Of course all roads petitioned for to the State Highway Department, if accepted, will be constructed, but there will undoubtedly be considerable delay in constructing the less important roads. If the county road system were operative, the Covert Act petitions would come directly to the board of county road commissioners; as they are not burdened with the vast amount of work that the state necessarily is, they could give all the roads petitioned for within the county special attention and immediate action would result.

Miss Irene Stolofsky, director and violinist of Kryl's Orchestral Sextette which appears here on the Lyceum course Monday evening, although still a very young artist has had an unusually musical career. She has never failed to impress the general public as to the charm of her playing and she has drawn unqualified praise from the press as well.

"She has a command of the tonal possibilities of the instrument (violin) that includes purity, accuracy as to pitch and an excellent scheme of qualitative contrasts," says the Chicago Tribune.

"Her interpretations," continues this paper, "are distinguished by taste and a restraint and rhythmic control as well as by instinct for the well-proportioned delivery of sustained melody."

NEWBERRY CASE TO BE APPEALED

NINETY DAY STAY IN EXECUTION OF SENTENCE GRANTED BY JUDGE SESSIONS.

SENATOR WILL RETAIN SEAT

Jury Finds Principal and 16 Aides Guilty of Conspiracy—Newberry, King and Cody Get Limit.

Grand Rapids—After Judge Clarence W. Sessions passed sentence Saturday afternoon upon United States Senator Truman H. Newberry and 16 co-defendants, convicted by the jury's verdict on the first count of the elections conspiracy case indictment, the court granted a 90-day stay in execution of the sentence, pending an appeal and filing of a bill of exceptions. Sixty-eight of the respondents were acquitted on both counts by the jury's verdict.

Senator Newberry, Paul H. King, his campaign manager, and Frederick Cody, of New York, received the maximum penalty provided under the corrupt practices act—a sentence to serve two years in Leavenworth penitentiary and a \$10,000 fine.

The conviction came after the jury had been in deliberation for a total of 11 hours. Previous to passing sentence, the court denied motions for an arrest of judgment and for a new trial.

The men found guilty and the sentences imposed by the court are as follows: Senator Newberry, two years in Leavenworth and \$10,000 fine. Paul H. King, two years in Leavenworth prison and \$10,000 fine. Frederick Cody, two years in Leavenworth and \$10,000 fine. Charles A. Floyd, two years in Leavenworth and \$10,000 fine. William J. Mickel, two years in Leavenworth prison. Allan A. Templeton, one year and six months. Roger M. Andrews, one year and six months. Milton Oakman, one year and six months. Richard H. Fletcher, one year and three months. James F. McGregor, one year and three months. Fred Henry, one year and three months. Hannibal A. Hopkins, one year and one day. E. V. Chilton, one year and one day. John S. Newberry, fined \$10,000. Harry C. Turner, fined \$2,000. B. Frank Emery, fined \$2,000. George S. Ladd, fined \$1,000.

After imposing sentence, Judge Sessions, denying a motion for a new trial, granted a 90-day stay of execution in which the defense might perfect appeal and released the 17 convicted men on personal bonds of \$5,000 each pending that appeal.

Case to Be Appealed.

Martin W. Littleton, of counsel for the defense said he would at once appeal to the supreme court of the United States. Ordinarily, the procedure would take the case to the court of appeals for this district, at Cincinnati, but Mr. Littleton explained that the constitutionality of the statute limiting campaign expenditures to \$3,750 is to be challenged, and that, in making this issue, he cleared the way direct to the highest tribunal.

Mr. Littleton, the defense New York attorney, predicted that the Newberry case would not be finally disposed of in less than two years. Immediately after sentences had been imposed, Senator Newberry issued a statement in which he reasserted his innocence of any wrongdoing, expressed his appreciation of the loyalty of the men who were tried with him, and announced he would retain his seat in the Senate unless required to give it up by the Senate itself or by the Supreme Court.

Trial Result of 1918 Election.

Senator Truman H. Newberry won the Republican senatorial nomination in the 118 primary, his chief opponent having been Henry Ford, who, although he lost the Republican nomination, gained the Democratic nomination.

Newberry then beat Ford in the general election by a majority of 7,567, the vote being 220,054 for Newberry and 212,487 for Ford. On January 6, 1919, Ford appealed to the senate for a recount, his request having been granted. Following charges of illegal election, two investigations by the department of justice resulted in the indictment of 123 men, including Senator Newberry. Thirty-eight of these were released for lack of evidence after the trial had been in progress about a month.

The trial from beginning to end lasted about eight weeks. The stenographers, who reported all that was said by the court, lawyers and witnesses, took down 5,312 pages, averaging 250 words to the page. About 650 witnesses were sworn. Among the most noteworthy features of the trial was James W. Helme's personally directed defense that he had been "worked" by Newberry men into thinking that there was a loud popular demand for him as a Democratic candidate for the senatorship.

STATE TO HEAR CHURCH TRUTHS

COUNTY CONFERENCES OF INTERCHURCH WORLD TO BE A GREAT SERIES OF EDUCATIONAL MEETINGS.

COUNTIES TO LEARN WHERE THEY NEED AID

Michigan's church conditions will be brought out into the light, and the truth laid squarely before the people most interested, in a series of county conferences of the Interchurch World Movement, April 6, 7, 8 and 9.

These meetings of church workers will be held in a central point in practically every county of the state. Teams of well-known church workers—state and national leaders in their denominations—will address the conferences. Then will come the real matter of interest—each county will have described to it its own religious condition.

It will be, it is said, a very exceptional county that does not hear some more or less unpalatable truths concerning uncharitableness, or wasteful competition, or underpaid and unenthusiastic preachers. Not many counties, it is stated, are able to show an average ministerial salary higher than the average for Michigan, which is \$352, while barely one-third of the entire Protestant population of the United States, according to estimates made by the Interchurch survey, has an opportunity for regular church attendance.

Besides a full consideration of local problems, the program at the county conferences will present the outstanding results of the world-wide survey of religious, social and economic conditions made by the Interchurch Movement, the material for which has been gathered from every corner of the earth. Special emphasis will also be laid on the place of prayer in Christian life, the importance of assisting young people in the right choice of their life work and the duty of laying aside a definite proportion of income for religious activities.

This series of conference presents a great campaign of intensive education in practical Christianity preparatory to the united appeal for missionary funds which will be held by the Protestant denominations co-operating in the Interchurch Movement between April 25 and May 2.

The teams that will address the county conferences were themselves trained as a "faculty" at a series of state and pastors' conferences. Similarly those who attend the county conferences will in turn form a "faculty" for interpreting the message of the Interchurch Movement to their local churches.

Thus it is expected that before April 20 the ideal of church co-operation advocated by the Interchurch World Movement, in place of church competition, and the program of evangelization that goes with it, will be familiar to every one of the fifty million Protestants in the United States.

LENTEN TEAS ARE AID TO CHURCH CAMPAIGN

Lent with its restrictions upon social functions of all kinds has developed what in many city society circles is called the "Lenten at Home" or the "Evangelistic Afternoon Tea" at which the persons to whom the hostess is "at home" become a congregation and the speaker may or may not be a clergyman.

The idea of utilizing drawing rooms during the quiet Lenten period for definite evangelistic efforts has been developed by the Interchurch World Movement. Bishop Theodore S. Henderson, of Detroit, the national director of the campaign in a letter to women of 150 cities expressed the hope that no woman or group of women would attempt to camouflage these Lenten society functions.

CHURCHES MUST LEARN TO WORK TOGETHER

The Interchurch World Movement, now moving actively toward its goal of a more united Christian effort, has uncovered religious conditions which must shock the attention of laymen, as well as of the most conscientious church worker.

In one small town, there were discovered four little churches located on the four corners of a cross-roads intersection. Each was supported for a time by its own sincere little group. All struggled along, and all were more or less unsuccessful. Finally, the four groups reached an agreement by which a united service was held in each of the four buildings in weekly rotation. In winter, the common stove was moved from building to building. Three empty churches each Sunday, and one working!

One great denomination has forty per cent of its churches vacant each Sunday—mostly in rural communities. These are economic wastes that challenge the common sense of every Christian, but they are not nearly so serious as the fact that other communities, in many cases closely adjoining, have no churches at all. It is true that many communities are over-churched, but it is also true that far more have no religious facilities at all.

THE COUNTY ROAD SYSTEM.

Continued from first page.
 bonded to construct roads and still have outstanding bonds are helped to reduce these bonds by the operation of the county road system. The law provides that townships so bonded may have their county road taxes returned in case the county road commissioners have not expended more money in any township than its county road tax amounts to, to be used for paying off bonded indebtedness for road improvements and this law is operative in any township thus bonded until the bonds have been all paid.

Township Maintenance.

It has been found that while it is comparatively easy at this time to secure the necessary funds for building highways for state reward in townships, it is an entirely different matter to insure that these same state reward roads will be kept in reasonably good repair. One year the township board and highway commissioner may see the need and have everything working well; the next, for some reason or other, there is a change. Either the township board or highway commissioner, or both, may be new. The roads deteriorate and large expenditures are needed to restore them. If the work could have been continued under the original board and commissioner, a substantial saving could have been shown and the roads still be in good condition all the time.

County Maintenance.

Under the county organization such conditions are not likely to occur. In fact, where counties have a large mileage of roads, improved under the township system, the best thing that could happen would be the adoption of the county road system if only for the purpose of maintaining the old township roads.

As mentioned before, the board of county road commissioners must submit an outline of the proposed county system to the State Highway Commissioner for his approval. In so doing all state rewarded roads covered by this outline become county roads automatically and the county is responsible for their upkeep. This places responsibility for their repair in the hands of a continuous organization based on merit and business principles which can hardly fail to improve conditions.

The fact that all but seven counties in the state have adopted the county road system and are working under its provisions would indicate that the scheme is a satisfactory one.

At the 1919 spring election seven counties voted on the question of adopting the system and all carried by a substantial majority. Eight more have since adopted it at special elections. Two of those, Clinton and Washtenaw, had previously been operating under the provisions of the county road law and had rescinded the vote of the county by which it was adopted. Changes in the law and new legislation establishing state assistance to the counties doing the work under that plan, convinced the people that it was advisable to re-adopt the system.

Aspirations.

The chief use of any man to the world is the influence of his aspirations. Not achievements alone can determine a man's value to us; but the vision of the ideal which he has and gives to us, in words, on canvas, in marble, in stately piles of architecture.—Solon Lauer.

MINISTERS' PAY IS LESS THAN LABOR'S

PASTORS OF MICHIGAN CHURCHES DRAW LESS THAN \$1000 A YEAR.

INTERCHURCH WORLD IS TO HELP THE SITUATION

Michigan ministers are paid an average of only \$962 a year—and this in a period when the national government estimates that a family cannot be respectably maintained on less than \$1,500.

When all income tax returns were finally complete at Detroit, John Grogan, Collector of Internal Revenue, declared that the names of many mechanics, factory workers, farmers, stenographers, railway men and other workers were on his lists, but he had so small a number of ministers that it was hardly appreciable.

One of the principal objects of the Interchurch World campaign, now being conducted by the leading 30 Protestant denominations, is relief of the condition of ministers where it is needed. It is declared at Interchurch World headquarters that the minimum salary for ministers should be \$1,000 a year.

The Interchurch World Movement, it should be understood, asks no money for itself. It is simply an instrument by which the denominations which become members of it are to conduct a united campaign. All the money which is raised by the various denominations will be retained by them; and the money which is obtained from the general un-church public will be divided pro rata.

By means of the united campaign, it is declared that a great saving can be made. In addition, the unity which is developed among the churches is held to be of the utmost advantage to the welfare of the whole Christian Kingdom.

The Interchurch World also will conduct a survey of the religious field of the entire world, and an attempt will be made by the various denominations to spend the money raised by the campaign in the most effective way for the welfare of Christianity in general.

STATE LEADERS NAMED FOR INTERCHURCH WORLD

Denominational state and regional leaders for the Interchurch World Movement have been named in Michigan as follows:

CONGREGATIONAL—R. R. Moore, St. Clair.

METHODIST EPISCOPAL—Dr. J. C. Floyd, 418—6th St., Detroit, or 1339 Auburn Ave., Grand Rapids.

BAPTIST—Dr. Grant H. Hudson, 368 Capital National Bank Bldg., Lansing.

CHURCH OF THE BRETHREN—Rev. J. Edson Uery, Onokana, or Rev. D. C. Cottrell, N. Manchester, Indiana.

CHURCH OF FRIENDS—Dr. Milo Radtke, Cassopolis.

CHRISTIAN CHURCH—Rev. J. C. DeRenner, Britton.

PRESBYTERIAN—A. C. Maunderoff, Eureka, Mich.

LAWYER BEST PAID, MINISTER THE WORST

Who is the most important man in the community? Narrowing the query, would you put the lawyer at the top of the list and the minister at the bottom?

This is how they rank in the matter of earning capacity, anyhow, according to some interesting statistics which have been collected by the American Education Department of the Interchurch World Movement to show how wretchedly underpaid religious workers are in these days of the high cost of living.

| Occupation | Over \$3,000 | Over \$5,000 |
|----------------------|--------------|--------------|
| Lawyers | 1 in 5 | 1 in 9 |

ASK STORES' CLOSING ON GOOD FRIDAY P. M.

Business men throughout the country are being requested by the leaders of the Interchurch World Evangelistic campaign to close their places of business for one hour on Good Friday (April 2) for meditation and prayer to commemorate the crucifixion of Jesus Christ.

It is proposed that on Good Friday, church leaders of all communions combine their efforts in their respective cities and towns to enlist the interest of men and women, not accustomed to go to church, to think seriously of their relationship with God.

"The Farmer Kept Faith With the Country

--Now Let the Country Keep Faith With Him"

LEONARD WOOD

This is Wood's sentiment toward the American Farmer, as expressed in his Platform and speeches:

"If the farmers had not kept faith as they did we would have lost the war, we would have been unable to feed our Allies and ourselves. They sent their sons to war, and in spite of the shortage of labor they raised the biggest crop in history.

"We want to maintain our rural population because it is the basis of our most stable citizenship. To do this, we must make life on the farms more attractive. The farmer must have good roads—he pays his full share of taxes. His interests must not be permitted to suffer so that other interests may profit more. If there is anything more important in this country than Agriculture, I do not know it.

"We must have a Department of Agriculture conducted for the Farming interests by men who really know farming from the furrow to the crop.

"We must have national economy at Washington, and a budget system.

"We must have federal suppression of all dishonest business, no matter how large, no matter how small.

"We must have more producing, less spending, a saner cost of living.

"We must have a longer term of years to pay the war debt.

"We want fewer tenant farms, more owned farms."

Farmers of Michigan:

If these principles, these sentiments, express the kind of American you want to rule the Nation, vote for LEONARD WOOD.

It is your DUTY to vote in the primaries, April 5. You cannot vote unless you are registered.

HERRING SOUP RUSSIAN FOOD

PAUL DUKES, WHO SERVED IN RED ARMY, TELLS OF CONDITIONS UNDER BOLSHEVIK REGIME.

ALL CLASSES GRIPPED BY POVERTY

Householders Forced to Give Up Their Choicest Rooms to Communist Workers and Sailors and Live in Kitchens.

Paul Dukes, a Russian who lived ten months under soviet rule, served in the red army, and then escaped to England, writes of his experiences in the London Illustrated News.

"As we walked down the street we passed the lines of wretched people standing patiently at the edge of the pavements, disposing of all sorts of wares, or food of which they had possessed themselves by speculation or by going on foraging excursions into the country.

"Both my companion and I were attached to a communal dining room at the other end of the Nevsky Prospect, which meant that a stamp was put on our dinner cards saying that was the dining room we could take our dinner at.

"The herring was not scraped or cleaned, but put into the soup, head, bones, scales and all. I had a tall end, my companion had a head. But the dinner was a good one, we thought, because we got gruel, which is a rare luxury.

"But it is time we hurried into our communal dining room, or there will be nothing left. We line up in the cue, pay our six rubles, and pass along to the counter where the diners are being served.

"There is not much to tell about the eating of our dinner, which took much less time than it does to read about it. We fetched out our spoons and forks, which are not supplied at the dining room, and fell to. The soup consisted of half a herring in boiling water.

"Complaints are always being made even in the Bolsheviki (the only press about the filthy and unhygienic state of these communal dining rooms. But nothing seems ever to be done to improve them.

"The dirty rooms look as if they had not been swept for months. The ingredients are put into the soup unscreaped and uncleaned. The dishes look as though they were never washed. But cleanliness is necessarily a secondary consideration.

"In crowded towns of central Russia the system of 'compression' also prevails, which consists in the compulsory thrusting upon middle-class tenants of members of the proletariat.

"Middle-class flat owners have in many cases been evicted altogether from their flats, which are handed over mainly to members of the Communist party. You can find lots of flats where the owners and their families are cooped up in the kitchen, and perhaps one other room, while the rest of the rooms are occupied by Communist workmen or—in Petrograd—sailors.

"Of course, the incomers are given the right to choose which rooms shall be at their disposal, and furniture being declared communal property, the owners have to shift with whatever is left them in the kitchen.

"Few mothers are able to devote their former attention to domestic duties. Life being so exorbitantly expensive as the result of the attempts to suppress private trading (upon which every one is nevertheless forced to rely for provisioning), mothers also are compelled to work, generally in some Government institution, in order to increase the family income by even the miserable pittance usually paid to women. The standard of pay for women in sedentary occupations is considerably below that of the workingmen.

"Children under 14 are fed at the expense of the state, but the cost still falls on the adult population, for the expense can only be met by a further output of paper money. This in its turn implies still greater irregularity in payment of salaries, and also additional increase in prices all round."

"Mr. Dukes' experiences present an excellent picture of 'freedom' as it exists in Russia today.

More Daylight Bill in House Again. Washington.—A daylight saving bill, an old friend of the house, has again fallen into the hopper. Introduced by Representative O'Connell, Democrat, of New York, it would put the clocks ahead one hour on the last Sunday in March and turn them back an hour the last Sunday in October. In view of the big vote by which the daylight saving law was repealed last year, Republican and Democratic leaders said there was no hope of its enactment.

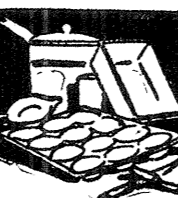

Ship Frozen in Ice Floe 8 Weeks. St. Johns, N. F.—Jammed in an ice floe eight weeks, with 60 passengers and 105 of the crew on limited rations most of the time, the coastwise steamer Prospero arrived safely at Twillingate, N. F., last week. She was bound from St. John, N. B., to this port. A rescue steamer failed to reach her. The food shortage became so acute that sledges loaded with edible were sent over the ice to the ship's side. The breaking up of the ice floe released the Prospero.

THE KITCHEN CABINET.

But what more oft in nations grown corrupt, And by their vices brought to servitude, Than to love bondage more than liberty? Bondage with ease than strenuous liberty?

WHEN FRIENDS "DROP IN"

A nice little dainty to serve with a plain lettuce salad is:

Cheese Biscuits.—To a baking powder mixture add one-half cupful of grated cheese. Roll out to one-third inch in thickness, shape with a small cutter dipped in flour and bake in a hot oven twelve minutes. If the cheese is ready these biscuits will be ready to serve in seven minutes, taking five minutes for mixing. It is a wise plan to have a bottle of grated cheese always ready to add to a white sauce for toast, to creamed potatoes, to omelets and various other dishes.

Scrambled Eggs With Smoked Halibut.—Freshen a half-cupful of smoked halibut by soaking in warm water. Mix four beaten eggs with a half a cupful of milk, one-fourth teaspoonful of salt, a few dashes of pepper. Melt one and one-half tablespoonfuls of butter in an omelet pan, add the egg mixture and cook. When half done add the halibut, drained from the water, and finish cooking. Turn on a platter and garnish with toast points.

Creole Chicken.—This may be prepared the day before and reheated. Cut up a well-cleaned fowl, cover with boiling water and cook five minutes, then simmer in a fireless cooker or on the back of the range for half an hour. Cook two cupfuls of canned tomatoes and half a bay leaf 15 minutes, then strain. Chop one small onion and cook in the bacon fat with minced bacon, using three slices; stir constantly until yellow; add the fowl with the tomato, a tablespoonful of chopped parsley, two red and two green peppers cut in fine strips and two teaspoonfuls of salt. Boil five minutes, return to the fireless or back of the range and cook until the fowl is tender. This makes a fine casserole dish, baking in the oven instead of in a fireless cooker. When ready to serve thicken the sauce with flour. Cook well and heat all together until very hot.

SYNOPSIS.

Comedy takes place at the Rip Van Winkle Inn, in the Catskill Mountains. Plot concerns the mysterious disappearance of a young lawyer, the theft of a \$10,000 package belonging to Miss Henrietta Darby (the Honolulu Humming Bird), intrusted to Miss Mollie, and the failure of Ted Gilmore to appear on specified time to claim his grandfather's property, and the substitution of a bogus heir who turns out to be the real Ted. Mollie, the plucky little housekeeper, and Skeet, the Seketery, put up a game fight to save the Inn from falling into the hands of the unprincipled Dr. Stone. Aunt Jubilee, the cullud cook, whose every line is a laugh, and Miss Loganberry, the romantic old maid, who has waited (seven) years and is struggling desperately to preserve her youth.

Easter and New Clothes

Seems as though nothing will ever eliminate the old time custom of having new clothes for Easter—this year it seems that the "Easter Parade" will be far more impressive than usual because women's clothes never were so attractive.

This store has brought here for you the best of the new styles and offers for Easter selection a wide range of styles in Coats, Suits, Skirts, Waists, Dresses and the smaller things that go to make up the complete costume. May we suggest that inspection now will be very much to your advantage.

The New Suits

If a new suit is your choice you will find a pleasing model in our large stock. Shown are the many different types that are good this season.

Straight lines, of course, predominate throughout, but there are variations to please all—long waisted models—ripple hip jackets—bolero effects—plain tailored—etons—with and without belts—some simply trimmed and others gorgeously embroidered. There's a variety of collars and sleeves throughout the entire line.

The most popular colors and materials are also plentiful and prices are reasonable.

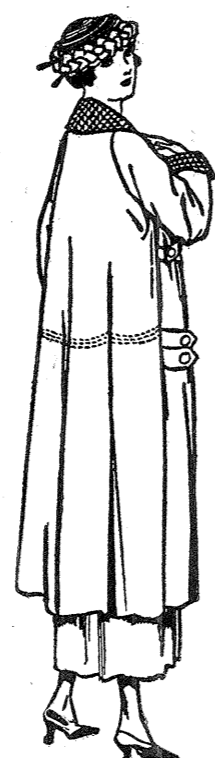

The New Coats

Both long and short models are shown although the shorter coats are the most popular now, particularly among the younger women. Tinseltone, Suede, Silvertone, Pomeroy, Polo Cloth, Duvet DeLaine, Tricotines and other materials have all been used to fashion coats of surprising charm. Plenty of new style touches will be found to please—odd collars, flaring backs—new cuffs—soft shades—front belted and full belted models—many things to interest you in this collection of newest coats.

Another Vicious Circle.

St. Paul Pioneer Press: The landlord soaks on the rent because tenants misuse his property and the tenant misuses the property to get his money's worth out of the rent. What kind of a circle would you call that?

A DELUXE LOAF OF BREAD.

The Zinsmaster Bread Co. of Duluth, Minn., recently made a canvass of the housewives of Duluth to ascertain what loaf they liked best, the baker's loaf or the home made loaf. In all 400 housewives were interviewed and a majority preferred a rich loaf with plenty of shortening and were willing to pay more and stated they would be willing to buy bread if they could find a baker's loaf as rich as their own home-made bread.

This led the Zinsmaster Bread Co. to put out their De Luxe loaf at a price of 20 cents and they advertised it as follows: To contain the best flour with lard and real granulated sugar and plenty of yeast and salt. Commenting on the reception of this loaf Harry W. Zinsmaster, general manager, writes: "This loaf is making great headway and is the best loaf we know how to make and we are advertising the fact that the materials that go into it are the same that the housewife uses in her own kitchen."

Now, you Housewives of Cass City, what do you think of that, and Heller has been making this De Luxe loaf as they call it all the time at a difference in price of 5c per loaf, and state again that I only use the best ingredients the same as you housewives do.—Adv.
