

FOUR DIE WHEN TRAIN HITS AUTO

LIVES ARE SNUFFED OUT AT WISNER CROSSING TUESDAY.

Mr. and Mrs. Thos. Francis, Their Son, Milton, and Jas. Neal Are Victims.

Four lives were snuffed out about 4:45 o'clock Tuesday afternoon when the miners' train on the Detroit, Bay City and Western, going to Bay City from Akron, hit an automobile driven by Thomas Francis, at the crossing at Wisner.

James Neal, and his daughter, Mrs. Thomas Francis, were instantly killed. Milton Francis, aged 5 died in an ambulance while on the way from the depot to Mercy hospital and Thomas Francis died at Mercy hospital about 10:30 Tuesday night, without having regained consciousness.

The Francis family resided on a farm half a mile south of Wisner Corners, and had driven to Bay City to do some shopping earlier in the day, being on their way home when the fatality occurred.

no word that his condition was worse until the evening before the telegram arrived.

Wm. Fleenor was born at Lucas, Ia., Oct. 26, 1871, and died Mar. 25, 1920. He spent the early part of his life on a farm near Lucas and experienced all the hardships that a boy in a new country does in obtaining an education. In 1901 he came to Cass City where he was married to Araminta Kitchin on Sept. 25. They went to Iowa where they lived until June, 1902, when they returned to Cass City.

In 1910 he went to Deckerville where he was manager of the Anketell lumber yard for about three years. After being at home for several months, he went to Pontiac, Detroit and Highland Park. In 1906 he suffered a paralytic stroke from which he never fully recovered. His health has been failing since last July. In February he was taken to a hospital where he died. He was a member of the M. W. A., members of which order acted as bearers.

He leaves a wife and three children, Wayne 17, Maude 16, and Ray 7, also an aged father and mother, two sisters, Rose and Mary Fleenor, and one brother, Perry, of Lucas, Ia.

The remains were brought to Cass City Saturday and the funeral was held Monday, Mar. 29, at M. E. church. Interment in Elkland cemetery.

DECKERVILLE CONSIDERING COMMUNITY CHURCH PLAN

A movement is on foot at Deckerville to organize a community church. This issue has been brought up many times in the past, but until now no real interest has been shown for the movement. Committees have been appointed from the churches of the town, and they will meet soon to discuss plans. A large number of members of the churches are in favor of a community church, and it is hoped that the plan will go through. If, however, the plan fails, the Presbyterians will build a church of their own. This would be a fine structure provided with recreation rooms and all things necessary to make a modern church.—Port Huron Times.

COMMITTEES NAMED FOR FATHER AND SON BANQUET

Wednesday, Apr. 14, Is Date Selected and Plans Are under Way for Big Time.

Preliminary plans have been made for a Father and Son banquet at Cass City, under the auspices of the County "Y". The date selected has been Wednesday evening, April 14, and committees are busily engaged in perfecting arrangements for the event.

M. B. Auten, chairman, has appointed the following committees: Invitation committee—L. I. Wood, chairman; Earl Gowen, A. A. Ricker, N. J. McGillivray, Earl Heller, Frederick Pinney.

Program committee—F. A. Bigelow, chairman; Chas. Wood, Wayne Fleenor, E. W. Jones, H. D. Schiedel.

Dinner committee—C. R. Townsend, chairman; Clarence Burt, H. F. Lenzer.

Publicity committee—James Yakes, chairman; Cameron Wallace.

The executive committee consists of Mr. Auten and the chairmen of the various committees named above.

CHURCHES IN COUNTY CONFERENCE APRIL 9

WORKERS OF PROTESTANT CHURCHES WILL MEET AT CARO FRIDAY.

A Part of the First United and Scientific Interchurch Movement in History.

As a part of a nation-wide religious rally, workers from all the evangelical Protestant churches in Tuscola county will meet, in county conference, at Caro, Friday, April 9, to make plans for the coming campaign of the Interchurch World Movement. This great alliance of 30 Protestant denominations, with 70 per cent of all Protestant communicants enlisted in its ranks, is planning what is claimed to be the first united and scientific interchurch movement in history.

Details of the campaign already have been explained in state meetings to ministers and to a few of the most important church leaders. The county conferences will carry this educational work down to other church workers; they, in turn, are to carry the message direct to the individual congregations.

In the one day session, speeches will be made by church-workers of state importance; plans of the movement will be thoroughly explained; devotional sessions will be held; and a general inspirational meeting conducted. The conference will be held in the Caro Presbyterian church with sessions at 10:00 a. m., 2:00 and 7:00 p. m.

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields and of America, county by county. The facts developed are startling. The charts and maps will amaze you. No such picture of America's religious situation has ever before been drawn. Whether you are inside the church or out, to every man and to every woman who loves his country these 2,000 county conferences are vitally important. For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

INTIMATE ACQUAINTANCE WITH THE "MOVIES"

Mr. and Mrs. Auten Visit Universal City Where Movie Pictures Are Taken.

Pasadena, Cal., Mar. 8, 1920.

Dear Folks at Home: My husband has always declared that he "couldn't bear the movies," but recently he has been "moved" to quite an intimate acquaintance. While on a ride a day last week around Los Angeles, we ran across a machine set upon an auto where evidently some pictures were being taken. Dr. Macauley, who was driving, stopped our car so we could get out and look around to see what was going on. We saw nearby an archway covered with vines, an auto truck standing near, and in the seat were a man and a very pretty woman, evidently movie people being "taken." We wondered who they could be and "I. B." putting on his very best manners and most insinuating smile marched up to their car and winsomely demanded "Who be you?" At least, that is what we supposed he said for he soon returned and announced "He says he's Wallace Reid." Two women standing near us on the sidewalk became quite excited at hearing this and one said, "Oh! I do wish he would give me his autograph!" The other one, "Well, go ask him, he will." So she hollered out "Will you give me your autograph?" But this god of the screen only smiled benignly, as a super-man might smile on poor groveling worms of the dust, winked at his pretty companion and drove away.

This episode aroused our interest in screen actors and Mrs. Macauley suggested that we drive by Mary Pickford's home which we knew was in that vicinity. After quite a little driving and inquiring we found it, tho' at present she is not living in it. A lady whom we accosted for information told us that she lived there last year, but her friends held such orgies, smashing chandeliers, etc., that the real owner forced her to leave. This place is beautiful beyond compare—a white palace surrounded by wonderful grounds. The house is exactly as represented in Ladies' Home Journal last fall. I recognized it at once by the carved lions at the doorway. As we were out on a movie "foot" we that we'd hunt up Douglas Fairbanks' and Charlie Chaplin's homes. We found two, side by side, which are the ones the guides of the sight seeing cars always point out as belonging to them, but a lady, living in the neighborhood with whom we

talked, said they had never lived there but "Doug" had occupied one next to them during one season. Their real homes were farther away so we gave up the search as it was getting time to go home.

My friend, Miss Adams, and I had wondered how we could get to Universal City where the pictures are taken. It used to be open to visitors, but one has to have a pass now. Thru some friend she secured passes for five people and invited my husband and me. It was an all day trip by trolley car. We arrived at noon. Took luncheon in a cafe on the grounds. It was an interesting crowd of people, nearly all actors in their stage costumes. Turks, cowboys, women in fancy dress and some children. After lunch we started out to find the places where pictures were being taken. The grounds spread over several acres, and as there were no guides, we hardly knew where to go. We saw all around us exteriors of buildings of every description. It looked like a strange city gone to ruin, as only the outside walls were standing. We wandered thru little villages with their vine-covered cottages, post office, church, etc., Wild West towns with foot hills beyond; streets in Spain, Paris, Egypt or anywhere you like.

We found a street in "Turkey," a group rehearsing a thrilling scene. Some men on horseback were placed outside an archway while some soldiers went through a kind of drill under it. They went over it again and again in the hot sun before the picture was taken at last. The man with the camera told "I. B." that it "certainly required the patience of Job." Our party sat on some steps opposite the scene and were thankful we weren't "in it." The name of the play was "The Bloody Dagger."

Later we made our way to the studios where the interiors are taken. These consist of a series of rooms having three sides. When not in use the fourth is covered by a canvas curtain. In the very last, we found a scene going on in a millinery shop. The room was very large but only two sides were set for the picture. It was all the real thing, boxes tier on tier, show cases containing ribbons and flowers, and long tables where real hats were being made. Here again and again the performers went thru their act. The director stood in front of them with a megaphone, tho' sometimes he would take a girl and show her exactly what to do. Three musicians sat at one side and when the attendant blew a whistle, they began to play and the director to direct. At first call, 10 or 15 girls came in thru a door and took their places at the work tables. At second call a little stenographer took her place at a desk, after hanging up coat and hat. While standing apparently in meditation, a third call brought in a breezy blond who, after saying good morning to the others and examining her work drawer for an instant, stepped across to the little stenographer, put her arm around her and seemingly sympathized with her. The idea was to convey that the latter was afraid she was to lose her position. The blond returned to her work table, the stenographer put on hat and coat and went out. That was all, but they worked on it all the while we were there, which was at least an hour. It was interesting to see that each rehearsal made it a little better. When all was ready a dazzling light was thrown on the actors while the camera man got in his work. I asked one of the millinery girls near whom I stood what the picture was. She said she didn't know. She seemed listless, just a part of the machine. I asked who the principal actress was. She said she didn't know, they were "all stars."

EXTENSIVE CO. ORGANIZATION OF REPUBLICANS IN TUSCOLA

County Republican Committee Now Comprises 47 Enthusiastic Men and Women.

Republicans of Tuscola county advancing the belief that their party stands for honest, efficient and economical business administration have formed an extensive county organization for the realization of a Republican victory in the county, state and nation. The County Republican Committee now comprises 47 enthusiastic townships who are to be instrumental in promoting an active campaign, the outcome of which is hoped to be characteristic of the Republican party.

For the first time in Michigan women will have an opportunity to express their preference for president, governor, also state and county officials. Politics are new to the women, but indications are they will quickly familiarize themselves with the complex customs, and some of the "clinging vines" are considering the fact that they, too, can and should interest themselves in the joys of political victories or "manfully" abide by those who say nay.

The personnel of this vast committee is indicative of Republican principles practically applied. Every member enjoys the confidence and highest regard of his or her fellow-citizen which would indicate that the political matters are to receive the same consideration that is characteristic of their individual methods:

H. P. Bush, county chairman, Caro. Mrs. Belle Knapp, vice-chairman, Cass City. E. E. Gurney, county secretary, Caro.

Mrs. J. W. Braun, assistant secretary, Caro. Akron—John Dossier; Mrs. Robert Kennedy. Almer—A. T. White; Mrs. Frank Bowles. Arbelo—W. C. McNeal; Mrs. James Crosby. Columbia—E. O. Babcock; Mrs. Earl Cook. Dayton—Andrew Haley; Mrs. C. L. Coffeen.

FARM SEASON PROMISES WELL

CONDITIONS SEEM PROPITIOUS FOR THE SPRING PLANTING.

Considerable Apprehension Over the Farm Labor Supply.

Soil conditions are to be very propitious for the spring planting, for the reason that the winter just closing, although cold, showed less fluctuations in temperature than usual in this climate, says the report of the Seventh Federal Reserve district. The wheat crop, however, has suffered some deterioration.

There is considerable apprehension over the farm labor supply in all parts of the district. Advances are it is impossible to hold an unmarried man as a farm hand except on terms equal to those offered by city manufacturers, namely short hours, high hourly rates. This is the chief explanation for the decline in wheat acreage. The increased prospective acreage of corn apparently represents an effort to stop the decrease in live stock herds through the Middle West.

Replies to our questionnaire regarding the farm status showed the average increase in farm wages from 1914 to be 70 per cent, the lowest reported being 20 per cent and the highest 100 per cent. The deficiency of farm labor showed by the average is 30 per cent of the total required to man the farms. In one region there is a deficiency of 80 per cent compared with normal, but the prevailing average ranges between 25 and 40 per cent.

The gross productivity per acre in the district appears to average \$95 against \$22 in 1914, but the valuation of lands covered by this inquiry have risen on the average from \$175 in 1914 to \$340 in 1920. This increase represents actual bona fide prices for prime farm lands. Many transfers are reported above \$400 an acre and one is reported at \$600 an acre. From other sources come reports of even larger figures. The corresponding price in 1914, based on actual sales and transfers, was between \$67 as the average low and \$75 as the average high. No quotation in this investigation of 1914 land values was above \$300, and the lowest reported in that year was \$35. Values of improved farms including machinery and buildings reflects less speculative activity, but prices range from \$700 down at present.

AUCTION CALENDAR.

Two auction sales will be held today (Friday)—on the Wm. Loney farm in Evergreen township and on the Wm. G. Moore farm in Elkland township.

Two sales are advertised on page 7 today for next week.

M. D. Bechtel has authorized R. N. McCullough to sell his personal property at auction on the Harve Delling farm in Sec. 1, Ellington, on Tuesday, Apr. 6.

Henry McConkey will have a sale 3 1/2 miles south of Gageton on Wednesday, Apr. 7. L. S. McEldowney is the auctioneer.

DIED OF SLEEPING SICKNESS.

James McLure, 14 year old son of Mr. and Mrs. Benjamin McLure of Sandusky, was taken sick Tuesday, and died Wednesday with acute sleeping sickness. Dr. Jones of Bay City was called by the family physician for consultation and every effort was made to subdue the high fever. James is a nephew of Mrs. B. F. Gemmill of Cass City.

ENTIRE WEST IS ENJOYING GOOD PROSPECTS

Seattle's Labor Situation Improved and Industries Are Humming Says H. L. Pinney.

H. L. Pinney, cashier of the Exchange Bank, returned Monday evening from Seattle, Wash., and says that city, which has gained the distinction in recent years of being the second most important port in the nation, is decidedly "on the map" these days. The port has a tremendous amount of traffic, ship-building operations are being renewed with old-time vigor and there is promise of heavy tourist travel through this port for Alaska and Northwestern points. The entire West seems to be enjoying good prospects.

The labor situation in Washington was very much upset during the war. The I. W. W. had a considerable following and their activities interfered greatly with the shipyard industry which caused yards to either shut down or go on "low steam." The Centralia tragedy in which American Legion members were killed and wounded while on parade sent seven of the I. W. W.'s to the penitentiary and more indictments are pending. The labor situation has greatly improved, Mr. Pinney learned. Labor is more tractable and shipyards promise to hum in the near future. Master Builder Rogers has contracts approximating \$25,000,000 and promises to restore shipbuilding to the prominence it formerly held with Seattle's industries.

Seattle has a street railway system which has made several improvements since it became the property of the city. The municipality and the street car company were at loggerheads while the system was under private ownership with the result that improvements in service were few and far between. The city management has greatly bettered the service and has instituted improvements, but thus far has failed to divorce it from politics.

Mayor Caldwell, who was recently elected to office over the radical candidate by the largest majority ever given a man for that position in Seattle, has fired several political appointees of the old regime and placed a practical and efficient street car expert in charge of the municipal system. Caldwell's election was a source of satisfaction to Seattle's representative business men.

Mr. Pinney, on his return trip, fell into conversation with a business man of Fargo, N. D., who was going home from the coast. He voiced his dissatisfaction over the Anti-Partisan League's hold on the government machinery of North Dakota. This man's taxes had been increased from \$450 to \$1,600, and in spite of the increase in taxes, he said the state treasury was empty while farmers were being mulcted instead of profiting by the supposed beneficent form of government. From conversation with the North Dakota man, Mr. Pinney was convinced that the League was a positive menace to American institutions and its desire to spread to other states should receive strong objections on all sides.

Mr. Pinney was in Seattle several weeks looking after his business interests in the west. Unfortunately all the members of his family were victims of either the lagrippe or the "flu" while he was in that city and his visit home was not as pleasant as he anticipated for that season. They had fully recovered before he started back east.

CONDENSARY IS ABOLISHING SMOKE ANNOYANCE

Boiler Equipment Is Being Overhauled and Improved by Toledo Engineers.

W. J. Lawrence and Associates, engineers of Toledo, Ohio, are making extensive alterations and improvements in the steam boiler settings of the plant of the Nestle's Food Co. at Cass City. The boilers are being raised, a series of baffle walls are being placed under the boilers and air ducts installed. The new arrangement assures better efficiency from the fuel, whereby air and gasses are controlled and brought back to fire. This lessens to a great extent the smoke nuisance.

"Perfect combustion means smokeless combustion," Mr. Lawrence remarked to the Chronicle Wednesday, "and the improvements we are installing will bring about as near perfect combustion as possible by hand fired boilers. I estimate that the changes we are making will mean a 40 per cent saving in fuel to the factory." Mr. Lawrence was formerly with the engineering department of the U. S. Fuel Administration at Washington, D. C.

Smoke from the factory has been a severe annoyance at certain times to residents, especially those residing in the northwestern portion of the village and the improvement will be greatly appreciated by them. One boiler is already equipped and the smoke issuing from it comes in a much less quantity and density than from the stack of a boiler which is operated under the old system.

WM. FLEENOR DEAD

Remains Were Brought Here and Funeral Held Monday.

On March 26, Mrs. Wm. Fleenor of Cass City received the word that Mr. Fleenor was dead. Since visiting Detroit in February, she had received

THE MEANING OF EASTER

As people attend the worshipful services of Easter Sunday, they will be reminded that Easter has two suggestions. The one is the joy of the spring time. The return of the sun, the new vegetation and promise of growth, always deeply impressed human nature. There have been popular spring festivals in expression of this feeling since earliest history.

There is a close connection between the physical thought of the revival of the dead earth from the cold grasp of winter, and the resurrection of the human spirit. When the bleak storms of January pass over the colder climates, no suggestion of life is visible. A man from a tropical latitude not accustomed to seasonal change, might feel that life was extinct, and could never return.

So it was that in the world's earlier history, faith in a spiritual resurrection did not at once develop among all peoples. As far as they could see death ended all.

With the coming of Jesus Christ, the world passed on to a new interpretation. Probably no fact of ancient history is so well authenticated as the resurrection of Jesus.

The risen Christ was seen by a large company of disciples, none of whom expected his return. They had parted from him as they thought for good. His appearance had to be so clear and explicit as to dispel the doubts of a lot of people at the same time, and they agreed as to the facts of his appearance. Those of a skeptical nature had a chance to satisfy their questionings.

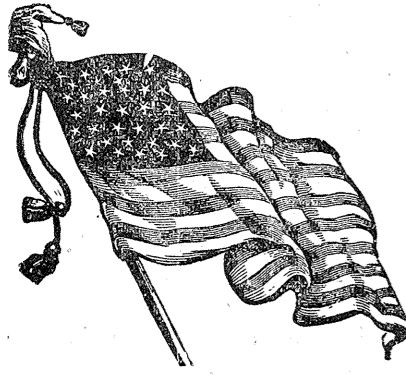

An event so marvellous and well attested has therefore become the great landmark of the centuries and the culminating event of the Christian year. It gives man confidence that as the dead stalk of January blossoms forth into the colorful flower of July, so the outworn shell of man's body shall again bloom forth into the spiritual beauty of a new world.

Letter from Mrs. Auten in California to Mrs. McKenzie and M. B. Auten

1260 No. Michigan Ave., Pasadena, February 29,

Dear Folks:

The other day when out driving we came across a movie village. It seemed as though I had often seen the place in the pictures. There was the Eagle Tavern, the post office, the little cottages always with vines growing over them, the little church where we see the bridal parties fluttering out. Everything was there that could be required for a set of pictures. The mountains and foothills at the back, the ocean in front where two high boulders formed a cavern through which the waves rushed; and farther along a long stretch of beach. A cow boy and girl were riding down the path most picturesquely attired.

After these few days' rain, every tree and shrub is bursting into bloom where it seemed as though everything was as green as it could be before. The only thing that could make one believe that it was winter is that there are so many furs worn, and long fur coats are almost as common as in Detroit. They must be burdensome, and a great care. One woman on the train had an elegant sable for which she said she paid \$2700. She never dared leave it a minute. Every time she stepped off the train she had to take it with her, and at other times she folded it carefully and put it in a bag. "Blessed be nothing."

Meeting and seeing people is most interesting. When I was at the Grand Canyon, sitting on a bench looking out over the "little hole" as the head waiter called it, a woman took a seat beside me and proceeded to tell me her life history. She was very richly dressed with diamonds galore. She even told me her age (30) while her husband whom she pointed out was like Mr. Salteena in "Little Visitors," an elderly gentleman of forty-two.

The poor man had lost a leg, was leaning on crutches and looked very melancholy. All the details of his affliction were related to my sympathetic ear. Most people seem to have their troubles, probably all people if we knew about them. So many come out here with possibly a profession or a trade, thinking they'll find heaven and something to do but they find that hundreds of others have that the same thing and every place seems to be filled. Two families with whom I've come in contact are having just that experience and are pretty nearly crazy. They've burned their bridges behind them in the East, the men are out of employment, money is dwindling away and the great question that confronts them is "What shall we do?" There are probably better opportunities in the smaller towns but Pasadena is a city for the rich.

Thursday we had another long drive, took our luncheon as usual, and ate it "away down deep" with mountains on all sides. Luncheon being disposed of, the three men of our party took off coats and vests and went for a hike; while we women made ourselves comfortable on rugs, lying in the sun. Mr. Jackson and Dad came back two hours later without Mr. Wells, and for a time were much excited, fearing he had fallen somewhere. They started out to find him, but he soon appeared and things were calm again.

Every pleasant day the Jacksons take us somewhere in their car. In whatever direction we go it is beautiful homes and cozy bungalows that seem like stage scenery, covered with roses and ivy. I had never imagined anything half so wonderful. My supply of adjectives was exhausted long ago. Mary Pickford is building a palace not far from here. We drove by there the other day, but were not sure which of the places was hers. There are hundreds of houses as lovely as those of movie actors we saw in the Ladies' Home Journal not long ago.

Dr. McCauley, with whom we are staying, has a car too, and he takes us to church on Sundays. The pastor of the Congregational church is a wonderful speaker. We've heard him

on "Sir Oliver Lodge and His Theory of Spiritualism" and "Characters We Have Met." Next Sunday evening he will speak on "Shylock, Is He the Ideal Jew?" Dad was planning to spend the week-end with the McDermott's in Santa Ana, but may postpone his visit to hear this lecture.

It is raining today and we've come down to the library where Dad is reading a week old Detroit Free Press and I'm occupied as you see. Shall not go back to our boarding place 'till evening.

We've found Mrs. Richardson and Mrs. Healy at a nice family hotel and take our dinners there when we're in town. (Old Caro friends.) Amusements of some kind are provided for tourists at all the big hotels. There is no real theatre yet, but one is being built. There are many movies. Saturday evening we went to a play called "Trelawney of the Wells" given at the Community Play House by local talent. It was very well done. This evening we are going to the Green Hotel to some kind of entertainment. These are all free and we can attend something every night. "This is the life."

DEFORD.

Will D'Arcy went to Birmingham Saturday to visit his brother.

It looks now that if we had more houses to rent all would find renters.

Another new case of flu in town this week. Benj. Sharp is the victim.

William Parks, sr., expects his son, Howard, home April 1 to do the farm work.

Doc Merriman's right handed man has gone to his farm near Decker-ville.

Mrs. Minerva Lewis, who has spent the winter at Kingston, has returned.

Miss Iris Curtis visited her grandmother, Mrs. Whale, at Cass City over Sunday.

The persons who kill an insect eating bird is an enemy to their country and themselves.

Amos Webster and Merchant Crosby made a business trip to Pigeon on the 25th. They went by auto.

Mrs. Susan Slack of Novesta is at home again after an extended visit with friends near Kingston.

On April 5, Nelson Hicks, expects to move his household goods to Flint.

A truck will take the goods Mr. and Mrs. Archie McPhail of Detroit were here last week to see how matters moved on their farm in Novesta.

E. A. Cones shipped two car loads of stock from this place to Buffalo Saturday. He expects to be in market for stock from now on.

Mrs. John McCaughney of Pontiac was here this past week settling up the personal matters in connection with the farm lately sold near Novesta Corners.

Nick Suasa, who has spent a year on a farm two miles east and one-half mile south of here, has gone to Detroit again to live. The failing health of his wife is the cause of his change.

The writer was born in a land where the people believed that Satan's imps were given liberty to enter into and possess all things of evil propensities at certain seasons. This spring 'tis the hen eating eggs. Wring her neck.

Perhaps by the time this is in print the moving chain of our burg will be rattling. Sister Myers must make the start, then Bro. John McCracken will move to the house she vacates. Bro. Crosby will drop in as John goes out. Sister Warner will fall in where Crosby vacates. All things are set on edge and the moving will be done in 48 hours. The parties are on tip toe just waiting for Sister Myers to ring the bell.

There was a commotion in the burg, end of past week. Merchant Crosby had bought 34 fine Plymouth Rocks and settled them in a hen park on his new purchase, with John McCracken to guard them with valiant care. John being of clear conscience, sleeps heavy, and while he slept an unruly dog came, being attracted by beef bones in the park. He tunneled under the fence conferring the liberty of the town on the choice flock. Bro. Crosby came early next morning to see if all was well and when he saw the situation, cried for aid with a loud voice. The namesakes of the Pilgrims were gathered in and now the man of "Hemology" avers that if the peckey quadruped returns to alike behavior he will die the death of the wicked and his bones will be interred in unfriendly soil.—Canine owners take notice.

Laundry Dries Fruit.

Drying fruits and vegetables is now a laundry by-product. The mechanical driers are thus made use of when not otherwise employed.

Next Sunday Is Easter Sunday

This is a day that makes us feel that spring is here and we must come out with our new spring apparels. A great many of our customers have taken advantage in the early buying, and to those who could not, we assure you that any garment you buy from us this next Saturday will be altered for you, if necessary, so as not to disappoint you in your Easter plans. We are showing a line of merchandise such as has never been shown in this town before.

With such a wonderful collection of merchandise as we have here for your selection, we feel confident that any one in need of a ready made garment or yard materials, cannot afford to miss seeing our lines before buying.

The Coats That Give Satisfaction

Our coats are individualized by artistic workmanship. Not only do our coats give satisfactory wear, but they retain their shape and luster, which so many lose after being worn a few times. With these essential qualifications, our coats are also fashioned with unsurpassed distinctiveness.

Our prices have been kept at a level that make value a certainty.

Spring Skirts For Our Easter Trade

The new pocketed and belted effect, ruffled or tucked, seems to be the leading style in separate skirts.

You cannot afford to miss seeing our line of petticoats before buying for our prices are so extremely low, that in many instances we are selling them at what it would cost to replace at wholesale prices—but these petticoats were bought some time ago, which makes it possible for us to do this.

All members invited to come and bring a friend.

W. H. Murphy's auction sale of household goods Saturday was a hummer and he is very well satisfied with the results. "I think I had the largest crowd ever assembled at a furniture sale in Cass City. The lot was practically filled with people," he told the Chronicle. Mr. Murphy has rented the John Krapf residence until the middle of May. At that time Mr. and Mrs. J. C. Farrell will move to that house.

About 55 of the friends and neighbors of Mr. and Mrs. Israel Palmar surprised them by gathering at their home last Friday evening to celebrate their 29th wedding anniversary. They received many beautiful and useful gifts of pyrex, cut glass and silverware. A lunch consisting of potato salad, sandwiches, pickles, apple salad, fruit salad and cake was served. The evening was spent in games and visiting.

So many changes have been made in the dog law in late years that few people appear to understand the latest provisions of this law. Until this year, the township clerk has collected the dog taxes and furnished tags and in 1919 the total in Tuscola county was 2,500. This year the township treasurers have the "job" and thus far only 1,411 licenses have been granted in the county. All names of owners of dogs and all extra tags have been turned over to Co. Treasurer Sanson. Believing that in many instances delinquents have failed to respond because they did not fully understand the law, Mr. Sanson is giving owners an opportunity to pay the tax directly to him and for a short time will send tags to all who remit or pay to him the amount of the tax. Next in order comes a lot of dog funerals with the owners of dogs who do not carry tags paying the expenses of the execution and interment.

The Night Hawk club met at the home of Mr. and Mrs. Wm. Ohls Tuesday evening for an April Fool's party. A supper of creamed potatoes, salmon loaf, egg salad, scalloped tomatoes, cottage cheese, rolls, jello, pineapple pie and coffee was served. The place cards were worthy of special mention, being decorated with moths whose wings were made of shells picked up in the Gulf of Mexico. The evening was spent in the usual visiting and good time. It might be added for the benefit of F. J. Nash, Jr., and L. Bailey that "everything comes to those who wait" whether it be in the form you expect or merrily in a glass of water well salted.

Robt. Charlton of Detroit has purchased the 120-acre farm of Samuel Striffler together with a portion of the live stock, implements and grain for \$15,500.00. Mr. Striffler hated to part with the homestead where he was born and has spent his entire life but his failing health made it advisable for him to leave the farm. Mr. Charlton, until a few years ago, was a Novesta township farmer. Life in Detroit failed to quell the longing for the fresh air and the free life of the farm and he's glad to come back again. Mr. Striffler will move to Cass City, having purchased the Wm. Weldon residence property on Seeger St. for \$3,500. Both real estate deals were engineered by the Fritz & McCullough Agency.

Mr. and Mrs. C. R. Townsend left Thursday morning for Ann Arbor.

Geo. C. Hooper has resigned his position at the Exchange Bank to accept the management of the office of H. T. Crandell.

Mr. and Mrs. G. A. Striffler attended a banquet of tractor dealers of Tuscola county at the Hotel Montague in Caro Wednesday evening.

Henry Brown of Flint is in town on business. He expects to remain about three weeks during which time he will visit with relatives in Cass City and Hay Creek.

Mr. Fitzpatrick, representing the Western Union, was in Cass City Wednesday conferring with local business men regarding the establishment of an up-town telegraph office. He was well pleased with the encouragement he received from them and assured Jos. Frutchey, president of the Business Men's Association, that his report to the company would be favorable to the project.

Fred A. Emigh and Miss Ethel Urquhart, popular young people of Evergreen township, were united in marriage Wednesday noon at the Baptist parsonage at Caro by Rev. Eldred Charles. The bride was becomingly gowned in a pretty dress of tan crepe de Chine trimmed with beads and floss. The couple were attended by Albert Whitfield and Miss Nellie Urquhart. Mr. and Mrs. Emigh are enjoying a honeymoon trip to Pontiac, Pt. Huron and Marlette. They will reside on the Urquhart farm.

CLOTHES WRINGER TO TEST MILK

State Inspector Finds Old Uby Game Still in Operation at Bad Axe Milk Plant.

(Huron County Tribune).

A Michigan state dairy and food inspector was snooping around Bad Axe one day this week, as is their custom every month or so. He dropped into the Milk Products Co. plant unannounced and unknown and began testing milk as the cans were being unloaded.

Mr. Woodworth's inspector expressed the belief that the old Uby game was being worked again and that a number of cows in the vicinity ought to have their backs shingled, or covered with roofing paper to keep the rain from getting into the milk. The opinion was also expressed that it might be necessary to put some of the milk through a clothes wringer in order to tell just what it was.

It is understood that samples of milk and owner's names were taken to Lansing and that there will be something doing very soon.

Perhaps milk ought to bring higher prices, but this is not the way to raise the price.

WELSH-PAUL NUPTIALS.

Henry Paul and Ellen Jane Welsh were united in marriage Wednesday, March 31, at high noon at the M. E. parsonage in Caro. They were attended by Mr. and Mrs. Wm. Paul. The bride wore a beautiful dress of silver gray silk and the groom wore the conventional blue serge. After the ceremony the party had dinner at the Hotel Montague. They left on the afternoon train from Deford for a short visit in Pontiac and Detroit. They expect to return home Saturday.

Saturday evening their neighbors and friends will hold a reception for them at the Henry Paul home.

Michelin Red Inner Tubes

THE RIGHT AND WRONG IN INNER TUBES

The pictures at the left illustrate an important difference in inner tubes about which you should know:

The tube that hangs in a curve is a Michelin Red Inner Tube. The Michelin Tube has this shape because it was made by the exclusive Michelin process on a round or ring-shaped mandrel, so that it is curved like a tire at all times, whether inflated or not. The other tube—the one that hangs straight—was made on a straight mandrel. When deflated this tube is flat and straight, as you see; but when inflated it is necessarily forced into the same circular shape that the Michelin Tube naturally possesses at all times. Obviously this forcing must stretch the straight tube thinner on the outside, or compress it into wrinkles on the inside. In either case the tube is weakened.

Now, which will give better service—a circular Michelin Tube that naturally fits the round casing, or a straight tube that must be stretched round to fit?

Remember, that Michelin Red Tubes, like Michelin Universal Treads, cost less than many other quality makes. Give Michelins a trial—we ask no more.

CHURCH NEWS.

Presbyterian—There will be service Sunday morning at 10:30, followed by Sunday school at 12:00.

Greenleaf Presbyterian—Paul J. Allured, Minister. Service on Sunday, at 3:00 p. m.

Christian Science—Services are held every Sunday morning at 11:00.

Baptist—Special Easter services. Morning subject, "Is the Resurrection of Jesus Christ a Fact or a Theory?" Sunday School, 11:40. Evening subject, "A Great Calamity."

Evangelical—Special Easter services on Sunday. A rousing session of the Sunday school at 10 o'clock. Easter sermon by the pastor at 11 o'clock and baptismal service for children and adults; also reception of new members. The Junior and Senior Young People's Alliances meet at 6:45, and a missionary service at 7:30. Special music at all services. This is the last Sunday before the annual conference, so a full attendance is desired.

Argyle M. E.—Revival services will commence at Argyle on Sunday evening, April 4, at 7:30. Rev. Wm. Malcolm Young of Detroit will be with us on Tuesday evening and will preach every evening until April 25. Come and hear him. Preaching service at Wickware on Sunday morning at 10:30, Sunday school at 11:30. Service at Holbrook in the afternoon at 2:30.

Methodist—The Easter revival services has been gaining in interest and the church is getting into the swing of the revival spirit. A foregone conclusion, as is true in every revival effort, the church must first experience the reviving and renewing. This perhaps ought to be true the year 'round and not only at such seasons, yet revivals are a much needed factor in life generally. The merchant inaugurates the revival in business at certain seasons of the year by means of spring openings, special sales, etc. The farmer has a revival in his work, and so it goes through the majority of the activities of man, and now nature is in her mighty revival of springtime, so naturally and necessarily the church needs the quickening and inspiration of the revival method.

House cleaning time in the church brings new devotion, larger vision and increased vigor in the performance of the duties and pleasures of the church. The individual needs a similar treatment. The cobwebs need to be swept down, old worn-out or broken furniture of the heart needs repair or new in its place, the windows of the soul should be opened for the breeze of the Eternal to blow through and renovate. When is there a better time than this wonderful Easter to make the heart and life ready for this Guest, the Risen Lord.

The services were first announced to continue until Easter but it now appears that they will not close on next Sunday but will run through the following week. The pastor is in charge and there are no clap-trap methods used. No one is in any way embarrassed purposely. These are hearty, wholesome, helpful meetings where if you are right you may help others, and if not, you may get right, start life anew and enlist with Christ in the mighty endeavor to reach the fellow next to you. The special music numbers are exceedingly helpful, solos and quartets. The sermons—well—you come and judge for yourself. It is not necessary that you be a Methodist to attend this services. All are invited.

Next Sunday Easter Day. There will be a Sunrise prayer-meeting at 6:30. A great blessing will come to you if you attend this service. Easter music and sermon at the morning and evening services. Reception of members.

CANBORO.

Some of the farmers are buzzing wood these days.

Mr. and Mrs. Fred Mellendorf and children of Oliver visited at John Parker's Sunday.

Miss Vera Hall of Canboro and Hector Shaw of People were married last Wednesday. Congratulations.

Fred Hall had the misfortune to break his arm while cranking a car last Tuesday.

The Canboro school will have a picnic and entertainment in the Macabee hall Wednesday evening, April 7. The Star ladies of Elkton will put on the program. Ladies, please bring pie. Everybody welcome.

Mr. and Mrs. Ulysses Parker and daughter of Owendale visited at the Wm. Parker, sr., home Sunday.

"When You Are in Rome," Etc.

The saying is taken from St. Ambrose's advice to St. Austin in regard to Sabbath keeping. He says to St. Austin: "When I am in Rome I fast as the Romans do; when I am in Milan I do not fast. So likewise you; whatever church you come to, observe the custom of the place, if you would neither give offense to others, nor take offense from them."

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Williams New Revenue Collector.

Washington.—The senate has confirmed the nomination of William Martin Williams of Alabama, to be commissioner of internal revenue, vice Daniel Roper, resigned.

Plumbers Get Only \$12 a Day.

Birmingham, Ala.—Journeyman plumbers of the Birmingham district have been granted a wage of \$12 per day, with double time for Sundays and holidays. The increase, master plumbers say, will be passed along to builders and householders.

Wooden Shoes May Be Next Fad.

The Hague.—Dutch manufacturers are going to introduce the wooden shoe to the American people. Representatives of several large factories have left for the United States, where they will try to interest wholesale and retail shoe dealers in wooden footwear.

U. S. Spent 16 Billions For War.

Washington.—Actual expenditures by the war department on account of the war with Germany total to date \$16,000,000,000, according to General William Lord, chief of the finance division of the war department, in testifying before the house military affairs committee.

Pensioned Ministers Get \$15,000,000.

Chicago.—Over \$15,000,000 will be spent by the Methodist Episcopal church this year in caring for its 7,500 pensioned ministers and their dependents, according to a report made to the board of claimants. This sum probably will be increased to \$25,000,000 next year, it was announced.

Travel By Plane Popular in Europe.

New York.—Airplanes are rapidly becoming the commercial travelers' favorite method of transportation in Europe. Handley Page told members of the New York Electrical society and Aero club of America at a dinner here. He says their record challenges all other means of transportation.

Sub-Chasers to Be Sold At 1-3 Cost.

Washington.—Offer of sale to the public of 150 submarine chasers built during the war has been announced by the navy department. Constructed at an average cost of \$67,000, these craft are now appraised, it was said, at \$20,000, but several already had been sold at a figure slightly below this.

Maryland Balks On Dry Enforcement.

Annapolis, Md.—Maryland's ratification of the eighteenth amendment in 1918 met with its first concrete disapproval last week when the bill introduced in the lower house of the general assembly, providing state machinery for enforcing prohibition, was called up as a special order of business and killed 39 to 62.

Says Allies Subsidized News Agencies

Washington.—Charges that four or five great nations had "subsidized news agencies in order to play their political game throughout the world" were made before the house merchant marine committee by Walter S. Rogers of Washington, in charge of government transmission of news to foreign countries during the war.

Soldier Dead to Be Brought to U. S.

Washington.—An agreement under which American dead in France, whether within or behind the battle zone, may be removed to the United States as soon as arrangements have been completed, has been reached at a conference between representatives of the French and American governments. The agreement awaits the approval of the French government.

Train Wreck Frees 2,500 Chickens.

St. Louis.—About 2,500 live chickens on their way from Denison, Tex., to New York, stopped off at West Alton, Mo., to reduce the high cost of living when their car was wrecked by a side-swiping locomotive. After being freed from the demolished car the chickens scattered in all directions, and within a short time residents of West Alton were engaged in a chicken hunt.

Income Tax For 1919 Is \$3,500,000,000.

Washington.—Income and excess profits taxes aggregating \$908,828,172 were paid as the first installment of the nation's tax bill for 1919. While these figures do not represent an exact one-fourth of the taxes for last year, they indicate collection for the entire year of approximately \$3,500,000,000, treasury officials say. The first installment more than offsets outstanding treasury certificates of indebtedness, issued in anticipation of the payment.

War Kills 50,151, Industry 126,654.

Dancer.—Industrial fatalities in America were greater than the country's battle fatalities. Isaiah Hale, safety superintendent of the Santa Fe System, said in an address here. "During the 19 months America was at war," he said, "while the Germans were killing 50,151 American soldiers in France, there were 126,654 civilians killed in this country, workers in our industries, men and women on our streets, children in our homes—an average of 220 a day."

Mary Pickford IN HEART O' THE HILLS

Adapted from the famous novel by John Fox, Jr.

AT **Temple Theatre, Caro**

Next Wednesday and Thurs., **APRIL 7 and 8**

Matinee, Wednes., 2:30 P. M.

You will fall in love with Mary Pickford all over again in this story of her loyalty to "Pap" in the feudist battles of the Kentucky Mountains. She is the same beloved Mary with her smiles and tears, her loves and hates, her whims and winning ways in an entirely new role, that of a mountain girl, a night rider and head of the Clansman. You ought to see her dance the Kentucky Shindig. This alone is worth driving many miles to see. Plan to go next week.

Added Attractions—Vocal Solo by Miss Gladys Chapman, Bray Animated Cartoon and Ford Weekly. Evening shows start at 7:30 and 9:00 p. m.

Admission—Eve., adults 55c, children, 25c. Matinee, adults, 40c, children 20c.

--WINNING APPEARANCE

CONSIDER a man's clothes—consider their mission in the life of a man who is successful, or what they mean to the man who wants to be successful.

Clothes play a big part—in the ball room, in business, in school, anywhere.

Consider the man in the picture—in formal surroundings. The impression he makes, in company, depends very much on his clothes. Other things count, of course—but a man is judged, first by appearance, because appearance speaks before the man.

Kuppenheimer good Clothes

are intimately associated with successful Americans. Men of every age, of every type, of every personality, find in them the proper medium to attain good clothes-appearance.

This store has Kuppenheimer good clothes for men; new Spring models; they're worth seeing because they're worth wearing.

Why Leave the Farm?

The unprecedented exodus from the farm to the city is assuming such alarming proportions as to become almost a calamity. At a time, too, when farming is more profitable and the comforts and attractions of farm life greater than they have ever been.

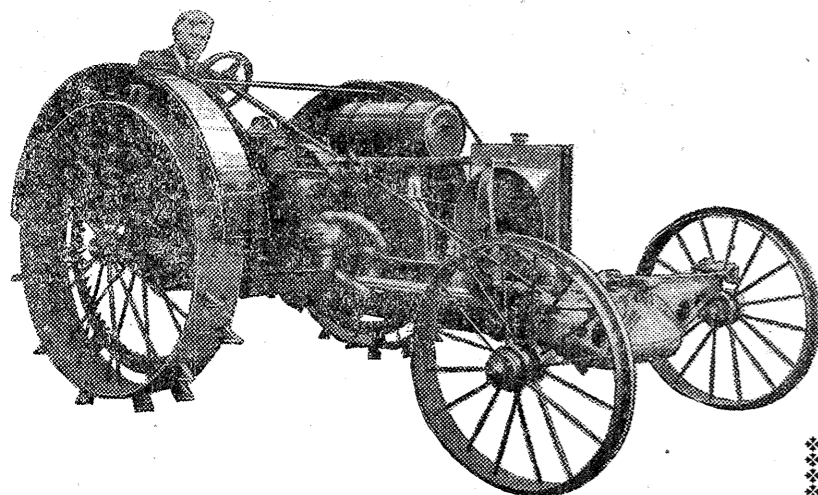

So-called high city wages, the bright lights and the movies do lure. The enormous city rents, terrific and constant expenses, and the incessant grind of it all for the wage earner, are not often considered by the farmer bent on living in the city, until he gets under the burden. The proceeds of his farm only partially pay for his city home and he starts "on the long, long trail" of monthly payments which cause many a sigh for a respite from his endless toil, and a longing for the old farm. Many would return, but few can save money enough to buy back.

FRIEND FARMER, if you are dissatisfied and want to move to the city, remember, the country needs and will pay well for your products, you are now your own boss, your outdoor work is conducive to health, you have a bank account and credit at the bank. Is it not well to recognize your present blessings and stick to the business you know best, "the old farm."

The Exchange Bank

H. L. Pinney, Cashier

Capital and Surplus over \$50,000.00.

Look Us Over

Since the average farmer is not a master mechanic he cannot afford to purchase a tractor with a much complicated engine and transmission, but he should secure one of simple construction which he can examine the parts of vital importance each day with an expenditure of five minutes of time. By simply removing two thumb screws the heart of the LaCrosse tractor is seen and since we use large heavy bearings of high grade babbit die-cast with bronze, a small amount of trouble is looked for and in case a bearing is to be replaced, any owner once shown can replace a bearing in an hour's time or less, and it is not necessary to stand on your head or lay on your back for several hours and remove from thirty to fifty nuts before you are able to inspect the working parts of your engine or even get to the bearings.

We Say, Investigate

The automobile works under the best of conditions ninety per cent of the time and is designed with that in view. Tractors, on the other hand, work under heavy loads and adverse conditions ninety per cent of the time, a continuous grind and strain. Therefore, the low speed engine (THAT DOES NOT DEPEND ENTIRELY UPON TREMENDOUS HUMMING SPEED FOR POWER) and exceeding few wearing parts, is, without question, the most dependable engine to purchase regardless of price.

Let us show and demonstrate to you this high grade, low priced tractor.

Let us have your order as quickly as possible to insure prompt delivery.

We also have on the floor one Advance Rumley tractor and separator.

Norman Tank of Pontiac was a guest at the Blackmore home from Friday to Monday. Mrs. Tank, who been visiting her mother, Mrs. Elizabeth Blackmore, returned to Pontiac with her husband Monday.

Rev. A. H. Butzbach received a telephone message Saturday afternoon that his aged mother was seriously ill with pneumonia. Sunday's storm interfered with further communication and failing to receive any later message, Rev. and Mrs. Butzbach left Monday afternoon for Benton Harbor, where his mother resides. Mr. Butzbach expects to return to Cass City to conduct Easter services on Sunday, but Mrs. Butzbach expects to remain until after the Evangelical state conference which convenes at Portage Prairie next week. D. F. Schiele expects to accompany Rev. Butzbach to the conference next Monday as he was elected as one of the lay delegates from the Flint district.

Pays to Be Straight.

There's a satisfaction in living up to your obligations. Only the man who consistently meets his bills can look the world in the face without either feeling shame or acting the lie. It makes a fellow step with a firmer tread when he knows that he has done his best and that no one can call him a slacker or point toward him the finger of scorn. Sometimes he may feel burdened by this constant living up to ideals when others don't, but the load will soon become one of satisfaction as conscience declares approval. You can't do better than live up to your sense of obligation.—Grit.

Too Much Petting.

We can learn a lesson from our do-aesthetic animals in respect of too much handling of baby. It will pay the human mother to note that when these baby animals are manled and petted and carried about they do not thrive but frequently pine away and die.

Back Hurt?

When the kidneys do not properly do their work or purify the blood stream, waste products and poisonous acids remain in the system and cause backache, rheumatic pains, lumbago, sore muscles, swollen joints, stiffness, lame back and similar symptoms.

Foley Kidney Pills

regulate and restore the healthy, normal action of kidneys and bladder, bringing clean blood and better health, with freedom from aches and pains.

J. George Huggins, Bennington, Vt. writes: "Last fall I was attacked with lumbago and suffered untold agony. I had a severe pain across my back and at times could not dress or undress myself. I was advised to take Foley Kidney Pills for my trouble. After taking them for a few days the pain in my back left me and I have not had any lumbago since that time, although that was months ago. I recommend Foley Kidney Pills to all who have lumbago." Burke's Drug Store. L. I. Wood.

Paint to-day Walk on to-morrow

Isn't it true that you would paint your floors oftener if you didn't have to keep the house upset so long waiting for the paint to dry?

Wouldn't you do it oftener if you could paint one half of the floor one day, then move the furniture over from the other half and paint that the next day?

Well, that's just what you can do with Lowe's Hard Drying Floor Paint. This fact, together with the way it stands wear and tear is the reason it is used so much on restaurant floors and ship decks.

Inspecting Studebaker Wheels Before Oiling

Do you know there are almost as many Studebaker inspections as there are processes of manufacture—nothing is left to chance.

Here is shown one of the many wheel inspections that insure every Studebaker wheel being perfect. Before oil or paint is applied—before tire is set, the wood material and construction must pass the watchful eye of the inspector.

You should see the Studebaker—the wagon that has passed successfully a score of inspections. Come in and let us show you.

Having disposed of my mercantile business, I will devote my entire time to the Egg business. I have secured room at THOS. AUTEN'S STORE at the present time.

Bring in your Eggs and get the highest market price.

I desire to "square up" all my store accounts at the earliest possible date and ask all indebted to me to give this their best attention.

I am deeply grateful for the liberal patronage I enjoyed in the mercantile business and wish to extend my thanks for the extensive business given me while in the Cement Block.

Beauty.

Animals living in nature are every where beautiful; but it is only among men that ugliness flourishes. Savages nearly everywhere are gracious and harmonious; it is only among the civilized that harshness and discord are permitted to prevail. If the eugenic ideals that are now floating before men's eyes never lead us to any heaven at all, but merely discourage among us the generation of human creatures below the level of decent savagery, they will serve their turn.—Havelock Ellis.

LEONARD WOOD in asking your support makes a FRANK STATEMENT of where he stands on ALL of the vital issues of the day, not merely on one or two. Read over these twenty-four points in his virile, All-American platform and see whether YOU agree with him on the great majority of them.

WOOD'S PLATFORM

1. National economy at Washington. A budget system.
2. The federal government behind expansion of honest business at home and abroad.
3. Federal suppression of all dishonest business.
4. More friendship and a square deal between capital and labor; capital to pay well, labor to work well; each to be fair toward the other.
5. Removal of the excess-profit tax that is strangling business.
6. More producing, less spending; a saner cost of living.
7. A longer term of years to pay the war debt.
8. America to have a bigger hand in the trade of the world. A powerful merchant marine.
9. More careful sifting of immigrants at Ellis Island and on the other side.
10. Deportation of all the anarchistic Reds.
11. Better housing conditions, to make better family life.
12. Abolishment of child labor.
13. Political equality of women with men.
14. A short term of universal training of youths for national service—

- not to make America a country of soldiers, but a country of finer citizens.
15. A higher standard of physical morality in men, for happier American homes and healthier children.
16. Fairer pay for school teachers.
17. A national department of public health, at its head a medical man who shall be a member of the cabinet.
18. A national department of agriculture, administered for the farmers by men who really know farming from the furrow to the crop.
19. Fewer tenant farms, more owned farms.
20. The protection of the American government behind an American wherever he may be.
21. A diplomatic service which shall command confidence at home, demand it abroad.
22. Law and order supreme; security of the rights of property; no class legislation.
23. A League of Nations covenant with reservations which will preserve to America the right to exercise in any crisis which may arise the voice of the American people.
24. For ourselves and toward the world: One Flag, one language, one loyalty.

A Vote for Leonard Wood is a vote for a candidate who does not evade any issue. It is a vote for a man whose backers will continue to support him at the National Convention as long as he remains a candidate. Don't waste your ballot on a complimentary vote for a candidate whose support will be switched to some other candidate now unknown to you—One candidate whose name is not on the ballot in Michigan, and about whom you consequently will have no opportunity to express an opinion is acknowledged by Republican Leaders to be the strongest opponent Leonard Wood will encounter at Chicago.

RETIRING SECRETARY A "SHIRT-SLEEVE" BOY

COMMANDER EVANGELINE BOOTH FRANKLIN K. LANE.

FRANKLIN K. LANE TO "FOLLOW ON"

Accepts Invitation to Become National Chairman of Salvation Army's Annual Appeal for Funds.

WASHINGTON'S BEST BELOVED RESTARTING LIFE AT 55.

Former Cabinet Officer Before Entering the Oil Business as an Executive Lend His Great Abilities to the Church Militant Organization.

Franklin K. Lane, referred to far and wide as "Washington's best loved man," is undertaking two notable innovations at an age when most men think mainly of retiring to the quiet of private life.

Two history making statements from a man of Mr. Lane's attainments and station in life! And the remarkable part of it all is that he puts the shirt-sleeve matter—the thing about helping his neighbors—ahead of that other thing—making more money in order the better to underwrite the Autumn of his life!

Few men reach a higher niche in the affections and confidence of the public mind than has this remarkable man from the West, who was once an editor, then a lawyer and finally a member of the President's cabinet and who withdraws from public life to "earn a better living" after rendering a service to the government the extent and value of which would be impossible to estimate.

Franklin K. Lane has accepted an invitation from Commander Evangeline Booth to become the national chairman for the Salvation Army's annual appeal for funds in 1920.

"It is a genuine privilege to find opportunity for encouraging a work so direct and practical and so valuable to the masses of the people as the work of the Salvation Army," said Mr. Lane at his office in Washington the other day.

"When Commander Miss Booth asked me to take the responsibilities of national chairman for the 1920 appeal of that organization," continued the secretary, "the first thought that flashed across my mind was, How can I spare time for such work when I am entering upon a commercial task of great responsibility?"

"And then there flashed across my mind a vision of the things the Salvation Army does—the help it gives to men and women and little children just when and where they need it most—and I thought to myself that after all there could be no more important thing than this. So I accepted—along with the other job—and I am trusting to the generosity of my new employers to indorse my action in the matter."

"I believe every right thinking man and woman in America owes the Salvation Army some of his or her time every year. And I am going to pay my share. I am going to get my shoulder squarely behind the movement for human that can win the hearts and

the confidence of the common people like this Salvation Army has won them in recent years. I am going to pull off my coat and do some real work that will show where I stand when it comes to weighing the homely, unostentatious and highly practical relief methods of this amazing band of workers. I heard the call. The problems of the poor are there to be solved, and they can use my poor efforts perhaps, so I have answered the call.

"I won't do much talking in the coming drive. I will do real work, and when I do talk I don't want to talk to anyone but actual workers. There will be no speech making by me to those who might be curious to hear a former cabinet officer in action, but who are not interested in the work of the Salvation Army. I shall talk to workers and only to workers. The day for oratory in such matters has gone. We are down to brass tacks.

"I think I owe it as a citizen of America to show my understanding and appreciation of the helpful work the Salvation Army is doing in its rescue homes, maternity hospitals, free clinics, industrial homes, fresh air farms and tenement house relief work.

"My testimony is not needed, however, in this matter. There are 2,000,000 or 3,000,000 of young Americans who went into the recent war either unaware that the Salvation Army existed or having no use for its methods if they did know of it. So far as I can learn these men came out of that war unanimous on one subject—and that was that the Salvation Army understood the average man, knew how to deal with him and simply 'delivered the goods' on the 100 per cent basis.

"There is no division of opinion on that one subject. There could have been no greater test for the Salvation Army than the test it received in the war. So after all I am merely adding my voice to the mighty chorus I have referred to when I say that the Salvation Army has long since won the right to make an appeal to the rest of us for its maintenance, and I am sure it will be made that appeal in vain.

"The Salvation Army one year ago abandoned its old custom of begging in the streets the year around so that its workers could devote all of their time and attention to the poor. It makes an annual appeal each May. Personally I know of no greater bulwark that could be raised against the rising tide of human unrest than to strengthen the hands of this band of self sacrificing Christian toilers who have the confidence of all men and women, regardless of race, creed, color or position in life. I think it is important for the interests of our advancing civilization that such a practical and wholesome work be stimulated and maintained to the utmost.

"They say there are no 'down and outers' any more. Personally I do not believe it, or if I did believe it I would know that the abnormal times have swung the pendulum back too far on one side—and that it will swing far to the other side directly. There will always be a bottom to society. The poor will always be with us. We owe it to our fellow men to know our neighbor and share his troubles and problems, and only by that method can we, in all fairness and righteousness, keep the scales even in this life.

SUNDAY'S STORM SWEEP 8 STATES

MICHIGAN, MISSOURI, ILLINOIS, INDIANA, WISCONSIN, GEORGIA, OHIO AND ALABAMA HIT.

TWELVE DEAD IN MICHIGAN

Property Damages in State Runs Over \$2,000,000—Forty Persons Hurt, Many Severely.

Detroit—Sunday night's terrific storm took a toll of 12 lives in Michigan, caused injuries to more than 40 persons, some of them serious, and involved property loss known to have mounted considerably over \$2,000,000.

The dead are: Mrs. Brush Nash, aged 40, wife of a Fenton farmer; Mrs. James Farley and 3-year-old daughter, Vera, of Holly, who had taken refuge in the Nash home at Fenton, killed when tornado struck house.

Mrs. Nellie G. Boughner, Birmingham, died of injuries received when automobile was blown off the road and turned turtle. Accident occurred on Flint—Fenton road at Fenton.

Scott Cook, Yankee Springs, Barry county, killed when home of John Schantz was blown over.

Mrs. James Moon, Mrs. Elizabeth and Miss Edith Belson, Maple Grove, Barry county, killed when house in which they were living was blown down.

Dale Easonhower, Coldwater Lake, blown from bicycle 80 rods into a marsh and fatally injured.

William Doubt, aged 50, Coldwater, crushed to death under barn in which he was milking a cow.

George Malburg, Hart, crushed under heavy timbers of barn blown down by storm.

Marion Flint, 15, Kalamazoo, died of heart failure brought on by storm.

Several cities which did not suffer any casualties, reported many persons injured, some severely and property losses amounting to half a million.

St. Johns probably was the heaviest hit from a standpoint of property loss, with a loss of \$600,000, but the storm also did damage estimated at \$250,000 in the Flint district, damage of \$250,000 in Branch county and more than \$100,000 in Calhoun county.

The Genesee county storm swept over a path half mile wide and seven miles in length, leveling farm buildings, orchards and summer cottages which it left in tangled mass of debris.

In Battle Creek trees and telephone poles were laid low, and a garage was demolished. The rain there was a veritable cloudburst, reports indicated. Telephonic communication with rural districts from this point had been destroyed.

Hardly a section of central or southern Michigan escaped storm damage.

Chicago—Telegraph and telephone service with many isolated communities in the middle west had only been partly restored and indications were that the toll of death in Sunday's storm would possibly reach 200. The storm swept Michigan, Illinois, Indiana, Missouri, Ohio, Wisconsin, Georgia and Alabama.

While northeastern Illinois sustained the principal damage the tornado, in its freakish career, swept several Indiana towns, near Fort Wayne, resulting in three deaths, caused the death of one man and the injury of several persons in St. Louis.

Edgerton, Ind., 18 miles from Fort Wayne, was reported hard hit. Three persons were reported killed at Zulu, Ind., near Fort Wayne, while several were said to have been injured at Ossian.

Military law was declared in several of the devastated towns in order to prevent looting of ruined buildings.

MINE PAY RAISE AGREED ON

Threatened Strike Averted By Acceptance of Award of Conference.

New York—The scale committees of the bituminous operators and mine workers, in a joint conference here, arranged to make the monetary provisions contained in the award of the bituminous coal commission, affirmed by the president, become effective April 1, and that the mines continue in operation pending the working out of a new agreement. The award provided for a wage increase of 27 per cent.

After adopting the award the conference appointed a sub-committee to carry on the negotiations of a new wage contract for the bituminous workers based on the coal commission's report. This committee consists of the international officers of the nine workers and two operators and two miners from each of the four states of the central competitive field.

Packers Blamed For Olive Poisoning. Washington.—Failure of some packers to use a sufficiently high temperature in sterilization of ripe olives in glass containers, permitted development of the botulinus germ, which caused the deaths of 25 persons two months ago, says a report of specialists of the Bureau of Chemistry, who have just concluded an investigation. The poison would develop the same in tin containers, the report showed, if the olives were not sufficiently processed.

Shaving the Head. Shaving the head when an infant is one month old is a Chinese custom among the male population. A banquet is often a part of the ceremony.

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Cass City people have used them and know how effective they are. Here's a Cass City case.

Mrs. George Rohrbach, W. Houghton St., says: "Doan's Kidney Pills cured me of a very bad backache and put my kidneys in good shape some five years ago. My back was sore and lame and ached continually. Sometimes I thought it would break. It felt as though there were a ton of lead pressing down on it. Sleep was impossible and added to that I was bothered with my kidneys acting too frequently. They wouldn't act freely enough however and my ankles swelled so that I couldn't wear high shoes at all. I felt tired and drowsy. The first box of Doan's Kidney Pills gave me good results so I continued taking them and after I had finished the first box I was cured of that backache and other troubles. I felt better in every way."

PRESIDENTIAL PRIMARY ELECTION

Notice is hereby given that a presidential primary election will be held on Monday, April 5, A. D. 1920, at the place of holding the annual township meeting in the Township of Elkland, County of Tuscola, State of Michigan.

At which election the qualified voters of the several political parties shall have the opportunity of expressing their preference as to nominees of their respective parties for the office of President of the United States, in accordance with Act 9, Public Acts of the First Extra Session of 1912, as amended by Act No. 219, Public Acts of 1915. Some of the provisions of said Act are briefly as follows:

The name of any candidate for the office of president will be printed on the official primary ballot upon notification of their political supporters in Michigan, which petition must be signed by not less than 100 of the qualified voters of such political party, said petition to be filed on or before the first day of March, 1920; the names to be alternated on the ballot in accordance with the provisions of the State Primary Election Laws, the ballot to be in the following form:

Official Primary Election Ballot. Party, April 5, 1920.

INSTRUCTION TO VOTERS To vote for a person whose name appears on the ballot, mark an (X) in the square in front of the name of the person for whom you wish to vote.

To vote for a person whose name is not on the ballot, write his name on the blank space provided therefor. Vote only for one person.

JOHN JONES. WILLIAM SMITH. THOMAS RYAN.

Separate ballots for each political party are to be provided. The candidate receiving the highest number of votes in the State at said election, shall be declared to be the candidate, and the choice of such political party for this state.

National Committeemen Primary Notice is further hereby given, that at the time and place of holding the April Presidential Primary Election, as herein above designated, a separate and distinct primary election will be held for the nomination of a member of the National Committee of the various political parties of this State, in accordance with Act No. 392, Public Act of 1913. The provisions of this law are briefly as follows:

The name of any candidate for the office of national committeeman shall be printed on the official primary ballot solely upon the petition of their political supporters in Michigan, which petition shall be signed by not less than one hundred of the qualified voters of such political party, and said petition shall be filed with the secretary of state on or before twelve o'clock noon, March first, nineteen hundred twenty, the names to be alternated on the ballot in accordance with the provisions of the State Primary Law.

On the first Monday in April, 1920, there shall be held a Primary Nominating Election in every voting precinct of the State, at which the qualified voters of the several political parties shall have the opportunity on separate ballots provided for that purpose to express their preference for the members of the National Committee of their respective parties.

The official ballot shall be as follows: Official Primary Election Ballot. Party, April 5, 1920.

To vote for one (1) person whose name appears on the ballot mark an (X) in the square in front of one of the names of the persons for whom you desire to vote. To vote for a person whose name is not on the ballot, write his name in the blank space provided therefor. Vote for only one (1) person.

JOHN JONES. WILLIAM SMITH. THOMAS RYAN.

The candidate receiving the highest number of votes in the State at the said election shall be declared to be the candidate and the choice of such political party for the office of National Committeeman.

The polls of each of said Primary Elections hereinabove designated will be open at 7 o'clock a. m., and will remain open until 5 o'clock p. m. of said day of election, unless the Board of Primary Election Inspectors shall in their discretion adjourn the polls at 12 o'clock noon, for one hour.

Dated Mar. 2, 1920. H. L. HUNT, Twp. Clerk.

ANNUAL TOWNSHIP MEETING

Notice is hereby given that the next ensuing annual township meeting for the Township of Elkland, County of Tuscola, State of Michigan will be held at the Township Hall within said precinct on Monday, Apr. 5, A. D. 1920, at which annual township meeting the following officers are to be elected, viz:

Township One Supervisor; one Township Clerk; one Township Treasurer; one Highway Commissioner; one Justice of the Peace, full term; one Member Board of Review, full term; one Overseer of Highways, four Constables.

Propositions. Also the following township propositions are to be voted upon, viz: County Road Proposition.

Women Electors. The polls of said election will be open at 7 o'clock a. m., or as soon thereafter as may be, and will remain open until 5 o'clock p. m. unless the Board of Election Inspectors shall in their discretion adjourn the polls at 12 o'clock noon, for one hour.

Dated Feb. 10, 1920. H. L. HUNT, Clerk of said Township.

MORTGAGE SALE. Default having been made in the payment of money secured by a mortgage executed by Jane Kirsane of Cass City, Michigan, to David Law of Cass City, Michigan, bearing date the 16th day of April 1915, and recorded in the office of the register of deeds of Tuscola County, Michigan, on April 19, 1915, in Liber 139 of Mortgages on page 225. Said mortgage was duly assigned by a written assignment by said David Law of Cass City, Michigan, to Edward W. Keating of Cass City, Michigan, on the 25th day of February 1919 and recorded in the office of register of deeds of Tuscola County, Michigan, on March 3rd, 1919, in Liber 116 of Mortgages on page 351, and the whole amount of said mortgage and interest being now declared due by reason of default in the payments due thereon. The amount claimed to be due under the terms and conditions of said mortgage at the date of this notice, for unpaid principal, interest and taxes is the sum of four hundred eleven dollars and eighty-two cents (\$411.82) and also an attorney's fee of fifteen dollars provided for in said mortgage and by statute, and no suit or proceedings at law have been instituted to recover the money secured by said mortgage or any part thereof.

Notice is hereby given, that by virtue of power of sale contained in said mortgage and in pursuance of the statute in such case made and provided, said mortgage will be foreclosed by sale of the premises there-in described at public auction to the highest bidder at the front door of the court house in the village of Cass City, Michigan, on the 26th day of April, 1920, at 10 o'clock in the forenoon. The premises to be sold are described in said mortgage as follows: Lot fourteen (14), Block "1" of J. L. Hitchcock's Addition to the village of Cass City, Tuscola County, Michigan.

Dated January 29th, 1920. EDWARD W. KEATING, Assignee of Mortgage.

J. C. Corkins Attorney for Assignee of Mortgage, Cass City, Michigan. 1-30-13

NOTICE OF MORTGAGE FORECLOSURE SALE.

Default having been made in the conditions of a certain mortgage made by Julius Milki and Karoline Milki, his wife, and Wineynty Ociepek and Juli Ociepka, his wife, of Detroit, Michigan, to J. Ray Honeywell of the same place, dated the tenth day of December, A. D. 1918, and recorded in the office of the Register of Deeds for the county of Tuscola, and State of Michigan, on the 29th day of January, A. D. 1919, in Liber 138 of Mortgages, on pages 370 and 371, which was duly assigned on December 12th, 1918, to Charles D. Thompson of Bad Axe, Michigan, by a written assignment recorded on January 29th, 1919, on page 338 in Liber 137 of mortgages, in said register's office, and the said assignee having elected to declare the principal sum and all interest immediately due as provided in said mortgage, on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum of ten hundred seventy dollars, and an attorney's fee of fifteen dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof.

Notice is hereby given, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Monday, the tenth day of May, A. D. 1920, at eleven o'clock in the forenoon, the undersigned will, at the front door of the Court House in the Village of Cass City, Michigan, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with six per cent interest, and all legal costs, together with said attorney's fee, to wit: The southeast quarter of the southeast quarter of section thirty-six, township thirteen north, range nine east, and the north fractional half of the northeast fractional quarter of section one, township twelve north, range nine east, Tuscola County, Michigan, constituting a single parcel of land, for a part of the purchase price, of which this mortgage was given.

Insure Your Crops

against unsettled weather conditions at threshing time. Barn storage for hay and straw is very practical at the present values.

A well equipped barn for light, ventilation and stable arrangements for convenience is essential. It saves stock from disease and is a big item in the saving of labor.

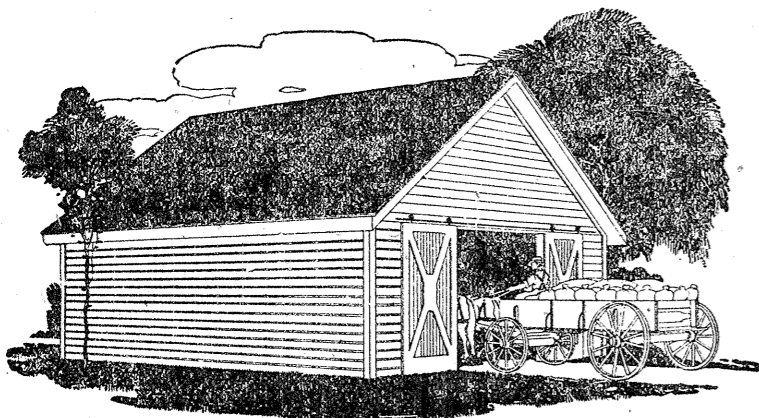

Hogs—and More Hogs!

Every hog counts. It's criminal waste these days to let even one die from exposure or lack of proper care.

Be sure your hogs are properly housed—get the big profits that are assured to the farmer who gives them care and attention.

Warm, dry, sunny hog houses mean healthier pigs—two litters a year as easy as one, and larger litters—maximum profits with less effort and less feed.

Hogs respond readily under favorable conditions.

Making a Granary Pay for Itself

Farmers without proper grain storage facilities are at the mercy of a glutted market, car shortage at times when the transportation facilities are overtaxed and other factors tending to beat down the price.

It is well now to prepare for the time when all grain will again be brought on a competitive market. Corn cribs and bins will quickly pay for themselves.

Build Now—Build Good.

FACTORY BUILDINGS OF A PROGRESSIVE FARMER

Protection

is what you are looking for; in every walk of life you will find people planning for it. Every successful farmer has had this in mind when he planned his buildings to take care of his crops, grains, stock, farm implements, etc.

Feed is expensive now days. Every possible ounce of it must be converted into beef, or pork or working energy for the teams.

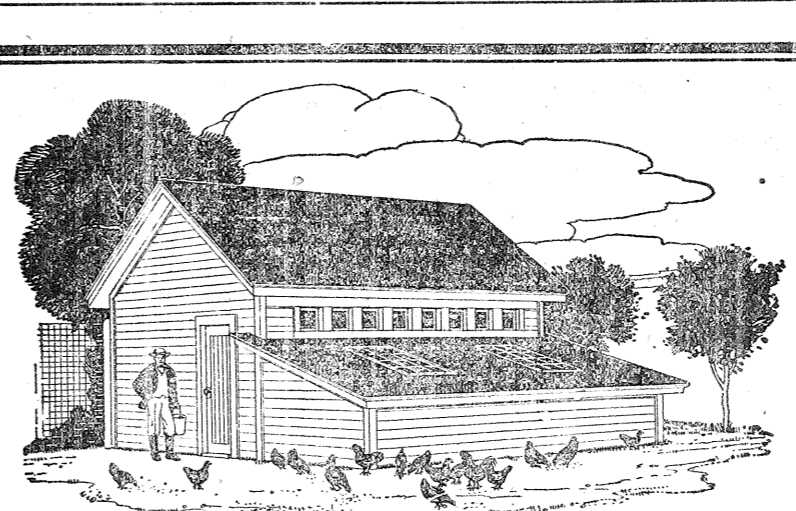

Stock lacking the protection of good buildings cannot give returns.

Our Stock Is Complete

and it is possible for you to build as easy to day as any time in the past providing you take advantage of all the resources that are yours.

CONSERVE
SAVE
USE

We are ready to aid you in your building. Plan your building and repairs early.

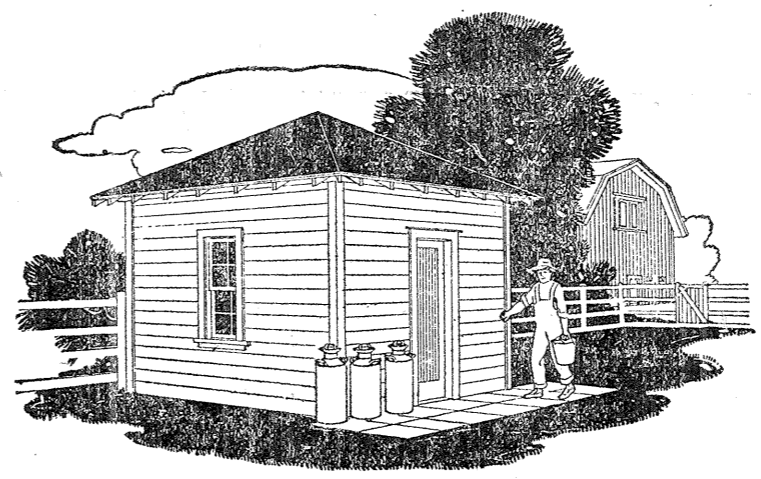

Earlier Hatches and More Winter Eggs

THERE is a very slight margin between success and failure in poultry raising. The farmer who makes a success of poultry keeps his eye trained on two things—earlier hatches and more winter eggs. He is the farmer who makes poultry produce—and produce profits—big profits for him.

The first essential is a substantial, air tight, warm, well ventilated Poultry House.

- A warm house means earlier hatches and more winter eggs—
- A sanitary house means healthier flocks and less disease—
- A convenient house means better care and attention—
- A well constructed poultry house adds value to your farm.

It pays well to cater to Mrs. Healthy Hen.

Prosperous Dairymen

know the money-making value of a properly built Milk House.

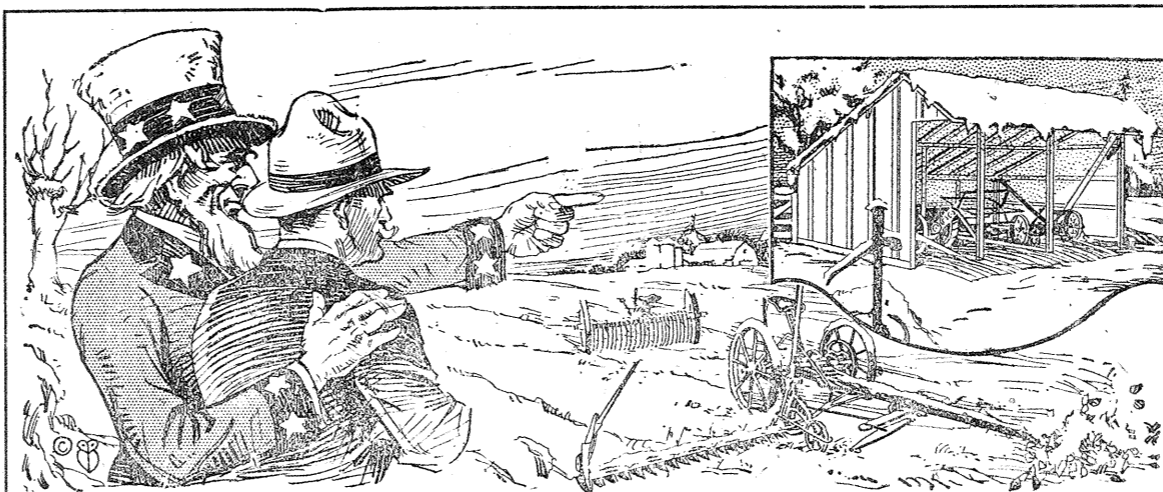

It goes a long ways toward making dairy products profitable.

It should be well built, with double walls to insulate it from both heat and cold.

It is a duty that dairymen owe to the public health to keep a Sanitary, Milk House.

This will avoid future troubles and aid materially in your prosperity.

Convenience brings results.

Why Put Off

building that much needed machine shed? Don't you realize that it will cost at least twice as much to replace your machinery today.

Next to giving your attention to crops and stock you should, by all means, look after the proper housing of your machinery.

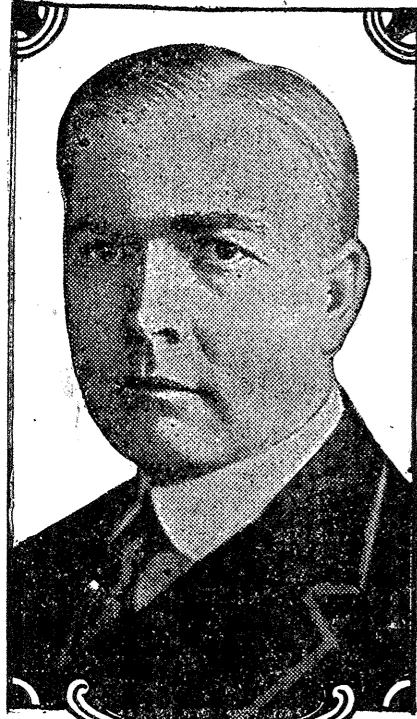

Neglected machinery is waste—and waste must be stopped—to win.

**THIS THE MOMENT.
OF MOMENTS TO GAIN
SPIRITUAL UNITY**

By DR. JOHN R. MOTT.

DR. JOHN R. MOTT.

Chairman Executive Committee Interchurch World Movement.

This is the moment of moments for us to find our unity, our spiritual solidarity, without sacrificing our diversity and that which is most distinctive to each of our communions and which, by the way, is the choicest possession we have.

The reason why we of each denomination most value that which is distinctive to us is not simply because it is ours, but because we honestly believe it is the truth. It is our choicest possession. Without sacrificing our distinctiveness we want to realize our unity and solidarity as we gather round the figure of our Lord with open minds, responsive hearts and, I would say, hair trigger wills—by that I mean wills that are eager to leap into action when we see a clear path.

MAKING RURAL SURVEY

Work of Nation-Wide Survey by Interchurch World Movement of Great Importance.

In almost all parts of the United States state rural survey supervisors are finding themselves in situations where they have to restrain local communities from founding federated or union churches, especially without any ecclesiastical or denominational connection. Men are having this experience in various parts of the central West. The last incident comes from one of the Mississippi valley states.

Prairieville has a population of 200 and for years has had two churches. There never has been a resident pastor and most of the time either one church or the other was without its fractional allowance of some minister's time. The people themselves decided that they ought to unite in some sort of community fellowship. They were insistent that they had been unfairly treated by denominational boards and that there was no hope of ever bringing about an adequate ministry of religion for their community through official sources. To them the only solution was to cut loose from all denominational affiliation.

A group of fifteen of them from the two churches and from two country churches, closely contiguous to the town, waited upon the Interchurch World Movement supervisor and ask his help in bringing this about. He reports that they put him through the severest siege of grueling he has ever experienced. The meeting lasted four hours.

The supervisor gave them data concerning un denominational churches, sketched out such plans as had been used in Vermont and Montana, and finally persuaded them to express their convictions in a resolution and present it to the proper denominational officials. The procedure which the Interchurch hopes, in the light of the survey, to follow with an adequate program was explained to these people and was probably the one thing, more than any other, which induced them to abandon, for the present, their idea of a federated church.

Tributary to this little trade center of Prairieville are about 1,000 people. The action of their leaders is proof of the fact that in many an average rural or village community there is latent the dynamic power and the leadership for the democratic management of their own affairs. This instance, and the others occurring, evidence the fact that there is a widespread spirit of rebellion on account of the inefficiency of the ministrations thus far given them.

The Interchurch World Movement has succeeded in procuring a temporary stay of federated and unaffiliated union churches. The people are now ready to accept a denominational church, but they are determined to have only one.

What will church officialdom do for Prairieville and thousands of other Prairievilles that are coming to light?

"No Man Alone Can Take a Trench." "Keep together! Keep together!" shouted a commanding officer overseas. "No man alone can take a trench!" I say: Keep together! Keep together, men of God! No church alone can take a world!"—G. Sherwood Eddy.

**MINISTERS COST
LESS THAN AUTOS**

World Survey Figures Reveal How Badly United States is Paying Its Pastors.

MANY LIVING ON \$600 A YEAR.

One of the Aims of Present Protestant Co-operation is to End Disgrace of Underpaid Preacher—Pensions Also to Be Provided.

What are the chances of a young man who intends to be a lawyer of making \$3,000 a year? What are the doctor's chances? What of the minister or the manufacturer?

The lawyer has exactly one chance in five. The doctor's chances are one in seven. It is ten to one against the manufacturer. The modern minister, however, who formerly ranked with the doctor and lawyer as a member of the "learned professions," has fallen hopelessly behind. He is a 100 to 1 shot.

These figures are part of a mass of astonishing facts brought to light by the world survey being made by the Interchurch World Movement and whose sources of information are such that many economists and statisticians are availing themselves of the results. This survey puts America's minister at the bottom of the ladder of the nation's income receivers—and with responsibilities which equal those of any captain of industry.

A worker in a silk mill, a laborer in a rubber plant, a paper maker, a worker in a shoe factory—all are getting higher average wages, the survey shows, than does America's minister, city or country. Nor does the city man receive the luxurious salary that many persons, including many country parsons, believe he does. Not four ministers in a thousand, according to the survey, receive \$5,000 a year. In no instance, whatever the denomination, does a majority receive \$1,000.

Cotton Pickers Better Off.

Are you a Congregationalist? In 2,733 churches the yearly pay to your ministers has been less than \$1,000. Are you a Presbyterian? You are then on the less than \$1,000 list with 6,415 ministers. In the event that you are a Methodist the charge is that 4,719 pastors are trying to exist on the \$20 a week that you pay them. Episcopalians do a little better, yet half of their rectors receive less than the \$1,500 a year which government economists regard as the minimum on which a family can be decently maintained.

The initial cost of the cheapest "flivver" on the market is less than \$800, but a very good, conscientious pastor, it is shown, can be hired for a year for that sum.

Ministers in the South are preaching to fifty or more cotton pickers who individually are paid more for picking cotton than their entire neighborhood pays to the preacher in a year.

One of the aims of the present co-operation of the world's Protestant denominations is to end this disgrace of the underpaid minister. With universities, business houses and municipalities daily taking action to provide for the comfort of their workers, the church is to keep pace with the times, and to arrange not only for adequate pay for its workers, but to provide pensions for those no longer able to work.

It is to move the public to prevent unfavorable comparison of pastors and puddlers. Until then, as for a puddler swapping jobs with a pastor drawing an "ordinary" salary—never! The lowest salary paid to pastors is lower than any wages paid in the entire steel industry.

**NEW WORLD PROGRAM
DEvised BY CHURCHES**

By S. EARL TAYLOR.

DR. S. EARL TAYLOR,

General Secretary Interchurch World Movement.

If Christ, on the day He was born, had started on a tour to preach in every village in India, He would still have 30,000 more to visit.

We now believe we have found a way by which the leaders of the Protestant churches can sit around a common table and have the Christian program of the entire world laid before them. By means of the Interchurch World Movement we can see where the Methodists are, and where the Baptists are. We can see the general outline of their forces, their present status in this great world struggle, and may also have some idea of the unoccupied places, and what may be done by all of us to enter these unoccupied parts of the world field which Christ sent us to occupy.

**CHURCHES TO AID LONELY
SHEEP SHEARERS OF WEST**

The bleat of the sheep on the backbone of the continent calls men to the mountains. On high uplands from the Canadian border to Mexico, in lonely and inaccessible places, one of the most romantic examples of the country's migrant worker—the sheep shearer—plies his trade.

Unheard of though he is to thousands of his fellow workers, it was for him that the immigration regulations of three countries—Canada, the United States and Mexico—were modified during the war. This permitted freedom of movement to many hundreds of this strange craft, and the means of employment to thousands in factories and stores.

Yet, for all his importance in the ranks of the nation's great Marching Army of the Employed, what sort of life does this man lead? The migrant fruit packer, or wheat harvester, or farmhand, or lumberman often roams inland through cities and the congested spots of civilization. But the sheep shearer, by the nature of his trade, is cut off from such influences.

Through a survey of the nation's migrant labor now being made by the Interchurch World Movement, it is suggested that for men of this class relief may be afforded through churches in outlying districts. For social and other purposes these men, with proper co-operation by church bodies, could make use of many of the facilities without which they are doomed to a life of isolation.

SCHOOL NOTES.

The boys are again getting in form for baseball. This season promises to be one of the most interesting seasons that Cass City has ever known.

The tenth grade pupils made a newspaper last week. They are now going to start the study of Hamlet.

We are all sorry to hear that Mae Dunlap has left school.

The agriculture class is studying about the Babcock milk tester, and will make several tests of milk this week.

The fire drill of last week proved to be a great success. The pupils were out of both buildings in one minute and a half.

Earl Gowen's hand is recovering rapidly from the accident at Mt. Pleasant.

While in Lansing on March 20 Mr. Hoxie saw Miss Mary Spencer, the state librarian. Miss Spencer said she had two other libraries to re-catalog before she could come to Cass City.

Nineteen pupils of the Junior High were neither absent nor tardy during the month of March. They were: Alfred West, Clark Knapp, Emma Flint, Kenneth Striffler, Garrison Moore, Aletha Hall, Maurice Dailey, Esther Bruce, John Benkelman, Darwin Bailey, Warren Wood, Dorothy Tindale, Marjorie Ohs, Mildred Hall, Vera Flint, Thelma Agar, Marshall Bixby, Edna Brackenbury and Adrian Bixby.

Carl House, from Hershey, Pa., is a new pupil in the seventh grade.

Bertha McCullough was ill a part of last week, but is able to be in school again.

The seventh grade have completed their work in taxes and are now taking up denominate numbers.

Grades.

Walter Peddie and Donald Lorentzen have entered the fourth grade. The fourth grade are reporting on different kinds of birds seen on the way to school.

Mesdames Jones, Graham and Tibbals were welcome visitors in the fifth grade room.

Drawings of rabbits, Easter lilies and other subjects suggesting Easter time are now taking the attention of the fifth grade in drawing.

Compositions on the subject of "Habits" have proved interesting as well as helpful for language work.

Florence Harmon is absent from the fifth grade on account of illness.

In connection with our special reports on King Arthur and Sir Gallahad, the pictures of "Sir Gallahad" and "The Round Table of King Arthur" proved to be of much interest to the sixth grade.

The following special reports were given for language in the sixth grade:—Sigfried, Richard Schenck; Luther Burbank, Mildred Agar; Robin Hood, Edwin Fritz.

The sixth grade are now making a general review of the plateau states.

The sixth grade have some good drawings illustrating the vanishing point. These drawings include a railroad track, a fence and telegraph pole.

The track team has had an invitation to participate in the track meet at Kalamazoo May 1.

Mary Holtz, who was just recovering from a long sickness, is very ill again.

Two of the sophomore boys, Andrew Champion and Ralph Young have stopped school.

Alice Bigelow has returned to school after a week's absence on account of sickness.

The boys are playing catch and jumping. The diamond has been fixed and graded to get it ready for regular practice. The first game is Apr. 23.

All who are interested in taxes will want to hear Prof. David Friday who will lecture at the high school auditorium March 31.

The seniors are busily engaged in looking at class rings and plays.

Since the boys won games from Grayling, Jennings, Corunna and Greenville and got the championship of Class B, we have a new banner to grace the walls of the assembly.

While at Mt. Pleasant last week, Mr. Hoxie was looking up teachers for our schools.

There has been some talk of fix-

ing up the tennis court. Let's hope it's done.

Misses Elliott and McLarty went to Brown City Friday where the latter refereed a game between the Brown City and Crosswell girls.

Brown City was the winner.

Omaha World-Herald: The loot of car thieves in 1919 was worth \$45,000,000. That explains a good deal of missing freight.

HOBO NOW SCORNS THE BREAD LINE

Survey Made by Interchurch World Movement Shows That Even the Cheap Lodging House is Going Out of Business.

The old "bread line" is gone from its accustomed place in the cities. In the slums throughout the country huddled queues of men no longer wait to be fed. Their passing is a symbol of the passing of the hobo.

Everywhere, for lack of guests, the cheap lodging houses are being abandoned. Only a few old, decrepit men remain in the Salvation Army Industrial Homes. In Kansas City the once crowded dormitories of the "Helping Hand" building are closed. In Lincoln, Neb., in 1915 there were 1,756 non-resident single men who applied for aid, while in 1918 there were only 136.

The hobo, the wandering worker who went to the lodging house and the bread line between his seasonal jobs,

has been lifted from his old place by the war. A study of the conditions of migrant labor is now being conducted by the Interchurch World Movement that it may lay the facts before the Protestant Churches of America, whose closer co-operation is its larger purpose. This study shows that the hobo has found a closer succession of jobs, a higher return for his labor. He has become almost a "steady" worker. He no longer needs his old refuges.

Beyond the reach of these agencies, he offers the Protestant Churches an opportunity to provide new means of influencing his life and maintaining his standard of living, and the Interchurch World Movement survey is determining how this may best be achieved.
