I. O. O. F. ANNIVERSARY WELL ATTENDED

VERY SUCCESSFUL MEETING OF ODD FELLOWS HELD HERE TUESDAY.

Class of 53 Were Initiated. Next Year's Meeting to Be Held at Vassar.

The 30th annual convention of the Thumb Anniversary Association was celebrated at Cass City Tuesday, April 27, by an enthusiastic gathering of Odd Fellow and Rebekah representatives from many points in the Thumb of Michigan. The weather man was rather unkind in sending sprinkles of rain during the day, but the threatening weather and gloomy outlook Tuesday morning did not dampen the ardor of a large number who arrived early in the day followed by later comers in the afternoon.

The preparation of the local order had been carefully made and nothing that a genuine hospitality could devise or a spirit of welcome suggest had been left undone. The spirit of fraternity was not only set forth in the streamers which were stretched over the business streets and the neat window displays which attracted the attention of the visitors as they came into the city, but what was better still all the festivities and exercises breathed forth the emblem of Odd Fellowship—friendship, love and truth.

The Cass City Band entertained the visitors in the forenoon with musical selections and at eleven o'clock members of the visiting and local lodges marched to the Presbyterian church to enjoy a rich literary treat. J. C. Corkins, prominent in the affairs of Cass City Lodge, presided. The edifice was well filled. Singing the opening ode was the first number on the program after which M. B. Auten extended a hearty welcome to the visitors in well chosen words. H. H. Smith of Caro lodge responded in a happy manner. Messrs. Tindale, Wood, Atwell, Bigelow, Knapp and Landon delighted the gathering with a vocal selection and the audience was not satisfied until the sextette responded to an encore.

Rev. Wm. Forbes Emery of Grand Rapids, grand chaplain, delivered the anniversary address. Mr. Emery is an earnest speaker and spoke enthusiastically of the great work the Odd Fellow and Rebekah orders had accomplished throughout the land and his explanations of the principles of Odd Fellowship were well received by the audience.

The Presbyterian ladies served dinner and supper at the church dining room and the menu served fully sustained the reputation of the ladies for meeting the requirements of such an occasion. They were liberally patronized.

Geo. West, president of the Thumb Anniversary Association, presided at the business session in the opera house in the afternoon. Vassar was selected as the place for next year's meeting and the time of future anniversary dates changed to the fourth Tuesday in May. Weather conditions have often been unfavorable for the April date and the hope of more sunny days and a less busy time for the farmer were the reasons for selecting a May date for future meetings. Wilmot lodge was made a new member of the association and Snover, Kingston and Elkton lodges declared their intentions of uniting with the Thumb organization next year. Elkton will be the first lodge of Huron county to join the ranks and officials of the association are hopeful that other lodges in that county will follow in close order.

Rev. Emery, grand chaplain, announced in the anniversary address that a campaign was being made to raise an endowment fund of \$100,000 for the Odd Fellow home in Jackson. Odd Fellows are asked to contribute \$1 each which would provide \$80,000 and Rebekahs of the state are asked to make up the remaining \$20,000. Mr. Emery made an earnest plea for careful consideration of the campaign and its objects in the morning address and he was much gratified at the business session when lodges represented were pledged to give the movement their enthusiastic support.

Following the business session, Sanilac lodge No. 511 of Sandusky exemplified the first degree at the opera house and in the evening the second degree was put on by Caro lodge No. 173. All this work was highly creditable to the visiting teams and those who witnessed the degree work showed their appreciation by hearty applause. The class of 53 candidates, all but one of them furnished by Cass City lodge, is the largest class ever presented at a meeting of the association. The addition of these new members will bring the local lodge's membership to 185, while ten more applications

of candidates for the initiatory degree are on file.

Lunch was served at Odd Fellow hall after the degree work in the evening.

Local Rebekah members are united in praising the work of the Marlette lodge in conferring the Rebekah degree on ten candidates at Odd Fellow hall Tuesday afternoon. This degree team is not satisfied with an ordinary presentation of the work, but adds touches here and there which make more beautiful and impressive the ritualistic work of the degree. Marlette lodge is to be congratulated on the efficiency of its degree team.

Following the degree work, local Rebekahs presented a program in which Miss Hazel Mead delighted the audience with vocal solos and members of the local lodge presented an amusing comedy entitled, "Love of a Bonnet."

The Odd Fellow hall was beautifully decorated in pink and green streamers, cut flowers and potted plants. Visitors were unanimous in their admiration of the spacious, conveniently arranged and attractive hall of the local Odd Fellow and Rebekah lodges.

A very noticeable feature of the day's exercises was the spirit of good feeling which prevailed in the association and which made the meeting truly a reunion and an occasion for the renewing of good will and fellowship. President Geo. West, Vice President C. L. Robinson, Secretary S. Champion and Treasurer P. A. Schenck are congratulated over the success of the day's program and they in turn are appreciative of the hearty support given them by the various committees.

Charter Members of Cass City Lodge
The organization of Cass City Lodge, I. O. O. F., dates back to 1873 when the lodge was instituted with the following charter members: I. H. Camburn, P. R. Weydemeyer, Warren Weydemeyer, H. S. Wickware and Robt. Tennant. Mr. Wickware is the only one who resides here now.

At the first meeting when the charter was adopted, the following members were admitted: John C. Laing, P. H. Warner, Jas. Dojny, J. W. Adamson, J. F. Hendrick, John Karr, Ferry Karr, C. Murphy and E. P. Hurd.

The first officers were as follows: N. G. I. H. Camburn; V. G. Robt. Tennant; Rec. Sec., P. R. Weydemeyer; Fin. Sec., J. C. Laing; Treas., Geo. Tennant.

GASOLINE TANK EXPLODES INJURING ALBERT GREGUER

Workman in Cole's Garage Badly Cut About Nose and Eye Thursday Afternoon.

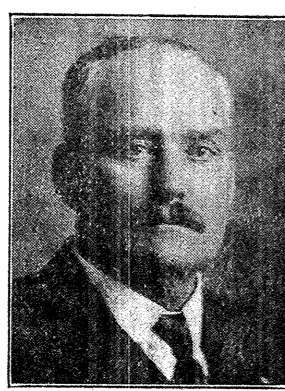

Albert Greguer, a workman in Cole's Garage, was seriously injured Thursday afternoon while mending a hole in a gasoline tank of an automobile. The tank was on the workbench and Greguer had just applied the hot solder to the tank when it exploded, knocking both Greguer and James Nesbitt, another workman, to the floor, scattering particles of the tank in several directions and breaking six window lights in the garage.

Mr. Greguer was badly cut on the nose and above one eye. Three stitches were necessary to close the wound and one stitch taken in the forehead. Mr. Nesbitt was fortunate in escaping serious injury.

TO THE VOTERS OF TUSCOLA COUNTY

I desire briefly to announce my candidacy for the office of County Drain Commissioner for Tuscola County on the Republican ticket at the primary which will be held next August.

Have had considerable experience in the construction of drains, and want to assure the voters of the county that if nominated and elected, the office shall have my best and undivided attention.
On a former occasion, for the sake of harmony, I withheld my name from the candidacy for this office, and I am now hoping that my announcement may receive favorable consideration. Thanking my friends in advance for any aid they may choose to give me I remain,
Respectfully,
—Adv. WM. B. HICKS.

BEAN CROP SAID GOOD FOR SKILLED GROWERS

Japanese Competition Lessened by Fear of U. S. Tariff—Better Market Predicted.

In spite of the competition of Japanese white beans and a large hold-over in the American crop, beans are still a good crop for the better Michigan growers, declares Prof. J. F. Cox, head of the farm crops department at M. A. C. It is reported on good authority that the Japanese acreage has not been expanded during the past year, owing to the fear that an effective tariff might be placed on beans by the United States Government.

"The Japanese have not competed heavily with Red Kidney beans," says Professor Cox. "These are in great demand, and it would appear that a considerably larger acreage of Red Kidneys could be planted on the better soils of Michigan. As for white beans, Michigan's product is so well known for quality that it can stand very strong competition.

"For the good bean growers, who thoroughly understand bean production and are located under conditions that will produce good beans, this crop should be a good one during the coming year. However, many of the marginal growers (those who produce very near or below the average yield) may be better with some other crop.

"The present shortage of labor has increased the importance of securing larger yields per acre, and thus lowering the production cost per bushel of beans. Thorough and early preparation of the seed bed; planting the highest yielding varieties; and the use of fertilizers will aid in securing this increased production.

"The usual time of planting beans ranges from June 1st to 20th. If seed bed is not in good condition spend a week or ten days in working thoroughly, even though it makes planting time come a little late, though not later than June 20th. If seed bed is in condition by June 10th to 15th, this period is best, since the crop is sure of a longer growing season.

"All indications are that Michigan bean growers will find a better market next winter, (particularly late in the winter) for Michigan grown beans than the pessimistic forecast of the past fall and winter indicated.

MRS. JOHN NEIMAN

Funeral Services Will Be Held at Home This Afternoon.

Mrs. John Neiman of Novesta was brought to the Pleasant Home hospital Sunday where she underwent an operation for gall stones, and died late Tuesday evening. She was born in Ellington 28 years ago, and was a daughter of Mr. and Mrs. E. S. Hendrick who now reside in that township. Mrs. Neiman leaves many relatives and friends to mourn her loss—a husband, John Neiman, and three sons, Egbert, Albert and Robert, aged 9, 8 and 5 years; her parents, Mr. and Mrs. E. S. Hendrick, three sisters, Sadie, Bessie and Lottie, and five brothers, Earl, Norman, James, Egbert, Jr., and Oscar. The funeral services will be held Friday afternoon at one o'clock at the home, 3 miles west and 2 1/2 miles south of Cass City and interment will be made in Ellington cemetery.

NO. TIMES ARE NOT WHAT THEY USED TO BE

"Yes, times have changed a lot," said the sad-eyed neighbor across the road. "When I was a boy the best job to be had was school teaching," which paid pretty well for a beginning. From that a fellow might work on up to either clerkin', book-keepin', or even a job in a bank. But it's different now-a-days. My son started in a bank, worked on up to blacksmithin', then afterwards advanced to a clerkship in a fertilizer shed, and finally secured a position in an automobile factory with only one man—the tool-maker—of more importance than he in the department. The others on the job being merely superintendents, foremen, etc. He's only been there six months and he's already got a pair of Hannan shoes and two silk shirts, besides three pairs of unionalls and a suit case, and last week he only lacked a dollar and quarter of paying his board in full. I tell you a boy can get along in the city these days if he only tries."

NOTICE TO BEET GROWERS!

I will be at my home Saturday, May 1, to deliver beet seed. All growers please call and get seed. Levi Bardwell.—Adv. 1

TUSCOLA CO. SUPERVISORS IN SPECIAL SESSION TODAY

Meeting Called to Select Three Road Commissioners for County Road System.

Tuscola county supervisors will meet in special session today, pursuant to Section 2273 of the Compiled Laws of 1915, for the purpose of selecting three road commissioners for the county road system.

Two plans are provided for the selection of these commissioners. Three may be appointed by the board of supervisors today to hold office until Jan. 1, 1921, and provisions made for election of three at the November election to take office on Jan. 1, or the board may select three commissioners to hold office for the regularly specified terms of two, four and six years. It is said that the state highway department favors the selection of the commissioners by the supervisors for the regular terms instead of by popular election and also the payment of nominal salaries so as to keep the office as free from political influence as possible. Selection by the supervisors would also make it easy to select the three commissioners from different communities, having the eastern and western sides of the county as well as the central portion represented. The commissioners are not required to be road builders, their duties being administrative only.

Supervisors who signed the call for the special session today are James Kirk, Juniata; Guy Hill, Gilford; Conrad Mueller, Denmark; Albert Ruggles, Koylton; W. J. Kirk, Fairgrove; E. C. Robertson, Watertown; A. T. White, Almer; John A. Caldwell, Elkland; David W. Stewart, Fremont; John Hays, Dayton; H. S. Meyers, Indianfields.

HIGH PRICES OF FOOD SHORTAGE SAYS EXPERT

Potato Association Head Predicts Crisis If Legitimate Prices Are Hammered Down.

"Every attempt to force down legitimate high prices of foods will ultimately result in reduced supply and higher prices," says C. W. Waid, extension specialist at the Michigan Agricultural College, and President of the Potato Association of America. "Consumers must learn that high food prices are absolutely necessary, so long as present conditions prevail."

Farmers realize that the laboring classes are entitled to reasonably high wages under present conditions, according to Mr. Waid, but they ask that the wage earner be made to realize that the demand for higher and higher wages will never solve the High Cost of Living. Every boost in wages to a large class of laboring men draws many men and boys from the farms; thus lowering the production of foodstuffs.

"Investigation shows that there are 25,000 less men working on the farms of New York state this season than in 1919, while Ohio finds a reduction of 10 per cent in its farm labor supply. There will be nearly 1,000,000 acres less in crops in Ohio this year than last. Throughout the country the shortage of labor on the farms is much greater than it was at any time during the war. Thousands of farmers in Michigan will plant only such crops as they can care for and harvest with their own hands.

"If carried too far, the present boycott on potatoes may result in a potato shortage another year. The extreme prices being asked for potatoes at present are the result of a shortage greatly enhanced by lack of facilities to market the potatoes held by producers. The growers are not to blame for the present situation; in fact, because of inability to get potatoes to market they are profiting but little by the present high prices. While individuals should be encouraged to use the foods which are most abundant, the potato boycott is in danger of hitting the innocent and missing the guilty.

"Scarcity of labor and high price of seed will themselves have a very serious effect upon the acreage of potatoes planted this year, and if the growers have to fear boycotts the situation will become much worse. Consumers must realize that the only way to insure an adequate supply of foodstuffs for next year is to encourage the growers to plant as large acreages as possible. Inspiring reasonably high prices (as far as is possible), and avoiding unjust prosecutions and boycotts are the only means of securing the large acreage needed.

MEAT MARKET MEETING.

All those who have subscribed for stock in a community meat market at Cass City and all those interested in the project are requested to meet at the Town Hall, Cass City, next Wednesday evening, May 5.—Adv.

WHY CHRONICLE IS LATE.

W. E. Cosgrave, an expert of the Mergenthaler Linotype Co., dropped into Cass City yesterday morning to install an electric pot for melting metal for the Chronicle's linotype. This put the linotype "out of business" for the time being and scarcely any reading matter was set on the machine yesterday. This installation caused a day's delay in getting out the paper this week.

The electric heating device promises to be more satisfactory than a gasoline burner and prospects are that the product of the machine will be better than under old conditions.

MAY 7 SET ASIDE FOR TREE PLANTING

Governor Sleeper Issued Proclamation for Arbor and Bird Day in Michigan.

Following a custom established more than half a century ago, Gov. A. E. Sleeper Friday issued a proclamation designating Friday, May 7, as Arbor and Bird Day in Michigan. In the proclamation, the governor refers to the fact that Michigan forests have been depleted and that its forest lands should be replanted. He calls attention to the fact that this is a project that will require many years to mature and suggests that it would seem the part of wisdom in the meantime for cities and villages to beautify their streets and parks by planting trees.

The proclamation also suggests appropriate exercises in the schools and the planting of young trees on Arbor and Bird Day. It also indicates that young trees may be obtained at small cost from the Public Domain commission and the Michigan Agricultural college at East Lansing.

The governor also suggests that teachers of the state make a special effort to impress upon boys and girls the importance of planting and maintaining our shade trees and protecting bird life.

THE DIFFERENCE.

The story is told of a retail shoe dealer in Chicago that he displayed two pairs of the same lot of shoes in different windows, one priced at \$7.00, the other at \$14.00, and sold the latter five pairs to one pair at the lower price. We are in the midst of an orgy of reckless buying by the newly prosperous.

STATE ASSO. CREATING BIGGER DEMAND FOR BEANS

Michigan Wholesale Buyers Are Spending \$3,625 in National Advertising Campaign.

In an effort to make more popular the Michigan navy beans as a food, the Michigan Bean Dealers Association are fathering a national advertising campaign calling the attention of housewives to the fact that they can reduce the family food bill by baking more Michigan navy beans.

"If meats and vegetables contained the same food value as Michigan beans, your food bill would not exceed 30 cents per day," is a statement taken from the advertisement. Beans, it is claimed, are 90 per cent food.

The association is getting good returns from the first appearance of this advertising. Twelve tons of beans were sold in Lansing the next day after the advertisement appeared, eight tons going to one food retailer. In Ann Arbor, 115 bags were sold the day following the first advertising.

The association hopes to create a larger demand for future crops of Michigan beans through this campaign as well as stimulate the price for the past season's crop still unmarketed.

FRIDAY COMES ON FRIDAY.

Prof. David Friday, who has twice been scheduled to appear before a Cass City audience and each time has been obliged to cancel the engagement, is scheduled for a May 14 date. As this is Friday, members of the Parents-Teachers Association anticipate that it will be a regular Friday day and Mr. Friday will experience no difficulty in reaching Cass City and giving the address on "Tax Reform in Michigan."

A very enjoyable meeting was held by the association Monday evening, Rev. O. R. Grattan gave an address on the subject, "Recreation for Boys and Girls." Mrs. Chas. Day favored the audience with readings, Mrs. L. O. Hoxie and James Yakes with vocal solos and a male chorus with selection.

Mrs. Warner Kelley and son, Archie, of Detroit visited I. W. Hall and other friends the week-end.

JOHNSON ENDORSED AT DIST. CONVENTION

J. D. BROOKER ELECTED ALTERNATE DELEGATE TO NATIONAL CONVENTION.

H. P. Bush of Tuscola Co., Presided as Chairman at Pt. Huron Convention Wednesday.

At the convention of 7th district Republicans held at Pt. Huron Wednesday, Bert D. Cady of Pt. Huron and John H. Hands of Sandusky were selected as delegates to the national Republican convention to be held in Chicago in June. Over 100 delegates were in attendance at the district convention. For a time it looked as though there would be a contest staged on the floor of the convention, James D. Brooker of Cass City, having announced his candidacy as one of the national delegates.

It was pointed out at the caucuses that the two counties entitled to the delegates this year by precedent were St. Clair and Sanilac. Mr. Cady was the unanimous choice of the St. Clair county delegation, and the sentiment of Sanilac county finally centered on John H. Hands.

After several conferences Mr. Brooker withdrew as a candidate for delegate, and he was selected as one of the alternates to the convention. Chas. W. Smith of Lapeer was named as second alternate.

Henry P. Bush of Caro presided as chairman of the convention. In his address, Mr. Bush stated that there was been disappointment throughout the nation owing to the fact that the executive department at Washington was not functioning.

He stated that a strong hand to guide the helm of the ship of state was lacking. "This country has got to get back to sanity" declared Mr. Bush. "Throughout the nation there is keen disappointment at the way affairs are drifting. Following the signing of the armistice the people of the United States expected a speedy solution of the problems confronting the nation. The chief executive, however, left the country, and nobody knew what was doing. The country was permitted to drift. During the war the people laid aside all political differences, and backed up the administration. Since then enthusiasm has waned, and nobody knows what to expect. It is up to the republican party to solve the problems now confronting the country and restore confidence."

W. S. Wixson of Caro was chairman of the resolutions committee.

The resolutions upbraided the democratic administration for its waste, and lack of ability in directing the affairs of the country. The resolutions also endorsed Senator Hiram Johnson for the republican nomination for president, but did not pledge the seventh district delegates to stand by Johnson until released.

COMMUNITY FARM BUREAU ORGANIZED WEDNESDAY

G. E. Reagh Was Elected President and A. E. Goodall Vice President.

G. E. Reagh was elected president and A. E. Goodall vice president of the Community Farm Bureau which was organized at the Town Hall at Cass City Wednesday evening. Geo. Russell and A. J. Wallace were elected directors for three years. Wm. McKenzie and Fred Withey for terms of two years each and Edward Helwig and Homer Howler for one year.

C. J. Striffler was elected president and John Reagh vice president of the stock shipping department and Joseph Benkelman president and Benj. Schwegler vice president of the supply department.

A large number of farmers signed up on the Michigan Farm Bureau's wool program, declaring their intention to pool their wool. The state bureau has a large warehouse at Lansing and it is expected that 2,000,000 pounds will be handled by the bureau this year.

COMING FARM AUCTION.

James A. Rodgers uses space on page 7 to advertise an auction sale 3 miles west of Shabooma on Monday, May 3. T. B. Tyrell will cry the sale. Mr. Rodgers has purchased a jitney business in Lapeer.

The Foundation.

Kansas City Star: The present tower of high prices is built upon something infinitely more firm than the sand of the profiteers. It is built upon the ivory of twenty or thirty million consumers who are too busy consuming to produce.

If Only a Few Persons Deposited Money

in banks, the banks would have very little money to lend; persons desiring loans wherewith to buy feed or stock or implements or to carry on other business either would be unable to borrow or would have to pay extremely high rates of discount. On the other hand, if all persons deposited their money in banks, the banks would be able to lend a great deal more and the more they lend, the lower they can make the rate of interest. It is the law of supply and demand. He, who has a bank account, is helping his neighbor and his community. The Cass City Bank appreciates every account on its ledger whether it is big or small and is anxious to reciprocate wherever it is given the opportunity.

How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

Safe Investments Guaranteed by a Reliable Company

Do you want to make a good investment which will pay anywhere from 7 to 10 per cent on the amount of money you invest, and which is absolutely safe, being based on the deed of Detroit City improved property? There is nothing speculative—everything secure and sound.

The Menzies Real Homes Company, incorporated and organized in 1916 under the laws of the State of Michigan, and capitalized for \$100,000 all paid in, are builders of homes, cottages and two family flats. Our proposition is this:—We purchase a lot, always within the City limits with sewer, water, sidewalks and all improvements. We build a home and sell it to good reliable people who have positions and who have been thoroughly investigated.

They make a substantial down payment and the remainder is arranged in monthly payments of 1 percent per month of the balance owing on the contract. The amount which remains owing to us is secured by our having deed and title to the property in our own name. This is what is termed a land contract and is paid out approximately in five years. These contracts bear interest on the unpaid balance at the rate of six per cent per annum, payable each and every month.

Our proposition is to dispose of some of these contracts and through the money we obtain we are enabled to build more places and help house the many thousands of homeless families now in Detroit.

Therefore, we are offering some attractive contracts, and as a special inducement for quick sale we are giving a good substantial discount. This discount is figured on the unpaid balance and for the amount of money you invest it totals up approximately 20 per cent which is deducted at once and is your profit. You receive six per cent interest per annum on the face value of the contracts and not alone on the amount you invest.

Your interests are secure because you have title to the property, as we give you a deed which is recorded here in the Register of Deeds Office for Wayne county. Each month your payments are coming in, giving you a steady income on which you can rely and plan. The rate of interest is double what you would get from a bank and you are protected fully as well. We arrange to make all collections, sending a check to you on the first of each month, thus saving you the time and bother of making a special trip to Detroit.

Here is your real chance and our proposition is worth serious investigation on your part.

We refer you to the following banks as to our reliability:

First & Old Detroit National Bank, Detroit.

American State Bank, Detroit.

Or Dunn and Bradstreet.

Write us at once at the following address, or call on us when in Detroit.

We are sure we can make you an attractive proposition which will be based on sound values and good business judgment.

Stiff? Sore?

A lame back, a sore muscle or a stiff joint often is considered too lightly by the sufferer. It should be remembered that backache, rheumatic pains, stiffness, soreness, sallowness and puffiness under the eyes are symptoms of kidney and bladder trouble—and these certainly should not be neglected.

Foley Kidney Pills

help the kidneys eliminate from the system the poisonous waste and acids that cause these aches and pains. They act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to healthy, normal condition.

J. E. Simmons, 400 E. 50th St., Portland, Ore., writes: "I was troubled with backache and urinary trouble. I tried Foley's Kidney Pills and will say that I highly recommend them to any one troubled in that way, as they are excellent."

F. E. Schall, superintendent of the Caro schools, was not the driver of the car which caused the accident to Master Merritt Allen as stated in a recent issue of the Chronicle. He was a passenger in the car. As noted previously in these columns the driver was not held responsible. The accident could not have been avoided as the child ran directly in front of the car and it was only by quick work of the driver, according to statements of the passengers, that more serious consequences were escaped.

Since the time a Novesta lady was put in possession of her false teeth which she had carelessly dropped while attending the Cass City fair, one of the most remarkable incidents of the Chronicle liner restoring a lost article to its owner came to light this week. Miss Hazel Hower also of Novesta township won a silver medal at a W. C. T. U. contest recently and she was so unfortunate as to lose it while shopping in Cass City. She advertised her loss in last Friday's paper and Wednesday received word from Miss Thane residing at 69 Parkhurst St., Pontiac, that that young lady had found the medal and it was returned to its owner.

Tragic Spots Have Poetic Names.
Bab el Mandeb, the "Gate of Tears," is the strait which connects the Red sea with the Indian ocean. It derives its name from the dangerous character of the navigation of its waters. "The Bridge of Sighs" is the name tradition assigns to the covered passageway in Venice which connects the doge's palace with the state prisons, and on which the condemned are conducted from the hall of justice to the place of execution.

THE BEST TEST

Is the Test of Time.
Years ago Mrs. E. Gale of Third St, Cass City, told of good results from using Doan's Kidney Pills. Now Mrs. Gale confirms the former statement—says there has been no return of the trouble. Can Cass City people ask for more convincing testimony? Ask your neighbor!

Mrs. Gale gave the following statement October 20, 1916: "It has been several years now since I have had occasion to use a kidney medicine but I know from personal experience that Doan's Kidney Pills are a remedy of merit. I used to be bothered considerably with backache and my kidneys were more or less out of order. I always found quick relief by using Doan's Kidney Pills."

On Aug. 5, 1919, Mrs. Gale added: "I have had no occasion to use Doan's Kidney Pills since I recommended them in 1916 and I believe my cure is permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gale had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 8

Right and Wrong Methods.

A passionate man turneth even good into evil, and easily believeth the worst. A good, peaceable man turneth all things to good.—Thomas a Kempis.

His Inalienable Right.

Mr. Growcher says any man is justified in oversleeping if his wife comes to breakfast with her hair in patent curlers.

A Real Patriot.

Neither Montaigne in writing his essays, nor Descartes in building new worlds, nor Burnet in framing an anti-diluvian earth, no, nor Newton in discovering and establishing the true laws of nature on experiment and a sublimer geometry, felt more intellectual joys than he feels who is a real patriot who bends all the forces of his understanding, and directs all his thoughts and actions, to the good of his country.—Bolingbroke.

Illustrating Progress.

The Chicago Tribune says: "If man, a curious animal, had been deterred by fear of the unknown, we should still be lighting our fires by rubbing two pieces of wood together." As it is, we have followed our curiosity, and have achieved matches, pieces of wood, with which we start our fires by rubbing not two, but twenty-five or thirty up and down the wall and over the stove. Sometimes there is gas in the stove, which ignites from the match, and makes a fine fire.—Kansas City Star.

C. D. Colen, a prominent business man of Crosswell, met with a very painful accident at his farm late Saturday afternoon, when the tractor which he was driving tipped over backwards pinning the driver underneath the machine. Had it not been for the wet soft ground below, death, no doubt, would have been instantaneous. It is not known as yet how severe his injuries are, except a bone being splintered in one leg, which was necessary to remove, and one or two broken ribs.

Anson Best of Flint confessed Wednesday that he choked to death Vera Schneider, 20 years old, of Elkton, an operator in the Pontiac telephone exchange, who was found shortly after midnight Sunday on the porch of a dwelling under construction in Pontiac and a short distance from the city's best residential section. Best's statement says he killed Miss Schneider because she begged him to end her life saying she was tired of living and that she was simply in the way of others.

John Zachariah DesJardins of Pontiac, Alcona county, was struck by a swiftly moving auto as he alighted from a street car and was crossing to the opposite side of the street in Flint, April 9, and sustained a fractured skull from which he died in Hurley hospital the 12th. The remains were brought to the home of a step-daughter, Mrs. John Slack, at Bad Axe, on Tuesday evening and interment was made in the Valley cemetery at Ubyly. Mr. DesJardins was one of the first settlers in the Thumb, coming to Tyre about 60 years ago. He lived at Tyre and Port Crescent in the lumbering days and passed through the present site of Bad Axe when it was all a wilderness.

Judge Beach last week granted the petition for a new trial for Dan Stout of Grant township who was convicted by the jury on a charge of rape early in the term of court. The trial lasted nearly a week, was stubbornly fought on each side and attracted a great deal of neighborhood interest. Attorneys for Stout were A. Sauer and Paul Woodworth. There was considerable conflicting and alibi testimony which no doubt has influenced the decision for a new trial. It is also claimed that new evidence has been discovered and that evidence was introduced which was not properly admissible.

STRIKERS FEAR RAIL BLACKLIST

TRAINMEN'S BROTHERHOOD OUSTS NINE LOCALS IN NEW YORK—NEW JERSEY DISTRICT.

CHICAGO CLAIMS 1,892 WORKING

Managers Assert Freight Traffic 90 Per Cent Normal, Strikers Say "Exaggeration."

New York—Fear of a blacklist which would bar them permanently from employment, appeared to be one of the driving forces behind the steady break of the railroad workers' strike reported by railroad officials.

Although no hint of such a plan has come from the managers, possibility of its adoption was discussed freely by some strikers after they learned at a mass meeting that nine locals of the Brotherhood of Railway Trainmen in the New York-New Jersey district had lost their union charters by action of brotherhood officials.

T. R. Dodge, assistant president of the trainmen's brotherhood, stated that cancellation of the charters did not necessarily mean that the 2,000 men affected were expelled from the organization. He said members of the ousted locals may petition President Lee for reinstatement in other locals whose charters remain intact.

"These charters have been revoked because the members of the locals violated the constitution of the brotherhood," said Mr. Dodge.

Officials of the lines reiterated their optimistic statements that traffic was fast returning to normal and that the effects of the strike would soon wholly disappear.

Situation in Chicago.

Chicago—Strike developments were confined to issuance of statements by the railroad managers and strikers. The managers said 1,892 men were at work and that freight traffic was 90 per cent of normal.

The strikers asserted the number of men the railroads said were at work was less than one-fifth the normal number; that the industrial situation rapidly was growing worse, with a number of plants facing shutdowns because of lack of coal, and that because the railroads could not continue using high-priced men as substitute switchmen, a compromise would be forced sooner or later.

Elsewhere in the Central and Far West a gradual return to normal freight movement was reported.

John Gruman, head of the Chicago Yardmen's association, following his arraignment with 41 other strike leaders before United States Commissioner Mason, said no more meetings would be called and no further attempts made to end the strike. The strikers would be content to "sit tight at home," he said, until their demands were granted.

The Baltimore & Ohio Chicago Terminal railroad announced that strikers who did not return Monday lose seniority rights.

Rail Clerks Remain at Work.

Chicago—At a mass meeting Sunday representatives of 36,000 railroad clerks and freight handlers decided to await action by the railroad labor board on their demands for wage increases. Although strike action was discussed, the men voted to remain at work after their leaders had urged them to await the board's decision.

Well Supplied With Teeth.

The shark, it appears, in common with most reptiles and fishes, is not worried by the fear of a toothless old age and has a supply of molars always on hand in case of emergency. As Mr. Pindar puts it, "he has several rows of teeth one behind the other, and as fast as the teeth in the outer row are lost, they are replaced by those just back of them."

Not in Bull's Class.

Peter was out exercising his bulldog when a small white poodle ran up to the gate and began barking through the cracks of the gate at Peter's bulldog, which made him growl and raise his bristles as if he would chew the poodle up. Peter said to his dog: "Drop your bristles, Bull; nothing doing with such a little dog like that."

Macaulay's Love of Books

If anybody would make me the greatest king that ever lived, with palaces and gardens and fine dinners and wine, and coaches and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king. I would rather be a poor man in a garret with plenty of books than a king who did not love reading.—Macaulay.

Intemperance a Danger.

As love and self respect are the pillars of the home life, so intemperance is the certain destroyer of the home, attacking as it does the very fabric upon which it rests. Very many people imagine temperance refers to abstinence from, or moderation in drinking spirituous liquors, beer or narcotic drugs. But it is possible to be intemperate in words and actions.—Exchange.

Robber River.

The discovery that there is a kind of struggle for existence among rivers is one of the interesting results of the modern study of physiography. A notable example of this contest is exhibited by England's two biggest rivers, the Thames and the Severn. Between their valleys lie the Cotswold hills, and exploration shows that the Severn, by eating backward among these hills where softer strata underlie them, has diverted to itself some of the headwaters that formerly flowed into the Thames.—New York Post.

RESOLUTIONS OF RESPECT.

"There is only a curtain between us. Between the beyond and the here; They whom we call dead have not left us."

Nay, they were never so near."

In memory of Brother James B. Cootes who died April 22, 1920.

"Leaves have their time to fall, and flowers to wither at the north wind's cold blast, but thou, oh Death! hath all seasons for thine own."

Once again a Brother Mason, having completed the designs written for him on life's trestle board, has passed through the portals of Eternity and entered the Grand Lodge of the New Jerusalem and hath received as his reward, the white stone with the new name written thereon.

And Whereas, the all-wise and merciful Master of the universe has called from labor to refreshments our beloved and respected brother, and he having been a true and faithful member of our beloved Order, therefore be it

Resolved, That Tyler Lodge, No. 317, F. & A. M. of Cass City, Mich., in testimony of her loss, be draped in mourning for thirty days, and that we tender to the family of our deceased brother our sincere condolence in their deep affliction, and that a copy of these resolutions be sent to the family.

Foley's Honey and Tar
COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief
C. E. Summers, Holdrege, Neb., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a 50c bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."
For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

David Quant died Wednesday evening, April 14, 1920, at his home in Grant at the age of 79 years, five months, 15 days. He had been in poor health a number of years. He was born in Ontario, Canada, Oct. 30, 1840, and moved to Sanilac county with his parents when a small child. Puncture-Proof with Every Cord-Quality

LEE Cord Puncture-Proofs are the only **Lee cord** tires that can win an argument with steel.

Let the thinnest, toughest, sharpest nail or stoutest spike try to pierce the triple thickness of steel discs. They cannot pass. Your tube is safe. The cord construction is uninjured. Not a cord cut or weakened, for the steel discs are placed between the cords and the tread.

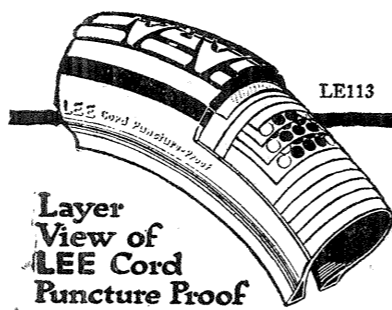

For eighteen months Lee Cord Punc-

ture-Proofs were subjected to the severest tests before being offered to the public. They were everything that a cord tire should be—not a single cord quality had been sacrificed to make them puncture-proof.

Let us show you the quality and construction of this remarkable tire.
