YOUR LIBERTY BOND

The United States Government borrowed money from you to finance the War. You hold the Government's promise to pay you back. This promise is called a Liberty Bond or Victory Note.

Now, if you keep your bond until the date when the Government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

Thought He Was Privileged.

Sam and his dog Hypp were romping back and forth on the porch. Sam shouting and Hypp barking. It was Sam's first time out of his room after a severe spell of illness.

"Conscience Fund" Contributions.

The "conscience fund" is presided over by an officer in the division of public moneys. All letters accompanying remittances are filed away, and although the writer's name is very seldom given in the letter, the treasury department tries to acknowledge receipt of the money by sending an account of its receipt to the newspapers in the town from which the money is sent.

Decoration Day

Three wars have piled high the toll in human lives in this broad land of ours. There is not a person, upon Decoration Day, who will not have occasion to reverence the memory of the brave men who gave up their lives that we might live in security and in peace.

there is a HOOSIER SYSTEM of just the right size to care for all water supply requirements

EVERY farm home-owner may enjoy the benefits which are derived from a supply of running water—under pressure. Water is needed so often throughout the day for so many household needs, and to be obliged to depend upon a hand pump is inconvenient.

A HOOSIER SYSTEM is easily installed, simple to operate, and the upkeep is negligible. It also requires but the least amount of personal attention. The HOOSIER SYSTEM shown is for shallow well pumping, and electrically operated.

More important however, we had the privilege of representing Michigan at the National Convention of Retail Grocers held at Atlanta, Ga., where 35 states were represented and where efforts were made to bring about better methods and economy in the distribution of the foods we all use, so that prices could be reduced and the interests of every consumer safeguarded.

One speaker, Mr. W. B. Culver of Federal Trade Commission, stated that the excess profit tax law was a penalty and should be repealed. He showed plainly how the manufacturer was putting his money into non-taxable bonds at 4½% instead of using them in business, thus curtailing production. He stated we must have quantity production in order to get lower prices as it is the law of supply and demand that regulates the prices and not the retailer.

### MEMORIAL DAY PROCLAMATION BY GOVERNOR SLEEPER

Splendid Achievement of Nation's  
Heroes Will Be Held in Grate-  
ful Remembrance.

Governor Albert E. Sleeper has issued the following Memorial Day proclamation:

"Time has greatly thinned the ranks of the brave men in whose honor Memorial Day was instituted fifty-two years ago, but it cannot dim the luster of their heroic deeds. While this Government shall endure their splendid achievements will be held in grateful remembrance. They won the cause that was more than all their victories. They saved the Union; and they established liberty not only throughout this broad and blessed land, but when the four years of agony were over a new witness to human freedom and to human brotherhood went forth from these shores and the light sped all around the globe. Their glory shall not fade.

"In the war with Spain and in the great World War, the sons and the grandsons of the men who fought at Shiloh and Antietam and Gettysburg nobly upheld the honor and the traditions of the American army and navy; and, while we look back with pride and satisfaction upon the achievements of the heroes of the Civil War, we may take equal pride in the more recent achievements of American soldiers and sailors and marines.

"Therefore, that we may pay a tribute of respect and esteem to the surviving veterans of the Civil War, the Spanish-American War and the recent World War, and honor the memory of the men who gave up their lives in all these wars, I, Albert E. Sleeper, Governor of the State of Michigan, do hereby issue this my Proclamation and sincerely urge the observance of Sunday, May 30, 1920, as Memorial Day. And I earnestly appeal to the people of Michigan for hearty co-operation in plans for the observance of the day in their respective communities, and for special provision this year for the comfort and convenience of the old soldiers. Age is telling on them physically but the same undaunted spirit is there as of yore.

"O that day flags should be displayed at half-staff until noon and then hoisted to the top of the staff.

"In this connection it is proper to point out that the law of the State provides that whenever the 30th day of May shall fall on a Sunday the following day shall be deemed a public holiday. See Howell's Annotated Statutes, Second Edition, Section 2865."

may receive their admittance cards and their name be registered for the affair. It is also requested that all persons bringing their cars report not later than 2:00 p. m. in order that all may line up and have everybody placed and ready to start out for Saginaw at the appointed time, for the success of the day in general at this particular time means that all must start promptly at the appointed hour.

There will be a car leading the procession which will be termed the "leading marshal" and there will also be five or six marshal cars distributed throughout the procession and three at the rear so that in the event of anything happening to any one of the cars enroute, either of a serious nature or break down of any kind, the rear marshal cars will see to it that all the occupants will be taken on to Saginaw and the disabled automobile taken care of until the return trip. In fact, every small detail is being well looked after in every respect both at this end and at Saginaw. Do not forget the date—Thursday, June 17.

# BEANS—YOUR BEST MONEY CROP

WITH THE LEAST WORK

## How best to prepare the land to get the most money out of them

Valuable Pointers from Michigan Agricultural College Expert:

Fall plowed clover sod or early spring plowed land can be best fitted for beans. As soon as fall plowed land can be worked in the spring, or immediately after plowing, in case land is spring plowed, fields should be disced thoroughly and, at intervals of a week or ten days until planting time, land should be gone over with disc or springtooth harrow. Much more land can be covered in day with harrow before crop is planted than with a cultivator after the crop is up. At no time can weeds be so effectively killed as during May and early June. Beans start best on a seed bed in as near garden tith as it can be worked, with lower part of the furrow slice firm and the surface well pulverized. Every bean seed planted must be poked out of the ground for the development of a plant; hence, it is more important than with other crops to prepare the seed bed thoroughly.

The use of manure in the fall or winter or early spring at the rate of 4 to 6 tons per acre is to be advised, and in addition from 200 to 300 pounds of Acid-Phosphate, or of fertilizer high in Phosphorous, applied at planting time will increase the yield and hasten maturity of beans.

Only clean seed, free of disease, is fit for planting. The Early Wonder variety, a white pea bean, is well liked in the Central Michigan bean growing counties because of its earliness and sureness. The Robust, when put out under good conditions which promote rapid growth, is a high yielding variety. Good local strains that are clean can be depended on.

The usual time of planting beans ranges from June 1 to 20. If seed bed is not in good condition spend a week or ten days in working thoroughly, even though it makes planting time come a little late,—though not later than June 20. If seed bed is in condition by June 10 to 15, this period is best, since the crop is sure of a longer growing season.

All indications are that Michigan bean growers will find a better market next winter for Michigan grown beans than the pessimistic forecast of the past fall and winter indicated. Japanese growers, fearing a high U. S. tariff, are planning on a small acreage this year. California Bean Growers Association report they will only plant a 30 per cent. crop. This will mean a higher price for your beans.

We have choice seed beans for sale and will be glad to give you any other information possible.
