CLASS OF 14 WILL BE GRADUATED

COMMENCEMENT EXERCISES AT
OPERA HOUSE WEDNES-
DAY, JUNE 16.

Baccalaureate Next Sunday, Junior-
Senior Banquet on Monday, Class
Day on Tuesday.

The school year, like all those
which have gone before, has come to
a close before we can believe it possible
and commencement time is with us again.

A class of fourteen, five girls and
nine boys, will be graduated from the
Cass City high school Wednesday
night, June 16. The Class of 1920
consists of the following members:

Cora Bartle, Valedictorian.
Roy Severance, Salutatorian.
Ray Colwell, Historian.
James Brooker, Orator.
Earl Gowen, Class Prophet.
Beatrice Cooper, Giftarian.
Parke Jones, Class Will.
James Yakes, Soloist.
Creighton Cathcart.
Jennie Beutler.
Velma Ferguson.
Fowler Hutchinson.
Alice Bigelow.
Harold Jackson.

The baccalaureate address to the
graduates will be delivered by Rev.
Grattan at the M. E. church Sunday
evening, June 13.

A banquet will be given by the
Juniors to the Seniors Monday
evening, June 14, in the M. E. church
parlors.

The Class Day program will be given
at the opera house Tuesday
evening, June 15, at 8:15 p. m.

The commencement address will be
given Wednesday evening in the
opera house by the Rev. Joseph Green,
of the First Presbyterian church of
Mt. Pleasant, Michigan. Mr. Green
has a wide reputation as a lecturer
so a large audience will be expected.
No admission will be charged to
any of these exercises.

PLAN CO-OPERATIVE SUGAR BEET PLANT

State Farm Bureau Talking of
Organizing Company in
Michigan.

Now that the Sugar Beet Growers
Association's efforts to win a new
price scale on the 1920 crop from the
sugar refiners by refusing to plant
beets have proven vain, the Michigan
State Farm Bureau has entered the
controversy with an entirely different
program intended to obtain for the
beet growers a more favorable price
for their product in 1921. Efforts will
be made by the Farm Bureau to es-
tablish co-operative sugar beet refin-
eries in the sugar beet territory be-
tween now and the time the 1921 crop
is out of the ground.

This announcement was made by
representatives of the State Farm Bu-
reau at a meeting of the directors of
the Sugar Beet Association when their
records for the year were closed. The
beet growers' directors appointed a
committee to assist in execution of the
Farm Bureau program.

Reports presented at the meeting
and a survey made previously by the
Farm Bureau showed that approxi-
mately only half of the normal beet
acreage in Michigan has been planted
this year, a condition that is sure to
curtail extensively the operation of
the dozen factories refining Michigan
beets. Labor conditions all through
the beet district are so serious as to
indicate that even much of the crop
in the ground is not apt to be placed
on the market. This labor shortage was
one of the main reasons for the de-
mand of growers for a new contract,
which would have provided for a sliding
scale dependent on the New York
market quotations and which would
have tended to equalize the profits
from beets between the growers and
manufacturers. Last year the manu-
facturers are alleged to have made
seven times the profit of the farmers
on each ton of beets, according to a
report of the State Farm Bureau.

BRIDE OF NEXT WEEK COMPLIMENTED MONDAY

Miss Marie Martin was the hostess
Monday evening at a miscellaneous
shower, complimenting Miss Virginia
Wilsley, a bride of next week.
The evening's entertainment was
featured in a mock wedding when
Miss Rosy May Levenski (Virginia
Wilsley) was united in marriage to
Mr. Levi Hermon Cohenstein (Cath-
erine Fritz), who were attended by
Daisy Bell Crocus, (Louisa Smith) as
bridesmaid, and Simeon Lochinvar
(Laura Gallagher) as best man. "Oh

Promise Me" was delightfully, if
amazingly, sung by Matilda Eckstein,
(Hazel Mead).

The ceremony was solemnly per-
formed by Rev. Reuben Heldfureaten,
(Katherine McLarty). The bridal
party and guests, numbering 19 in
all, left immediately on a honeymoon
trip, via the stairway, to the dining
room. The color scheme of pink and
white was observed in the dining
room also by the use of bridal
wreath and sweet peas.

The delicious wedding supper con-
sisted of pink and white brick ice
cream, the groom's cake, a pyramid
bride's cake, and claret punch. The
favors were pink and white sweet
peas, the bride receiving a beautiful
corsage of sweet peas and maiden-
hair fern.

Miss Wilsley was the recipient of
many beautiful and expensive gifts,
showing her popularity among the
younger set of the city. The gifts
she drew home in a pink and white,
crepe-paper bedecked wagon.

STATE OFFICIAL DESIGNATES PRIMARY LAW CHANGES

Candidates for Office Must File with
County Clerk by July 31st,
This Year.

Attention is called by Clark Brown,
head of the compilations division of
the department of state in which bu-
rean are handled election and primary
matters, says the State Journal.

Chief interest of these attaches to
the amendment enacted last year by
the legislature which provides that
the name of no candidate shall be
printed on any primary election ballot
unless there shall be filed by the can-
didate, an affidavit, stating that he is
a member of the political party under
which he has filed petitions.

This was designed to prevent a man
running on two tickets as Henry Ford
did in the 1918 senatorial primary.
Attorney General Alex J. Groesbeck,
prior to the presidential preference
primary, held this did not apply to
candidates for the highest office in the
land.

The 1919 amendment provides that
should a person become a candidate
on any party ticket other than of his
own party, as shown by his affidavit,
for the same office or for any other
office at the following primary, his
nomination on any other ticket shall
be void and his name shall not be
printed on the ballot at the regular
election following.

Should a person be nominated on
any other ticket, Mr. Brown points
out, for the office for which he is a
candidate, or for any other office, by
having his name written in or post-
ing on slips, the nomination on such
party slip shall be void. Should a can-
didate be nominated on more than one
party ticket by having his name writ-
ten in or by the use of slips at an elec-
tion at which he was not a candidate
for any office on any party ticket by
reason of having filed a petition and
affidavit, he shall elect within five
days after the official canvass on
which ballot he wishes his name to ap-
pear, and unless such election is made,
his name shall not appear on either
ballot.

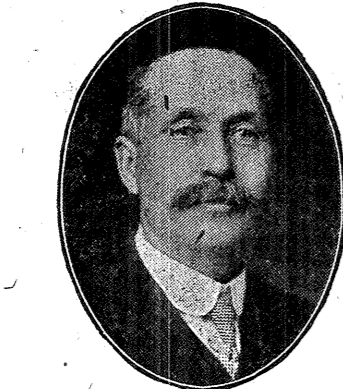

Another change requires county
clerks to make returns of certified
statements of votes within five days
after the primary election instead of
ten days as in the past.

Cities and townships by provisions
of another amendment are given au-
thority to direct that the polls be held
open until 8 o'clock in the evening.

Mr. Brown also points out that 4 p.
m. on July 31 is the last day on which
filings for candidates may be made.

Candidates for governor and lieuten-
ant governor are required to have
5,877 signatures on the Republican
ticket; Democratic, 2,860; Prohibi-
tion, 30; Socialist, 96; Socialist La-
bor, 21; New Party, 3,000.

CARS COLLIDE NEAR MAYVILLE, ONE DEAD

ANOTHER VICTIM THOUGHT FA-
TALLY INJURED; TWO OTH-
ERS HURT.

Farm Buildings Obstructed View of
Drivers; Both Cars Going at
High Rate of Speed.

James A. Slocum, aged 72, of
Unionville died Sunday noon at the
hospital at Caro following an auto-
mobile accident late Saturday afternoon
near Mayville.

Dr. C. H. Kaven lies critically and
probably fatally ill at his home in
Unionville, having sustained internal
injuries and it is feared a fractured
skull.

L. D. Sees, also of Unionville, was
severely cut and bruised about the
head and body, but is able to be about.

E. W. Slocum, driver of the Union-
ville car, escaped uninjured. The ac-
cident occurred two miles west of
Mayville. The Slocum car was com-
ing down grade toward Caro at a
high rate of speed and one of the cars
of the Flint-Caro bus line with
Charles Tennant, of Caro, as driver,
was going to Vassar from Mayville,
also at high speed. A farm home and
buildings on the corner obstructed
the view and neither driver saw the
other until their cars met. Tennant
was badly cut and bruised but not fa-
tally injured. His car is a total
wreck. Slocum's was an enclosed car
and is also badly wrecked.

The victims were brought to Caro
in ambulances, Dr. Kaven being taken
to his home Saturday evening and
Mr. Slocum to a hospital at Caro
where he died Sunday without regain-
ing consciousness.

RURAL MINISTERS TO HOLD BIG CONVENTION

Famous Speakers Scheduled for
Meetings at M. A. C. from
July 6 to 16.

Rural ministers from all parts of
the state will gather in East Lansing
from July 6 to 16 for the sixth annual
conference of pastors and laymen,
which is to be held in connection with
the summer session of the Michigan
Agricultural college.

More than twenty-five special lec-
turers are scheduled to address the
conference, many of them being
nationally known educators. Among
these will be: Dr. Warren H. Wilson,
of New York City, Church and Coun-
try Life Directors; Bishop T. S. Hen-
derson, of Detroit; Prof. C. H. Moch-
man, of Rochester, N. Y.; Dr. E. A.
Ruess, Professor of Sociology at the
University of Wisconsin; and Mr.
Ralph Felton, Department of Rural
Work, New York City.

HOSPITAL NOTES.

Cecil Schmysler of Bad Axe is re-
covering.

Albert, Walter, Ed., and John Kul-
ish were operated on Wednesday of
last week for removal of tonsils and
adenoids.

The little child of Earl Smith of
New Greenleaf was operated on
Thursday and is recovering nicely.

Mrs. Leo Snyder of Elkton entered
the hospital Saturday and underwent
a very serious operation on Monday
and is getting along nicely.

Miss Hall of Kingston was operat-
ed on Wednesday for the removal of
tonsils and adenoids.

Mr. Duffield and Mrs. Striffler are
improving.

1,200 BU. BEANS LOST WHEN BARN BURNS

A barn belonging to Mike Sasnoski
on his farm, about three miles from
Pt. Austin, was destroyed by fire
while Mr. Sasnoski was at church Sun-
day morning. About 1,200 bushels of
beans stored in the barn were also
burned, the beans had been carried
over for some two or three years and
at one time Mr. Sasnoski could have
sold them for \$10 per bushel. Children
playing with matches are supposed to
have caused the fire. Only \$1,200 in-
surance was carried.

VASSAR WINS SECOND AT LANSING MEET

Vassar won second place in Class B
schools, in the Interscholastic track
meet at Lansing and as a trophy re-
ceived a permanent cup. This is Vas-
sar's first entry into state contests
and the result is encouraging for fu-
ture participation.

CARO DEFEATS CASS CITY

Local Team Will Show Up Strong in
Field Meet Today.

Cass City met defeat at Caro's
hands Friday at the county seat, thus
eliminating the local school in partici-
pating in the championship game in
base ball at the county field meet to-
day. Caro and Millington will contest
for the championship honors.

Cass City expects to secure a big
share of the track and field events and
will undoubtedly take first place at
the county meet. Led by Brooker,
Gowen, Yakes and McConkey, who
won first place for Cass City at the
Saginaw Valley meet last week, the
line-up looks very promising. Vassar
will be Cass City's strongest opponent
in the events today. Miller stands
prominently among Vassar's athletes
and proved to be a fast man in race
events at the Valley meet, taking
first in both the 100 and 440 yard
dashes, and tying with Gowen for
first in the 220 yard dash.

MICHIGAN BEEF MEN PLAN ORGANIZATION

Meeting Called at East Lansing
June 15 to Consider Market-
ing Problems.

Michigan stockmen will gather at
East Lansing on Tuesday, June 15,
for the purpose of considering ways
and means of providing better mar-
keting facilities for the meat produc-
ers of the state. The organization
of a strictly Michigan beef growers
association is a possibility at the
meeting, which is being called by
George B. Smith, of Addison, secre-
tary of the Tri-State Beef Growers As-
sociation.

The need for better and more direct
marketing facilities has long been
felt by Michigan stockmen, many of
whom are tired of paying freights to
Chicago and other distant markets on
their animals. In many cases stock
thus shipped out of the state to mar-
ket is returned to Michigan cities as
dressed meat, thus adding a big
freight tax to the consumer and low-
ering the price to the producer. An
effort to develop adequate markets
within the state, in order to stop
these "cross freights" will be made at
the East Lansing meeting, which is to
be held in the Agricultural Building
at M. A. C.

Stockmen from all over the state
are expected to attend the conference,
many of them planning to double up
the business of the meeting with
some of the entertainment of com-
mencement week at the college. A
great historical pageant, in which
more than 500 college men and wom-
en will take part, will be given on the
campus Monday night, June 14, and
other features will follow on Tuesday
and Wednesday.

Dorr Buel, market manager for the
State Farm Bureau; Hale Tennant,
marketing expert at the agricultural
college; H. R. Smith, Commissioner
Chicago Live Stock Exchange, and
others are expected to address the
stockmen's meeting. College steers,
which are being talked of as possibili-
ties for the next international live-
stock show at Chicago, will also be
looked over by the beef growers.

W. H. M. S. CELEBRATED FORTIETH ANNIVERSARY

The Woman's Home Missionary so-
ciety of the Methodist church gave a
birthday party Tuesday evening on
the fortieth anniversary of the or-
ganization.

The meeting was opened by sing-
ing, followed a prayer by the Presi-
dent, Mrs. Robt. McInnes. Mrs. Joseph
Dodge gave a talk on the "Origin of
the Missionary Society." Next came
a short drama, showing the treatment
which immigrants receive at Ellis
Island. Various members of the so-
ciety and some of the young men and
women of the church were dressed to
represent the people from various
countries on the Eastern continent.
The confusion and chaos, and the for-
eign babbles were well depicted and an
endeavor made to show fairness to
both sides. Some were rejected be-
cause of various disqualifications,
such as ill health, others necessarily
so because of concealed weapons. I.
W. W. papers and so forth.

The stage was then cleared and the
audience enjoyed a duet by Eleanor
Bigelow and Helen Corkins. Next
came recitations by Alma McInnes,
Emma Beers and Bernice Wager.
Miss Brown gave an inspiring and
interesting talk and following the
singing of another hymn the candles
of the birthday cake were lighted. Ice
cream and cake were served by the
young girls of the church.

MILK PRODUCERS' MEETING

C. C. ATHLETES WIN VALLEY MEET

BROOKER, INDIVIDUAL STAR,
BETTERS TWO VALLEY
RECORDS.

Gowen, Yakes and McConkey, Aid
in Point Winning for Lo-
cal School.

Cass City high school athletes
again won honors for their school
Saturday, when they won first place
in the 16th annual track and field
meet of the Saginaw Valley Athletic
Association at Bay City. One hun-
dred twenty-four athletes from 10 dif-
ferent high schools in that section of
the state participated in the events
and four records were broken—the
220-yard dashes, the pole vault and
the discus throw.

James Brooker of Cass City proved
to be the highest individual point
winner of the meet, securing 22
points. He bettered the valley record
in both the pole vault and the discus
throw, with a leap of 10 ft. 6 in., and
a throw of the platter that measured
109 ft. 2 1/2 in. In addition to these
two firsts, he led in the broad jump,
won second place in both hurdle
events and fourth in the high jump.

A wonderful dead heat race by
Gowen of Cass City and Miller of
Vassar in the 220-yard dash stood out
as the one big event of the day. So
close was the finish, the judges were
unable to decide the winner and called
it a tie. The time of 22 2-5 beat the
record of 23 seconds flat which has
stood as the valley's record for 10
years. Gowen took second place in
the 440-yard dash.

Jas. Yakes and Robert McConkey
also represented Cass City at the
meet and won points for the local
school. Yakes won second place in
the broad jump and high jump and
McConkey was fourth in the mile.

S. CHAMPION TO GO TO NATIONAL CONVENTION

Three Local Citizens Represent Mich-
igan at National Conventions
within Three Months.

Cass City has three citizens who in
as many months will have represent-
ed their state in national conventions.
E. W. Jones represented Michigan
grocers at the national retail grocers
convention at Atlanta, Ga., in May, J.
D. Brooker is at present at the Republi-
can national convention at Chicago
as a delegate from Michigan and
Samuel Champion was recently elec-
ted at a state convention of the Michi-
gan Poster Advertisers' association
to represent that body at the National
Poster Advertising association which
convenes in St. Louis, Mo., on July 13,
14 and 15.

The state convention of the poster
men was held at Grand Rapids recent-
ly at which time the association
voiced its readiness to heartily sup-
port the request of the W. C. T. U.
that the exhibition of nude figures
and indecent and undesirable pictures
on billboards be prohibited.

NEW UNDERTAKING FIRM.

Hector McKay of Detroit and An-
gus McPhail of Argyle have formed a
partnership for the purpose of con-
ducting an undertaking and furniture
business in Cass City. They have
rented the Lee Block on West Main
St. which was recently purchased by
S. W. Striffler.

Mr. McKay was formerly engaged
in a similar business at Minden City
and Ubyly and will have charge of
the firm's business until next fall when
Mr. McPhail will join him here.

LOCAL ITEMS.

Legal papers were received from
Peter Lamont of Denver, Colorado,
the first of the week which transfer
the ownership of the Lamont business
block from Mr. Lamont to M. B.
Auten.

The Mothers' club was entertained
at the home of Mrs. G. W. Landon
Tuesday afternoon. The hostess as-
sisted by Mrs. H. R. Wager served a
delicious luncheon at the close of a
pleasant afternoon. Mrs. C. R. Town-
send will be hostess of the July meet-
ing.

Miss Lucile Wilson was five years
old Wednesday and in honor of the
event twelve little girls were enter-
tained at her home in the afternoon.
The little guests enjoyed games and a
delicious luncheon which included a
pretty birthday cake with five can-
dles. Little Lucile received several
pretty gifts from her friends.

The Ricker & Krahling business
block is nearing completion. Work-
men are placing the plate glass front
this week and this enhances greatly
the beauty of the building. The base
of the front is of beautiful Vermont
marble and surmounting the large
plate glass windows are panes of
prism glass which reflect the light
towards the rear of the block.

E. W. Jones and A. H. Kinnaird
were invited guests of Sheriff Morris
at Caro Saturday when the subject of
auto speeding was discussed quite
thoroughly, the sheriff introducing
the subject and giving his hearers ad-
vice, without charge, regarding swift-
ly-moving gas-propelled vehicles.
Other business men were slated for
similar audiences with the county's
executive.

A delegation of the Masonic frater-
nity from Cass City visited San-
dusky Wednesday to attend the fes-
tivities of Masonic day. Zenith Class
of the Bay City Consistory held its
first annual re-union at the county
seat and Masons throughout the
Thumb district were represented at
the gathering. Visitors were wel-
comed at the court house in the after-
noon by Mayor McKenzie and a ball
game was staged at the city park. A
fine banquet was served by the East-
ern Star at six o'clock. Later in the
evening the third degree was exem-
plified very efficiently at the Masonic
Temple by the degree team of Custer
Lodge.

THE GASOLINE SHORTAGE.

The government is issuing warnings as to the probability of an acute shortage of gasoline before the summer is out. Production of petroleum has increased 20 per cent over 1919, but use of gasoline has gained faster.

Millions of people who formerly wore out shoe leather and paid street car fares, are now cheerfully burning up gasoline in flivvers and other joy vehicles. Also with farm labor flocking to cities, farmers are compelled to resort to gasoline driven machinery.

The country must be fed and food must be transported. There must be sufficient gasoline available to operate the country's business, even if pleasure cars have to observe some gasless Sundays.

There will be gasoline enough for everybody, if owners of automobiles show moderation. A large part of them are not satisfied unless they get out on a Sunday, and scorch over 150 to 200 miles of road. They would be precisely as happy to take short runs of 50 to 75 miles. What they want is fresh air, the exhilarating sense of motion, and country scenes. They can get that within 10 miles of town, just as well as if they took a 200 mile run.

If motorists persist in using up the gasoline stock at the present headlong rate, it will cost much more before summer is over. In the present state of the country, when money is so badly needed to finance business, it seems folly to burn up this stock so fast. Many people who complain the most at the disturbed state of the nation, will themselves get out on Sundays, and help make things worse for everyone, by this reckless consumption of a basic essential of business.

THE SCHOOL GRADUATIONS.

Older people are often surprised, on attending a high or grammar school graduation, to see how much clever thought proceeds from the brains of quite young people. The reason is that the modern schools are not satisfied merely to cram facts and rules

into their minds, but try to make them think.

The graduating exercises of a high or grammar school are one of the prettiest functions of the community year. The bright faces of eager young people, the girls in their pretty dresses, the manly appearing boys, the tasteful decorations, the romance and sentiment of music, combine to make these occasions beautiful and stimulating. The people of Cass City have reason to be satisfied with the type of young people being turned out by their schools as revealed at these annual occasions.

BUY COAL NOW.

The man who has to loaf from 75 to 100 working days during the year, is going to demand higher pay for the 200 to 225 days when he can work. That simple truth goes far to explain the troubles in the coal industry.

The public can eventually reduce the price of coal, if it will comply with the request of the bituminous coal commission to buy coal in May, June and July and store for next winter. If coal mines could keep running regularly, coal could be produced for less money, and the threat of strikes made less likely. Fuel consumers in Michigan should co-operate in this movement.

Also the coal operators should promote this habit by offering spring and summer prices considerably lower than those prevailing in autumn and winter.

THE SINGLE ROOM SCHOOL.

Many of the old timers grow eloquent as they tell about the virtues of the education they got in the little old Red Schoolhouse. Today the ambitious parent realizes that the single room school means small classes, in which there is little enthusiasm and competition. The teacher cannot cover all grades, nor become proficient in special subjects like agriculture and domestic science. There is no organized play. Most of the children must stand one side and look on, while the big boys occupy the playground.

Although the people of Tuscola county have hated to give up the little one room schools, so often the only neighborhood centers, yet they can see that they are not an efficient preparation for modern competition.

RURAL CARRIERS.

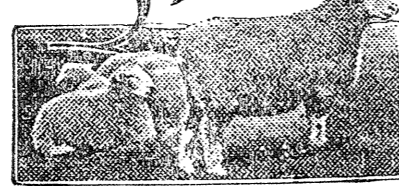

An exchange says a word of appreciation for rural mail delivery men, and The Chronicle is glad to pass it along.

It makes the rural family 10 times more contented to get mail and papers regularly. The fidelity with which these men cover their field all through bad weather is remarkable. The exploiter of rural delivery men through the wintry weather of the Northern states would make a story that is not short of heroic. They suffer many hardships to keep up their service. Express appreciation to your rural delivery man, you folks in the Thumb counties.

To Restore Charred Paper.

Documents that have been charred by fire are rendered readable if collodion is poured over the charred paper. In a few minutes this dries and a tough transparent coating is produced through which the printing can be seen. Bank notes and other papers thus charred have been treated in this way with success.

LIVE STOCK

TO DEVELOP SWINE INDUSTRY

Use of Good, Purebred Breeding Stock Will Always Make Improvement in Quality.

(Prepared by the United States Department of Agriculture.)

A better development of the swine industry can be brought about by following the suggestions given below:

Improvement in quality and uniformity through the use of good, purebred breeding stock, especially sires. Encouragement of swine shows and exhibits, swine judging, pig-club work, community breeding and similar activities.

Proper supervision of feeder and stocker hogs redistributed from market centers for additional feeding.

Effective supervision of the manufacture and distribution in interstate commerce of anti-hog-cholera serum and virus to insure the purity and potency of those products.

Immunization of valuable swine, especially breeding stock, against hog

Good Type of Brood Sow With Her Family.

cholera. Immunization of market hogs at an age depending on local conditions; also the immunization of swine introduced into a herd where all the animals have been vaccinated.

Suppression of tuberculosis in hogs by eradicating that disease from cattle which the hogs follow, and also from dairy cows whose milk is fed to hogs as skim milk, whey, or in other form.

Control of internal and external parasites on hogs through use of sanitary precautions, suitable disinfectants, and general care.

Sanitary housing and careful studies of feeding for the purpose of making gains conducive to producing pork at a low net cost.

Improved methods of slaughtering hogs and curing for home use.

Research in animal genetics as a basis for practical breeding.

Farrowing of fall pigs in northern states not later than October 1.

Raising two litters of pigs a year from matured sows in southern states, and also in northern states under favorable conditions of care and housing.

Continuous feeding and breeding experiments, accompanied by prompt announcement and publication of noteworthy results.

Compilation of statistics and meat-inspection data governing number, weight, dressed percentage, and other useful information regarding pork production and consumption.

PROVIDE WATER FOR HORSES

Four or Five Times Each Day Is Not Too Often for Hard-Working Farm Animals.

A hard-working horse or mule sweating freely requires a large amount of water. A 1,000-pound animal doing hard work on a warm day may require 100 pounds, or 12 gallons.

If twice a day is often enough to water in cool weather when the animals are idle, perhaps four or five times a day is not too often for a hard-working horse or mule on a hot day.

Still this is largely a matter of habit so long as work is regular. It matters little whether watering is done before or after feeding so long as the animal gets his water regularly.

If an animal gets water as often as he should have it, it is not likely that he will take too much, but if he is deprived of it for too long a period he may drink more than is good for him.

LIVE STOCK NOTES

Better neglect the ram's feed and water than his exercise.

The mule has many points to commend him as a farm work animal.

Soon after beginning to eat, colts will want water and a little salt in their feed.

When foaling, the mare should have a box stall or pasture lot where she can be all to herself.

No man ever succeeds in building up a great herd of cattle without good pastures, without rich grass lands.

For Every Farm Home

there is a HOOSIER SYSTEM of just the right size to care for all water supply requirements

EVERY farm home-owner may enjoy the benefits which are derived from a supply of running water—under pressure. Water is needed so often throughout the day for so many household needs, and to be obliged to depend upon a hand pump is inconvenient. With a HOOSIER SYSTEM installed in your home you can have a supply of running water in the kitchen, a modern bathroom, on the lawn for sprinkling, and at the barn for watering stock and washing vehicles.

A HOOSIER SYSTEM is easily installed, simple to operate, and the upkeep is negligible. It also requires but the least amount of personal attention.

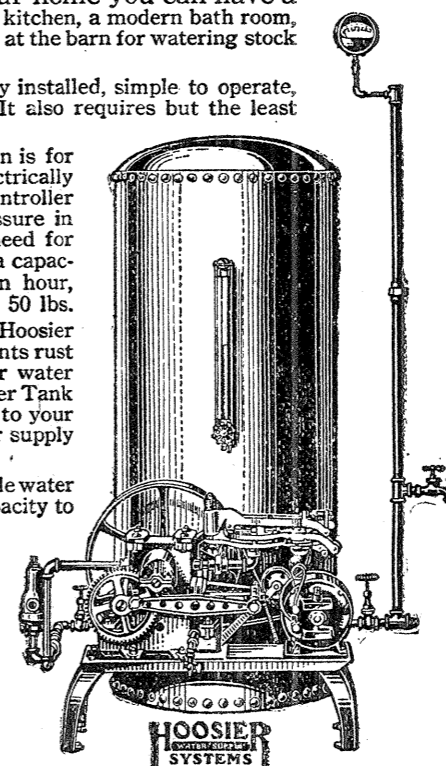

The HOOSIER SYSTEM shown is for shallow well pumping, and electrically operated. The automatic controller maintains ample working pressure in tank at all times without the need for personal attention. Pump has a capacity of 250 gallons of water an hour, pumping against a pressure of 50 lbs.

The tank is coated inside with Hoosier Anti-Rust Enamel, which prevents rust and corrosion. No chance for water contamination where the Hoosier Tank is used, and for this reason it is to your interest to see that your water supply system is a Hoosier.

This is a compact and serviceable water supply system of sufficient capacity to care for almost any home.

Almost Too Good an Excuse.
Sarah was invited with her older sister to take tea with a friend of her mother. The little girl was anxious to do her sister credit, but after sampling a piece of cake which she had taken upon her plate was unable to eat it because she did not like it. Her hostess noticing this, said: "Why, Sarah, you haven't eaten your cake?" Drawing a long breath and not wishing to hurt her friend's feelings Sarah replied "No, it is so good, I can't."

Voice of Envy.
Betty had tight curls and her greatest grievance in life was to have her hair shampooed. When she was shown her new baby brother, she put her hand on his little bald head and said: "Oh, you lucky little shampooless kiddie."

COOKIES and SMALL CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

Cookies

1/2 cup shortening
1/2 cup sugar
1/2 cup milk
2 eggs
1/2 teaspoon grated nutmeg
1 teaspoon vanilla extract or
grated rind of 1 lemon
4 cups flour
3 teaspoons Royal Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 13 minutes in hot oven.

Cocoa Drop Cakes

4 tablespoons shortening
1 cup sugar
1 egg
1/2 cup milk
1/2 cup flour
3 teaspoons Royal Baking Powder
1/2 cup cocoa
1/2 teaspoon salt
1 teaspoon vanilla extract

Cream shortening; add sugar and well-beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Put one tablespoon of batter into each greased muffin tin and bake in moderate oven about 20 minutes. Cover with boiled icing.

Orange Cakes

4 tablespoons shortening
1 cup sugar
1/2 cup milk
1 egg
2 cups flour
3 teaspoons Royal Baking Powder
1/2 teaspoon salt
1 teaspoon orange extract
grated rind of 1 orange

Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add well-beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and grated orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us \$3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine—

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress;

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American.

Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."

Newspaper men and job printers gathered in convention at Jackson, Mich., June 3, 4 and 5 when matters of interest to the trade were discussed and the Michigan Press and Printers' Federation lost its identity by the vote to affiliate with the United Typothetae of America, an international association of master printers. Newspapermen visited the state prison Friday morning and the Odd Fellow home late that afternoon which was followed by a banquet at the Jackson City Club where James Schermerhorn, publisher of the Detroit Times, gave the principal address. Printers were impressed by the industry shown by inmates of the prison and surprised to find any workmen to man the institution's print shop. When the guide explained that the men learned the printers' trade after their advent into the institution, the mystery was solved. The comfort and contentment of those in the Odd Fellow home left the impression with the visitors that any project which had for its object the hearty co-operation of Michigan Odd Fellows. A prominent Elmwood township farmer says that a petition is being circulated to have the highway west of Elmwood Corners improved and made one of the main arteries of the county road system. He says that the road west of the "five-mile corner" should have first attention and improvement as it accommodates much more traffic than the town line road and is on a direct route to Cass City. He suggests that Cass City citizens and the people residing directly west of here should get busy on the proposition at once.

Learning. Learning taketh away the wildness and barbarism and fierceness of men's minds, though a little superficial learning doth rather work a contrary effect. It taketh away all levity, temerity, and insolency by copious suggestions of all doubts and difficulties, and acquainting the mind to balance reasons on both sides, and to turn back the first offers and conceits of the kind and to accept nothing but the examined and tried.—Bacon.

Why War-Time Diet Was Best.

Dr. Harvey W. Wiley, a Hoosier who became famous as an authority on the proper food, has been making a short visit to Indiana friends. He says, according to the Indianapolis News: "I regret that the American people so soon abandoned the restricted diet enforced by the war-time food administration. The use of white flour instead of the war mixture is a step backward so far as the public health is concerned. The war bread was more nutritious and in every particular more to be desired than the bread we are using today."

Doctor Wiley says his family went on a war diet before the rest of the country and the same diet is being kept up, even though restrictions have been, to a large measure, removed. He also thinks the curtailment of sugar was a great thing for the country and is sorry the sugar bowl has gone back on the restaurant and hotel tables.

How Hairpins Aid Surgeons.

De Angelo L. Saresi of New York, who has been serving as surgeon in the Italian army, sends to the Journal of the American Medical Association a note on a novel but simple method of retracting the skin and flesh in minor surgical operations. "When special retractors are not available," he says, "ordinary hairpins may be used." He shows some of the many ways in which they may be bent for the purpose. They can be made self-retaining by hanging a small weight to them.

How Saying Originated.

It used to be customary for the godfather of an infant to present him with a silver spoon at baptism. In the case of a child born lucky or rich, the gift was anticipated at the moment of entering life and the child was then said to be born with a "silver spoon in his mouth."

FRIDAY AND SATURDAY, JUNE 11 AND 12, SEE

"THE BIRTH OF A RACE"

The greatest show on earth. A masterpiece bigger in conception than any other picture in years. A wonderfully human story of democracy and of brotherhood. It goes back into the past, takes up the present, and lifts the curtain on the future.

The struggle for brotherhood, peace and happiness through all the ages. Its appeal is to all classes. It eulogizes the working man, it gives due credit to all races and creeds.

The opening scene of this great photoplay shows Adam and Eve in the Garden of Eden and then brings us thru all the ages up to the present.

This picture was two years in construction—cost over a million dollars and employed 10,000 people. If you are at all interested in the past, present and future, don't miss this.

Children 25c; Adults 35c—War tax included.

WEDNESDAY, JUNE 16.

13th Episode of "THE INVISIBLE HAND" (2 Reels)

"The Trials of Texas Thompson" an O. Henry story, (2 reels), and "Queen of the Waves" (1 reel). Those interested in electricity should not miss the "Queen of the Waves."

FRIDAY AND SATURDAY, JUNE 18 AND 19

CHARLES RAY IN "THE LAW OF THE NORTH"

This is a story of the Arctic and shows the white silences of the far North. The grandeur of the North country on the "top of the world" is shown to the utmost, and the scene where Le Noir, the "Man Wolf," fights back the wolves, who ring his camp-fire and come ever closer is a masterpiece of dramatic photography.

THE TECKTONIUS SILO

The Silo With Superior Silo Fixtures--So Infinitely Better That They Have Set A New Silo Construction and Service Standard. x x x

Your Farm Needs a Silo

Comparatively few agriculturists realize the extent to which the cultivation of hay and grain crops deplete the soil on which they are grown. It is estimated that a ton of clover requires 41 lbs. of nitrogen, 7 lbs. of phosphorus, and 44 lbs. of potash—which in other words means a usage of ten dollars worth of fertility from the soil.

A ton of wheat consumes about nine dollars worth of fertility from the soil; a ton of alfalfa about ten dollars, and a ton of corn about nine dollars.

Thus it can be seen readily that corn for silage takes less per ton from the land on which it is grown, and produces 4 to 5 times the amount of food when used as silage, than any of the other grains. This simply means that corn silage will feed two or three head of cattle on land that without a silo would feed but one.

Authorities estimate that every head of cattle returns to the soil each year about thirty-two dollars in fertilizing material.

Can you afford to deny your farm this benefit? Think it over—a silo and cattle are unquestionably the easiest and cheapest way of rebuilding your land.

WOOD OR GALVANIZED STEEL ROOF. One Third Pitch or Gambrel furnished—with or without Dormer window.

INNER TOP HOOP is automatic in conjunction with outer top hoop. Another exclusive TECKTONIUS feature.

Patented June 25, 1918; Aug. 6, 1918

SELF-ADJUSTING HOOP FASTENERS Automatic take up. No tightening or loosening of hoops by hand, as with other silos. An exclusive TECKTONIUS feature.

SELF-ADJUSTING DOOR FASTENERS. Automatic adjustment of silo at door to contraction and expansion of staves and hoops. Still another TECKTONIUS exclusive feature.

TECKTONIUS PATENTED "HINGED" DOOR. Locks each corner of door. Keeps door opening absolutely air-tight. Suspended from four points. Cannot sag, bind, or stick. Instantly removable from hinge. Door swings inside silo clear of door opening.

BOX CAR, GRAB IRON LADDER. Span Rods and Ladder Rungs project out 5 inches and 15 inches apart. Safe and convenient ladder.

DOUBLE CHECK ANCHORAGE SYSTEM. One piece cable is attached to second to top hoop at two points and engages foundation anchor iron embedded in concrete. Makes silo wind and storm proof.

DOES YOUR SILO NEED REPAIRS?

We are prepared to furnish you with Fir Staves, Hoop Supports, Lugs, Anchors, Cable, etc.

Get your repairs as early as possible to avoid an unlooked for delay.

SILO BASE.

Remember please—when you are considering the prices of wood silos that we furnish you with forms for the erection of the base (2 ft. or more in height) which save you in cost and labor.

SILO ROOFS.

We are to quote prices on Galvanized Roofs for any kind of Silo—Wood, Solid Concrete, Cement Stave, Glazed Tile, etc.

We are also in position to cut rafters, plates etc., for a roof of wood construction. Give us the diameter—we'll do the

Old-Time Sailors Would Not Make Voyage Without Carrying Good Luck Charm

Time was when sailors would not think of sailing without a charm or pocketpiece of some kind to ward off bad luck. Wind beads were a favorite and in nearly every port were maidens to sell them.

Tattoos were considered essential for bon voyage, especially the butterfly on the shoulder predominated for good luck. A pig tattooed on the foot was assurance the man would never drown, sailors say not a man is known to have drowned if he possessed this significance of charm against fate.

And so the old sailor, by the hour, could spin yarns and point to strange fate-inexplicable disaster always laid to the door of superstition.

ODD FACTS

Originally canopy was the name given to a mosquito net.

The exclusive food of the harpy eagle of Brazil is monkeys.

It has been said that eight or ten rabbits eat or destroy as much grass as one sheep.

Pemmican, the staple food of Arctic explorers, is made from the flesh and fat of bison.

One hundred and seventy-five million shells were fired on the western front during the war.

Three Marked Seasons in Philippine Islands

The climate of the Philippines is one of the best in the tropics. The islands extend from 5 degrees to 21 degrees north latitude, and Manila is in 14 degrees 35 minutes. The thermometer during July and August rarely goes below 70 or above 85. The extreme ranges in a year are said to be 61 to 97, and the annual mean 81. There are three well-marked seasons, temperate and dry from November to February, hot and dry from March to May, and temperate and wet from June to October. The rainy season reaches its maximum in July and August, when the rains are constant and very heavy. The total rainfall has been as high as 114 inches in one year.

MOTHERS' COOK BOOK

The family must be fed, whatever food costs, and the wise mother will study how to get the greatest return on her investment by the careful selection of foods. Having purchased the foodstuffs, still further economy can be effected by proper preparation and cooking.

Wholesome Puddings.

With sugar at the price at present as well as all syrups, the housewife who has honey made by her own bees is fortunate. There are many desserts which are just as good as those made with sugar.

Oatmeal Pudding.

Take one-fourth cupful of pinhead oatmeal or rolled oats, one cupful of boiling water, one and one-fourth cupfuls of hot milk, two tablespoonfuls of grated chocolate, four tablespoonfuls of strained honey, one tablespoonful of butter, one teaspoonful of vanilla and salt to taste. Cook the oats in water twenty minutes. Add the remaining ingredients and turn the mixture into a greased baking dish. Bake the pudding in a moderate oven for one hour. Serve with cream.

Baked Rice and Apples.

Remove the cores from tart apples, place the apples on a layer of boiled rice about an inch thick in a baking dish. Fill the cavity of each apple with rice, add one teaspoonful of butter and half a tablespoonful of honey for each apple and a little nutmeg for flavoring. Cover the dish and bake the pudding slowly until the apples are well cooked.

Coconut and Marmalade Jelly.

Take two and one-half tablespoonfuls of gelatin, one-half cupful of water, one cupful of hot milk, one-fourth cupful of orange marmalade, one cupful of canned coconut and one-half cupful of cold milk. Honey to sweeten. Soak the gelatin in the cold water, then dissolve it in the hot milk. Beat it smooth with an egg-beater, add the marmalade and honey with the coconut and the cold milk. Pour into a mold and chill. The marmalade may be used to garnish the pudding instead of being molded in it.

Junket.

Take three and one-half cupfuls of milk, heat until lukewarm, add half a cup of honey and one dissolved junket tablet. Stir until well mixed, and add a teaspoonful of vanilla. Pour into sherbet glasses and let stand in a warm room until firm, then chill. Add one tablespoonful of cold water to the junket tablet to dissolve it. Serve with whipped cream.

Maple Toast.

Beat two egg yolks until thick, add one-half cupful of maple syrup, one cupful of milk and a pinch of salt. Dip slices of bread in the mixture and fry until brown in a little fat in a frying pan. Serve with or without maple syrup.

JUST IN TIME

Some Cass City People May Wait Till It's Too Late.

Don't wait until too late. Be sure to be in time. Just in time with kidney ills. Means curing the backache, the dizziness, the urinary disorders, That so often come with kidney troubles. Doan's Kidney Pills are for this very purpose. Ask your neighbor! Here is Cass City testimony of their worth.
 Mrs. M. Seeger, Pine & Brooker Sts., says: "The irregular action of my kidneys last winter gave me no end of annoyance. My kidneys were so weak that they acted very frequently. Thank goodness I caught the trouble in time! I used a box of Doan's Kidney Pills, which I got at Wood's Drug Store and they soon put my kidneys in a healthy, normal condition. I have had none of that unpleasant trouble since."
 Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Seeger had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 2.

SCHOOL NOTES.

High Room.

The senior class are taking their examinations this week. Cora Bartle, Jennie Beutler and Beatrice Cooper expect to attend the normal at Ypsilanti, preparatory for teaching school next year.

Cass City took first place at the Valley track meet June 5 and expect to make a good showing at the county meet at Caro on June 11. The boys are undergoing a thorough course of training.

According to the decision of the board of control of the County Athletic association, the program of the county meet will begin at 9:00 o'clock sharp, whether the participants of the different schools are present or not.

The field meet marks the end of athletics for this year. Mr. Hoxie wishes to thank everyone who has helped make them a success.

Junior High.

In the ball game last Wednesday between the 7th and 8th grades, the score was 22-23 in favor of the 7th grade.

The 7th and 8th grades will have a track meet Monday.

Those who passed the county 8th grade examination are, Warren Wood, Edna Brackenbury, Dorothy Findale, Bertha McCullough, Flossie Ewing, Marjorie Oils, Marian Bixby, Marshall Burt, Helen Reed, Vera Flint, Margaret Reagh and Adrian Bixby. Lorena Wilson has entered school to complete the last two weeks' work.

The Junior High are planning on a short program and refreshments on June 18, that being the last day of school.

A boy's cap was found in the Junior High room shortly after the county eighth grade examination. The owner can call Miss Colwell and prove his property.

Kenneth Striffler went home from school Wednesday morning on account of sickness.

Mary Burt visited the Junior High one day last week.

Seventh grade finals in history were given this week, as the work was finished.

Several of the 8th graders are planning on attending the exercises at Caro June 11, to receive their diplomas.

In the last examination of the egg the 6th graders found a fully developed chick.

Ella Hartwick visited the fifth grade Wednesday.

The fifth grade are very much interested in the division of mixed numbers.

Stewart Wilsey is absent from school on account of the mumps.

Beatrice Wolverton has left school and gone to Gageton.

Ethel Hubble visited the 4th grade Thursday.

Gordon, Doris and Audrey Bliss entertained their teachers, Miss Hickey, Mrs. Fleming, Mrs. Fritz and Mrs. Ferguson at supper Thursday evening.

George Wolverton and Aloysius Kelley visited the kindergarten, one day this week.

THE 23D PSALM.

1. The Fliver is my car, another I shall not want.

2. It maketh me lie down in wet places, it soileth my clothes; it leadeth me into deep waters.

3. It leadeth me into paths of ridicule for its mane's sake; it prepareth for me a breakdown in the presence of mine enemies.

4. Yea, though I run through the valley I am towed up the hill, I fear great evil when it is with me; its rods and its engines discomfort me.

5. It anointeth my face with oils, its tank runneth over.

6. Surely to goodness if it follows me all the rest of my life I shall dwell in the house of the INSANE forever. For Ford-Car Owners Only.—Exchange.

Home of the Circus.

A school teacher was reading an exciting story to her group of youngsters about the jungle. In order that each child might understand clearly, what the story was about, she said "Which one of you can tell me what the jungle is?" One bright little boy, waved his hand in the air and the teacher told him to give his definition. He stood up before the class with a great deal of importance and said "The jungle is where the circus lives."

That's the Spirit.

Many people walk about with a whole cargo of grievances in their heads. Walk right up to your difficulties with your coat off. Don't try to dodge round 'em.—Exchange.

Johnnie's Eig Discovery. Johnnie stopped in his frolic to watch the maid stretch his sweater which had shrunk in washing. Returning to his play, he found his pet kitten at full length on the floor, apparently bigger than ever before. "I've found out how kitties grow to be big cats," he triumphantly called: "they stretch themselves."

CHURCH NEWS.

Greenleaf Presbyterian—Paul J. Allured, Minister. Service on Sunday, at 3:00 p. m.

Christian Science—Services are held every Sunday morning at 11:00.

Evangelical—On Friday evening, June 11, Rev. G. Knechtel of Bay City, the presiding elder of the Flint district, will preach, the service beginning at 8 o'clock. The quarterly business conference will be held at the close of the service. Holy communion will be celebrated at the Sunday morning service at 11 o'clock. The Sunday school meets at 10 o'clock. Preparations are being made to observe Children's Day on June 20. Union service next Sunday evening at the Methodist church under the auspices of the graduating class of

the high school. Prayer meeting Thursday evening.

Presbyterian—Children's Day exercises will be held at the regular morning service hour, 10:30. An interesting feature will be a missionary play given by Mrs. Kelsey's class, assisted by children from the primary department in songs and recitations. The regular Children's Day offering will be taken. A general invitation is extended to all to be present.

Baptist—Children's day services at the Baptist church on Sunday morning, June 13. Special exercises by the children and a short address by the pastor. Service starts at the usual hour, 10:30.

The evening service will take the form of a union Baccalaureate service at the M. E. church. Come—for all are welcome. S. T. Dink.

Methodist—Children's Day will be observed on next Sunday morning at the 10:30 hour. There being no preaching service, the program will cover a portion of both the sermon and Sunday school time. A program of worth will be presented, near the conclusion of which, a baptismal service will be conducted for babes, children and adults—also new members will be received with those who are

to be received into full membership from probation which will include all those who have not been thus received. The Baccalaureate service will be held in this church Sunday night. To these services all are most cordially invited.
