

BODY OF GORDON TURNER IS FOUND**WAS DISCOVERED TUESDAY IN THE AU SABLE RIVER.****Scores of Roscommon People and State Police Search Three Weeks for Missing Young Man.**

The body of Gordon Turner, whose disappearance was briefly noted in the Chronicle last week, was found in the Au Sable river Tuesday. Scores of people of Roscommon, aided by state police had search nearly three weeks before the body was discovered. The young man is the son of Enoch Turner, a former resident of Grant township.

On the day of his disappearance from his father's farm near Roscommon, Turner borrowed a shotgun ostensibly for the purpose of shooting some stray cats about the barn at his home. His parents heard shots fired from the gun, but thought nothing of it until some time later when, the young man failing to return to the house, they went in search of him. They found traces of blood in the barn and pieces of cloth which apparently came from his shirt, and a jacket he was wearing. Later a search of the neighborhood for some distance about the home revealed tracks in new cement laid in the basement of a partly finished house on the bank of the Au Sable river, which were identified as his because of a peculiar patch on one of his shoes.

There was a wound from the shotgun in the youth's shoulder, indicating that he first attempted to take his life in that manner and, failing, threw himself into the river. Turner was about 20 years old, and had worked in Detroit automobile factories and, it is said had been brooding a great deal over ill health.

FARM AUCTIONS**Four Are Advertised to Be Held Next Week.**

Through an error in the copy, the location of the farm on which Angus McCallum's auction will be held was incorrectly given in the auction advertisement which is printed on page 8. The error was discovered after that portion of the paper was printed. The farm is located 5 miles north and 4 miles east of Cass City, or ¼ mile west of Old Greenleaf. Thursday, Sept. 30, is the date and R. N. McCullough is the auctioneer.

Tuesday, Sept. 28, is a popular day with three farmers for auctions, but the farms are located so far apart that the sales will probably not interfere with one another. John Ritter has a sale on this date with R. N. McCullough for auctioneer on the farm 1 mile south and 1¼ west of New Greenleaf. Particulars on page 8.

T. B. Tyrrell will cry a sale for O. Glaspie on Sept. 28 on the farm 4¼ miles west of Shabbona. Advertisement on page 9.

Thos. Farson will have a sale on Sept. 28, 2 miles south and 1 mile east of Owendale, with A. J. Hughes as auctioneer. Full particulars on page 9.

Jno. Morrison of Elkland will have a farm sale on Tuesday, Oct. 12. His list will be printed in a later issue of the Chronicle.

OPEN SEASON FOR DEER NOV. 13-22

Deer may be killed in all counties where they exist, in both the upper and lower peninsulas of Michigan this year. An order, approved by the Public Game Commission, directs State Game Commissioner John Baird, to announce the open season for the killing of deer as November 13 to November 22, both dates inclusive, curtailing the period of lawful hunting to ten days. The order of the Commission is authorized by Act 9 of the Public Acts, 1917.

TUSCOLA CO. DEMOCRATS SELECTED DELEGATES**Two Appointed in Each Township to Organize Cox & Roosevelt Clubs.**

The Democrat county convention was held in Caro Tuesday, Sept. 14, a good attendance of delegates elected at the August primary from the different townships. Chairman Geo. Taggett presided, and Miss Martha R. Purdy acted as secretary.

The following delegates were elect-

ed to attend the state convention to be held in Lansing, Sept. 29:—R. J. Putman, George Taggett, Indianfields; H. A. Bishop, Millington; Arthur Hillman, Akron; Martha R. Purdy, Caro; M. Eveland, J. J. Finn, Mayville; James McPherson, Tuscola; Archie Burns, Kingston. Alternates—L. C. Truax, Akron; L. C. Purdy, Elmwood; Joseph Dodge, Elkland; Glenn Montague, Kathryn Pearce, Max Zemke, Caro.

Two vice chairmen were appointed from each township, a man and a lady, to assist the county committee and organize Cox & Roosevelt clubs in the townships. Martha R. Purdy of Caro was elected treasurer of the county committee.

A county rally with W. N. Ferris as speaker will be held at Caro early in October and arrangements are being made for speakers for all towns in the county during the campaign.

TENT MEETINGS CLOSE ON SUNDAY, SEPT. 26**Revival Continue with Great Interest; Three Special Services Announced.**

Sunday Services.
Morning, Dr. Newlin's subject will be "Two Pictures in One Frame."

Afternoon meeting for men and women at three o'clock. Subject, "The Four Cylinder Man."

Evening meeting, "Crossing the Jordan."

Large and appreciative crowds attended all the services last Sunday. The great union services of Sabbath schools in the morning was a wonderful service. More than 60 young people came forward in confession of Jesus Christ, accepting Him as their Lord and Master.

The morning worship following was a never-to-be-forgotten service. Dr. Newlin preached a marvelous sermon on the "Crucifixion." A large number accepted Christ as their Savior at this service. The evening meeting was a glorious climax to a great day "many being added to the Lord."

We have observed that one of the great drawbacks of the meetings has been lack of constant attendance on the part of the "saved" and "unsaved" alike. If you are missing these meetings you are indeed the poorer. We have only a few more days, let us rally friends for the final effort. Come to all the services.

Thank Offering Sunday.
On Sunday a thank offering will be taken as a remuneration for the services of Dr. Newlin, which cannot be repaid in dollars and cents, but this is the way we can show our appreciation to this man of God for the good he has accomplished in our city. Dr. Newlin, is loyal to the Word of God and to the Christ of the Bible. Night after night, with no uncertainty or hesitancy, he has declared the "Christ of the Bible is the Savior of the World."

The writer of these notes cannot but believe that there has come back into our thinking and experience some of the old terms—justification, propitiation, reconciliation, atonement, assurance of faith—which has quickened and strengthened our spiritual life. And after all these are the keywords of Christianity and it can be truly said the keywords of Evangelist Newlin's preaching.

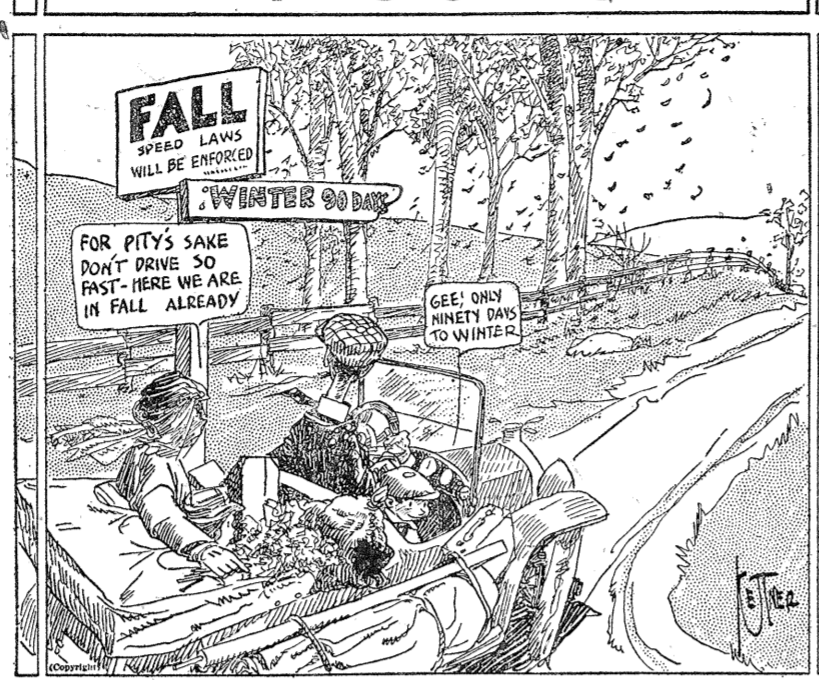

Don't miss the few remaining meetings. Everybody come. You will live better, feel better and be a better Christian for it.

WHEAT VARIETIES SHOW BIG YIELD DIFFERENCE**Tests Carried Out in State by M. A. C. Give Few Standard Varieties Long Lead in Production.**

A wide difference in yielding ability of Michigan wheat varieties, with a few standing out head and shoulders over the rest in productiveness, is shown by the results of over-state variety tests carried out during the past year by the farm crops department at the Michigan Agricultural College.

The two leaders, according to average results of tests in Branch, Monroe, Van Buren, and Wayne counties, are New Fultz and Red Rock. These varieties averaged approximately 20 bushels to the acre, as compared with such yields as 16½ bushels for American Banner; 15½ bushels for No. 6 Junior; and 14½ for Lancaster and Kanred. There were 15 varieties in this series of tests, with some of the average running as low as 10 and a fraction bushels.

Other tests run in Saginaw, St. Clair and Tuscola counties give Egyptian, Berkeley and Red Rock the lead, out of 11 varieties planted.

Speeding Right Along

Importance of selecting leading varieties for this season's planting is shown by these tests and wheat growing farmers are urged to make special effort to secure seed from them. The variety tests were planted by D. F. Rainey, crops specialist, with the M. A. C. department.

AUTOMOBILE RACES AT CARO OCTOBER 7

Caro business men are behind automobile races which will draw the best drivers in the state to the Caro fair grounds track Thursday, Oct. 7, and for which \$2500 in prizes have been hung up. There will be eight events and two championship final races which will see such speedy drivers as Wilcox, Fernet, Baker, Ireland and a dozen others pitted against each other in battle of nerve and daring for the big money.

The Caro track has never seen any auto races and the business men believe that a large crowd will gather from the surrounding territory.

LATE POTATO BLIGHT FOUND IN MICHIGAN**Reported in Southeastern Part of State—Late Digging Advised by M. A. C.**

Late blight of potatoes, a disease which is expected to cause only slight loss to the crop, but which demands careful attention at digging time in order to avoid infection which would lead to rotting of the tubers in storage, has been discovered by agents of the Michigan Agricultural College in Wayne and Oakland counties. Outbreaks may occur in other counties of the southeastern part of the state.

"Sprayed fields will not show serious injury from late blight," says Dr. G. H. Coons, plant pathologist at M. A. C., "but some loss may be experienced in the unsprayed fields in sections having heaviest rainfall this year. The amount and distribution of rainfall is decisive in determining the amount of blight. With fairly abundant rain in July and August, the vines make a heavy growth and become susceptible."

"It is advisable to wait two weeks after the tops are dead before digging the potato crop where blighting of the tops has occurred and soil conditions permit. Potatoes dug while the tops are green when late blight is present are likely to become infected with spores from the blighted leaves. Such potatoes rot badly in storage. If the potatoes are left in the ground until the tops have withered and dried completely, and then are sorted carefully at digging time, they will keep satisfactorily in a cool and well ventilated storage cellar."

"In general the late blight outbreak has begun too late to affect the crop seriously. It will not be general in any of the counties, but will cause loss here and there. Observance of directions as to handling the tubers will insure a crop safe for marketing or storage."

LOCAL ITEMS.

C. R. Townsend made a business trip to Toledo Monday.

Master Harry Crandell entertained 22 of his little friends at his home Saturday afternoon in honor of his 6th birthday. The little guests enjoyed themselves playing and romping on the lawn. After the games, a dainty lunch was served.

P. S. McGregory purchased a fine Buick sedan which was delivered to him the first of the week. On Wednesday, Mr. and Mrs. McGregory and their niece Mrs. Fred Beadle of Melvin, started on a trip to several points in Ontario. They will visit Ottaville, Mr. McGregory's childhood home, and at Strathroy, Tilsonburg and St. Thomas.

ROY TAYLOR BUYS ELKLAND MILLING CO. PLANT**Mill Enjoys Good Business and Is Manufacturing Excellent Flours.**

Roy Taylor has purchased the interest of his partner, Harvey Hyde, in the Elkland Milling Co., and is now sole owner of that industry. Mr. Taylor expects to continue the business under the original name, the Elkland Milling Co.

Mr. Taylor had 10 years experience as a miller before coming to Cass City and because the local plant has enjoyed a good business since he has been interested in the business, Mr. Taylor sees a promising future for the mill and the prospects of increasing its business and patronage.

The brands of the company, Tuscola and Red Rose flours, are meeting the approval of housewives as the results produced please the eye and palate. There appears to be a ready demand for these flours which stand at the top notch of excellence.

OCTOBER JURORS.

The men drawn for the jury at the October term of circuit court in Sanilac county are:

John Maynard, Lexington.
William Hart, Buel.
Roy Stephenson, Flynn.
Geo. F. Lee, Maple Valley.
John Herron, Speakur.
Vincent Bringard, Fremont.
Frank Fuller, Worth.
John Benedict, Crosswell.
John Hyslop, Sandusky.
Geo. Palmer, Brown City.
Henry Heilig, Delaware.
Albert Bezeineh, Minden.
John McKenzie, Austin.
Eugene Barnes, Greenleaf.
Earl Phetteplace, Evergreen.
Sigmond Freuburger, Argyle.
William Lawler, Wheatland.
Neil McLeod, Marion.
James L. Sweet, Forester.
David Barr, Bridgehampton.
James Amey, Custer.
Harry Cabitt, Moore.
Chauncey Baez, Lamotte.
Abe Brown, Marlette.
Viggo Smith, Elmer.

MOTOR CYCLE RIDER KILLED AT CROSWELL FAIR**Lee P. Stone of Pt. Huron Died Friday Night from Fractured Skull.**

Lee P. Stone, well known motor cycle dealer and rider of Pt. Huron, died Friday night at Croswell as a result of injuries received when he fell in a motorcycle race at that place during the afternoon.

Stone was one of the contestants in a 15-mile race which was one of the features of the fair program on Friday afternoon. The accident which proved fatal to Stone occurred in the 24th lap. Stone, by brilliant dashes of speed, had overtaken most of the riders and passed them, and had prepared to overtake Julius Sopha.

In the cloud of dust that hung over the track it was hard to determine just how the accident happened. Sopha states that Stone's machine touched the hind wheel of Sopha's machine. He evidently lost control of the motorcycle and in a twinkling he had crashed through a fence.

When picked up by spectators, Stone was unconscious and was bleeding badly. His skull had been fractured and he passed away Friday night.

Mr. and Mrs. Jas. Shepard and Mr. Prevost of Brown City were guests at the Matt Parker home Sunday.

STILL UNCOVERED NEAR OWENDALE

After an all day hunt Friday, Sheriff Don MacAuley and Deputy Truax located a complete still belonging to Vendel Kerevich, north of Owendale. The still was found in a vacant barn on what is known as the Crouch farm, about 1½ miles from where Kerevich lives. Five gallons of whisky were found hidden in a field some distance from the house. Kerevich was taken to Bad Axe and arraigned Saturday morning, pleaded guilty and his bond placed at \$1,000.

CONTROL OF COMMUNICABLE DISEASE CARRIERS**Cutting Down of Preventable Disease Epidemics Will Raise State's Preventable Disease Standing.**

Steps now being taken toward the control of communicable disease carriers and the consequent cutting down of epidemics of preventable diseases will materially raise Michigan's preventable disease standing in comparison with other states, according to Dr. R. M. Olin, state health commissioner.

At a recent meeting of the advisory council of health, the personnel of which includes, Dr. Guy L. Kiefer, of Detroit, president, Dr. James G. Turner, Houghton, vice president, Dr. C. C. Slemmons, Grand Rapids, Dr. Frank M. Gowdy, St. Joseph, and Attorney Leland W. Carr, Lansing, a regulation recommended by Dr. Olin, as provided for under the Public Acts of 1919, was adopted for the purpose of curbing disease within the state.

"Any carrier," reads the regulation now being distributed to physicians and health officers throughout Michigan, "of a dangerous communicable disease that under the rules and regulations of the Michigan Department of Health is subject to quarantine or isolation shall be isolated or quarantined as provided in said rules and regulations, and shall not be permitted to attend any school, church, theatre, or other public assemblage, or otherwise come in contact with the public." The term "carrier" applies to any person harboring the virulent organisms of a communicable disease. Though the carrier may not be sick himself he may spread the virulent organisms which may be the cause of severe epidemics.

Following the suggestions of the department for preventing possible epidemics pre-school examinations of school children to discover disease carriers before school opened were carried on in many localities. "Many communities, where the life and health of children is considered of value, have followed this plan and several thousand school children in Michigan will profit this fall by the work," states Commissioner Olin.

At the present time examinations are being conducted by local authorities in many districts in co-operation with the Michigan Department of Health for the purpose of detecting diphtheria carriers. The largest survey yet attempted will begin September 20 when the department's "laboratory on wheels" manned by five technicians starts examination of 6,000 school children in St. Clair county. Surveys have been made, or are now being conducted, at Manistee, Marion, Ithaca, Northland, New Baltimore, Fowlerville, Belleville, Barryton, Hopkins, Vicksburg, Mancelona and Greenville.

In the village of Marion 300 school children were examined and eight diphtheria carriers detected. Carriers whenever discovered were isolated until they showed no signs of the virulent organisms. Since January 1, 1919, 76 cases of diphtheria have occurred in Marion among the entire population, resulting in five deaths and five cases of post-diphtheric paralysis.

"These carriers are not clinically sick, but they would, if not discovered, make other children sick, cost the community hundreds of dollars to care for an epidemic, and possibly death and desolation to several homes by the loss of loved ones," asserts Dr. William J. V. Deacon, director of the bureau of communicable diseases. "If the work has saved the life of only one child in the state of Michigan it is well worth the money cost and effort."

PECK BANKER HURT IN AUTO SMASHUP

Ray J. Foster, cashier of the State Savings Bank at Peck, is in a Bay City hospital badly hurt about the head as the result of an automobile collision in Bay City Saturday afternoon. He is expected to recover.

F. M. Melette writes from Watkins, N. Y.: "I attach herewith my check for \$2.00 to cover my subscription to your valued paper for another year. It is a rare pleasure for me to read it once a week for it certainly gives the news of Cass City and her good folks."

WAR HERO BURIED WITH MILITARY HONORS**REMAINS OF IRA C. MCCONNELL BROUGHT HOME FROM OVERSEAS.****Members of the Adams-Seeger Post Carry Comrade to Last Resting Place.**

The remains of Ira C. McConnell, son of Mr. and Mrs. Chas. McConnell, who died overseas, were brought to Cass City and buried with military honors in Elkland cemetery Tuesday morning.

The funeral service was held at the St. Pancratius church of which the deceased was a member. Rev. Fr. Dolan, pastor of the church, sang the requiem high mass. Members of the Adams-Seeger Post, American Legion, attended the funeral in uniform and at the grave fired a salute and the bugler sounded taps.

Ira C. McConnell was born in Cass City on Sept. 28, 1892, and had spent practically his whole life in this community up to the time he entered the service of his country at Camp Custer on Nov. 22, 1917. He was transferred to Camp Pike, Ark., the following month, and then to Camp Green, North Carolina, sailing for overseas in May 1918. He was a member of Co. F, 4th Am. Train and died in Germany on Jan. 27, 1919, following an illness of spinal meningitis. Mr. McConnell was a fine young man who enjoyed the friendship of many acquaintances. Besides his parents, he leaves three brothers, Vernon, Carl and Earl, and four sisters, Alice, Lila, Bernice and Florence.

A HEAVY FINE FOR BOOZEMAKING IN HURON**Jos. Schefka of Paris Draws \$3,500 Fine from Internal Revenue Office.**

The U. S. revenue department is apparently looking to Huron county for a large share of the government's expenses the coming year.

On Wednesday of this week Joseph Schefka of Paris township, got a notice from the U. S. revenue office in Detroit, requesting him to come down and deposit \$3,500.00 for making whisky without a license.

Schefka was one of the Paris bunch rounded up in July by Sheriff McAuley and a U. S. revenue officer. They found on his premises three barrels of whisky mash and a half gallon of white whisky. There were seven others arrested at the same time that Schefka was but he is the only one to report what the Federal government is doing to him. If the others got the same dose it is going to be unprofitable to make and sell whisky in Huron county.

All of the eight men arrested last July for boozemaking are on the circuit court calendar for trial in October. The fines imposed by the Federal government will have nothing to do with the circuit court trials. And by the way, the next criminal court calendar will be the largest one in many years in this county.—Bad Axe Tribune.

FORD RESTORES PRE-WAR PRICES ON MACHINES**Motor Trucks Reduced 14 Per Cent and Small Autos 31 Per Cent on Tuesday.**

Re-establishment of pre-war prices on all products of the Ford Motor Co. effective immediately, was announced Tuesday by Henry Ford. The price reductions range from approximately 14 per cent on motor trucks to 31 per cent on small automobiles.

In announcing the decision of the company, Mr. Ford, in a formal statement, said:

"Now is a time to call a halt on war methods, war prices, war profiteering and war greed. It may be necessary for everybody to stand a little sacrifice but it will be most profitable after all, because the sooner we get business of the country back to a pre-war condition, progress, prosperity and contentment will occupy the attention of the people.

"For the best interests of all, it is time that a real practical effort was made to bring the business of the country down to normal. Inflated prices always retard progress." The announcement said the price reductions were made despite unfilled orders for 146,065 vehicles.

There will be no reduction in wages at any of the Ford plants, it was announced.

Building Your Character

The name of the bank with which you do business is one of the best references you can give.

A checking account stands for modern business methods, available liquid funds.

A savings account stands for good habits, thrift and ambition.

So not only does a bank account yield you monetary returns from your investment but it returns a dividend in good reputation.

Make This Bank Your Best Servant.

CASS CITY BANK
of I. B. Auten & Son

Many of the leading firms in Michigan

are calling upon the Institute free employment department for bookkeepers, accountants, stenographers, typists and secretarial assistants. Over 900 of these calls have been received in a single month. It is impossible for us to supply the demand.

You are invited to call at either of our schools and investigate the opportunities which await young men and women who will complete the Institute training.

Write today for free, illustrated catalog giving information of interest in regard to business training.

The Business Institute is the largest, best equipped business school in Michigan. It is affiliated with the Michigan State Normal College.

The Business Institute

163-169 Cass Avenue Detroit, Michigan.
Also 15-17-19 West Lawrence Street, Pontiac

The Institute Conservatory is operated in conjunction with the Business Institute of Pontiac.

CROSBY & SON

CASS CITY'S SHOE & CLOTHING MEN

37 years in one spot.

BUILD YOUR SILO NOW!

Before Your Corn Ripens

RIGHT NOW—before corn cutting time is one day nearer, build a silo. It will give you feed with all the milk-producing, beef-building qualities of June pastures the year around. More milk, quicker feeding, better manure—actual dollars in your pocket. It will pay for itself in one year.

Build a Tecktonius Wood Stave Silo. It makes silage right, and keeps it right. *No waiting for deliveries.* We have Tecktonius Silos here, now—and with the foundation in, you can

Build the Tecktonius in 1 or 2 Days

The vital silage making processes are absolutely dependent upon the heat generated in the silo not being allowed to escape, and the outside air not being allowed to enter. The silo must be air-tight. This is where wood proves its superiority for silos. Of all building materials, it is the very best non-conductor of heat. Held air-tight, the wood silo keeps the heat in and cold out. Here is where the Tecktonius excels all others—its patented fixtures hold the staves rigidly locked together, keeping the silo absolutely air-tight the year around.

TECKTONIUS SILO

Makes Silage Right Keeps it Right

Self-Adjusting Hoop Fastener
Its take-up spring automatically exerts a constant pull on the hoops that keep the silo air-tight regardless of stave shrinkage.

Perfecting Fitting Hinge Door
You can put it on with one hand, and have one free to hold to the ladder—locks securely at 4 corners, insuring perfect fit; swings into silo clear of door opening, allowing you to get in or out easily.

Can't Twist, Creep, Lean or Blow Over

Tried and proven—it has been the leader in wood silos for years.

Built of perfectly matched staves, the Tecktonius is kept air-tight 12 months in the year—and the staves can't buckle or warp out of shape. Its patented Self-Adjusting Spring Hoop Fasteners take up all shrinkage of the staves.

The Tecktonius can't creep, twist, lean or blow over, for it is securely bolted, and anchored, inside and out, in a rock-like concrete foundation, and tied down with staunch, steel cables.

Immediate Delivery

No waiting—we have Tecktonius Silos here ready for you—and 2 days after you take one home, you can have it up and completed.

Come in, and see how easily and quickly you can build this silo, and how much better it is than any other silo you have ever seen. See what you get before buying.

Rev. John C. Rooney of Lapeer is acting as supply pastor of the Baptist church at Cass City until the congregation calls a regular pastor.

Mr. and Mrs. Martin Soehner of Elkton, Dr. and Mrs. Ed. Kosanke and Jas. Kosanke of Detroit spent Saturday at the Chas. Kosanke home.

A. D. Gallery, editor of the Caro Advertiser, and his brother, Herbert Gallery, of Eaton Rapids, paid the Chronicle office a call Tuesday evening.

Mr. and Mrs. Arch McVicar and son, Warner, of Detroit and Mrs. Sam Ricker of Owendale visited over the week-end with Mr. and Mrs. A. A. Ricker.

Mrs. J. E. Seed and daughters, Frances and Elizabeth, and Mrs. J. Hurley and daughter, Margaret, motored to Canada Friday to spend a few days with friends and relatives.

The Exchange Bank is installing a steam heating plant in the bank building which insures employes and patrons comfortable quarters in which to transact business this winter.

Mason Wilson brought a big "puff ball" to the Chronicle office Wednesday morning, which was found in the woods near Cass City. The ball measured over three feet in circumference.

Frank Lenzner brought a sample of a New Guinea butter bean to the Chronicle office Thursday. This vegetable is of the gourd family and is edible and palatable. The sample weighed eight pounds.

Mr. and Mrs. Robt. Schram of Pontiac are spending a few days with Mr. and Mrs. Levi DeLong. Thursday Mr. and Mrs. DeLong and their guests motored to their son's home near Deckerville.

B. F. Benkelman, the Misses Mae and Lois Benkelman and Benj. Benkelman, Jr., spent Sunday in Crosswell. They found Harold Benkelman, who was seriously injured in an auto accident, quite a bit better. Harold was taken to his home in Sandusky Wednesday.

Rev. W. W. Edwards and J. L. Cathcart attended sessions of the Flint Presbytery at Crosswell Monday and Tuesday and were present at the dedication of the community house of the Presbyterian society at Crosswell Monday evening.

Chas. Rohr was in Saturday and planked down two dollars on the Chronicle counter for next year's subscription. Mr. Rohr says he subscribed for the Cass City Enterprise when it was first published and has taken a Cass City paper ever since, which covers a period of nearly 40 years.

Rev. O. R. Grattan left Monday to attend the Detroit conference at Bay City. He returned to this place Tuesday but will go back to the conference Friday when he will be accompanied by Glenn Bixby, who is delegate from the local Sunday school to the Older Boys' Conference to be held over the week-end. Rev. Grattan will lead the Epworth League service Sunday evening. The topic will be on mission study.

The duck season opened last Thursday morning and Earl Heller, Chas. McCaslin and Frank Bliss, who stand in the van of the local duck hunter enthusiasts, planned to be on hand and ready for business at the Wiel hunting grounds as soon as Old Sol showed his face on Thursday morning. Accordingly, they drove to Wiel Wednesday, secured a duck boat apiece, set their blinds and placed their decoys before the evening shades fell. And then it grew dark and the boys lay down in their little skiffs to dream of the coming day's sport. It happened, however, that the evening shades were not the only things to fall on Wednesday night. There was a heavy rain before the night was well on its way, and then it poured, and then it rained again, and again it poured. Really, it was almost more wet above than below the boats. And dark—oh, my! You couldn't even smell which way was north or south. One of the boys remarked to the Chronicle man that his fellow sportsman, Bliss, never found a night so long and so dark and so wet and so uncomfortable. "Never again! I've had enough," is the statement Frank is alleged to have made when he sighted his companions the next morning. But the Chronicle would not wager a two-pence that Bliss stays away from the duck grounds next season.

Rev. John C. Rooney spent Monday and Tuesday in Lapeer.

Mildred Dodge visited with Pauline Bond of Wickware over the week-end.

A baby girl was born to Mr. and Mrs. B. L. Middleton on Thursday, Sept. 16.

Creighton Cathcart left Monday morning for Alma where he will attend school.

Mr. and Mrs. Geo. MacIntyre of Greenleaf visited with their daughters in town Sunday.

Miss Zelma McKenzie returned to her work in Kalamazoo Monday after a visit with her parents, Mr. and Mrs. James McKenzie.

Mr. and Mrs. Sam Vise of Flint visited Sunday with Mrs. Vise's parents, Mr. and Mrs. Isaac Hall.

Miss Maude Elliott left Wednesday to spend the latter part of the week in Wilmot and Kingston.

Mrs. Belle Ottaway of Trenton came Thursday to spend a few weeks with her father, Chas. Rogers.

Chas. Matzen, president, and Chas. E. Taylor, cashier of the Clio State Bank, were Cass City visitors Tuesday.

Harvey Hyde moved this week into the residence on Third St. which he purchased recently from the J. D. Withey Estate.

Mr. and Mrs. Barkley and daughter, Mary, Mr. and Mrs. Devine and Mr. and Mrs. B. C. Patterson and daughter, Margaret, all of Detroit, were guests at the James Tennant home Sunday.

Saturday, M. B. Auten, P. S. McGregory and Miss Helen McGregory motored to Flint, returning with a new Buick Six. Monday, Messrs. McGregory and Auten again went to Flint, this time returning with a Buick sedan which Mr. McGregory is driving.

Mrs. Tillie Moore, son, Garrison, Mrs. E. J. Rourke and Miss Barbara Gary motored to Detroit Saturday.

Marie Louise is the name of the little girl who arrived at the home of Mr. and Mrs. Ralph House on Sept. 17.

The Woman's Study Club opened the year with a reception by the program committee for the club members and public school teachers at the home of Mrs. J. C. Farrell. A short program was given and refreshments which consisted of punch and wafers were served.

Tuesday afternoon at six o'clock the young women of the town gathered at the Methodist church where a dainty luncheon was prepared. After the lunch, Mrs. Newlin gave an interesting talk on "How To Be Beautiful." In her talk she said that in order to be beautiful we must have Christ in our lives.

STILL the GREATEST MOTHER in the WORLD

The "Greatest Mother" concept which was visualized in the famous art poster used by the American Red Cross in its second war fund campaign has had its symbolism adapted to the Red Cross works of the post-war era and will illuminate the main poster to be used in the Fourth Roll Call November 11-25. This adaptation will bear the title "Still the Greatest Mother in the World." Everyone is familiar with the original "The Greatest Mother in the World," the effectiveness of which has been shown in part by the fact that it has furnished a synonym for Red Cross that has come to almost a household term. More than any other symbol, except the red cross itself, the public has made it the trademark of the American Red Cross.

Advertise it in the Chronicle.

A Most Wonderful Selection of Fall and Winter Merchandise Is Here

We can truthfully say that never before has this store shown such a wonderful display of merchandise. Not only is it an acknowledged fact that we carry the largest stock to select from in the Thumb, but that our merchandise is of A No. 1 quality and prices not any higher, and in many instances even lower, than many inferior qualities.

Before you go out of town to purchase or, before you send away for your merchandise, come to this store and give us the opportunity to serve you, for we firmly believe that we can save you money if you buy from us. We have the merchandise, our prices are the lowest and no one will more appreciate your trade than we; nor will anyone exert greater efforts to please you and sell you merchandise that is right, is priced right and will give you the best satisfaction.

Fall Coats

The cool fall days are here and so are our famous Conde coats—over two hundred coats are here for you to choose from. Everything new in cloth and styles up to the minute is represented in this enormous stock of ours.

Make your selection now while the stock is fresh and complete. If you do not care to take your new chosen garment home with you, we will gladly hang it away for you.

The Wonderful Conde Fall Suits

The wonderful Conde suits as well as many of the more medium priced are here in a large assortment of styles, colors and sizes, priced from \$25.00 to \$145.00.

Buy your fall suit now and buy it at Zemke's where the selection is the largest and prices the lowest.

Some More New Fall Dresses...

Just received another shipment of satin, serge and tricotine dresses.

Prices from \$15.00 to \$85.00

Fur Coats, Muffs and Throws

The best selection of furs ever shown in this town.

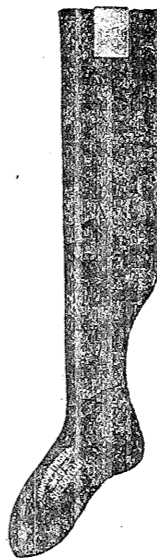

Hosiery

A large assortment of Wool Heather Hose are here for your approval. These are the newest and most up-to-date hose on the market.

Piece Goods

Thousands of yards of silks, satins, wool goods, cotton, percales and ginghams are here to select from.

Before you buy your dress trimmings come to Zemke's, for, with the enormous stock of braids, beads, tassels, ornaments, tapestry ribbon and fancy vestings by the yard, we feel assured that you can find just what you wish for in trimmings.

This store will not be open Wednesday evenings, after this week.

ZEMKE BROTHERS

SENATOR HARDING GUARANTEES FAIR DEAL FOR FARMER

Declares Definite National Agricultural Policy Is Vital to Country's Welfare.

WOULD PUT END TO PRICE
FIXING OF FARM PRODUCTS

In Address Before Minnesota State Fair Republican Nominee Shows Profound Understanding of Farming and Its Problems.

Minneapolis, (Special).—The time has come when, as a nation, we must determine upon a definite agricultural policy. We must decide whether we shall undertake to make of the United States a self-sustaining nation—which means that we shall grow within our own boundaries all of the staple food products needed to maintain the highest type of civilization—or whether we shall continue to exploit our agricultural resources for the benefit of our industrial and commercial life, and to leave to posterity the task of finding food enough, by strong-arm methods, if necessary, to support the coming hundreds of millions.

"I believe in the self-sustaining, independent, self-reliant nation, agriculturally, industrially and politically. We are then the guarantors of our own security and are equal to the task."

So declared Senator Harding in a masterly address before the Minnesota State Fair here, in which he revealed a most profound understanding of agriculture, its problems and its relation to the farmer and the consumer in the cities. This speech has been described as the greatest speech on agriculture which has ever been made by a Presidential candidate.

Among other things he said: "A good many years ago a Chinese philosopher uttered a profound truth when he said: 'The well-being of a people is like a tree; agriculture is its root, manufacture and commerce are its branches and its life; if the root is injured the leaves fall, the branches break and the tree dies.'"

Cause for Concern. "It may seem strange to many good people that at this particular time any one should quote this saying of a wise old Chinese. Never in all our history have prices of farm products ruled so high, measured in dollars, as during the past four years. Farm land in the great surplus-producing states has advanced to unheard of prices, with every indication that, but for the tight money conditions, it would go still higher. Apparently the farmers of the land are enjoying unprecedented prosperity. Why then, even by implication, suggest that something may be wrong with our agriculture, and that the trouble may be communicated to our manufactures and commerce? People in the cities are disposed to think that if there is anything wrong it is in the cities where food is selling at such high prices, and not in the country where the food is produced. But both farm and city students of national problems see in the present agricultural situation certain conditions which give cause for real concern to every lover of his country."

He then referred in a most interesting way to the development of the great central west and sketched briefly the settlement of the great central valleys, as follows:

"Through the homestead law the government gave a farm of the richest land in the world to every man who wanted one. Railroads were built, the prairies were plowed up, and almost overnight the agricultural production of the United States increased by 50 per cent. Grains were produced and sold at the bare cost of utilizing the soil, and the farmers of the older states to the east were smothered by this flood of cheap grain. The only thing that could be done with this superabundance of food was to build cities out of it. And great cities we did build, not only in the United States, but across the seas."

He spoke of the hard conditions which came upon the farmers of the central west as a result of their overproduction, and then of the gradual improvement which began about 1905, when the increased population in the cities began to catch up with farm production, and how this increased demand for food was accelerated by the great World War.

Speaking of the part played by the farmer during the war, he said:

Splendid Part of Farmers. "The splendid part played by the farmers of the nation during the war probably never will be understood or fully appreciated by our people. More than 25 per cent of all our fighting men came from the farms, and after sending their sons to the camps, the fathers and mothers, with the help of the younger children, turned to and produced more food than was ever before produced in the history of the world in the same time and from the same area of land. Their working days were measured not by the clock, but by the number of daylight hours. They took to themselves the responsibility of feeding not only our own people, but also our allies across the sea. In more ways than one, our farmers made the war their war, and counted no sacrifice too great to help fight it through to a successful finish. The story of what they did, written by some one who understands it, will furnish one of the most glorious chapters in American history. One thing I may say—in every American conscience, from the revolution for independence to the world war for maintained rights, the farmer has been 100 per cent American and ready for every sacrifice."

He then pointed out some of the un-

fortunate results in agriculture, growing out of war conditions, especially the premium put on grain growing at the expense of livestock production. He referred to the heavy losses suffered by many livestock producers and feeders, and pointed out the urgent need of restoring the balance between livestock and grain production as quickly as possible. On this subject he said:

"For two outstanding reasons the maintenance of a normal balance between livestock and grain production is a matter of national concern. One is that we are a meat-eating people, and should have a fairly uniform supply at a reasonable price. Conditions which either greatly stimulate or greatly discourage livestock production result in prices altogether too high for the average consuming public or altogether too low for the producer. The other is that the over-stimulation of grain production depletes the fertility of our land, which is our greatest national asset, and results in a greater supply than can be consumed at a price profitable to the producer, and finally to widespread agricultural distress from which all of our people suffer."

Speaking of the trend of prices of farm products during the next two or three years, he said that no one could forecast them with any accuracy. That as a nation we are undergoing the same experience that the individual undergoes when recovering from a long and dangerous illness. And then he made this significant statement:

"It must be evident, however, to any one who has given the matter even superficial consideration, that we have now come to the end of the long period of agricultural exploitation in the United States. No longer are there great and easy and awaiting areas of fertile land awaiting the land hungry. We have now under the plow practically all of our easily-tilable land, though idle areas await reclamation and development by that genius and determination which ever have made nature respond to human needs. Additions of consequence, which we may make to our farming area, from this time on, must come by putting water on the dry lands of the arid and semiarid country, or by taking water off of the swamp lands, of which we have large areas in some sections, or by digging the stumps out of the cut-over timber lands of the north and south."

Other Alternative an Unhappy One. "If we should unhappily choose the course of industrial and commercial promotion at the expense of agriculture, cities will continue to grow at the expense of the rural community, agriculture will inevitably break down and finally destroy the finest rural civilization, with the greatest possibilities the world has ever seen. Decreased farm production will make dear food and we shall be obliged to send our ships to far-away nations in search of cheap foodstuffs, the importation of which is sure to intensify agricultural discouragement and distress at home."

"If, on the other hand, we shall determine to build up here a self-sustaining nation—and what lover of his country can make a different choice?—then we must at once set about the development of a system of agriculture which will enable us to feed our people abundantly, with some spare for export in years of plenty, and at prices which will insure to the farmer and his family both financial rewards and educational, social and religious living conditions fairly comparable to those offered by the cities. A sound system of agriculture can not be maintained on any other basis. Anything short of a fair return upon invested capital, and a fair wage for the labor which goes into the crops, and enough in addition to enable the farmer to maintain the fertility of his soil, and insure against natural hazards will drive large numbers of farmers to the cities."

Senator Harding made it perfectly clear that this is a problem in which city people have just as much interest as the farmer. That unless we can work out a rational and fair agricultural policy, the drift to the city will continue and our trouble will grow constantly worse.

Speaking of farm organizations, he said the farm organization of the present day is quite different from the organization of the past; that farmers have learned sound principles of organization; that they are adapting to their work the methods which business men and working men have found successful in furthering their own interests. He referred especially to the successful organizations established by the fruit growers of the west and by the grain growers of the northwest, and said the farmers of the corn belt states are also rapidly perfecting the most powerful organization of farmers ever known in the country. He pointed out very frankly the danger that would come to the nation if the problems of the farmer were not frankly recognized, and if the farmer was not given absolutely fair treatment.

He said we have witnessed restricted production of manufactures and of labor, but we have not yet experienced the intentionally restricted production of foodstuffs, and expressed the hope that we never may have that experience.

While frankly recognizing the need of a national agricultural policy, he disclaimed any intention of suggesting that the government should work out an elaborate system of agriculture and then try to impose it on the farmers of the country. He denounced such an effort as utterly repugnant to American ideals. He said that government paternalism, whether applied to agriculture or to any other of our great national industries, would stifle ambition, impair efficiency, lessen production and make us a nation of dependent incompetents. He said the farmer requires no special favors at the hands of the government. All he needs is a fair chance and such just consideration for agriculture as we ought to give to a basic industry, and ever seek to promote for our common good.

Senator Harding then spoke of the definite policies to which the Republican party is committed, and which he, as its candidate, endorses.

Farm Representation. First.—The need of farm representation in larger governmental affairs is recognized. During the past seven years the right of agriculture to a

voice in governmental administration has been practically ignored, and at times the farmer has suffered grievously as a result. The farmer has a vital interest in our trade relations with other countries, in the administration of our financial policies and in many of the larger activities of the government.

Second.—The right of farmers to form co-operative associations for the marketing of their products must be granted. The parasite in distribution who preys on both producer and consumer must no longer sap the vitality of this fundamental life.

Scientific Study.

Third.—The Republican party pledges itself to a scientific study of agricultural prices and farm production costs, both at home and abroad, with a view to reducing the frequency of abnormal fluctuations here. Stabilization will contribute to everybody's confidence. Farmers have complained bitterly of the frequent and violent fluctuations in prices of farm products, and especially in prices of live stock. They do not find such fluctuations in the products of other industries. In a general way prices of farm products must go up or down, according to whether there is a plentiful crop or a short one. The farmer's raw materials are the fertility of the soil, the sunshine and the rain, and the size of his crops is measured by the supply of these raw materials and the skill with which he makes use of them. He cannot control his production and adjust it to the demand as can the manufacturer. But he can see no good reason why the prices of his products should fluctuate so violently from week to week and sometimes from day to day.

To Stop Price Fixing.

Fourth.—We promise to put an end to unnecessary price fixing of farm products and to all considered efforts arbitrarily to reduce farm product prices.

Government drives against food prices such as we have experienced during the past two years are vain and useless. The ostensible purpose of such drives is to reduce the price the consumer pays for food. The actual result is unjustly to depress for a time the prices the farmer receives for his grain and live stock, but with no appreciable reduction in the price the consumer pays. Such drives simply give the speculator and the profiteer additional opportunities to add to their exactions.

Fifth.—We favor the administration of the farm loan act so as to help men who farm to secure farms of their own and to give to them long time credits, needed to practice the best methods of diversified farming.

We also favor the authorization of associations to provide the necessary machinery to furnish personal credit to the man, whether land owner or tenant, who is hampered for lack of working capital. Unfortunately as land increases in value tenancy also increases.

An Increasing Evil.

This has been true throughout history. At the present time probably one-half of the high priced land in the corn belt states is farmed by men who, because of lack of capital, find it necessary to rent. This increase in tenancy brings with it evils which are a real menace to national welfare. The tenant who lacks sufficient working capital and who too often is working under a short time lease is forced to farm the land to the limit and rob it of its fertility in order to pay the rent. Amid such conditions we have inefficient schools, broken down churches and a sadly limited social life. We should therefore concern ourselves not only in helping men to secure farms of their own and in helping the tenant secure the working capital he needs to carry on the best methods of diversified farming, but we should work out a system of land leasing which, while doing full justice to both landlord and tenant, will at the same time conserve the fertility of the soil.

Transportation Systems.

Sixth.—We do not longer recognize the right to speculative profit in the operation of our transportation systems, but we are pledged to restore them to the highest state of efficiency as quickly as possible. Agriculture has suffered more severely than any other industry through the inefficient railroad service of the last two years. Many farmers have incurred disastrous losses through inability to market their grain and live stock. Such a condition must not be permitted to continue. We must bring about conditions which will give us prompt service at the lowest possible rates.

Seventh.—We are pledged to the revision of the tariff as soon as conditions shall make it necessary for the preservation of the home market for American labor, American agriculture and American industry. If we are to build up a self-sustaining agriculture here at home the farmer must be protected from unfair competition from those countries where agriculture is still being exploited and where the standards of living on the farm are much lower than here. We have asked for higher American standards; let us maintain them.

So long as America can produce the foods we need I am in favor of buying from America first.

Fewer Land Hogs.

Under a sound system of agriculture, fostered and safeguarded by wise and fair administration of state and federal government, the farmers of the United States can feed our people for many centuries—perhaps indefinitely. Farming is not an auxiliary; it is the main plant, and geared with it, inseparably, is every wheel of transportation and industry. America could not go on with a dissatisfied farming people, and no nation is secure where land hunger abides. We need fewer land hogs, who menace our future, and need less beguilement in cultivating a quadrennial crop of votes and more consideration for farming as our basic industry. We need less appeal to class consciousness and more, resolute intelligence in promptly solving our problems. We need rest and recuperation for a soil which has been worked out in agitation and more and better harvests in the inviting fields of mutual understanding. We need less of grief about the ills which we may charge to the neglect of our citizenship and more confidence in just government, along with determination to make and hold it just.

Reduction in Prices of Ford Products

The war is over and war prices must go. Effective at once, Ford cars, Trucks and Tractors will be sold at the following prices.

- Ford Touring Car with starter \$555.00
- Ford Runabout with starter \$507.00
- Coupe with starter and demountable rims \$801.00
- Sedan with starter and demountable rims \$853.00
- Truck with pneumatic tires \$590.00
- Fordson tractor \$825.00

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for one hundred forty six thousand sixty-five cars and tractors. The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country.

Henry Ford says, "The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interests of all it is time a real practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards." We are at your command with regular Ford efficiency in Service and eagerness to fill your orders.

G. A. Tindale
CASS CITY

MAPPENINGS IN OUR NEIGHBORING VILLAGES

CROWELL—Ernest Woodruff pulled a check for \$1,354.48 for the flax grown on fourteen acres this summer and feels that he made a fairly good return from the crop.

VASSAR—Vassar high school's star athlete, Lloyd Miller, who carried away many honors for his school last year in interscholastic field meets throught the state, is to enter M. A. C. this fall, where he contemplates taking the engineering course.

VASSAR—The Village Council has sent a request to the State Game Warden to investigate if the refuse from the Michigan Sugar Company's plant at Caro is being dumped into the Cass river. It is believed that many fish were killed in this manner last year.

BAY PORT—Chas. Steele has retired as mail carrier on Route No. 1 and will receive a substantial pension from the government. Charlie served Uncle Sam for eighteen years and is the second mail carrier in the county to come under the retired mail carriers pension act.

BAD AXE—Sheriff McAulay raided another whisky still in Lake township on Monday. On the premises of Paul Schliesinger he found a complete still and 50 gallons of whisky mash. He was placed under arrest, plead guilty and held to the circuit court on \$500 bond.

PORT HOPE—Local farmers have purchased the Port Hope elevator. The consideration in the transfer of this property to the farmers was \$15,000.00. The new owners have selected Floyd Bartlett to be manager of the elevator for them. Mr. Bartlett has been employed in the same capacity in the elevator for a number of years.

IMLAY CITY—A former Imlay City boy, D. A. Burke, is president and general manager of the new Sheridan Motor Car Company at Muncie, Ind. This is the latest unit of the General Motors Corporation. Mr. Burke was formerly manager of the Chicago branch of the Buick Motor Company. Before that he had held several other official positions with the Buick organization, and previously he had been identified with the farm implement business for years.

MARLETTE—Dr. McCall of Crosswell attended eight cases of confinement at Crosswell in two weeks and every one of the births was a boy. According to an "old sign" this means war and that we are getting ready for it. In Marlette, Dr. Atkinson was in attendance at 18 cases of confinement recently, 15 of which were girls and three were boys. No war over here. Marlette is for the League of Peace. Ask the mothers.

CROWELL—During the thunder storm last Saturday morning the threshing engine belonging to Alex. Maxwell that was threshing on the farm of Martin Monzo in Sanilac township was struck by lightning and completely wrecked, either directly by the bolt or by the consequent explosion of the boiler. The crash came just before the job of threshing was completed and the twelve or thirteen men who were assisting were scattered about the premises. Lewis Er-

be was the only one to be at all injured and his hurts were confined to scalds, as the flying pieces of the outfit seemed to have missed any other person. Heavy portions of the engine were thrown in all directions.

PT. AUSTIN—A word spoken at the side of a grave in Port Austin saved a life. "Poor old Mickey," sighed Al Haskell as he lifted a shovelful of earth at the grave of his dog. Mickey wagged his tail. The funeral stopped right there. Mickey had been very ill and, when it appeared he could not recover, John Petoski was engaged to chloroform him. The receptacle used was not airtight. And Mickey is still in the land of the living.

LAPEER—Steve Phillips, a young man of 26, employed at the Lapeer Hardware store, was shot in the arm and may possibly lose it as a result of a melon-cooning scrape Monday night. He was one of a party of eleven boys who visited the farm of Orrin Brown, south of town near Howland's corner. Mr. Brown has been repeatedly bothered by thieves and has been unable to catch anyone. He claims that he was lying by the side of his patch with his gun in his hand watching for would-be invaders when the four boys approached; that he intended to shoot in the air, capture the boys and bring them to the officers; that the shooting of young Phillips was entirely accidental.

KILMANAGH—A barn on the farm of Aaron Polley one and a half miles south east of Kilmanagh was destroyed by fire on Tuesday evening. The barn contained fifteen loads of hay and between forty-five and fifty loads of oats which are also a total loss. The cause of the fire is unknown.

BAD AXE—A few weeks ago Sheriff McAulay send out notices to over a thousand dog owners in the county who had not paid the dog license, that if they did not settle up the law would be enforced. Since then the money has been rolling into the county coffers and the sheriff reports \$1,158 collected with nearly all parties heard from.

BAY PORT—James Klien, an employee of the Wallace & Morley company store here, is confined to his bed from injuries received while rolling a barrel of vinegar down the stairs from the main floor of the store to the basement. While in front of the barrel and holding it back in its descent, he tripped and fell on his back and the barrel rolled over him. He was badly bruised about the legs and back. It is very fortunate that the accident did not result in his death. He no doubt will be laid up for some time.

PORT HOPE—At a special election held Tuesday evening of last week, the electors of Port Hope village voted to borrow \$7,000.00 for an electric lighting system. The vote stood 97 to 7 in favor of the proposition. The current will be generated by the Stafford Milling company, which is installing a Westinghouse dynamo. The distributing system will be owned by the village.

MARLETTE—A peculiar sight is to be seen on the farm of Joshua Cole southeast of town. One of his hens decided that if "chickens come home to roost" that her brood would roost higher than usual, so chose for her nest, the crotch of a large willow tree, about eight or nine feet from the ground. Here she industriously accumulated a dozen and a half of eggs and is faithfully covering the same.

SHABBONA.

Grandma Hamilton still continues in very poor health.

Mr. and Mrs. John Brown of Port Huron visited relatives here the first of the week.

Clark Phillips and Hazel Leslie left this week to attend school at Albion.

D. W. Wait has sold his farm to Pt. Huron parties.

Mr. and Mrs. V. McGregory were in Cass City Sunday afternoon. Harvesting beans and corn, sowing wheat and silo filling is the order of the day.

Several from here attended a one day meeting of the L. D. S. church at Marlette Sunday.

Mr. and Mrs. W. W. Auslander are entertaining Mrs. H. Bailey of Detroit this week.

Mrs. Andrew Lorentzen visited her son, John, at Cass City Sunday.

Miss Margaret Clark and Miss Leonard of Detroit returned to their home Monday after spending the past week visiting relatives here.

Mr. and Mrs. J. P. Neville visited

CENTRAL GREENLEAF.

The Baptist Ladies' Aid will meet with Mrs. Morrison Jones on Oct. 7.

Mrs. Chas. Klinkman and daughter, Elaine, and Mrs. Jos. Carlson and daughters, Ruth and Muriel, of Detroit are visiting Mrs. George Seeger.

John Souden has gone to Pontiac to look for work.

Miss Bertha McAllister visited at Jos. Miljure's Sunday.

Ed. Wright threshed oats for John Close Monday.

Angus McDonald's driver was kicked quite badly one day last week.

Jos. Miljure and family expect to move to Washington late this fall where they will live.

Forty pounds of flour for each bushel of good wheat. Elkland Milling Company.—Adv. 9-3-4

MANY WOMEN USE GLYCERINE MIXTURE

Cass City women will be surprised at the INSTANT pleasant action of simple glycerine, buckthorn bark, etc., as mixed in Adler-i-ka. One spoonful relieves ANY CASE gas on stomach or sour stomach. Because Adler-i-ka acts on BOTH upper and lower bowel it often cures constipation and prevents appendicitis. One lady reports herself CURED of a bad case of bowel trouble and constipation. Burke's Drug store.—Adv. 2

NATURE PROVIDES THE INGREDIENTS

Argo-Phosphate, the New Herbal Remedy, Now Endorsed by Local People.

If the digestive organs are not properly performing the work which nature has assigned to them, then nutrition, which is absolutely essential to the recovery of other diseased parts, will be lacking and there can be no permanent relief. When bodily nutrition is normal, the stomach digests the food, the blood absorbs and carries the nourishment to the different parts of the body, causing the various organs to properly perform their functions.

Nature has provided a remedy in the ingredients of Argo-Phosphate, the new herbal stomach remedy, which is now being introduced here. It is purely vegetable and its vitalizing, corrective and reconstructive qualities are so pronounced that beneficial results are noticed from the first day. That this is true, it is only necessary to listen to the statements made daily by local people who have given Argo-Phosphate a fair trial and have been benefited thereby. It is dispensed by Burke's Drug Store.—Adv. A1.

ASK FOR Kryptok Lenses

If you require double-vision lenses, you will enjoy Kryptok Lenses. With them you are certain of having becoming glasses, perfect for near and far view, and entirely free from any odd appearance or suggestion of advancing years.

They can be put into any style frame or mounting or into your old ones. A. H. HIGGINS, Jeweler and Optometrist

relatives in Cass City Sunday. Mr. and Mrs. Herbert Parrott left Thursday for a visit with relatives at Wolverine and LeGrande.

CEDAR RUN.

Mrs. Wesley Walters and son, Stanley, of Imlay City and Eldon Walters of Detroit spent Saturday night at the home of Mr. and Mrs. Bay Crane. Mrs. Walters and son have spent the past week with Mr. Walters at Bad Axe where he is in the hospital and report that he is slowly on the mend.

Gertrude is the name of the little eight pound daughter who was born to Mr. and Mrs. Orson Hiser Sept. 21.

IT HAPPENED IN CASS CITY

And is Happening to Cass City People Every Week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

J. W. Murphy, retired stock man, West St., Cass City, says: "When my kidneys were weak it always affected my back and made it weak. Doan's Kidney Pills always gave me quick relief at such times. My back pained me so much that I couldn't stoop over and at those times, it was agony to move at all, because of the sharp pains that shot across my kidneys. Mornings when I got up, I felt played out, just miserable and without much ambition. The kidney secretions burned terribly and passed frequently. Blinding dizzy spells would come over me and things would whirl around before my eyes. However, Doan's Kidney Pills always came to my relief. They relieved the painful backache and put my kidneys in good shape. They took away the dizzy spells and other troubles, too." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 1.

Michigan News Tersely Told

Adrian—St. Joseph academy opened for the fall term, having an enrollment of 460.

Standish—The Omer Creamery, owned by D. Henry, burned at a loss of \$3,000. It will be rebuilt immediately.

Holland—A runaway horse struck the Methodist church at Wayland and fell down the basement steps, breaking its neck.

Adrian—Meridian trunk highway, south of Hudson, is now being made to the Prattville road with about 25 teams working.

Petoskey—Ninth forest preserve, in Emmet county, is to be opened before the close of the month. It is of 3,000 acres on Cecil Bay.

Charlotte—When the Nottawa Drain is finished, in Newton Township, it will drain 60,000 acres of land, and will cost \$180,000.

Marshall—Boxing for the year ending June 30, 1920, brought the state \$40,000 in fees, says Thomas W. Bigger, state boxing commissioner.

Port Huron—Thumb District Bankers, members of Group 7, who visit Port Huron, Sept. 24, will also be entertained at St. Clair and Marysville.

Kalamazoo—Louis Olivet, switchman in the Kalamazoo yards of the New York Central railroad, died from injuries received while coupling cars.

Kalamazoo—Mrs. Charity Letts Potter, of Kalamazoo, although her husband, Allen Potter, has been dead 35 years, celebrated her diamond wedding anniversary.

Berlaimont—Mrs. Anna Carrier, for 30 years postmistress in this village, has resigned, owing to ill-health, and will make her home with a daughter near Memphis, Tenn.

Kalamazoo—Miss Elaine Freeman has presented, for a second time, a bill against the city for \$165 for the death of her Airedale pup, which was shot by a policeman.

Hillsdale—A new factory for the manufacture of brushes of all kinds will be started in Hillsdale in a few days by George H. Bartlett, who has come from Kingstown, N. Y.

Eaton Rapids—New Carnegie library plans are about finished and the foundation will probably be completed this fall, Charles Horner gave the site to the library board.

Scottville—Virgil A. Fitch, defeated as a Republican candidate for nomination as representative, says he will seek election on slips as an opponent of R. J. Quail, Republican nominee for prosecuting attorney.

Onaway—There are few, if any idle farms in northeastern Michigan, James E. Snody, president of the Northeastern Development Bureau, said here following a visit to every county in the district.

Bay City—A way out of the quandary the board of education finds itself in, regarding the choice of a high school site for the West Side, has been opened by the offer of a site for the school by Thomas L. Handy.

Muskegon—Neatly clipping off the heel of her shoe, lightning passed through the body of Miss Marjorie Benjamin, aged 20, of this city, without injuring the young lady other than giving her a slight shock from which she has already fully recovered.

Muskegon—Continental Realty Co., composed largely of officers and stockholders in Continental Motors, at the meeting of the city commission, outlined plans for the development of a 700-acre tract east of the city and extending to Muskegon river into a model home district.

Houghton—A movement may shortly be set afoot to bring about a separation of the upper peninsula posts of the American Legion from the department of Michigan, making the U. P. an independent department. It is claimed by proponents of the plan that the distance between the two peninsulas is so great that proper cooperation is impossible.

Kalamazoo—After taking a flight in an airplane, attending a vaudeville performance in the evening and buying tickets for a boxing bout Ewan Bjork, whose neighbors have declared him the most cheerful man they knew, committed suicide. While his wife and daughter were away, he removed the tube of a gas stove, inserted the end in his mouth and turned on the gas.

Lansing—Duck hunters will be under the supervision of the United States weather bureau as well as subject to the Michigan game department wardens from the morning of Sept. 16 to the evening of Dec. 31. The weather bureau will act as an adjunct in determining the exact time of sunrise and sunset in the interim of which ducks (except woods ducks) may legally be shot.

Ann Arbor—Lieutenant Colonel Joseph Bursley has been appointed director of the newly organized housing bureau of the University of Michigan. He will assume his duties as soon as he gets his discharge from the army. Since the signing of the armistice Colonel Bursley has been in charge of the salvage board of the Detroit ordinance district. Colonel Bursley's duties, according to President Burton, will be to find a room with a good bed and all needed equipment for every student in the University of Michigan.

Owosso—The high school faculty and students will publish a daily paper this year.

Port Huron—Michigan Commercial Secretaries Association, newly organized, will meet in Port Huron in March, 1921.

Cadillac—Cadillac Handle Co. closed its plant here after 30 years' operation, because of exhaustion of the timber supply.

Battle Creek—N. A. Cobb, attorney, lost a finger by amputation following blood poisoning, that resulted from picking up a can in his garden.

Saginaw—Saginaw voters will be asked Nov. 2 to approve an amendment to the city charter which would unite the city's two taxing districts.

Albion—Calhoun County has more cider mills than in the past decade, and they are grinding out the apple juice at nearly every four corners in this section.

Albion—A 90-year-old house, one of the landmarks of Calhoun County, is being torn down by Philo Snyder, of Bath Mills, near Albion, to make way for a new farm house.

Wayne—Ground was broken for the Wayne water filtration plant, Marshal Charles Gowdy and President John Ziegler will supervise and speed the construction.

Grand Rapids—Improvement of 71 Grand Rapids' streets is in the preliminary 1921 schedule proposed by City Manager Fred H. Locke. The list also includes nine sewers.

Grand Rapids—The city commission, after battling for two months on a petition of the Consumers Power Co. for a rate increase, ordered a referendum at the Nov. 2 election.

Monroe—John M. Anteau, 70, retired grain dealer, of Milan, was instantly killed north of Dundee, when his automobile left the highway and upset, burying him under the tonneau.

Menominee—Day Eleanor Larson, 5, daughter of Mr. and Mrs. Carl Larson of this city, died on the way to a hospital after being struck by an automobile driven by Joseph Rivet of Escanaba.

Harrison—The Harrison State Bank was robbed by bandits who forced the vault and stole all the cash and contents of safe deposit boxes, including \$1,000 in currency and stamps in the postoffice box.

Harbor Springs—Gems, valued at several hundred dollars and stolen from the cottage of Charles E. Hayes, at Wequetonsing, 17 years ago, were found by children while playing in sand under a loose board in the woodshed.

Coldwater—Rooms were rented by the Homer Furniture Co., for use of classes in the new school of technology already started by the firm here. Employees will be taught technical knowledge of foundry work. The enrollment is large.

Pontiac—Pontiac's new commission manager charter went into effect. For the present it makes no particular difference in the operation of the city and present officials will hold over until seven new commissioners are selected Nov. 2.

Ontonagon—Northern Fiber Co. with Green Bay, Wis., capital, will erect a large pulp mill at Ontonagon, said P. S. Wagner, one of the incorporators. The mill will have a capacity of fifty tons daily. The company is capitalized at \$500,000.

East Lansing—Certain soils of the Saginaw valley and Thumb districts of Michigan, may be compared favorably with the famous corn belt sections of Illinois, says Dr. M. M. McCool, head of the soils department at the Michigan Agricultural college.

Bay City—The six-year-old son of William Robinson, of Caro, complained of being sick. His mother administered some medicine and he appeared to feel better. Later when she came back to the room, her son was dead. An inquest will be held.

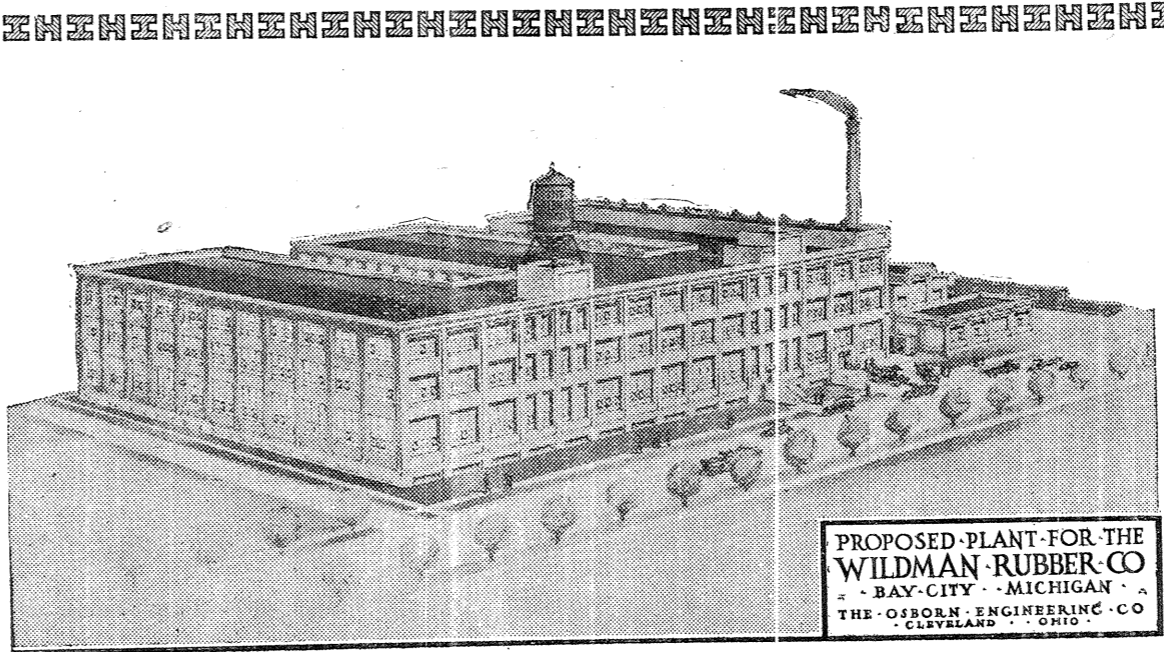

Holland—A drive for a county organization of the American Legion is soon to be launched in Ottawa county by Holland post. The purpose is to expedite work by the army vocational and rehabilitation boards among disabled and wounded ex-service men.

Mt. Clemens—Counsel for Lloyd Prevost, now serving a life sentence in Jackson prison for the murder of J. Stanley Brown, wealthy Detroit heir, have filed an appeal. The claims for a new trial are based on alleged errors in rulings, and the charge to the jury.

Charlotte—The Olivet College Conservatory of Music offers four free scholarships this year, two for vocal training and two for piano instruction. These scholarships will be awarded at a contest to take place in Olivet during the first week after the opening of the college, Sept. 21.

Kalamazoo—Believing they were doing away with an illegal contrivance, Frank Grupka, Tony Endik and John Skysyk destroyed a fish net they found in Barton Lake, Schoolcraft Township. Now they are facing trial in Circuit Court on a charge of destroying a net set by the deputy game warden to clear the lake of gar fish.

Battle Creek—A central tabulation bureau, authorized under the state laws, will be put into effect here for the November election whereby the votes of the various precincts will be tabulated almost as they are cast. Duplicate ballot boxes are to be used at the various precincts. These will be collected by the police every two hours, taken to the central tabulation bureau and the ballots counted. City officials expect to have the complete count for the city made within an hour and a half after the polls have closed.

PROPOSED PLANT FOR THE WILDMAN RUBBER CO. - BAY CITY - MICHIGAN - THE OSBORN ENGINEERING CO. THE CLEVELAND - OHIO

The Wildman Rubber Company's Great Tire Factory at Bay City

Will Be Designed and Built Under the Supervision of Osborn Engineering Company

The Osborn Engineering Company is one of the famous engineering companies of the United States, noted for the many modern manufacturing plants erected under the direction of their able industrial engineers.

In securing the services of the Osborn Company, we have insured for The Wildman Rubber Company a tire manufacturing plant that will have no superior in the country. Their experience in building other tire and rubber plants has been so extensive, and their knowledge of the rubber industry is so broad that they will be able to make full use of the natural advantages afforded by our site at Bay City.

This is what Bernard L. Green, President of The Osborn Engineering Company, Cleveland, says about the new Wildman factory:

"We want to assure you and your associates that we shall give this work our very best attention throughout and hope that we may achieve one of the most modern and best equipped plants in the country."

(Signed) THE OSBORN ENGINEERING COMPANY, Bernard L. Green, President.

Right Now Is the Time for You to Become a Shareholder in this New Industry

This Michigan industry offers you an unusual opportunity for a safe investment. This company will manufacture a product for which there is a constantly growing market—automobile tires and tubes.

There was never a better time for a big new tire manufacturing business than now. The location of our new factory in Michigan, the center of the automobile industry, gives us shipping and marketing advantages that mean added profits. There are conditions in the industry that are greatly to our advantage.

Wildman Rubber Company Preferred Stock Holders Are to Receive 7 Per Cent on Their Investment Out of the First Earnings of the Company. These Dividends Are Cumulative.

But in addition to the 7 per cent preferred dividends, the Preferred Stock shares with the Common Stock all earnings of the Company up to 10 per cent. The Common Stock is, of course, the stock on which there is the greatest possibilities of profit, as it shares in all the growth and increased values of the company's property.

FIND OUT WHAT AN INVESTMENT OF \$250, \$500, \$1,000, \$5,000 OR MORE WILL SECURE FOR YOU.

The Wildman Rubber Company shares are sold in units of two shares of Preferred Stock and one share of Common Stock. Buying stock in this way places you in a position to receive a regular income from the Preferred Stock and the additional profits that may accrue to the benefits of all owners of Common Stock.

Send for complete information today. Make arrangements to be a partner in this company right from the beginning—the days of greatest opportunity.

THE WILDMAN RUBBER COMPANY

Book Building. Detroit, Michigan.

The Wildman Rubber Company. Book Bldg., Detroit, Mich.

Without obligating me, you may send me complete information regarding your company.

BOMB EXPLOSION IN WALL STREET

MORE THAN 30 KILLED AND, OVER
200 INJURED BY BLAST IN
FINANCIAL DISTRICT.

\$1,000,000 PROPERTY DAMAGE

**Police Believes Clue Is Unearthed
With Discovery of Shortage of
Stock Explosive.**

New York.—A mysterious explosion in Wall street near Bond, believed by trained department of justice and police investigators to have been caused by an infernal machine, rocked the heart of New York's financial district, leaving death and destruction in its wake.

At least 32 persons were killed, more than 200 were injured, the banking house of J. P. Morgan & company, the treasury and the assay office were partially wrecked and property damage estimated in excess of \$1,000,000 was caused by the blast.

New York.—A clue to the source of the explosive which rocked New York's financial district was unearthed by the fire department after a three day search of all establishments carrying explosives as a stock in trade.

The location and name of the establishment was not made public. A fire department official made the simple announcement that "a suspicious shortage of explosives had been found and that there was no explanation of where it went."

It was further stated that all the facts had been put in possession of department of justice and police officials.

EXTENSION GRANTED NEWBERRY

**Has Until October 18 to File Record
in Appeal.**

Washington.—A second extension of time, to Oct. 18, for filing the record in the appeal of Truman H. Newberry and co-defendants from the verdict of the Federal District Court of Eastern Michigan has been granted by the Supreme Court.

Only the record is required to be filed on the date set. The briefs of the applicants and the government will not be filed until later. It is considered doubtful if the case will be argued at the coming winter term.

Since Mr. Newberry has indicated his intention not to try to resume his seat in the Senate pending final decision of the case, Michigan seems likely to be without its allotted representation during the entire short session of Congress, convening in December.

The appeal for additional time for preparation of the case was made by Charles E. Hughes, who has obtained Martin W. Littleton as chief counsel for the defendant.

SEN. JOHNSON TO "STUMP" EAST

**Hiram Plans on Coming to Indiana
on Speaking Tour.**

Chicago.—Senator Hiram Johnson expects to come east and speak in the campaign and may include Indiana in his itinerary, especially the great industrial district about Gary, where the iron and steel mills are located.

Senator Johnson has written a letter to C. G. Kingwill of Hammond, in which he says:

"My plans are still vague, but I am hoping to come to Indiana in behalf of the Republican ticket. If I do come into your state, I shall be more than delighted to come into Lake county. I want to explain to your people there my appreciation of their very great kindness to me in the presidential primary."

OUSTED SOCIALISTS REELECTED

**Five Assemblymen Who Were Denied
Seats Defeat Fusion Candidates**

New York.—The five socialist assemblymen who were expelled from the state legislature last spring on charges of disloyalty, were re-elected at special elections held here.

The vote in the five districts where the ousted assemblymen ran was light compared with that when they were chosen at the general election last November. In the eighth district New York county, Louis Waldman, Socialist, was elected over Morris B. Reiss, the Fusion candidate, by a vote of 3,066 to 2,222.

Samuel A. Dewitt defeated the Fusion candidate, Milton Altschuler, in the third Bronx district, 3,865 to 2,310.

Japs Control "Isle of Thieves"

San Francisco.—The passing of Magellan's "Isle of Thieves", the Ladrones, from German to Japanese control, marks the third time within a generation that the inhabitants have been subjected to a change in official language. The Germans in 1899 made German the official language. Now, as a result of the war, German control of the Marianne Islands, with the Marshall and Caroline groups, went to Japan and Japanese is the official language.

DESCHANEL RESIGNS AS PRESIDENT OF FRANCE

M. PAUL DESCHANEL

Paris.—Paul Deschanel, president of France, has presented Premier Millerand with a letter of resignation, and his presidential message which accompanied it has been read to the Senate and the Chamber of Deputies.

The resignation of M. Deschanel comes at the end of almost 45 years of active political life during which he rose from a cabinet officer's secretary and finally to the post of chief citizen of France to which office he was elected January 7, last.

In the early morning of May 27, just five months after his election, M. Deschanel fell from a moving train while en route from Paris to Montbrison to dedicate a monument. His failure to fully recover is believed to be the reason for his resignation.

STATE CLAIMS BORDER ERROR

**Boundary Commission May File Suit
Against Wisconsin.**

Lansing.—Members of the Michigan Boundary Commission, created by the last Legislature, were in Lansing to arrange with Alex J. Groesbeck, attorney-general, for filing a suit in the United States Supreme Court to compel Wisconsin to relinquish 400 square miles of land which the commissioners say their investigations have proved belong to Michigan.

One Capt. Cram, in 1841, made a mistake in a survey, the commissioners declare, with the result that Wisconsin for three-quarters of a century has been administering the law and collecting the taxes on lands which rightfully belong to this state. The territory in controversy includes Hurley, Wis., once famous for having the most saloons per capita of population of any village in the country. It also includes several islands in the Menominee River, on one of which stands a statue of Isaac Stephenson, former United States senator from Wisconsin.

AVIATOR HURT BY PROPELLOR

**McLoughlin, Who Appeared At Recent
Michigan Fair, Injured in N. Y.**

Syracuse.—Five hundred feet in the air, in view of 80,000 visitors at the State Fair, "Tex" McLoughlin, aviator, was badly injured, when struck by the propeller of the higher airplane to which he had transferred himself in mid-air.

He clung to the rope ladder of the machine until it reached the ground, blood dripping over the spectators as the machine circled in descending, partially out of control. McLoughlin was still conscious when reached, though he had been dragged more than 100 feet on the ground. He is in the Crouse-Irving Hospital and will recover.

McLoughlin was one of the stunt aviators appearing at the Michigan State Fair, at Detroit, held recently.

U. S. CHARGES PRISON CRUELTY

**Federal Prisoners in Maryland State
Penitentiary Ordered Removed**

Washington.—All federal prisoners in the Maryland state penitentiary will have to be moved to another institution as a result of an investigation of charges of brutality practiced there, it was announced at the department of justice. Assistant Attorney General Adams has approved the report of federal inspectors recommending the removal of the prisoners, it was stated, but none of the details of the conditions found to exist in the penitentiary were made public.

669 Ships Added During 1920.

Washington.—Shipping under American registration increased by 669 vessels and 3,416,713 gross tons during the fiscal year of 1920, the Department of Commerce announced. On June 30 registered shipping consisted of 28,182 vessels, totaling 16,324,013 gross tons, as against 27,513 vessels of 12,907,300 gross tons on June 30, 1919. Of the year's increase nearly 90 per cent consisted of seagoing ships of 1,000 gross tons or over owned by the Shipping Board.

Peculiar Wedding Ceremony.

One of the most curious wedding ceremonies in the world is that in vogue among a certain race of dwarfs inhabiting the Annam islands. The two parties climb two flexible trees growing near each other, which an old man then makes bend toward each other. When the head of the man touches that of the girl, they are legally married.

Robbed of His Support.

With reference to the road mender who fell down last week and injured himself an explanation has now been given. It appears that the colleague next to him must have moved.—London Punch.

Work Hard and Avoid Worry.

It is not work that kills men; it is worry. Work is healthful; you can hardly put more on a man than he can bear. Worry is rust upon the blade. It is not the revolution that destroys the machinery, but the friction.

Order for Publication—Final Administration Account—

State of Michigan, The Probate Court for the County of Tuscola.

At a session of said Court, held at the Probate Office in the Village of Caro in said County, on the 7th day of September, A. D. 1920.

Present: Hon. O. D. Hill, Judge of Probate.

In the matter of the Estate of John Krapf, Deceased.

Dora S. Krapf having filed in said court her final administration account, and her petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is ordered that the 5th day of October, A. D. 1920, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said county.

O. D. HILL, Judge of Probate.
A true copy.
O. D. HILL, Judge of Probate. 9-10-3

Default having been made in the payment of money due for interest on a certain mortgage dated the 8th day of December, A. D. 1915, made and executed by Arza Lounsbury and May Lounsbury to John J. Benninger and recorded in the Register of Deeds' office for Tuscola County, Michigan in Liber 139 of Mortgages on Page 507 on December 10th, 1915, and on January 23rd, 1919, said mortgage was by written assignment duly assigned by said John Benninger to Edward Pinney, now deceased. Said assignment having been duly recorded in the Register of Deeds' office aforesaid in Liber 116 of Mortgages on Page 350, on the 6th of February, 1919. That by reason of said default in the payment of interest due on and secured by said mortgage the whole sum secured by said mortgage has become due and payable and is hereby declared to be due according to the terms and conditions of said mortgage. That the sum claimed to be due on said mortgage at the date of this notice is Two Thousand Three Hundred Twenty Dollars and Seventy-eight Cents (\$2,320.78).

Now therefore notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises in said mortgage described, at public auction, to the highest bidder, at the front door of the Court House in the Village of Caro, Tuscola County, Michigan on Monday the 8th day of November, A. D. 1920 at one o'clock in the afternoon. The said mortgaged premises are described in said mortgage substantially as follows: The Northeast quarter (¼) of the southeast quarter (¼) of Section fourteen (14) and all that part of the northwest quarter (¼) of the southwest quarter (¼) of Section thirteen (13) of Township fourteen (14) North, Range ten (10) East, all being in the Township of Elmwood, County of Tuscola and State of Michigan and containing seventy (70) acres of land more or less, which said premises will be sold as aforesaid to satisfy the amount due on said mortgage and the costs of foreclosure. Dated August 12th, 1920.

ELIZABETH E. PINNEY,
Executrix of the Last Will and Testament of Edward Pinney, Deceased. Assignee of Mortgage.

J. D. BROOKER,
Attorney for the estate of Edward Pinney, Deceased. Business Address, Cass City, Mich. 8-13-13

DON'T MISS THE BIG FAIR.

DEFORD.

Sam Powell was with us the past week.

Merchant Crosby was at Pigeon Tuesday on business.

Mrs. C. J. Malcolm is at home again after an extended visit in the vicinity of Scotland, Ontario.

"Boney" Daugherty is spending a week at Pontiac and vicinity.

Frank Terry of Alpena was a caller here the past week.

John Retherford exhibits one hill of potatoes which weigh 8 lbs. and 3 oz.

Fred Ball, one mile east, has sold his 40-acre farm to a foreigner.

Edward Bonner was in town Saturday. He has been working in Lapeer county at road building.

Mrs. Margaret Livingston is in the locality calling on old acquaintances.

Mr. Hungarian has moved into his new purchase, the farm lately owned by A. L. Bruce.

The state highway commissioner could not reach this point to see our grade on last 1/2 mile of state road, hence business was held up a few days the past week.

Mrs. Hattie Koppleberger of Kingston was here the past week on account of sickness in the R. D. Lewis family.

Mr. and Mrs. Loda Kennedy returned from the upper peninsula on Friday. Mrs. K. stood the home trip well and seems to be improving in health.

When Lee surrendered at the close of our civil war, Lorenzo Gage rejoiced so proudly that he bought a new pair of fine boots. Yes, he wears them yet. Of course, they have not done service every day since "sixty-five." Just Sunday, Fourth of July's and a few "seventeenth of Ireland."

If the rag weed or golden rod has upset the nasal organs and you want to be nice, don't express yourself in antiquated form, shouting "hay fever," but turn the head, a little sideways, clear the throat and softly tell how you suffer from summer grip. Ahem!

There is a dearth of parsonages in our town. For that reason Elder Phillips, our present minister, will not come again. The present manse is aged and delapidated and rented to sugar beet tenders from the torrid sands of Mexico.

David W. Simon, father-in-law of Mr. Shaw of this place, died suddenly on Monday morning, Sept. 13, at the home of his daughter, Mrs. Shaw. He was totally blind and born in Canada ninety years ago. Funeral services were held on the 14th in the M. E. church at this place. Elder Hammond preached the sermon and the remains were buried in Lamotte cemetery where his wife was laid many years ago.

On the 15th A. L. Bruce moved a truck load of his household goods to Richmond, Mich., where he will live in the future. He will store his other effects here 'till a more convenient time. He stays 'till he cares for his crops. The purchaser of farm only gets the corn.

If you want to find the age of an old maid that you are courting, just give her a pencil and paper and in a joking way ask her to set down the number of the month in which she was born, then to multiply it by two, then add five, then to multiply it by 50, then add her age, then subtract 365, then to add 115, then to hand you back the result. The two figures to the right will be her age, and the remainder the month of her birth. Do the work cooly and you will get her correct age, and find the size of her temper when she sees the result of the problem. For example if the amount is 840, she is 40 years old and was born in August, eighth month of the year.

Dennis, third son of R. D. Lewis, has experienced a serious week. A week ago he fell on the floor and bumped his mouth. Blood flowed and refused to stop. The doctor was called, who could bottle it up only temporarily. Repeatedly the physician has checked it only to break out anew. At present, eighth day, it seems to be stopped, but is watched with care. "It is a case of what doctors call "Freebleeders," a trouble handed down from parents to children. Later--The lad has passed away.

Use flour made from the best wheat grown -- your own wheat. Forty pounds to the bushel. Elkland Milling Co.—Adv. 9-3-4

A. J. HUGHES, Auctioneer

OWENDALE BANK, Clerk

AUCTION SALE

Keep in mind the auction sale of ANGUS McCALLUM, on Thursday, September 30. The list of property offered for sale is printed on page 8, but thru an error in the copy a mistake was made in describing the location of the farm. The correct description is as follows:

Five miles north and 4 miles east of Cass City or 1/4 mile west of Old Greenleaf.

SCHOOL NOTES.

Mr. Newlin and Mr. Heaton entertained the high school Monday morning.

Coach Boyne announces 16 men out for football this season, and there are many prospects shown for a good team.

Tuesday night the high school will play the town team.

The athletic association held a meeting last Wednesday night and officers were elected as follows: President, Frederick Pinney; vice president, Lillie Rogers; sec. and treas., Gillies Brown.

James Brooker and Earl Gowen presented the shield to the high school Tuesday morning.

A reception was given to the teachers at the home of Mrs. Farrell Monday.

Having a hard time getting textbooks this year.

There are 168 pupils in high school this week.

There are about ninety in the chorus this year and they are planning on helping out different organizations by giving musical numbers.

Mr. Boyne and Miss Elliott are giving their classes in public speaking a good foundation for future use.

Junior High

Sixty pupils in the Junior High. The eighth grade have organized a football team with Kenneth Striffler as captain and Garrison Moore as manager.

The eighth grade enjoyed a roast in Striffler's woods one night last week.

The eighth grade had a meeting one night last week and officers were elected as follows: President, Garrison Moore; vice president, Lilah Warner; sec. and treas., Thelma Warner.

Miss King will spend this week-end in Detroit.

The seventh grade will organize their class Tuesday.

Miss Ried will spend this week-end at her home in Avoca.

First Grade.

Adeline Darling entered school Monday morning.

The first grade had a birthday party Friday in honor of Catherine Bailey and Harry Crandell.

Second Grade.

Two new pupils entered the second grade this week.

Friday afternoon the second grade will entertain the third grade with a little play which they have dramatized.

Third Grade.

"From Seed to Loaf" is being read this week for morning exercises.

Fourth Grade.

Ashley Root entered school Monday morning.

Agnes Ferguson has been absent from school on account of sickness.

Fifth Grade.

Mrs. Ferguson is in Ann Arbor this week and Miss Kinnaird is filling her place as teacher.

Foot Ball Schedule.

Oct. 8—Marlette (here).
Oct. 15—Vassar (there).
Oct. 22—Bad Axe (here).
Oct. 29—Caro (there).
Nov. 5—Bad Axe (there).
Nov. 13—Bay City Western (here).
Nov. 19—Croswell (here).
Nov. 25—the championship game.

PALMS—Mrs. John Snider, 65, of California received injuries from which she died and Mrs. Jos. Moore

of Palms, her niece, had several ribs fractured and received other injuries when the automobile in which they were riding Tuesday stalled on the Pere Marquette tracks here and was struck by the Harbor Beach train. Mrs. Snider was recently married to a Californian. Her first husband was John Wallow of Ruth, who died several years ago.

CARSONVILLE—Fire of unknown origin completely destroyed the Thompson brothers creamery here at three o'clock Wednesday morning. The loss is estimated by Harry Thompson, one of the owners, at nearly \$15,000, with little insurance. The fire is the second within a month. Late in August a blaze was discovered in the boiler room but was extinguished by Thompson by the aid of a small hose. In addition to the complete destruction of the building and equipment, \$200 worth of butter fat and 1,000 gallons of ice cream were destroyed by the fire.

COMBING MICHIGAN FOR T B SUFFERERS

A search of all probable cases of tuberculosis among Michigan's ex-soldiers is now being made by the 4,500 physicians within the state.

Under the direction of Dr. R. M. Olin, commissioner of the Michigan Department of Health, letters were mailed to every physician in the state asking that each report to the department any case where an ex-service man is known to be suffering from tuberculosis, organic disease or mental derangement.

The present combing of Michigan for known, or suspected sufferers with tuberculosis, is one of the many steps to be made by the department, in an effort to control the disease, since taking over the clinics of the Anti-Tuberculosis organization July 1. It is said to mark the inauguration of the department's active fight against tuberculosis in Michigan.

Two months ago there were 1,147 of the state's 142,297 former soldiers known to be suffering from tuberculosis in some one of its forms or stages. Though the opinion exists that the number of actual cases in Michigan is many times less than has been represented, this judgment being based upon partial investigation of the situation, Dr. Wm. J. V. Deacon, director of the bureau of communicable diseases, has prepared to make an exhaustive scrutiny of all localities.

Today's Good Thought.

Though all the winds of doctrine were let loose to play upon the earth, so Truth be in the field, we do indignantly, by licensing and prohibiting, to misdoctrin her strength. Let her and falsehood grapple; who ever knew Truth put to the worse in a free and open encounter.—Milton.

Woman's Heart.

Knock at a hundred doors, one opens; speak to a hundred hearts, one throbs. The door that opens is a woman's love; the heart that throbs is a woman's heart.

FOR SALE—Four-room house. See N. L. Greenleaf or call 102—1L, 3S, 9-24-3.

STRAYED to my farm, 1½ miles north of Novesta Corners, 3 calves several days ago. L. N. Churchill. 9-24-1.

STRAYED to my farm Sept. 16, a yearling heifer. Owner may have same by proving property and paying damages. John Wagner. 9-24-

THE AMERICAN RED CROSS
IN PEACE TIME
 Disease Prevention

Through its Health Service the American Red Cross has begun a nationwide concentrated effort in co-operation with established organizations to reduce greatly the amount of preventable disease and physical defects found among the country's 106,000,000 population. Education is its most powerful tool. Special attention is devoted to children, and this picture shows a typical Red Cross welfare clinic where little ones are treated and mothers instructed in the proper care of them.

WHY

Statistics Are Unsafe Guide to Conclusions

Statistics, though often interesting, are sometimes most misleading and futile. For example, it is interesting to know from the census bureau the number of prison commitments among the foreign-born population of the United States, but it would be most unsafe to base any generalizations upon them, for the number of commitments to prison is no indication of the number of crimes committed, and there are many more criminals at large than behind the bars.

Those in prison were not clever enough to escape, and vice versa if the weather turns hot. If his income increases or diminishes, he will increase or diminish his expenditures accordingly. If a new law that affects him is passed, he will alter his conduct so as to conform to it. As his children arrive at an educable age, he will take measures for their education.

Normal action is such as to adjust the relation between the self and the circumstances, either by altering the circumstances, as when we put on more clothes in cold weather; or by altering ourselves, as when we learn a new language on going to a new country; or by altering our action, as when we stop at home and go to bed instead of going to business when we find ourselves suffering from fever.

Some young fellows think that it is "smart," "clever," and a sign of bravery to drive near the edge of a precipice; to spend what cash they have freely; and to be a good fellow and take the risk someone else urges upon them. This is the sign of lack of experience and lack of real business knowledge and experience. Play safe. Keep clean. Be strong. Be wise, and you will never regret it.—Exchange.

CALL INSANITY FIXED ERROR

How Physicians Determine Absence of Normal Mentality Revealed as a Simple Matter.

The sole difference between a sane and an insane man is that the former retains the power of adapting himself to his circumstances, while the latter has lost it.

This is the definition of an English authority who says that as long as a man is able to alter his actions to suit any change in himself or his environment, so long is he mentally normal.

mal. A man can effect such alteration either by changing his circumstances, or by changing his own actions.

The madman fails to make the proper adjustments and he does not recognize such failure as an error, but persists in it. Thus, insanity might be defined as permanent error.

Here lies the boundary between mistake and madness:

If a man's circumstances change in such a manner as to affect his welfare, this writer goes on to explain, he will, as long as he is sane, alter his action so as to adapt himself to the change.

If the weather becomes cold, he will light a fire, or put on more clothing, or both; and vice versa if the weather turns hot. If his income increases or diminishes, he will increase or diminish his expenditures accordingly. If a new law that affects him is passed, he will alter his conduct so as to conform to it. As his children arrive at an educable age, he will take measures for their education.

Normal action is such as to adjust the relation between the self and the circumstances, either by altering the circumstances, as when we put on more clothes in cold weather; or by altering ourselves, as when we learn a new language on going to a new country; or by altering our action, as when we stop at home and go to bed instead of going to business when we find ourselves suffering from fever.

Sound Advice.

Some young fellows think that it is "smart," "clever," and a sign of bravery to drive near the edge of a precipice; to spend what cash they have freely; and to be a good fellow and take the risk someone else urges upon them. This is the sign of lack of experience and lack of real business knowledge and experience. Play safe. Keep clean. Be strong. Be wise, and you will never regret it.—Exchange.

Petter Than Wo Bath.

Bathing in the snow is a common custom in Russia.

CATCHING COLD?

Mintol Often Prevents Pneumonia.

It is surprising to read in the daily papers of treatments that our forefathers and grandmothers used for coughs, colds, catarrh, and bronchial affections. It impresses the writer with the fact that modern scientific re-search had not advanced an iota, when, as a matter of fact, there have been wonderful advancements in the treatment of all diseases and conditions that bring on disease. Just because grandmother used old-fashioned mustard blisters for relieving colds and congested conditions it is no sane reason why we should resort to the old antiquated methods when there have been such wonderful improvements and new discoveries of remedies which are far more effective and less painful to use.

SPECIAL NOTICE:—A druggist said the other day that a customer came into his store and inquired for a mustard plaster and he suggested to the customer that they try MINTOL as a more modern treatment for congested conditions. The customer accepted the druggist's suggestion and in twenty-four hours the same customer came into the drug store and said, "How long have you handled MINTOL?" The druggist replied that he had been handling it for some little time and the customer frankly stated that he would never use a mustard cream or plaster for colds, coughs, or any congested conditions again. There are thousands of others who would say the same as this druggist's customer did, if they would only try MINTOL. If your druggist cannot supply you we will mail you a jar on receipt of price, 35c, 60c and \$1.25 a jar. The Home Relief Laboratories, Boston, Mass. For sale by Burke's Drug Store.—Adv. 11.

USE GERMICIDAL SOAP

REMOVES DANDRUFF
