GAGETOWN.

Mrs. Parks, our new-comer living on the Vaughan farm recently vacated by A. Rochleau, has been ill several weeks. Her kind neighbors have proved true friends by aiding in caring for her and her little ones.

Mrs. Geo. William's Sunday school class of girls had a bake sale Saturday at John Fournier's store. The proceeds are to be given to the Near East Relief.

Our girls' team played Elkton Friday evening, 29-31 in favor of Elkton. Refreshments were served to our girls before their long ride home.

Mrs. Eugene Livingston has an easy way of marketing fresh eggs. When she arrived at the Co-operative store, she found a hen in the back box of her buggy. She gathered the eggs from the nest and sold them, while Mrs. Hen roamed the village streets.

Mrs. Christina Gill returned from St. Louis, Mo., where she attended the funeral of her youngest brother, Neil McLellan, who was well known

here 20 years ago. He lived in Brookfield. His many friends were very sorry to hear of his death.

The quaint little one-story cottage, west of the park has been sold to Joseph Bildstein. Mrs. Margaret Spittler, an old lady of 80 years, has at last been persuaded by her devoted children to sell and give up trying to live alone. For many winters she has lived with her daughter in Bay City, always patiently waiting for return of spring to come home to her antique little home, where memories of bringing up her large family were ever dear. The cherry trees she planted so long ago, the lilac bush and the hollyhocks that bloomed, to this old lady were dearest friends. Some of her furniture will be taken to her daughter's home in Bridgeport, and every comfort given her to make her happy in her old age. Mrs. Spittler has lived here, it is thought, about 45 or 50 years. She was one of first members of the Episcopal church here. Her little bent figure will be missed on our streets, and our best wishes go with her to her new home.

Mr. Miller, the magician, appeared at the Family Theater Tuesday evening. The proceeds go to the Victoria Fund for the public school.

In Oxford county, Maine, ten short rings of the telephone is a community signal that there is a message of importance to the entire neighborhood. This should be introduced in all places. A great help in cases of fire, sickness, etc.

Lester Williamson was in Cass City Monday.

Mrs. T. Proudfoot and Dave Ashmore spent the week-end with the former's son, Jas. Proudfoot, in Grant.

panied by a gentleman came Monday noon to look at some real estate. They had Mr. Lambkins drive them out in the country. A Cass City doctor was called to a farm home and ran into the Lambkins buggy. The gents took a spill and their clothing was somewhat the worse for wear with mud. They all came out of the scrap O. K., but the buggy was a total wreck.

A slight collision just east of town on the 8th. An auto and buggy mixed. The buggy boys dumped and suits were spoiled but no bones broken.

A Novesta Corners boy shot in foot while shooting rats. Bullet removed; getting along well.

Dance at Herb Phillip's home on the 3rd.

Geo. Roberts of Detroit is a caller here.

One of our blacksmith shops yet closed.

The equines of Slim Thick took umbrage at the noise and smoke of a passing train, fled for a distance on the street, then monopolized the walk, interviewing one of Bro. Malcolm's trees and halted without doing much damage.

A few of our young people attended the dance at Novesta Corners on the 4th. To the minds that see beauty in such gatherings, all was fine.

Wm. Parks, sr., spent last days of past week at Pontiac and vicinity.

Thomas O'Rourke spent part of past week in our burg.

Clinton Bruce of Richmond came to our town on the 5th and returned to Richmond on the 6th. Mrs. A. L. Bruce, who has been spending some time here, went home with him.

The South Novesta Farmers' Club will meet at the home of Elmer Bruce in town on the 18th.

The poet said, "Young people's minds turn to love in the spring", but the Defordites turn to business. Many deals on the hooks to come soon.

Amos Webster went to Metamora Saturday to see his aunt, who is seriously ill.

Robert Horner was called to North Branch so as to be present Sunday at the funeral of a kindred of his wife.

Lewis Lock of Detroit, who has been spending a few days with Emory Patterson, returned to the city Saturday.

Word comes here from California that Hiram Goodrich (well known here a few years ago) is in good health, but no improvement in his eye sight.

LANCASTER was engaged in bracing a beam up in his barn, on his farm, west of Deckerville, the ladder he was standing on slipped and he fell on the cement floor a distance of about 30 feet. He was taken to his residence in Deckerville and medical aid summoned. He suffered a broken arm and hip and it is feared he is injured internally.

CROSWELL—The board of education has contracted with Supt. Phillips for another year, action that will receive the approbation of all who have followed Mr. Phillips' work in the schools this year.—Jeff.

CARO—Officers of the Wixson club recently elected are: President, Mrs. Kelsey; vice president, Mrs. Lewis; secretary, Mrs. Wilcox; executive committee, Mrs. Williams, Mrs. Otto Zemke and Mrs. Braby.

PIGEON — Four hundred beet growers from the townships of Windsor, Oliver, McKinley and Fair Haven met at Pigeon last Friday for a preliminary Thumb organization in the interests of beet growers. Supervisor William Stein is the head of the movement which is expected to cover all Thumb counties. The primary purpose is to build a co-operative sugar factory at that place. Those present subscribed \$125,000 towards building the factory. Mr. Stein headed the list with \$5,000. Similar meetings will soon be held in the other counties. It is proposed to follow what is known as the "Iowa Plan" for this proposed factory.

BAD AXE—Saturday Sheriff McAulay and deputy Truax rounded up four more law breakers. Charles Hartz, of Bloomfield, had a complete still in operation when the officers reached his farm. He also had 150 gallons of mash and six gallons of whisky. Curtis Adler, of Huron township, was caught with a still in his possession and Edward Kowalke, also of Huron, had a still, two quarts of moonshine and two barrels of mash. William Ender, Jr., of Gore, contributed two barrels of mash to the haul. The men were all arrested and are out on bail bonds of \$500 each. On Monday Peter Fredrickson, of Fair Haven, was arrested with a complete still and 20 gallons of mash. He was unable to get bail until Tuesday and remained over night in the county jail.

LAW-MAKERS SHOW SPEED ON BONUS FOR SOLDIERS

Continued from first page.

Estimated that this will call for a total of \$30,000,000.

ONE DISSENTING VOTE.

Only one vote was cast against the amendment in the legislature. That was the vote of Rep. Wm. L. Case, of Leelanau county.

Efforts of friends of the "eugenics bill" and the "full crew bill" to get them through both committees of the whole and on third reading in the senate in one day were not successful.

LOBBY BILL IS KILLED.

One of the liveliest debates of the session marked the senate action on the so-called lobbyist bill introduced by Senator McKrae.

Three mooted questions before the present legislature now seem to be in a fair way of being disposed of by compromises.

LABEL MEASURE OPPOSED.

Charging that the passage of the Henzie bill, requiring labels stating the contents of merchandise sold by retail dealers of this state would be discriminatory against Michigan manufacturers.

Two changes in the judicial records of the state are proposed in a bill introduced in the senate by Senator Hicks, Owosso.

Rep. McDonald, Houghton, has submitted a bill that would place the maximum compensation for workmen under the compensation act at 66 2/3 per cent of their weekly salary.

NEW INCOME TAX PLAN.

The plan to compromise on a moving picture censorship has the support of many who were disputing over the merits of the first censorship plans.

Senator Penney has advanced the income tax compromise idea, it being to have the federal government whack up income tax collections with the states from which they are received.

Numerous new bills continue to be offered both in the senate and house. Among the most interesting of them are two offered by Senator Hayes to make Good Friday a public and school holiday.

SPECIAL PUBLIC SERVICES ARE BEING HELD \$300,000 FROM STATE FARMS.

Salary increase bills still hold their power to precipitate heated debates, as was exemplified in the senate by the bill to raise the pay of supreme court justices to \$12,000.

From the sale of farm products from state farms the state expects during the fiscal year of 1921-22 to receive a revenue of approximately \$300,000.

In a statement of estimated general purpose revenues, compiled by the budget commission, the anticipated revenue for the coming fiscal year is placed at \$3,398,675.

The appointment of Fred B. Perry, secretary of the state board of auditors, and superintendent of the Capitol, as secretary of the newly created state administrative board, at a salary of \$5,000 a year, has been announced.

FOR CHANGE IN COUNTY PLAN.

The latest idea in governmental reform which has appeared in the legislature is one which embodies a plan for administrative boards for counties, patterned to some extent after the new state administrative board.

This plan is offered as a substitute for the county commission government idea which has been agitating for some time and is expected to be proposed at this legislative session.

The administrative board would consist of three members appointed by the board of supervisors at salaries of not less than \$3,000 a year each.

CABINET CUTS REQUESTS.

Attacking the \$1,970,000 emergency requests which the various departments and institutions have made to cover continuation work during the remaining five months of the fiscal year, the administrative board at its first meeting held this week looped \$30,000 off the requests of the first four departments taken up.

The biggest cut was made in the amount asked by the board of the Boys' Industrial school when investigation of the facts presented in connection with an estimate of \$50,000 convinced the board that \$30,500 would take care of the institution's needs for the period.

Similar cuts will be made all the way down the line of the various department requests and when the administrative board completes its examination it will craft a definite appropriation bill to cover all requests allowed, but the bill will not be drawn until the minimum has been reached, according to board members.

Place Restriction on Smoking. Bismarck, N. D.—The North Dakota Senate passed the House Bill which would prohibit smoking in dining rooms, cafes and other public places which both men and women frequent.

New Gas Mask Developed. Washington.—A gas mask that will protect its wearer against practically any gas, smoke or fume, is being developed by the bureau of mines.

THE CASE OF ARMENIA.

"We must do something for Armenia to pay our debt to the Armenians," was the unanimous opinion expressed by the delegates from all the allied countries who attended the League of Nations meetings in Geneva and in London. Despite this unanimous agreement no means have been chosen as yet to carry it out. In time, undoubtedly, some way will be found to help the Armenians into a position of independence.

Because of these facts and because of the unanimous admission of the Allies that Armenia rendered great service in the war, the nations are committed to the pledge that something must be done to give the Armenians their chance to develop their country and themselves. But what of the Armenians in the meantime, while the nations ponder on the way to help them? It is to the lasting credit of the United States, a country not in the present League of Nations, that there are any Armenians left for the grateful Allies to figure out a way of assisting to national independence.

It was the plight of these orphans that roused the quick sympathy of the great heart of America and this sympathy, expressed in dollars, provide relief that saved a million lives and kept Armenia in a place where even belated help towards national independence will be of real use. As a means of handling this great work of human salvage the Congress of the United States incorporated

that splendid relief agency known as Near East Relief. Its accomplishments have met with strong endorsements from the White House, from the governors' offices of many states, including Michigan, and just recently from President Harding. It has handled more than forty million dollars of relief funds and has saved from death and starvation more than a million people.

While this work has been accomplished by Americans generally and Michigan has had its part in it, additional aid is needed now to keep the state in line with others and to prevent it from losing the position it has held. This country still is being looked to for its quota of the amount assigned to the state.
