**AN OLD-FASHIONED GIRL**

It must be a very old-fashioned writer in the Milwaukee Journal who has been watching some of the new-fashioned girls of our own day, and looks back regretfully to those whom he used to know. Or, perhaps he is trying to hasten the day when the old-fashioned girl will be in style again. No, he says of her, she doesn't dress all out of style, but her mother tells us it never worries her when the style changes and she has clothes too good to throw away. It's in other ways she's old-fashioned—terribly so.

She really says "Please" and "Thank you" instead of the snappier equivalents that show one is up-to-date. Her tongue runs on merrily enough, but she stops oddly when her father or mother speaks, as though they might say something she cared to hear.

When she is asked to go somewhere, she doesn't answer with a "line" of teasing, but says "Yes" as though she were glad. Sometimes she even says "No," instead of making up her mind to tell all the other girls afterward how she took pity on the man who asked her.

The young swain arriving early is likely to find her doing dishes and be invited to help. And when she is starting she doesn't wigwag to mother, "Don't wait up for me. Ta! ta!" Her mother already knows all about the engagement, but this old-fashioned girl comes and kisses her good-bye and tells her just when she'll surely be home—and she is.

And when she's had a good time she isn't afraid to say "Thank you," even if it means a little trouble. The hostess she will not see very soon again receives a delightful little note. And the escort who has tried to make her evening pleasant gets the same usury.

These are a very few of the things that make her old-fashioned, but you can see she is. One would think she wouldn't get much attention from up-to-date youths, but did you ever see any one refuse genuine honey because it was old-fashioned?—Ex.

# DAILEY CASH BARGAIN STORE

The Store That Saves You Money

**Small Boy with Match—Big Blaze.**  
Another example of what a small boy with a match can do was forcibly illustrated on Wednesday afternoon when the garage at the rear of Noah Moore's residence at Deckerville was totally destroyed by fire before the fire department could get to it and the timely assistance of neighbors was the only thing that saved the residence from being damaged. Mr. Moore's two little boys were playing in the garage in which was stored a steel drum of kerosene. One of the little fellows touched a match to some kerosene measure to see if it would burn and it did. Fortunately Mr. Moore had his car up town at the time. The loss was fully covered by insurance.—Recorder.

**Women Vote Wet.**  
The special village election at Pigeon Monday resulted in the proposition of bonding the village for \$15,000 to improve and extend our water works system carried by a vote of 162 to 39. A number of our ladies stated that this was the first time they had ever voted wet.—Progress.

**School Strike at Uby.**  
On Monday our town was somewhat aroused by a little friction in the high school room, the pupils going on a strike, but Tuesday things had quieted down and most of the pupils returned to school to await certain developments. It is too bad that such things should happen when the school term is so near to a close. It is hoped that all things will be satisfactorily settled and that no international injustice will be found in this problem.—Uby Courier.

**No Moonshine Here.**  
George Hurley wants it distinctly understood that he is not engaged in the making of moonshine. The light seen upstairs in his place of business is the reflection from an incubator and not a still. When he candies his day's purchase of eggs and finds some partly hatched, he puts them in the incubator. It's simply business acumen to allow nothing to go to waste.—Minden City Herald.

**Class of 100.**  
Thursday, July 14, Lapeer will see the biggest fraternal event ever taking place in this county. On that date the Grand Master Cramton class of one hundred candidates will take their first degree in the Independent Order of Oddfellows. This class is in the nature of a tribute to Grand Master Lewis C. Cramton because it is the first time in the history of Lapeer Lodge No. 94 that one of its members has been the presiding officer of the Grand Lodge of Michigan.—Lapeer Clarion.

**Physicians on Advisory Board.**  
Vacancies on the advisory board of physicians at Hubbard hospital at Bad Axe were filled by the election of Dr. Dundas of Minden City, Dr. F. L. Morris of Cass City and Dr. Wm. Sugnet of Gagetown, at the 15th annual meeting of the incorporators of the institution held May 18.

**YOU AND YOUR TOWN**  
Your town boosts you. Why not do as well by the town as it does by you?  
No citizen is so powerful, none so humble, but what the town is an aid to him in some way or other.  
The food that he eats, the clothes that he wears, the recreation and amusement that he enjoys, all originate at home, because the money with which they are procured is made there.  
When a fellow boosts his own town he does not stop there. He is performing an act that improves his own condition, for every good word and every good deed has its elevating influence.  
A few people are always home town boosters. They accomplish much in the way of community betterment, and this improves the condition of not only themselves, but also of those who do no boosting at all.  
If every citizen would constitute himself or herself a home town booster, the result collectively would be many times as great, and opportunities for self-improvement would be more numerous.  
Think it over in your odd moments. Then get into the boost wagon and hit the pace.

**DON'T DELAY**  
Don't neglect a cough or a cold until it runs into serious sickness. Pneumonia and consumption often have their beginning in a slight cold. At the first indication of a cold, use  
**Foley's Honey and Tar.**  
Mrs. D. E. Parmeter, Childs, Pa., writes this: "I am writing to tell you of the good Foley's Honey and Tar has done me and I feel much better since I am taking it. I have tried many cough medicines but none relieved my cough and irritation in the throat as much as your medicine and I will be pleased to recommend it to my friends and tell them of the good it has done me."  
Burke's Drug Store. L. I. Wood.

**Physicians on Advisory Board.**  
Vacancies on the advisory board of physicians at Hubbard hospital at Bad Axe were filled by the election of Dr. Dundas of Minden City, Dr. F. L. Morris of Cass City and Dr. Wm. Sugnet of Gagetown, at the 15th annual meeting of the incorporators of the institution held May 18.

**SIDELIGHTS ON LIFE IN SHABBONA**

Some say it "blew up" the road while others say it "blew down" the road, but the writer is of the impression the roads are in the same position as before the wind came and blew Wallace's shutters off.

The oats which were mentioned as "coming up" last week are still on the incline.

We will soon be reading that we simply must "Swat the Fly."

An interesting incident occurred in the city the past week in that Mr. Raymond had no more than finished decorating the Shabbona Bank and put the finishing touches on the hardware roof when he was taken away to the neighboring city of Snover for a papering job. Many were wondering where Mr. Raymond had disappeared to but their minds were soon at ease when he arrived home some two days later and has since been standing in his true Napoleon position. Mr. Raymond agrees with the writer that no one is more welcome in Shabbona than an Old Time Southpaw and feels he has a fighting chance of taking Airing Allen's long occupied position as the First String Pitcher of the Shabbona Quetchers.

Mr. Pacey has received his new Ford coupe and apparently enjoys riding with his instructor. Both Mr. and Mrs. Pacey are learning to drive and with but seventeen more lessons left in their course of instructions (which accompany every Ford) they are planning on making their first out of town call within the month.

Mr. and Mrs. George H. Jones motored to Yale, Mich., for the weekend, arriving home Monday evening.

Ervin Baker has traded his Ford touring for the Red Wing racer with the curvilinear effect. Evidently Mr. Baker is after a car with speed, but the inhabitants of this little burg and vicinity would much rather see Mr. Baker driving a Fordson or even a Hart-Parr wide open than the Red Streak.

Earl Chambers is a regular carpenter these days and it is hoped there will be more building this summer, as Earl says he really likes it for a change.

Patter Hyatt has finished planting his garden and really believes it will be a success but on the QT he hopes it will be at least esculent.

Thomas Gibson was a caller in Sandusky Monday, returning home Monday evening via D., B. C. & W.

Those who think Shabbona missed her second growth when the D. B. C. & W. joggled to Decker are not only truly but sadly mistaken. At best this line or rather jitney service

camouflaged as the D. B. C. & W. is more at home hitting a city of this size in the suburb which in this case is only five miles south. With the building, which is now in progress, it would be difficult to place a terminal here.

A number from here attended the play given by the senior class of the Cass City high school Tuesday evening.

Fred Phetteplace was a Decker caller Tuesday.

A play entitled "Fun in a Chinese Laundry" will be given in Ehlers Hall, Shabbona, Friday evening, May 20. Bruce Wheeler played the leading role as Ah Sin, a laundry man. Those who have seen the play says Bruce is a scream, but if Bruce is as good in the play as he is out of it, it will be some play and well worth seeing.

Oscar Chambers in drawing stone this week believes he has broken all previous records by drawing 432 stones. This load took Oscar 85 minutes to load and 92 minutes to unload, but of course Oscar was a little fatigued when the latter took place. The good readers must bear in mind that Oscar only used a stone boat.

A. Shaw is having his house painted.  
The straw boss had the blood of the "Fadderland" galvanized with the Yankee swagger. The youthful mixer of the cement ointment possessed the hot blood that comes from the "Isle of Destiny" and it takes but little ammunition to fire off a Hiberian mouth. Hence noise ensued and the youth was "fired."  
Mrs. E. R. Bruce and Mrs. Silverthorn attended W. C. T. U. held at Vassar on the 19th.  
Elisha Randall of Detroit came up Saturday night to see how things went on the farm.  
If correctly informed, 'tis a sad mistake of our early city dads. Deford is a town without legal streets or alleys. Nearly a generation ago our town was laid out, christened and started out with healthy growth but for some reason no minutes of streets and alleys kept. The section line that runs east and west through center of the place is the only public way that can be improved. If a man buys a village lot, he gets a deed describing his piece of land but the threads of land that work in between are orphans which may be termed, "No man's land." The courts must have a corporate body adopt these threads of land. At present some vandals could build a fence in Church street and keep people away from the synagogue and where is the law to prosecute? Novesta township can make these matters straight, and should see about it today.

We are getting some summer now. Little Bernice Gage is gaining slowly at this writing.

Mrs. Louisa Chard, who has spent the past three weeks with friends and relatives in Marlette and vicinity, returned to her home here Sunday evening.

Mr. and Mrs. E. Radschel spent Sunday in Snover.  
I. A. McKinney and daughter, Helen, spent Saturday here.  
Miss Olive Cook takes quite a merry drive these days. She has taken a school five miles south of Marlette and makes the trip regularly every morning in her limousine to her home one mile north of Decker. We admire Olive for her pluck and may prosperity be hers for the future.

**Dried Mummies as Medicine.**  
Animal products were much used in medicine from the sixteenth to the eighteenth century. Dried mummy was a favorite remedy. The importation of mummy was an industry of some commercial importance and several writers of that day caution against the use of spurious mummy, giving directions as to what distinguishes the good from the poor product. There was much substitution, and one dealer was found to have done an extensive trade in bodies dried in imitation of the genuine article.—National Geographic Society Bulletin.

**Absurd Old English Law.**  
Under the English common law no one has a right to bathe in the sea. This was decided by the courts a hundred years ago, and an attack on the decision at the beginning of this century failed to upset it, the higher court deciding that in the strict legal sense one could fish in the sea but could not bathe in it.

**The Water's Fine!**

The water's fine for a number of things—but it's especially fine for transporting farm produce. Since the invention of the steam locomotive water routes haven't been of much use except for swimming. But they are coming back into style, says

**The COUNTRY GENTLEMAN**

The freight-rate increases did it. They made it necessary for many farm areas to find new markets or else cheaper rates to the old. Next week's issue tells the story.

Not only are water highways being opened up, not only is ocean shipping supplanting a great deal of the transcontinental hauling, but the agricultural map of the whole country is being changed. A lot of the produce that used to be brought into this very town from distant centers of production will now have to be grown right here or nearer home.

There's only one farm weekly that can tell you about this situation, because there's only one farm weekly national in its vision. THE COUNTRY GENTLEMAN will keep you in touch with every national farm happening that affects us locally, and it will do it for a whole year—52 issues—for One Dollar. Of course I'll accept your check!
