TRACK HONORS TO CASS CITY

LOCAL SCHOOL TAKE 40 PER CENT OF TOTAL NUMBER OF POINTS.

Vassar High School Wins Base Ball Game from Cass City High, 17-14.

For the sixth consecutive year, Cass City schools won highest honors in the track and field events of the Tuscola County Athletic Association's meet which was held at Caro Friday. Points won by Cass City athletes totalled 43%. Vassar came second with 27, Caro third with 15%, Reese fourth with 12 and Millington fifth with 10 points.

Though set back a yard at the start, Smith of Cass City led strong in the 440-yard run. Goodall, another local athlete, led the contestants in the mile and finished 100 feet ahead of his nearest competitor.

Seed had no trouble in taking the pole vault for Cass City and Brown took the high jump as easily for the local school. Both these men met with little competition in the broad jump event.

Eastham of Caro captured first place easily in the shot put by a 6-foot margin and Smith of the same school took the 1/2 mile run by a good lead.

Wright of Millington was crowded in the 100-yard dash, but he won first place in the 220-yard run by a good margin.

Van Petten of Reese had 10 feet the better over his nearest competitor in the discus event.

Donald Seed of Cass City was the highest individual point winner at the Continued on page eight.

SANILAC FARMERS TO MOTOR TO LANSING

Complete Plans to Spend June 22 and 23 at Michigan Agricultural College.

The Sanilac County Farm Bureau has completed plans for an automobile tour to Lansing to visit the headquarters of the Michigan State Farm Bureau and spend a day at the Michigan Agricultural College. The trip is being arranged with the idea of showing to the farmers just what sort of institutions they have been building. The opportunity is open and is well worth any one's time to join the bunch and see the sights.

The plan is to leave Marlette about noon on Tuesday, June 21, and to arrive at Lansing between six and eight o'clock.

The following additional program will be carried out on Wednesday, June 22:

Visit the offices of the Michigan State Farm Bureau.

Basket dinner at College (take it with you).

Address of welcome, President Frank Kedzie.

"The Farmer's Viewpoint," Dean R. S. Shaw.

"The Industrial Depression and the Outlook," Prof. David Friday.

Sports and athletics.

Seeing Michigan Agricultural College barns.

Evening program.

On Thursday, June 23, the program is:

"Co-operation in Agriculture," Hale Tennant.

Afternoon program.

Evening program.

Tourists can stay for as much of the program as they desire to hear. If possible it would well pay anyone to hear it all. This is an exceptional opportunity, say officers of the Sanilac Farm Bureau, and a good crowd is expected on the trip.

TUSCOLA LEAGUE GAMES.

Next week's games in the Tuscola Co. League are as follows:

Sunday, June 19, Caro at Fostoria.

Monday, June 20, Caro at Unionville.

Tuesday, June 21, Cass City at Fairgrove.

Thursday, June 23, Caro at Akron.

Friday, June 24, Fostoria at Cass City.

IMLAY CITY VOTES NEW SCHOOL BUILDING

At a special meeting of the voters of the school district at Imlay City held last Thursday evening to consider bonding the district for the sum of \$125,000 to build a new school building, the proposition was carried, there being 121 ballots in favor to 32 against.

PROMINENT BUSINESS MAN OF THUMB DIES

William J. Orr, a prominent figure in business circles in the Thumb, a widely known banker and an important figure in the United States food administration during the war, died at his home in Saginaw Sunday afternoon.

As a partner of W. H. Wallace in the Wallace & Orr Co. of Bay Port, Mr. Orr was one of the leaders in the development of the Thumb district and assisted in the development of fisheries besides assisting in the installation of banks and elevators throughout this territory, but it was through his connection in the bean business that he was best known. A widow and five children survive him.

LETTER CARRIERS IN CONVENTION HERE

VISIT GRAVEL PLANT AND CONDENSARY AND ENJOY BANQUET.

Gordon C. Knowles Elected President and John C. Corkins Chosen Secretary.

The rural letter carriers of Tuscola and Sanilac counties met in a convention here on Saturday. The afternoon was spent in viewing the Cass City Sand & Gravel Co.'s plant south of the city which proved very interesting to the party. Through the courtesy of Manager Mann, the condensary was thrown open to the carriers, who enjoyed his hospitality and wish to thank him for his time spent in showing them through the plant.

At seven o'clock the party was taken to the M. E. church where a banquet was served by the wives of our home carriers. A program full of pep followed the supper with John C. Corkins acting as chairman.

John C. Farrell welcomed the carriers in his usual pleasing manner and Miss Belva Tibbals gave a reading. The address by Rev. W. W. Edwards of the Presbyterian church, who gave as his topic "Sense and Nonsense," was handled in a likely manner, and left many points for thought. After this Mr. Knowles of Caro, president of the association, was called on for a few remarks. This was followed by a reading by Burt Maxwell, carrier No. 7 of Vassar, who has no little note as a humorous reader. He responded to an encore.

This closed the program and the carriers were called to order for a business session. Offices for the coming year were elected. G. C. Knowles of Caro was chosen to succeed himself as president and J. C. Corkins was elected secretary and Mr. Cameron of Deckerville, treasurer. J. C. Corkins was chosen to represent the association at the state letter carriers convention held at Lansing Aug. 9-10. Noted speakers from Washington, D. C. appear on this program.

Other business of interest to the carriers was brought up after which the meeting adjourned to meet at Caro on Labor Day, Sept. 5th. Huron county's association was well represented by a lively bunch of carriers who were invited as guests of the Tuscola and Sanilac association. Music for the evening was furnished by an outside stringed orchestra.

BROADWAY SHOWS TO EXHIBIT AT CASS CITY FAIR

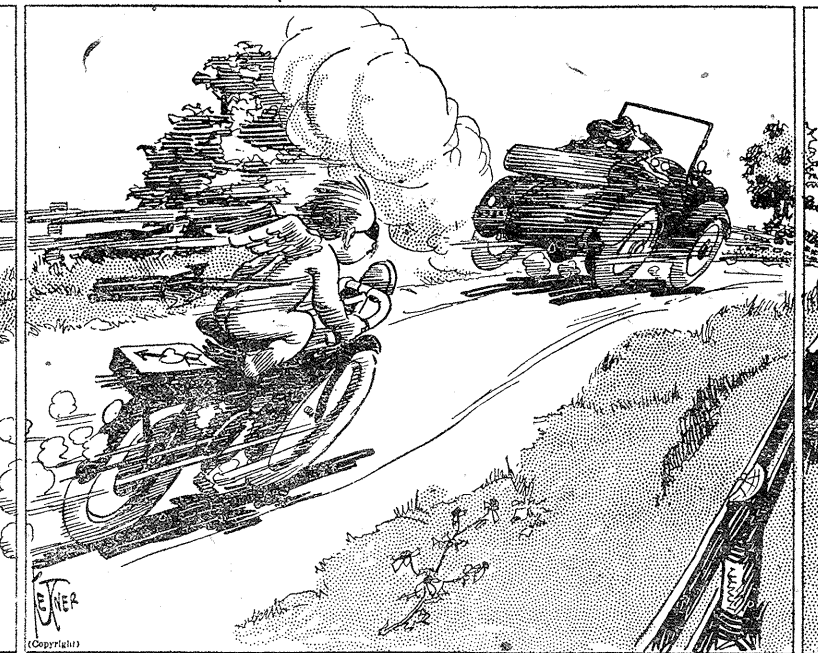

Twenty Feature Midway Attractions of Merit and Seven Riding Devices.

It is with pleasure that H. T. Crandell, secretary of the fair, announces the engagement of Billie Clark's Famous Broadway Shows to furnish the midway attractions at the Cass City Fair in August. It was only after the careful inspection of more than a dozen big travelling expositions that the fair management decided upon the Broadway Shows as the best suited to furnish fair patrons with entertainment of the highest order of merit.

Twenty feature midway attractions of real merit and seven modern riding devices will grace the Clark midway and from all advance reports the Broadway Shows this season conclusively prove the report that owner Billie Clark has outdone himself in making his 1921 offering a notable one.

Thirty railroad cars are required to transport the Broadway Shows this season and among showmen the train is known as the "closest loaded train in show business." Every inch of space on the show train is utilized in loading some joy-making device. A veritable trainload of pleasure.

The Motor Cop

WOOD-KITCHIN NUPTIALS.

A special dinner was served at the home of Mr. and Mrs. Albert Kitchin on June 14, in honor of Mr. Walter Wood of Snover and Mrs. Martha Kitchin of Evergreen. After dinner, Mr. Wood and Mrs. Kitchin, attended by Mr. and Mrs. Jason Kitchin, motored to Decker where the former couple were quietly married by Elder D. Schultz.

The bride's dress was of navy blue satin-striped voile. She wore a corsage of pink and white roses. The groom was dressed in brown.

The happy pair went on a short tour to visit relatives in Crosswell, Lexington, Deckerville, Wheatland and other points after which they will reside on the groom's farm near Snover. Their many friends join in giving them best wishes for the future.

STATE SPENDS NEARLY 8 MILLION ON ROADS

SINCE 1919, THE CONTRACTS LET HAVE AMOUNTED TO SUM OF \$12,919,719.49.

Routes Authorized by Legislature Vary in Length from 428 Miles to 15.

Since 1919 when the constitutional amendment allowing the state highway commission to issue bonds to the extent of \$50,000,000, went into effect, \$12,919,719.49 in contracts have been let by the commission. Of this amount \$4,120,602 in 53 contracts have been let since March 1, 1921 to be built in 35 counties. Michigan state highways have cost to date \$7,961,000.

The last session of the legislature authorized four new state highways varying in length from 428 miles to 15. The longest of these is the Colgrove road, running diagonally across the state from the state line in St. Joseph county, through Kalamazoo, Stanton, St. Charles, Saginaw across Tuscola county to Port Sanilac and to the east coast.

Other roads voted for were: a 50-mile route from Remus north to a highway running through Missaukee county; 32 miles between Paw Paw and Allegan; and 15-mile road running from Monroe south to the Ohio state line. The latter stretch is designed to relieve traffic on the Dixie highway between Detroit and Toledo.

If state trunk line highways are approved by the federal highway board, the federal government pays 50 per cent of the construction. Counties through which the highways run are assessed from five to 25 per cent of the cost.

FORMER CITIZEN HONORED BY MICHIGAN MASONS

C. W. McKenzie in Line for the Highest Office in State Order.

Clark W. McKenzie of Kalamazoo, who was elected deputy grand master of the Michigan Grand Lodge, Free and Accepted Masons, at the annual state convention, will next year be advanced to the position of grand master, the highest office in the state order. With this office reached, Mr. McKenzie will have run the course of grand lodge offices and will probably be advanced to higher circles in national Masonic work.

The advancement to the office of deputy grand master is a big one and an honor which comes to only those who work incessantly and faithfully

in the Masonic lodges. Mr. McKenzie entered grand lodge circles about five years ago, taking first the lowest office, that of grand marshal.

Mr. McKenzie was made a Mason in Tyler Lodge at Cass City on Feb. 7, 1903. He progressed from one office to another in the local lodge and before many years was elected to the position of Worshipful Master. At that time, he held the distinction of being the youngest master of a lodge in the state.

RUBY MARSHALL SECOND IN STATE ORATORICAL CONTEST

Local H. S. Student Enabled to Win Honor through Public Speaking Department.

Cass City high school was again honored when Miss Ruby Marshall, a member of the Class of 1921, won second place in the state oratorical at Howell. Miss Marshall's oration was entitled "Armenia and the Near East Relief." Geo. Howe of Howell, who won the first honors of the contest, took the subject, "The Task of the Present Generation."

From the judges on thought and composition, Miss Marshall was awarded two firsts and a fourth, while Mr. Howe was given one first, a second and a third. On delivery, Miss Marshall won one first, a fourth and a fifth, and Mr. Howe received two firsts and a third. This made a total of sixteen points for the Cass City representative and only eleven for the Howell man.

It was through the public speaking department that Miss Marshall was enabled to bring honors to herself, her school and her community. This department has been in our school only a year, but during that time it has done admirable work in training the young people along a line that is necessary and which has hitherto been utterly neglected.

HOSEA BURTON CELEBRATES HIS 90TH BIRTHDAY

Walked to Huron County from New York When He Was 20 Years of Age.

Thirty-six children, grandchildren and great grandchildren surprised Hosea Burton of Owendale on his 90th birthday on Saturday, June 11.

Mr. Burton was among the first settlers in this part of Michigan, walking here from New York when he was 20 years old. He stayed two years and walked back, returning in four years to homestead a quarter section in what he named afterwards Brookfield township after Brookfield, N. Y., his home. He carried his eatables from Centerville, Tuscola county, now called Caro. He lived and improved his homestead for 50 years.

In 1857, he married Lovina S. Moe. Mr. Burton not only worked against the adversities of an early settler but in the year of 1880 lost his wife and three small children inside of four months.

In 1882 he married Mrs. Ann Burton and in doing so cared for his own children and those of a brother who had died and left his family behind. To this union Chauncey Burton was born.

In 1897, he lost another daughter, Ada Burton, leaving Mrs. Roetta Demerost of Brush Prairie, Wash., Devillo and Albert Burton of Gagetown and Chauncey Burton of Ubyly.

The stories Mr. Burton tells of an early settler makes his friends feel thankful that at least a few are privileged to see and enjoy a few of the vast improvements they are responsible for.

ODD FELLOW MEMORIAL SERVICE SUNDAY MORNING

Member of Cass City Lodge, I. O. O. F., and of Venus Rebekah Lodge will gather at the Odd Fellow hall at 10:00 a. m. Sunday and march to the Presbyterian church where Rev. W. W. Edwards will preach the memorial sermon. Following this service, both lodges will go to Elkland cemetery by automobile where the graves of departed members of the fraternities will be decorated with flowers.

CROP OUTLOOK NOT SO BRIGHT

DRY PERIOD IN MAY CAUSED CROP CONDITION TO DECLINE.

Apple and Other Fruit Crops Appear Best in the Northern Districts.

From an outlook that was considerably above the average on May 1, the condition of all crops has materially declined. A dry period of weather during the first three weeks of May is the chief factor in this change. With the exception of wheat, rye and alfalfa, all of the leading crops are below the prevailing condition in the United States and below the ten-year average for Michigan. Rains during the Continued on page eight.

MARLETTE VOTES TO BAR SUNDAY MOVIES

By a vote of 270 to 70, at a special election held the first of the week, Marlette citizens decided to bar Sunday movies. Harry Hobolth, proprietor of Marlette's movie theater, has been giving one show every Sunday night that began after the evening church services were concluded. When opposition grew strong, Hobolth suggested a popular referendum and agreed to abide by the decision.

SANILAC CO. FARM BUREAU ELECTS OFFICERS

Second Annual Meeting Attended by 60 Delegates at Sandusky on Thursday.

Election of officers and general business featured the second annual session of the Sanilac County Farm Bureau at Sandusky Thursday, June 9. Sixty of the 63 delegates were in attendance and the meeting was enthusiastic throughout.

Charles Martin of Melvin was unanimously elected to succeed himself as president of the bureau. Dave Knight of Marlette was elected vice president. John Goodwine of Marlette, Phil O'Connell of McGregor and Ezra Taylor of Crosswell were elected to the board of directors. John McLellan of New Greenleaf was elected to fill the vacancy caused by the resignation of John Hamilton of Decker.

Several resolutions concerning action on the state income tax law and the national income tax, the Tinscher bill and others were passed.

Dr. Mumford, county agent leader, gave an extended talk on the problems which faced the farmer in his new marketing plan. He stated that in order to make the plan work, farmers must do it more efficiently than any of the old line organizations, and that the Bureau must have the full co-operation of farmers until that point can be reached.

There had been much discussion the past year about the policy of the county farm bureau. This matter was taken up with the delegates and the farmers were almost unanimously in favor that the Sanilac County Farm Bureau should follow the Michigan Agricultural extension plan with the main emphasis placed on the marketing problems. From now on, the work done by the county will be purely educational and no business whatever will be put through the office.

"LET US NOT DROWSE IN THE WATCH TOWER"

From American Lumberman:

"Let us not drowse in the watch tower" is the advice of Sir Auckland Geddes, British Ambassador to the United States, adding, "it is drowsiness in the watch tower which is responsible for war."

Here is a whole sermon in a few words, applicable to the business situation, as well as to our world relations. There never was a time in our history when the need for alertness, watchfulness and aggressive action on the part of business men was greater than now. The business man who is drowsing in the watch tower is the one who is complaining of hard times, slow business, lack of demand and who cuts his advertising and other sales expense down to a minimum and waits for business to get better. While he drowns the enemy in the shape of lethargy, dry rot, financial difficulties, etc., creeps upon him.

The concern that is alert and awake on the watch tower, that is sending its scouts into every nook and corner stirring up business hitherto overlooked and that is sounding the tocsin of publicity, keeping the army of potential buyers awake to the fact that it is still doing business and wants to cater to their needs, is the concern that is getting business even in these dull times and is occupying a strategic position to take advantage of the better times when they appear.

"Let us not drowse in the watch tower," let us remember that "1921 will reward fighters" and as we gird our loins and go out after business, strenuously, actively, intelligently, we may agree with Herbert Hoover in the statement that "if the country only realized one per cent. of what is going on, and that the clock has not stopped, it would not have anything like the gloom that it has got."

CROSSROADS OF MANHOOD.

Young men budding into manhood should remember that it is just as easy to go straight as it is to be crooked. There is everything to gain by going straight and everything to lose by being crooked.

Parental influence has its effect, but a youth approaching the crossroads of manhood makes his own choice as he enters the great maelstrom of life. He has reached the age of self-determination and is resentful of interference with his desires.

At this age it is well for him to remember that the man who is successful and honored today is the one who chose the straight path and denied himself the fictitious indulgences of youth, while the one who is without honor and without fortune followed the gilded will-o'-the-wisp to the destruction of his manhood and of his hopes.

There is no middle of the road course.—EX.

Bringing Out Desirable Characteristics by Selective Breeding Receives More Attention.

(Prepared by the United States Department of Agriculture.)

The task of raising the standard of farm animals and poultry and bringing out certain desirable characteristics by selective breeding is receiving more attention as methods of farming for profit become intensified.

The breeding of domestic animals dates back to remote antiquity, when

Interest the Boy in Better Stock.

The most advanced races of the Old World were on the border line between savagery and barbarism. It far antedates any but the simplest mechanical arts. Yet, while our knowledge of the laws of nature as they apply to machines has reached great magnitude and complexity, it has been comparatively a few years since the principles of breeding have been more than a collection of unrelated traditional beliefs. The same superstitions on which the shepherds of Asia based their practices at least 80 centuries ago are still widely current, while the one sound principle known to the ancients—selection of the best for breeding stock—is still much neglected.

The principles of successful animal breeding, as they have been learned by practical experience in the United States and other countries, and by careful scientific study along definite lines, are outlined in Bulletin 905, recently issued by the United States Department of Agriculture.

This bulletin goes into the first principles of reproduction and follows with the means by which certain characteristics of one or the other parent are transmitted to the offspring, the methods of selection best suited to intensify the desirable characteristics and weed out the undesirable, the characteristics which can with certainty be expected to continue from one generation to another, those which are uncertain and those which cannot be inherited.

Aside from mere increase in numbers, the purposes which the breeder is likely to have in mind fall under two more or less distinct heads, namely, production of a uniform product, and improvement. A uniform product depends on such control over the heredity of the stock that matings can be made with the assurance that the offspring will be of a certain definite type for which there is a demand. Improvement is, of course, closely related to control over heredity, but the methods which give the greatest control are not necessarily those which lead to the most rapid improvement.

In a broad sense the whole subject of practical breeding comes under the head of selection. The most obvious basis for such selection is the performance of the animals themselves. Unfortunately, the merits of most kinds of live stock cannot be measured directly. The study of conformation as an index of useful qualities has accordingly held a high place as a basis for selection of breeding stock. Live stock judging has this for its purpose. An animal of good breeding is a better one to breed than one of equal individual merit but of mixed or common breeding. Pedigree, though often misused, is a valuable aid to selection, apart from following a general policy of mating. The soundest basis of all for selection of breeding stock is the record of past performance as a breeder, provided the record is sufficiently extensive to give a fair test.

MANY COWS NOT PROFITABLE

Ten Million "Boarders" in United States Whose Yield is Less Than Cost of Feed.

Not over a third of the so-called dairy cows of the United States are profitable to their owners. Ten million "boarder" cows are milked whose yield is worth less than their feed. Their owners seem to keep them for the sole purpose of milking them fourteen times a week, cleaning out after them, and otherwise enjoying their society.

SALT IS HIGHLY IMPORTANT

Cows When Deprived of It Become Emaciated and Finally Suffer Complete Breakdown.

Dr. Babcock, of Wisconsin, found that cows when deprived of salt became emaciated and were of low vitality and finally suffered a complete breakdown. He recommended that they be fed three-fourths of an ounce per day with an additional six-tenths of an ounce for each twenty pounds of milk produced.

Black Cap's Significance. The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

The Scrap Book

GOT A LITTLE TOO PERSONAL

Irreverent Interruption That Caused Woman Lecturer to Make Abrupt Change of Subject.

A woman of ample proportions was giving a lecture on the human form divine. Her manner was of the type familiarly known as "high-brow;" it was, in fact, irritatingly supercilious and lofty.

"For example," said she, "twice round my thumb"

—she held it up—"once round my wrist; twice round my wrist, once round my neck; twice round my neck, once round my waist."

Here she paused, and a shrill voice from the audience exclaimed:

"Twice round your waist, once round Hyde park!"

The lecturer hastily passed on to another branch of the subject.—London Tit-Bits.

PLAYING-CARDS FRENCH IDEA

Invented to Amuse Melancholy Monarch—What the Suits Were Intended to Represent.

Playing-cards were invented about the year 1390, in order to amuse Charles VI, then king of France, who was subject to fits of melancholy.

The inventor proposed to represent the four classes of men in the kingdom. The clergy were represented by hearts, for which reason the Spaniards—used, instead of a heart, a copa or chalice.

The nobility and military were represented by the points of spears, and the Anglo-Saxon ignorance of the meaning of the figure led to them being called "spades."

Diamonds stood for citizens, merchants and tradespeople, not because of their connection with the precious stones, but because the carreaux, the red marks that appear upon the cards, were intended to represent the square stone tiles of which the houses of the middle class were built.

The figure we call a "club" was originally a clover-leaf, and alluded to peasants and farmers. Spanish cards bear a stave or basto in lieu of the French clover-leaf, and it is probably because of this that we refer to the suit as "clubs."

IT HAPPENED IN CASS CITY

And Is Happening to Cass City People Every Week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

J. W. Murphy, retired stock man, West St., Cass City, says: "When my kidneys were weak it always affected my back and made it weak. Doan's Kidney Pills always gave me quick relief at such times. My back pained me so much that I couldn't stoop over and at those times, it was agony to move at all, because of the sharp pains that shot across my kidneys. Mornings when I got up, I felt played out, just miserable and without much ambition. The kidney secretions burned terribly and passed frequently. Blinding dizzy spells would come over me and things would whirl around before my eyes. However, Doan's Kidney Pills always came to my relief. They relieved the painful backache and put my kidneys in good shape. They took away the dizzy spells and other troubles, too."

Mrs. Geo. W. Smith expects to leave next Thursday for Alliance, Alta., where she will spend the summer with her sister, Mrs. Chas. Kennedy.

Mrs. H. E. Haynes and daughter, Martha, of New York City came last Thursday to spend a few days at the home of Mrs. Edward Pinney.

George Finkle and daughter, Maud, and Miss Pearl Welsh of Owendale went to Detroit last Thursday. Mrs. Richard Case returned with them.

Miss Laura Striffler, who has been employed in the Yale school, has returned here to spend the summer vacation with her parents, Mr. and Mrs. J. H. Striffler.

A number of Cass City people attended the base ball game at Bad Axe Monday between Detroit Western high school, of which Clifford Gracey is coach, and Bad Axe high school team. The result was 3-8 in favor of the visitors.

Announcements have been received here of the marriage of A. Burton Mead, a former Cass City young man, to Miss Mildred Eleanor Wilkinson at Jackson on June 14. They will make their home in Dickinson, N. D., where Mr. Mead is engaged in the automobile business.

Announcements have been received of the marriage of Miss Kathryn, daughter of Mr. and Mrs. Alexander Modrey, of Pontiac to Mr. Geo. R. Johnson on Sunday, June 12. The Modrey family were residents of Cass City until about three years ago when they moved to Pontiac.

On June 1, Willard W. Nash of St. Charles became associated with the law firm of Crane & Crane with offices at Nos. 7, 8 and 9 Merrill Bldg., Saginaw. Mr. Nash has had 16 years of experience as an attorney and received his education in the public schools at Cass City, afterwards attending Ferris Institute, Lake Forest College, the John Marshall Law school and the University of Michigan, graduating from the latter in the law class of 1905. Mr. Nash was a member of the Legislature in 1913 and is the son of Mr. and Mrs. F. J. Nash, sr., of Cass City. The firm of Crane & Crane with which he has become affiliated was established by the late Wm. E. Crane in 1881.

Dwight Goodrich of Flint spent Sunday at the Harry Young home.

Mrs. Goodrich, who has been visiting here, returned with him to Flint.

Chas. Whale was taken suddenly ill the first of the week and his condition became so serious yesterday morning that he was taken to the local hospital for an operation. The operation revealed a tumor on the kidney which was removed. Mr. Whale is a junior and he was placed on the program as toastmaster at the senior-junior banquet next Monday evening.

OBITUARY.

Earl Wm. Andrews.

Earl Wm. Andrews was born Nov. 8, 1892, near Rochester, Mich., and moved to Owendale with his parents at the age of two and one-half years. Here he grew to manhood. He entered the service of his country in the first draft on Sept. 20, 1917, and was stationed at Battle Creek and promoted to corporal. In March, he was transferred to Camp Green, North Carolina, Co. C, 47 Inf., where he was speedily prepared for overseas. He sailed for France May 1, 1918. His company was soon pushed into service to stop the German drive for Paris. He was killed in action Aug. 10, 1918, on the Nesle River, France. In a letter of condolence from his commander, he praised his ability as a soldier and said he had helped to make a name for their company that they were all proud of. His remains arrived at Owendale Friday, June 10, 1921, and were buried in Williams cemetery Saturday afternoon. He left to mourn his loss, father, mother, two sisters, Mrs. Joe Young and Mrs. James Gimmel, and one brother, Jay Andrews, all residing near Owendale, also many friends and comrades. Earl was well liked by all who knew him, and his death cast a gloom over the neighborhood. The bereaved friends have the sympathy of all in their sorrow.

How to Freshen Gilt Frames.

Gilt frames may be revived by carefully dusting them, and then washing them with one ounce of soda beaten up with the whites of eggs. Castile soap and water, with proper care, may be used to clean oil paintings. Other methods could not be employed without some skill.

Why They Are Immune.

Brown—Stout people, they say, are rarely guilty of meanness or crime. Robinson—Well, you see, it's so difficult for them to stoop to anything so low.

FAIRY AND GALAGO.

"As the Galago had asked the fairy to come and call again some evening," commenced Daddy, "the fairy thought she would accept the invitation, so one evening she went out to call on him.

"You know the fairy was in a far-off land finding out about queer and interesting creatures so she could tell the Fairy Queen, and so that then the Fairy Queen could whisper some of these things to me.

"The fairy had been in East Africa and she had called once on the Galago. She had found him ready to talk at night, and he had told her that was the time he was always awake and interested in things.

"In the day time, he had said, he hadn't cared to talk to anyone for the night time was his day time we would have said.

"You remember that the Galago had a body much like a little fox and with hands, or paws, or arms, or whatever you want to call them, that looked like hands.

"He had told the fairy that he ate insects and little snakes mostly and that he thought those kinds of foods were delicious, quite delicious.

"The fairy had also seen that he was about the size of a rat and she had quite a good, clear description of him to tell to the Fairy Queen.

"She had already sent word to the Fairy Queen what the Galago was like and had said that he had invited her to call again.

"She had said she found him quite an interesting fellow, with his big, wide-awake, keen eyes and she had thought she would like to pay him another call.

"The Fairy Queen had sent her word that she should call again by all means when the little animal had been so polite to her.

"So one evening the fairy went forth again to call on the Galago.

"Hello," said the Galago. "Glad to see you again."

"You're most polite," said the fairy. "And I should think you would feel sleepy."

"Gracious no," said the Galago. "I told you I didn't feel sleepy at night, didn't I?"

"Yes," said the fairy, "you did. But then your eyes look so big and some-

times when eyes are so big they seem to be wide awake by force.

"Not the way with mine," said the Galago.

"I sent back word to the children and told them what you were like," said the fairy.

"How did you do that?" asked the Galago.

"By way of the Fairy Queen."

"How interesting," said the Galago. "Pray, tell me more about the Fairy Queen."

"So the fairy told the Galago more about the Fairy Queen for she felt that on her first visit she had asked so many questions, that it might be polite for her to answer some of the Galago's questions this time.

"And he asked ever so many, all about the fairyland balls, and all sorts of fairyland happenings. He was interested, too, to hear of the things they all did for the children.

"I'll tell you what you can do," he said, after he had heard the fairy's story of fairyland. It was only part of the great, long story she could have told, but she had talked almost all night to the Galago and as it was almost morning he was becoming sleepy.

"What?" she asked.

"You can tell them something more about me, if you think they will be interested."

"I am sure they will be," said the fairy.

"Then you can tell them that I am of the same old, old family as the monkey."

"That is interesting," said the fairy. "Of course, I'm not as fine as a monkey," said the Galago modestly, "but it's nice to come from the same old family as the monkeys did."

"I'll be glad to tell them that," said the fairy, "and I'm much obliged to you for telling me."

Plenty of Coal in the Earth.

Under the caption, "France Has Coal for the Next Two Hundred Years," a writer in Je Sais Tout scouts the idea that the world is facing a coalless age. He contends that, for the time being, it is merely a question of manual labor and transportation.

There are at present about eight trillion tons of coal in the known mines of the earth.

CONDITIONS IMPROVING.

The leading banks of the country report an improved condition, but no boom evidences.

The Federal Reserve bank of Chicago says: "General improvement in the financial situation points to a gradual stabilization of business conditions. Business is going through a process of 'backing and filling' as a result of the effort to liquidate stocks purchased at higher prices and to replenish at the new market level lines of merchandise as they are exhausted."

The National City bank of Chicago says: "The country is doing a conservative business with its buying power much restricted. In the west there has been a moderate gain, but the volume is not impressive, judged by the records for this season in other years. However, the cost of doing business is declining and the price structure is materially sounder than it was a year ago, or even six months ago. This is an important achievement and shows that orderly deflation

is eliminating many of the evils from which the country suffered so seriously during the inflation period."

THREE JUDGES SAY CIGARETTES CAUSE BOYS TO GO WRONG

Opinions of three Michigan judges that cigarette smoking among boys leads directly to crime have been published in pamphlet by the board of temperance, prohibition and public morals of the Methodist Episcopal church. The opinions were submitted in answer to a questionnaire of "Cigarette Smoking and Juvenile Crime." Judge Montgomery Webster, of Ionia, said: "Cigarette smoking is one of the greatest evils with which those working with juveniles have to contend." Judge L. B. McArthur, of Mason, says: "There is something about this habit which seems to go along with juvenile delinquency but just what the connection is, I am not quite certain." He considers it the cause of a very large amount of petty stealing. Judge Henry S. Hulbert, of Detroit, gives a general observation after twelve years of service that cigarette smoking is a direct contributor to truancy because of its effect upon a young boy's school work.

NEW SCHOOL LAW TO FILL NORMALS

Parochial Teachers Anxious to Qualify Ahead of Requirement of New Law.

While the state will not take over the supervision of the courses of study in the parochial schools of the state until August and teachers in these schools are not required to conform with the state's requirements for teachers for a period of two years, the schools already are making plans to come under the law. State normal schools are receiving a large number of applications from parochial school teachers for admittance to the summer courses and, according to Thomas E. Johnson, state superintendent of public instruction, the schools will be crowded this summer. A number of parochial school teachers also have sent in inquiries as to the date of teachers' examinations and indications are that by fall at least 50 per cent of the parochial school teachers will have qualified.

MICHIGAN PRINTERS TO MEET AT PORT HURON

The annual meeting of the Michigan Typothetae Federation which is made up of the allied printing organizations of the state, will hold their annual convention at Gratiot Inn, Pt. Huron, on June 23, 24 and 25.

The publishers and printers will have exclusive access to Gratiot Inn for the three days and every printer and publisher in the State of Michigan is urged to attend this meeting. Gratiot Inn is one of the finest summer resort hotels in the state and this will be the first time in the history of Michigan newspaperdom where all the activities of the state convention have been conducted under one roof.

DEPARTMENT STORE AT HARBOR BEACH BURNED

Fire of unknown origin totally destroyed the department store and stock of Leszczynski & Co. at Harbor Beach early Wednesday morning with loss estimated at \$75,000. The two-story brick building was a smoldering ruin within an hour after the first alarm of fire had been sounded. Only partial insurance was carried.

Mr. and Mrs. E. S. Simmons visited their daughter-in-law, Mrs. W. Simmons, at Bad Axe hospital Sunday.

Mrs. Enos Simmons, who for many years has been partially deaf, is enjoying a Port-o-phone. By the use of this wonderful invention she is able to hear the conversation of people carried on in the room. She especially enjoys the church service.

Mr. and Mrs. Robt. Paul of Caro spent Sunday with Mrs. Conley, who is in poor health.

Miss Lucile Terbush, who has been so long ill, is able to sit up each day for a few minutes.

Clinton Bolton of Caro is helping his father, R. Bolton.

Mr. and Mrs. Wm. Howell and family of Owendale spent Sunday with Mr. and Mrs. A. Sting.

St. Agatha's school is nearing its closing. The Dominican Sisters are preparing an excellent program which will be a treat for all this week Friday at St. Agatha's Hall.

Harry Terbush is recovering from tonsillitis.

Commencement week will be celebrated by the Gagetown public school June 19 to 23 inclusive. Rev. W. W. Edwards of Cass City has been invited to preach the baccalaureate sermon on Sunday evening, June 19, at the M. E. church. Tuesday evening the Junior class will entertain the members of the graduating class, the parents of both classes, the members of the Board of Education, faculty and pastors of the churches at a banquet which will be served by the ladies of the M. E. church. Ray K. Immel, head of the department of Public Speaking of the University of Michigan will deliver the commencement address on Thursday evening, June 23, at eight o'clock in St. Agatha's Hall. His subject is "Eldorado." The officers of the graduating class are: President and valedictorian, Elsie Munro; vice president and historian, Cora Clara; secretary, treasurer and salutatory, Olive McDonald. The alumni banquet will be held Friday evening, June 24, at the M. E. church. This will end the school festivities for the season.

Pure air, strawberries and cream, light exercise.

Wm. Courliss has moved onto the Roberts farm near the schoolhouse. He seems to be improving in health.

The writer found potato bugs on the plant when it came through the soil; knew the beetles were eating. Wisecracks smiled at idea of poison for the old bug, said the old bug doesn't eat the tuber, but we slammed on the liquid just the same. And behold the old bugs fell on the soil feet up. Then we asked "Did the old bug eat the leaf?" And the wisecracks turned away in silence.

Word comes from Pontiac of the marriage of Katherine Modrey to Geo. R. Johnson Sunday, June 12.

Frank Hegler came to town on the 8th driving his young ox team on the double wagon. The sight was a stunner to all small stuff in their "teens." Strange to relate the cattle were not afraid of the autos, but the autos seemed afraid of the bovines.

Members and friends of the M. E. church gave the minister a surprise on the evening of the 8th. In conduct 'twas saying "Twice Welcome" as pastor of our flock.

Elmer and Rolla Bruce raised frame work of barn Wednesday one mile east of here. It will replace the one burned by lightning last summer.

The first frost this spring killed the pears after they were set large as a pea. Stem and all fell. Now the tree blooms again. A few that escaped are as large as the head of a clay pipe. Will have two seasons of pear harvest. First we called many witnesses fearing they would say, "He is full of old wine." Lastly, we hear of many cases.

Frank Terry of Alpena, who now makes his home in Cass City, visits a few days in this locality.

Mr. and Mrs. Guy Woolman of Pt. Huron were callers here on Sunday. Returned same day.

J. W. McCalf and family of Ellington were Saturday evening callers here.

Charles Hayward and sister, Jane, of Kingston were present here this week seeing Samuel Sherk on business.

The mile east of here from schoolhouse to Curtis Corners appears to be entertaining a "hoodoo" as big as "Downey Clidzell's Grue." There has been more ditching and wheel lock hitching of cars on the mile for past year, than any other five in Tuscola county. The jamborees grow more frequent as time moves on. Last Friday a youth ditched a car and Sunday a car attempting to pass another was overturned and the occupants injured. About three weeks ago one of our most careful drivers met with two collisions the same evening. Not more than a month ago an auto went in the ditch in day time without apparent cause.

W. M. Pickell of Traverse City calls us all to take notice that he is handling strawberries June 6th and says 'tis seldom the first week of June finds local fruit on the market. We send it to him like this. Now fruit man Pickle, don't think your news put us in a pickle. Bro. C. J. Malcolm of Deford has been passing out the strawberries ripe and red since May 28.

Bishop Henderson of M. E. persuasion, thinks members of that denomination need spiritual "pep." Hence he moves with singers of beauty from church to church to revive its strength. They gave Deford a call on the 6th.

Our minister's father and mother of Toronto, Ont., are with their son for a time.

When John Walk moved the little building that has stood just west of Croop's store for a generation past—a land mark went its way. The building was erected for a general store by Harry VanTassel of Kingston village in 1884, but Mr. Van did not deliver the goods. It was the first structure built for a store, but not the first store. Fred Osburn moved a building here and sold the first goods. The old building was here and had its name as the Van Tassel building before Deford was christened. It now stands on Deford Heights and has a grade of lumber that would make the builders of today weep. Bro. Walk will use it for a stable.

of this world's goods, compared with fillers of the soil. Robert O. was a close Bible student in his own way but because he dared to think differently from the majority they termed him strange in doctrine. He believed that the seventh day of the week should be kept sacred; in the second advent of the Savior, but was not a member of any church, yet held firmly to Christ's teachings as he was given power to understand the teachings and hoped for happiness beyond this life. He was liberal in alms to those he considered worthy, firm to reject the unappreciable and the indolent, and doing many good deeds that the world did not know because it was not blazoned from the house top. His word was his bond. The world is better because he lived.

He was buried from the M. E. church here June 5, the Methodist minister officiating and followed to Novesta cemetery by the largest concourse of friends and neighbors we have ever seen in this locality. He leaves his aged companion, one brother, and adopted son and a number of grandchildren beside many friends to remember him as he was to them.

OBITUARY.

Robert O. Curtis.

Robert O. Curtis of Novesta township died June 2nd at his home one mile east of Deford. He was one of the first settlers, being a resident of Novesta for more than 50 years.

Deceased was the son of Robert O. and Lovinia Curtis in a family of eight children, named as follows: Sylvester, Bernice, Robert O., Elizabeth, Franklin, Sarah, Philena and Hiram, all of whom have passed on to the better land, except Franklin, who resides at Beulah, Mich. Robert O. was born in Lapeer county, Mich., February 2, 1843, where he lived till 1870. He came then to Tuscola county with his father and mother and were homesteaders in Novesta township. On May 28, 1878, he married Lou V. Cooper and soon settled on the farm where he spent his best manhood and where he breathed the last of mortal breath. To the marriage there was no issue, but he leaves one adopted son. Robert O. and Lou V. Curtis found their pleasures at home and not in looking for far away fields that decoy. Hence in their 43 years of married life, by industry and economy, they gathered considerable

Why We Are Strong for Willard

We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber Batteries.

Large and Expensive Bridge.

Last week the Murray & Fremont Construction Company completed what is said to be the largest and most expensive bridge in the county, in McKinley township. It has a 10 foot span and the cement work alone, Murray's contract, cost \$15,000.00. The steel work is yet to be done at a further cost of \$35,000.00. The state, county and township combine in paying for the job.—Bad Axe Tribune.

Girl of 10 Sets Record.

Edith Trevethan, aged 10, successfully passed the recent eighth grade examinations, thereby setting a record, it is believed, as the youngest child passing these examinations in Sanilac county. She attended the Mills school and both the child and her teacher, Charles Cleland are deserving of much credit for this unusual accomplishment. — Deckerville Recorder.

Injunction Refused.

At Sandusky on Tuesday of this week an injunction was refused by Judge Beach for the removal of Trustee Rogers and Trustee Cawood from the control of the local station. It appears that George F. Gundry, who originally came here to get the farmers of this community to take stock in a service station upon the representation that he could get gasoline in such large quantities and that it could be obtained at such a low price failed to have any capital to do this, and bought gasoline on the open market and had it shipped to the station for one cent per gallon in advance of the price paid by him. The station here paid the bill. When Trustees Rogers and Cawood found out the method of taking this "rake-off" they immediately backed up and bought gasoline in the open market for themselves and made the one cent. Now the Gundry outfit recently incorporated and losing the one cent commission began this suit in the chancery court and asked for a temporary injunction to get possession of this station.—Marlette Leader.

Church Disbands.

After an existence of 59 years, the First Baptist church at Unionville has passed out of existence. For the past eleven years the society has not even had a pastor, and the church building was sold and razed four years ago. But since then the society had continued to transact business. The parsonage has been sold to Mr. and Mrs. H. F. Walker, who have occupied it for 13 years. Organized in 1862 with six members, reorganized in 1868 with five members, it had at the end eleven names on the church books. Roswell Surine is the oldest member of the church, having joined in 1874.

ANNOUNCEMENT

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"Another reduction has been made in the list price of all types of Ford cars and the Ford truck to take effect immediately. The list prices, f. o. b. Detroit, are now as follows:

Table with 4 columns: Car Type, Price, Chassis, Price. Rows include Touring Car (\$415.00), Runabout (370.00), Coupe (695.00), Sedan (760.00), Chassis (345.00), Truck-chassis (495.00), Tractor (625.00).

"The big reductions last fall were made in anticipation of low material costs which we are now getting the benefit of, and this fact together with increased manufacturing efficiency and the unprecedented demand for Ford cars, particularly during the past three months permitting maximum production, have made another price reduction possible immediately.

"Ford business for April and May 1921 was greater by 56,633 cars and trucks than for the same two months in 1920; in fact, the demand has been even greater than the supply, so that our output has been limited, not by unfilled orders but by manufacturing facilities.

"During May we produced 101,424 Ford cars and trucks for sale in the United States alone—the biggest month in the history of our company—and our factories and assembly plants are now working on a 4000 car daily schedule for June.

"The Fordson tractor is still being sold at less than the cost to produce on account of the recent big price reductions, and it is impossible, therefore, to make any further cut in the price of the tractor."

Can you afford to go without a car any longer when Fords are selling at these low prices? There is no reason why you should delay purchasing a Ford car, Ford truck, or Fordson tractor.

We will gladly advise you concerning the delivery of a Fordson tractor or the particular type of car in which you are interested. Just phone us or drop us a card.

meet, securing 11 points to his credit. He was closely followed by Brown of Cass City, Wright of Millington and Van Petten of Reese, who each won 10 points, and Smith of Cass City who is credited with nine.

While honors were more evenly divided among the leading athletes at this meet, it was also noticeable that more schools were successful in winning points in the contests Friday that has been found in the past few years. This is more encouraging to the smaller schools and will undoubtedly influence more entries and more enthusiasm among their athletes.

100 yard dash—1st, Wright of Millington; 2nd, Bradley of Caro; 3rd, Smith, Cass City. Time—10 1-5 seconds.

12 lb. shot—1st Eastham, Caro; 2nd, Van Petten, Reese; 3rd, Maurer, Reese. Distance—40 ft. 6 in.

1/2 mile relay—1st, Vassar; 2nd, Cass City; 3rd, Caro. Time, 1:42 2-5. Cass City's team consisted of McIntyre, Striffler, McConkey and Severance.

Championship Game to Vassar.

Vassar won the county championship in base ball from the Cass City high school Friday by a 17-13 score.

Cass City led their competitors to the sixth inning when Vassar evened up the score, making it 6-6 at the end of this period. In the seventh, Cass City added four more runs while Vassar failed to score. With two men out in the eighth, a bad decision of the field umpire on first proved costly to Cass City. This, together with a shower of rain, a wet ball and a "complication of diseases" which affected several local players, allowed Vassar to round up 11 more runs before they were retired. Cass City "came back" in the ninth with more scores, but the lead which Vassar had secured in the previous inning was too great to overcome.

Table with columns VASSAR, A, B, R, H, O, A, E and rows of player names and statistics.

Cass City School Record. In the 11 years that Cass City has participated in the Tuscola Co. track meets, the local school has won the

meet nine times and tied once for high honors, and in nine of the meets Cass City furnished the highest individual point winner.

In 1907, Cass City secured over half of the total number of points. Leslie Koepfgen led all contestants with 29 points.

In 1908, Cass City and Caro each secured 73 points.

In 1909, R. D. Keating won 21 points for Cass City and the local team took the meet with 97.

In 1910, Clifford Gracey and Alex Miller each won 18 2-3 points for Cass City and the school took the meet with 73 2-3 points.

In 1915, Caro won the meet with 38 points, Cass City following with 37. Everett Higgins of Cass City was highest point winner with 21 1/4.

Cass City won the 1916 meet with 46, of which Ernest Wood secured 15 1/4 points for the local school.

Arthur Walker of Cass City led all contestants with 18 1/4 points in 1917 and the local school won the meet with 73.

In 1918, Cass City was again successful with 77 and Earl Gowen of the local schools led the athletes of the county with 21 1/4.

In 1919, Miller of Vassar was the highest individual point winner. Cass City school won the meet with 58.

In 1920, Jas. K. Brooker of Cass City won highest honors with 30 points and Cass City took the meet with 57.

In 1921, Cass City is successful with 43 1/2 and Donald Seed won greatest number of points of any athlete entered.

RECORDS OF WINNERS IN THREE COUNTIES COMPARED

Tuscola County Records Are Better than Those of Other County Track Meets.

High schools in the three Thumb counties have held their county track meets within the last two weeks and a comparison of records made is interesting. In nearly all events in which Tuscola athletes were entered, they made the best records as will be noticed in the list printed below. This does not necessarily signify that they will be equally successful at the tri-county meet held today as some of the boys from Huron and Sanilac may be capable of bettering their records when they enter the company of stronger competition than they encountered at their county meets. Huron and Sanilac had to contend with heavy tracks on the days their meets were held.

The records: 100-yard dash—Tuscola record, 10 1-5 sec. Sanilac record, 10 4-5. Huron record, 11 1-5.

Putting 12-lb. shot—Tuscola record, 40 ft., 6 in. Sanilac, 36 ft. 5 1/4 in. Huron, 35 ft., 3 1/4 in.

Half mile run—Tuscola record, 2:12 1-5. Sanilac, 2:19 1-5. Huron, 2:54.

Discus throw—Tuscola record, 103 ft., 2 in. Sanilac, 89 ft., 3 in. 220-yard dash—Tuscola record, 23 sec. Huron, 25 sec. Sanilac, no time.

Pole vault—Tuscola record, 8 ft., 9 in. Sanilac, 8 ft., 7 1/2 in. Huron, 8 ft., 4 1/2 in.

Running high jump—Tuscola record, 5 ft., 2 in. Sanilac, 5 ft., 1 in. Huron, 4 ft., 11 in.

440-yard dash—Tuscola record, 55 1-5 sec. Sanilac, 58 1-5. Huron, 64 1/4.

Running broad jump—Sanilac record, 19 ft., 3 in. Tuscola, 18 ft. 9 in. Huron, 18 ft., 2 1/4 in.

120-yard hurdles—Tuscola, 16 sec. Sanilac, 18 2-5.

1/2 mile run—Tuscola, 5:08 1-5. Sanilac, 5:10 2-5. Huron, 6:28.

Half mile relay—Tuscola, 1:42 2-5. Huron, 1:48. Sanilac, 1:49 4-5.

Stand broad jump—Sanilac, 9 ft. 8 1/2 in. Huron, 9 ft., 2 1/4 in.

Base ball throw (girls)—Sanilac, 155 ft., 5 1/2 in. Huron, 145 ft., 1/4 in.

8-pound shot put (girls)—Huron, 29 ft., 9 1/4 in. Sanilac, 26 ft., 11 1/2 in.

CROP OUTLOOK NOT SO BRIGHT

Continued from first page.

closing week broke the drought in many sections and are improving the outlook. The joint Federal and State crop report issued June 9 by Verne H. Church, Agricultural Statistician of the U. S. Bureau of Crop Estimates and Chas. J. DeLand, Secretary of State, also contains a statement of the fruit situation in Michigan.

The wheat crop has lost five points in condition during the last month, although it is still nine per cent above the ten-year average. The forecast is for a crop of 15,514,000 bushels. The condition of fields varies widely in the same locality, some being very poor and others good. The crop has headed early and the straw is relatively short in many sections. The harvest will probably be two weeks earlier than in any recent year. According to the reports of mills and elevators, the amount of wheat marketed by farmers during May was 839,000 bushels, leaving a balance of approximately 1,788,000 bushels still on farms.

There has been a further marked decline in the acreage devoted to spring wheat. The poor yield and quality last year discouraged many from sowing, and the acreage is es-

timated at 29,000 as compared with 48,000 last year. The present condition of 83 per cent forecasts a crop of 433,000 bushels.

A crop of 44,573,000 bushels of oats is indicated by the June 1 condition of 81 per cent. The acreage is one per cent less than last year. Heavy clay soils were very wet at planting time, and some had to be reseeded. Some acreage intended for oats could not be sown until too late, and other crops were substituted. The ground afterwards became very hard, and hot and dry weather aided in lowering the prospects.

Hay suffered the most severely of any crop from drought during May, losing 19 per cent in condition and reducing the prospective crop by approximately 800,000 tons. The present condition of 76 per cent is ten per cent below the ten-year average, and the forecast of production is 3,194,000 tons. It is estimated that there is eight per cent more acreage of clover hay than last year. The dry weather has hastened maturity and it is shorter than usual, some of the driest local areas reporting a height of only four to eight inches. The condition of alfalfa is relatively much better, being 90 per cent, which is equal to the ten-year average. This crop is steadily gaining in popularity and it is estimated that the acreage is eight per cent higher than that of last year.

The condition of pastures is 87 per cent as compared with 94 per cent on May 1, and 91 per cent, the ten-year average. Recent rains are reviving them.

Reports relative to sugar beets indicate a condition of 88 per cent which is the average for that crop on June 1.

The average condition of apples is 52 per cent. In general, the condition is lowest in the southern counties and improves gradually toward the north. It is also somewhat better in the southwestern than in other sections of southern Michigan. The Upper Peninsula reports 95 per cent of a crop; the northwest dist., 70 per cent; the west-central, 64 per cent; and the south-west, 48 per cent. The south-central, east-central and southwest-central counties vary from 30 to 50 per cent.

The present outlook for peaches is 27 per cent of a crop. As is usual where freezing has materially affected the crop, the condition varies widely. Some orchards will produce no fruit, others will have partial crops and in some favored spots a fairly good yield is promised. The north-west district reports 58 per cent of a crop, but the acreage there is relatively small. West-central counties report 52 per cent, and the southwest district, 20 per cent.

The outlook for pears is better than expected earlier in the season, being 45 per cent of a crop. Berrien county, which has more than one-half of the bearing acreage of the state, reports 40 per cent. As in the case of other fruits, the condition improves northward.

There will be but very few cherries in southern Michigan. The Grand Traverse region reports very spotted conditions with an average prospect of a little more than one-half of a crop. The Oceana and Mason County district will have about one-fourth of a crop.

Plums are about 30 per cent of a crop. Strawberries have been improved by the rains and show an average condition of 64 per cent. Blackberries and raspberries give the best promise of all fruits, 89 per cent.

SCHOOL NOTES.

Marian Wallace and Velma Warner, reporters.

First Grade.

Cornelius Wiltzie is visiting in Caro this week.

Second Grade.

We are having review work this week.

A teacher wished to help a little boy say his "r's," so she gave him the following sentence: "Robert gave Richard a rap in the ribs for roasting the rabbit so rare." The little boy said, "Bobbie gave Dickie a hit in the slats for cooking the bunny so little."

Third Grade.

The third grade are busy making a telephone directory in alphabetical form and are having much pleasure in playing telephone. Each one discusses each conversation as to whether it is interesting, whether good English was used, and if their voices are pleasing.

Fourth Grade.

Mrs. J. P. Bullock was a pleasant caller Tuesday afternoon.

We have been enjoying some Swiss music on the Pathe in connection with our language work.

Fifth Grade.

Catherine Newberry is absent this week on account of scarletina.

We finished our flower baskets for drawing this week.

We are doing review work in all the subjects this week.

High School.
