In the Dort you find to a superlative degree both beauty and competency.

It consequently astonishes the average person that Dort prices are so very low.

Only a close corporation with every stockholder active zealous could market so great a value at so little a price.

That the Dort is built by such a company is the leading reason why such a complete, comfortable and wholly satisfactory car can be bought at Dort prices.

which pays you well and offers a good chance for advancement, if you will complete The Business Institute training.

'There is always room at the top", and there is always a place for the thoroughly trained young man or woman in business life.

The Business Institute is by far the largest business school in Michigan, and it is one of the leading schools of the kind in America. It has more well-qualified, capable teachers and a much larger equipment than any other business school in Detroit. It is the only business school in Detroit occupying an entire building. These statements can be readily verified.

The remarkable success of The Business Institute is the result of modern courses of study, thorough instruction, and good positions secured for graduates. The success of The Business Institute is the direct result of the success of Institute graduates.

WORTH OF LIFE INSURANCE HAS BEEN CONTRACTED FOR BY THIS BANK FROM A STANDARD, OLD LINE, MICHIGAN LEGAL RESERVE LIFE INSURANCE COMPANY, WHICH INSURANCE WILL BE USED BY THIS INSTITUTION TO PROTECT ITS SYSTEMATIC DEPOSITORS IN CONNECTION WITH OUR LATEST AND GREATEST INNOVATION, THE

# Secured, Systematic Savings Plan

(EXCLUSIVELY OPERATED AND CONTROLLED IN THIS TERRITORY BY THE PINNEY STATE BANK, CASS CITY, MICH.)

Your Family's Future? Your Own Future? What if You Should Die Today?

An old bank recently organized into a State Bank

## Do These Questions Interest You Seriously?

## Here is Our Proposition

You agree to save a fixed sum of money in a stipulated length of time by depositing a small amount each month in this Bank, together with the premiums on a SPECIAL PROTECTION POLICY secured by us at a VERY LOW, WHOLESALE RATE, on terms that CONTINUALLY DECREASE, the cost for which to you will average—according to age—2 CENTS PER DAY until the MATURITY OF YOUR ACCOUNT.

We agree to pay you 4 per cent INTEREST, COM-POUNDED SEMI-ANNUALLY, on your savings, and in event of your death at any time after you receive our pass-book, to IMMEDIATELY PAY IN FULL to your family—or such beneficiary as you may designate—a sum of money equal to the entire amount which would be represented by your account at maturity (\$1,000 or more).

Heartily we agree that you cannot afford to pay for the things you "absolutely must have" and "positively cannot do without" and save too. This fact applies also to **EVERYBODY ELSE**. Yet there are millions of systematic savers! Frankly we remind you that whether you are an enterprising business man or a small salaried employee, there is only **ONE WAY** to accumulate a considerable sum of money from **YOUR OWN EFFORTS**, and the answer is:

A SAVINGS of a PORTION of your PRESENT DAILY EARNINGS, regardless of TEMPORARY CIRCUMSTANCES or CONDITIONS!

IF YOU LIVE the time will INEVITABLY arrive when your earning capacity will be NIL and you will NEED THAT ACCUMULATED SUM MORE than you NEED THE SAVINGS NOW!

IF YOU DIE in the meanwhile, your wife, children, mother or other dependents WILL NEED IT IMMEDIATELY!

DO THESE PLAIN UNVARNISHED FACTS STRIKE HOME?

Are you willing to FACE them and to ASSUME THE RESPONSIBILITY?

DO YOU WISH THAT YOU MIGHT SETTLE THESE QUESTIONS PERFECTLY, EFFECTIVELY AND EASILY—FOR ALL TIME—TODAY?

### MARK THIS

There is nothing to "think over" in connection with commencing a "SECURED SYSTEMATIC SAVINGS" account because this ideal plan has ALL THE INTEREST FEATURES and WITHDRAWAL ADVANTAGES of the ordinary savings account; and you suffer NO LOSS OR PENALIZATION in event that you should at any time desire to discontinue.

The tendency to withdraw from the S. S. S. plan is, however, reduced to a minimum by the INDUCE-MENT TO CONTINUE; because in event of withdrawal the protection feature of the plan automatically ceases; and on account of the CONTINUALLY DE-CREASING cost to the depositor for the protection feature, he will naturally prefer to avail himself of his FINANCIAL SECURITY and borrow from the bank in event of emergency rather than withdraw, lose his protection and be obliged, if he renews his account, to pay the commencement rate for the protection feature instead of the lower rate existing at the time of withdrawal.

## YOU CAN!

## Our "Secured Systematic Savings Plan" Makes It Possible!

POSSESSION OF A "SECURED SYSTEMATIC SAVING PLAN" ACCOUNT insures your ability to sleep in peace at night, have a clear conscience, banish worry from your household, be the possessor of a systematic, live and progressive bank account, be ready for any emergency, establish a perfect credit at the bank, benefit your community, look your family and fellow men straight in the face, CULTIVATE A PRACTICAL TRAINING IN PERSONAL ECONOMY, receive full interest on your savings and have your money safe, sound and secure!

THE "S. S. S." ACCOUNT OFFERS YOU ALL IN THE WORLD TO GAIN AND ABSOLUTELY NOTHING TO LOSE!

The advantages of the Secured Systematic Savings Plan for the average person are so readily apparent that we wonder now why someone did not think up this plan years ago. It is so arranged that it will fit the pocketbook of nearly every individual in the community.

### Advantages of Silage If weather conditions are unfavorable in haying time and the owner

of a silo finds it will be impossible for him to cure his crop, every particle of it can be picked up dripping wet, run thru his cutter, placed in the silo and saved.

In a general way it may be stated that regardless of what the crop is, it can be made into silage and its feeding value as silage will be in exact proportion to what its feeding value at that time would have been under any other method of curing.

The value of a crop preserved by the use of a Wood Stave "Tecktonius" Silo is increased about 40 per cent over that of a crop harvested in the usual way.

At a conservative estimate, two cows can be kept by feeding silage at the cost of one cow from the same acreage, fed on hay or other rufage. Another important advantage of Silage is convenience in feeding

and economy of storage room. Ten tons of silage can be stored in the same space as one ton of hay. When properly taken care of, there is absolutely no waste to any

part of the corn crop. By providing a succulent forage, winter dairying is made profitable

and no reduction of stock is caused by a dry season. Still another advantage of silage is the reduction of the acreage. needed for pasture; consequently more land can be brought under cultiva-

Silage is the cheapest feed that can be produced, as well as the best. It is a certain supply, notwithstanding the drought or the flood.

9 inch spring with approximately 2 inch take up. Requires 2500 pounds pressure to make taut. Gives each hoop from 6 inches to 10 inches take up according to size of silo.

Only one nut to tighten; being at highest point of contact, insures hoop easily drawn taut. Gives ¾ turn of wrench.

Pleasure, because we feel that coming under the inspection and direction of the State Banking Department, we shall be worthy of greater confidence; pleasure, because we believe that, with such a Board of Directors to guide and advise, we shall be able to deal with the great variety of problems daily confronting us in a more intelligent manner; and finally pleasure, because, with greater confidence established and with intelligent men back of us, we feel certain that we can render a better service to our community and fellow-men.

Though the past two years have been remarkable because of the high returns offered by outside investments, this bank has not been attracted by a single one, and we believe it is this reason that we have been able to take care of all good and essential loans requested by our customers.

That we are able to maintain a sufficient reserve without borrowing from larger banks is evidenced by the following statement taken at the opening of the

## THE CASS CITY PUBLIC SCHOOLS

Open Tuesday. September 6

Excellent opportunities offered to the student body, especially to non-residents, by the addition of new courses.

Each instructor in the elementary grades has made a special study of her line of work.

Mental and standard tests will be given at the beginning and close of each school year for the purpose of determining those pupils who need special attention, either for personal help or for advancement.

The High School offers excellent courses in English, History, Languages, Science, and Music and Art.

A splendid course in Agriculture will be given under the supervision of an instructor who is a graduate of M. A. C.

A special teacher from Northwestern University has been engaged to take charge of the course in Public Speaking this year. Graduates from the Cass City High School are admitted to the

University of Michigan and all colleges without examination. A trained corps of efficient and conscientious teachers will work in

harmony with each other, with the community and its authorized school officers to promote the best interests of the school.

The office at the High School will be open Saturday, Sept. 3, and Monday, Sept. 5, for consultation with the superintendent. Students may classify on these dates if they wish to do so.

E. W. JONES, Secretary Board of Education.

### RATE OF TUITION.

Tuition for non-resident pupils in the high school will be \$55.00, all of which is paid by the district from which the student comes.

Tuition for non-resident pupils in the grades is \$20.00, to be paid by the parents.

### **SLIM-BY-PROPORTION** CORSETRY

OTHING reveals stoutness quite so much as ill-propor-Violent tioned corsetry. contrast between too-large bust, toosmall waist, and too-large hips adds pounds to the appearance and destroys the possibilities of graceful carriage and becoming dress.

So many women who are no longer slim, endure the discomfort of stiff, heavily boned, tell-tale corsets because they do not realize that there is an unbelievably more comfortable and becoming kind of natural corsetry that will subtract pounds from their apparent weight and make them slim-by-proportion.

But such corsetry must be skilfully, scientifically done. If you will permit our experienced corsetieres to properly fit you with a slenderizing
