TELEPHONE EXCHANGE GIVES SERVICE IN 10 TOWNSHIPS

Cass City Telephone Co. Has Excel-
lent Outside Connections with
Four Companies.

The names of 806 subscribers are
found in a new telephone directory
recently prepared by the Cass City
Telephone Co. and which is being
distributed to its patrons. Besides
the name of the subscriber and his
number, the directory designates the
kind of phone, whether business or
residence, and if on a farm line, the
number of miles and direction from

Cass City. The book also contains
advertisements of local business
houses.

A telephone exchange which con-
nects the farm and village residences
and business places of people in 10
townships covers a wide range of
territory and is a valuable asset to
the business interests of the com-
munity. The local exchange has tele-
phones in the following townships:
Elmwood, Ellington, Elkland, Noves-
ta, Evergreen, Greenleaf, Kingston,
Grant, Sheridan and Lamotte. The
telephone rental of the Cass City ex-
changes on business, residence and
farm phones is lower than on any
other exchange in the Thumb.

Outside connections are given with
the Michigan State Telephone Co.,
the Valley Home Telephone Co., the
Moore Telephone Co., and the Con-
solidated Telephone Co. A copper
circuit toll line has been constructed
from Cass City to Saginaw by the
first named company which affords
direct connection between the two
places and this line is being extended
from Cass City to Bad Axe. Excel-
lent service is now furnished from
this point to Saginaw, Detroit and
Grand Rapids.

CARO TIES CASS CITY IN LEADING

COUNTY SEAT NINE DEFEATS
CASS CITY TWICE THIS
WEEK.

Cass City Defeated Fairgrove Friday.
Leaders to Finish Pennant
Race Next Week.

Cass City defeated Fairgrove on
the local diamond Friday afternoon
and lost two games to Caro this
week, one on Monday and the second
one Wednesday afternoon. This ties
Cass City and Caro for first place in
the county league.

Both teams have two more games
to play. Caro will play Unionville
and Cass City with Fostoria. The
locals play at Fostoria Monday and
finish the season at Caro next Thurs-
day. Much interest hinges on the re-
maining games as each one is im-
portant in the pennant winning.

The Labor Day game with Caro
here, Monday found the locals with
an "off day." Few played with their
usual vigor and the lack of pep al-
lowed the visitors to get a lead and
maintain it.

Wednesday's game at Caro was an
affair of a different complexion. The
locals outthit the Caro team, Holmes
twirled excellently, and the team put
up a strong contest. Under ordinary
circumstances, Cass City would have
won the game, but it was a combina-
tion of too many cooks managing the
spread that spoiled the broth.

Umpire Sarvis, who had proved un-
satisfactory in a previous game, was
sent to officiate at Wednesday's con-
test. He gave Cass City some raw
deals in the opinion of local fans and
there has been talk of protesting the
game.

HUBAM CLOVER READY FOR HARVEST EARLY

Hubam, the new annual white
sweet clover, will be ready for har-
vest at an unusually early date this
season, according to A. L. Bibbins,
secretary of the Michigan Crop Im-
provement Association. Apparently
the majority of the crop will be in
condition to harvest early in Septem-
ber, about two weeks earlier than
usual. When about half the seed hulls
are brown and the rest of the seed is
in the dough stage, the crop is ready
for harvest. Wind will do much dam-
age to a mature crop, loss being
caused by shattering.

BENKELMAN GARAGE BURNS AT SANDUSKY

Blaze of Unknown Origin Burns
Garage and Five Automobiles
Monday.

The brick garages of Harold Benkel-
man and John S. McDonald at
Sandusky were destroyed by fire of
unknown origin Monday morning and
the residence of Mr. McDonald, occu-
pied by Mr. and Mrs. Benkelman,
was badly damaged by the blaze. The
furniture in the residence was saved.

The fire started in the work shop
and Ernest Mark, an employe, had
his hands badly burned in attempting
to put out the blaze when it was first
discovered. The fire department
worked hard to save the garage and
frame barn situated in the rear, but
were unsuccessful. Only by hard
work was the fire held in bounds and
kept from spreading to the McKen-
zie residence across the street and to
store buildings near by. Several of
the firemen were nearly overcome by
smoke and fumes and some received
slight burns.

Two new Dort cars, a Studebaker,
Dodge and Ford and a second-hand
gravel truck which were stored in
the building were destroyed, togeth-
er with all the equipment of the
garage.

The garage building of Mr. Benkel-
man was partially insured, but Mr.
McDonald carried but a small
amount on his holdings as he was
awaiting an adjustment of rates be-
fore covering his buildings with an
adequate amount of insurance.

FIELD SELECTION OF SEED CORN ADVISED

Interest in Corn Crop and Demand
for High Class Seed Said to Be
on Increase in Mich.

Michigan farmers are demanding
more sound seed corn of high yield-
ing and adapted varieties than ever
before, according to Prof. J. F. Cox,
head of the M. A. C. farm crops de-
partment. Attention to field selection
of seed from fields of the best vari-
eties, in order to prepare for the added
demand, is suggested.

"All supplies of high class, Michi-
gan-grown seed corn available were
sold out last spring, in spite of the
fact that 1920 was a banner corn
year," says Professor Cox. "Now is
the time to encourage field selection
to prepare for an even greater de-
mand next year. This is another
great year for Michigan, and in-
terest in the crop is increasing as the
state takes rank as a dependable corn
state."

The herd of Hereford cattle of Sam
F. Bigelow was recently examined
by a state inspector and was found
to be entirely free from tubercular
trouble. Mr. Bigelow has received a
state certificate attesting to this
fact and his herd is the first accred-
ited herd in the state under state in-
spection. The herd by this examina-
tion is placed under state supervision
and will be inspected at regular in-
tervals.

REV. BUTZBACH TO CASS CITY FRIENDS

MISSIONARIES IN CHINA SPEND
HOT MONTHS IN THE
MOUNTAINS.

With Famine, Floods and Prospects
of Civil War, China Has
Plenty of Trouble.

Dear Chronicle:
I am catching my breath now, so I
am going to fire a friendly missive at
you. The Orient is proverbially slow,
but I find more to do than I can keep
up with even though I hit up a good
pace.

The hot months of July and August
we are spending at Kuling on the
mountains about 3,500 feet above sea
level. The nights are always cool
here although it gets warm in day-
time. This is a lively place in mid-
summer with its 2,000 Europeans and
Americans besides a large Chinese
population. It is especially a refuge
and paradise for children. Upon ask-
ing some of the older missionaries
what they did to take care of the
children during this terrific summer
heat before the Kuling mountain was
developed for a summer residence
they give this tragic reply: "We
buried them."

However Kuling is not only a cool
summer refuge, it is also a training
school for the work in hand. One of
the important features is the week
devoted to health education. This is
doubly interesting to me inasmuch
as my old college classmate and chum
Dr. W. W. Peter is at the head of this
work in China, and he spent the week
here conducting the health campaign,
and we had the pleasure of entertain-
ing him in our home. Much of his
work is done through the dissemina-
tion of literature on sanitation, perso-
nal and school hygiene and the pre-
vention of contagious and infectious
diseases such as trachoma, a dreadful
eye malady which often leads to
blindness, cholera, typhus, bubonic
plague, tuberculosis, small pox, hook
worm disease and typhoid. All of
these are prevalent in the Orient,
some of them alarmingly so. We all
agree with Dr. Peter that it is a lot
more sensible to keep people from
falling over the precipice than to let
them fall over and then go down and
rescue them. Vaccination for small
pox and inoculation against typhoid
are given special publicity.

This health education does not
only render an enormous service to
China but safeguards also the health
of foreign residents in China, and re-
acts favorably upon other nations in
preventing these Oriental maladies
from spreading over the rest of the
world. Where emergencies occur in
Chinese cities, special Health Publi-
city campaigns are conducted to check
the contagion and remove the causes.
China is awakening to her need in
matters of health and the protection
of human life. Soap and bath tubs
are increasing in demand and other
forms of cleanliness becoming more
popular. These are fruits of mission-
ary enterprise. But the pitiful pov-
erty of the masses of the Chinese
people does not permit them to spend
money for soap. The struggle for
food enough to keep alive over-
whelms them, especially during these
years of famine and food shortage all
over China. Starving are they by the
thousands, not only in North China
but also in Southwest China. We
have just passed through six weeks
of hot dry weather so that many rice
fields are dried up and the crop will
be far below normal. At the same
time in a few sections north of the
Yangtze there are floods, so that this
kind of disaster has overtaken the
population there. At the same time
military forces are concentrating at
Hankow, and it looks like civil war
breaking out in earnest between the
North and the South, though one

BUS LINES INJURE RAILROAD BUSINESS

MAKING INROADS UPON PAS-
SENGER EARNINGS, SAYS
P. M. PRESIDENT.

Cutting of Local Train Service on
Many Roads Is Held to be
Inevitable.

Commenting upon the unrestricted
bus line competition, President Frank
H. Alfred of the Pere Marquette Rail-
way foresees an early and country-
wide retrenchment of the local pas-
senger train service as a result
thereof.

Mr. Alfred's statement is as fol-
lows:

"There has developed in Michigan
—as in many of the states in the
country—such a multiplicity of bus
lines that a serious retrenchment of
the local train service on many rail-
roads, to my mind, is inevitable. Some
of these bus lines cover many points
and are well organized, going as far,
in some cases, as having a regular or-
ganization with a manager, traffic
manager, and passenger agent.

"What inroads upon the aggregate
passenger earnings of the railroads
these bus lines involve we are unable
to say at the present time, but we
may form some idea from one in-
stance in the case of the Pere Mar-
quette Railway. Howell is situated
thirty-three miles east of Lansing by
rail. There is a bus line operating
between these points although the
Pere Marquette Railway has five
trains each way stopping at both sta-
tions. The ticket agent at Howell es-
timates that notwithstanding the
splendid train service which is main-
tained the traffic that properly should
go from Howell to Lansing via Pere
Marquette but is now being handled
by bus line amounts to \$15 a day for
this one point alone. The patrons of
the bus line will put up with the
greater discomfort incidental to bus
travel for the slight saving between
the rates charged by the railroads
and those charged by the bus lines.

"Now, if the case of traffic diversion
from Howell to Lansing is multi-
plied by the number of bus lines op-
erating in competition with the Pere
Marquette for the entire system,
some approximate estimate of the
loss to this company may be made.

"The bus service, of course, is not
loaded down with a multiplicity of
transportation laws, nor with fixed
stage scales. There is nothing to com-
pel it to maintain continuous service,
as in the case of the railroads. They
do not have to furnish service during
inclement weather, which the bus
lines will not likely then maintain. On
the other hand, the railroads have to
do all these things, and furthermore,
they are burdened with heavy road
construction charges in the highway
improvement programs that enable
the building up of this strong competi-
tion.

"Personally, I can see nothing but
a radical retrenchment in the local
train service of the various railroads
if these conditions continue, and this
retrenchment will not be far distant.

"If the local travel is satisfied with
bus service, there is little necessity
for the railroads to maintain their
present intensive local train service."

MR. AND MRS. M. W. MOORE MARRIED 60 YEARS

Wedding Anniversary Celebrated
at the Moore Home in Grant
Township Sunday.

(From Beasley Correspondent.)

Mr. and Mrs. Arthur Moore enter-
tained a company of relatives Sunday
in honor of Mrs. L. J. Carroll of Long
Beach, Calif. It was also the sixtieth
wedding anniversary of Mr. and Mrs.
M. W. Moore.

Mr. and Mrs. Moore are more for-
tunate than a great many in that
they have lived sixty years together
were blessed with four children, never
having a death in their family. The
children are the following: John and
William of Grant, Mrs. Claude Hin-
man of Unionville and Mrs. L. J. Car-
roll of L. Beach, Calif. All were
present at this gathering Sunday and
enjoyed the day together. A boun-
teous dinner was served. Mrs. Moore
has been confined to her bed for over
a year, having suffered a stroke, but
seems fairly comfortable and happy.

PARSONS IS COMING.

Parsons, the eye man, will make
his next regular trip to Cass City
Tuesday, Sept. 13 and can be consult-
ed at Dr. Morris' office where he will
test eyes and fit glasses from 9 a. m.
to 5 p. m. Remember school days are
here and children's eyes should not
be neglected.—Adv.

Gloria Swanson

Pretty Gloria Swanson, the "movie" star, began her career in comedies, later became a bathing girl in screen farces, and from that field graduated to leading woman in special productions. Recently she became a star in her own right.

"What's in a Name?"
By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

LENORE.

MADE famous in this country by Poe, Lenore is in reality the Spanish transformation of one of the most ancient of feminine names—Helen. Its original root was "Helios," the Greek sun-god who drove his heavenly chariot around the heavenly vault day by day, the name signifying light and brightness.

Every language, practically, has brought its distinguishing mark to the original name, and Lenore is one of the most beautiful and musical of the derivatives. In Italy, Leonora is one of the forms, Eleanor in England, Eileen in Ireland, and so on.

The original Spanish derivative was Lemore, in which the "n" gradually displaced the "m."

The jewel assigned to bearers of this name is the beautiful yellow jacinth—a stone formerly carried by travelers to insure them against accident and disease. A fantasy associated with this gem is that it warns its wearer of approaching danger by growing pale in color and it also is supposed to guarantee protection from lightning. The lucky day of Lenore is Sunday and 6 is her lucky number. To dream of her natal stone, the yellow jacinth, is interpreted to mean success in any undertaking she may be interested in at the time.

How It Started

MONOGRAMS.

THE origin of monograms is probably Egyptian; we are certain that the Greeks and Romans used these devices. The merchants of the Middle Ages used cabalistic intertwinings of letters as their distinctive marks, and the great Charlemagne used a cipher as his signature to conceal his ignorance of writing. The old-time painters and printers also had their private marks made of their initials. It was not until the Nineteenth century, however, that monograms became popular.

RELIEF.

I LOVE to hear the joyous ring Of children's laughter as they play;

I love to list to birds that sing Their welcome to the newborn day;

For in a world that's over sad, And weighted down with grievous wrong,

Hope springs from out the measures glad Of laughing innocence and song.

THE ROMANCE OF WORDS

"BLIGHTY."

THE number of slang words and phrases which have slipped into the language by reason of the Babel which resulted when men of many nations gathered in the great melting pot of the allied army is a long one, but one of the most typical is "blighty"—the English colloquial equivalent for "home."

Prior to the commencement of the recent great World war the majority of the British army was stationed in India, and much of their slang consisted of words and phrases adapted from the language of the natives. "Belait" is a common Indian name for England, and, as if to add another parent to the ancestral tree of "blighty," the inhabitants of Hindustan speak of "home" as "bhlaiti." The similarity of the two expressions naturally impressed the British soldier, and it was not long before he corrupted them into "blighty"—using it as a noun when he referred to his native soil and as an adjective when he wanted to express something connected with his return. A "blighty wound," therefore, meant an injury serious enough to necessitate being sent back home to England.

While the word failed to gain great popularity among the American soldiers, it appeared with considerable frequency in stories and reports from the front and will doubtless be used far more widely than before.

BE RID OF THAT ACHE

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend? Ask your neighbor.

Mrs. George Rohrbach, W. Houghton St., Cass City, says: "Doan's Kidney Pills cured me of a very bad backache and put my kidneys in good shape. My back was sore and lame and ached continually. Sometimes I thought it would break. It felt as though there were a ton of lead pressing down on it. Sleep was impossible and added to that I was bothered with my kidneys acting too frequently. They wouldn't act freely enough however and my ankles swelled so that I couldn't wear high shoes at all. I felt tired and drowsy. The first box of Doan's Kidney Pills gave me good results so I continued taking them and after I had finished five boxes I was cured of that backache and other troubles. I felt better in every way."

Price 60, at all dealers. Don't simply ask for a kidney remedy--get Doan's Kidney Pills--the same that Mrs. Rohrbach had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.--Adv. 7

The McGregory reunion which has become an annual affair took place Monday, Sept. 5, at the home of Harvey McGregory, one mile west of Shabbona. In the morning it did not look as though the weather clerk was in favor, which delayed the arrival of a few, but about 11:00 a. m. it became clear away and the remainder of the day proved all that could be desired. At 1:00 p. m., 64 sat down to a bountiful feast. After satisfying the inner man with tempting viands, the company was called to order and a fine program was rendered consisting of music, singing, recitations and reminiscences of earl days compared with the present which all enjoyed very much. Discussion came up in regard to changing the date of meeting for the future which was decided to take place the first Wednesday in August. The next meeting will be with Mr. and Mrs. Fred Beadle at Melvin. The old officers were elected unanimously for the coming year after which the afternoon was spent with quoits, son, Lawrence, of Caro and Mr. and Mrs. Wm. CATTLE IMPROVEMENT
WORK SHOWN AT FAIR

Cow Testing and Bull Association
Exhibits Sent to Detroit by Kent
and Alpena Counties.

Increased income of nearly \$32,000 a year, as a direct result of an investment of less than a thousand, is the story told by an exhibit of dairy cattle at the Detroit state fair this week. The exhibit, which illustrates the building up of herds through the use of pure bred sires, was sent to the fair by the Leer Co-operative Bull Association, of Alpena county, and is included in the special Michigan Agricultural College tent on cow testing and bull association work.

Starting twelve years ago with common scrub cows, the Alpena county men organized an association, bought three pure bred Guernsey bulls, and began to build up herds of high quality grade Guernseys. Estimates made by J. A. Waldron, dairying specialist at M. A. C., place the average increase in production of butter fat made by the high grade animals now carried by members of the Leer Association at around 100 pounds a year. At forty cents a pound, this means added income of forty dollars a cow, or \$32,000, from the 800 animals included.

In addition to increased production, the market value of cows now raised by the association shows well by comparison. While common cows can be bought as low as forty dollars, the Leer members got as high as \$100 to \$140 for their cows this last spring.

Animals from a cow testing association in Kent county are also shown with the college exhibit. Value of cow testing records in determining the high producing cows and eliminating "boarders" is brought out by this group, which is attracting great attention from the state fair crowds.

When Smoking Was Under Ban.

To crush the increasing love of pleasure the Connecticut law of 1647 sternly decreed that only the solitary smoke should be permitted. Only once a day, at dinner or otherwise, might tobacco be used, "and then not in company with any other." No one might use tobacco in any other house than his own in the town where he lived "with and in company of more than one who useth and drikketh the same weed, with him at that time." For violating any item of the law the penalty was sixpence, and only one witness was required.—From "Ye Olden Blue Laws," by Gustavus Myers.

Had Him Guessing.

"It is a question in my mind," remarked the dentist who had got up from a warm bed to respond to a cry from his baby, "if a fellow makes most noise when his teeth are coming, or when they are going"—Yonkers Statesman.

LYRICS OF LIFE

By DOUGLAS MALLOCH

BRAVERY.

ALL bravery is not in death. However glad and glorious— To breathe the gases' toxic breath, Among the clouds a bird to be, Or to go down within the sea— Oh, it is brave to battle thus. And yet not all of bravery.

There is some bravery in life That never wins the world's applause: There is no thrill in daily strife To set our pulses leaping high— Yet braver men may live than die, May suffer more in some good cause Than they who now in slumber lie.

All bravery is merely this: To live or die, as fate demands. But living, dying, never miss The duty Conscience makes so plain: To know the right, the right maintain, Although it lose us life or lands And pay no recompense but pain.

To face old Death amid men's cheers, Yea, that is bravery indeed— But to fight on through losing years, Some unencouraged task to do, Believe when none believe in you,

In public smile, in secret bleed— May God not count this something, too? (Copyright.)

THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good

LIBRARIANS.

THE demand for the trained librarian is on the increase. But many young women are leaving the regular library to take up allied work that pays better.

The new demand outside of the regular library comes from big business corporations who want their business organized. Special literature of all sorts is part of their daily material, and they see the need of a proper indexing for all this material, and for making it available for immediate use as the books in a library are available. Aside from the bigger concerns are such clients as a lawyer or a doctor with a large practice. Such men will often have a whole library that is useless unless properly indexed.

Many women who began as librarians are now holding excellent positions, where their library training proved the essential in their new work.

As the librarian can as yet look forward at best to hardly more than \$1,500 a year, the best trained and more ambitious women are following the commercial path.

But a librarian's training is proving to be excellent for other work. Many girls do not stop at organizing special libraries for their new employers. They go on to become heads of departments, undertake the installing of business systems, of filing and cataloging, and even run offices of their own.

THE ROMANCE OF WORDS

"YANKEE."

WHILE the genesis of the term "Yankee" as applied by the English to Americans in general, by Southerners to those residing in the North and by Northerners to New Englanders, is shrouded in the mists of colonial antiquity, there are at least two explanations which bear the ear-marks of truth and logic.

The first, and most generally accepted of these, is that the word is a corruption of the French Anglais or "English" used by the northern Indian tribes during the early days of the colonies. History states that "Yengeese" was as close as the Indians could come to the pronunciation either of the word "Anglais" or "English" and it is easy to see how this, in turn, could have become transmuted into "Yankee."

Another explanation, a trifle more scholarly, is that Yankee came either from the Scotch "yankie" meaning smart or shrewd or from the Dutch "Jankin," which was the diminutive of Jan or John. One authority goes so far as to declare that "Jankin" was the generic name applied to the English settlers of Connecticut by the Dutch settlers of New York.

The first known use of the term in print occurred in a poem entitled "Oppression," published in 1765, in which appeared the line "From meanness first the Portsmouth Yankee rose." The coupling of the words Portsmouth and Yankee would appear to bear out the contention that the term was one applied principally to New Englanders and therefore originally of Dutch origin.

When you Figure it all up —

You may find some of your cows are a liability instead of an asset. Why? Almost every cow can be a profitable producer if her system is working properly and she is free from disease.

Kow-Kure, the great cow medicine, is just what the average overworked milch cow needs. It works on the digestive and genital organs and puts the system in condition to prevent disease and produce properly. Also a sure remedy for Abortion, Barrenness, Retained Afterbirth, Scouring, Loss of Appetite, Bunches and other common diseases.

Mrs. Wm. Abar and grandchildren, Ruth and Leona, Scarff, and Horatio Hissong of Detroit returned home Tuesday after spending a week with relatives here.

DEFORD.

E. A. Cones' family Sundayed in vicinity of Colwood.

Mr. and Mrs. Patterson spent Sunday at Mayville.

Word from Howard Parks at Detroit is that he is having a serious time with his eye. His wife has gone to Detroit.

Max Chatfield came from Detroit Labor Day to see how things looked here.

Mr. and Mrs. Louis Wheeler of Cass City visited Miss Mae Bruce Sunday.

Thomas Ives of Detroit, cousin of the Retherfords, has been rolling around here for two weeks among kindred. He is a D. U. R. man and will go back to his supply service morning after Labor Day.

Abel Koppeler's family spent part of Sunday at R. D. Lewis'.

R. D. Lewis and family were at Wickware Sunday afternoon

Roy Titus, wife and two children of Pontiac were at N. B. Daugherty's over Sunday.

The Robt. Jacoby family went to Neil McLarty's home in Novesta on Sept. 4. It was a reunion of the McLartys who have not met together for many years. Mrs. Jacoby's maiden name was McLarty.

Old Mrs. Harvey of Ellington, aunt of our Robt. Jacoby, died Sunday. Funeral was held on Tuesday.

It looks now as if Detroit has been training truck men to help build state roads for Deford. Strange things transpire.

Neil Kennedy is having a rock well put down. The Day boys do the work.

Amos Webster is having chimneys built and preparing for the 11th of September when the cold will come in earnest as it is foretold by the prophets.

Edward Bonner of Ann Arbor visits among old chums in town and country.

The babe of Mr. and Mrs. Forest Day was buried from the M. E. church Sept. 1. Remains taken to Novesta cemetery.

Saturday, Roderick Kennedy went to Detroit where he will remain a few days and take in the fair.

R. E. Johnson has sold his hardware. Bowman is the name of one of the new firm. Didn't get the other lad, but they hail from near Brown City. Both will move here before this is in print.

Oscar Valentine was a caller in Deford on Labor Day.

Miss Maud Quinn of Kalamazoo visited here the past week.

Mr. and Mrs. Clare Patch of Detroit called among us last week.

A. Webster went to Saginaw Friday and returned with a heavier pumping engine for his garage.

Word was received here that Thos. O'Rourke is very ill at Inkster, west of Detroit. Many readers of the Chronicle will remember Tom as one of the boys among us when times were hard to get the tobacco.

B. O. Watkins of Inlay City was here on business the past week.

Four of the gravel trucks are here, other four on the way. They are of the Ford breed.

Amos Webster and Wm. McCracken took in Inlay City on Sunday.

It has been customary every alternate week for the young people to make merry by dancing Saturday nights. Those that passed the hall Saturday last saw the sign "No dance here tonight." Death had come to solemnize the town. We are told there is a time for all things.

While there was joy on Labor Day in some places, there was mourning in others. In our town there was sadness for we paid the last tribute of respect to Mrs. Theodore Stewart.

The proper way for a man to honor the memory of his mother is by treating all women with high honor.

Obituary.

Died Sept. 3, at Cass City hospital, Mrs. Theodore L. Stewart of Deford.

Deceased had been in poor health for some time and was moved to the hospital Aug. 28 where she was treated for her trouble on that date with weak hopes of her recovery to health again.

Ammie Milliman was born Aug. 12, 1864, at Avon, State of New York. Joined in marriage with Theodore L. Stewart at Alta, Mich., in February, 1884, where she lived till 1904, then moved to Lennon, Mich., where she resided till she moved to Deford in March 1920. Four children were the fruit of the union of Theodore and Ammie Stewart. Two died in young life. Two sons are alive, Alva T., 21, and Victor M., 12 years of age. In early life, deceased united with the Baptist denomination but labored to help any Christian church where her lot was cast. To do good was her religion. Her monument is already built in the hearts of those with whom she mingled in this life. She came here to live near her sister, Mrs. Merriman, that they might be aid and comfort for each other in declining years. Her aged companion is grief stricken yet. He can say from the fullness of heart: Thou art gone to the grave? But we will not deplore thee, Whose God was thy ransom, thy guardian and guide,

He gave thee, He took thee, and He will restore thee, And death has no sting, for the Savior has died."

The remains were buried in Novesta cemetery on the 5th.

Mrs. Bessie Holt and son, Byron, called at Deford on Sunday.

Clarence Chadwick and Ben Gage made a business trip to Bay City on Saturday.

E. R. Johnson had the misfortune to cut his hand on Monday. Four stitches had to be taken in it.

The Farmers' Club was entertained at the Geo. Martin home on Friday last. A very nice time was had by all.

Mrs. Terry and little daughter returned to their home in Detroit after

spending the summer months with her brother-in-law, Fred Terry.

E. R. Johnson has traded his store to a couple of gentlemen from near Inlay City for farms. They are busy taking inventory this week.

Mrs. M. Demode of Cass City was called to the home of her daughter, Mrs. Forest Day, on Tuesday on account of the death of her little grandson, Bernard Leo.

Mrs. E. Crowe of Pontiac came Tuesday night to attend the funeral of her little nephew, Baby Day, returning Monday.

Mr. and Mrs. Lewis Sherwood and Mr. and Mrs. Clare Smith, all of Pontiac, came Saturday evening for over ty, on North street.

E. Crowe came Saturday to spend Sunday and Monday with his wife's

people, returning Monday. His wife accompanied him.

Mrs. Geo. Ricker and daughter, Bernidene, returned to their home in Detroit after a month's visit with the former's mother, Mrs. E. Croop.

Friends and neighbors who attended the funeral of Mrs. T. L. Stewart were Mr. and Mrs. S. Rogers of Lake Orion, Mr. and Mrs. Pearl Roe of Durand, Mr. and Mrs. Ambert Walker of Lennon, David Yerian, J. I. Yerian and Mrs. J. C. Yerian and children, all of Durand.

The new hardware men are moving into the Billie McCracken house, known as the old Sam Powell property, on North street.

Announcement

Mr. Edsel B. Ford, President of the Ford Motor Company, makes the following announcement:

"We are making another reduction in the prices of Ford cars and the Ford truck, effective today. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F. O. B. Detroit are now as follows:

	New Price	Old Price	Amount of Reduction
Chassis	\$295	\$345	\$50
Runabout	325	370	45
Touring Car	355	415	60
Truck	445	495	50
Coupe	595	695	100
Sedan	660	760	100

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415, and now to \$355, making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford sedan was \$975; today it lists at \$660 with the same equipment.

"We are taking advantage of every known economy in the manufacture of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more prosperous times. People are interested in prices, and are buying when prices are right.

"The production of Ford cars and trucks for August again broke all previous high records with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the present reductions. June this year, with an output of 117,247 was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salesmen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

"No reduction has been made in the price of the Fordson tractor, and none is contemplated."

Go over these new prices. See how little it costs to become the owner of a Ford car or a Ford truck. Can you really afford to do without one any longer?

Let us tell you more about it, and advise you regarding the delivery of the particular type of car in which you are interested.

FAMILY AUTOMOBILE FURNISHES CHANCE FOR WEARY FARM WOMEN

Why Not Take the Ice Cream Freezer Along?

(Prepared by the United States Department of Agriculture.)

Among 8,700 farm women, seven-eighths reported "no vacation" in a survey of the northern and western states recently made by the states relations service, United States Department of Agriculture. A good number mentioned scattered "days off" in the family automobile, which apparently offered the chief means of diversion from the routine work of the home.

Lunch Easy as Possible.

There should be a deliberate effort during the out-of-doors months to seize every opportunity for providing the mother of the family with this or other means of relaxation. A whole day without cooking, dishwashing, sewing, or any of the heavier home tasks goes a long way toward resting weary muscles. But "Mother" is very apt to retort that even a picnic meal is a good deal of bother to prepare beforehand, that sandwiches take time to make, and that a meal out-of-doors never seems as hearty as one at the table. "Mother" must be persuaded that when everyone lends a hand, and the right materials are chosen for the picnic lunch, it may be both easy and hearty and the change will do her a world of good.

If sandwiches are a bother, why take them? Any summer afternoon on the lazy, lovely Thames in England may be seen boating parties drawn up to the bank for the inevitable "tea," usually equivalent to a hearty supper. A sandwich is rarely seen. Bread and butter are passed, or the loaf of bread, with a knife, for individual helping.

Freezer Keeps Foods Cool.

A characteristic American addition to this simple luncheon, which can be gathered up with very little extra

work, is suggested by the dairy division of the United States Department of Agriculture. Why not take a freezer full of ice cream along, or a frozen fruit pudding, since the work of freezing it is usually done by the children and not by "Mother"?

Elaborate baking should not be attempted in advance. When the ordinary supply of bread is being made, a few raisins can be added to one loaf for a change at the picnic. Good "buns" can be quickly made of ordinary biscuit dough rolled out in a sheet, sprinkled with raisins or dates, cinnamon, and sugar, then rolled up like a jelly roll and cut into pieces a quarter of an inch thick. Dusting them with sugar and brushing with milk helps to brown them nicely while baking.

Frozen Fruit Pudding.

Any preferred fruit pulp and juice may be used in the following easy recipe, which makes a quantity sufficient to serve about five persons:

1 cup fruit pulp and 1 cup milk juice (strawberry, 1 cup sugar raspberry, black- A little salt berry, peach, etc.) A few drops of 1 cup cream lemon juice

Heat the milk, add the sugar, and when the sugar is dissolved and the mixture cooled add the other ingredients.

Picnic dishes, cups, and tableware can hardly be dispensed with, though the mother of the family should not be permitted to "wash up" a single utensil. Paper will do wonders at a picnic. If everybody bears in mind that outings like this constitute "Mother's vacation," there will be an affectionate competition as to who shall attend to the few details of preparation and clearing up connected with the trip.

GOOD RINGS NEEDED TO AVOID SPOILAGE

Best Quality of Rubber Is of Great Importance.

Canning Demonstrators Have Proven That Color, Despite Popular Opinion, Has Nothing to Do With Strength of Band.

(Prepared by the United States Department of Agriculture.)

Spoilage of canned goods frequently has been traced to the use of poor rubber rings. The fruit or vegetable canned may be fresh from the garden, the jars and tops may be perfect and absolutely clean, the processing may be done in the right way for the right

Be Sure Your Rubber Bands Are Good.

length of time, but if the rubber rings are not reliable, much of the good work done goes for naught.

The best quality of rubber ring is needed by the housekeeper who uses any method of canning in which the ring is heated with the jar and its contents. If the rubber ring develops imperfections after it has been heated the required time, it is necessary to replace it and again process the jar. Canning demonstrators of the United States Department of Agriculture have been studying the requirements of a good rubber ring in order to eliminate this cause of canning trouble.

Tests of thousands of rings disclosed the fact that color, despite popular opinion, has nothing to do with the quality or strength of the rubber. A ring should be able to support a weight of 13 pounds without breaking.

To make a perfect seal, rubber rings should possess elasticity enough to take up the unevenness of the jar and the cover, and be strong enough to resist cutting when the seal is made. A ring that cannot be folded or pinched without breaking is useless for canning by methods in which the ring is heated (processed) with the jar and contents.

HOME CONFECTIONS BIG AID

When Berries Are in Season, Firm Fruit Is Excellent When Dipped in Icing or Fondant.

Occasionally it happens that a jelly is too stiff or "tough" for the housekeeper to be proud of, for table use. As a confection, cut up in blocks and dipped in the sweet chocolate that comes for the purpose, the unsatisfactory jelly is more than redeemed, suggest home economics specialists of the United States Department of Agriculture. Figs, dates, raisins, nuts, and marshmallows can also be dipped in chocolate to make wholesome confections for the children. Sweets of this kind are especially good as surprises in the monotonous school lunch box.

Another quickly made home sweet may be had when berries are in season. Firm berries, such as whole strawberries, black raspberries, blackberries, and also pieces of pineapple, or other fairly firm fruit are excellent when dipped in white icing or fondant, if they may be served within three or four hours. Here is a suggestion for "a little something" to serve with lemonade or grape juice at a club meeting.

DIFFICULTY IN DEEP FRYING

Secret of Success Is in Having Fat at Right Heat—Test by Using Piece of Bread.

Many people experience difficulty in deep frying. The secret of success lies in having the fat just the right heat. When ready for frying a thin blue smoke rises. A simple test is to drop in a small piece of bread. If it hardens immediately and does not change color quickly the fat is at the right temperature.

Hard Question to Answer.

Bobbie was fond of big words, and never let a chance slip by of using one. He did not, however, always get them in the right place. He was sick abed with an attack of measles. The doctor calling one day, took up a hand mirror and showed Bobbie how he looked. Bobbie gazed at his mottled face disgustedly in the mirror, and then looking up to the doctor, asked, "When do you think I will be back to civilization?"

Hopeless.

China just now. I am hoping that China will participate in President Harding's international conference on disarmament and that as a result China will disarm even her bands of robbers scattered through the country.

Another helpful feature of the summer at Kuling is the inspirational conference for the residents. The special speaker this year is Dr. Harry Emerson Fosdick, pastor of a large and influential church in New York City and author of a series of splendid books, one of which is "The Meaning of Prayer." His lectures and addresses are on vital subjects of problems of Christian workers and tendencies in world thought. The Kuling church seating eight or nine hundred is crowded whenever he appears on the program. Among his subjects are "The Tendency to Regard Science as Sufficient for Life

Apart from Religion." Bring on all your facts, he says, but there is no sense in life except through the interpretation given by Jesus Christ. Another of his subjects is "Progress." Here he drove down two stakes. First stake: You can have regress just the same as progress. And humiliating regress have we had in recent years. Second stake: There is no ultimate progress that man can achieve alone. No hope without God. In this lecture he showed that things, which seemed impossible of accomplishment a few generations ago have actually been achieved. That which ought to be done can be done, by the grace of God. Instances are the abolition of slavery and the legalized liquor traffic in the United States. He drew applause when he referred to the fact that the youth of America will not need to inhale the stifling fumes of liquor through open doors of saloons,

nor become familiar with the sight of its bleary-eyed, reason dethroned products stumbling on the streets, a disgrace to all decency. The next thing which ought to be done and can be done by the grace of God is disarmament. Calling a halt to the mad race in preparation for the next war, and applying science to the saving of human life instead of the wanton destruction of the race of mankind.

We often think of you Cass City friends, and while we do not have time to write to all our friends and acquaintances there, may we regard this as a message of friendship to you all. It is nearly a year since we had the union tent meeting, and I hope that the vital messages of the Gospel delivered by Dr. O. A. Newlin are still vivid in the consciousness of Cass City.

A. H. BUTZBACH.
