TOMPKINS' HIRED MAN.

The play entitled "Tompkins' Hired Man" will be given in the Heron M. P. church, 6 1/2 miles north of Cass City, July 31, 1922, for the benefit of the Grant Auxiliary of Woman's Home Missionary society.

fine play of American life; the scene of the three acts being laid in the kitchen of the Tompkins' farm house.

Cast of Characters.

Mr. Asa Tompkins, a prosperous farmer who cannot tolerate deceit Manley McCarter Dixey, the hired man, one of nature's noblemen Floyd Karr John Remington, a fine young man in love with Louise J. Adelbert Gere Jerry, a half grown awkward country lad Harold Day Louise, the daughter whom Mr. Tompkins believes to be his own Mrs. Lewis Maharg Julia, the only child born to Mr. and Mrs. Tompkins Cassie Day Ruth, a niece of Mr. Tompkins, boarding at the Tompkins' home- stead Hazel Martin Mrs. Sarah Tompkins, a woman with a secret that embitters her Olive Day

Synopsis.

Despairing of ever having a child of her own, Mrs. Asa Tompkins conceives the idea of adopting a child and presenting it to her husband as his own. She is obliged to promise the father of the child that it shall be heir to the Tompkins' property, and a contract is drawn to that effect. The father, in turn, agrees never to disclose his identity. Before the adopted child is two years of age, a daughter is born to Mrs. Tompkins. She then has a mother's natural desire that this child should stand first in her husband's affections; but he loves the adopted daughter the best.

"THE BEST TRUCK I EVER BUILT"

FRANK W. RUGGLES

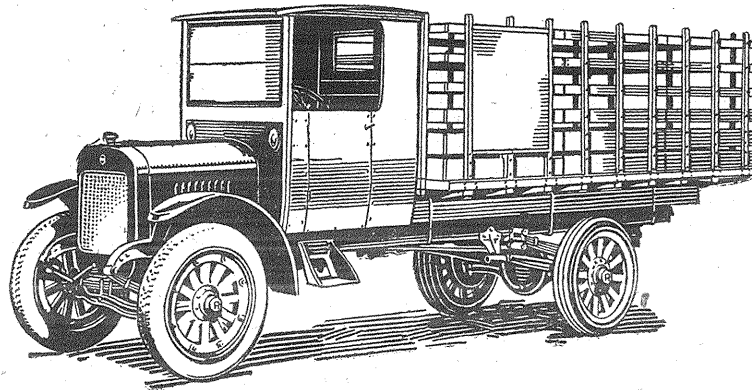

This statement from the man who is the pioneer of the truck industry, having developed the largest truck factory, producing more trucks than any other organization in the world, is worthy of the most serious consideration by every prospective truck purchaser.

In the truck upon which he has put his name, has gone all the wealth of experience gained by years of manufacturing experience of Frank W. Ruggles and the best men of his organization.

The result is a truck that for actual value, for genuine quality, for mechanical excellence, has never been equalled in the history of the industry; and the rapidity with which they are being sold in every part of the United States is evidence of the confidence in which the Ruggles Truck and the Ruggles Motor Truck Co. are held everywhere.

Let us show you the Ruggles Truck in detail; compare it with other trucks costing hundreds of dollars more and we think you will agree that it's

The World's Greatest Truck Value.

Mark Twain's greatest comedy.

Sir Sardine, Mount Your Motor-Bike!

You think you can't be seeing straight, but you are. It is a real army of men in armor who ride to the rescue of Sir Boss and the King on 1922 motorcycles. Your sides will ache and your laughter bring tears to your eyes at this unique spectacle. And it is, moreover, one of the most thrilling scenes in this picture of beautiful pageants. Thousands of motorcycles rushing over the hills, ridden by men in armor, led by men (and a girl) in armor who are riding in a flivver.

HERE'S something that experienced carowners have found out about saving tire money—
If you use a good tube you'll get better and longer service from your casings.
That's just one reason why so many motorists around here stick to Hartford Tubes. They make better riding—better tire mileage.
Hartford Tubes uphold a 25 year reputation.

Studebaker

CLOSED CARS

Studebaker enclosed cars are an evolution of the fine coach work of former generations. They represent the skill of engineering specialists, plus the standard of 70 years experience in building quality vehicles. Strength, weight, resistance to shock, freedom from rattles, are all subjected to searching analysis and gruelling road tests under every possible condition of road and weather. The body framework is of selected white ash, thoroughly seasoned and rigidly inspected.

Painting is comparable to the highest grade custom coach work. It includes 26 different operations and 15 separate coats of material. The seat springs are of the highest grade. The upholstery is of mohair velvet plush velour, selected for wearing qualities and rich neutral tones which combine elegance with service. Door-window regulators of the latest improved type permit quick change from weatherproof protection to an airy open body. Studebaker enclosed bodies are as good as the chassis. They are built to endure.

a New "USCO"—
Better, Heavier, Longer Wearing
30x3 1/2—\$10.90 No Tax added
on Sale Now

USCO set the high value mark for 30 x 3 1/2 tires when it originated the \$10.90 price last Fall.

USCO today betters that mark with a new and greater **USCO**—an **USCO** improved in many important ways.

For instance, a thicker tread—with a surer hold on the road—thicker side walls, adding strength and life to the tire.

And the price is \$10.90—with the tax absorbed by the manufacturer.

Men have always looked to **USCO** for the biggest tire money's worth on the market.

They always get a bigger tire money's worth than they expect.

Battery?**
Maybe you've noticed that it isn't turning the motor over as strong as it might, that it hasn't quite the pep it used to have, that it seems to be just a little "off its feed".
That's a signal that your battery needs the kind of attention we give—and probably needs it right away!

RURAL SCHOOLS MAKE NUTRITION STUDIES

More Than 40,000 Michigan Children Learn Correct Diet Rules During Past Year.

Forty-four thousand Michigan school children, principally in the rural districts of the state, made a study of foods and diets during the past year, learning the importance of certain dishes and applying the knowledge to their own daily menus.

A series of nutrition "stories," each covering some important nutrition habit for children, was sent out during the year to schools of the state by the Home Economics staff of the Michigan Agriculture College extension division. Check of daily record cards furnished each child with the lessons shows that a very high percentage not only studied the work but actually developed the nutrition habit covered.

Nearly 2,000 public schools, in 44 different counties of the state, were included in the campaign for better food practices.

The list of essential habits explained in the different lessons included: drinking milk daily, eating fruit daily, eating vegetables other than potatoes daily, avoiding "knick-knacks" between meals, eating big breakfasts, sleeping at least ten hours each night, and brushing the teeth before going to bed.

The big breakfast idea appealed to the children most strongly, returns showing that 81 per cent of the thousands reached with the lessons practiced eating a big breakfast every morning for a month. The other habits took well, however, very high percentages applying the rules as directed.

"Teachers report that the results of the series have exceeded expectations," says Miss Maril Hopkins, director of nutrition work under the college extension staff. "Marked gains in physical condition, resistance to disease, and scholarship standards have followed the development of correct nutrition habits among the children."

HITCHING BOLSHIEVISM UP WITH FIRE WORKS

But It Has Been Done and in a Way to Tickle the Funny Bone.

Truly, these be strenuous times, these times of the wireless, the airplane, the radio and the ouija board. Even fireworks can't be just fireworks, as they were in the old days, but must keep abreast of the minute or a little ahead of it and pack a "punch" or a laugh right with them. And they do; they surely do.

Take Bolshevism. Funny thing to hitch up with fireworks, but it has been done, and in a way to tickle the funny bone.

The Thearle-Duffield Fireworks Co. of Chicago, which is responsible for the gorgeous night display at the Cass City Fair Aug. 15-18 is the concern that has achieved it. The piece is called "Chasing the Bolsheviki" and is characterized as the most laughable and amusing piece of pyrotechny ever turned out.

The effect is caused by the simultaneous discharge of four to eight high saucisson bombs, which throw into the sky numberless gyrating figures—the Bolsheviki—darting and dodging about in terror and fright. As they fade into the remoteness of space a burst of beautiful, brilliant light is thrown over the skies, followed by a roll of thunder and a violent explosion—the end of the Bolsheviki.

Great stuff, eh!
