All over the country, Heatrola dealers are making this offer on a limited number of Heatrolas and for the period from July 22nd to August 12th. To prevent this congestion this year is the reason for this very attractive special offer.

Installed in one of the living-rooms, the Estate Heatrola supplies moist warm air to all connecting rooms, upstairs and down, just like a furnace. Beautifully finished in grained mahogany enamel, it looks like a handsome cabinet phonograph. Beautiful enough to grace any parlor, in its handsome form and rich grained mahogany enamel finish.

And how it heats! Come in and read the book of letters testifying to its heating capacity. Read—not claims we make, or the manufacturers make, but what people who have Heatrolas say about this new-day heater.

The Heatrola heats by circulating warm, moist air—not by radiation. It is just the thing for small homes, bungalows, stores, offices, etc.—with or **WITHOUT BASEMENTS.** And it is economical. With the fuel needed for one stove it will do the work of a furnace. It is easy to keep clean. No iron to black, no nickel to polish. Just rub it and dust it with a cloth, as you do your furniture.

AT THE SANILAC COUNTY SEAT.

Sandusky—Slightly more than \$2,000 is paid monthly to widows in this county it was made known here by Grant H. Smith, probate judge of Sanilac county. He declared that the widow's pension was the heaviest expenditure confronting the resources in the county treasury and that with the addition of the tubercular pension authorized at the last session of the state legislature this amount will be increased to half again as much. Little or no fraud is practiced in obtaining these pensions, Judge Smith declared.

Bids for the construction of a 50 foot span, concrete girder bridge over Elk creek in Elk township, north of Peck, will be let from the office of Ralph Ulbright, Sanilac county road engineer Aug. 1, it was announced on Monday. A 20 foot road space on the bridge is called for in the specifications and 287 yards of concrete are to be used in the new structure.

The will of Jess C. Appel was admitted to probate today before Grant H. Smith, probate judge here. Mr. Appel, who before his death May 18, 1923, resided in Marlette, left an estate of \$12,500 including both personal and real property. He named his son, Alfred, the administrator and left the bulk of the property to this child.

A petition to probate the will of the late Marshal H. Potts who died at his home in Lexington June 26 was filed before Judge Smith Saturday. The widow is named as executrix and to her also is bequeathed the estate, the approximate value of which is \$5,000.

Bonds in the sum of \$69,500 for the improvement of assessment district road No. 31 in Buel, Elk, Washington and Watertown townships will be sold from the office of Ralph Ulbright, county road engineer this week. Work on improving the road was begun by the Deckerville Construction Co. early in June. The road will be gravelled to a width of nine feet for a distance of seven miles.

Four Detroit youths were released from jail here Monday afternoon after their parents wired them \$21 each with which to pay fines and costs assessed against them by Justice Hayward of Crosswell. The boys were arrested two weeks ago in Crosswell charged with disorderly conduct and the use of obscene language in the presence of women. At the time of their trial, they promised to return to Detroit and send the amount of their fines to the Crosswell justice. When they failed to do this at the expiration of the allotted time, Dick Holdberg, deputy sheriff and county traffic officer, was sent to Detroit Saturday where he took them into custody and returned them to the county jail here. The boys, all under 21, were Polanders, who explained they were out on a lark. They said they had not been drinking.

Camel DeClark, farmer in Fremont township, was bound over to circuit court to await trial at the September term charged with the possession and disposal of alcoholic liquors contrary to law. Bond was fixed at \$1,000 by John Hyslop, justice of the peace here in whose court DeClark was tried. DeClark's friends furnished bond. The man was arrested Thursday evening by John King of Crosswell, deputy sheriff, after King had asked for a gallon of whiskey. Instead of paying for the liquor which DeClark immediately produced, the officer arrested the Hollander and took him to the county jail. The gallon of liquor was also seized by the deputy.

The disclosure suit brought by Mrs. Joseph Farley of Bridgehampton township against the heirs of her father's property was ordered adjourned to circuit court for settlement by Grant H. Smith, judge of probate, after hearing the preliminary evidence in the suit Thursday. Mrs. Farley seeks the recovery of her share of the property which under the recent stipulations of the will is decreed to a brother, Frank Smith, and other relatives. Judge Watson Beach will hear the suit at the September term of circuit court, it was announced later.

A heavy toll in fines and court costs

was exacted from speeders on the Shore road Sunday when five appeared in the court of John Hyslop, justice, for settlement. Speeders arrested by Dick Holdberg, county traffic officer, were: Hale Sattler, Detroit, \$15; Fabrian, Detroit, \$15.25; Frank Schomer, Port Sanilac, \$15.30; and L. Casey, Port Sanilac, \$5 costs. Wm. Westbrook of Crosswell was fined \$10.20 in Justice Hayward's court for driving his automobile without the sufficient number of lights.

Gaylord Calloway, 18, of Forester, was arrested in the county park Saturday and fined \$19.30 in John Hyslop's court for the use of indecent and obscene language in the presence of women. He chose to pay the fine rather than serve 20 days in the county jail which was made optional by Mr. Hyslop. The arrest was made by the park officer.

"ANDY GUMP" IS COMING TO THE CASS CITY FAIR

Concluded from first page. small cannon of the garrison. However, fighting desperately the garrison holds its own, and the defeated and disgruntled Indians, realizing the hopelessness of their task, fade from view into the night, and the American flag, true in line and color, breaks out on the breeze over the stockade, in 100 square feet of blazing triumph, while great quantities of candies and giant gerbs, join their gorgeous beauty to the splendor of the closing scene, and sixty rockets, fired simultaneously, arise in one magnificent column of sparks and stars to a height of two hundred feet, spreading out in the heavens as a mighty benediction on the scene below.

THE VICTOR is a modern, standard adding machine with a one million dollar capacity, eight-bank flexible keyboard and total, non-add and repeat keys. All totals, sub-totals and clear signals are printed in red; and all totals and sub-totals are taken with one pull of the flexible handle. It is beautifully finished with nickel and black Japan.

For the first time, you have in the Victor Adding and Listing Machine, everything that any standard machine at any price can give you—all for \$100. The most exacting office could ask for nothing better in appearance, durability and operation. When you see it you will scarcely be able to believe that it sells for only \$100. The only way that the Victor could be produced to sell for \$100 was by making it in one and only one model.
