

## MYSTERY SHROUDS

### MCSAAC'S DEATH

IVANHOE MAN FOUND SERIOUSLY INJURED BY ROADSIDE SUNDAY EVENING.

Mystery shrouds the injury and death of Norman McIsaac, aged 35, who was found lying in the road beside his automobile about a mile north of Old Greenleaf, about nine o'clock Sunday evening, badly injured about the head.

As Miss Hester Cathcart and Donald Skinner, who were enjoying a pleasant ride, came over the crest of a hill north of Old Greenleaf, the lights of the car showed plainly in the hollow below, a body on the side of the road. The young people stopped their car and walked down the hill where they discovered Mr. McIsaac a few feet ahead of a Ford touring car where many tools were spread about the front of the auto. One rear wheel and the windshield were broken and the top of the car seemed to be damaged slightly, although the body of the car was apparently not hurt.

After bringing their car to the foot of the hill, Mr. Skinner made several attempts to get the man into the rear seat of the auto only to fail, so Miss Cathcart set out to find someone to assist them. As the spot was very lonely and there were no houses in sight, she walked to the top of the hill where she met a car. Ivan Dickson of Bad Axe, who was driving, then went to a near-by farm getting Roderick McDonald who aided by holding the dying man in the rear seat on the trip to Uby where a doctor said that McIsaac would probably not live for over half an hour. Although he never regained consciousness, Mr. McIsaac was removed to the Bad Axe hospital and lived until five o'clock Monday morning.

Strange to say, the man seemed to be hurt in no place but his head which gave evidence that he had probably received a heavy blow although the scalp did not seem to be cut.

Another mysterious fact concerning this case is that when McIsaac was discovered his head was resting on a sofa pillow which was in his own car when he left home, and as he never recalled, it is practically impossible that he could have procured the cushion from the car and placed it under his head unaided. A woman's empty pocket-book lay within a short distance of the body. This trifle will serve as practically the only clue to the outlaw. However, it might have belonged to McIsaac but the other fact seems more probable.

Some light might be shed on the case by the fact, that less than two years ago Mr. McIsaac injured a foreigner in self defence, if it were not stated by neighbors that the man has not been seen about that vicinity since shortly after the quarrel, which again erases probability to a certain extent.

Officers are at present conducting an investigation and are searching garages for traces of the suspected damaged car although it is supposed by some that the apparent collision indicates but a blind to cover up cold blooded killing.

Mr. McIsaac resided one mile east of Ivanhoe. His wife died about eight months ago, leaving him with seven children all under 12 years of age.

## MICHIGAN HENS LEAD EGG LAYING MARATHON

State's White Leghorns Leading All Others in M. A. C. International Contest.

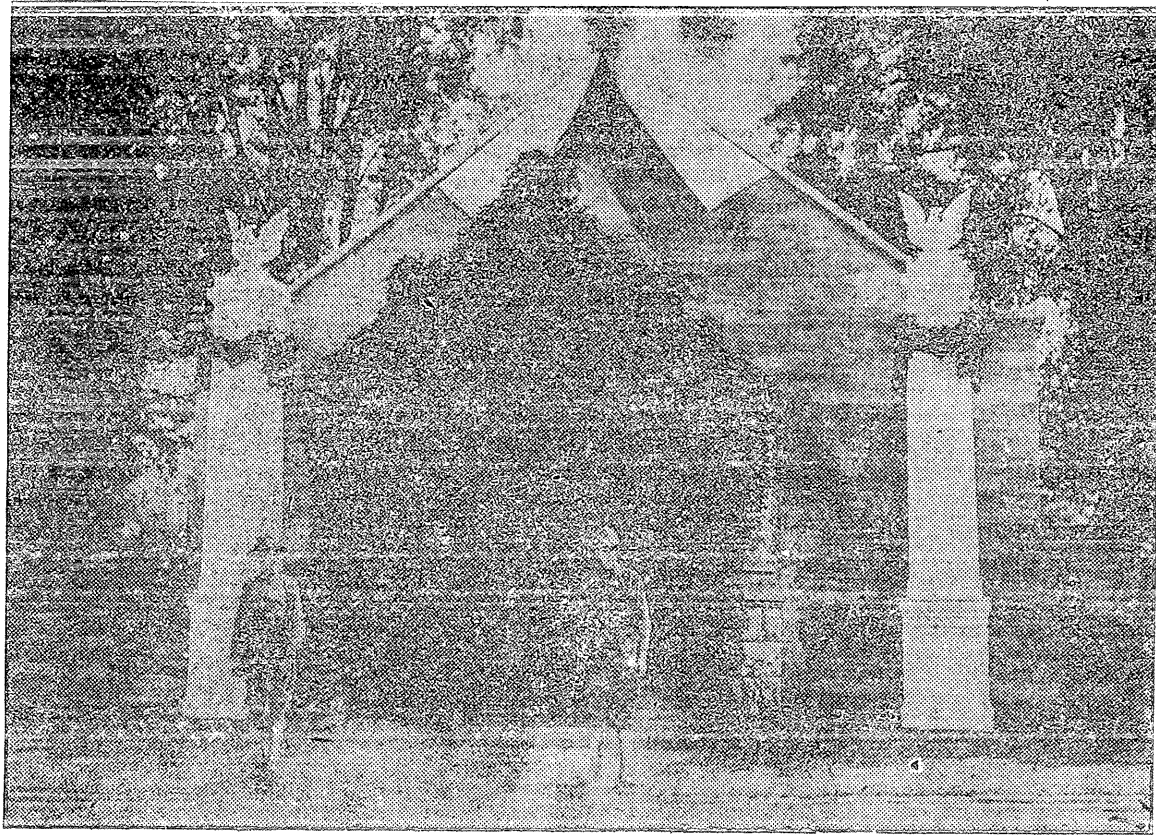

Michigan pens continue to hold all honor places at the end of eight months running in the International Egg Laying contest, being held under the direction of the poultry department at the Michigan Agricultural College. Not only are the state birds holding the first five places in the contest, but they top the section for each breed, making a clean sweep for the Michigan entries.

Birds have been entered from 12 states and Ontario and Quebec, as well as from all sections of Michigan. The entries total nearly a thousand hens.

The Michigan White Leghorns, which recently came from behind in the contest, now hold top honors among the different breeds, the first five leghorn pens standing ahead of any pen of another breed.

Extremely warm weather conditions during the past few weeks have resulted in a slight decrease in production, noticeable in all the breeds, according to E. C. Foreman, head of the M. A. C. poultry department and general manager of the contest. With the most strenuous part of the contest still ahead, the staying power of the birds will determine largely the standing of the various pens at the close of the contest on November 1.

## Where Harding's Body Now Reposes

Remains of the late president will rest in this vault in the cemetery at Marion for the present. A mausoleum may later be erected to house the body.

Leading pens in the contest are closely grouped, with the exception of the first place birds. Ten White Leghorns entered by Elmer E. Shaw, of South Haven, with a production mark of 1808 eggs, hold first honors. A White Leghorn pen belonging to O. S. Thompson, of Allen, scored highest for the past week with 57 eggs, and gained second place in the contest with 1666 eggs, having a scant 2 egg lead over the pen of Leghorns owned by the Northland Farms, of Grand Rapids. This pen holds third place with 1664 eggs.

George B. Ferris' pen of Grand Rapids, and W. C. Eckard's entry, of Paw Paw, both White Leghorn pens, have gained a place on the honor list, and hold fourth and fifth places.

The total production in the contest is 123,064 eggs.

## SCHOOL OPENS SEPTEMBER 4

DOMESTIC SCIENCE IS NEW COURSE ADDED TO HIGH SCHOOL CURRICULUM.

The Cass City public school will open on Tuesday, September 4, with the following corps of teachers:

- H. W. Holmes, Superintendent.
- Harry Huller, Principal.
- Ellen Palm, English and Public Speaking.
- Kate Burgett, Mathematics.
- Earl Brooks, History and Athletics.
- Margaret Horner, Language.
- Avis Smith, Domestic Science and Art.
- Alberta Bishop, Music and Art.
- Willis Campbell, Agriculture, Jr. High Principal.
- Alvina Lang, Jr. High Assistant and Athletics.
- Hazel Brooks, Sixth Grade.
- Blanche Ferguson, Fifth Grade.
- Reva Schultz, Fourth Grade.
- Margaret Hurlley, Third Grade.
- Marie Tindale, Second Grade.
- Dora Fritz, First Grade.
- Zora Day, Kindergarten.

A new course has been added to the curriculum at the high school this year. Since the agricultural course, mainly for boys, has been such a success in past years, it has been decided to make the high school course more attractive for girls by giving them an opportunity to study home economics.

Domestic science will be given first in the seventh grade and sewing and cooking will be taught. This is a very practical home-making course and should bring many rural pupils to the Cass City schools.

Miss Smith, who is the instructor of the domestic science classes, will also teach bookkeeping and typewriting and these two branches of study will be made more attractive to pupils than they have been in recent years.

The gasoline war which started over a week ago in South Dakota has reached Cass City bringing smiles to the faces of our motorists. When the Standard Oil Co. in South Dakota reduced their price from approximately 24c to 17c through effort to meet competition of state-owned filling plants, they began to hear complaints from other states who were paying the higher price so now we are filling our gasoline tanks at 17.2 cents per gallon.

## FATHER OF ELEVEN DROWNS NEAR CARO

TWO SONS OF MERTON MORSE RECOVER BODY WITHIN HALF HOUR AT FOSTER DAM.

Merton Morse, a well digger 41 years of age and residing half a mile east of Caro, was drowned at Foster Dam, near Caro on Friday afternoon. He leaves his wife and 11 children, nine of whom are still at home.

Mr. Morse had finished work in drilling a well at the farm of Fred Jamke and accompanied by his two sons went to an abandoned lumber wharf at the Foster Dam to bathe. Not realizing the depth of the water, he stepped from the wharf into water 15 feet deep, and being unable to swim, he went to the bottom.

Both sons were expert swimmers, and when the man failed to rise, the boys dove after him. It was 30 minutes before the body was brought to the surface but his rescuers were unable to revive him.

## ITEMS OF INTEREST OF TRUMB POINTS

Gleanings from Chronicle's Exchanges Representing Three Counties.

The township board of Koylton, in Tuscola county, is offering a reward of \$25 for the apprehension of the parties who have been tearing down road signs.

The Sebewaing ball team has dropped out of the Huron county league. Lack of interest among the fans of Sebewaing is given as the reason. The team will probably play independent ball.

After dickering with Lapeer business men for several weeks, W. A. "Toy" Klein, formerly of Columbiaville and present resident of Flint at the Hotel Durant, announced that the Michigan Metal Toy Manufacturing Company, a national concern of which he is the head, will begin operations in Lapeer on September 1 of this year.

That the state police will be sent to Huron county to help collect delinquent dog taxes was the information contained in a letter received by Lewis Hill, county treasurer. A. H. Sauer, prosecuting attorney said that warrants were issued for all the delinquents August 16. At present there are 1,450 unlicensed dogs in Huron county and a strong effort is to be made to bring in all those who have failed to live up to the law.

Fire Thursday afternoon destroyed barn and building on the Myron Holbert and Clifford Wilson farms two miles south of Fairgrove. Threshing had been in progress at the Holbert farm and it is thought that in cleaning up the engine that some coals were blown into the straw in the barn. The fire was not discovered until it had reached the roof. As no fire protection was available the fire swept from the barn to the straw stacks and out buildings, destroying the separator and killing a three year old cow. Sparks from the huge blaze flew across the road and set fire to the buildings on the farm of Clifford Wilson destroying his barn and out buildings. As the house was locked neighbors broke windows and doors

to carry out the furniture. The farm homes were not damaged by fire but a tenant house of the Holbert farm was burned to the ground. It was not learned if the damage was covered by insurance.

The scene of the aeroplane wreck at the home of John Wells near Deckerville has been a regular mecca for the relic hunters who have visited the premises by the thousands since the fatal accident on Thursday evening, July 26, when George Adams, of Detroit, was killed and Homer Wells was seriously injured when their plane dashed to earth from an altitude of about 200 feet. An attempt was made by four men to carry the motor away but were frightened away by the Wells family dog. The wreckage has been almost completely stripped of everything which could be carried away, even to the tools and other articles of value. Homer Wells, who escaped with his life, still remains in an unconscious condition for a greater part of the time but the attending physicians say that he will recover, notwithstanding the terrible nervous shock.—Recorder.

Committees representing the Federated Woman's Clubs of Huron county met in Bad Axe Wednesday afternoon to consider further the matter of building a county tuberculosis sanitarium. Reports were given by the secretary, Mrs. MacFadden, of her investigation into the 10 other county sanitariums in the state. The most important thing done, however, was the decision to go ahead and build a sanitarium, because when a bunch of bright women once decide to do a thing it is quite impossible to change their minds. That decision means that the sanitarium will be built. First of all a site is wanted and the ladies are ready to receive tenders. Nothing has been decided in this direction. The next active work will be done at the county fair where the ladies will maintain a booth or tent with two members from each club in charge each day. They will sell tags and raise the first money for the project. Everybody boost!—Bad Axe Tribune.

## DETROIT REFINERS WON GAME HERE SATURDAY

Pitchers Hold Batter's on Opposing Teams to Five Hits Each in Good Game.

John Muntz recruited a snappy baseball team when he took his pick from the players at Caro, Akron, Bad Axe and Cass City to meet the White Star Refining Co.'s team of Detroit here on Saturday afternoon.

P. Nei of the local team and Ward of the Stars both pitched excellent ball, each one allowing but five hits. The Stars were assisted by two errors, one by the first sackman and one by the pitcher which placed two runners on bases in the sixth inning. Then Loftus came along with a three-base hit and the first two scorers crossed the plate. Another error in the eighth frame coupled with a hit resulted in another score for the Detroit team. The local nine were held scoreless.

The game was a snappy one throughout and the best played here this season. The Detroit team want to schedule another game here next month.

## AT THE SANILAC COUNTY SEAT

MISS ESKIL, COUNTY NURSE, WILL RESIGN; ROAD BIDS OPENED.

Sandusky—Sealed bids for the construction of trunk line highways M 27 and M 46 were received Thursday at the office of Ralph Ulbright, Sanilac county highway engineer, and the following low bidders were announced Saturday by Mr. Ulbright.

Angus McDonald of Omer with a bid of \$131,784.54 was the lowest both for the combination of the two gravel portions of M 27 between Carsonville and Croswell and for the combined two portions of M 46. The bid for the latter was \$88,417.51. The lowest bidder for the Croswell-Applegate section of M 27 was Moore-Elmer Construction Co. of Snover with a figure of \$66,530.16. The Deckerville Construction Co. bid \$67,282.02 and were second low.

For the Applegate-Carsonville section, Westphal, Leach and Westphal of Montrose were lowest with \$72,325.78 and the Bad Axe Construction Co. second with \$77,508.69. For the construction of one-half mile of pavement in Applegate the Moore-Elmer construction company of Snover was lowest with a bid of \$1,2776.50. The western half of the Carsonville-Sandusky project on M 46 was bid at \$45,789.98 by the Bad Axe construction company, lowest bidders and the eastern portion was bid at \$48,451.41 by the Deckerville construction company, lowest bidders on this project. Whether these bidders will be awarded the contract will be decided by the state administrative board at a meeting to be held this week. It is still undetermined, Mr. Ulbright said, whether contracts will be awarded in accordance with the low bids because of the various parceling of the sections of both highways.

Announcement of the resignation of Miss Norma Eskil, for two years Sanilac county Red Cross nurse to become effective Sept. 1 has been made. Miss Eskil, plans to enter Columbia University this fall for a year's course in public health nursing.

As yet no formal announcement of Miss Eskil's intentions have been received by Mrs. F. A. Corbishley, president of the Sanilac County Chapter, American Red Cross, but Miss Eskil intimated Tuesday that her formal resignation would be sent to Mrs. Corbishley this week. During her two years of service in Sanilac county, Miss Eskil has accomplished much in the cure and prevention of tuberculosis among the rural communities; she has established regular bi-weekly dental clinics at the rural schools and has conducted numerous better baby clinics in the various towns in the county. Besides these activities, Miss Eskil has identified herself with Mrs. Grace Kelly, president of the Sanilac county home service league in securing compensation and vocational training for disabled ex-soldiers.

It is still undecided whether a successor to Miss Eskil will be appointed immediately. Lack of funds and the reported disinterestedness of the Sanilac county board of supervisors makes it improbable that a new nurse will be sought at this time.

To stimulate greater interest in the prevention and spread of tuberculosis in Sanilac county Miss Sara-Jane Smith, field worker for the Michigan Tuberculosis association spent two days in the county this week where she interviewed Red Cross officials and talked with officers of the Sanilac county federation of Women's clubs. The program for 1924 was outlined by Miss Smith at each of these interviews and plans were made for a more intensive effort against the inroads of the dreaded white plague throughout the rural and civic communities of the county.

Marriage licenses issued this week from the office of Garfield M. Benedict, Sanilac county clerk, included: Anton Adams, 21, of Croswell and Carry Gall, 20, of Detroit. Stanley A. Taylor, 22, and Verna Thompson, 24, both of Minden City.

George Proctor, Elk township farmer, is now at liberty on a bond of \$1,000 until the September term of court.

## ALL GRAIN CROPS MADE SLIGHT GAIN

POTATOES, BEANS AND PASTURES SHOW SLIGHT DECLINE SAYS REPORT.

All grain crops, corn and hay have made a slight gain over one month ago in condition. Potatoes, beans and pastures show a slight decline. The rainfall during the month was unevenly distributed and there are considerable areas that show droughty conditions. The driest section, according to the August report issued by L. Whitney Watkins, Commissioner of Agriculture and Verne H. Church, Agricultural Statistician, U. S. Bureau of Agricultural Economics, extends from Manistee County southward to Allegan county and eastward including Kent, Ionia and Barry counties. Small areas in other sections are rather dry but crops as a whole are about normal.

Present indications point to another good corn crop in Michigan, the present condition of 90 per cent representing a production of 62,213,000 bushels, the fifth crop in succession to succeed 60,600,000 bushels. On good lands, the stands are excellent, the growth is large, and the stalks are earing well. Dry weather has caused some firing in small areas but no extensive damage is reported.

Threshing of wheat is well under way, much grain being threshed direct from the field because of extreme labor shortage. Returns to date indicate an average yield of 17.0 bushels per acre or a total winter wheat crop of 16,456,000 bushels. The average yield in Michigan is 16.7 bushels per acre. The quality of the grain is excellent and is rated at 90 per cent, two per cent better than last year and the ten-year average.

The condition of spring wheat is similar to that of other spring sown grains, the early part of the season being too dry. The present outlook is 80 per cent, representing a production of 125,000 bushels.

Oats continued to improve up to the time of cutting, and on heavy soils is a generally good crop except in localities where drought has prevailed. On the rolling and light lands the straw is very short but a good yield in proportion to the quantity of straw is expected. The probable production is estimated to be 48,045,000 bushels, or slightly less than that of last year. The portion of last year's crop still remaining on farms is reported as 7 per cent.

The condition of the potato crop is slightly above the average being 83 per cent as compared with 87 per cent last month and last year. Some of the seed was damaged by extreme heat following planting causing poor stands. Dry weather has also caused a spindling growth in some localities, but there are many fields in excellent condition. The present outlook is for a crop of 29,297,000 bushels on the 318,000 acres planted. Last year's final estimate was 37,842,000 bushels. The rainfall during the next four or five weeks, will be the principal factor in establishing the actual yield.

Clover and timothy hay was a light crop except in a few eastern and northern counties where ample rainfall produced a good yield. Alfalfa yielded well in most sections although not quite up to the average. The total production of tame hay is estimated at 3,408,000 tons or a little over one million tons less than last year. Considerable hay was damaged by rains in eastern and northeastern counties.

Field Beans: The crop is exceedingly good in nearly all sections. There has been a little local damage by dry weather, and there are some complaints of disease and failure to set pods. This has lowered the average condition two points from last month which was less than the average decline in July, hence the estimated production is slightly greater than that of July 1 being 6,825,000 bushels.

## I. K. REID BARN AND CONTENTS BURNED

Blaze Started Just Before Noon Tuesday, Probably Caused by Spontaneous Combustion.

Tuesday morning, just before noon, the barn of Ira K. Reid, north and west of town, caught fire, it is thought by spontaneous combustion. About five loads of hay, nineteen loads of oats with a quantity of both products left from last year and all the implements but the tractor, plus two silos and a fine chicken coop were consumed by the blaze which was still burning late Tuesday night and showed no signs of stopping.

Insurance as heavy as could be carried on the barn was the fortune of Mr. Reid to possess but it will take much more money to replace the barn.

**OVERWORKING THE PRESIDENT.**

The passing of President Harding emphasizes the fact that the people of the United States overwork their president. They minimize the tremendous responsibilities and the fearful strain their chief executive encounters in guiding their ship of state. They permit and even encourage such tasks as President Harding set before himself when he departed on his trip to Alaska. They expect, if they do not demand, that he subject himself to the arduous ceremony of public show. It is officially recorded that the president died of a cerebral apoplexy—something snapped in his brain—is the commoner way of expressing it. But by many of those who knew him intimately, his death will always be regarded as due to overwork at a period in life when most men in business begin to slacken the pace—the same overstrain which drove his immediate predecessor in the White House to retirement a broken, shattered man, forever doomed to a life of semi-invalidism.

From the great war Mr. Harding's administration inherited the most stubborn and perplexing problems in the history of the nation. America had repudiated the League of Nations, yet Europe and even bitter opponents of the League in the United States were looking to this country to play a leading part in world reconstruction. National morale was at a low ebb, due perhaps to the fact that Europe was torn with strife, convalescing, slowly and was constantly on the brink of a new major conflict. Business was bad, labor troubles menaced, moral standards had broken down under the false stimulus of wartime thrills. Mr. Harding, assuming the reins of office, pledged himself and his administration to "the restoration of normal, helpful and natural relations between nations and between individuals after the abnormal experiences of the war." How well he succeeded will be written in the history of generations to come. Only then will his true place among the presidents of the United States be determined.

On top of the great work he performed in the White House he believed it his duty to go before the people on his ambitious tour across the continent. He carried his message to the country. But he over-estimated the limit of physical endurance. Now the nation mourns not only a great president but a kindly and lovable man who was beloved by men of opposite political faith and even by his most severe critics. We most devoutly wish President Coolidge Godspeed in his expressed determination to "carry on" for his predecessor.

**EXECUTIVE HEAD OF MICHIGAN STATE FAIR**

**GEORGE W. DICKINSON**

George W. Dickinson, as secretary-manager, is the active head of Michigan's \$5,000,000 state fair. Since Mr. Dickinson took over the reins the fair has left a state of near bankruptcy and has shown a substantial profit each year. The result has been that the fair has had money to expend and that its credit has become so good that it will be an easy matter this year to dispose of the additional \$1,000,000 bonds for expansion, authorized by the legislature. The fair at Detroit this year will run from August 31 to September 9.

**BIG NEW STAND FOR STATE FAIR**

STRUCTURE IS PLANNED WHICH WILL SEAT 8,000 PERSONS

Among the \$1,000,000 worth of improvements that will be made at the great \$5,000,000 Michigan State Fair, which will be held at Detroit August 31 to September 9, this year, will be a new grand stand that will seat 8,000 persons.

This great structure will enable many more than usual to view the great events such as the horse races, the automobile races, the big fireworks demonstrations and other contemplated features such as ball games and the like.

This place, where there are two splendid race tracks—mile and half mile—in full view of the entire audience, and the new giant coliseum which will hold about 18,000 persons are the great general gathering places of the hosts of visitors who annually come to this the nation's greatest exposition.

Hence, it is the desire of the secretary-manager, George W. Dickinson, and the members of the board to make comfortable accommodations at these points for as many persons as possible so that all visitors to the fair may view the costly attractions that have been arranged for their benefit and amusement.

Early indications are that there will be held at these two points in the fair grounds certain great special events that many additional thousands are expected to come from near and far to witness. Efforts are being made to bring to these events men of great national prominence and entertainments of nation-wide popularity.

**STATE FAIR TO BOOST HORSES**

BIG INCREASE IN PREMIUMS ANNOUNCED BY MANAGER DICKINSON

Horse lovers of Michigan have received with pleasure the announcement of George W. Dickinson, secretary-manager of the Michigan State Fair, that at this year's \$5,000,000 exposition in Detroit, August 31 to September 9, horses are going to receive more attention than ever before. Premiums of \$42,786 will be given this year to the prize winning horses as compared with \$17,000 last year.

All classes of horses will enjoy a part in this department of the nation's greatest show event. The classes that have been represented in previous years will all be present again as well as new entries.

Extensions and additions being made under the \$1,000,000 bond issue will make it possible to accommodate a number of entries so large that it will probably be the greatest horse exhibition ever seen in the United States. But if the anticipated rush occurs even the great space allotted may prove too small. Early entries therefore will be to the interest of all concerned.

**ART BUILDING AT FAIR**

Fifty thousand dollars will be spent on an Art Building by the Michigan State Fair to encourage the art-

Lester Day has been spending a few days in Flint.

No, the times are good in comparison. We think back to the early 50's. Haying and harvesting accepted wages were 50 cents per day. A letter sent from Europe unpaid cost 24 cents postage here. Our fathers worked half a day to get a letter out the post office. The writer never went to Royal Oak P. O. without being armed with the 24 cents—if a letter was there we pulled her out. We carried eggs, 8 cents per dozen; butter 6 cents per lb—one-half money and one-half store trade. Note ye tillers of the soil what we once suffered and feel that you live in a fortunate age and the reins have fallen to you in pleasant places.

The Deford school starts Monday, Aug. 20, with May Bruce teacher of the lower room and W. C. Rogers of Mayville, instructor of the upper room.

# INDIA IS GIANT FAIR FEATURE

### THRILLING SPECTACLE AMONG \$50,000 FREE SHOWS

## TONS OF FIREWORKS TO BE USED

Hundreds of beautifully costumed princes, maharajas, maharajas, natives, soldiers, British officials, with live elephants, gaily caparisoned howdahs and mohats, horses and cars of Juggernaut will pass in review at the big fireworks spectacle "India" which will be one of the \$50,000 free attractions at the Michigan State Fair, August 31 to September 9, Secretary-Manager George W. Dickinson announced.

"The feature, with a weaving mass of actors and animals typifying a great oriental pageant, is probably the greatest of its kind ever produced," Mr. Dickinson said.

"The ancient custom of Suttee, or immolation of the widow on her husband's funeral pyre will be one of the subjects treated in the spectacle. This is a custom that the British authorities have tried hard to suppress, but is still carried on in various parts of India. Efforts to eradicate it have caused much trouble for the British government among the natives.

"Two full carloads of fireworks and equipment will be used in this exhibition. The shipment includes more than 20,000 square feet of scenic settings, literally tons of rockets, bombs, set pieces and pyrotechnic paraphernalia, together with material for the 500-foot outdoor stage on which the production will be held."

A staff of fireworks experts will arrive a week or so before the fair to build the structures and select the cast for the pageant.

# CHICKEN SEEKS HONORS AT FAIR

### EGG AND PRODUCTION CONTESTS TO BE FEATURES IN DETROIT

Michigan's best looking chickens are going to furnish a few thrills in the shape of an egg laying contest at the \$5,000,000 Michigan State Fair which will be held from August 31 to September 9. In addition, there will be a production contest in which the biggest eggs will take the honors.

Lectures will be given each day by E. C. Foreman, associate professor of poultry husbandry at the Michigan Agricultural College, who is superintendent of the fair's poultry department.

Mr. Foreman will tell farm and city folks how they may pick out a good chicken by the looks and feel, and what steps they should take to get better production in their chicken yards.

"This will be one of the farm subjects that will appeal to many city as well as rural dwellers," said George W. Dickinson Secretary-manager of the fair. Thousands of persons living in cities have small chicken yards and the information Mr. Foreman will give them will enable them to cut the cost of living still more.

"The information to be gleaned from this department is especially valuable for the farmers to look to his poultry flocks for a share of his income. The application of the scientific principles demonstrated at this exhibit will, if the lessons made use of, result in greater production and bigger profits."

## ALL GRAIN CROPS MADE SLIGHT GAIN

Sugar Beets: Fields present a varying condition, ranging from stands of 50 per cent or less up to perfect stands. Moisture has been insufficient in some sections but on the whole the growth is satisfactory and the condition is 85 per cent, one per cent higher than last month.

Tomatoes have maintained the same condition as one month ago, 86 per cent. Cabbage show a decline of one per cent to 85 per cent. Early varieties are being harvested and marketed. Onions now show a condition of 87 per cent, having improved five per cent as a result of rains in the main commercial districts.

The estimate on the agricultural crop of apples is increased to 12,045,000 bushels as compared with a total production last year of 11,850,000 bushels. The present commercial outlook is for 2,008,000 barrels as against 1,699,000 barrels produced in 1922. The early crop is being harvested in the southwestern counties where it is much lighter than the winter varieties. The total crop is heavier as one travels northward through the state. The quality is the best in a number of years.

The peach crop is maintaining its earlier favorable prospect, the present indications pointing to a crop of 1,172,000 bushels as compared with a production of 1,440,000 bushels last

year. The early varieties are being harvested and marketed. The peach crop is one of the poorest of the fruits this year. The outlook for the state is only 45 per cent of a crop, or 356,000 bushels.

## SERIOUS CHARGE FACES BRADLEYVILLE MAN

Sam Solko is confined at the county jail awaiting trial on the charge of assault and battery less than the crime of murder. He was arrested by Sheriff Colling Sunday at Bradleyville where he was charged with striking a woman and inflicting injuries which rendered her unconscious for 12 hours. She is still in a serious condition. Jacob Koroblo and Mike Kockenski were companions of Solko at the Bradleyville party and were arrested on a drunk and disorderly charge. Both men were fined \$15.

Earl Peets and Melvin Johnson were arrested Saturday charged with selling and having intoxicating liquor in their possession. They waived examination in justice court and were bound over to the circuit court. They live at Vassar.

Sheriff Colling and deputies raided the homes of Max Marker of Elmwood township, near Bach, and Vignond Derwinski at Bradleyville Wednesday. Two barrels of mash, three gallons of whiskey and a still are reported found at Marker's place and a still and four gallons of whiskey at Derwinski's. Both men were arrested and placed in jail to await arraignment.

Deputy Sheriff Cartwright arrested Chas. Stemplitz, Elmer Jahr, F. Pitcher, Philip Graves and Chance Adams at Unionville Friday night on a charge of chicken stealing. Justice Grinnell assessed each man a fine of \$33.50.

## GETS 60 DAYS ON LARCENY CHARGE

When Mrs. Arthur Anthes, a widow, discovered that chicken thieves had visited her Novesta township farm Saturday night, she telephoned local officers her loss about eleven o'clock. A call was also sent to Sheriff Colling. The home of Harry Nowland at Cass City was raided Sunday morning at two o'clock where some of the chickens were found cooking on the stove and Nowland and seven companions waiting for the feast. "Moonshine," officers say, was being served before the anticipated supper.

The party were taken to the county jail and Monday arraigned before Justice Brown. Nowland's companions included youths of 17 and 18 years of age and the seven were released on suspended sentence and placed on probation for 90 days, after paying costs. Nowland, recognized as the instigator of the crime, was sentenced to 60 days at the county jail and fined \$25 on the larceny charge.

## AT THE SANILAC COUNTY COURT.

Concluded from first page. Circuit court when he will be prosecuted on a charge of violation of the liquor law. Proctor as arrested early Saturday morning when deputies from the office of Mrs. Emily McGuinness, sheriff of Sanilac county, raided his Elk township farm home and found a quantity of alleged moonshine liquor. Proctor was arrested and the liquor confiscated. When arraigned later in the day before John Hyslop, justice of the peace here, Proctor failed to plead and a plea of not guilty was entered for him. He was ordered to appear for trial at the September term of circuit court. Proctor's arrest brings the total of arrests in Sanilac county for violation of the liquor law during the past two weeks to five.

Two prominent Speaker township farmers, William Randall and William Lincoln pleaded guilty to the unlawful exchange of automobile license plates before John Hyslop, justice of the peace here, and drew fines of \$20 and \$30 respectively. They were arrested by Dick Holdburg, county traffic officer.

Bruce Church of Shabbona paid \$29 including fine and costs for driving his automobile without the license plates as required by law. He was tried before Thomas E. Dawson, justice of the peace here.

Nelson Welsh of Port Sanilac will appear for trial before the September term of circuit court to face charges of assault and battery preferred against him by Harley Barber also of Port Sanilac.

## HOUSE OF DAVID TEAM PLAYS AT BAD AXE FAIR

### County Historical Pageant Presented by 400 Actors in Three Hours' Time.

The Bad Axe Fair, Aug. 28-31 offers a lot of feature stuff this year that is entirely new at fairs in this part of the state and they should draw some great crowds. In fact the management is confident that the total attendance will reach 40,000 people and they are making arrangements to care for this many.

The county Historical Pageant on Tuesday, Aug. 28, takes up all of the first day except some free acts. This will be a great spectacular affair in which 400 county people will take part and wear costumes and regalia valued at \$5,000.00. Several experts are now training the 400 actors who will take part in the great fire scene of 1871 and '81, the early Indian days with Indians in war paint, camp fires, etc., the coming of the trappers and hunters, the first settlers and their ways of living, the early lumber days, later primitive farming. Civil war days enacted by old soldiers. The World War by the Am. Legion boys in full uniform, fishing scenes in Saginaw bay, etc., all ending with a grand finale and parade representing the present greatness of the Thumb country, Mich. and the United States. The Pageant will take three hours' time. Two bands will furnish music.

A feature of Wednesday will be a ball game between the famous House of David Team at Benton Harbor and an all star nine picked from Huron, Sanilac and Tuscola counties. The long haired Benjaminites have just toured the eastern states and Canada, drawing big crowds. The county horse shoe tournament will also begin on Wednesday. On Friday at 4 p. m. will take place the drawing for the \$1310.00 six cylinder Jewett car, on which 200,000 tickets have been circulated by Thumb merchants.

As usual the live stock show will be big again this year. Last year it was credited by M. A. C. officials with being second to the Detroit show in Michigan. Over \$1,000 have been added to the stock premiums. The free acts are entirely new. The management has cut out all the old trapeze stuff that has been familiar for 10 years. One of the acts will go direct from Bad Axe to a big state fair and another is booked for the West Mich. Fair at Grand Rapids.

There will be an animal circus, dog and pony show and newest of all a big Kangaroo from Australia which boxes with its trainers like a man. This act is new in Michigan. The midway has many new and interesting attractions, but no carnival—No illegal gambling—Entire midway on the square—A full mile of attractions—All clean and decent—No skin games.

## MORE NEW STUNTS TO FEATURE GREAT CARO FAIR

### Greyhound Races, Horse Races, Free Vaudeville, Fireworks, Funny Shows and Riding Devices.

Never before has such an extensive program of free entertainment features and amusement devices been presented at Caro Fair as those announced for this season's exposition, August 20 to 24. As usual the glittering, dazzling night show with its myriads of multicolored lights in artistic arrangement, and its superb free vaudeville on the great outdoor stage in addition to its superior fireworks display each night will be a strong factor in attracting the huge crowds that are always seen at that fair. No one really has seen Caro Fair and Carnival until the night show has been enjoyed as well as the daylight fair.

According to statements made by the management, new departures may be noted this season, and all the good old-time fair features are retained. With the ever increasing new forms of unusual, yet enjoyable recreation offerings at the big fair, patrons should not lose sight of the fact that various agricultural, live stock and numerous other exhibits, fundamental principles of any fair, are not only retained but proportionately enhanced and worth your time to visit.

With horse races a permanent attraction, it will also be of interest this season to see the country's new and popular form of speed contest—greyhound racing—every day.

# POULTRY

## BLACKHEAD IS MOST DEADLY

When Disease Appears Afflicted Members of Flock Should Be Isolated for Treatment.

The most dangerous and deadly disease that afflicts turkeys is known as blackhead. It is so called because its one outward distinguishing characteristic is that in mature turkeys the heads turn dark. Only the heads of turkeys too young to show red do not turn black. Inside the fowl, one will discover if a post-mortem is held, the liver will be enlarged and spotted, and the large colon will usually be empty while the small one is often crammed with a hard substance.

As soon as this disease puts in its appearance, the afflicted members of the flock should be removed for separate care. Use air-slaked lime, or any convenient disinfectant, freely about roosts and feeding place. In the mash fed to turkeys three to four months old mix thoroughly one tablespoonful of oil of turpentine to each 20 well fowls. Increase the dose gradually to two tablespoonfuls. After a week cease, but begin at once upon reappearance of the disease. Use a proportionate amount for younger turkeys.

Blackhead, unless caught in its very early stages, is usually fatal and only the stoutest poult will recover. The sick fowls require a great deal of attention in addition to the turpentine in soft food recommended above for the well fowls, the sick ones should have a daily dose of two or three drops of turpentine to each fowl in a small amount of bran and meal mash. The sick ones should be fed forcibly if they decline to eat, and should not be allowed much water to drink. For an infected old turkey, give a tablespoonful of olive oil every few days in addition to the turpentine.

Some say that blackhead is not a communicable disease in so far as one fowl will "catch" it from another. However, the germs live a long time, whether in infected soil, coops, fixtures or what not. Often blackhead is a disease of captivity, of management, or of improper feeding. Improper feeding, in the average case, means overfeeding. The feeding of turkeys must be regarded merely as supplementary to what is obtained on the range and the amount should be regulated accordingly.

### PLANNING FOR FALL PULLETS

It Is Well to Figure on at Least Five Eggs for Every Fowl Going Into Laying House.

How many pullets are you planning next fall?

At this time of the year, according to W. H. Allen, extension specialist in poultry husbandry of the New Jersey state agricultural college, every poultryman should start planning for the number of pullets that he expects to put into the laying quarters next November.

Too often the poultryman finds when he goes to fill his house with pullets that he has not the number that he needs to fill it, and as a result often carries over too many hens which will not pay him nearly as well from a market egg standpoint as good early hatched pullets.

If one is hatching his own eggs, it is well to count on at least five eggs for every pullet that is to go in the laying house. Figuring on the expectation of a 50 per cent hatch and also on the assumption that for every pullet that is hatched there will be one cockerel, it will take four eggs for every pullet that is hatched.

From records kept by poultrymen a 10 to 20 per cent mortality is to be expected in rearing the pullets; therefore, a good poultryman figures five to six eggs for every bird that is to be put in the laying house the next fall.

### POULTRY HINTS

Early to rise and late to roost—that's a good hen.

If you expect the best results in raising chicks, do not use pullet eggs.

Newly-hatched chicks should not have any feed for 36 hours after hatching, and in most cases 48 hours is better.

A good concentrate or egg mash for hens is suggested as follows: One hundred pounds cornmeal, 100 pounds wheat bran, 100 pounds wheat middlings, 100 pounds gluten feed, 100 pounds meat scrap.

A sick hen may be faded like a good layer, but she will lack the vigor shown by a good layer.

A chicken preyed upon by parasites has poor chances to make anything of itself. Blood-sucking insects sap its very life.

If you have no incubator and must use hens for hatching, always choose the gentle hens for mothers of your flock. Put the floggers and all excitable hens in the pen and break them from sitting.

**Poet Interpreter.**  
The poet is an interpreter, actuated not only by emotion and the gift of expression, but by insight and wisdom. No other function of the poet is more universally recognized. Poet and prophet were the same with the Hebrews, and no men now are more truly infidels than those who deny the wisdom of the poets.—Henry van Dyke.

**New Device for Tempering Steel.**  
The steel for rock drills must be tempered with great accuracy and this is done automatically. The steel is held in the furnace by a magnet, against the tension of a spring, and when the required temperature is reached, the steel loses its magnetism and is withdrawn by the spring.

### COLOR SCHEME FOR THE CHILD'S BEDROOM

A color scheme of slate gray and cherry red is very attractive as well as practical for a child's bedroom. The tiny chest of drawers is painted gray with red painted cherries decorating each drawer and the gray painted mirror is hung by red cords. Gray sateen piped with cherry red and apple green with red cherries makes the window seat cushion, the window draperies and the cover for the red painted single bed. The drawers under the window seat are for toys.

Two municipal landing fields in Detroit for air-craft, complete air mail service, new commercial air lines, city and state legislation for aeronautical development and use of air-craft for the state forest patrol—these are some of the aims of the Detroit Air board, organized in Detroit. The formal meeting was held at the Board of Commerce. In a national way, the new organization will work for the establishment of a new department of the federal government, its head to be a member of the cabinet, and for an academy of aircraft.

The Saginaw post of the American Legion elected as its delegates to the state convention at Ironwood, August 27-29, the following: Wilber M. Brucker, George F. Metcalf, Hector F. Allardice, Guy M. Palmer and Harry Ladouceur. Alternates are Christopher J. Armstrong, J. A. Gecunda, Alfred Ochsenkehl, Shirley W. Corrigan and Robert Schwartz. The auxiliary of the post also chose delegates. They are: Mrs. Adelaide M. Whipple and Mrs. Mary Spencer Paine; alternates, Mrs. Nina Pike and Miss Meta Klenke.

Detroit will be visited Aug. 25 by General John J. Pershing. It is expected, incidental to resumption of his military tour of inspection halted by the death of President Harding. According to a wire sent General George Van Horne Moseley, commanding officer at Camp Ouster by Major-General Harry C. Hale, commanding officer of the sixth corps area, General Pershing will resume his trip and carry out the original schedule.

Genesee county now has its first woman deputy school commissioner. She is Miss Belle Jordan, former deputy in the county clerk's office and one of the best known school teachers in Genesee county. The appointment of Miss Jordan by Miss Florence Nichols, recently elected county school commissioner, now places the destinies of the rural schools of Genesee county entirely in the hands of women.

Eugene Miller, arrested several weeks ago on a charge of attempting to wreck a passenger train on the Pennsylvania lines near Manton, pleaded guilty to the charge and was sentenced by Judge Fred S. Lamb to from 15 to 25 years in Marquette prison. Miller, at the time of his arrest, claimed he wanted revenge for having been thrown off a freight train some time previous.

The order of Harugari concluded its convention at Alpena, by choosing Marshall, for the convention in 1924. The following officers were elected: Oscar Ehrman, Kalamazoo, president; Max Kramer, Detroit, vice-president; Paul Richter, Lansing, deputy; Ernest Wilms, Detroit, secretary; Mrs. Ottillie Moew, Detroit, and John Eibler, Ann Arbor, trustees.

Twenty-nine brush fires which sprung up from three miles north of Pellston to Mackinaw City are believed to have been caused by sparks from engines. The worst fires were at Levering and Carp Lake. Section men and residents of the various towns fought the fires which gained rapid headway because of the dried condition of the land.

Two aviators, who hopped off from Milwaukee in the first attempt to fly across Lake Michigan in a land plane, successfully completed the trip, according to reports issued. The aeroplane landed at Holland, 57 minutes after it had left Milwaukee.

Petitions in the village and township of Erie for the purpose of raising funds with which to purchase fire equipment, have been circulated. As soon as sufficient funds have been obtained a permanent organization will be formed.

A building bee of at least 100 American Legion men of the eighth and tenth districts of Saginaw will join in the erection of a big bunk house at the legion camp, Higgins Lake.

Charles J. Deland, Secretary of State, has suspended the licenses of 20 Detroit motorists. Licenses of 11 drivers from other sections of the state were also suspended.

About 200 delegates attended the annual state convention of the Ancient order of Hibernians and its auxiliary at Grand Rapids.

George Drake, 48 years old, a carpenter, was killed instantly when he fell on his head from the roof of the new barn on the Smith Guy farm near Blanchard.

Miss Virsel Roe, of Franklin, Ind., has been appointed assistant professor of economics at Hillsdale college. Miss Roe received the degree bachelor of arts from Franklin college in 1919, being graduated with honors in her major subject, mathematics, and "cum laude" in course.

The State Board of Equalization, met to hear protests on assessments. Efforts will probably be made to increase the valuation of the state, which for several years has been at or below \$5,000,000,000. Figures presented to the board indicate, according to O. B. Fuller, auditor-general, that the tentative assessed valuation this year would be at or near \$6,000,000,000, and he expressed the opinion that the board of equalization, of which he is a member, would place the state valuation at that amount at least.

Arrangements for a co-operative marketing report on grapes between Michigan, Ohio, New York and Pennsylvania have been made by W. P. Hartman, director of the bureau of foods and standards of the state department of agriculture. These states, known as the Chautauque Grape Belt, furnish the greater part of the grapes used in the eastern states. Formerly home markets were overstocked while others were without any grapes. As the season is very short, this resulted in heavy losses for the growers and shippers.

Eben Kronkhitte, Lawton farmer, who has lived six weeks with a broken neck, was removed from the hospital in Kalamazoo to his home with every prospect of living an indefinite time, according to his physician. He was removed on a cot especially constructed to hold his head stationary. Should he attempt to raise or turn his head, the doctors believe death would result. Kronkhitte was kicked by a horse he purchased for \$5.

With a record of having taken only two half days off because of illness in 54 years, W. J. Russell, foreman in the Pennsylvania railroad shops at Grand Rapids, plans to retire in about 18 months. Four years after the Civil war Russell started to work for the railroad as an apprentice in the shops at Fort Wayne, Ind. Eight years later he was promoted to be assistant foreman in the railroad paint shops in that city.

Mrs. Caroline Marantette McLoughlin, 85 years old, claimed to be a direct descendant of King Henry of Navarre, was buried at Sturgis. She was one of the oldest pioneers of St. Joseph county having been the first white child born at the Nottawawasepi reservation in 1838. Her father was Patrick Marantette, a member of the Michigan legislature in 1848.

Ten tanks of live trout, whitefish and perch, weighing from two to five pounds, were shipped recently from Charlevoix to the Lincoln Park aquarium at Chicago, where they will be placed on exhibition. Fishing is one of the important industries of Charlevoix, where are located branch offices of three companies that ship to all parts of the United States.

The state conservation department is engaged in ridding Kent county lakes of gar fish that prey on edible game fish. A crew now is working on Wabasis lake, the largest body of water in this county. A 5,000-foot net is being used. Operations have been carried on in Murray lake and then will be continued in Lincoln lake.

Lee Dudgeon, convicted three weeks ago of manslaughter, in connection with the death of Romie Hodell, victim of the so-called "death cycle" of White Cloud, Newwayo county, was sentenced from two and one half to fifteen years in Ionia reformatory by Judge J. D. Barton, of Big Rapids, last week.

Six delegates were chosen from Monroe to attend the Michigan American Legion convention at Ironwood August 27 to 29, representing Carl F. Payson, post number 60. They are: Oliver J. Golden, George W. Stoner, Edward C. Maurer, Kenneth Kemmerling, V. V. Spicer and Carl Goetz.

After 21 years the missing heir in the estate of Celestia Hasbrouck has been found. Mrs. Hasbrouck left \$250 to her niece, Nellie H. Hasbrouck. Through the efforts of a Grand Rapids attorney, the niece was located in the state of Washington.

Olaf Romblom, of Detroit, guest of his son, Henry Romblom, was gored to death by an infuriated bull, while he was helping look after the cattle. Death came before a physician could reach the suburban farm home near Cheboygan.

The state conservation department is transplanting bass from the straits region into the inland waters of the county around Cheboygan.

Between 75 and 100 potato growers and crop experts took part in the annual tour of the Michigan Potato Growers association, which started from Lansing. J. W. Weston, of Michigan Agricultural college, who has charge of the tour, announced.
