## TUSCOLA COWS WIN

### NATIONAL RATING

HONOR ROLL OF AMERICAN HOLSTEIN-FRIESIAN ASSO. INCLUDES LOCAL ANIMALS.

Tuscola county cows, owned on farms near Vassar, have earned ranking on the national honor roll of the American Holstein-Friesian Association for the past year, according to information given out this week by the dairy division of the Michigan Agricultural College.

Eden White Rose, of the G. W. Ridgeman farm, earned second place for fat production and fourth place for milk production in her class, with 161 records from all over the country competing. At the age of two years and eleven months, she turned in a record of 19,446 pounds milk and 706 pounds of butterfat in 305 days.

Eden Hope, owned on the same farm, took twenty-fifth place in the junior three year old class for seven day fat production, with more than 1,000 records entered. Her mark was 570 pounds milk and 23 pounds butterfat in the seven day period.

William Higgins, also near Vassar, earned a place among owners whose animals "made" the honor roll, when his Cass River Peter Mary placed fourth in the senior two year old class for seven day butterfat production. Her mark was 485 pounds of milk and 23 pounds butterfat in the week's test. A total of 1,191 records were entered in this class.

All records included in the honor roll are handled under the general supervision of M. H. Gardner, of Wisconsin, Superintendent of Advanced Registry for the United States. The Michigan statistics were compiled by E. B. Hint, of the Michigan Agricultural College dairy division, which handles the record work for the state.

## LATE SEPTEMBER AUCTIONS ARE ANNOUNCED TODAY

Three Farm Sales Will Be Held in This Community Next Week.

In late September come the first of the fall auctions in which many farmers are interested. Three are announced in the Chronicle today.

James G. Read, residing 5 miles east, 1/2 mile south and 1/2 mile west of Cass City, because of his continued ill health, has decided to dispose of Jersey cattle and farm implements at auction next Tuesday, Sept. 25. R. N. McCullough will cry the sale and full particulars are printed on page 8.

W. O. Coleman has rented his farm 2 miles north and 2 miles west of Hemans and will move to Pontiac. He will have a farm sale on Wednesday, Sept. 26, commencing at 12:30 p. m. at which time horses, 12 Holstein cows and heifers, swine, poultry, farm implements, etc., will be sold at auction by Auctioneer T. B. Tyrell. Full particulars of sale are printed on page 6.

Vern Allen has decided to quit farming and will have an auction sale 3/4 mile south of Novesta Corners on Thursday, Sept. 27, commencing at 1:00 p. m., with T. B. Tyrell in charge. Space is used on page 6 to describe the horses, cattle, sheep, poultry, farm implements and produce offered for sale.

For several years, the Chronicle has been recognized as an excellent auction sale advertising medium and farmers will be much interested in this feature of the paper's contents for the coming six months. The newspaper is recognized as the best auction advertising medium and buyers look to the Chronicle for advertisements of auctions to be held in near-by townships in the three counties.

## DUNCANSON-LEE

The marriage of Miss Jessie Duncanson daughter of Mrs. Margaret Duncanson, of Ann Arbor, to Harold Willets Lee of Detroit, was solemnized Friday afternoon, Sept. 7, at 5 o'clock in the Hotel Statler. Only immediate friends and relatives witnessed the ceremony at which the Rev. Irwin Bradford, pastor of the Forest-av. Presbyterian church of Detroit, officiated.

Miss Duncanson was graduated from Alma college and since then has been engaged in the teaching profession, spending her last two years in the South University-av. school, Ann Arbor.

Mr. Lee was graduated from the literary college and law school of the University of Michigan and is now a practicing attorney in Detroit.

Both Mr. and Mrs. Lee are also graduates of the Cass City high school, the former being a member of the Class of 1914 and the latter of the Class of 1913.

## EPWORTH LEAGUE ELECTED OFFICERS SUNDAY

The Epworth League of the M. E. church met Sunday evening last and elected the following officers: President, Miss Elynore Fenn Bigelow; 1st vice president, Miss Horner; 2nd vice president, Miss Lucile Corkins; 3rd vice president, Miss Helen Reid; 4th vice president, Darwin Bailey, and ass't, Wesley McBurney; secretary, Edwin Fritz; treasurer, Miss Eva Cole. A cabinet meeting will be held this week to formulate plans for the coming year.

## A. A. P. McDOWELL WRITES DESCRIPTIVE LETTER

Former Enterprise Publisher Tells Many Interesting Facts of His Home City.

Victoria, B. C. September 10th, 1923.

Dear Sir:—

Your valuable publication reaches me regularly and is read with continued interest, notwithstanding the fact that its columns contain abundant evidence that an absence from your village of seventeen years allows for many changes. A large percentage of the names now appearing therein are strange to me; and you have reported many of those whom I was pleased to number among my friends, in the years gone by, as having crossed "The Great Divide" between this life and the next. However, I am still pleased to find a goodly number of items referring to those of my former acquaintance, and I have many times wondered if I could send you anything which would prove of interest to your readers from this particular corner of the earth. Here goes an attempt at it, anyway, and should the attempt fail, and the product be consigned to the maw of the ever-yearning waste paper basket, I will endeavor to find consolation in the saying of—was it not one of the graduates of the Cass City high school who said: "Tis better to have tried and failed, than never to have tried at all!"

Victoria is one of the oldest cities in Canada, or, I might say, in North America. The discovery of Vancouver Island, at the southern extremity of which this city is located, dates back to 1592, and the honor of the discovery goes to Juan de Fuca, after whom the strait which separates the island from the mainland to the south, now a part of the state of Washington, was named. Some national dispute arose over territorial possession, and the historical accounts regarding the "Nootka Affair" and the first landing at Clayquot Sound, make very interesting reading. The two last places mentioned are up the west coast of Vancouver Island.

Captain Vancouver made his landing here in 1792, and the claim of Great Britain was conclusively recognized by the treaty of 1846. Previous to that time, the Hudson's Bay Company, operating through most of the new western territory, both north and south of the fifty-ninth parallel of latitude, had instructed James Douglas, one of their chief officials, to choose a site for a new post. In search of a desirable location, he landed here in 1842, named the place "Camosack," and decided to locate the new post and fort here. The name was changed to "Camosun," just how or when is not known, later to Fort Albert, in honor of the then prince consort, and later to Victoria, in honor of the queen.

In 1849, Victoria was made the headquarters of the entire western territory under the Hudson's Bay Company, James Douglas placed in charge, and the British Government made a grant of the entire island to the company. No doubt that seemed a small thing at the time, from the viewpoint of those who had it in their

## BUSINESS OF HANDY R. R. FAIRLY GOOD AND GROWING

General Freight Agent Says D. B. C. & W. Has Good Prospects of Continuing.

General business on the bankrupt D. B. C. & W. railway, since the hearing in July has been fairly good. General Freight Agent F. D. Goldberg states, and although not above the normal, it has been such that he believes the permanent operation of the road is assured. Since the hearing, the road has shown a normal amount of business, even more than normal, perhaps considering that it was operating during the lightest part of the light traffic season. With the general pick up in railroad traffic in the next two months, the business is expected to increase accordingly. The road under question handles much of the sugar beet business of the Thumb, and this crop as well as hay and others, has been exceptionally good this season.

## The Pace That Kills

## DEALERS WARNED AGAINST LOANING TRANSIT PERMITS

Heavy Penalties Can Be Imposed for Practice That Is All Too Common.

The following communication relative to the use of dealers' license plates and transit permits has been sent out by the secretary of state with a request that action be taken: "Complaints are coming to this department in practically every mail, that many dealers throughout the state are again misusing and abusing courtesies and privileges extended to them by the state, in the use of dealers' plates and transit permits. "It has been a common practice for years past, especially just at this season of the year, a few weeks before the half rate for license plates goes into effect, and again at the end of the year or a few weeks before the new license plates are permitted to be used, for many dealers to loan their dealers' plates or authorize the use of transit permits on cars they sell for periods varying from one week to two months.

"Dealers' plates cannot be used on service cars, on pleasure cars for family use, and to loan to any person for use on any motor vehicle a dealers' plate or plates is a violation of the law for which heavy penalties are imposed. "Numerous cases have been taken into court by the department, complaints having been made against the dealers and the person operating the car with the plates on, where convictions have been had and the penalties assessed, and in three aggravated cases the dealers' license to operate in the state has been suspended and his plates confiscated."

## EARL HELLER WILL ESTABLISH BRANCH PLANT AT PIGEON

Ivan Vader, Head Baker Here for Several Years, in Charge of New Bakery.

Earl Heller has completed arrangements for opening up a branch bakery at Pigeon, having leased the north wing of the Leipprandt store building in that village. Orders have been placed for the oven and other equipment and it is expected that the bakery will be ready for operation early in October. Ivan Vader, who has been employed as head baker at the Heller's Bakery at Cass City for several years, will be in charge of the Pigeon plant.

## JURORS ARE DRAWN FOR FEDERAL COURT

Complete lists of the 110 traverse and 80 grand jurors for the October term of the federal court at Bay City have been given out at the clerk's office.

Deputy Marshal Daugherty will commence serving the summons on the jurors residing in Bay and Saginaw counties sometime next week. Service will be made on the remaining jurors by mail from Detroit offices of the United States court for this district. The grand jurors are ordered to report in Bay City on October 2, which is the day the October term of court opens. The traverse jurors do not report until October 9, one week later, as there can be no jury trials until after indictments have been returned by the federal grand jury.

## IVA HACK WINNER IN GOLD MEDAL CONTEST

Judges Found Little Difference in Points Awarded the Four Participants.

Heavy rains on Tuesday, September 11, made it necessary to postpone the gold medal contest of the W. C. T. U. at Kingston for a week. The weather man sent showers again on the 18th, but the weather cleared up by night and a fair sized audience greeted the four contestants at the Kingston M. E. church. The judges found the participants strong contestants for the honors, the points won by each varying but little. Miss Ira Hack of Deford proved to be the successful one and was presented with the gold medal. The presentation was made by Mrs. George Bates of Kingston in a very appropriate speech. The success of the contest was due in a great measure to the efficient man-

## agement of Mrs. W. S. Hubbard of Deford.

Miss Laura Jaus and Miss Irene Kaiser gave piano solos, and the Misses Eva Cole, Theima Warner and Phyllis Lenzner contributed readings to the program. Mr. Martin of Kingston rendered a vocal solo and the church choir gave a selection during the evening.

## HEAVY COAL DEPOSIT FOUND AT SEBEWAING

Four feet and 8 inches of coal was struck by the coal testing machine last week on the farm of Ernst Grasmann near Sebewaing. The coal, which is of the same fine quality as that found at the plant of the Sebewaing Sandstone Brick company three weeks ago, lies at a depth of 80 feet, about the same depth as that at the brick plant. The coal on the Grasmann place lies below a heavy bed of fire clay.

## OFFICERS FORGET DREAMS TO AID IN MARRIAGE RITES

County Clerk and Deputy Work Overtime Saturday Night to Accommodate Woovers.

County Clerk Guy Hill was roused out of bed by four young people who came to Caro Saturday night, and after arriving at the county seat, decided to get married. Guy sleeps pretty soundly around eleven o'clock, but the young woovers finally awakened him, and after telling him their wishes, the accommodating clerk hurried to the court house to make out the necessary papers.

Marriage licenses issued, there was lacking the officiating gentleman to perform the ceremony. Justice Robert Brown, who is also deputy county clerk, was summoned out of his dreams and at 11:30 the two couples were united in wedlock and made happy through the "overtime work" of the obliging county officers.

## STEERING KNUCKLE BREAK SENDS TRUCK INTO DITCH

Mr. and Mrs. L. E. Dickinson Were Both Injured in Accident Sunday.

The breaking of the steering knuckle on the left front wheel made it impossible to keep L. E. Dickinson's truck on the highway and it landed in the ditch breaking the cab and windshield, bending the fender and otherwise damaging the truck. Mr. Dickinson, who was driving, was accompanied by his wife, and both he and Mrs. Dickinson were badly injured in the accident. Mrs. Dickinson's left arm was put out of joint and she carries several bruises. Mr. Dickinson received several severe cuts about the face, hands and legs.

## AWARDED FIRST GROUP PRIZE AT STATE FAIR

Local Pig Club Members Receive Individual Prizes Which Total \$36.00.

The boys' and girls' pig club of Cass City was successful in winning first place in a club group at the State fair at Detroit in the Chester White class. The club group was composed of four Chester White gilts.

In addition to the group award, individual prizes were given to exhibits of club members as follows: 2nd, Mabel Crandell, \$15.00; 3rd, Ernest Goodall, \$12.00; 6th, Arlan Hartwick, \$6.00; 7th, Watson Spaven, \$3.00.

Willis Campbell, teacher of agriculture in the Cass City Schools and John Sims, county agricultural agent, both of whom assisted in the local club work, and the Pinney State Bank, organizer and sponsor of the club, have each received a letter from the Chester White association complimenting them on the success of the boys and girls in their first venture in this work.

## DETROIT POLICE PLAY HERE NEXT MONDAY

John Muntz has booked the Detroit Police Dept. base ball team to play at Cass City next Monday afternoon. Mr. Muntz is recruiting a fast team and intends to keep the long end of the score with the local team.

## POTATO OUTLOOK

### IS IMPROVING

BEAN YIELD IS QUITE DISAPPOINTING IN MANY COUNTIES IN STATE.

Practically all crops declined in condition during the month of August according to the September report issued by L. Whitney Watkins, Commissioner of Agriculture and Verne H. Church, Agricultural Statistician for Michigan. Dry weather continued throughout the greater part of the month, and cultivated crops that had held up well in previous months showed the effects of drought to a marked extent in many sections. Rains near the close of the month and during the early days of September will benefit late potatoes, sugar beets, pastures and other late maturing crops.

Cool weather has relayed maturity of corn although dry weather has dried up many fields. In the best sections, the stalks are well eared and well filled, but in many counties the ears will be short and considerable areas show a decided lack of ears. The present estimate indicates a crop of 60,150,000, a decline of over 2,000,000 bushels since August 1, and a slightly smaller crop than produced in 1922. For the United States, the estimated production is 3,975,786,000 as compared with 2,890,712,000 bushels last year.

The crop of spring wheat has become a relatively unimportant one in Michigan, the estimated production being only 125,000 bushels this year. Oats—The straw was short in western and northern counties but proportionately well filled. Harvesting is completed, but in some northern and eastern counties rains discolored the straw and grain. Based on the final condition report, the production will be 48,508,000 bushels or about 1,000,000 bushels less than last year. The United States has an estimated crop of 1,311,687,000 bushels as against 1,215,486,000 last year.

The outlook for potatoes is improving since the recent rains, a crop of 30,013,000 bushels being forecasted from the present condition of 78 percent. Last year's crop totaled 37,842,000, the acreage having been larger and the weather conditions more favorable than during the current season. The nation's crop is about 70,000,000 bushels less than it was last year, or a total of 389,674,000.

The bean crop did not set as well as usual, and the pods are only partly full.

## LARGE NUMBER GREET

MRS. E. M. RUSSELL

President of State Federation Gave Address at Presbyterian Church Tuesday.

A large audience of ladies, a number of whom were from neighboring towns, greeted Mrs. Dorian M. Russell, of Grand Rapids, president of the Michigan State Federation of Women's Clubs, at the Presbyterian church Tuesday afternoon, at the first meeting of the year of the Woman's Study Club.

The meeting was opened by singing "America, the Beautiful" and was followed by a short business session during which Mrs. I. A. Fritz, the retiring president, presented the club gavel to Mrs. A. D. Gillies, the new presiding officer. Mrs. Gillies responded in a short appropriate talk during which she thanked the ladies for the honor conferred upon her and asked their hearty co-operation.

The program was opened by a beautiful piano solo by Mrs. Roy Bricker. Mrs. Russell then delivered an address dwelling particularly upon individual responsibility. She explained the relation of the small club to the general federation. Among other things she said the day of the untrained leader is about to depart and every woman should be placed where she can do the most efficient work. It was a very helpful discourse to club members.

Tuesday evening a social time was enjoyed at the home of Mrs. A. A. Ricker by the club members and their guests. A short program was given consisting of the following numbers: piano duet, Mrs. Roy Bricker and Mrs. E. Smith; readings by Miss Ellen Palm and Mrs. J. H. Holcomb. After a pleasing and instructive talk by Mrs. Russell light refreshments were served.

The next meeting will be held in the club rooms on Tuesday, Oct. 2, and will be designated as "Better Homes Day." The following program has been prepared: "Design of the House," Mrs. H. F. Lenzner; "Interior Decoration and Furnishing," Mrs. J. D. Brooker; "Harmony of House and Grounds," Mrs. J. L. Cathcart. Roll call, Modern Inventions Beneficial to Women.

**INDUSTRIAL STATESMANSHIP**

Governor Pinchot of Pennsylvania has stopped the anthracite coal strike before it was fairly well begun. His action reveals what a state executive can do if he has courage.

How did he do it? Did he call on the federal courts? No. Did he call the troops? No. He simply called on common sense.

Common sense told him that he couldn't mine coal without miners. Injunctions and threats and rifles wouldn't take the place of miners. So he couldn't propose a settlement on the operators' terms and expect to get coal.

He could, however, propose a settlement on the miners' terms and compel the operators to accept or get out of the way and allow the state to mine the coal. There obviously was great justice in the miners' demand. Pinchot couldn't see the justice of their whole demand, but he saw sufficient to justify his course. A week of moral pressure, the only kind of pressure he had upon the miners, enabled him to win them over to his program of partial relief.

So coal will be mined. The eastern states will not suffer and the country has seen something new in industrial statesmanship.

**AID FOR THE STRICKEN.**

Measures taken by this country for the relief of stricken Japan are said to be unparalleled in history. The United States, experienced in relieving foreign distress in these last bitter years, has surpassed itself.

The whole American public seems to have been moved by one impulse, sharing the sorrow of an alien race and eager to alleviate its suffering.

And it is a race lately thought of as hostile!

All this eagerness to help Japan in trouble is just as real as would have been the eagerness to win if the nations had drifted into war through blundering statesmanship. And it is far more constructive and beneficial than war could ever have been to either country.

Helping Japan, America helps itself. The gifts of goods and money and service are easily spared, and they will return a hundredfold in international good will and material profit, though few are thinking of that now.

**THRIFT IN OUR SCHOOLS.**

Our schools reopened a few weeks ago, and it is appropriate that we give thought at this time to the important problem of thrift instructions to the young. In a recent statement, Secretary Hughes of the U. S. government said: "The primary lesson for the citizen of democracy is self-control, and this is achieved only through self-discipline. As I look back upon my life I find the best lessons were the hardest."

It is important that our boys and girls be given thrift instructions, because of the things briefly referred to in this quotation from the U. S. Secretary of State. Thrift develops self-control and self-discipline, and we do no kindness to any child when we pamper it, when we make the way too easy, or when we foster the idea that life has no hardships.

More and more the subject of thrift is being taken up in our schools, and no educational movement is of greater importance. A few moments a day spent in the correct instruction of school children on these practical matters will prove of incalculable benefit to our nation and to all humanity.

**A CHANGE NEEDED.**

If reckless speeders only caused their own deaths, there would be little cause for grief on the part of the public, but in most cases they escape while their innocent victims are sent to their graves or crippled for life.

One of the government's weather directors is named Shivers, and he has been doing his stuff too much this summer.

Life is just one coal parley after another.

Mexico has been recognized. Now watch her try to flirt.

**McDOWELL WRITES DESCRIPTIVE LETTER**

Concluded from first page.

power to make such a gift, as very few except the individuals representing the company here had any idea of the value or the possibilities of development. A few conditions were attached to the gift, in regard to colonization, and requiring the payment of a few shillings a year to the crown.

The fact of the company's ownership may account, in some measure, for the retarded development of the area, for they have never been noted for encouraging development of the territories in which they have worked. Vancouver Island is even yet not well known. It is approximately 285 miles in length and from 40 to 80 miles in width, with an area of between 16,000 and 20,000 square miles, variously estimated. The main formation is mountainous, the four highest peaks being: Victoria, 7,484 feet; Albert Edward, 6,968 feet; Alexandra, 6,394 feet; Crown, 6,082 feet, with Arrow-smith and the Beaufort range slightly under 6,000 feet, and a number of others of considerable height. But there are fertile valleys and much large timber, some of the largest timber now being marketed in the world coming from Vancouver Island.

The Esquimalt & Nanaimo Railway, a subsidiary of the Canadian Pacific railway, has lines running from Victoria, via Nanaimo to Courtenay, a distance of about 150 miles, and from Nanaimo to Port Alberni, 50 miles more, while the Canadian National Railways have approximately 150 miles of trackage, giving a partial service, using gas cars for passengers from Victoria to Sooke and on to Mile 69. The Canadian Pacific also operates a very complete system of steamers, for service between Victoria, Vancouver and Seattle; all along the Coast as far north as Alaska, and across the Pacific to Japan and China. Their steamer which makes the trip along the entire west coast of the island is one of the staunchest on the entire Pacific Coast and needs to be, for those who are familiar with that trip say the Pacific is wrongly named, for they encounter some of the most severe storms and several boats have been wrecked, with loss of lives, during the last year.

Vancouver Island was first made a colony of Great Britain, with Sir James Douglas the first governor, who resigned his position with the Hudson's Bay Company as the duties of the new position increased. The miners of 1849 came to Victoria for most of their supplies and gave the new city no little impetus, until in 1858 it had a population of 5,000. It was incorporated as a city in 1862, and had a steady though not rapid growth. The gold rush of 1898 to the Klondyke brought a remarkable trade impetus. Today the city and suburbs shows a population of 60,000, covering an area of 4,637 acres; 47 miles of paved streets, 120 miles of sidewalks, 60 miles of boulevards, a \$2,000,000 sewerage system; with a splendid water service, the main supply for which comes from Jordan River, a distance of 50 miles. There is excellent electric street car service, as well as interurban cars running out a considerable distance, while motor busses and jitneys add to the transportation facilities.

Among the attractions for visitors, probably the two most interesting are the dominion astrophysical observatory and Butchart's sunken gardens. The former has one of the largest telescopes in the world and the latter have an ever-widening reputation for beauty. The gardens are made in the bed of an extensive quarry from which cement deposits have been taken for manufacture.

The mean temperature at Victoria is 48.6 F.; maximum, 89.0; minimum, 1.0; rainfall, 35.51 inches per annum. Points farther up the island have greater extremes in temperature and more rainfall. The same is true of Vancouver city on the mainland. During some winters we have sufficient frost to form ice on the inland waters strong enough for skating, but this is not to be depended upon and so does not encourage skating as an outdoor sport. We have a large rink, however, where artificial ice is used and some very exciting hockey games are played. There are a number of golf courses in and near the city and it is claimed that often golf may be played for the entire twelve months without a break of more than a few days.

Although the summer is usually dry, the heat is not at all excessive, and the rainfall is sufficient to make a wonderful showing in tree and shrub growth and the floral display rivals California. Fruits do well and the small fruits from Victoria and vicinity are rapidly becoming known as the very best obtainable in the markets of the Prairie provinces and elsewhere. Strawberries and loganberries have been the leaders as regards fresh fruit shipments, but local canneries are putting up all kinds of fruits and vegetables for the markets of the world.

We cannot boast of extensive industries, aside from lumber, fish and fruit, but the time is not far distant when the advantages here for all kinds of manufactures will be recognized and taken into serious consideration. The coal deposits on the island have long been classed as of the best and many California cities have been supplied from the Vancouver Island mines for the last thirty-five years. There are many other valuable minerals, some of which have been located and are being mined, but many of the locations are

awaiting transportation developments to make them of practical value. While the fishing industry has developed remarkably and large shipments are made annually to the various countries of the Orient, there is sure to come even greater development.

Lengthy as this letter may already appear, it would not be complete without a few lines regarding the scenery and accessibility of the beauty spots on the island. The number of tourists is increasing amazingly each year as these are becoming better known.

Motor cars may be driven to many of the most beautiful parts of the island, for probably a distance of more than five hundred miles, with an abundance of splendid camping sites and ready access to towns and villages for supplies. One may choose fishing in inland streams or lakes if they prefer it to deep sea fishing and, in season, there is an abundance of small game, with some larger game in the more remote parts. Generally speaking the roads are excellent and are being improved every year.

The question of prohibition has been exceedingly contentious here. We had a prohibition law on the statute books, indifferently enforced, which was very unsatisfactory on that account. Through what appears to me a blunder, made by a government leader with the best intentions, the opportunity was given to vote on so-called "government control," and the people, dissatisfied with what they had and hoping for something better, gave a strong majority therefor. I do not wish to make any statements which can not be fully substantiated, but I doubt very much if any government can control the liquor business by becoming a party to that business. Indications here would not lead one to such a conclusion. Many of us are hoping for a decided change in the near future and are watching with much interest and hoping for the ultimate success of the attempts of Uncle Sam to effectually bury John Barleycorn.

With kindest regards to yourself and all old-time friends in Cass City and vicinity, I remain,  
Yours very truly,  
A. A. P. McDOWELL.

**First Showing of "Mode of the Moment" Dresses for Fall**

We are now featuring a newly created and most exceptional collection of frocks by MOSHONTZ in the mode for Fall. Distinctive, smart, correct to the last detail of design and tailoring, they will be accorded instant appreciation by women seeking exclusiveness and individuality in apparel. As the number of models we were able to secure is necessarily limited, early choosing is advised.

*At the right*—An exceptionally distinctive youthful model produced in Canton Crepe.

*At the left*—This smart and unusual model of Satin Canton is embellished with three-quarter inch all-over tucks.

The four models pictured are featured in the September Shopping Number of "VOGUE" Magazine

They are typical of the smart originality of "Mode of the Moment" dresses we are now showing.

One reason, of course, for the especial appeal of "Mode of the Moment" dresses, is their unusually moderate pricing. In the assortment we are now showing there are models at \$25 to \$55 each representing a value you will recognize as exceptional.

*Above*—Silk and wool Crepe Cloisone is used in the development of this extremely attractive frock.

*Above*—The circular flounce, a new style note, features this charming model in Satin Canton.

**POTATO OUTLOOK**  
IS IMPROVING

Concluded from first page.

ly filled, especially in the dry sections of the state. The condition is 10 per cent lower than on August 1. The yields are quite disappointing in many western and central counties. The present outlook for a crop of 6,506,000 bushels is due to the heavy acreage as the yield is not large except in the more favored sections. Harvesting is well under way and some damage has been caused by rains in various localities. This injury will probably reduce the merchantable crop several hundred thousand bushels below the above figure. It is expected that Michigan's crop represents fully 65 per cent of all the white beans in the United States this year.

Sugar Beets—The condition of different fields varies widely, ranging from poor to excellent. The present condition of 83 per cent represents a production of 897,000 tons. The 1922 crop was 593,000 tons, the acreage being far less than that planted this year.

Late rains are improving the size of winter apples which will tend to off-set the drop that has taken place because of dry weather in some counties. The present outlook is for a production of 12,133,000 bushels of which 2,221,000 barrels is expected to be strictly commercial. The nation's total crop is placed at 189,787,000 bushels which is about 14,000,000 bushels less than last year's. The commercial portion of the United States' crop is 33,390,000 barrels, or 2,200,000 barrels greater than in 1922.

The peach crop is expected to total approximately 1,125,000 bushels, whereas in 1922, 1,440,000 bushels were produced. The total crop for the United States is 45,381,000 bushels; in 1922 it was 56,705,000 bushels.

Pears are light and the crop is placed at 341,000 bushels as compared with 672,000 last year.

Grapes are being harvested and the shipments are expected to be around 5,600 cars this year, or 500 cars less than in 1922. There is some increase in bearing acreage which partially overcomes the lower yield being obtained this year.

**MRS. RAYMOND SPENCER.**

Mrs. Raymond Spencer passed away at the home of her parents, Mr. and Mrs. J. Britton, in Greenleaf township, Tuesday night, September 18, after an illness of nine months' duration. Funeral services will be held at the Holbrook church this (Friday) afternoon at two o'clock, by Rev. A. G. Newberry. Interment will be made in the Elkland cemetery. Echo Chapter, O. E. S., of which Mrs. Spencer was a member, will conduct the burial service at the cemetery.

Marie L. Britton was born in Adams township, Hillsdale county, Michigan, May 12, 1899. She came with her parents from Ohio to Greenleaf township on May 13, 1913. On July 1, 1915, she was united in marriage with Raymond Spencer. Two children came to gladden their home.

Besides her parents, husband and two children, a boy of 9 and a girl of 5, she leaves two sisters, Mrs. Robert Spencer and Miss Florence Britton, both of Greenleaf township.

**But Not So Easy to Take.**  
An ounce of honest criticism is worth more than a pound of flattery.

**GEO. SILVERNAIL.**

George Silvernail was born in Wright township, Hillsdale county, Michigan, in 1853 and departed this life Sept. 15, 1923, at the State Hospital in Pontiac, Mich.

In 1872, he was married to Miss Carrie Wells, who died in 1880 leaving two daughters. In 1881, he was married to Miss Candace Slater, who died in 1897 leaving three sons. In 1901, he married Mrs. Sabra F. Otis, who with the sons are left to mourn the loss of a loving and devoted husband and father. The daughters preceded their father in death about 30 years ago. Mr. Silvernail was converted to God in a camp meeting and joined the Free Methodist church. Until his death, he lived a sincere and devoted Christian and was ever about his Master's business.

The funeral service was held Tuesday afternoon at Wilmot, Revs. Davis and Anderson officiating. Interment was made in the Kingston cemetery.

**Letting in the Light.**  
Books are like the windows of a great tower. They let light in. Every life is a growing tower. It is put up stone by stone. The higher it grows, the darker it gets if we do not put in a window here or there to give light. That is what a book does to life. It lets light into that life. Some lives are so dark that the folks who live them grope up the winding stairs, dust covered and gloomy, because there are no windows and consequently there is no light.

**Valuable Gum Mines.**  
Probably the only gum mines in the world are in New Zealand, where there is a whole district in which fossilized gum from trees that died centuries ago is found a few feet below the surface. The substance is valuable, for it makes the best kind of transparent varnish, and many fortunes have been made by men who have worked it.

SOPHOMORE AND JUNIOR CLASSES ELECT OFFICERS

Home Economics Dept. Is Busy Beginning Lessons in Canning Fruits and Vegetables.

Senior High—Overwhelming, wonderful, astounding miraculous cleverness has been displayed by the generally stupid Frenchman. Proof of this valuable asset was certainly shown Saturday morning, and with it was mixed that dear quality courage, for didn't the members of this class shake slumber from their eyes in time to arrive at the place of festivity at 6:00 a. m. (?) Napoleon himself was never more strategic and sly. After a week of deception these noble braves held their famous weenie feast without the aid of upper classmen (except four or five who would have much rather been at home sleeping soundly). The class of '27 must surely have a lucky star! The remodeling work on the building is practically complete and great convenience is found in the division, by a partition, of the library and office.

The following students joined our ranks last week:—Alfred Gowen, Dorcus McLeod, Harland Bond and John Brackenbury.

The home economics department is busy this week beginning lessons in the canning of fruits and vegetables and the making of pickles.

The Sophomore class met last week for the election of officers. Donald Skinner was re-elected president and Dorcus McLeod and Florabel Urquhart were chosen for the offices of vice president and secretary-treasurer respectively.

The junior class have also elected officers as follows: President, Bernice Hitchcock; vice president, Mildred McConkey; secretary and treasurer, Laura Wright. Also the following finance committee was appointed: Maurice Dailey, Eleanor Nique and Garrison Moore.

Agriculture Department—The field crop students are busy this week selecting corn while the market conditions are being closely observed by the animal husbandry class. Through the "Breeder's Gazette," the classes are trying to determine the "why" of the fluctuation of prices. An addition to magazine material, "The Drovers Journal," is found a great help to this department.

Junior High—Miss Bessie MacLarty leaves us this week as she is moving to Detroit.

So far our attendance has been exceptionally good but we find that we haven't as many enrolled this year as we had last year.

Sixth Grade—Florida is a very interesting subject and we would think it quite a treat to study it if it wasn't just plain geography. Every one is very much excited over our mental arithmetic contest.

Francis Elliott was absent part of this week to go to Niles where he will have his eyes re-tested for glasses.

Fifth Grade—Latitude and longitude are puzzling us very much this week as our geography demands that we understand it. But we wish it had never been invented.

Hannah MacLarty leaves us this week and will hereafter attend a school in Detroit.

"September" is a very pretty poem and anyone of us can speak it for you as we memorized it for language this week.

Fourth Grade—Lester Battle was absent one day last week as the result of a fall which cut his face up pretty badly.

We're having lots of fun and work in our arithmetic contest this week. "The Village Blacksmith" is a poem we've just learned to love. We memorized it last week.

Third Grade—Our window box is so very pretty—it seems to make our room so much brighter. We're awfully glad they moved it back into our room again.

Irene Hall won't be coming to school with us any more because she's going to live in the country now.

Second Grade—We're working oh, so hard this week to keep up our attendance. We're trying to win the attendance and punctuality banners this month and we ought to win because we've had only one absence and two tardy marks so far.

First Grade—Lawrence Tibbals, who would have been with us this year if he hadn't moved to Ann Arbor, called on us one day last week.

Kindergarten—Caterpillars are fuzzy wuzzy little worms and we're learning a lot more about them this week, and making quite a collection of them. We made some pictures of gold fishes too and then we cut them out.

We're talking a lot about the different kinds of weather and are learning the names of the days of the week.

GAGETOWN.

Mr. and Mrs. Robinson and Mrs. Farrington are visiting at the home of N. C. Maynard.

Mrs. Elsie Bettis left Saturday to spend a few days in Pontiac.

Mr. and Mrs. Frank Mallory and children of Chicago are visiting the former's parents, Mr. and Mrs. Molloy.

The M. P. ladies' aid society met at the home of Mrs. John Gill Thursday of last week.

Mrs. Geo. Clara and daughters, Martha and Belle, spent Sunday at the home of Floyd Turner of Caro.

Ross Ostrander was a caller in town Sunday.

Miss Florence Smith and Miss Belle Clara leave Saturday for Mt. Pleasant where they will attend the normal.

Mr. and Mrs. Noble and son of Detroit are visiting at the home of Mrs. T. F. Smith.

Mrs. Spanen of Ellington spent several days of last week with her cousin, Mrs. Henry McConkey.

Mrs. I. Leach of Saginaw was the guest of Mrs. Geo. Williams a few days of last week.

Mr. and Mrs. Earl Hurd spent the week-end in Davison.

Mr. and Mrs. Peck and children of Akron spent Sunday at A. J. Palmer's.

Dell Tobias of Akron was a caller in town Monday.

Arthur Carolan spent several days of last week in Detroit.

Mr. and Mrs. Jay Calley and children of Colwood and Mrs. S. Calley spent Tuesday evening at the home of N. C. Maynard.

Mrs. Leo Kehoe entertained Miss Myrtle Munro and Miss Maggie Kastner at a six o'clock dinner Tuesday.

McCONNELL SCHOOL NOTES.

Alice Ballagh and Ila White, reporters.

Our motto is "Work while you work and play while you play."

The fifth grade are learning the poem, "Hiawatha's Sailing," for language.

Mildred Wills started to school this week.

Sixth grade geography are studying rotation of the earth.

Ina Otis visited school last Friday. We have many beautiful bouquets to brighten up our school room.

We are reading the book entitled "Old Mr. Crow" for morning exercises.

The eighth grade are studying the thirteen colonies for history.

We had a geography match Friday which was enjoyed by all.

COURT NEWS.

George Brown of Akron township and Geo. Rabideau of Elmwood township were arrested by county officers on charges of violation of the prohibition law. At hearings before Justice Robt. Brown at Caro, Brown waived examination and was bound over to the circuit court, while Rabideau demanded a hearing. The date for this was set for Sept. 26.

A small quantity of peaches taken from an orchard near Kingston proved quite a bit more expensive to three local men than a much larger quantity of the fruit would have cost if purchased from local dealers. Lewis Brooks, Floyd Zapfe and Anson Guinther appeared before justices on charges of larceny. Brooks was ordered to pay \$7.00 costs by Justice Brown. Justice Isaac Cragg assessed \$7.80 costs to Zapfe and \$10.20 to Guinther.

Not a Bad Description. A new neighbor came to call on me, and she brought her small four-year-old boy. This child was a striking child with red hair. He was the first child Elaine had happened to notice with such bright locks, and she walked right up to him and said, "Why, your hair is regular setting sun color, isn't it?"—Chicago Tribune.

TWICE-TOLD TESTIMONY

Cass City People Are Doing All They Can for Fellow Sufferers.

Cass City testimony has been published to prove the merit of Doan's Kidney Pills to others in Cass City who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Cass City people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Cass City case: Mrs. J. Walmsley, S. Pine St., Cass City, says: "I have taken Doan's Kidney Pills off and on whenever necessary during the past years and they have never failed to do me good. For backache and other trouble I couldn't recommend anything their equal. I get Doan's at Burke & Co.'s Drug Store."

Doan's Always Helped Her Three years later, Mrs. Walmsley added: "I have used Doan's Kidney Pills now and then since recommending them and I have always received the same good results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Walmsley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advertisement

MELVIN HAS ANOTHER "SENSATION"

(Peck Times). Sworn statements of seven Melvin boys, aged from 10 to 14 years, alleging the vilest kind of debauchery on the part of Rev. O. R. Bowman, formerly M. E. minister at that place, have been placed in the hands of Prosecuting Attorney Robert J. West and a complete investigation of the alleged charges will be made by the county authorities. Bowman came to Melvin from Uby last September and at once became a leader of the boys, acting as Boy Scout Leader and in other capacities. When the affidavits were presented to the church authorities, Bowman was immediately removed from the charge at Melvin and has left for parts unknown. Two weeks ago when he returned from Niagara Falls with a group of boys he found a placard on his window signed by the Ku Klux Klan. He at once left town but has been back since on two occasions, and on the last visit one of the boy's father chased him for three miles in an effort to catch him. Feeling against the preacher is intense, and the opinion prevails that he will not return unless found and brought to trial by the authorities. If the charges are true the minister should be apprehended; if untrue he should have a chance to clear his name, for if true no more revolting or nasty crime has ever been committed in this county.

FAMOUS MEN ARE ALSO HUMAN

(Allegan News). Up in Bad Axe there is a weekly which differs from the average Michigan weekly newspaper in one respect. It has on its staff a Yale professor. Not only is he a Yale professor, but he is an outstanding figure in America's literary life. The esteem in which Professor William Lyon Phelps is held in literary circles of America stamp him as among the foremost men of his time. His connection with the Bad Axe Tribune is not that of chief editorial writer. That is the interesting part of it. He "covers" Huron county for the Tribune, sending in the usual personal items in the stamped envelopes furnished by the newspaper, the same as is done by thousands of other rural correspondents for the country press. For instance note these excerpts from his "Huron City" letter in a current issue.

Huron City. Professor Phelps will preach in the church here next Sunday at 3

o'clock. Everyone will be glad to see the organist and full choir back in their places.

Mr. and Mrs. Larson have gathered a great many quarts of fine ripe strawberries, which were never better than this year.

Many attended the ice cream garden party at Mrs. Al Thompson's at Grindstone.

Mr. and Mrs. John Weston, with John Jr., drove to Bad Axe last Saturday.

The Ladies' Aid met here on Tuesday.

Human nature is pretty much the same whether you are on the Yale campus or Main St., Bad Axe.

THUMB NOTES.

County Clerk G. M. Benedict of Sandusky closed a deal for two pairs of silver black foxes, buying them of the Tip Top Silver Black Fox Co., of Lakeport, with a view to getting in the fur production on a large scale. Raising fur bearing animals in captivity is a comparatively new enterprise but with permanent and growing demand for furs, perhaps it can safely be listed among the best ventures of the day.

The first bill from the Great Lakes Co. for electric current has been received and shows that the reduction in expense to Crosswell is going to be much more than was at first expected. The bill for the month was for 28,900 kws. and was billed at 3.55 cents per kw. making a total of \$1,027.04. When under the old system the average cost of coal alone was over \$1,000 per month, the figures given above can be readily appreciated. If this is to continue the city of Crosswell should and will have an asset instead of a liability in the electric lighting plant.—Jeff.

It is said that a number of Crosswell sports got trimmed at the Sandusky fair trying to buck the guys at their own game. It is a poor chance that the outsider has with any of these gamblers and when one goes against them he is pretty liable to get plucked.—Jeff.

Benjamin F. Reed, 48, Lapeer attorney and former prosecuting attorney of Lapeer county, died unexpectedly of heart trouble as he stepped from his car into the road 12 miles west of Lapeer Thursday morning.

Bad Axe won the Thumb base ball championship in a series of two games with Vassar, leaders in the Tuscola league. The first game on Friday resulted in a 3-1 score and on Sunday Bad Axe led by a 4-3 score.

Stray Bits of Wisdom. Reason teaches us to be silent; the heart teaches us to speak.—Richter.

CASS CITY HAPPENINGS TWENTY-FIVE YEARS AGO

Items from the Cass City Enterprise of Sept. 22, 1898.

H. S. Wickware returned Saturday evening from a very enjoyable visit to his old home at Mallorytown, Ont., also calling on friends at Brockville, Lansdown and Toronto.

The fair management will open an office at the Tennant House the first of next week when entries can be made and all other necessary business receive proper attention.

Over \$3,300 worth of live stock was shipped from here on Saturday by Schwaderer Brothers & Striffler. We rather guess that compares favorably with other towns even larger.

A number of young folks from this place attended the play "The Commercial Drummer" given by the Episcopal people of Gageton last Thursday evening. They all report a good entertainment.

The Cass City Bank has just received from the government \$1,000 in silver. Small change has been so scarce lately that it has been almost impossible to do business, but Mr. Auten thinks that they will be able from this time to supply all in need of change.

With good weather this week will about finish the water works trenches and pipe laying. A force of forty-three were at work on Tuesday and excellent progress was made. A portion of the electrical goods is already on hand and it now seems reasonable to expect an early completion of the system.

Cassius H., son of O. C. Wood, bade his many friends goodbye on Tuesday morning and left for Albion, where he will begin a course of study. He is one of our most promising young men and has held the position of president of the Epworth League for over eighteen months, and in which connection he will be especially missed. We join his host of friends in wishing him God speed.

Agent Vanderkooy has been entertaining his father from Grand Rapids for past week.  
Many are setting out berries in our burg, and 'tis worthy of notice that 'tis the aged ones who are putting out the brush.  
We did not set it down, so dare not raise the right hand and say positively, but think there are only about four months between falls of snow this season. If our head is not awry, 'tis four months summer and eight months winter.  
For more than fifty years we have noted things and can recall that every few years a people that claim they were born for a purpose, start an organization to save the nation. It blusters for a time fed by the imagination of a diseased brain and then dies.  
Benjamin Gage, formerly of Deford, now in Detroit hospital is recovering from his late illness.  
The frost of Sunday morning did injury here.  
Frank Spencer, owner of the George Roberts farm, is remodeling the farm dwelling.  
There is more building and improving of building in our town than when material was cheap. New York hasn't room to spread; not so with Deford.  
There are things that happen in every burg that correspondents don't afflict the readers with. The people of the place are acquainted with the particulars and it would do outsiders no good to hear them, while the town would suffer from the stench that always rises from unmanly conduct. This explains why even truth should not be told at all times.  
Cucumbers will fall far short of the average crop.  
E. R. Bruce has his new wood shed finished.  
Firpo promises to be back in a year. That's the time he asked to fit up when the match was made.

**NOKO.**

Mr. Sutherland, who now has Mrs. Emily Leslie's farm on shares, has recently purchased the Albert Vatter property and purposes locating there before another spring.

A son has lately arrived to brighten the home of Mr. and Mrs. Clayton Chard. Mother and son are reported doing well at the present writing.

T. McPherson, who has been employed in Detroit all summer, spent Sunday at his home here.

The past heavy rains have damaged the bean crop to some extent here, but those not pulled are not supposed to be much injured.

Mr. Pringle, who is employed in Detroit, spent a few days here with his wife and family, the little son having recently undergone an operation.

Mr. Dorman of Snover accompanied Rev. Mr. Mustard to the church here Sunday afternoon. The reverend gentleman delivered a fine discourse. Subject, "Great Is the Mystery of Godliness." He is blessed with more than common ability and magnetism and we expect to have a full house in future whenever he is to preach here. Come and hear him next Sunday evening, Sept. 23.

Mrs. Emily Leslie's mother, Mrs. Libkuman, we hear, has recently passed away and we have not learned the date of death. The deceased was an old resident here for many years and all the neighbors unite in sympathy for the relatives who remain to mourn the loss of a good and faithful mother, who we all believe is now walking the streets of the new Jerusalem.

**Keeps Your Engine With You**

It is never behind your whim. Answer—flexibility and a response so instantaneous as to make the machine seem part of yourself.

Flexibility comes from even vaporization at definite temperatures.

Even vaporization is possible only when there is a perfect chain of boiling point fractions. The chain in Red Crown gasoline is perfect, producing a steady, unbroken flow of power.

**Drive Your Own Car?**

Then you'll appreciate Red Crown gasoline. You get the joy of perfect performance— instant starting— a snappy get-away—eager acceleration—sustained pulling power—racing speed if you want it—maximum mileage per gallon.

Red Crown is the year 'round gasoline—it performs with equal efficiency winter or summer—it vaporizes to the last drop. It leaves a minimum of carbon and fouled plugs. These are important features in cold weather driving.

Michigan Happenings

Michigan peaches are going as far south as Tampa, Fla., as far west as Omaha, Neb., and as far east as Boston, in carload lots, according to a report by the United States department of agriculture. This is a country-wide penetration of approximately 1,000 miles in three directions.

The state has a cash balance of \$26,983,170.98, the monthly report of State Treasurer Frank M. Gorman issued recently, revealed. Remaining in the various funds of the state is \$25,497,156.38. Disbursements for the month of August from all the funds amounted to \$4,338,126.58.

Deputy Secretary of State Elbert V. Chilson has returned from Chicago where he attended a conference of secretaries of state from all mid-western states held for the purpose of discussing uniform traffic laws. The Lansing official was named a member of two important committees, being placed on the committee for drafting uniform laws for automobile light regulation, and on the one appointed for uniform automobile signals.

The executive committee of the State Association of Farmers' clubs has decided to hold its thirty-first annual convention in Lansing, December 4 and 5. The committee is composed of Lee Noble, Oxford, president; W. A. Cutler, Grass Lake, vice-president; Mrs. I. R. Johnson, Rushton, secretary-treasurer; Mrs. J. S. Brown, Howell; G. A. Millsap, Oxford; Edgar Burk, St. Johns, and W. J. Brookings, Ovid.

The Michigan Trust company, as receiver for Manistee & Northeastern R. R. Co., asked the interstate commerce commission for authority to abandon its Honor branch extending from Platte river, to Empire Junction, a distance of 16 miles. The application stated that the branch served only the village of Honor, which has a population of 150, and was not earning maintenance costs.

Russell Corey, 7-year-old son of Mrs. Bertha Corey, living near Nashville, narrowly escaped death when he fell down a 65-foot well on his mother's farm. He was playing with his brother, when he raised a plank to look down the dark shaft. He slipped and slid in, feet first. There was 10 feet of water in the well, and coming to the surface, he grasped the steel pump shaft and climbed to the top.

Illness has been unknown among the 600 men in the prison road camps maintained by the state since their establishment, according to reports to the state health department. Not a single case has developed where a man was unable to work. This condition is said to be due to the rigid health rules maintained by the state department.

Dr. Guy L. Connor, of Detroit, was elected president of the Michigan State Medical society at its 103rd annual conference at Grand Rapids. Dr. Connor has been a member of the house of delegates. In his election, the society broke precedent and elected him unanimously from the floor.

Captain Walter E. Campbell, president and general manager of the Detroit and Windsor Ferry company, and one of the most widely known sailors on the great lakes, died at his home on Peche Island.

Not more than 10 of the surviving members of the famous first regiment Michigan Engineers and Mechanics, were able to attend its 5th annual reunion at the Hotel Pantlind, at Grand Rapids.

Coming in contact with an electric current of 4,600 volts, while adjusting an outdoor radio aerial, Lloyd Kridler, 35 years old of Ferndale, was killed almost instantly.

Leelanau county has been freed of bovine tuberculosis, Dr. A. W. Ebert, county agent, announced.

The United States destroyer Chauncey, which piled up with other destroyers off Santa Barbara, California, was christened by Dorothy May Todd, of Grand Rapids, then a girl 15 years old, at the launching five years ago.

Postal receipts, always looked on by government officials as a reliable barometer of general business conditions, showed an increase of 5.86 per cent during August. Detroit showed the largest gain with 17.38 per cent increase.

Alex J. Groesbeck and State Commissioner Frank Rogers tentatively completed plans which call for the construction in 1924 of 500 miles of concrete pavement, it was announced. The State will probably employ prison labor to build from 200 to 300 miles. The rest will be laid by private contractors or by contractors who will hire out their experience and their equipment to the State. Arrangements are being made for the purchase of quantities of equipment for state use, including cement mixers, paving machines and other appliances.

Tuscola county road commissioners have sold \$102,000 of road bonds for the building of Covert act roads in the county. Bonds amounting to \$16,620 remain to be sold to cover the cost of the 1923 building program. This money is being raised for the Almer-Fairgrove towline road; Bradyville road, Dayton, Columbia corners road; the Wills township road reaching to East Dayton. Detroit Trust company and the Gleasons' organization were purchasers of the bonds. Tuscola county receives a premium of \$314 on this sale.

Few men can boast of a longer service record with one company than Philip M. Sullivan, Escanaba, engineer on the Peninsular division of the Northwestern road, who completed his fifty-fourth year of railroad service since he started as brakeman on the Chicago to Rockford passenger run in 1869. Engineer Sullivan drove the first train equipped with air west of the Allegheny mountains, in 1872.

Claim of Representative James A. Richards, of the Second Calhoun county district, to continued membership in the state house of representatives will have to be decided by the house members, state officials declared. Representative Richards recently discovered he has never been a citizen of the United States. He came to Michigan many years ago from Canada and believed his father had taken out citizenship papers.

Manistee county was relieved of its timber some time ago, but apparently that does not prevent it from still being a part of the "wilds" for Stanley Axsum, farmer in the Pine Creek neighborhood, is out after his second bear, having just trapped one weighing over 400 pounds. Several of the shaggy coated bears are said to be roaming the vicinity, which is principally a fishing and hunting resort and pine slashing.

Judge Harry J. Dingeman, of Detroit, was re-elected presiding circuit judge of Michigan at the thirty-second annual convention of the Association of Judges of Michigan, in session at Lansing. Judge Guy M. Chester, of Hillsdale, was elected president; Judge George W. Sample, of Ann Arbor, vice-president, and Judge Leland W. Carr, re-elected secretary-treasurer.

The Leismer business block at Petoskey was practically destroyed by fire last week, entailing a loss of between \$50,000 and \$75,000. Warren Ferris, a World War veteran, donned a gas mask and entered one of the smoke filled stores. He was able to save \$1,000 in cash. The fire started during working hours, and all employees were driven out.

Leaders of Michigan in the work with the foreign born will meet at Grand Rapids September 27 and 28 under auspices of the Michigan State Council on Immigrant Education. About 400 representatives are expected from boards of education, boards of commerce and civic committees on Americanization.
