**FARMER BOYS.**

Warren G. Harding was an Ohio farmer boy who rose to the heights of influence and fame from humble circumstances through his own efforts. President Coolidge was a New England farmer boy who has achieved distinction through years of patient toil and study. The demagogues will continue to scream that the day of opportunity for the everyday man in America is over, and history will continue to give them the lie.

**MAKING COUNTRY LIFE WORTH WHILE**

People get out of country life about what they put into it. You can't get something for nothing anywhere. If people move into a country town, and expect everything to be done for them, and they are not willing to take their part in the activities of the place, they will not get much out of it.

If a live family moves into a country town, and will take hold to help in its organizations and its social life and business problems, they can accomplish tangible results in each of these lines, besides making priceless friendship. If a dozen families of that type would move into some sleepy places, they could revolutionize those communities in a single year.

**OUR COUNTRY—ALWAYS.**

American form of government is recognized throughout the world as the most humanitarian, most stable and most effective of all forms.

No real cause for unrest or discontent exists. Industry is thriving at peak load and payrolls are being steadily maintained. Labor and capital in America are nearly at balance.

Americans are not blind to the ills of European nations where famine and internal strife are preventing the orderly conduct of affairs and where such conditions prevent a well balanced return to pre-war prosperity.

Americans will not brook the destructive forces from without to enter Our Country with pink and red propaganda designed to disrupt the nation and turn its affairs over to an element which knows no law—either of man or God—and destroy the initiative of a hundred and ten millions of souls.

No communistic doctrines can successfully endure in any nation and this has been recognized in America for more than a century of orderly administration.

There is no place here for the forces of destruction.

**DEFORD NEWS**

Mr. Bohms of hardware firm went to Detroit Sunday and returned Monday.

Mrs. Bessie Holt is at the Sherk home caring for her sister, Mrs. Sherk, who is very feeble.

Warren Sherk is in Pontiac at present but will return soon on account of the illness of his mother.

The electric light company camp is with us yet. Don't expect to leave for a week or more.

Rain just right for late beet lifting. Friday and Saturday were fine days and farmers who had tubers in soil searched for help to lift them.

A card received from Detroit reads as follows:—"Below you'll find the name and date; And every pound of baby's weight. Name, Gladys Carroll Patch. Date, November 1st, 1923. Weight, 7 lbs. Mr. and Mrs. Lyle Patch."

Thomas Davis has a pair of new shoes—Uppers, Arctic whale skin; soles, seasoned ironwood; weight unknown, 'till we can get the use of the hay scales to test them.

George Stock, whose farm is northwest of here, has returned home from Detroit where he has been laboring for the summer.

There is a point in every day life which we should study with care. What we hear—not a half of it should be repeated.

Merchant Patterson first set his house on a wall. Now has graded up so you would not know the place if absent for past month.

Geo. Riker has complete control of stock of goods in the brick store and

is doing a large business.

Many foreigners who bought land are having sales and going to the city to work for the winter.

Mr. and Mrs. Howard Patch and Mr. and Mrs. Morris Kelly, all of Detroit, were callers here on Sunday.

The writer is on the sick list—but don't think it was caused by a change of liquor.

Witch night wasn't very bad here. It only comes once a year. That's enough.

Through the kindness of an old neighbor and his car the writer and wife spent Friday visiting on Town Line southeast of here.

Lloyd Osborn has moved into the Stevens' house one-half mile east of town.

To make their work more cheery the bean picking girls last week made hot bean soup for dinner at their labor room, which was enjoyed by young and old.

Closing of the milk plant cast a shadow over the town. Many grind the cream.

Mr. and Mrs. J. D. Funk of Cass City have moved back to their farm 2 miles east and one mile south of here.

The unlooked for fall of snow Oct. 30th was hard on two families of our burg—Edward Spencer and Mrs. Sarah McCartney were repairing their dwellings by building on additions. One end of occupied part was open but they did the best could be done under the circumstances and came out without bad results or bad temper.

William McCracken has built a new corn crib.

'Tis reported our milk plant will close this week.

Our potato market is quite active, considering prices.

Mr. and Mrs. C. J. Malcolm are expected home this week from Ontario.

Mrs. Mary Spencer left Friday for Hot Springs, Ark., to spend the winter with her daughter.

If I want to hunt Sunday, I should pass it by because of what my neighbor thinks of it.

We inquired about premium loads of beets but the boys just laughed. Don't blame them—have been some moisture on highways when weight of loads is like unto an old maid's age—nobody's business.

We are too quiet. Tuscola county will be distracted. The counties are all forbidding Sunday hunting around us, hence that will drive sportsmen upon us till we can't hear the preacher's discourse. Let us call for a quiet Sunday.

Roderick Kennedy is not out with the gun this season. Says he doesn't feel like it. We think the boy talks straight or he would be making a noise.

Readers of Chronicle will remember the serious time Benjamin Gage has had with blood poisoning in his arm this fall. He is a patient of the hospital. The little finger on his right hand is in a helpless condition yet.

Take notice, ye prognosticators of weather, the first real snow of the season fell Oct. 30th, 1 1/2 inches at Deford, Mich.

If you find a man or woman so lacking in common sense as to attempt to make little of their companion in company—mark it, the world suffers because such people didn't die young.

A. L. Stewart has returned from a two-weeks' swing around the circle in west part of the state.

We hear of hunters clashing with the game warden.

Louis Lock and sister, Edyth, and Miss Laura York, all from Detroit, visited Mr. and Mrs. E. L. Patterson this week-end.

E. L. Patterson has his furnace installed. Works fine.

We deem it proper for all to note with careful thought the words of a judicial Judge on the term manslaughter—"A Judge used the following language in a case, "A person who allows another person to die without making every reasonable effort to save his life, may be found guilty of manslaughter." Now this charge recalls something that happened in Michigan a few years ago. A man was choked on a piece of beef that refused to move. Sent for nearest doctor who refused to aid because of an unpaid bill. Another physician was called from a distance who removed the

meat after much suffering. But if the patient had choked before the second physician had arrived, Mr. first Dr. would have been held for manslaughter. Many of us do not know our duty toward fellow creatures legally or morally.

South Novesta Farmers' Club will meet with Mr. and Mrs. Lewis Retherford for dinner Friday, Nov. 16. Everyone welcome.

**Michigan Happenings**

Wider Woodward avenue, consisting of two 40-foot traffic strips, between Detroit and Pontiac, will cost about \$1,600,000, including everything but right of way, according to estimates made by Gov. Alex J. Groesbeck. The right of way cost is undetermined. The Governor is figuring on a plan to spread the financing over several years, if possible, in order to release his funds for highway improvement projects in other parts of the state. Grading for the road already has been started and will be continued throughout the winter.

Not one Michigan farmer has borrowed any money from the Federal intermediate credit banks created recently in accordance with the act passed at the last session of Congress. Figures issued by John A. Doelle, vice-president of the Federal Land Bank of St. Paul, show that Michigan is the only state in the Seventh District which has failed to take advantage of the credit made available. Wisconsin farmers have borrowed \$51,214.12, farmers of Minnesota have borrowed \$253,594.

Celebrations of National Apple Week, with "Michigan Apples for Michigan Folks," as its slogan, were held at Detroit. Other sections of the country emphasized in many ways the importance of apples as a food, their abundance at this time of the year, and urging the people to use their own home-grown apples. Governors and mayors have taken occasion to call the attention of the people to Apple Week through proclamations.

For the first time in its history Monroe had a real Hallowe'en festival. It was given under the auspices of the Monroe Community Service, formed recently. The parade was more than a mile long, with practically every organization in the city represented. Exercises were held on the public square, attended by 5,000 people. With tents and booths erected the scene resembled a Mardi Gras celebration.

Captain John Stevenson, Detroit, state representative, who served Michigan in the role of purchasing agent in connection with the acquisition of two new boats to be used in state ferry service at the Straits of Mackinac, has been advised that the boats have left Boston under their own steam, for Detroit. They are the "Colonel Card" and the "Colonel Bond," both practically new vessels.

ROGER W. BABSON SAYS.

"The need of the hour is not more legislation. The need of the hour is more religion. More religion is needed everywhere—from the halls of Congress to the factories, mines and forests. It is one thing to talk about plans and policies, but a plan and policy without a religious motive is like a watch without a spring or a

body without the breath of life. The trouble today is that we are trying to hatch chickens from sterile eggs. We may have the finest incubator in the world, but unless the eggs have the germ of life in them, all our efforts are of no avail."

The Wickware Ladies' Aid will meet with Mrs. J. Masters on Wednesday, Nov. 14.

The Hot Blast Air Tight Florence

Will heat three times more space, at one-quarter the cost, in burning soft coal than any other stove with the same size firepot.

WHY?

Because the damper back of the firepot burns the cheapest soft coal or screenings and all the smoke and soot with the same regularity and cleanliness as the burning of gas, producing a steady heat day and night.

NO SMOKE! NO SOOT! NO DIRT!

Two tons out of every three tons of soft coal are wasted in all heating stoves constructed without a damper back of the firepot. Besides the offense inside and outside the house from the accumulation of soot.

The Florence makes its own gas and burns it and makes its own coke and burns it.

Steady heat day and night when the weather is 20 below zero. The medium size holds fire 3 days and 3 nights with one filling, other sizes in proportion.

The Florence is an investment. It pays for itself every two years in the saving of coal. In zero weather it will pay for itself the first season in the saving of doctor bills by elimination of irregular heat.

Geo. Cook, aged 65, in attempting to leave a freight train at Vassar after catching a ride to that point from Lapeer, fell and wrenched his back badly. He crawled to some corn shocks in a near-by field where he spent a cold and painful night. Sheriff Colling was called when the man was found the next morning and took him to the county jail where he is being cared for. When he recovers, he will be sent to the Soo where Cook says he has a son.

The McGregory-Townsend Co. has installed a Hoffman steam clothes press and cleaner in the rear of the T & M store for cleaning and pressing men's and women's clothes. Heat is secured for steam through the use of a gasoline pressure tank. The machine is so arranged that steam may be applied to both sides of the garment while it is in the press and pressure as high as a ton may be applied to the fabric.

Eight young people, friends of Albert Gallagher, who were in league with his mother, Mrs. John Gallagher, gathered together Sunday and surprised the young gentleman as a birthday celebration. The course dinner which Mrs. Gallagher served was a memorable one and the fun which all the guests enjoyed was genuine. Proof that the dinner was a surprise was found when the guests arrived, for Albert was very informally blacking his shoes.

George Schultie purchased a box of cartridges the other day and went hunting with high hopes and six cartridges. Well, what of that? Oh, of course, Mr. Schultie has only one arm. He is the man, who so strikingly decorated the trucks of the Cass City Oil and Gas Co. and lettered the inscription upon the windows of the Dawn Donut Co.'s store, besides many other neat and tasty jobs. But the point was—Did he manage to shoot anything? Yes, he brought home a partridge and four rabbits. Now where are the records of some of our two-armed hunters? Would they be interesting to print?

About seventy of the friends and neighbors of Mrs. John Karr and Mrs. R. D. Keating met at their home north and west of town last Saturday evening. Each person brought their share of the delicious "eats" which constituted the dainty lunch which was served. Rev. I. W. Cargo of the local M. E. church spoke a few words voicing the sentiment of the assembly and presenting Mrs. Karr with a beautiful sweater and Mrs. Keating with an exceedingly useful pyrex cake dish with a holder. This little gathering formed a fitting close for the neighborly sociability and friendliness between these acquaintances of many years.

Sheriff Colling received a call from Vassar Monday evening to come and capture a crazy man. Mr. Colling and deputy, H. Putnam drove down to the southern town and were informed that a demented party had taken up headquarters in the woods at the oxbow of the river and had a bad habit of hollering and raving which made the inhabitants of that neighborhood exceedingly nervous. The officers were paddled across the river in a duck boat and that's about all the excitement they experienced. A diligent search of the four or five acres of ground failed to reveal the whereabouts of the demented individual.

At the meeting of the Woman's Study club last Tuesday afternoon, Mrs. A. D. Gillies, president of the society, gave a very comprehensive and vivid report of the 29th annual meeting of the Michigan State Federation of Women's Clubs at Detroit Oct. 16 to 19. Mrs. Gillies stated that the work of the local club compared very favorably with that of much larger clubs. She gave the principal thoughts of every address given at the federation and carried the club members through the various sessions in a very interesting way. Another "open day" meeting of the local club will be held at the Presbyterian church Nov. 13 when Mrs. Vowles of Mt. Pleasant will address the ladies.

**Cannot Gauge Velocity.**  
The wind velocity within a tornado, so far as known, has never been accurately measured, and it is quite certain that no wind gauge could withstand the force of the wind, as the velocity doubtless reaches 200 or 300 miles an hour.

Tilden, a single man, of Koylton, Michigan, in favor of Josephine Hopkins, and recorded in the office of the register of deeds of the County of Tuscola, in said state, in Liber 149 of mortgages on pages 152 and 153, on the 4th day of October, A. D. 1920, at 4:00 o'clock in the afternoon; and Whereas it was specially provided in said mortgage that should default be made in the payment of the principal or interest or any part thereof when the same became due according to the terms of said mortgage, and should the said principal or interest or any part thereof remain unpaid for the period of thirty days, then the entire principal and all arrearages of interest should become payable immediately thereafter at the option of said mortgagee, her legal representatives and assigns; and Whereas it was likewise provided in said mortgage that in case of default in the payment of the taxes levied upon the lands described in said mortgage or the premiums required to effect insurance on the buildings thereon, by the said mortgagee, within the time prescribed by law, it should be lawful for said mortgagee to pay the same and that the moneys thus paid should be a lien on said premises—added to the amount secured by said mortgage; and Whereas by virtue of the foregoing provisions, the amount claimed to be due on said mortgage and interest is the sum of eleven hundred twenty-three and sixty hundredths (\$1123.60) dollars; for the taxes for the year 1922 the sum of thirty-four and sixty-nine hundredths (\$34.69) dollars and the further sum of two and thirty-eight hundredths (\$2.38) dollars for insurance paid by said mortgagee, making a total sum due on said mortgage of eleven hundred sixty and sixty-seven hundredths (\$1160.67) dollars, in addition to the costs legally chargeable for the foreclosure of said mortgage; and Whereas no suit or proceeding, at law or in equity, has been instituted to recover the said sum or any part thereof. Now, therefore, notice is hereby given that the said mortgage will be foreclosed by a sale of the premises described therein at public auction, to the highest bidder, at the front door of the court house, in the city of Caro, in the said county of Tuscola, on Monday, the 31st day of December, A. ALL DOLLED UP, BUT NO PLACE TO GO

One of Cass City's most popular and prominent business men made a slight mistake the other evening which proved enjoyable to all but himself. On Wednesday afternoon, the gentleman spoken of above, was flying about town borrowing various articles of wearing apparel. First a swallow-tail coat, whiskers, and shoes which slid on quite easily over his own.

Finally as he viewed his image in the mirror, stuffed with pillows, to monstrous proportions, he chuckled to himself and gloating with cruel mirth on his ingenious joke, he winked at his transformation in the glass and whispered low, "She'll never know me now!" While half the town, the half from which he had borrowed the various portions of the outfit, was telling the other half in whispers and laughs how ——— was going to fool his own wife, not letting her know who he was, at the costume dancing party at Sandusky that evening.

After resuming his former personality as "her" husband, he carefully packed his hideous disguise in a suit case which he locked and placed in his car for safe keeping. He then went around town to pick up the crowd he had asked to go with them so that they might help him enjoy the hilarity of the huge joke. Mysterious little looks, phrases, laughs, nudges, and winks told "her" all the way over to Sandusky that something was certainly going to happen.

At last on the smooth pavement, the large car full of fancy costumes and laughs slid to a stand-still in front of the hall. The host stepped out of the driver's seat and glanced at the windows of the hall and gallantly remarked "Come on over to this drug store and get a drop to eat. We're early." As the party was being served, the host inquired casually of the clerk, "About what time will this dance, this costume party begin?" The clerk looked dazed "Dance? Costume party? Why! there isn't any dance in this burg tonight!" Since the gentleman did not have a chance to show his ability in assembling hideous costumes, it has been suggested that he use the outfit in a vaudeville act which should run a full week at his own "Pastime Theater."

CASS CITY HAPPENINGS

TWENTY-FIVE YEARS AGO

Items from the Cass City Enterprise of Nov. 10, 1898. Charles McLellan and Ira Parker have been doing quite a business in cleaning chimneys. They made a trip to Kingston on Tuesday and did quite well there. Postmaster Ale received some fine specimens of cotton flowers and pods this week from his brother, Charles, who is located at Ferguson, South Carolina. Mr. and Mrs. J. D. Withey returned from Attica on Tuesday where they had been called to attend the funeral of Mrs. Withey's niece. Miss Maud Fuller entertained a few of her young friends last Saturday evening in honor of her guests, Miss Jennie Moody and Miss Mae Brown of Gageton. A journalist fishes for news with a silver-mounted fishing rod, reel and silk line; a newspaper man catches his news with a pole cut from the forest of his experience. The Woman's Missionary Society of the Presbyterian church will meet at the home of Mrs. J. L. Hitchcock next Wednesday afternoon at three o'clock promptly. The subject will be "India." Geo. Bacon, who has been living east and north of town, has purchased the forty acre farm of Solomon Karr, one mile west of Karr's corners. Angus Leitch left Tuesday for Dutton, Ont., whither he was summoned by a telegram as witness in a legal case which has been in the courts for nine years. Mrs. Leitch and the children were already there visiting relatives.

**Michigan Happenings**

A definite program of improvement affecting four state parks now established throughout the Upper Peninsula of Michigan—at Brimley, Baraga, Marquette, and at old Fort Wilkins in the Keweenaw peninsula—has been submitted to the Upper Peninsula development bureau, by P. J. Hoffmaster, state superintendent of public parks. Immediate steps have also been taken for the construction of a road from M-15 to Bishop's Hill, comprising the Marquette park site. A crew of men are already at work repairing the buildings comprising Fort Wilkins.

Leaders of college activities also proved to be leaders in the class room among the men of the Michigan Agricultural college, when the first annual prizes for excellence in scholarship were awarded recently. Paul Hartsuch, East Lansing, editor of the college paper, a varsity track man and member of the cross-country squad, won first place. He had high average over all students in the school for the first three years of his college course. Hartsuch is an engineering student.

Despite a comparatively late start, which handicapped building operations, and the indecision in the early part of the season regarding finances, indications are that the state will complete from 15 to 20 per cent more highways this year than in 1922. According to a report completed by the highway department, 424.7 miles of surfaced roads have been completed so far this year. Indications are that with a few weeks of fair weather the total mileage will run up to 450.

Smallpox is increasing in Michigan according to the Michigan department of health. A gain in smallpox at this time is quite natural for it is a winter disease. But the increase is more pronounced, especially when compared with 1922. Then the first three weeks of October saw 34 cases reported. This year the figure is 127. This is in excess of the average for the past 10 years, which is 72.

Five thousand teachers from 16 counties in southwestern Michigan attended the annual convention of the fourth district Michigan State Teachers' Association held at Kalamazoo. The counties that were represented are Berrien, Cass, St. Joseph, Branch, Calhoun, Kalamazoo, Van Buren, Allegan, Barry, Ionia, Montcalm, Kent, Ottawa, Muskegon, Oceana and Newago.

Ann Arbor's 1923 tax rate totals \$30.92 per \$1,000 assessed valuation, an increase of 63 cents over 1922. The assessed valuation of the city this year is \$39,285,250, compared with \$35,752,300 a year ago, the total valuation of the county now being \$87,572,753. Amounts making up the 1923 tax rate are state, \$3.30; county, \$5.23; city, \$10.54; school, \$11.80.

Marked by the tread of 10,000 pairs of feet, tramping its broad asphalt surface, the City of Detroit took for final possession of the new Belle Isle bridge last week. Exercises in observance of the bridge's completion and its official opening were held at the mainland end of the bridge and were participated in, it is estimated, by more than 25,000 people.

New Zealand will be the scene of the next great earthquake disaster, according to Professor William H. Hobbs, head of the University of Michigan geology department who in 1909 predicted the recent earthquake in Japan.

Mrs. Julia Morrissey McCausland, 93 years old, a pioneer of Michigan, died at the home of her niece, Mrs. Julia Lawler, Battle Creek, recently. In 1849 she settled in Plainwell and in 1850 married George McCausland.

Public memorial services were held at Kalamazoo in honor of Dean Clark Benedict Williams, of Kalamazoo College, and his wife, who lost their lives in the Japanese earthquake Sept. 1.

Mrs. Martha Portwine, 82 years old, and for 63 years a resident of Alpena, died there recently. The Portwine family was among the earliest settlers of that section.

Two hundred credit men of the state convened at Grand Rapids for the annual convention of the Michigan Credit Men's association.

John Riley, 59 years old, shot and killed John Chapp, 35 years old, father of seven children, in Riley's home on the Eleven-Mile road, near Royal Oak, Monday night, in a quarrel over three eggs.

After working 46 years on the canal locks at Sault Ste. Marie, Captain Charles Spaulding, 72, has been officially retired on pension as assistant superintendent of St. Mary's Falls canal. He built the first coal chute for loading steamers in 1872.

Six students have been awarded Henry Strong scholarships by the regents of the University of Michigan. Holders of the scholarships this year are: Millard Pryor, of Detroit; Elsa A. Schuler, of Royal Oak; Elizabeth Carson, of Ann Arbor; Rowan Pasquella, of Petoskey. John W. Shenefield, of South Bend, Ind., and Dorothy Jeffrey, of New York city.

Grand Rapids banking circles report marked evidence of prosperity in the Western Michigan agricultural regions through the ability of the smaller banks, which borrowed last spring to assist in financing the farmers, to take up their loans earlier than usual.

Charles W. Ranney, engineer on the D. & M. Railroad for 35 years, died last week at his home in Alpena. Ranney was one of the most widely known railroad men in this section of the state.

After more than two years of suspension, Saginaw street cars resumed operation Nov. 1st, running with motor bus extensions, under the franchise granted by the people last June.

The Rev. Holden A. Putnam, who resigned from the pastorate of the Ludington Congregational Church, a month ago, after a service of 11 years in that capacity, died at his home.

The Fremont apple and potato show, was the largest and best ever held by the Newaygo County Horticultural Society, according to County Agent Clair Taylor. A poultry exhibit was an added attraction.

More buyers of Michigan farm lands come from Illinois than from any other outside state, according to report just compiled. Indiana ranks second; Ohio is third and Wisconsin, Iowa and Minnesota just about tie for next honors.

**GRAIN NECESSARY FOR EWES**

Plenty of Legume Hay and Good Corn Silage Will Help—Several Rations Favored.

Some grain should be fed the breeding ewes, in addition to the pasture and forage usually given. Plenty of clean legume hay and good corn silage also should make up the ration. Keep salt before them at all times. Ewes that are thin or run down in flesh and condition will not be able to rear strong lambs, nor to store up a reserve to produce a good milk flow. This is especially true for the ewes with twins. Several rations are to be recommended in proportioning the grain. A good one is to use 4 parts oats, 3 parts corn, and 1 part each wheat bran and linseed oil meal, measured by weight. Two parts oats and 1 part wheat bran is a plainer ration.

**Beginning With Sheep.**

Prof. G. C. Humphrey of the Wisconsin College of Agriculture has given the following excellent rules for the guidance of beginners in sheep husbandry:

1. Use good purebred rams.
2. Select young ewes. Yearling-two-year-olds, or perhaps three-year-olds, are far more desirable for starting a flock than older ones.
3. Discard broken-mouthed ewes and ewes with bad udders.
4. Choose ewes having good size, desirable forms, and dense fleeces.
5. Feed the lambs especially well throughout the first year because a sheep makes his greatest growth during this period.
6. Give the flock good care throughout the entire year.

**SOUTH-DOWNS ARE PREPOTENT**

Transmit Their Own Good Qualities to Progeny Unfailingly—Mutton Is Exquisite.

On account of their ancient lineage, Southdown rams are very prepotent and transmit their own good qualities to their progeny unfailingly. Three Southdowns will flourish on as much keep as one sheep of any other breed; there is no waste to the carcass when cut up, and the mutton is of exquisite taste and delicately marbled.

**VEGETABLE STORAGE GIVES THE WINTER SUPPLY**

Home Garden Can Be Made Year-around Institution by Proper Selection and Care.

The home garden may be made the source of a winter as well as a summer supply of vegetables, if proper storage facilities are made use of.

The following pointers on home garden storage are given by E. P. Lewis, of the horticultural department at the Michigan Agricultural College:

"Cabbage, beets, carrots, turnips and parsnips require cool, moist storage conditions. Potatoes demand the same low temperature, but somewhat drier atmosphere. Onions keep best with a low temperature, dry atmosphere and free air circulation. Squashes and sweet potatoes require much higher temperatures with dry atmosphere.

"In selecting vegetables for storage, it should be borne in mind that many organisms, causing decay, enter through wounds or bruises on the surface. Therefore, only perfectly sound specimens should be selected.

"Three places are ordinarily used for home storage of vegetables: the cellar, the outdoor pit, and a permanent outdoor cellar. The house cellar is probably the most common. Those vegetables demanding cool, moist conditions should have a compartment partitioned off from the furnace room. Often some medium, such as sand, is ideal for the root crops. Cabbages may be wrapped in paper and placed on shelves. Squashes and sweet potatoes keep in an ideal condition in the furnace room.

"A well-drained place should be selected for the outdoor pit. Ordinarily a slight excavation is made and lined with straw. A layer of straw eight inches thick and an equal layer of soil is placed over the conical pile to be stored.

"The permanent outdoor cellar is usually constructed on a hillside and completely covered with earth except at one end, where the entrance is located. Ventilation is supplied by ventilators through the ceiling and cold air intake chambers through the floor."

stairs to bed. So they soundly slept together.

But after so many months of fun and play, Louis became five and the month became September and the school bell called "Louis, Louis, Louis." It was a heart-breaking parting when Louis had to bid Buster good-bye, wishing all the time he was like Mary's little lamb and would follow him, but of course they tied him up.

One day of school nearly killed Louis and Buster and the rest of the family for Buster howled pitifully all day. So the family hit upon a happy thought.

And now when the Cedar Run school bell rings, it says "Louis, Buster, Louis, Buster, Louis," and if it happens to be the last bell, you can see trudging into the school a happy faced Louis with Buster by his side. And as he enters the door, Buster licks his boots and sits patiently waiting for recess? No! They both trot right in and Miss McComb says, "Good morning Louis and Buster." And then they take their places in the same seat. And Buster doesn't make "the children laugh and play" for they have become accustomed to him and he sits very sedately all the while by his little master.

So if you are ever near Cedar Run, just drop in and see the dog that goes to school.

Dance halls at Rose Island and Rapson have been ordered closed on Sundays by Sheriff Peter Burns. The sheriff says that he believes it best for the community that they remain closed on Sunday nights.

Thirty minutes after early bedded guests left the former Conaton hotel building, a dance hall in Pinnebog at 1:30 a. m. Thursday the building was in flames. Edward Danthony, owner of the building and of the store on the first floor, attributed the fire to a match or cigar stub thrown carelessly into inflammable decoration. The loss, fully insured is about \$5,000, he said.

Construction work is already under way to replace the foundry of the Bostick Stove Co. of Lapeer which was completely destroyed by fire Oct. 26, entailing a loss of \$40,000. It is expected the new building will be ready for occupancy within 30 days. The building will be the same size as the burned structure, 320x80 feet.

Mrs. James Kerr of Birch Run was instantly killed and her husband was fatally injured last Thursday morning when they drove in front of the accommodation train which was switching and unloading coal near the M. C. depot at Lapeer.

A Southern editor threatened to publish the name of a certain young man who was seen kissing a girl in the park unless his subscription to the paper was paid up in a week. Fifty-nine young men called and paid up the next day, while two even paid a year in advance.
