BRADFUTE LAUDS CO-OP. MARKETING AT FARMERS' DAY

Declares Production Is Only the Beginning If Farmer Wants Full Returns.

"The American farmer is the most efficient in the world," declared O. E. Bradfute, president of the American Farm Bureau Federation, speaking before an immense audience of Farmers' Day visitors at the M. A. C. gymnasium July 27. "The fact is, at Sebewaing commencing next they are so efficient that they are accused of producing too much," contin- to Aug. 19. Convention talent alued the national Farm Bureau execu-

"But while you excel in production, you are not worth the room you take up as far as being salesmen is concerned. Why you can't sell a silver dollar for more than about 65 cents,' challenged Bradfute.

A greater development of farmers co-operative buying and selling organizations was advocated by President Bradfute as the most effective solution of the farmers' present economic conditions. He paid a high tribute to the present co-operative organizations in Michigan and voiced his deep conviction as to the sincerity dren. and ability of their leadership.

Speaking of the inception and organization of the American Farm Bureau Federation, President Bradfute declared that American farmers had long felt the need of making them. OBITUARY.

Mrs. Samuel Sangster passed away on July 24 at her home in Evergreen township at the age of 80 years. Funeral services were held at the Novesta Baptist church on Friday afternoon, Rev. Willerton officiating, and REV. EDWARDS SAYS MASONIC interment was made in the Novesta cemetery.

Jessie Gordon was born in Scotland on June 5, 1843. In 1862, she was united in marriage with Samuel Sangster and 12 years later they left Scotland to make their home in Canada. They moved to Sanilac county, Michigan, in 1890, settling at Mooretown. A year later they came to Evergreen township. Mr Sangster

A Greater Touring Car Value

The present price of the Ford Touring Car is the lowest ever made.

And yet the car itself is a greater value. It is better looking with slanting windshield, a one-man top and improved seats. And there are many refinements in chassis construction.

The demand is so great that deliveries will soon be impossible. To protect yourself, order now. Make a small down payment, the balance on easy terms.

Ford prices have never been so low Ford quality has never been so high

The three essentials

You have a right to demand three things of a battery, the three things that millions of motorists have learned they can be sure of in Exide Batteries:

- 1. Plenty of power
- 2. Rugged dependability
- 3. Long life

An Exide means not only maximum comfort, but maximum economy because it lasts so much longer.

HAPPY HARRISON AND HER ANIMALS

A real one-ring circus with mules, ponies, dogs and baboons. A treat for the children. At the Cass City Fair, August 14-17.

Final Clean-Up On All Summer Goods

We have gone through the many lines and in many have reduced the prices still lower in order to make a clean sweep of it in the next few days. Hundreds of our customers have taken advantage of the wonderful savings made possible during this Semi-Annual Clearance. For those who were unable to take advantage of the great buying opportunities last week, we have replenished the tables with equally as good bargains for this week.

CREATED BY CONDO

Word was received at Bay City of the death of Mrs. Frank Ayers, at a hospital in Detroit. About a month ago, Ayers, who was engineer of the "Cannon Ball" flyer of the Michigan Central, was killed in a wreck at Grayling. Mrs. Ayers was ill at the time and was brought to the city in a specially fitted Michigan Central car from Detroit. She returned for treatment following the funeral.

State Superintendent of Public Instruction Thomas E. Johnson, announced he had appointed A. F. Westphall, member of the faculty of the state college of mines at Houghton, duced as follows: Electric light, 23 as assistant superintendent of public instruction. Westphall will succeed Floyd A. Rowe, who resigned, effective September 1, to accept a position as director of athletics in Cleveland public schools.

Mrs. Mary E. McDonald, head of the hospital at Elkhart, Ind., and former superintendent of the Albion city hospital, has been named jointly by the city council and city hospital board, as head of the Sheldon Memorial hospital, now in the course of construction here. It is expected the hospital will be finished about Janu-

Governor Groesbeck recently appointed Claire R. Black, Port Huron. judge of probate for St. Clair county, to succeed George L. Brown, deMade of Brown Twill

This smart street dress is constructed of brown twill, which is liked by many women. It is from Paris. A embroidered beautifully circular flounce is caught up on the left hip.

Hand Work Features

Chic New Sweaters

Steadily is the sweater becoming mere like a blouse because girls and women have insisted upon wearing it as such. This blouse effect is emphasized by the often elaborate collars and cuffs worn with sweaters, and now charming embroideries upon the sweater itself are adding their bit towards lifting many a sweater from the sport class to the class of garments which may be worn any time of day before 6. Two kinds of embroidery which best lend themselves to ornamenting the knitted sweater surface are cross-stitch and lazy-daisy. The former is usually in the guise of borders or bands which go entirely about the sweater at intervals. The lazydaisy is also used in borders, but it is easy to arrange in sprays. To make the cross-stitch borders coarse canvas should be used through which to work the design, and in embroidering a Everything in undertaking goods always on hand. Day and night calls promptly attended. Office phone 182. the design, and in embroidering a sweater in any stitch great care should be taken not to stretch the knitting during the process or the design will material goes back to its natural

Shoes of Gay Colors Summer Fashion Note

Shoes are an interesting part of the summer wardrobe, sometimes a very colorful part. There are positively gay colors in shoes, in one tone and in combination. Straps are seen on the sandals, a band of leather, kid or satin, as the case may be, stitched across the instep. The single strap running straight up from the center of the sandals and connecting with a strap across the instep is seen again this season. Tie shoes are in fashion again for suit wear. In both patent leather and kid a good deal of cut-out work is seen. For women of conservative tastes the new models in two tones of gray and brown are liked. With smart white summer gowns colored shoes are

Yarn and Paper Have

worn to match accessories.

Part in Summer Hat It is estimated that 6,000,000 crepe paper hats were made and worn in the United States last year. The fad con-

The hats made, which on first thought seem impractical and foolish, follow the trend of shapes in summer millinery and are so beautiful that one wonders why only six million.

The ever colorful yarn ball is playing its part in the crepe paper hat trimmings. Yarn embreidery patterns. yarn stitched brims and yarn flowers or pompens give a substantial touch to the hat that makes it a practical millinery creation.

How to Make Negligee

of One Piece of Silk There are few negligees with greater charm than the simple one made entirely of one piece of silk, uncut save at the neck. A single piece of forget-me-not blue georgette is bound with Cleopatra blue satin ribbon on each side. The neck is cut low and similarly bound. Through slits under the arms a girdle of the same ribbon is drawn about a low waistline and tied to the right front. It will leave the desired uneven finish at the hem where it may be turned up and hand stitched or finished with ribbon.

Huge Pendants.

Pendants form a popular item of jewelry. These are becoming huge in size and are usually worn on black be a pendant for every gown. Amber, lapiz and topaz are the colorings that hold sway in jewelry at present. A new offering in pendants is of old gold in the Egyptian cut with bright-colored stone settings, and is worn on a twisted chain of fine gold wire.

HAS SEEN ALL COUNTY FAIRS.

"Sep" Irwin of Bad Axe says he hasn't missed attending the Huron county fair for 53 years and hopes to stick around so that he can take in this year's show. The first three fairs were held at Verona, the next one at Port Austin and the last 49 at Bad

nnouncement

THE STUDEBAKER CORPORATION OF AMERICA is pleased to announce to its customers, friends, and the public generally, its complete line of new

1924 Model Studebaker Cars

Avoiding the superlatives frequently used in automobile advertisements, the Corporation desires to faithfully state the facts concerning these cars and the reasons why the public should buy them.

THE CARS

In design, quality of materials, standard of workmanship, durability, refinements, performance, freedom from repairs, and price, the Studebaker 1924 Model Cars are distinctly the greatest intrinsic values the Corporation has ever offered.

Every improvement the safety and practicability of which have been verified by engineering tests is embodied in these new cars.

The Big-Six

THE BIG-SIX LINE comprises four models, mounted on the standard 126-inch chassis with 60 H. P. $3\% \times 5$ inch motor: 7-passenger Touring Car - \$1750 5-passenger Coupe - \$2550 5-passenger Speedster - \$1835 7-passenger Sedan - \$2750 all prices f. o. b. factory

Refinements and a few minor mechanical changes have been made in the Big-Six, which has established an enviable record for five years. Our large production accounts for its low price. It is a car of the highest grade, comparable to the best.

The Special-Six

THE SPECIAL-SIX LINE comprises four models mounted on the standard 119-inch chassis with 50 H.P. 31/2x5 inch motor: 2-passenger Roadster - \$1325 5-passenger Coupe - \$1975 5-passenger Touring Car - \$1350 5-passenger Sedan - \$2050 all prices f. o. b. factory

Radiator, hood, cowl, and body changes have been made in the Special-Six, with minor mechanical changes and refinements in the chassis. The Special-Six has for five successive years added luster to the name STUDEBAKER. It is one of the most satisfactory and finest cars on the market. It is as good in every respect as the Big-Six, except that it is smaller. and costs less to produce, and therefore sells for less.

The Light-Six

THE LIGHT-SIX LINE comprises four models, mounted on the standard 112-inch chassis with 40 H.P. 31/8x41/2 inch motor: 3-passenger Roadster - \$975 2-pass. Coupe-Roadster-\$1225 5-passenger Touring Car - \$995 5-passenger Sedan - \$1550

No body or mechanical changes except refinements have been made in the Light-Six. Over 130,000 Light-Sixes have been produced in the new, modern \$30,000,000 Studebaker plant at South Bend, Indiana, under most economical and almost ideal manufacturing conditions. In our judgment, it stands out as the greatest value and the closest approach to mechanical perfection in moderate priced cars yet produced.

THE REASONS WHY

With \$90,000,000 of actual net assets and \$45,000,000 invested in plants, Studebaker has ample physical facilities to manufacture most economically.

Studebaker's organization of manufacturing executives, engineers, metallurgists, chemists, inspectors, and skilled mechanics is second to none in the industry. The design of Studebaker cars and the workmanship upon them conform to the highest principles of engineering standards and mechanical practice known to the industry.

Best of Materials Used

Studebaker cars contain the finest known grades of iron, steel, aluminum, tires, electrical equipment, glass, bearings, etc. No better materials for automobile manufacture exist. Sheet aluminum has but one-third the tensile strength of sheet steel, and consequently, Studebaker uses sheet steel for its bodies.

By the manufacture of drop forgings, castings, stampings and the machining, assembling and finishing of motors, axles, frames, transmissions, bodies, tops, etc., and the consequent elimination of middlemen's profits, coupled with lower overhead factory costs per car arising from quantity production and low commercial expenses, Studebaker's costs are kept at an economically low point possible of attainment only by manufacturers with vast physical and financial resources.

Bodies Unexcelled

The bodies of Studebaker cars are not excelled in quality of materials and craftsmanship, by any cars on the market. The Coupe and Sedan closed bodies are magnificent examples of the coach builder's art.

Merit Wins

The sales of Studebaker cars for the past six years have shown each and every year a progressive increase. 81,880 cars were sold in the first six months of 1923 as against 60,053 for the same period last year. Only products of merit can make such growth.

The High Grade Gasoline

Is Made to Rit Your Car

TT IS MADE to specifications which insure the motorist a high-grade gasoline at all times wherever he may buy it.

It is made to produce power and it delivers that power to the rear wheels in a clean, steady flow, which sends the car over the road with a hum that satisfies.

You start instantly; you get away in the lead; you pick up smoothly; you pull through the heaviest going; you gain sizzling speed if you want it.

It is made to fit the modern internal combustion engine and as such it has no superior. It causes your motor to purr along at a few miles an hour or a mile a minute, as you please. There is power a plenty under your right foot with Red Crown in your tank.

BUY RED CROWN

FIVE BIG DAYS AND NIGHTS

Last Week of Free Coal Offer

Join our HEATROLA Club now and get One Ton of Goal absolutely FREE

This is the last week of our HEATROLA CLUB special offer. Join NOW and you get absolutely FREE with your Estate Heatrola ONE TON OF COAL. All you pay down on this CLUB OFFER is \$2. You pay the balance in easy installments on this liberal plan. Installation of the Heatrola made at any time you may specify.

Estate HEATROLA will Save its Price in Fuel and Labor Economies

August 12th our HEATROLA CLUB OFFER will end. We have left only a few of the limited number of Heatrolas offered under this special club plan. First come, first served. So if you haven't joined our HEATROLA CLUB, do it now!

Estate Meation is the new-day way of hearing for small homes and bungalows, stores, offices, etc.—with or WITHOUT BASEMENTS. It looks like a phonograph and works like a furnace. Installed in one of the living-rooms, it supplies moist warm air

· to all connecting rooms - upstairs and down - just like a furnace, yet uses no more fuel than a stove.

Estate Heatrola is finished in handsome, grained mahogany enamel. Easy to keep clean. No iron to black. No nickel to polish. Just rub it and dust it with a cloth, as you do your furniture.

Join the HEATROLA CLUB NOW. ONE TON OF COAL FREE. Only \$2 down and the balance in easy, convenient payments. Act at once!
