Politics and the Railroads

To the present generation of Michigan Railroad men it is a grateful thought that this Peninsular commonwealth is appreciative of the fact that Railroad Service is today the best in Michigan history.

We know this appreciation by actual expressions—spoken and written—and by the gradual disappearance of that ancient hostility which featured an era of Railroad long past.

Most people realize that Railroad Service has been re-established despite laws which restrict management in every detail—laws which add huge burdens of expense to Railroad operation without assisting in any way toward Railroad progress or the development of Railroad Service.

Those who understand these facts give full credit for the achievement of Michigan's twenty-four steam Railroads and are prompt to resent selfish attacks on them. Before this defense—a defense based on facts—railroad aspersion is becoming out of date, except for spasmodic revivals at election time, when office seekers, desperately fighting for votes, sometimes endeavor to turn Railroad abuse into political capital.

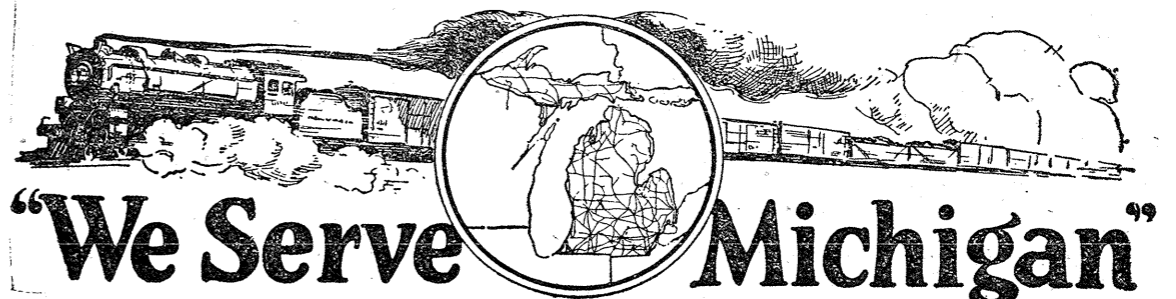

Railroads have small chance to meet such attacks. Railroad men are too busy furnishing transportation and conducting negotiations with the various Government boards and commissions which so closely supervise our every act. In this extremity we must rely on you to protect and defend us, and to insure us a square deal.

Is this reliance well placed?

The

Anker-Holth Self-Balancing Bowl Cream Separator

Individuality

EXTRAORDINARY FEATURES THAT MAKE IT SUPREME

In reading about the Anker-Holth you have discovered it is not a copy of some other separator. Here is the ONE Cream Separator of the age that stands out conspicuously from all others, and is in a CLASS BY ITSELF. Where other separators end, the Anker-Holth begins. What they hoped to accomplish, the Anker-Holth actually achieved. It is the finale in the cream separator drama—the LAST word of experts in mechanical cream separation. May we group a few of the INDIVIDUAL features that has given the Anker-Holth such an exclusive birthright:

- A SELF-BALANCING BOWL.
- INTERCHANGEABLE discs that point downward.
- A Sanitary Dirt Chamber.
- New Type of Bowl Spindle.
- Patented Curved Wings and Feed Shaft.
- Perfect Power Transmission.
- A Sanitary, Easily Cleaned Bowl Housing.
- A Perfect Self-Oiling System.
- Adjustable Cream and Milk Shelves.
- A Clutch that has no Equal, and one that at all times is ready to take hold.
- By Delivering the Cream at the Bottom and Skim Milk at the Top of the Bowl, forever prevents the intermingling of the cream and skim milk in the bowl while in the act of separation.

The Anker-Holth is a REAL Cream Separator, and once separation takes place in the bowl, it is delivered separately in the cream or milk receptacle with no fear of mixing.

Words are inadequate to describe just what the Anker-Holth actually is, or what it will do when in operation. It must be seen and used to comprehend fully its superiority; and after the "user" has seen for himself, he too will join in the Anker-Holth acclaim—"The half has not been told."

The Purest Women Slandered

For Harmony and Better Understanding

Solely in the interest of national harmony and of Christian charity this series of explanations is presented to the readers of this paper. A studied effort is made to avoid controversy, but any questions asked in good faith will be answered if addressed to the person whose name and address appear below.

NO SISTER KEPT IN CONVENT AGAINST HER WILL

There are in the United States at this moment more than 50,000 women who have, of their own free will, left home and, in many instances, fortunes, in order to "instruct others unto justice, to nurse the sick in the hospital, to care for the orphan and the aged, and the wayward, in special Homes—as a life-long work. Hundreds of thousands of such saintly ladies are working for God, for the souls of others and for their own sanctification, throughout the world. They are often called "Spouses of Christ," because they have chosen Him as their only lover.

abuses even apparent. Those laws are no longer applied, because every "inspection" only brought the Sisters into more favorable prominence.

No girl is ever forced into the Convent against her will; no girl would be detained in the Convent if she wanted to get out. Therefore, there can be no such thing as an "escaped nun." On the contrary, a novitiate of several years precedes the entry of the young lady into the religious life, and she is even urged not to take the step unless she is sure she will find her life's happiness in such a vocation. Those who are in Convents are there solely to live pure and holy lives, and they are even under vow to observe chastity in the strictest manner. When Religious Communities were dissolved in France and some other countries, their bitterest enemies never thought of charging their members with evil lives.

Only those Protestants who have come in close contact with the Catholic Sister seem to understand her and her motive. Ask the old soldier who was nursed by one of them on the battlefield; ask the man who experienced her unselfish devotion when he was ill; ask any of the thousands of ladies who were taught by one of them in a Catholic boarding school—and see if their estimate of the nun is that which others have gleaned from the pages of the novel, or from teachers who were most hostile to the Catholic Church and who entertain most unwarranted ideas about Catholic Sisterhoods. The Convent Inspection Laws which were passed in recent years in those states where Catholics are few, and where bigotry is intense, were born of the suspicions provoked by anti-Catholic training, and not by any

The present-day anti-Catholic lecturer gets his story from women who were committed to Reformatories in charge of Sisters of the Good Shepherd. These girls are sent there against their will, just as the wayward girls in our State Reformatories are there against their will. Inmates in the Houses of the Good Shepherd are not even permitted to become nuns. It is from such Convent Institutions, and not from Convents, that there have been "escapes."

CASS CITY DROPPED TWO GAMES IN PAST WEEK

Caro Won 3-1 on Thursday and Fairgrove Claimed Tuesday's Contest 8-7.

Caro and Cass City leaguers played a snappy game at Caro June 19. Caro started scoring with one run in the first frame. Cass City chalked up one in the second inning but the county seat players allowed the locals no more. Caro added another run in the sixth and one in the eighth. Hitting was quite evenly divided Caro securing 3 and Cass City 1.

JUSTICE COURT.

Deputies Lockwood and Cartwright located a quantity of moonshine and wine, two barrels of mash and a complete still at the home of Henry Leprick of Akron Friday. Leprick was arrested, but did not like the idea of going to jail and made the officers some trouble before he was finally landed in a cell with his shirt badly in need of repairs.

Chris Jaickle and Joe Andros were arrested at Bradleyville at 2:00 a. m. on Monday on a drunk and disordered charge by Deputies Cartwright and Lockwood. Justice Arnold gave each a fine of \$10.00 and \$6.00 costs.

Seven truck drivers employed on a road job near Wilnot were arrested for driving without a chauffeur's license on Monday. Justice Imerson ordered each driver to pay costs of \$5.00 and procure the necessary license to operate a truck.

GREENLEAF.

Thos. McConnell and son, Wm., of Cass City, Mr. and Mrs. John Logan and sons, George and Leonard, of Bad Axe, Mr. and Mrs. Chas. Arnott and daughter, Elynore, of Cass City were guests at the home of A. H. Shier on Sunday last.

HOLD ONTO THAT JOB.

The above is good advice right now. During the past two weeks several men have been tramping around the farms looking for work.

The work in the cities has let down to some extent and those who are not needed are turned loose.

This bears out the fact that no matter how much you receive in the pay envelope, the amount you can save and the permanency of the job are the things to look at.

\$123 for a Complete Milkier

Hand Operated

Gas Engine

Electric

THE wonderful portable Page Milkier—nothing to install—comes complete and ready to use—just move it in and start milking. Mr. Dairyman, here is a milkier that does the work and does it right—and that you can try out without first putting a lot of trappings in your barn. The simple milkier—so simple—that's why it can be sold at such astounding rock bottom prices. And because the Page is simple, it is better and more practical for the farmer. Your choice of models: hand operated, gas engine, or electric. Think of it, only \$123.00 for the hand operated milkier!

Phone or Write for Demonstration

I am using the Page Milkier on my own herd. I know what it has done to relieve me of the drudgery of milking. Come and see it work on my cows. See what it can do for you. Just call me by phone or drop me a post card and we'll arrange for a demonstration—without obligation to you.

JOHN A. SEEGER
R. R. 1 Cass City, Mich.

I ask your support for the office of State Senator for twenty-first district at the Republican Primaries on September 9, 1924, believing that my experience gained in the House of Representatives during the sessions of 1911-13-15 has fitted me to give you good service in the Senate. I am a friend of the farmer and will do all I can in the interest of the entire district, state and nation, if nominated and elected.

Yours for service,
CHARLES W. SMITH.

CRANK CASE EVILS

Adding a 'quart of oil' whenever the spirit moves you is just like throwing a glass of water into a tub of soapsuds and expecting the mixture to turn clear.

The sane motorist drains his crank case each 500 miles because he knows motor oil wears out just like any other substance subject to wear and tear. When oil is worn, has absorbed a certain amount of raw gasoline, a certain amount of carbon, its usefulness as a motor lubricant is over.

Some so-called motor oils are not fit for any car. About the same destructive effect as bootleg liquor to the human interior economy. Use judgement in selecting your motor oil.

And we want you to try Staroline oil of course. In fact we would like you to compare the Staroline drawn off from your crank case after 500 miles service with any other oil you have used a similar time. Then we know you will agree with us

Staroline MOTOR OIL
is the BEST for your car.
