## TUSCOLA FARMERS TO VISIT M. A. C.

TWO-DAY TOUR IS PLANNED  
FOR JULY 31 AND  
AUGUST 1.

Will Visit Various Places of Interest  
and Take Part in Farmers' Day  
Program.

The Michigan Agricultural College has invited the farmers of Tuscola County to visit that institution. A tour, under the auspices of the County Agricultural Agent Sims will be conducted to that place starting the morning of July 31 and returning August 1st. Group I will leave Fairgrove at 6:45 a. m.; Vassar at 7:15 and Millington at 7:45. Group II will leave Caro at 6:45 and arrive at Millington by way of Mayville road at 7:45. Group III will leave Mayville at 7:15 and arrive at Millington at 7:45. All groups will leave Millington and go by way of Otisville, Davison, Flint, Owosso and East Lansing.

Thursday afternoon will be spent in visiting the various places of interest at the College. Bring along your blankets and sheets as all will sleep in the dormitories. Friday—all will visit the hay making exhibition and take part in the usual farmers' day program which has been announced.

The entire family should go, as the ladies will find much of interest. This will be the best time to visit the college because guides will be furnished and the crops, fertilizer, soils, animal and other experimental work will show at its best. It will also be cheap. Any resident of Tuscola county is invited to go along.

In the expectation that "the family" will come along with dad for the annual farmers' day at M. A. C. on August 1, plans are being made to provide special headquarters and entertainment for women visitors. As a result, farmers' day will be ladies' day too at the college this year.

Making their headquarters in the new M. A. C. home economics building, the ladies will find much of interest in their own particular field, and in addition they will join the men in inspection trips over the college grounds in the morning. The big afternoon meeting under the campus trees is, of course, planned for all the Farm Day visitors.

The livestock parade, or "style review," the band concert, the talks by national agricultural authorities, and the specially prepared exhibits are expected to be of as much interest to the women as to the men.

During the afternoon, tea will be served in the parlors of the home economics building, the faculty of the college home economics department serving as hostesses for the social gathering.

## RACE PROGRAM AT CASS CITY FAIR AUG. 12-15

Eleven Hundred Dollars Are Offered  
in Purses for Races at First  
Fair of Season.

Angus McPhail, superintendent of speed, predicts a large influx of horses for the races during the Cass City Fair August 12-15.

Cass City holds the first fair in the Thumb district and horsemen have formed the habit of coming here in large numbers and entering their fast ones in the first races held in this district, later taking in the other race events in the Thumb.

The following is the race program at the Cass City Fair:

## CASS CITY WON FROM CARO LEAGUERS 5-1

Bunching of Hits in Second and  
Eighth Innings Results in Five  
Runs for Locals.

Cass City leaguers have won their last five contests and have advanced from the cellar to third position in the Tuscola county league. Their last game was with Caro on July 17 at the county seat when the local team carried home the long end of a 5-1 score.

Cass City's bunching of hits in the second inning together with an error

by Caro's third baseman netted the local team three runs. Phillips and Patterson each pounded out a two-bagger and Graham sent out a single. An error by a Caro player in the eighth, Graham with a hit, Ward sending out a fielder's choice, and Sherman with a hit formed a combination which resulted in two more runs for Cass City.

Hits by Clark and Parker in the seventh resulted in scoring Caro's only run in the contest.

## SANILAC CO. FARM BUREAU WILL HOLD PICNIC AUG. 14

Invitation Extended to Town and  
Country People to Spend Day  
at County Park.

The Sanilac County Farm Bureau is planning on holding their annual picnic on August 14, at the county park.

As before, the bureau expects to have outside speakers. Arrangements have been made to have Mike Noon, president of the Michigan State Farm Bureau at the picnic. Plans are under way to obtain a lady speaker from the college who will present some of the problems which confront women.

Officers of the bureau want everyone to be sure and remember the date and come. Both town and country people are invited.

## NEIGHBORHOOD NEWS OF THE THUMB TOWNS

Items Taken from the Newspapers  
Published in the Thumb  
District.

Deckerville construction company were low bidders on 1.373 miles of road to be constructed in the village of Forestville with a bid of \$64,445.01 at the receiving of bids at the road office. Seven bidders competed for the contract. The road will be of concrete construction and commence at the south side of the corporate limits of the village.

County clerk, Guy Hill, stated that no re-registration for voting purposes will be held in Tuscola county this year. Mr. Hill has received word from the attorney general that this will be necessary only in cities or townships of more than 10,000.

The Marlette Oil and Gas Co. is distributing a 25 per cent dividend among its stockholders, and has a substantial surplus left in its treasury.

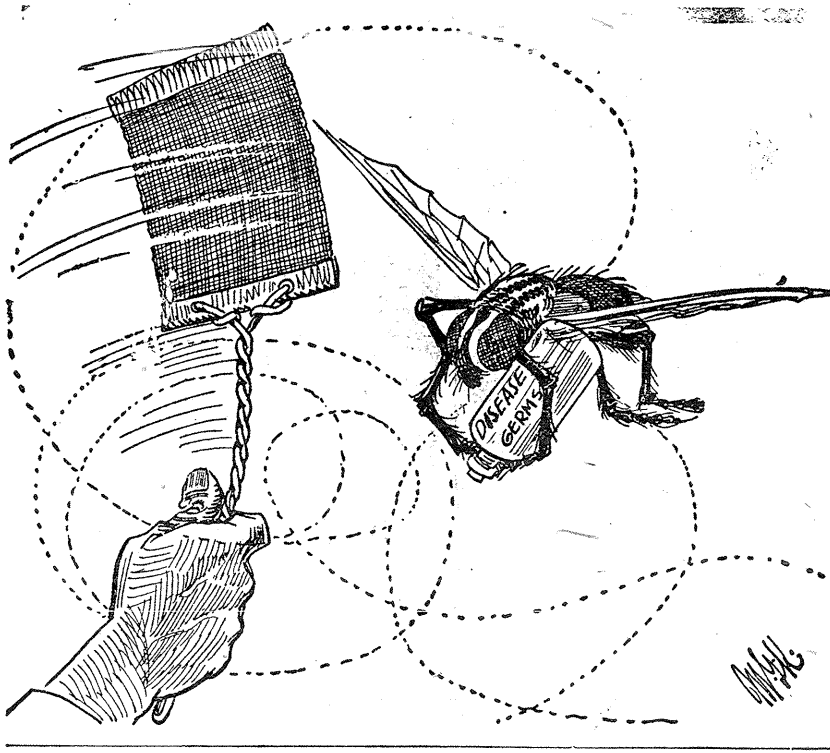

County Treasurer James Curry received from the state auditor's office Sanilac county's share of the automobile license money for the quarter ending June 30, which amounts to \$10,826.15. The amount received the first quarter from January 1, 1924, to

REV. AND MRS. TURNER

comprise the Turner party, singers and preachers, who will conduct a tent meeting in Cass City from July 26 to Aug. 10. They appear here under auspices of the Nazarene church.

## War Declared!!!

March 31, was \$27,110.45. The county's share for the first six months totals \$37,936.60.

Elkton will have a home-coming celebration on Friday, Aug. 8.

Jno. Schnell's farm near Vassar was visited by chicken thieves last week and 50 springers are missing. It is thought that the thieves operate with a truck.

Octie Lloyd Orr, senior member of the firm of Daniel Orr Sons, North Branch retail hardware merchants, died July 14 in the Jefferson Clinic hospital, Detroit. The immediate cause of death was erysipelas, a complication which developed some time after his removal from his home to that institution, a little over three weeks prior to his demise.

Only one bidder was found to have made an offer on the construction of the proposed stretch of pavement in Harbor Beach when H. W. Hagaman opened bids Wednesday afternoon. Charles H. Frame & Son was the only bidding firm, offering to put in the pavement for about \$37,000. The board of road commissioners, however, considered this too high and ordered all bids re-advertised.

Margaret Hastings, 17-year old daughter of Henry Hastings, a Detroit undertaker, was killed when an automobile driven by her escort, Don Gordon, crashed into a truck on the Huron Shore pike near Lexington. Gordon is being held by police at Sandusky. The truck was owned by M. H. Ayres of Detroit and was stalled along the road when Gordon struck it.

Herman Martin reports the striking of a 13-foot vein of coal in a well he finished on the property of Henry Rose last week. The deposit was found at a level of 90 feet and is of a good quality and almost free from sulphur. In a well Mr. Martin recently drilled for Fred Fiebig and William Schulz, on East Main street, he found seven feet of coal.—Sebewaing Blade.

Federal prohibition officers on Saturday arrested John Belski, a Wisner township, Tuscola county farmer, at his residence, for unlawful possession of a quantity of liquor. During a raid on his farm the men claim to have found a quantity of "home-run" whisky, part of a still and about 100 gallons of mash. He was arrested and placed in the county jail and will be taken today to Saginaw for arraignment on the charge before the United States commissioner.

Arthur Winkler, 25 years old, son of Mr. and Mrs. Lawrence Winkler, prominent Tuscola county residents, died Tuesday noon of injuries received Monday afternoon when he fell from a hay loft while unloading hay. Mr. Winkler, with his father and brother, Edwin, were working on their farm, situated about six miles from Richville. Mr. Winkler had climbed to the

loft of the barn and was spreading the hay about. When the wagon had been unloaded he started to descend by sliding down a brace from the roof of the barn, when the brace suddenly loosened and precipitated him to the floor. He struck on his head, fracturing his skull.—Reese Review.

Fred J. Taggart, well known Marlette druggist, has been appointed to the office of county road commissioner to succeed Walter B. Smafield whose resignation was tendered last week following his moving to West Virginia.

Permission was received Monday from H. Taylor, Major General, Chief of Eng., to remove 273 feet of the old wooden north breakwater at Harbor Beach. This permission was granted at the request of the city council to allow more water to flow through the harbor, and to keep it cleaner. Under the present conditions the harbor is more or less a cesspool for all the refuse found in a body of water of this size.—Times.

Two men, 12 gallons of moonshine and a complete still, including all apparatus, were taken in a raid Monday night conducted by Deputy Sheriff George Holdburg and Oscar Conklin. The liquor and equipment were taken after a search warrant took the officers to the home of Frank Siple in Elmer township, where seven gallons of "moonshine" was found. Siple admitted that he had a still but that he kept the machine at the home of Louis Silk. When the officers visited the Silk home to get the stills, Silk turned over the liquor collection, amounting to five gallons of moonshine. Both men were arraigned on Tuesday morning before Justice John Syslop at Sandusky. Siple pleaded guilty to both manufacture and sale, while Silk admitted only manufacture. Both men were passed to the circuit court for sentence, which will be given soon.—Peck Times.

## MODERN FARM HOMES SOUGHT IN CAMPAIGN

Twenty-five Counties Listed on Tour  
for M. A. C. Home Convenience  
Truck.

Modern conveniences in the rural homes of the state will be the aim of a special demonstration campaign to be put on in 25 counties of the state this summer by extension men of agricultural engineering department at the Michigan Agricultural College.

The campaign team which will travel by truck with full equipment to demonstrate the practicability of farm water systems and sewage disposal systems, will start from Ingham county the first in August, ending its tour in Clinton county late in October. At least two demonstrations are to be made in each county, according to O. E. Robey, of the M. A. C. staff, who is in charge of arrangements.

## HAMILTON-HARRIS.

Earl Harris and Miss Ora Hamilton of Decker were united in marriage by the Rev. William W. Edwards at the manse, 712 W. Mt. Hope Ave., Lansing, Tuesday, July 15. The bride and groom were attended by Mr. and Mrs. Leroy Harris, of Laingsburg, Michigan. The young couple will reside for the present at the home of the groom's parents at Decker.

## HALL FAMILY REUNION.

About forty-five members of the Hall family were present at a family reunion held at Lake Pleasant last Sunday. A bountiful pot luck dinner was served after which those present enjoyed an afternoon of sociability. It was contemplated at the meeting to make the reunion an annual affair and hold it on a holiday.

Following are the names of those present: Mr. and Mrs. Geo. Hall and daughter, Lucile, and son, Frederick,

Mrs. Margaret Patterson and Mr. and Mrs. Harold Hall and baby, all of Imlay City, Mr. and Mrs. Stanley Hall and two children, Irene and Edwin, of Detroit, Mr. and Mrs. Russell Hall, Mr. and Mrs. Chas. Klinkman, Mr. and Mrs. Samuel Vyse and Miss Mildred Hall, all of Flint, Mr. and Mrs. B. O. Watkins and two sons, Eldon and Lyle, and Miss Ruth Hall, all of Pontiac, Mr. and Mrs. Geo. Bailey and two children of Elmwood and Miss Alma Hall of Ann Arbor. Cass City people who were present are Mr. and Mrs. I. W. Hall Thos. Hall, Mrs. Anna Patterson, Mr. and Mrs. Hazen Patterson and Miss Edna Robinson. Several intimate friends of the family were also present.

## TARIFF DAYS OF CLEVELAND RECALLED

VETERAN CLINTON CO. PUBLISHER PRESENTS UNIQUE  
COMPARISON.

Farmers Fare Better Now Than  
Under Wilson-Gorman Tariff  
Statute.

(By Coleman C. Vaughan.)

Prices of certain farm products have been low since the slump in 1920 and prices of labor and manufactured goods have been high in proportion, the labor costs having much to do with the prices of manufactured goods. But prices of farm products have been much lower. Democrats claim that the tariff is of no benefit to the farmer, but when the Wilson-Gorman tariff law was in full effect, on April 5th, 1894, the market quotations in the Clinton Republican, St. Johns were as follows:

Wheat, 53 cents per bushel.  
Oats, 31 cents per bushel.  
Hand picked beans, \$1.00 to \$1.20 per bushel.  
Hay, \$5.00 to \$8.00 per ton.  
Live chickens, ducks and geese, 5 cents per pound.  
Dressed chickens, 7 cents per pound.  
Dressed beef, 4½ cents per pound.  
Dressed pork, 5 cents per pound.  
Butter, 10 cents to 15 cents per pound.

Eggs, 9 cents per dozen.  
Potatoes, 40 cents per bushel.  
Wool, 10 cents to 17 cents per pound.

Coming down to April 8, 1896, when the Wilson-Gorman bill was in perfect running order, the quotations were as follows:

Wheat, 70 cents per bushel.  
Oats, 10½ cents per bushel.  
Hand picked beans, 65 cents per bushel.  
Hay, \$10 per ton.  
Dressed chickens, 7 cents per pound.  
Dressed turkeys and geese, 7 cents to 8 cents per pound.  
Dressed beef, 4½ cents to 5 cents per pound.  
Dressed mutton, 4 cents to 5 cents per pound.  
Dressed pork, 5 cents per pound.  
Unwashed wool was selling on April 29th, when the market opened, at 7 cents to 11 cents per pound; washed wool, 12 to 14 cents per pound.

This was when Grover Cleveland was president. He refused to sign the Wilson-Gorman tariff bill because it did not go far enough toward free trade, but let it become a law without his signature. But it went far enough for the business and farming interests of the country. In that year D. S. French, sold cull sheep for 75 cents per head and the market on sheep as they run averaged around \$1.50 per head.

## LOCAL ITEMS.

Mr. and Mrs. Roy Hulburt of Lapeer spent Sunday and Monday in town at the home of Mr. and Mrs. Chas. Tallmadge.

Mrs. R. A. McNamee left here Friday for Toronto, to spend the weekend. From there she went on to Winnipeg to visit relatives for several days and then on to Deloraine, Manitoba, to spend some time. Before returning home, she will go by way of St. Paul to Chicago for a few days. She expected to be gone about six weeks.

Mr. and Mrs. F. E. Kelsey of Caro are visiting at the home of Mr. and Mrs. J. L. Cathcart here. They expect to leave about the first of next month for California. Mr. Kelsey has for several years been manager of the Caro Farmers Elevator Co. Previous to that he held a similar position here with the Farm Produce Co.

Robt. Warner inserted a liner in the Chronicle last week advertising cherries and berries. He wanted the advertisement run two weeks. Tuesday, he entered the print shop, short of breath. "Take out that liner," he said. "Needn't run it more than one week. Why, we had the cherries sold before we had a chance to even see the liner in print ourselves. It surely pays to advertise!"

## FIRE DEPT. WELL PLEASED

FINDS WATER TOWER SUPPLIES  
57-POUND PRESSURE WHEN  
FULL.

Tests Made of Hydrants in Several  
Sections of Village Prove  
Satisfactory.

Fire Chief Geo. West reported to village trustees at the council meeting Monday night the experiments of the fire department in testing the length of water stream that could be thrown under pressure from the water tower recently installed by the village. Mr. West said that the pressure is 57 pounds when the tank is full and that the members of the department were greatly pleased over the results demonstrated by the experiments, they being very satisfactory all around and much better than anticipated.

Under pressure from the water tower, a stream 114 feet in length was thrown on S. Seeger St., 126 feet in the southeast corner of town, 96 feet at the fairgrounds, 102 feet on N. Seeger St., and "96 feet on West Main St. A one-inch nozzle will throw 220 gallons of water per minute.

A tank of water, it is estimated, will supply one line of hose for four hours. The tank is filled every day and the fires under the boilers are banked every night. In the event of a night fire, the tower may be used for a period of a half hour until the fireman spreads his fire and gets on a full head of steam for the pumps. It is then planned to pump the water direct into the mains in the event of a big fire, holding the remainder of the tank supply in reserve.

## DESCENDANTS OF GEO. H. MOSHIER HOLD REUNION

Met at Home of Mr. and Mrs. John  
Kitchin in Evergreen Town-  
ship July 19.

The descendants of George Henry Moshier, who was born near Maricksville, Canada, in the year 1810, met at the home of Mr. and Mrs. John Kitchin in Sanilac county on Saturday, July 19, and were delightfully entertained at a picnic dinner on a beautiful spot in the woods on the banks of Cass river. A bountiful chicken dinner with all the trimmings was served on long tables made beautiful with flowers, to which 60 sat down to enjoy themselves.

After dinner the company was called together by the president, John R. Moshier of Novesta. There was a business meeting and the following officers elected for the next year: President, John R. Moshier; secretary, Mrs. Harold Degrow; treasurer, Mrs. Jesse Soles; journalist, Mrs. Robert Brown; chaplain, Miss Nora Moshier; Robert Brown, chairman of program committee assisted by Mrs. Harold Degrow.

A splendid program of music and readings was enjoyed. A ball game between the Midgets and Giants was held, the Midgets winning with a high score.

The Moshiers, Reuben and David, brothers, came to Lamotte and Novesta townships in the early sixties when an Indian trail was the only road. Mrs. Reuben Moshier was the first white woman to settle in Novesta township. They were the real pioneers. They thought it worth while to be wise in the use of time and did not sit down in idleness, but they built, worked and served God, forgetful of self, helpful to the world by doing loving deeds and each has helped to make a beautiful garden from the wilds.

There were guests present from Detroit, Caro, North Branch and Silverwood. The gathering adjourned to meet on the last Saturday in July, 1925, at the fine farm home of Mr. and Mrs. Lowell Sickler, one mile east of Silverwood. Prayer was offered by the chaplain and thus ended a most enjoyable day.

Miss Nora Gallagher of Saginaw spent the week-end in this vicinity visiting her parents, Mr. and Mrs. Robert Gallagher.

## WHY WORRY?

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

"STRING" slouched into the office a few weeks ago and dropped into the chair in front of my desk a crumpled and despondent heap. He had been exposed to chickenpox, his best girl was going to a dance with a Phil Gam, and his quiz grade in philosophy was 39. He was the picture of gloom and despair.

"I tell you," he said, after a few moments of ominous silence, "I'm worried."

There are few states of mind more useless and harmful than worry. Half the things we worry about never happen, and the other half right themselves if we go along cheerfully and do our work.

I was brought up in an atmosphere of worry—that is, I lived as a child on a farm—and I early got my fill of it and learned its futility. There was the worry of chinch bugs and cut worms, of early frost and hot winds, of drought and wet spells, of low prices and falling crops, of hog cholera and bots and glanders and foot rot, and a thousand and one diseases and disasters which seldom overtook us.

"We are going to have a fine crop of corn this year," I said to a complaining neighbor.

"Yes, but I'm worried for fear we won't get anything for it," was his cheerful reply. "When we have a crop we don't get anything for it, and when prices are high we don't raise anything."

And I never remember a crop failure or a time when things did not turn out pretty satisfactorily, though few ever learned to give up worrying.

There are few things so useless as worrying. It will not win a girl's love or raise the price of potatoes; it will not get a man a job or make him immune from the hives. It helps no situation; it gets one nowhere; it is as gloomy and as uncertain a pleasure as the enjoyment of poor health.

There are few things which so inhibit and discourage progress or success as worry. It corrodes every pleasure; it destroys ambition; it is a foe to content; it robs a man of the will or of the desire to think or to work. When a man worries he must give all of his time to it.

The man who says he can't help worrying resigns himself to emotional slavery too easily. Worry is amenable to the will as is every other form of nervousness or hysteria. We encourage it by courting it and by yielding to it.

"String" told me the other day that he had a letter from his mother, telling him that he had had chickenpox when he was a child, so that there was no danger of contagion at this time; his instructor had misread his grade in philosophy—it was 93; and his best girl had just sent him a beautiful birthday cake with a heart in the center and with candles around it.

Why worry?

Mr. and Mrs. David McCracken, Mr. and Mrs. Woodrow Wilson, Mr. and Mrs. Leonard Patch, Mr. and Mrs. Lyle Patch, all of Detroit, were callers here Sunday.

Where a small town is without excitement, create some. We will tell you of ours in two or three weeks hence.

William Gage has removed top of his car, all but the driver's seat, placed a platform on back part and made it into a general-use vehicle.

Many go to Caro by way of Wilmot rather than pass through the detour stage west of here where the bridge is being planted.

It is not definitely known in what part of God's creation the gypsies originated. It was in the eleventh century before history pays attention to this despised people. Their own account is the best we can get. That they came from Little Egypt, and did not originally have the wandering habits; were a tribal people like all others in olden times going over the eastern continent to find a location that suited best. They in some way, incurred the displeasure of the King of the land now known as Hungary. He selected the most robust of both sexes and had them baptised and the rest were put to the sword. Those who were baptised were condemned to move from place to place for seven years. Habit became strong and they are what they are. We call them vagabonds, but we must admit them to be a shrewd people. As a rustic, we dare to think they sprang from the infidel Jews of long ago, before they learned to talk—an out-cast Jew who "would not weave neither would they spin."

It cost Lloyd Osburn nearly \$50.00 to repair his car.

Did you notice the sheriff's report of criminals for the year ending June 30th and nationality of foreigners? England 21, Austria 19, Poland 14, Russia 12, Germany 5, Mexico 5, Ireland 1. If you have ever spoken harshly of him born where the Shamrock grows, repent in sackcloth and ashes.

James Valentine was in town on Friday.

Samuel Sherk has a new coat of paint on his house.

Old Mr. Shaw improves in health and use of limbs.

C. J. Malcolm returned Friday from a five days' visit in Pontiac, Birmingham, Detroit, and other points.

Ground for the new elevator cleared on 15th by a gathering of stalwart men. A. D. McIntyre came from Saginaw and brought four melons, huge in size and perfect in flavor which all present enjoyed.

Ivan Nutt labors in Pontiac. Bought a second car. Says he got a permit to drive it up here, but thru some misunderstanding, Pontiac authorities came after him so as to have a heart to heart settlement. All is well that ends well.

Fifty years ago we heard a song, which we recall. It represented John Bull and Brother Jonathan in a dialogue rejoicing, in which the chorus ran as follows: Johnny Bull said to Brother Jonathan, "You'll be King on dry land and I'll be King on sea." The prophecy holds good yet. How long will it continue true, is the question before the world today?

Somewhere back when this nation was in its childhood there was a season known to the "New England" people as the "year without a summer." The aged ones described it to us when we were a kid. We think of their description of that season these cool

mornings in July. Yet all crops except corn were fair crops.

Roderick Kennedy, sr., is considered a bee charmer of no mean ability, but for some reason one became offended and speared him near the right optic which gives his phiz a huge appearance.

We are a harmless people and would have the county "deps" that come among us understand that 'tis unnecessary to flourish "irons" where there is only a 17-year-old boy and his mother. Just say "Come" and we will obey meekly.

E. L. Patterson was at Pontiac on the 16th and brought back Ivan Nutt, who was down there at a conference, in which Ivan, through the advice of "Hoke" Smith, barrister of Caro, put a Pontiac car dealer in a humiliated condition.

A foolish friend is often more dangerous than an enemy.

The showery weather of late has been a detriment to hay making.

Correspondents should remember that items from the burghs around are the interesting part of a country publication to readers who once lived in locality and now dwell at a distance and for that reason should be full as possible.

The poor homeless dog that has been around so long has passed on, apparently by the poison route.

Mr. Bell, who has been an invalid all winter and confined to the house, has so far recovered as to ride out on the 17th.

In conversation with those who have been in position to know, the following language was used: "There is absolutely no danger in being out in the open air with a smallpox patient. In Detroit children are allowed to come around the ambulance when a patient is being moved from the home to the pest house." Then I thought of fifty years ago how precaution was taken to locate the pest house at least half a mile from where anybody lived. Now 'tis an exploded idea that the disease travels in the air.

If we believe what is taught as advancement in medical science today, our belief has been made up of delusions in the past. Fifty years to come what will be said of the belief of today?

In the long vista of the years to roll Let me not see my country's honor fade,

Oh, let me see our land retain its soul, Her pride in Freedom, and not Freedom's shade!

Our school meeting passed off quietly. Nine months school the coming school year.

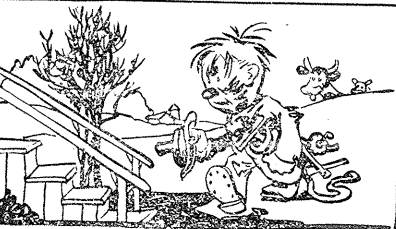

Wm. McCracken is building John Pringle's new house stoop.

There has been more spreading of paint this season than in years gone by when the beautifier was cheap. We determined to make a good appearance if we don't lay up a cent.

One of the firm informs us that the new elevator will be as large as old one, and ready for fall cereals, hence its erection must begin right away.

## The High-Grade Gasoline Means Your Money's Worth of Mileage

TRUE gasoline economy lies in mileage—providing other good fuel qualities are not sacrificed.

Comparative road tests by users and by manufacturers of automobiles, prove that Red Crown yields more and better mileage than any other gasoline of its kind. In addition to extra mileage, Red Crown gives flexibility and efficient performance at all times.

To quote from a letter recently received—"Red Crown, used by us for the last four years, has given us smooth acceleration, more mileage and power, and does not thin out the oil in the crank-case because it burns up clean. Our carburetors do not have to be adjusted because Red Crown is always uniform in quality, everywhere."

Red Crown effects other economies. It keeps your engine running sweet and clean. It reduces overhauling and cleaning bills, and best of all it provides that dependability of performance which is so agreeable to all motorists.

Use Red Crown this summer. It will give you more for your money and more days of service from your car.

On June 27, the Chronicle printed an item regarding a fire loss of the Matzen Woolen Mills at Seattle, Wash., in which Geo. Matzen, a former Cass City merchant, is interested. The Chronicle was misinformed regarding some details and is again mentioning the matter so that corrections may be made. Instead of being nearly a total loss less than half of the mills were destroyed. The plant comprised five buildings, only two of which, the dye house 40x80 feet and the warehouse and offices, 80x160, two stories, were destroyed. The large plant building, 230x150 feet, in which Mrs. Smith Hutchinson and Gallagher to these ladies whose birth-in which the cloth is made from the days came very close together. About raw wool remained intact save for broken windows and neither were the picker and boiler houses, smaller buildings, burned. The loss was about \$120,000, 90 per cent insured. In addition to this financial loss, there is a four months' inactivity while a new building is being erected to take the place of the two destroyed. The Matzen Mills were running night and day previous to the fire and had all the orders they could fill for many months. Other mills on the coast were either closed or closing because of the lack of orders.

## CASS CITY HAPPENINGS OF TWENTY-FIVE YEARS AGO

Items from Cass City Enterprise of June 27, 1899:

On Wednesday, in response to a call, Dr. J. M. Truscott drove four miles beyond Pinnebog, called on four patients and was back before dark having driven sixty-six miles.

The new engine at the elevators works nicely and will give the proprietors a great advantage in handling their work satisfactorily. A hydrant has been placed near the weigh scales and water service is being placed.

At a special meeting of the school board on Wednesday evening, the members of that important body chose their officers for the year as follows: President, W. J. Campbell; secretary, H. S. Wickware; treasurer, P. S. McGregory. F. Klump took his seat for the first time as a member of the board. It was decided to place a six-foot cement walk leading from the village walk to the school building.

Henry Dodge of Elmwood, president of our fair association, was in town on Monday and informs us that he has received word from Sharp Butterfield that he will be with us at the fair without fail to act as judge of cattle, sheep, swine and poultry. This will go a long way towards filling those departments at the fair with the very best the country can produce, as his judgment always gives satisfaction. Mr. Butterfield has first been acting in a like capacity at the Winnipeg Summer Fair in Manitoba and reports it a tremendous success.

## Origin of Schools in Scotland

Elementary schools were established in Scotland by the provisions of the elementary education act of 1872. Prior to that, however, education had been regulated by the Scottish parliament. As early as 1696 an act was passed for settling schools, providing for the maintenance of a school in every parish in connection with kirk.

## Painter "Covered" Many Wars

The famous British war artist, Frederic Villiers, who died recently in London, began painting with the Russo-Turkish war of 1877. South Africa, Port Arthur, Tripoli, the Balkan wars and the World war were all covered by him.

## "Porter House"

In ante-Volstead days the "porter house," where porter and other malt liquors were sold, was quite a place for social gatherings. To offset competition, the proprietor of a certain New York "porter house" made his place a favorite by serving choice beef steaks, cut from behind the best ribs. This particular cut soon came to be known exclusively as "porter-house steak."

Oft and oft our thoughts do wander  
To a grave not far away,  
There we laid our loving Etta  
Just one year ago today.  
The sweetest flower is first to fall,  
The fairest first to fade,  
The fondest, dearest beloved by all  
Within the grave is laid.

## The Greatest Power

You can't accomplish what you can't imagine. The minute you say to your self, "Oh, that isn't possible," it isn't possible to you. But some other fellow who, with his mind's eye, sees the thing finished, will come along and do it. Creative thought is the greatest power in the world.

## The Work Habit

There are three habits which, but one condition be added, will give you everything in the world worth having, and beyond which the imagination of man cannot conjure forth a single addition or improvement. The habits are the work habit, the health habit and the study habit.—Elbert Hubbard.

## Castles

I find the gayest castles in the air that ever were piled far better for comfort and for use than the dungeons in the air that are daily dug and caverned out by grumbling, discontented people. A man should make life and nature happier to us, or he had better never been born.—Emerson.

A certain automobile manufacturer claimed to have put a car together in seven minutes.  
A few weeks after this event was heralded in the newspapers, a voice on the telephone asked:  
"Is it true that your factory put a car together in seven minutes?"  
"Yes. Why?"  
"Oh, nothing. But I believe I have the car." Southern Telephone News, Atlanta, Ga.

ALL OUT OF SORTS?

So Was This Cass City Woman Who Tells Her Experience.

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills—a stimulant diuretic. This Cass City case is one of many:

Mrs. George Rohrbach, W. Houghton St., says: "My back was sore and lame and ached continually. Sleep was impossible and added to that my kidneys acted too frequently. My ankles swelled and I felt tired and drowsy. Doan's Pills cured me of the severe backache and put my kidneys in good shape."

Mrs. Rohrbach is only one of many Cass City people who have gratefully endorsed Doan's Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Pills, the same that Mrs. Rohrbach had, the remedy backed by home testimony. 60 cents at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. "When Your Back is Lame, Remember the Name."—Advertisement 7.

MANY WOMEN USE  
GLYCERINE MIXTURE

Women appreciate the quick action of simple glycerine, buckthorn bark, etc., as mixed in Adierika. Most medicines act only on lower bowel but Adierika acts on BOTH upper and lower bowel, and removes all gasses and poisons. Excellent for obstinate constipation and to guard against appendicitis. Helps any case gas on stomach in TEN minutes. Burke's Drug Store.—Adv. 3.

Notice to Destroy Weeds.

To all owners, possessors or occupants of lands, or to any person or persons, firm or corporation having charge of any lands in this state:

Notice is hereby given that all noxious weeds growing on any lands anywhere within the Township of Elkland, County of Tuscola, State of Michigan, or within the limits of any highway passing by or through such lands, must be cut down and destroyed on or before the first day of August 1924.

Failure to comply with this notice on or before the dates mentioned or within 10 days thereafter shall make the parties so failing liable for the cost of cutting the same and an additional levy of 10 per cent of such cost to be levied and collected against the property in the same manner as other taxes are levied and collected.

Also all brush growing upon the right of way of all highways running through or alongside of said land, but not including any shrubs reserved for shade or other purposes must be cut and destroyed.

Commissioner of Highways, Elkland Township, County of Tuscola, State of Michigan. 7-18-2

Order for Publication—Sale or Mortgage of Real Estate.—State of Michigan, the Probate Court for the County of Tuscola.

At a session of said court, held at the Probate Office in the Village of Caro, in said county, on the fifteenth day of July, A. D. 1924.

Present, Hon. O. D. Hill, Judge of Probate.

In the matter of the Estate of Clara Quick, Deceased. John C. Corkins, administrator, having filed in said court a petition, praying for license to sell the interest of said estate in certain real estate therein described,

It is ordered, that Monday the eleventh day of August, A. D. 1924, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted;

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said county.

O. D. HILL, Judge of Probate. (Probate Seal).

## Michigan Happenings

Mrs. Henry Crate, living on a farm near Niles, was burned fatally when a kerosene stove exploded. The explosion was the sixth here within the last three weeks, two other women having been burned to death in other kerosene fires. Local authorities claim the kerosene supplied to Niles has too high an explosive content, and that the fatal accidents have resulted from this. In addition to the fatalities here, two persons have been burned to death at Dowagiac recently. The kerosene used is reported to come from the same source.

Detroit firemen were called upon recently to extinguish a spectacular fire that swept an ice house, Springwells, causing an estimated loss of \$100,000. It was reported more than 50 tons of ice were in the building when the blaze was discovered. When the Detroit firemen arrived the flames were bursting from nearly all parts of the wooden structure which was 650 feet long, 60 feet wide and 70 feet high. The heat soon destroyed a number of railroad tracks. Within a short time clouds of smoke enveloped the neighborhood.

E. L. Mason, boy scout executive, of Flint, in a conference with E. W. Viets, manager of the Flint safety council, recently made known his plans for the coming year. According to Mason, all boy scouts will cooperate in the various campaigns which are sponsored by the Flint Safety council. The scouts are a medium by which literature and notices may be placed in the hands of the general public without loss of time and the waste which ordinarily arises when other individuals perform this sort of work.

When James Scott, 51 years old, Boyne City farmer, walked into Butterworth hospital at Grand Rapids a few days ago and complained of pains in the back, he was really suffering from a broken spine, attending physicians stated. A thorough examination disclosed that several small bones of the spine were broken when Scott was thrown from a wagon on his farm early in June. He was unconscious for two hours, and when he rallied he complained only of the pains in his back, which baffled physicians.

Hearings on the petition of the Michigan Central Railroad for permission to abandon its agent stations in nine small Southwestern Michigan points was held before the State Public Utilities Commission recently. The railroad complained that there is insufficient business to warrant maintaining agents. Counsel for the villages protested, claiming that agent service is essential and that the railroad has not shown sufficient proof of unprofitable business.

Three hundred and nine automobiles during the month of June were stolen throughout the state, according to the monthly report of the secretary of state's office. One hundred and eighty-five of this number were recovered, according to the report. The largest number of cars stolen, the report shows, were from Detroit. Hamtramck was next, and Ludington third.

Forty-two farmers, armed with pitchforks, recently foiled attempts of deputies to seize farm produce, machinery and other articles on the farm of George Smyers, north of Holland, to satisfy a writ of attachment. When three officers tried to force their way into the premises the belligerent farmers threatened to lynch them, it is said.

Sales reports from the 34 American branches of the Ford Motor company show that more than 1,000,000 Ford cars and trucks were sold at retail during the first six months of 1924. The actual figure is 1,036,978, which exceeds the total retail sales for the same period in 1923 by 133,095.

The Manistee city gas rate of \$1.60 per 1,000 cubic feet has been reduced to \$1.50 by the city commission. This is the second reduction made by the commission in six weeks, the first from \$1.75 to \$1.60 having been ignored by the Consumers Power Co. The action came as a climax to five years of negotiations with the company for a new gas plant.

Hamburg street has been abolished in Muskegon. Residents objected to the name Hamburg street and Mayor Archibald Hadden joined in the request. The residents tired of being called hamburgers. So the street will be known as Catherine avenue.

Robert Fitzgibbons, 35 years old, a switchman on the Chicago, Milwaukee & St. Paul Railroad, at Iron Mountain, was killed at Channing while helping to make up an ore train. He fell between the cars.

General Byron R. Pierce, of Grand Rapids, loyal soldier and last Civil war general, was buried a few days ago, when taps had sounded the close of a life 95 years long—a life which played its full part in keeping the nation one.

Cold weather this summer has cut the ice cream manufacturer's business in Grand Rapids from 25 to 50 per cent and ice companies report a business not exceeding 80 per cent of normal years, a survey indicates. Ice cream manufacturers, who usually operate their plants 24 hours a day during the summer months, are operating only during the daytime. Family consumption of ice has been cut to the point where drivers are returning to their stables at 10 a. m., though their trips are scheduled to keep them out until 3 p. m.

A heart attack proved fatal to Fred H. Baker, 65 years old, a well known business man and capitalist of Dowagiac, while he was motoring to South Bend recently. Railroad workers noticed an automobile drive into a ditch and stop and about an hour later found that the driver was dead. Sheriff Earl Sill was called, who recognized the dead man as Mr. Baker. Mr. Baker had just attended a directors' meeting of the Dowagiac Manufacturing Co. and apparently was in good health. He is survived by his widow and two sons.

The average cost per capita of maintaining inmates of the State hospital institutions is \$1.35 a day, according to a report. The lowest per capita cost is in the Michigan Home and Training School with 76.8 cents. The cost per inmate in other institutions is: Kalamazoo Hospital, 95.4 cents; Pontiac State Hospital, 97.4; Traverse City State Hospital, 79; Newberry State Hospital, 92.4; Ionia State Hospital, \$1.02; Michigan Psychopathic Hospital, \$3.39; Michigan Farm Colony, \$6.9; State Sanatorium, \$2.48.

P. S. Sheldon, balloonist at the Flint Amusement Park, and a woman partner named Hastings, had narrow escapes from death when they were forced to make landings in a residential section with their parachutes after a double ascension in the same balloon. The man landed on the roof of a house and was taken to Hurley Hospital, suffering from severe lacerations to his face. The woman landed on electric light wires and dripped several feet to the ground but escaped injury.

The Highland Park taxpayers burden during the fiscal year just ended was lightened by nearly \$40,000 collected mainly from speeders and drunks. In the justice court the total number of cases heard was 4,008, an increase of 31 per cent. There were 1,393 cases of speeding and 500 cases of drunkenness. While the budget appropriation for the court for the current year's expenditure is \$13,300, receipts last year, \$41,003.

The State Public Utilities Commission has issued an order making effective July 31 a new schedule of switching rates in Detroit, the same as that of the Interstate Commerce Commission. The new rates are \$16 a car for terminal switching, \$12 for inter terminal, and \$7 for reciprocal. The commission says the Michigan Central was not justified in proposing cancellation of rates for intermediate switching to Detroit Manufacturers.

For stealing 28 cents, Charles White and A. J. Crisser, both of Dimondale, must serve two to fifteen years at Ionia reformatory. The men were sentenced in circuit court at Lansing after pleading guilty to breaking and entering at night while armed.

Two Detroit children playing in the street in a child's "express wagon" were caught under a heavy truck which overturned and killed them almost in front of the eyes of their mothers, although the driver of the truck crashed his machine against a telegraph pole in an effort to avert the accident. The truck overturned and fell on them.

Clyde Todd, 24 years old, Philadelphia, was drowned on his birthday in Round Lake. He was thrown overboard while attempting to start the motor on a pontoon air propelled speedboat. Coast guards were called and by the aid of electric lamps, lowered in the water, the body was recovered.

The officials of the Rapid Railway at Port Huron are planning to give hourly bus service as far north as Lake Port, 12 miles from Port Huron, for the summer tourists at the various beaches. Two large buses have arrived here, and if the passenger traffic warrants it, the service will be extended to other points.

Fire of undetermined origin caused a loss of \$200,000, when it destroyed Ponchartrain-on-the-Lake, one of the best known roadhouses in the Detroit district. The building and contents, which included furnishings from the old Ponchartrain hotel of Detroit, from which it took its name, were insured for \$88,000.

Five thousand sheep have been shipped from Chicago into Mecosta County where they will graze upon pasture lands west of Big Rapids. Caulkins & Augsburg's ranch near Hungerford received six carloads.

Miss Helen E. Jones, 81 years old, Grand Rapids' oldest native resident, died recently at the home of a brother, Charles W. Jones, after a long illness. She was born in a west side home across the road from which was a camp of Ottawa Indians.

## POPULARITY OF THE FEDERAL RESERVE

Test Shows Small Country Banks as Well as City Banks Strongly Favorable.

Assertions by some politicians that small banks generally are inimical to the Federal Reserve System were put to the test recently by a committee appointed by John D. Phillips, president of the State Bank Division of the American Bankers' Association by means of a questionnaire sent to 11,000 state banks. The result indicated that an overwhelming majority of them are, in fact, friendly to the System.

Two questions were put to the banks. The first was as follows: "Do you believe that the Federal Reserve System has been beneficial to the agricultural, commercial and banking interests of the country and that it should be perpetuated?"

To this 4,934 replies were received. Of these 4,024 voted "yes" without qualification, and only 61 voted "no." Further answers still coming in when this tabulation was made indicated the same favorable trend.

The second question asked by Mr. Phillips' committee was: "If your not being a member should contribute to the destruction of the System, would you join?"

While the great majority of the state banks are not members of the System, largely for technical reasons, the answers showed that the bulk of those non-members who are eligible to join would do so if such action were necessary to save the System. To his second question 2,876 have been recorded as voting "yes" and only 725 as "no." Many refrained from voting on this question because under the present rules they are ineligible for membership.

Some replies voiced certain criticisms of the System, but these universally dealt with details of administration or of the rules and not with the principles of the institution.

### RECONSTRUCTION

A man came into a Nebraska bank in the spring of 1922 and asked for financial assistance. His statement prepared in the Service Department showed he was about bankrupt; that he owed \$1,200 more than his equipment was worth. He had a farm rented for the year. Further credit had been refused him in his own bank and he was about ready to quit and apply the proceeds from the sale of his equipment to his debts.

The bank's Service Man went with him to his farm and after an examination decided that if the farmer had a half dozen cows and ten brood sows he would probably be able to use his pasture and intended corn crop to advantage. The bank finally loaned him \$1,200 for this purpose and took a chattel mortgage on the stock purchased as its security. The bank admitted that ordinarily a loan should not be made like that, but the farm was close to town and the stock could readily be resold.

When the end of the year came around the exact records showed that the family had been well maintained and on half of the cream checks; the other half had been applied on his \$660 note at the bank, covering the loan for the cows. Five days before the year was up the principal and interest on the note were entirely paid by cream checks. The pigs afforded a net gain of \$1,400 after all expenses were paid.

In addition to this financial gain, the farmer was taught the value of a good cow and the necessity of keeping a record of his operations to know which farm operations are profitable. The Farm Service Department of the bank was able to teach this man things he had never dreamed about. It is worth the effort the banks would be called upon to make if each bank could turn one broken, discouraged farmer into a prosperous one.—Banker-Farmer.
