A contest, which has been in force the past two months, closed this week, the seventh grade winning. Each tardy mark deducted one-tenth of one percent from the attendance percentage. This race was close, only one-tenth of one per cent determining the winner. A similar contest will be conducted during the next two months. The attendance banner is in its ac-

Prize hens from 16 states and Canadian "Michigan's own" for top lege on November 1.

From Texas in the southwest to New York in the northeast, "foreign" pens of high producing birds have been entered among the contestants in the long race. Two Canadian provinces, Ontario and Alberta, are included in the roster, along with Ohio, Indiana, Illinois, Wisconsin, Kentucky, Tennessee, Pennsylvania, Minnesota, Missouri, Washington, Oregon, Texas and New York.

Michigan pens won all the top honors in the 1923-24 contest, which closed the end of October, but with a greater percentage of outside entries than ever before in the running this year, managers of the event are predicting that other states will be listed among the winners at the close of the 52 weeks of production.

"Lynch Law" American Term The term "lynch law," says the Kansas City Star, is said to be derived from the name of Charles Lynch (1726-1796), a patriot Virginian, who, in company with Robert Adams and Thomas Calloway, undertook to inflict summary punishment on outlaws and Tories during the war of the Revolution. These punishments were limited to flogging and banishment. The origin of this term, however, is in

Wheat in Dairy Rations

Is Highly Recommended Recent low farm prices of wheat and the relatively higher price of bran and other grains and by-product feeds have produced an interest in the feeding value of wheat for live stock. As wheat is usually too valuable to feed to dairy tle unless unfit for milling purposes few dairymen have had experience in

feeding it. Ground wheat, while not as palatable as other cereal grains, due to the fact that it forms a sticky mass in the mouth, still is an excellent feed. The grain can be crushed instead of ground and, when fed in a grain mixture with bulky feeds, this objection is

largely overcome, Wheat contains practically the same amount of digestible carbohydrates, but considerably less fat than corn. Wheat is slightly richer in digestible protein, but is slightly lower in total digestible nutrients.

As compared to wheat bran, whole wheat contains less protein, but almost 25 per cent more total digestible nutrients. While bran is light and bulky, whole wheat has the opposite characteristic. Therefore, bran does not replace wheat as well as does corn.

#### Cows Will Produce More

if Fed Much Roughage "Better Feeding for Dairy Cows" is the title of a new bulletin by Purdue university. The bulletin says in part: Dairy cows will be better fed and will produce much more prefitably if: 1. They are fed all the roughage

they will eat. 2. Most of their dry roughage is made up of such legumes as alfalfa, clover, soy bean or cowpea hay. 3. They are fed silage during the

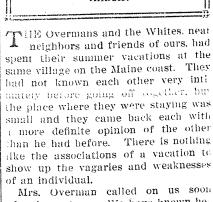

winter. 4. Their grain ration contains enough protein supplement to give it balance. 5. Cows are not expected to obtain too much of their feed from pasture, but are fed when pastures become poor in the summer and are taken off of pasture when it becomes poor in the

Cows Crave for Wood

A craving for wood does not necessarily mean that a cow is in need of a tonic or medicine. Cows will sometimes develop a habit of chewing on foreign substances like that and they are very hard to break. The habit is started sometimes by the lack of salt which causes the cow to chew on something that has a salty taste. Provide plenty of salt with a balanced ration and plenty of good drinking water and it may be that the cow will

"How so?" I inquired. "Well, he seems so selfish and over bearing with her, and she-to be real. plain about it is tight—just mean stingy tight. He's in rags, and she hasn't a decent dress to her name, and it isn't because they are poor. She's

"Wasn't it queer about the Over mans?" she ventured during our con versation. "They didn't get their meals at the hotel at all this summer She did the cooking for the family 'i their little cottage, and she kept his rose on the grindstone all summer helping her with the work. Christmas in British Isles

Christmas was introduced in what are now the British Isles under the Saxon rulers and was continued, in the winter solstice when the people had little to do, by the Anglo-Saxon kings and the succeeding monarchs of Norman blood. The celebrations beginning with court festivities and graduating down to the poorest families were frequently uproarious. In the reign of Elizabeth the Puritans attacked the Yuletide festivities, but the celebrations continued to flourish until the rule of Queen Mary. The Puritans, aided by the conditions growing out of civil war, finally succeeded by 1647 in abolishing the holilay.--George Newell Moran.

Mr William A. Radford will answer questions and give advice FREE OF Os'i on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these sub-Jects. Address all inquiries to William A. Important it is, however, to the man or woman who is preparing to invest thousands of dollars in a home to protect that investment by two things:

1. Select the architect or contractor who builds the most substantial construction-his fee is the best "insurance" vou can take out on your home as an investment.

2. Choose lumber that is accurately manufactured, thoroughly seasoned, of uniform high quality. The reasonable price you pay for this lumber is your best assurance of durable con-

These two precautions are the means of preventing the thing most feared by home owners-undue depreciation. By these means homes are being built today just as substantial and just as enduring as those sturdy old homes of the earlier days.

#### Decorating the Wall of Child's Room or Nursery

There is no room in the home that so well repays us for thoughtful care in the details of its decoration than the nursery or the children's room.

Any student of child psychology, no matter how superficial his observations may be, knows the extreme sensitiveness of the child mind to impressions from without-and the effects of the visual impressions are perhaps the strongest.

We must then realize the necessity of making a bright and cheerful atmosphere in the children's room. More than this, wise parents endeavor to create surroundings which will draw the attention and interest of the childish mind away from itself.

Remembering that we must keep should be taken against irregular the room where children live and sleep as free as possible from anything which will tend to gather and hold dust and germs—and that every inclined to lean in a certain direction available space must be left free for play space—we find ourselves turning prevailing winds from the opposite to the walls as the logical areas on which most profitably we may spend our effort and our money.

I had known George well half a dozen years or so ago, and so I was interested. "Yes?" I said inquiringly. "What

vonderful thing is he doing now?" "He has such enthusiasm; he's alvays pushing something." And then he went on to tell me of a scheme in which George was interested and which involved the expenditure of

many thousands of dollars. "How much is George putting into it?" I asked.

"Well, I don't know that he has inrested anything," was the reply; "he's just promoting the scheme."

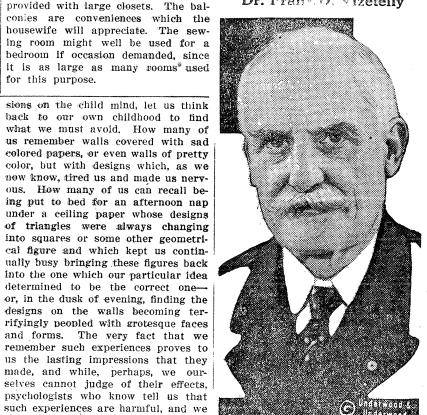

I recalled that while in college he was a sort of social and political promoter. If there was a cance to be been considered. Here is a square given, or loot to be distributed, he always managed to get onto the committee; he was keen for every enterprise that presented itself, but he always saw to it that someone else paid the bills. No one was more eager than he to send the band to Columbus or Madison or to put on a monster celebration at homecoming, but it was the faculty, or the merchants of the town, or the alumni of Chicago, or the Salvation Army who in his mind should assume the responsibility for payment, not George. His shekels were reserved for the promotion of his own personal pleasure. He never "chipped in," he never planked down the cold cash to further the worthy enterprises which he advocated. He furnished the enthusiasm, the wind, as it were, and he expected the other man to shell out the money. I was interested to see that long after he was out of college he held to the same

WHAT MY NEIGHBOR SAYS

Is of Interest to Cass City Folks.

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Cass City resident. Who could ask for a better example?

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated the 19th day of February, A. D. 1917, executed Frank D. Arnold and Margaritte Arnold of the city of Grand Rapids, to Eugene Sutphen of Kingston, Michigan, which said mortgage was recorded in the office of the Register of Deeds of the County of Tuscola, State of Michigan, in Liber 140 of mortgages on page 611 on the 27th day of February, A. D. 1917 at 11 o'clock A. and,

Whereas, said mortgage provided that in the event of non-payment at maturity of any installment of the principal or interest of said note, or on failure to comply with any conditions of this mortgage, said note might then become due at the option of said mortgagee, and foreclosure be instituted at the option of said mortgagee, and the said mortgagor having defaulted in the payment of the interest and in the payment of the taxes due in 1922 and 1923, therefore the said mortgagee does hereby declare the entire amount unpaid on said note and mortgage to be due; with interest thereon at seven per cent, said mortgage providing for interest at seven

per cent after such default; and,
Whereas, the whole amount claimed
to be due on the 4th day of November, A. D. 1924, is the sum of Four thousand one hundred sixty-four dollars and twenty-four cents (\$4164.24) of principal and interest, and the sum of three hundred seventy-eight dollars and fifteen cents (\$378.15) for taxes paid by said mortgagee, and the legal attorney fee stipulated for in said mortgage, and no suit or proeeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has be-

## NOTHING LIKE Dr. Burnham's SAN YAK

the Probate Office in the Village of Yak gives you the pep in restoring Caro in said county, on the 7th day of health from rheumatics and bad nerves. You could scarcely have kidney or bladder trouble under the 90 mark by occasionally taking a dose at night. Try it to limber up the stiff joints and muscles. To relieve high blood pressure and paralysis take one or two teaspoonfuls of San Yak in a glass of water 30 minutes before breakfast.

Sample of Thouands of Personal Letters.

Dr. L. P. Bailey, of McBride, Mich., says of San Yak: It will do all you claim. It is fine medicine for the blood and has cured rheumatism of long standing. When one treats the kidneys with San Yak he is renewing the whole body. One can always depend

## RUSCO Solid Woven-Waterproof

Does more work and saves money

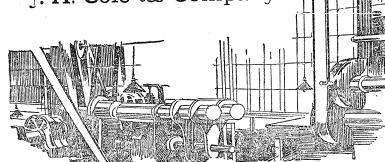

Rusco being solid-woven is, of course, without plies. Plied, or built-up belting, either canvas or leather, cemented or stitched to-gether, doesn't last long. Loosened plies cannot pull evenly.

Before Rusco goes to you it is stretched, cured and tested. In it is embodied "93 years of knowing how". It will return more service for dollars invested than any other type of belt made.

Rusco Factory Belting is made by the oldest and largest solid-woven belting manufacturers in America— The Russell Manufacturing Co. of Middletown, Conn.

Rusco will do more work for you. It will save you money.
