

PREMIUM LIST READY FOR DISTRIBUTION

36TH ANNUAL EXHIBITION OF CASS CITY FAIR AUGUST 18, 19, 20 AND 21.

Larger Book for 1925 Fair Contains Fund of Information Regarding Exposition.

The premium list of the Cass City Fair will be ready for distribution this week. The new book is larger in page size and has a greater number of pages than that of previous years. Willis Campbell, secretary and general manager of the fair, has endeavored to make it as complete as possible. It contains rules and regulations of the association, the by-laws, the names of officers, directors and superintendents of departments, the rates of admission, a complete list of premiums, illustrations of free feature acts and Amson's band, the race program, names and dates of Michigan fairs, special information for exhibitors and announcements of business houses.

The dates of the fair are Aug. 18, 19, 20 and 21.

Officers of the 1925 fair are: President, C. J. Striffler; vice president, John Marshall; secretary, Willis Campbell; treasurer, G. A. Tindale.

Directors of the association include the following: P. A. Schenck, J. D. Brooker, A. D. Gillies, D. W. Benkelman, J. D. Tuckey, Robert Warner, J. A. Sandham, Angus McPhail and H. T. Crandell.

Superintendents of the departments are: Horses, J. A. Sandham; races, Angus McPhail; cattle, sheep and swine, J. D. Tuckey and A. D. Gillies; poultry and agricultural hall, Robt. Warner; floral hall, P. A. Schenck.

Rates of admission will remain the same as in 1924.

Membership ticket, good night or day, Aug. 18 to 21, \$1.50.

Child's season ticket, good night or day, Aug. 18 to 21, 75 cents.

Wednesday, Aug. 19, Children's Day. Children under 13 admitted free.

Single ticket for adult, good night and day, 50 cents.

Child's single ticket, good day and night, 25 cents.

Automobile or horse, single admission, good day and night, 50 cents.

Season ticket, \$1.00.

The race program follows.

Wednesday, Aug. 19.

2:16 pace or trot.....\$200.00

2:30 pace or trot.....160.00

Farmer's run, 1/2 mile.....60.80

Thursday, Aug. 20.

2:19 trot.....\$200.00

Named pace or trot.....160.00

Friday, Aug. 21.

Free-for-all trot or pace.....\$250.00

Consolation race.....170.00

Farmer's run.....60.00

Masselink Popular with Graduates

Prof. Gerritt Masselink, vice president of the Ferris Institute at Big Rapids, was in Cass City a few hours Tuesday and greeted old friends. Mr. Masselink was enroute to Port Hope where he delivered the commencement address to the graduates of the public school Tuesday evening. This was the 20th commencement address he has delivered this year.

Laurence, the elder son of Mr. and Mrs. Masselink, graduated from Annapolis in 1922 and from the law department of the University of Michigan this spring. He went to Washington recently to accept a position in the office of the attorney general. The young man, while at Ann Arbor, was a member of the honor law fraternity, the Baristers; of the senior law fraternity, the Coif; and a member of the board of editors of the Law Review.

Rollo, their second son, was graduated from the dental department of the university in 1924 and is now practicing his profession in Grand Rapids.

Their daughter Lillian (Mrs. Geo. Wright, Jr.) graduated from the University of Chicago last year and has completed a year as an instructor in domestic science and art in the Mt. Carmel school.

Prof. Phelps Will Stay at Yale

An editorial in the New Haven, Conn., Daily News says: "We are just naturally gratified to learn that 'Bill' Phelps, Professor William Lyon Phelps of the English department of Yale University, has settled for himself the possibly attractive temptation offered him to become the president of a university in the making with an endowment sufficient to bar the wolf from the door and make the educational world dance with joyous expectation. He will have none of it. This is his home where he is loved by a big circle of

friends in and out of the college walls. He doesn't propose to desert it or them. Good.

"The proposed university to be established at Miami, Florida, gives this promise of success, that in perfecting its plans it had the wisdom to visualize this man Phelps as the sort of administrator it needs to spread wide its wings and fly high. To know so clearly what is needed, before a brick has been laid or a teacher retained, reveals a talent for educational organization which is quite notable. It moves one to play with prophecy. It seems so often true in these days of the highly developed commercial spirit, exerting its influence behind college walls, that inspirational scholars and students are not wanted in administrative work. The spirit of commerce views askance a nature which finds joy and eager service in the cultural paths. If the Florida university is to start off with the contrary idea it is sure to become as attractive to young men, who want to enjoy a brief life under inspirational leadership, as its laws upon the subject of taxation are fascinating to overburdened taxpayers.

"Bill' Phelps' place in the great scheme of education is right here in New Haven, and, if the authorities of the university have their wits about them when the time comes, they will not construe too literally the age limit rule. Yale will continue without Phelps, undoubtedly, but it won't be the same Yale. Had he accepted the Florida post, we should have prayed out an injunction forbidding him to keep the contract."

MARL DEMONSTRATION IN TUSCOLA COUNTY

WILL MINE AND APPLY MARL NEAR KINGSTON AND MILLINGTON.

Visitors Are Especially Invited on Field Days When Specialists Will Be Present.

The Michigan State College in co-operation with County Agricultural Agent Sims will demonstrate the mining and application of marl at the Joseph Chanting farm on Shay's Lake, 3 1/2 miles north of Silverwood, or 3 miles west and 2 1/2 south of Kingston on July 1 and on the Frank Hosmer farm on Mill Lake, 3 miles south and 3 east of Millington on July 7.

The outfit will dig marl three days but the second day of the digging (the dates given above) will be the "Field Day." Visitors are invited at any time but more especially on the "Field Day" as at this time both specialists in soils and crops will be present from the Agricultural College and discuss soils and legume growing. The forenoon will be given over to inspection of the equipment and the afternoon to talks and discussions.

Farmers are urged to bring samples of soil, both surface and subsoil, to test for lime requirements. The object of this work is to demonstrate that marl can be successfully and cheaply taken out of the ground, how it is applied to the soil, and the beneficial effects on soils deficient in lime.

Marl is a form of lime laid down in deposits in some swampy or lake areas. It is thought to be the leachings of lime from the surrounding soils or the shells from shell fishes. It is used to correct the acidity in soils in much the same manner and answers the same purpose as does finely ground limestone and sugar factory lime.

Experiments in marl mining, outfits have been in progress for the past 15 years, however, it was just two years ago that Prof. H. H. Musselman of the Agricultural Engineering Department of the Michigan State College, finally solved the equipment problem when he devised what is known as the Musselman marl bucket. This bucket used with a modified drag line outfit with power furnished by a small tractor is the equipment which will be demonstrated and which the college will assist groups of farmers in manufacturing for their own use.

Another machine which Prof. Musselman has developed is a home-made marl spreader. This machine will be demonstrated at the same time as the mining and prints will be furnished to farmers wishing to construct one for themselves.

In sections where marl deposits are found the soils of the surrounding communities are usually found to be deficient in lime. This is evidenced in crop growth by poor or unsatisfactory stands of red clover, alfalfa and sweet clover. Many times it is impossible to get a stand of alfalfa or sweet clover until some form of lime is applied. Marl is applied at the rate of about three cubic yards to the acre with a home-made marl spreader or manure spreader.

Three hundred yards of marl have been sold to twenty-five farmers in

"The Last Breath" is Most Unique Paper

Journalism added another medium to its already large list of publications recently, when "The Last Breath," perhaps the world's most unique newspaper came into being.

It is unique, not because of its written material nor its typography, but because beneath its title it bears the caption, "the only paper in the world published by sick people."

"The Last Breath" is written by patients at the University of Michigan Health Service. Only patients there are allowed to become its contributors.

The patient may write any amount of news, poetry, songs or anything. He may write sitting up, lying down or standing up, though most of the contributors do their work propped up on pillows. Manuscript may be in ink, pencil, or typewritten. The "hot" stuff is in the front page, and the "copy" is uncensored.

Health service stationery must be used, and whenever the patient has an idea he immediately writes it up and the paper is passed through the wards. Criticism is free and unlimited and often comes in large quantities. The first issue was devoted to "The man with the Hives" and endeavored to solve the problem of finding bees for them.

Health service stationery must be used, and whenever the patient has an idea he immediately writes it up and the paper is passed through the wards. Criticism is free and unlimited and often comes in large quantities. The first issue was devoted to "The man with the Hives" and endeavored to solve the problem of finding bees for them.

On the trip west, the Saginaw contingent took the southern route. At El Paso, Texas, the Shriners had a twelve hour stay and several of the fraternity, Mr. Wood among them, crossed the Rio Grande, on the international bridge, and spent a brief period in old Mexico. On the homeward trip, Mr. Wood took the northern route through Western Canada.

Several members of the Class of 1918, C. C. H. S., journeyed to Harbor Beach Saturday afternoon and discussed old times and high school days at Williams Inn where they enjoyed a chicken dinner. The remainder of the evening was spent at White Rock.

The party included Mrs. E. R. Wilson (Irene Bardwell) and Miss Christie McRae, both of Lansing, Miss Zelma McKenzie of Kalamazoo, Mr. and Mrs. Roy Harris of Coldwater, Herman Doerr and the Misses Helene Bardwell, Marie Benkelman, and Laura Bigelow, all of Cass City.

Class of 1918 Holds Reunion

Several members of the Class of 1918, C. C. H. S., journeyed to Harbor Beach Saturday afternoon and discussed old times and high school days at Williams Inn where they enjoyed a chicken dinner. The remainder of the evening was spent at White Rock.

The party included Mrs. E. R. Wilson (Irene Bardwell) and Miss Christie McRae, both of Lansing, Miss Zelma McKenzie of Kalamazoo, Mr. and Mrs. Roy Harris of Coldwater, Herman Doerr and the Misses Helene Bardwell, Marie Benkelman, and Laura Bigelow, all of Cass City.

Experiments in marl mining, outfits have been in progress for the past 15 years, however, it was just two years ago that Prof. H. H. Musselman of the Agricultural Engineering Department of the Michigan State College, finally solved the equipment problem when he devised what is known as the Musselman marl bucket. This bucket used with a modified drag line outfit with power furnished by a small tractor is the equipment which will be demonstrated and which the college will assist groups of farmers in manufacturing for their own use.

Marl is applied at the rate of about three cubic yards to the acre with a home-made marl spreader or manure spreader.

Three hundred yards of marl have been sold to twenty-five farmers in

these two communities. These men will put their amounts on from 1 to 5 acres and in this way will demonstrate the effect marl will have on leguminous crops.

Soil is the basis of all successful farming and it is hoped that soil fertility can be maintained or increased by the more general growing of especially alfalfa and sweet clover.

The marl mining will be under the direction of "Larry" Livingston, Extension Specialist in Agricultural Engineering, who is widely known as one of the best men in the United States in his line of work.

Snover—John Jickling, a farmer 60 years of age, was seriously injured Monday afternoon when his team ran away on his farm. He was found in a field with his neck broken, a leg fractured and a broken rib.

address. He had covered the ground so thoroughly, however, that few were asked. Mr. Andersen is a firm believer in advertising, especially newspaper advertising. His store carries a page advertisement continuously in the Cozad paper.

"If you are doing business as you did five years ago, you are slipping; and if you are slipping, you had better get into the game and make a fight for the business that rightfully belongs to you," said the speaker. "Keep right after it until you have won."

"We live 50 miles north from a city of 7,000, 18 miles from a city twice as large as ours, and 12 miles from another one of 1,800 and, as you know, ours is only a small city of 1,300. So you can see that in order to build up a business as we have, we had to advertise. It is true we are sold on advertising. If I were starting into business today, for a time, at least, I would spend five per cent for advertising."

Business men were present from Caro, Cass City, Fairgrove, Sandusky, Kingston, Marlette, Brown City and other Thumb points.

Rooster Mothers 12 Incubator Chicks

Henry O. Greenleaf was quite disappointed when a hen with four chicks refused to add 12 incubator youngsters to her family and care for them. He was relieved and greatly surprised soon after when a year old Plymouth Rock rooster took the dozen incubator chicks under his wing and began to mother them. Henry says the rooster is sticking to the job and is doing as well as any hen could possibly do.

Isaac Agar Died Suddenly on Sunday

Friends of Isaac Agar were shocked early Sunday evening when news reached Cass City that he had passed away unexpectedly that afternoon at his home at 301 N. State St., Ann Arbor. Mr. Agar was in his usual health Sunday morning, ate a hearty dinner and was taken ill suddenly, passing away before physicians, who were hastily summoned, arrived at his home. A dilated heart is given as the cause of death.

The remains were brought to the home of his brother, Robt. Agar, sr., at Cass City Tuesday evening and funeral services were conducted by Rev. A. G. Newberry at the Presbyterian church on Wednesday afternoon. Members of Cass City Lodge, I. O. O. F., of which Mr. Agar was a member, attended the service in a body.

Isaac Agar was born in McGillivray township, Ontario, on Jan. 2, 1866, and came to Evergreen township, Sanilac county, Michigan, in 1881. On Nov. 18, 1903, he was united in marriage with Miss Lucy Terry. Mr. Agar gave up farming in Evergreen in 1904 to come to Cass City with his brother, Robert, as a partner and they conducted a feed barn here for several years. Mr. Agar later purchased his brother's interest and conducted the business in his own name for a few years, disposing of the property about three years ago to James Whale. He followed farming for a few years until his health made it necessary to give up that pursuit for light work. The family moved to Ann Arbor last September.

Besides his widow, he leaves five

children, Thelma, Marion, Ruth, Frank and Grant; two brothers, Robt. Agar, sr., of Cass City and John Agar of Colling, and one sister, Mrs. Frank Auslander of Shabbona.

Sunday School Rally at Argyle Today

The picnic and rally of the North-west Sanilac County Sunday School association is to be held at the Willerton grove, 1 1/2 miles west of Argyle, on Friday, June 26.

Rev. A. G. Newberry of Cass City will deliver the address and the McGregor band has been engaged to play. Other interesting features have been planned so that a pleasant day is promised all who attend.

MANY ATTEND CO. S. S. RALLY

NUMBER WHO ATTENDED IS ESTIMATED AT NEARLY 3,500.

Parade Representing Small Percentage of Schools Exceeded Expectations of Promoters.

An idea of the strength of the Sunday school forces in Tuscola county was presented at the county rally held at Caro Sunday when a crowd estimated from 3,000 to 3,500, representing various denominations, gathered at the fair grounds. While the parade which preceded the program represented a small percentage of the schools of the county, it extended for about a half mile, the Sunday school workers and pupils marching four abreast. The turn-out greatly exceeded the expectation of those who are responsible for the event.

Representatives of Sunday schools of the county gathered at the court house grounds at 2:30, and inspired by the music of the Caro and Fostoria bands, they marched to the fair grounds. The schools were designated by banners and carried flags. The business street was nicely decorated with flags.

The crowd more than filled the large grand stand where the program was given. Selections were played by the bands and the Fostoria band of which J. R. Church is director played sacred selections in which the audience joined in singing. The address of the day was given by Dr. M. Wayne Womer of Detroit on the subject of "Sabbath Observance."

The rally was promoted by the Caro Ministerial association and the Tuscola County Council of Religious Instruction.

Supervisors Protest Phone Rate Raise

Herbert Orr, Caro attorney, was appointed by the Tuscola County board of supervisors to represent that body at a meeting of the Public Utilities commission at Lansing June 25 and to protest the proposed raise of rates of telephone rentals and toll charges in Michigan. A petition of the Bell Telephone Co. has been filed with the commission asking for an increase of rates in all Michigan exchanges outside of Detroit and an increase in toll rates throughout the state.

The supervisors, at the opening of the June session on Monday, were occupied with routine matters. The committee on footing rolls reported Monday afternoon that the assessment rolls had been checked and footed and were ready for the committee on equalization.

The committee on claims and accounts reported Tuesday afternoon. The board passed a resolution extending sympathy to relatives of the late John Harp, supervisor of Dayton. The resolution expressed appreciation of the active and faithful services of Mr. Harp with the county.

Judge of Probate Guy Hill was instructed by the supervisors to attend a convention of judges of probate of the state at Muskegon July 29, 30 and 31, at the expense of the county.

H. F. LENZNER, Publisher.

GAGETOWN.

Basil Zehms was in Flint Saturday. Prin. N. Wilber went to his home in Royal Oak Monday.

Miss Catherine Hunter is visiting relatives in Saginaw.

Mrs. Deneen and Mrs. M. Carr visited in Caro Wednesday.

Miss Girou accompanied her pupils to Carr's grove where they spent the day.

Mr. and Mrs. C. P. Hunter and family visited Sunday with relatives in Lapeer.

Miss Kline of Detroit visited her sister, Mrs. Joe Freeman, over the week-end.

Mrs. Jennie Slack had a picnic party for her primary pupils in the grove on the school campus.

Miss Florence Law of Cass City visited several days of last week with her cousin, Miss Ada Carr.

Mrs. N. C. Maynard and Barbara left Tuesday to visit several weeks in Ann Arbor and Milan, Mich.

Miss Gertrude Walker of Unionville was a guest of Carolyn Purdy Tuesday and Wednesday of last week.

Mr. and Mrs. Ralph Clara and little son, Courtney, attended Clarence Wachner's graduation in Detroit Tuesday.

Mr. McCarty, our harness maker and shoe cobbler, will soon re-establish his business in the John Fournier building.

Mike Socenski and R. J. Ottaway spent the week-end at Cozy Corner cottage, Rose Island.

Supt. Koepfgen, Prin. Wilber and Mrs. Ted Fischer accompanied the pupils of the high school to Caseville Friday where they enjoyed their annual picnic at Huron County Park.

Through the kindness of Ray J. Ottaway, the people who lost their chickens by fire will have them replaced. People gave willingly one chicken from each flock.

Mr. and Mrs. George Carolan, Mrs. Geo. Purdy and Arthur Carolan spent the week-end with Mr. and Mrs. Geo. Brown in Battle Creek.

Miss Belle Clara entertained at six o'clock dinner Saturday, with Miss McConnell of Mt. Pleasant, Helen High and Miss B. Koepfgen.

Alex Crawford of Ypsilanti Normal arrived home Friday.

Preston Purdy went to Lapeer on Monday where he has secured a position with the Great Lakes Power Co.

Harry McGinn spent Sunday with Alton Thompson.

Mr. and Mrs. Mat Coots and the former's mother of Detroit spent several days among relatives and friends here last week.

Mrs. Henderson and the Misses Lura DeWitt and Joanna McRae of Cass City and Misses Edith Miller and Miss Margaret Burleigh were guests of Mr. and Mrs. J. L. Purdy Tuesday afternoon.

Lawrence McDonald and Misses Esther and Marguerite Wald are enjoying an automobile trip. They left June 7 and expect to be gone six weeks. The party is in the Canadian Northwest and expects to make the coast before turning homeward.

The alumni banquet held Friday evening in the M. E. church dining room was largely attended. Harold Hobert is the retiring president and John O'Rourke the newly elected president.

Miss Scott from Saginaw will teach in the primary department. Miss Moore of Mt. Pleasant will teach the intermediate department. Both of these young ladies were callers here last week.

Mrs. Shafer, O. E. S. Grand Associate Matron, will give a school of instruction June 30, and will be entertained at the home of Mrs. R. J. Wills.

Mrs. Brown, widow of the late Thomas McFee, who were well known here many years ago, died at her home in Detroit last week and was laid beside her former husband in Carro cemetery.

Sunday, June 14, Mr. and Mrs. C. P. Hunter entertained the following relatives and friends: Miss Rosella Mall, Alfred Bartwell, Lillian Roe and Mrs. H. Oehring of Saginaw, Mrs. Teressa Wald and son and daughter and Mr. and Mrs. Martin, daughter, Helen, and two sons.

Miss M. Koepfgen entertained the following persons at her home last week Thursday evening: Mrs. F. D. Hemerick and Frederick, Edith Miller, Margaret Burleigh, Mattie Ba-

cock, Carolyn Purdy, Georgia Munro, Helen Kehoe, Evelyn Williamson, Mrs. Ted Fischer, N. Wilber, Jennie Slack, Hebert Helmbold and Doris Girou. Refreshments were served on the lawn.

Miss Josephine Ryan is the recipient of flowers from the graduating class; also from St. Agatha's school. Josephine is gradually improving.

J. L. Purdy transacted business in Caro Tuesday.

Mr. Jones of Caro transacted business here Monday.

Mr. and Mrs. Chas. McGinn and little son of Detroit spent Sunday with Mr. and Mrs. Lloyd McGinn.

Mr. and Mrs. Geo. Munro and son, Leslie, spent Sunday at Olin Thompson's in Grant.

Mr. and Mrs. John Fournier motored to Ypsilanti Sunday. Their daughter, Marie, returned with them.

Miss Nina Munro returned to her home this week from Kalamazoo Normal.

Public school closed Friday—another successful year of study drawn to a close.

Mrs. Gertrude Ricker of Cass City attended the commencement of her niece, Evelyn Williamson, Wednesday evening.

Mrs. Chas. Williamson is ill with rheumatism.

Peter McDonald is among our sick people.

Mrs. Rose Muntz, teacher in the Bingham district, closed her school on Friday.

Mrs. James Kehoe visited in Bay City Monday and Tuesday.

Murdoch Hughes is a patient at Pleasant Home hospital.

Neil McKinnon went to Detroit Tuesday.

Mr. and Mrs. Ralph Clara went to Saginaw Sunday.

Ada and Iva Carr and Florence Law are visiting relatives in Pontiac and Detroit.

Mrs. Ackerman and son, Archie, were in Cass City Monday.

Miss Helen Kehoe entertained a company of her school friends Monday evening.

Mrs. Jeanie Gough is able to be out and gaining rapidly.

Robert Ritchie and son, June, of Ortonville are visiting Mr. R's brother, Wm. Ritchie.

Master James Deneen visited Master Leslie Carr of Cass City Tuesday.

Mrs. Julius Fischer's Sunday school class of boys enjoyed a picnic dinner in Wm. Simmons' woods Friday.

Miss Elsie Munro will leave July 1st to spend several weeks at a girls' camp in Massachusetts.

BEAULEY.

A large crowd attended the children's day exercises Sunday.

Rev. and Mrs. Williams and Miss Dorothy were entertained at dinner Tuesday at the home of Mr. and Mrs. T. J. Heron.

The lightest crop of hay in many years is being harvested this week by the farmers in this vicinity. Some is not worth cutting.

The friends of Mr. and Mrs. Harry Paladi of Los Angeles, California, are very sorry to hear that Mr. Paladi is so seriously ill.

Mildred Reader is spending the week with her aunt, Mrs. Alfred Maharg, in West Grant.

The ladies' aid are having an ice cream social Thursday evening at the church.

Rev. J. H. Williams expects to leave for Albion college Monday morning where he expects to spend two weeks. Mrs. Williams and Dorothy will visit Mrs. Williams' sister at New Haven.

Sam Jordan is busy putting a wall under his barn this week.

Molecules

A "molecule" is the smallest part of a substance that can exist separately and still retain its composition and properties; the smallest combination of atoms that will form a given chemical compound. In physics, the structural unit, as distinguished from the atom, and applied to particles of gases in the kinetic theory independently of their relation to the chemical molecule.

Snow Reef in Mountains

One of the few snow reefs to be found in all the Rocky mountain range, is on "Snow Reef Top" in Glacier National park. This snow reef is there the year round and is much raved over by landscape painters and camera artists. In some parts of this reef, which forms a crescent near the mountain peak, the snow is drifted 100 feet high.

Bloodstone's Composition

The bloodstone is a species of chalcedony and is a green siliceous stone flecked with red jasper as if with blood, hence the name. The stone is also known as heliotrope, which word comes from Greek words meaning the sun, and to turn.

Plant Care

The only reason that house plants should not be kept in a sleeping room is that the temperature of a well-ventilated room is lower than the temperature necessary for plants. The average plant should have a night temperature of around 50 degrees and a day temperature of around 70 degrees.

The AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

PUBLIC GENEROUS IN GIVING TO FUND

Marked success is being met with in the public appeal for the American Legion \$5,000,000 endowment fund for the disabled and the orphans of the World war. Legionnaires and the general public are giving generously of time, effort and money to the fund.

Many posts are raising their local quotas for the fund in a day or two of effort. At Corydon, Ind., Commander C. A. Keller and his post service officer raised the quota of \$350 in two afternoons by their own efforts. Evansville, Ind., home of State Chairman Marcus S. Sonntag, raised nearly its entire quota of more than \$15,000 in three days.

Indiana was the first state to make the public appeal. The mine disaster at Sullivan, Ind., in which 51 men lost their lives shortly before the campaign, drove close home to the people of that state the need of such work for the disabled and the orphans as the Legion is doing and as the fund is intended to maintain. Kentucky was the second state to start the campaign, following a three-night radio barrage. Westfield, Ind., resorted to an interesting device in raising its quota of \$250. A Legionnaire remembered that there were precisely 250 pockets in the machine gun belts used by the Germans in the war. The belt was placed conspicuously in a store window. As contributions came in, the pockets were stuffed with dollar bills. The quota was quickly completed.

Senator William B. McKinley of Illinois was the first person to make a large individual contribution to the fund. Lieut. Wayland Brooks, D. S. C., and Michael J. Cullen, D. S. C., presented the appeal for the endowment to the senator. They suggested that he contribute \$2,000. He handed them a check for \$5,000. Brooks and Cullen are members of the Combat Medal Men's association of Chicago, which was the first organization in Illinois to contribute.

A Chicago newspaper feature column recently ran this: "I believe," says the "Believe" card of the American Legion in its drive for a \$5,000,000 endowment fund, "that the orphan children of those who made the supreme sacrifice for America are entitled to the same chance in life which they would have received had not their fathers given their lives to the nation." That's pretty easy to believe. But believing isn't enough. We want to do something besides just believing. Therefore—now watch us closely, American Legion—we do here and now gedunk \$100 into said endowment fund. Splash!"

Tennessee's first contribution came from Canada. It was a check for \$50 from Phillip N. Libby of Lemiskaming, Province of Quebec. Libby is a former member of Hammond post, Kingsport, Tenn.

Many governors and former governors are interesting themselves actively in the endowment movement in their respective states. Among the honorary chairmen chosen are: Gov. Austin Peay, Tennessee; Gov. Henry L. Fuqua, Louisiana; former Gov. Thomas C. McRae, Arkansas; Gov. W. W. Brandon, Alabama; Gov. Clifford M. Walker, Georgia, joint honorary chairman with Chancellor David C. Barrow, University of Georgia. Among the active chairmen are: Gov. E. W. Morgan, West Virginia; former Gov. Thomas E. Kilby, Arkansas; former Gov. Hugh M. Dorsey, Georgia.

KINGSTON-NOVESTA TOWN LINE

M. C. Wentworth is doing carpenter work on a new farm residence north of Caro.

Mrs. Geo. Martin entertained Miss Elva Ashley of Cass City and Miss Norma Wentworth Friday afternoon.

Mrs. Lyle Patch and two children of Detroit spent a few days of last week with Mr. and Mrs. Arthur Van Blaricom.

Dr. Bates of Kingston and an old friend, Miss B. Telfer of Toronto, were callers at the Geo. Martin home last week Thursday.

The families of Mr. and Mrs. Dennis and Mr. and Mrs. Frash from near Cass City were Sunday guests of Mr. and Mrs. Roth.

Hazen Warner, road overseer, is having gravel drawn on some of the side roads which will be a big improvement.

Mr. and Mrs. John Collins and daughter, Etta, of Novesta Corners and Mr. and Mrs. Clark Courless returned Monday from a few days' visit with relatives at Highland Park.

Mr. and Mrs. J. D. Funk entertained Sunday: Mr. and Mrs. O. E. Niles of North Novesta and Mr. and Mrs. Wm. Parrish and family of Cass City.

Mr. and Mrs. G. A. Martin were in Croswell Sunday. Mrs. Martin's mother, Mrs. A. W. Campfield, came home with them for a few weeks' visit.

Arthur Chase had a number of sheep killed by dogs one night last week. Several other sheep and lambs were so badly bitten that they had to be killed. Altogether the loss was very large. Mr. Chase was successful in shooting one of the dogs.

ELKLAND AND ELMWOOD TOWN LINE

Mrs. Ross Bearss is visiting her daughter, Mrs. Geo. Walls.

Maxine Livingston of Ypsilanti is spending her vacation at home.

Miss Winnifred Woolman spent Sunday at the P. Livingston home.

Mrs. Sadie Bingham is spending the week at the R. McConkey home.

Mr. and Mrs. Wm. Anker of Detroit spent the week-end in this vicinity.

Misses Marian and Doris Livingston spent Sunday at the Geo. Seeley home.

Mr. and Mrs. A. Daus of Imlay City spent the week-end with relatives here.

Mr. and Mrs. Cyrus Hall of Caro spent Sunday at the Chas. Seekings home Sunday.

Mr. and Mrs. T. Lounsbury were Sunday callers at the E. Lounsbury and James Peddie homes.

Mr. and Mrs. Elmer Bearss and family visited at the Wm. Rawson home in Cass City Sunday.

Mr. and Mrs. Wallace Laurie and family visited at the Clark Bixby home in Cass City Sunday.

Miss Pauline Livingston, who has spent the past three weeks in Imlay City, returned home Saturday.

Mr. and Mrs. C. J. Bingham and family were entertained at the Frank Hall home in Cass City Sunday.

CENTRAL GREENLEAF.

Ruth and Freda Stone of Sandusky is spending a few days with their cousin, Ila White.

Mr. and Mrs. Fred McCaslin and Carl and Ella motored to Flint, Fenton, and Argente last week, returning Sunday.

Mr. and Mrs. Wm. Harrison, Mr. and Mrs. Vernon Harrison and children, Mr. and Mrs. George Seeger and children, Mr. and Mrs. Fred McCaslin and children attended a surprise party at Atlas, it being the birthday of Mrs. Dora Stuart. About 70 attended. The gathering was in the woods, and all enjoyed a good time.

Rhea Seeger, who has been spending a week with her cousin, June Hartwick, at Pinconning, returned home Sunday accompanied by June Hartwick, who will spend two weeks here.

Roy McCaslin and Mr. Lewis of Pontiac spent the week-end at Fred McCaslin's.

GREENLEAF.

Mr. and Mrs. Dan McClorey and daughter, Beatrice, and Mr. and Mrs. Glen Guilds and family ate supper at Stuart Ballagh's Sunday.

Several of our young people spent Sunday in Bay Port.

Milo Shagena had the misfortune to break his arm Sunday.

Mark Streeter and Ardie Root were Sunday callers at S. Ballagh's.

Beatrice McClorey of Cass City came Monday to spend a week with her cousin, Pearl and Mary Ballagh.

Prelate's Wit Pleased King

Rev. Dr. Mountain, an Anglican bishop in the reign of George II, is said to have won his see by an apt quotation from the Scriptures of faith moving mountains and casting them into the sea.

Spirit of Love

You will find as you look back upon your life that the moments that stand out, the moments when you have really lived, are the moments when you have done things in the spirit of love." —Drummond.

King Midas in Legend

There are many legendary and historical people whose names have been incorporated in our language as descriptive of certain attributes, and King Midas is one of them. Thus today to call anyone Midas means that he is miserly, or has the trick of turning into gold everything he touches.

His Curiosity Satisfied

The curiosity of a motorist on a country road was aroused by the lettering, too small to read, on the spare tire of a car ahead. Anxious to know what it said, he put his foot on the accelerator and read: "If you can see this you are too darned close for comfort!"

Roman Mortar Supreme

The Romans were unsurpassed as builders, and it is said that their mortar is almost imperishable. Still as good as it was when placed between the stone 2,000 years ago, Roman mortar resists the ravages of time and climate in the most remarkable manner.

Hall's Catarrh Medicine

Over the Hills

by O. Lawrence Hawthorne

Over the hills to my childhood,
Over the hills to home,
Back to the joys of the wildwood
Oh, let me once more roam!
Give me the freedom of spirit
Only a boy can know;
Memory calls and I hear it;
Oh, let me go, let me go!

Back to the barn where we wrestled
Floundering deep in hay;
Out to the pool where we nestled
Cool on the hottest day;
Take me again to the races
Down at the County Fair;
Let me again see the faces—
Faces that then were there!

Give me my youth and its pleasures,
Free me from care again;
Now I should value its treasures
More than I prized them then.
Over the hills to my childhood
Oh, let me once more roam,
Back to the joys of the wildwood,
Over the hills to home!

INSURANCE

The recent high winds and dangerous fires, which have visited our vicinity the past few weeks have made all of us check up on our wind and fire insurance policies to see if we are adequately protected. If not, we have increased our insurance.

Why are we so concerned on these two items of insurance and in so many cases dilatory about taking out old age insurance? By old age insurance we mean commencing the savings of small amounts systematically to be laid away for the days when we are no longer producers.

\$6.79 saved monthly over a period of ten years with interest at 4 per cent will give you \$1,000 in the bank. Think this over.

Pinney State Bank

"The Bank Where You Feel at Home."

Capital and Surplus, \$56,500.00

COAL

JUNE PRICES

Now is the time to buy for winter use. We recommend the following coal—

For Furnace and Heating Stoves.

West Virginia screened "Fireside Lump," at bin, per ton.....\$8.00
(Holds fire the longest of any coal we have ever sold).

New River Egg Size Pocahontas, at bin, per ton\$8.50

For Kitchen Range.

Millers Creek Kentucky Splint, nut size, at bin, per ton.....\$8.75

ALSO COKE, ANTHRACITE, CHEST-NUT AND FURNACE COAL.

The Farm Produce Co.

Elevator Dept.

To attract buyers to your farm sale, advertise your auction in the Chronicle.

Old Friends

So many of us soon forget
The friends we leave behind.
With earnest vows we part, and yet
They seldom come to mind;
With newfound interests each day
Is fully occupied,
We go serenely on our way
And seem quite satisfied.

In search of greater happiness
We bid old friends good-by—
A parting word, a last caress,
A deep regretful sigh—
Then all too soon, in lands afar,
The welcome that we find
Bids us forget how fond we are
Of those we leave behind.

But sometime in the lives of all,
No matter where we roam,
We'll hear again the faithful call
Of those old friends at home.
And then it is that memory
With tender touch will play
Some old familiar melody—
A song of yesterday.

And with that song to guide our feet
To haunts we used to know
We'll yet find time—perhaps—to greet
Those friends of long ago.
Their cordial smiles will show how well
Their hearts have stood the test
Of our neglect. Then can we tell
Why old-time friends are best!

By O. Lawrence Hawthorne

DAIRY THE DAIRY

DECREASE IN FAT TEST IS EXPECTED

The appreciable falling off in the butterfat content of milk at this time of year when cows are put on pasture causes considerable consternation among some dairymen, and may lead them to believe that errors have been made at the creamery test. The dairy department of the New Jersey State College of Agriculture, New Brunswick points out that the change to pasture causes an increased milk flow which necessitates the butterfat's being distributed through a larger volume. This makes its percentage look smaller, but the total quantity is not less.

The college makes a few suggestions to aid in getting good samples.

One must be sure that the sample is truly representative of the lot of milk from which it is taken. Cows should be milked dry and the milk poured several times from one container to another. The sample should be taken immediately. Enough milk must be procured for two fat tests. This requires about one-fourth pint.

Care must be taken to prevent the sample from souring before it reaches the laboratory. To insure against souring, a preservative is added. Bichloride of mercury tablets are the most efficient and one-half tablet is enough. Formaldehyde or formalin may be used at the rate of three drops to a sample. In each case the preservative should be mixed thoroughly with the milk.

One of the most important steps is that of filling the sample bottle to overflowing before inserting the cork. If the bottle is not full the milk will be agitated in transit to such an extent that churning will result. When butter granules are once formed, it is difficult to get a reliable test. When small medicine bottles are used, it is the practice to make a hole in the cork with a nail. Fill the bottle entirely full of milk. Insert the cork and seal it by pushing a match into the hole in the cork. This will prevent the cork from being forced out by either gas or air escaping from the milk.

When these few directions are observed, there is no difficulty in obtaining an accurate determination of the fat content of the milk.

How to Feed Dairy Cows to Obtain Big Profits

Feed all the roughage a cow will eat. This should include succulent feed and a legume hay.

With a good roughage—as alfalfa, soy bean, or clover hay—feed a Jersey or Guernsey one pound of grain to each two and one-half to three pounds of milk; a Holstein, Ayrshire, Brown Swiss, or Shorthorn, one pound of grain for each three to three and one-half pounds of milk.

With a poor roughage, such as timothy or wild hay, feed a Jersey or Guernsey one pound of grain for each two pounds of milk; a Holstein, Ayrshire, Brown Swiss, or Shorthorn, one pound of grain for each two and one-half to three pounds of milk.

These rules for feeding dairy cattle are laid down in Bulletin 218, "Feeding the Dairy Herd," prepared by C. H. Eckles and O. G. Schrader of the dairy division, University of Minnesota, and just issued by the Minnesota agricultural experiment station. Copies can be obtained by addressing the Office of Publications, University Farm, St. Paul.

The good dairyman, the bulletin says, tries to maintain summer conditions the year round. The conditions of early summer which make possible maximum production are: Abundance of feed, palatable feed, a succulent ration, a sufficient amount of protein, moderate temperatures and comfortable surroundings.

Stringy Milk Caused by Certain Bacteria Form

Stringy milk, or milk that gets thick after standing awhile, is caused by a certain form of bacteria that get into the milk, either through the water used in washing the milk utensils, from the udder of the cow or cows, or from the dust of the feed given the animals. The source of the infection may be the cream separator, especially if care is not used to have this utensil carefully cleansed and sterilized each day. It may be well to keep the milk from each cow separate for a few days to determine whether or not the infection came from a single cow. It may take some investigation to discover the source of the trouble, and in the meantime all vessels used for the milk should be washed thoroughly and scalded after each using.

Varying Temperatures

Warm cream should never be mixed with cold cream as this will not only hasten the souring process, but will also give the cream an off-flavor. The proper way to mix the morning's cream with the cream of the evening before is to thoroughly cool the warm cream before it is mixed with the cold cream. While the cream is cooling the cover should be slightly raised to allow the animal flavor to escape and the cream should be stirred.

DEFORD

Those from the Deford community who attended the funeral of Mrs. Jas. Osburn at the Kingston M. E. church on June 16 included the following: Mr. and Mrs. Mack Wentworth, Mr. Lombard, Mr. and Mrs. Arthur VanBlaricom, Mrs. Henry Zemke, Mr. and Mrs. Jas. Cooper, Mr. and Mrs. Lewis Retherford, Mr. and Mrs. Jesse Sole, Mr. and Mrs. C. Tallman, Mr. and Mrs. Clark Courliss and Mr. and Mrs. Ben Gage.

Mrs. Perry and son, mother and brother of E. L. Patterson, spent Friday at the Patterson home.

Mrs. Mary Parsk, Mrs. Bertha Cooper, and Mrs. Benj. Gage and daughter, Bernice, accompanied T. L. Stewart to the old pioneer meeting of Novesta settlers at the N. W. Bridges' grove.

Mr. and Mrs. H. H. Wilson of Saginaw visited several different homes of friends in and around here last week.

Mr. Randall has George Spencer's barn completed.

Miss Gatha Myers of Saginaw spent part of the week with Miss Fern Roberts.

Mr. and Mrs. Lester Day and children and Mr. and Mrs. Benj. Gage and daughter left on Saturday for a trip around the Thumb. They visited several watering places.

Mr. and Mrs. E. Randall and family left on Friday for Detroit where they will visit the latter's sister, Mrs. Millie Pearson.

Mr. and Mrs. Geo. Riker and Mrs. Looker spent Sunday at Pointe aux Barques. Mr. Riker and mother returned to Detroit Sunday night.

Mr. and Mrs. Roy Colwell and son of Gaylord came here on Thursday of last week and returned to their home on Tuesday.

Mr. and Mrs. Howard Retherford and little son and Mrs. Wm. Cooper, mother of Mrs. R., attended the commencement exercises at Caro on Thursday evening. A grandson of Mrs. Cooper was among the graduates.

Mr. and Mrs. H. H. Wilson of Saginaw spent Friday visiting at the Amos Webster home.

Mr. and Mrs. Isaac Gingrich and sister, Mrs. Edward Gingrich, and the last named's mother called at the Ben Gage home on Sunday.

Mrs. Hotchkiss of Pontiac was entertained at the A. E. Webster home Friday and Saturday.

Herman Bell returned to his home after a three weeks' visit with his mother in Pontiac.

Mrs. Ella Croop entertained on Sunday Mr. and Mrs. F. B. McCain, D. A. Valentine, Alex. Lounnan and Miss Marie Davis, all of Oxford.

Mr. and Mrs. Fred Hibler of Akron called at the E. L. Patterson home on Sunday.

Miss Neva Cones is home for a week's visit. Her school has closed at Lexington.

Miss Iva Hack left Monday for Royal Oak and Detroit where she will visit her sisters, Mrs. Ray Walker, Mrs. Charles Walker and Mrs. Forest.

Mr. and Mrs. Leonard VanderKoooy and family spent Sunday with Mrs. V's uncle, Mr. Wells, at East Dayton.

Mr. and Mrs. Mark Smith of Detroit called on Mrs. S's grandmother, Mrs. Bertha Cooper, on Sunday. D. A. Valentine of Oxford called on Mrs. Cooper the same day.

Mrs. Mary Parks left on Sunday for Caro where she will be employed. Lyle Patch of Detroit came Saturday to the home of Morris Kelley and spent the night. His wife and two children accompanied him home after a week's visit here.

A large number of this community spent Sunday at the Sunday School rally at Caro.

Miss Catherine Burian returned on Wednesday of last week after visiting three weeks at Detroit and Wyandotte.

Mr. and Mrs. A. E. Webster, Mr. and Mrs. N. R. Kennedy, Mrs. Mary and Mrs. N. R. Kennedy, Mrs. Mary McCracken spent Sunday at the lake shore, east of Deckerville.

Mrs. Peter Bell entertained on Sunday, Mrs. Wm. Wakefield and granddaughter and Mrs. Nellie Bell and friend, all of Pontiac.

Mack Wentworth, Wm. McCracken and Joe McCracken started work on Monday morning at the elevator, rebuilding on the same site as occupied by the one that burned.

Wm. Bentley of Pontiac visited at his home here on Sunday, returning to Pontiac on Monday.

James Jacoby and David Orr of Detroit visited the former's parents on Sunday. George Jacoby accompanied them to Detroit, expecting employment.

Mr. and Mrs. Jacoby and daughter, Margaret, visited at the Orr home on Sunday.

Mr. and Mrs. Wm. Pierce of Pontiac called at Mrs. Ben Gage's Saturday morning.

Mrs. H. D. Malcolm and son, Bruce, called in Cass City Monday afternoon.

Mr. and Mrs. E. A. Cones spent Sunday at their farm west of here.

Husbands, Please Note

At Lambton, one night, the first Lord Durham, feeling that he had been rude to his wife, summoned every servant into the dining room, and before them all apologized to her.—From "My Story" by Arthur Lambton.

HOW

SILK WORMS FED ON OAK TREES PRODUCE PONGEE.—"What makes pongee, pongee?" A riddle that probably not one out of a score of the wearers of the cool summer silk can answer is tied up in a way with Wei-hai-wei, one of the half-dozen or so patches of China that have been under foreign control, says a bulletin of the National Geographic society. The region's two bids to fame economically are ground nuts—of which considerable quantities are produced in the valleys—and pongee silk.

To most persons, no doubt, silk means a fiber spun by domesticated silkworms fed on mulberry leaves. But the silk industry is different in the Wei-hai-wei neighborhood. The pongee—by which name their silk is known—unbleached and in its natural color, is the product of domestic but of "wild" silkworms. And they do not eat mulberry leaves, but browse, so to speak, on the leaves of the scrub oak trees of the hills. Their cocoons are gathered in large quantities and so the otherwise waste hill lands are made to yield a relatively rich harvest.

Wei-hai-wei is near the tip of Shantung's principal peninsula, which, with what may be called for American ears the "Port Arthur peninsula" to the north, almost closes the entrance to the Gulf of Chihli from the Yellow sea. With Port Arthur, this British territory dominates the water road to Peking and Tientsin's ports.

How Do Sponges Eat?

Fisheries experts and scientists have been unable to ascertain accurately how sponges feed. An ordinary sponge will grow from one to one and one-half inches or more a year. The portion of the sponge with which we are familiar is the skeleton or framework of the sea product as it exists in the briny deep. The slimy, gelatinous substance is decomposed by wind, weather and sunshine and subsequent soaking in sea water cures out any gelatinous materials which still adhere to the sponges.

How an Echo Forms

An echo is a sound in the air that is like a wave, and when it hits something it is thrown back to the place where it started. This is similar to the waves of the sea striking against a breakwater and then coming back again. But nothing must alter the shape of the sound or it will not be an echo.

How Wealth Is Distributed

The wealth of the United States is distributed as follows: Recently published figures of a statistician of conservative views show that the "rich," 2 per cent of the people, own about 60 per cent of the wealth; the "middle class," 33 per cent, own 35 per cent, and the "poor" own 5 per cent.

How Fourpenny Originated

"Penny" did not mean penny at all, but pound. This meant that a thousand of these nails would weigh four pounds, and so on. Carpenters and other artisans got into the habit of slurring these terms so as to give them the sound of fourpenny, and this in turn was modified by turning the shortened suffix into penny.

Advertise it in the Chronicle.

Clarinet's Probable Origin

The clarinet is an old instrument. It was invented by I. C. Denner, a German, in 1690, and has been a permanent member of the orchestra since then. It may possibly have some connection with the ancient shawn, because the English shawn and German schalmey are closely related.

Education's Proper Aim

There are certain duties and loyalties toward our native land common to every citizen, and education must have such a direction as to enable every citizen to fulfill his duty toward his fatherland.—Kossuth.

MANY WOMEN USE GLYCERINE MIXTURE

Women appreciate the quick action of simple glycerine, buckthorn bark, etc., as mixed in Adlerika. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel, and removes all gasses and poisons. Excellent for obstinate constipation and to guard against appendicitis. Helps any case gas on stomach in TEN minutes. Burke's Drug Store.—Adv. 3.

We have a good territory

open consisting of Tuscola County. Salesman should be between ages of 30 and 50. Automobile necessary to use in the work. This is good permanent position with excellent opportunity for promotion for a good man. Write Box GF, c/o Chronicle, Cass City, giving record of your employment during the past five years.

Fourth of July Outfits at Zemke's

Next week Saturday is the great Fourth of July. This day was set aside by our forefathers as a national holiday, in honor of the brave soldiers who sacrificed their lives that we might have freedom. This loyal patriotism has been inspired into the many hearts and generations, and unto this day the Fourth of July is patriotically reserved.

Some go to visit their far-off friends, whom they have not seen for years; others go to a large public celebration, and some go to a near-by water resort. But we all reserve the day by laying aside our work and cares, and have a good time.

Look over your wardrobe and see what you will need for the occasion, and then come to Zemke's for your needs. We have put forth special effort to have a full supply of Fourth of July requirements.

THIS STORE WILL BE OPEN FRIDAY EVENING, JULY 3RD AND CLOSED ALL DAY SATURDAY, JULY 4TH.

FOURTH OF JULY DRESSES

We have received several shipments of dresses from different manufactories, which will give you a better selection to choose from.

In this great collection of dresses you will find just the dress you want, whether you want a \$2.75 or a \$25.00 gown—whether you are only 16 years old or 75 you can get a gown at Zemke's.

Get your 4th of July gown at Zemke's.

SPRING COATS

Just a few spring coats left to close out at less than wholesale prices.

These coats are all clean garments, and are just the coat you want when out riding these cool evenings or mornings.

DRESS 7574

STANDARD DESIGNER PATTERN

Bathing Suits for the Fourth

Ladies', children's and men's bathing suits in a wide range of prices.

Summer Underwear

New silk or cotton bloomers, vests, step-ins and slips for the Fourth.

New Hose for the Fourth

A wide range of colored hose is here to select from. Prices ranging from 55c to \$2.25.

Yard Materials

New yard materials for those who care to make their own Fourth of July gowns.

New voiles, crepes and cotton goods for the inexpensive summer dresses.

Zemke Brothers

LOCAL ITEMS

Neville Mann has the chickenpox. Miss Esther Schell is suffering with a broken arm.

Irvine Striffler returned home on Thursday from M. S. C.

Miss Annabelle McRae came home Saturday from M. S. C.

Born to Mr. and Mrs. Arthur Vanvalic, on Thursday, a son.

Mary E. Randall of Lansing is visiting her son, Chas. Randall.

Mrs. J. H. Bohnsack is entertaining her nieces of Colling this week.

L. H. Stafford of Royal Oak spent Sunday at the home of his parents here.

Mr. Kreh and family of Caseville spent Monday at the R. M. Taylor home.

Mr. and Mrs. C. L. Graham and family visited relatives in Crosswell Sunday.

Mr. and Mrs. Duane Geister of Decker spent Sunday at the home of J. Whale.

R. M. Hadwen of Teston, Ontario, is spending two weeks at the home of Isaac Cragg.

Mr. and Mrs. F. A. Bigelow and Mrs. Penn attended church in Bad Axe on Sunday.

The five year old son of David McComb had the misfortune of breaking his arm on Sunday.

Mr. and Mrs. R. M. Taylor and family and John Day spent Sunday afternoon in Caseville.

Mr. and Mrs. Roy Colwell of Gaylord were guests at the Thomas Colwell home over the week-end.

Mr. and Mrs. Wm. Striffler and family spent Sunday in Pigeon, the guests of Mr. and Mrs. R. H. Orr.

Miss Helene Bardwell, who has been teaching the past year at East Jordan, has returned to her home here.

Mr. and Mrs. M. E. Kenney entertained Mr. and Mrs. Lewis Howell and family of Pontiac at their home on Sunday.

Mr. and Mrs. A. H. Higgins and Mr. and Mrs. E. A. Corpron and daughter, Eleanor, were in Caseville Sunday.

Mrs. Edward Pinney and daughters returned home Sunday after spending some time in Ann Arbor and Mount Clemens.

Mrs. P. A. Schenck and family and Mrs. Wilsey and son leave this week to spend two weeks at the Bluff at Caseville.

Mr. and Mrs. Wm. Moore returned from Pontiac Friday after spending the past week with friends and relatives in that city.

The Malfem Club met at the home of Mrs. Benj. Ritter on Thursday afternoon. A delicious lunch was served and all enjoyed the day.

Miss Helen Turner and Miss Mary Newberry returned home from Mt. Pleasant where they have been attending school the past year.

Mr. and Mrs. Philip Sharrard entertained at Sunday dinner, Mr. and Mrs. Stanley Sharrard and family and Mr. and Mrs. E. Lorentzen and son.

Warren Schenck and grandson, Richard Schenck, leave on Wednesday for Sault Ste. Marie, where the former expects to spend the summer.

The Woman's Home Missionary society of the Presbyterian church will meet at the home of Mrs. Wm. Schwaderer on Thursday, July 2.

Mrs. Tinney, Mrs. Bishop, Mrs. Everingham and daughter and Mrs. Dinis and daughters, all of Kinde, spent Friday at the E. A. Corpron home.

Mr. and Mrs. F. A. Bigelow were in Mt. Pleasant on Friday, Miss Elymore, who has been attending normal school there, accompanied them home.

Mason Wilson went to Detroit on Sunday to accompany his wife and daughter home. They have been spending the past week with relatives in that city.

The Misses Emma Bearss, Pauline Knight and Winnifred Schell and Rev. I. W. Cargo left Monday to spend the week at the Epworth League institute at Albion.

Mr. and Mrs. Roy Bricker entertained at dinner Friday evening Mr. and Mrs. W. Kramp of Pigeon and Mrs. Gemple and daughter, Esther, of Harbor Beach.

Mrs. M. M. Schwegler, Mr. and Mrs. Bert Elliott and Mr. and Mrs. D. C. Elliott called on Mr. and Mrs. Crawl in Caro Sunday and also attended Sunday school rally.

The Good Win Euchre Club met at the home of Mrs. G. E. Reagh on Friday afternoon. A lunch of strawberries and cream helped the members to spend a pleasing afternoon.

B. A. Elliott is a Chronicle liner booster. Advertising a cow in a recent issue of the paper, he says he had her sold an hour after the paper had been delivered on the rural routes.

Mr. and Mrs. W. G. Elsey and Mr. and Mrs. Jordan Horn of Detroit were week-end guests at the W. J. Martus home. Helen Catherine Elsey returned to the city with them, where she will spend some time visiting in the Elsey home.

Mrs. J. H. Holcomb and daughter, Dorothy, and Miss Sara McArthur returned home Sunday after spending a happy time at the H. F. Little home in Lansing and the Dr. G. E. Bonner home at Hudson. Mr. Holcomb went there Sunday to accompany them home.

Miss Tillie Willerton spent Monday afternoon in Caro.

Mrs. F. E. Kelsey spent Tuesday with Caro friends.

The Sandham family spent the week-end in Caseville.

Mr. and Mrs. G. W. Landon and son spent Sunday in Caseville.

Mrs. Geo. C. Hooper attended the alumni banquet at Caro Friday.

A. Doerr is building a garage at the rear of his residence this week.

Miss Bertha Zemke spent Sunday in Caro, the guest of her brother.

Miss Nila Burt is home from Lansing where she has been in school.

Mrs. Alma Schenck and daughter, Ruth, spent Wednesday in Detroit.

Miss Ida Burt of Jackson is visiting at the home of Geo. Burt this week.

G. A. Tindale and Richard Edger-ton were business callers in Detroit last week.

Miss Ethel Zavitz is home from Detroit where she has spent the past few weeks.

Mr. and Mrs. C. U. Brown are entertaining the former's sister, Miss Edna Brown.

Misses Dorothy Tindale and Thelma Warner spent last week at the Bluff in Caseville.

Miss Margaret Ross spent Sunday and Monday visiting friends at Harbor Beach and Ruth.

Mr. and Mrs. Hector Ross of Bad Axe spent Sunday with their mother, Mrs. Katherine Ross.

Rev. and Mrs. Hubbard of Unionville ate dinner with Mr. and Mrs. E. W. Keating on Tuesday.

Mrs. John Ricker and daughter, Maxine, of Owendale are visiting this week at Mrs. Gertrude Ricker's home.

B. F. Gemmill is spending the week at the home of his daughter, Mrs. Fred Milligan, in Grant.

Mr. and Mrs. T. L. Tibbals and son, Lawrence, of Ann Arbor called on Cass City friends Monday.

Mrs. J. M. Dodge entertained her cousins of Ellington, Mr. and Mrs. Wm. Houghton, last week.

Mrs. Wm. Fulton of Bad Axe is spending some time at the home of her sister, Mrs. E. W. Keating.

Mr. and Mrs. C. H. Schenck of Saginaw were dinner guests Monday evening at the Dr. Schenck home.

Mrs. A. G. Houghton and Mrs. J. M. Dodge and daughter, Marie, were in Marlette Sunday visiting relatives.

John Kitchen and son, Ralph, of Lansing came Monday evening to spend a few days with relatives here.

Mr. and Mrs. Roy E. Colwell of Gaylord, Mich., spent the week-end visiting relatives in and around Cass City.

Mrs. Williams of Saginaw and Mr. and Mrs. Gooden of Clawson spent the week-end at the L. L. Wheeler home.

Mrs. Elizabeth Blackmore of Pontiac and Miss Lella Blackmore of Detroit are visiting at the David Tyo home.

Mr. and Mrs. Frank Hutchinson and son, Grant, and Mr. and Mrs. L. King spent Sunday at the home of W. C. Schell.

Mr. and Mrs. Peter Rushlo and Mr. and Mrs. David Tyo left Thursday for Lapeer to spend some time with friends there.

Mr. and Mrs. Arthur Cooley and family of Owendale and Mrs. Gertrude Ricker spent Sunday with Mrs. Agnes Cooley.

Mr. and Mrs. W. M. Moulton of Wilmet and Mr. and Mrs. O. W. Moulton of Caro spent Sunday at the B. F. Gemmill home.

Mrs. J. E. Seed and daughters, Elizabeth and Frances, will leave Friday to spend some time with relatives at Glencoe and Newberry, Ont.

Mrs. John R. Clark and family of Clinton and Miss Catherine Fritz of Toledo, Ohio, came this week to spend some time with relatives here.

Mayville celebrates this year with a regular Fourth of July program. Cass City plays ball with Mayville leaguers that day and many will probably attend from here.

Mr. and Mrs. Neil McEachin and son, Arbore, of Bad Axe and Mr. and Mrs. J. D. McEachin and son, Angus, of Ubyly had Sunday dinner with Mrs. Angus McGillivray.

Mr. and Mrs. Wm. Crandell entertained at dinner Sunday: Mr. and Mrs. F. E. Kelsey, Mr. and Mrs. Wm. Schwegler and family and Mr. and Mrs. A. D. Gillies.

Mr. and Mrs. P. S. Rice spent the first of the week with relatives in Im-lay City, Dryden and Detroit. Mrs. Rice remained in Detroit to care for her sister, Mrs. Maulsberry, who is ill.

Mr. and Mrs. C. M. Pulford and B. C. Patterson and daughters, Isabell and Margaret, of Detroit spent the week-end at the home of Jas. Tennant. Mr. and Mrs. Pulford found this week for a trip to Cape Cod where they expect to spend the summer.

Alfred Fort has added a bottle cooler and dispenser to his ice cream parlor. This is a new contrivance which was placed on the market in late months. It keeps cool a large quantity of soft drinks and makes possible a rapid dispensing of same to customers. A Reo six-cylinder two-ton truck is another new item added to the Fort equipment.

J. D. Brooker is visiting relatives in Ontario this week.

Robert Warner was a business caller in Detroit Tuesday.

Fred Brown and Keith Day spent last week in Caseville.

Mrs. Angus McGillivray spent Tuesday afternoon in Bad Axe.

Park Zinnecker is spending the week with friends in Potniac.

Rev. Wm. Schnug returned home Wednesday evening from his trip east.

Clarence Johnson of Grayling was a caller at the Roy Bricker home Tuesday.

Mr. and Mrs. Wm. Houghton of Ellington spent Sunday with Mrs. Lydia Starr.

Miss Lucile Bailey spent Tuesday with her cousin, Clark Zinnecker, at Deford.

Misses Alice Bigelow and Elizabeth Doerr spent Thursday afternoon in Saginaw.

Miss Carrie Fuller of Bad Axe spent the week end with Miss Katherine Cridland.

Clark Cridland of Battle Creek spent Monday at the home of Mrs. George Cridland.

Wallace and Carl Zinnecker of Pontiac spent Sunday at their parental home south of town.

Mr. and Mrs. Kenneth Michaels of Im-lay City are visiting at the home of Mrs. Addie Marshall.

Miss Katherine Dixon and Arthur Nelson of Detroit spent the week end at the G. H. Burke home.

Mr. and Mrs. Nick Melick and daughter, Catherine, spent the week end with relatives in Owosso.

S. H. Brown, R. J. Brown and Joseph Brown visited their sister, Mrs. Samuel Hunter, at St. Thomas, Ont., last week.

Mr. and Mrs. Robert Milligan and family of Elmwood township were visitors at the Andrew Schmidt home on Sunday.

Miss Gertrude McWebb of Cleveland and Miss Mary McWebb of Paris, Texas, are visiting their mother, Mrs. Sarah McWebb.

Mrs. Geo. West and son, John, were in Owosso Friday. Misses Lottie West and Pearl Marshall accompanied them home.

Mrs. Jacob Hurley and Mrs. C. M. Wallace expect to attend the Old School Baptist reunion at Glencoe, Ont., next week.

Mr. and Mrs. Wallace Laurie and family of Gagetown spent Sunday at the home of Mr. Laurie's mother, Mrs. Clark Bixby.

Mrs. Geo. Cridland and daughter, Miss Katherine, and Mrs. John Jackson expect to leave Tuesday for Ontario to visit relatives.

Mr. and Mrs. N. Merion and Miss Edna Brown returned to Detroit Monday after spending some time at the G. L. Hitchcock home here.

Miss Lois Benkelman is spending the week at her parental home here before leaving for Mt. Pleasant where she will attend summer school.

Mr. and Mrs. A. A. Ricker, Mrs. J. H. Striffler and Mrs. Elizabeth Bockstedt spent Sunday and Monday in Evert at the F. A. Smiley home.

Mrs. George Cridland and the Misses Katherine Cridland and Carrie Fuller were Sunday dinner guests at the John Jackson home in Greenleaf.

Mr. and Mrs. Willis Campbell and daughter and Miss Bernice Waters spent the week end in Flint with Mrs. Campbell's sister, Mrs. Wesley Waters.

Mrs. Stanley Warner and daughter, Thelma, are in Mt. Pleasant attending graduation exercises at the normal there. Miss Velma Warner is one of the graduates.

Mr. and Mrs. Ernest Croft and daughter, Marjorie, will accompany Miss Marie Tindale to her home in Menton on Saturday. They will also visit other points in the north.

Mr. and Mrs. Byron Ruhstorfer and children, Robert and Eleanor, and the Misses Anna and Jennie Wetters and John Smith of Bay City spent Sunday with Mr. and Mrs. Wm. Wetters.

Dr. I. A. Fritz was elected lay delegate Sunday by the members of the M. E. church to represent the society at the annual conference next fall. J. J. Gallagher was chosen alternate delegate.

Friends and relatives of Bert Hendrick surprised him on his 24th birthday anniversary Monday with a card party at his farm home that evening. Music and refreshments added to the pleasures of the evening.

Chas. Wood, J. L. Cathcart, H. F. Lenzner, M. B. Auten, W. L. Mann and Erwin Zemke were in Caro Tuesday evening to hear the address of Fred W. Andersen of Cozad, Neb., known as the "Miracle Merchant."

Mr. and Mrs. Chas. Moore and Lawrence Sammut of Detroit visited at the home of George Milne Sunday, Monday and Tuesday. The Misses Beatrice and Helen Milne and their guests were callers in Bad Axe Monday.

An epidemic of store-front painting has prevailed in Cass City this spring and many business houses have been greatly improved in appearance. The Hartt & Doerr and the A. & P. stores are the latest to make improvements in that line.

Ed. V. Novack, Lansing newspaperman and politician, was a pleasant caller at the Chronicle office on Thursday. He is one of the best informed men on public affairs in Michigan today and is the author each week of the "Paragraphs Concerning Michigan," which have appeared in this paper from time to time.

Mrs. E. L. Heller is improving nicely this week.

Mr. and Mrs. G. A. Tindale were in Caseville on Sunday.

Daniel Striffler spent a few days of last week in Flint.

Mr. and Mrs. T. Colwell visited friends in Marlette Saturday.

Charles Schwaderer of Kingston spent Sunday at the J. E. Seed home.

Mrs. Fike and Mrs. Whale attended old settlers picnic in Novesta last Wednesday.

Mr. and Mrs. John Caldwell entertained Mr. and Mrs. H. H. Wilson of Pontiac over the week-end.

Ed. Sweet and Guy Sweet of Deford spent Sunday at the home of the former's daughter, Mrs. J. Whale.

Alex Hacker of Elkton and Clarence Bogman of Bad Axe were callers at the George Milne home Saturday.

Mrs. M. Parker has returned from Holly, Mich., where she spent a week attending the Adventist camp meeting.

Ray S. Colwell has accepted a position as principal and teacher of mathematics in the Oscoda high school.

A few of the neighbors spent a very pleasant evening Saturday night at the W. J. Martus home with music, singing and dancing and a midnight lunch.

Mr. and Mrs. Charles Dunkelburger of Lockport, N. Y., are spending this week with Mr. and Mrs. E. W. Kercher, and with other relatives in this vicinity.

Mrs. E. R. Wilson of Lansing and the Misses Helene Bardwell, Zelma McKenzie and Annabelle McRae spent the first of the week at the Bardwell cottage at Oak Bluff.

Mr. and Mrs. Fred Smith, Mr. and Mrs. Morley Smith, Mr. and Mrs. Roy Allen and son, Merritt, Homer Randall and Sylvester Elsey ate their picnic dinner in Caseville Sunday.

A quiet wedding took place in Flint on June 13, when Miss Helene E. Foe, second daughter of Mr. and Mrs. W. A. Foe of Cass City, was united in marriage to Mr. Walter J. Allis of that place. They will make their home there.

Unionville defeated Cass City leaguers at Unionville Thursday, June 18, by a 6-4 score. Cass City did strenuous work with the stick securing three three-baggers, but the long hits came at inopportune times when bases were empty. It was a good game spectators say.

Ernest Croft has resigned from his position as salesman in the Holcomb Grocery and will resume his former position as assistant cashier in the Pinney State Bank about July 15. P. S. Rice, who recently sold his grocery store here, will be employed by Mr. Holcomb as salesman.

Mr. and Mrs. Alex Henry and children left Tuesday for a ten-day visit with relatives in Ontario. They will visit at Hensall, London, Woodstock and other points. At Hensall they were guests of Mr. Henry's mother, who celebrated her 81st birthday anniversary last Sunday. Mr. Henry says she is remarkably active for one who has passed the four score mark and he hopes he will have the same amount of ambition and pep when he is within 10 years of that age.

Mrs. Frank Dillman and son, George, left Friday morning on a three weeks' motor trip to Cleveland, Niagara Falls, New York City and Washington, D. C. Glenn Reid and Miss Ellen Millspaw joined them at Detroit on the trip east, while Mrs. Hattie Boyes and daughters, Marjory and Dorothy, accompanied the Dillmans as far as Hazel Park where the Boyes family will visit a few days at the Floyd Reid home. Mr. and Mrs. Frank Reid and Mr. and Mrs. Fred Reid motored to Cleveland, Ohio, and with Mrs. Dillman and son, George will spend a few days with Mr. and Mrs. Guy Allen.

EVERGREEN.

Mr. and Mrs. M. Kitchen visited at the home of Bruce Adams in Marlette Sunday afternoon.

Mr. and Mrs. A. Craig called in Bad Axe Sunday.

Mr. and Mrs. F. Auslander and Mrs. J. Kennedy were called to Ann Arbor Sunday by the death of Mrs. A's brother, Isaac Agar. Mr. Agar was a former resident here and the community unites in extending sympathy to the family.

Mrs. L. C. Kennedy and Miss Merle Craig motored to Lenox Saturday. Mr. Kennedy returned with them.

Marie and Carolas Vader are spending a few days with their grandparents, Mr. and Mrs. G. Johnson.

Mr. and Mrs. John Towle, Mr. and Mrs. Chas. Mudge, Mr. and Mrs. Jos.

Wood's Rexall Drug Store

How Do You See What You See?

Many people think that they can see all right—but after they have been fitted with glasses by us, they realize how much they needed eye aid without knowing it. A test will cost you nothing—and we will tell you the absolute truth about your eyes.

A. H. Higgins

Jeweler and Optometrist.

Peppermint Farm

There is a peppermint plantation of 150 acres at Mitcham, in Surrey, England, and cultivation is also carried on in Lincolnshire and Hertfordshire.

Church Calendar.

Free Methodist Church—A camp meeting will begin in Novesta July 1 and continue to July 8, inclusive. The meetings will be held in the Harvey Palmater grove, 2½ miles east of Deford, and special plans have been made for the Fourth of July services. A. A. DAVIS, Pastor.

Erskine United Presbyterian—All enjoyed the children's service last Sabbath. We were pleased with the large attendance. Come again. And bring the children. Come regularly. The subject next Sabbath morning will be "The Formation and Progress of the Apostolic church. Evening service evangelistic. You are cordially invited. F. T. KYLE, Pastor.

Methodist Episcopal Church—Ira. W. Cargo, pastor—Sunday, June 28, the pastor will preach at both services. Morning service 10:30, evening service 7:30. There will be no mid-week service either this week or next as the pastor is attending the Epworth League Institute and Ministerial Conference at Albion, but will return for the Sunday services.

Presbyterian—Regular preaching services will be held next Sabbath at the usual hours. "Our Little Hearts" will be the subject of the morning sermon. Everyone is cordially invited. WM. SCHNUG, Minister.

Bungalow of the Old-Fashioned Cottage Type Makes Pretty Home

Floor Plan.

By W. A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on the subject. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Homes of simple lines are attractive. Also they enable the home builder to get more rooms and more comfort for a given expenditure of money than most other home building designs. That is the reason a great many home builders are not harking back to the sort of houses that were built in the earlier years of this country.

Homes of frame construction, as those houses constructed almost wholly of lumber are called, were popular in the Colonial times because along the Atlantic seacoast lumber was plentiful. Its only cost was the effort required to fell the trees and hew the logs into timbers of the required size. But many of these homes that were built even before the Revolutionary war are now standing. They are used as models by many of the present-day architects who are called upon to design practical, economical homes for the modern home owners. Into these homes are incorporated modern conveniences and room arrangements that correspond with modern ideas of home interiors.

A home that follows the lines of many old American houses is shown in the accompanying illustration. There is nothing garish about the exterior appearance of this home, but it has the appearance of being all that the word home implies. It provides five good-sized rooms, all the home conveniences and aided by plantings of shrubs and flowers reminds of the old-fashioned cottage.

The central entrance door leads directly into the living room. This room is 12 feet wide and 21 feet 6 inches long. It has windows on either side of the entrance door and others in the ends, providing good light and ventilation. In the center of the inside wall is set an open fireplace. A double, cased opening leads from the living room to the dining room. This also is a rather large room, 13 by 10 feet 6 inches. At the back of the dining room is the kitchen, adjoining which are pantry and back porch.

A door out of one corner of the dining room leads to a short hall, at either end of which is a bedroom. The room toward the front of the house is 12 feet square, while the one at the rear is 11 by 15 feet. The bathroom also opens off the hall and is between and convenient to the two bedrooms.

Under the whole of the house is a basement with cement floor and cement walls, thus providing space for a heating plant, fuel and other storage.

Restful Color Helps

in Decorating Bedroom

The bedroom is one of the most important rooms in the entire home inasmuch as practically a third of the time is spent there.

Such a room above all should be restful in its arrangement and the general color scheme of the wood work, walls and furnishings. Nothing, in short, is too good for the bedroom and nothing bespeaks good taste so much as its arrangement.

There are a great variety of good types of furnishings for the bedroom, and there are many little things which add to its comfort and convenience.

Few rooms are so small that only one chair can be placed there, and the selection should always be made with the thought of comfort in mind. A straight chair for writing or to be used at the dressing table (a chair with a low back is best and will fit either need) and then the low chair for reading, resting or sewing.

When purchasing the rugs or carpet the same careful consideration should be shown, for much of the beauty of the room depends upon the floor and its covering.

Secret Compartment

Manufacturers of bathroom cabinets are constantly improving their products in order more perfectly to fill the requirements of the modern family. A new feature has been added to the full-length bathroom cabinet by one manufacturer, which consists of a secret compartment back of the wire clothes basket at the bottom. When closed, it presents a flush wall appearance similar to the back of the cabinet, and cannot be detected by the uninitiated. It is a splendid place in which to keep poisonous antiseptics or toilet goods of an intimate nature.

Weather Strips Are Aid

in the Saving of Fuel

If one expects their heating equipment to function efficiently it should be given at least a fighting chance. By this it is meant that no heating system, no matter how well designed and installed, can give the maximum of satisfaction where it is expected to heat an ever-increasing quantity of air.

Windows and doors permit the infiltration of air in great quantities unless properly windproofed. These windows and doors at the time the house was built, no doubt, were properly installed and almost air tight, but the natural settling of the building in one year will rapidly change this condition so that the average window will admit as much air as would come through a space the size of an ordinary brick, if one were taken out of the wall.

The average home owner will naturally believe that this is greatly overdrawn, but any engineer with a knowledge of the subject will tell you that this is not an exorbitant statement.

Weather strips are the only means by which this condition can be remedied, and while the old type of wooden strip will do the work, it is only temporary and requires constant re-putting and readjustment.

The metal weather strip is the only really practical and efficient method to adopt. True, it costs more for the initial installation, but once done, is permanent and final and requires no upkeep or readjustment.

Fireplace

The fireplace is an asset to every flat building and should be considered as part of the general plan. Many renters will not consider a flat which does not have this feature.

New Game Laws Go Into Effect This Week

The new game laws, effective this coming season in Michigan, as set forth under the Ming bill are:

Ruffed Grouse—Open season, Oct. 25 to Oct. 31, both inclusive. Five in one day, 10 in possession, 20 during the season.

Chinese Ring-Necked Pheasants—Open season, Oct. 25 to Oct. 31, both inclusive. Two males in one day, four in possession and four during the season.

Prairie Chickens—Open season Oct. 25 to Oct. 31, both inclusive. Five in one day, 10 in possession, 25 during the season.

Quail, Spruce Hen, Hazel Grouse, Wild Turkey, Killdeer, and other pheasants. No open season.

Ducks—Open season, Sept. 15 to Dec. 31, both inclusive. Fifteen in one day, 30 in possession and not more than 50 in one calendar week.

Geese and Brant—Open season, Sept. 15 to Dec. 31. Five in one day, eight in possession, and 15 during the season. This limit covers the combined species.

Homing pigeons and morning doves are protected.

Coots—Open season, Sept. 15 to Dec. 31; 25 in one day, 50 in possession and 60 during one calendar week.

Wood-duck are protected. Wilson, Jack Snipe and Gallinules—Open season Sept. 16 to Dec. 31; 15 in one day; 25 in possession and 20 during the season.

Woodcock—Open season, Oct. 25 to Oct. 31, inclusive; five in one day, 10 in possession and 20 during the season.

Black Breasted, Golden Plover and Yellow Legs—Open season, Sept. 15 to Dec. 31; 15 (combined) in one day; 15 in possession and 20 during the season.

Rails—Open season, Sept. 15 to 31. It appears under this new law that rails are classed as "other shore birds" and if this interpretation is correct the bag limits would be the same as snipe.

PARAGRAPHS CONCERNING MICHIGAN.

By Ed. A. Nowack.

St. Clair county has two motorcops working the highways there to keep trucks from carrying excessive loads.

Michigan automobile makers are filling an order for 25 special taxis to be put in service on a new taxi line in Warsaw, Russia. The president of a South American republic is having built at a Detroit factory a \$15,000 highpowered auto, fitted with bullet proof windshields, electric fans in the tonneau, holsters for carbines and revolvers, receptacles for ice cold drinks and a few other modern motoring conveniences.

Michigan goods for export ranked in the following order for 1924: automobiles, wheel tractors, copper, lard, adding machines, medicinal and pharmaceutical preparations, chemicals.

The state ranked eighth in exports. The traffic count on autos taken in 1913 at the 6 mile road in Detroit showed 2,000 cars passing a given point every day. Now 30,000 cars pass the same point daily.

Figures by T. E. Johnson, superintendent of public instruction, show that in 1922-23 the Michigan State Normal had 1,917 students. Last year this number had jumped to 2,283.

Countless numbers of fish have died and are dying in the inland lakes and streams in Michigan this year, conservation officials report. This is due to the warm water during the spawning season and male as well as female fish are affected.

Michigan produces about 75 per cent of the white beans that are raised in this country. Last year's average price was at \$3 per bushel.

Plans are slowly getting under way to make a scenic drive of Michigan's 1,638 miles of lake shore line. Another link forged in this chain of drive is to be built in the Thumb district.

Muskegon county road commissioners are practicing reforestation and have planted 4,000 seedlings. Residents of that county in the central townships have planted 150,000 trees on unoccupied lands.

The little town of Sherwood in the lower part of the state still clings to its oil lighted street lamps.

In Cass county they do strange feats at logging. Roots of walnut trees are dug up and sold at a fancy price. In the old days the walnut in that section was harvested about as the pine in the upper sections of the state.

For eight days 15 northern Michigan fire towers used for observation purposes reported 12 fires daily. This occurred during the dry period when thousands of acres of Michigan land was burned over due to careless disposition of matches, cigar and cigarette stubs and the dangerous clearing fires.

EIGHTH GRADE GRADUATES.

Greenleaf Twp. — Laverne Hill, Gladys Rolston, Gladys Wyllie, Violet Jackson, Stanley Rolston, Derold Luther, Angus McLeod, Sophia Sobieray, Alexander McRae, Eva Just, John Simkins, Manforde Hinton, Clark Jackson, Nora Jackson, Evelyn L. Doerr, Clara Bond, Ila M. White, Edna Robinson, Anton F. Dennis, Martha Garety.

Argyle—Everett Philpot, Alfred Wheeler, Edward McGarry, Arthur Stevens, Frederick Spaetsell, Harriett Pomella, Thelma Renelt.

RESCUE.

A number from around here attended the alumni picnic at Caseville on Sunday.

Mr. and Mrs. Jos. Mellendorf transacted business in Cass City Monday afternoon.

Earl Britt and lady friend, Miss Binder, of Sebawaing was calling on friends in this vicinity Sunday.

A few from around here attended Philip Moore's barn raising in South Grant last Thursday.

Mr. and Mrs. Geo. Hartsell and Seneca Hartsell were Owendale callers Saturday evening.

Mr. and Mrs. Ernest May and son, George, and daughter, Edna Marie, of Caro ate supper with Joseph Mellendorf and family Sunday.

The Ladies' Aid will meet with Mrs. Chas. W. Hartsell at dinner and work on July 2nd.

Levi, Howard, Rena and Ella Helwig, Elva Heron, Howard, Clifford and Beatrice Martin and Stanley Mellendorf were Sunday evening callers at the Wm. W. Parker, jr., home.

Mrs. John MacCallum and daughter, Miss Anna, were callers at the Frank Wolf home, in Wolfston Saturday. They were also Pigeon callers and were accompanied by Wm. Wolf, sr., and Mrs. Frank Wolf.

Mr. and Mrs. John H. Parker and children of Brookfield were Sunday visitors at the Burdette Webster home.

The Premo class held their meeting at the home of Geo. Blakely last Friday evening.

Basil Parker and Stanley Mellendorf were callers at the Oscar Schaar home in Northeast Grant Sunday forenoon.

Mr. and Mrs. Ostrum Summers and children were Elkton callers Saturday evening.

A large crowd attended the Children's Day exercises at Beasley Sunday afternoon. A fine program was given by the children. Many thanks to the faithful committee who instructed the children.

Miss Vera MacCallum went as delegate to the Sunday school convention held at the M. P. church in Brookfield last Thursday. She was accompanied by her mother, Mrs. John MacCallum.

Mrs. Joseph Mellendorf and children, Marion, Stanley and Dorothea, and Basil Parker attended Kelly's show at Bad Axe last Wednesday evening.

Mr. and Mrs. Asa Kahrl and daughter, and Mrs. Bernard Banfield of Farmington called at the John MacCallum home Sunday morning. They attended the alumni picnic at Caseville and also called at the Bad Axe hospital to see Donald Banfield, who was a patient there.

Word was received recently from Detroit of the death of David S. Day. Funeral was held last Thursday. Mr. Day formerly lived in this vicinity, having moved to Detroit in April. The family have the sympathy of their many friends here.

Chas. Quant of Memphis has been visiting friends and relatives around here.

Mr. and Mrs. Wm. W. Parker and daughters were Sunday visitors at the Henry Hartsell home.

Miss Anna MacCallum closed another successful term of school at Sebawaing last Thursday. She has been hired to teach there again next year.

Mr. and Mrs. John MacCallum and daughters, Anna and Vera, and sons, Howard and Arnold, attended a farewell party for Miss Edna Wolf in Brookfield Monday evening.

NOVESTA.

Still dry.

People are going through the motions of haying.

Mrs. H. A. Williams of Saginaw spent a few days last week with old neighbors here.

Mr. and Mrs. Chas. Cunningham and family visited friends near Lapeer on Sunday.

Mr. and Mrs. E. Holcomb entertained on Sunday Harry Dane of Peck. Mr. Dane is a nephew of Mr. Holcomb.

Thelma Henderson visits this week in Pontiac.

Edgar Wade has a position with the new canning factory at Caro.

Many old timers came from a distance to attend the pioneer meeting in the Bridges grove on the 17th. There were several old people who had passed the three score and ten year mark and some five or six who were past the 80 mark. Everyone enjoyed the day, hoping to meet again in 1926 at the same place. Mr. Bridges having kindly offered to entertain.

It was surely an oversight that the committee at the old pioneers' meeting did not express their appreciation to Mr. and Mrs. A. J. Knapp for the use of chairs, for they were indeed very grateful for the use of them; also to Novesta Arbor of Gleaners for benches and tables.

NOVESTA CORNERS.

Mrs. John Wentworth of Cass City ate dinner Thursday with her parents, Mr. and Mrs. Dave Collins.

Mr. and Mrs. John Collins left Saturday for a few days' visit with friends in Pontiac and Birmingham.

Mr. and Mrs. Wm. Patch, jr., and children, Ben Wentworth and children and Mrs. Julius Wentworth spent Sunday with friends in Dryden.

Mr. and Mrs. Chas. Cunningham and children and Henry Wells spent Sunday with friends at Attica.

Elmer Collins is numbered with the sick.

Roy Clark and M. A. Shover spent Wednesday with the latter's sister in Bay City.

Mrs. Ben Chapin of Midland came Sunday to spend a few days with her parents, Mr. and Mrs. Dave Collins.

Mr. and Mrs. Wesley Perry and children were entertained at Sunday dinner at the home of Mr. Perry's parents, Mr. and Mrs. John Perry.

Mr. and Mrs. Tim Thomson of Ecro City spent the week-end at the home of Mr. and Mrs. Wm. Collins.

Leslie Collins of Pontiac spent Sunday with his parents, Mr. and Mrs. George Collins.

Mr. and Mrs. John Hicks of Hemans called Sunday evening at the home of Mr. and Mrs. Elmer Collins.

CEDAR RUN.

John Hayes is attending a meeting of the board of supervisors at Caro this week.

Mr. and Mrs. McComb and daughter, Gladys, of Dayton and Earl Beutler of this place spent from Saturday until Monday in Detroit.

Mrs. O. A. Hendrick and two daughters, Miss Eunice and Mrs. J. Hayes, visited at the Herb Spaulding home in Caro on Tuesday.

Mr. and Mrs. Robert Spaven and Mr. and Mrs. W. Spaven and children visited at the T. D. Leach home in Saginaw on Sunday. Mrs. R. Spaven remained for a short visit and also to attend the graduation exercises of the high school of which her granddaughter, Miss Edna Leach, is a member of the class.

Mr. and Mrs. G. T. Leishman and children attended the Sunday school convention at Caro last Sunday.

Mr. and Mrs. Wm. Ware and Mr. and Mrs. Henry Deming and son, Howard, were Sunday guests at the Herbert Deming home at Bay Port. Mr. and Mrs. Fred Amie from Wickware were Sunday guests at T. C. Hendrick's.

EVERGREEN.

Mr. and Mrs. Frank Auslander and Mrs. John Kennedy were called to Ann Arbor Sunday by the sudden death of Mrs. A's brother, Isaac Agar. The funeral was held in Cass City Wednesday afternoon at the Presbyterian church.

Those from here attending the Churchill reunion at Forest Hall, Dryden, last Friday were Mr. and Mrs. Loren Churchill, Mr. and Mrs. Mudge's last Friday.

Glenn Churchill and family, William and Ernest Churchill of Novesta, Mr. and Mrs. Albert Kitchin and daughter, Edith, and Rev. Lewis Surbrook, Mr. and Mrs. Sam Mitchell, Mrs. Harry Mitchell and baby of Evergreen, and Mrs. John Crawford and son, Herbert, of Detroit, who are visiting her parents, Mr. and Mrs. S. Mitchell. William Kitchin of Pontiac spent Saturday at his home here. Mrs. Albert Kitchin returned with him to spend a few days visiting in Pontiac and Roseville.

Carolus and Marie Vader of Marlette are spending a few days with their grandparents, Mr. and Mrs. Geo. Johnson.

Miss Clarice Howey of Roseville is visiting at the home of her uncle, Albert Kitchin.

John Moshier and Miss Nora Moshier of Novesta spent Sunday at John Kitchin's.

Rev. A. G. Herman called on Rev. Cline of Marlette Tuesday. Mr. and Mrs. Manley Kitchin visited Mr. and Mrs. Bruce Adams of Marlette Sunday.

Mr. and Mrs. Clare Mudge and family of Grosse Pointe visited at Wm. Mudge's Sunday, the 14th. Mr. and Mrs. Fred Mudge and family and Mrs. Lance Mudge and daughters of Owosso visited at Wm. Mudge's last Friday.

PRE-VACATION Mark-Down Sale 40 USED CARS 40 ALL MAKES -- ALL MODELS

Beginning June 27th and continuing to July 11, we will offer these cars at prices 25% below our regular price. Every car sold on a positive value guarantee. Look over the following list, pick out the car you want to use for your vacation trip.

1921 Buick 6 Sedan
1921 Buick 6 Coupe
1923 Buick 6 Touring

CARO, MICH.

A SAFE PLACE TO BUY A USED CAR

Last Week's Business Was a Hummer

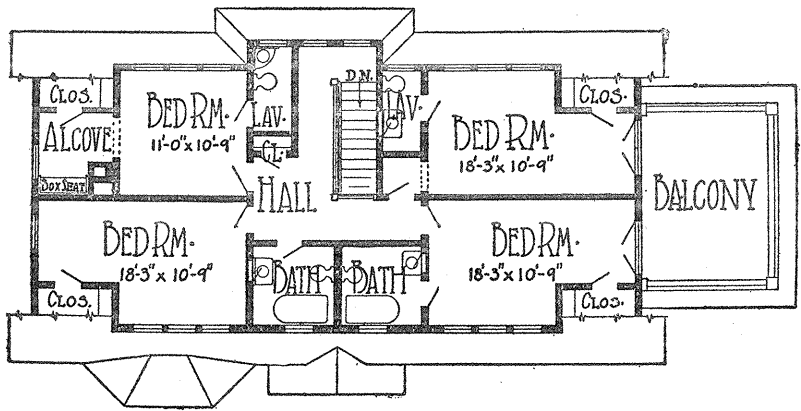

I am certainly pleased to see so many old friends. Also so many new ones.

We have unpacked a lot more bargains for you this week. Don't fail to come and see them.

On account of our Thursday afternoon bargains during July and August, store will be open Thursday evening instead of on Wednesday.

On account of the rapid growth of the business, must enlarge store, and am ready to take bids at once for work. All bids must be in before July 1.

Dutch Colonial of Brick and Shingles Is Attractive Home

Second Floor Plan.

By W. A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on the subject. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Shingles usually are employed for the exterior walls of a home of Dutch colonial design. In the home shown in the illustration a new note in this type of home architecture is struck. Here the first story of the home is of brick. Above the walls are dormer projections covered with shingles, carrying out the Dutch colonial scheme.

The home shown is unusual. Were the second story eliminated, the home would be of the customary brick bungalow type. A second floor has been added, with the long slope of the roof and the dormer projections that denote the Dutch colonial. The entrance door has been placed at the side, giving room at the front for a modern, fully enclosed sun porch.

The entrance door leads into a central hall. To the right connected by a double-cased opening is an unusual living room. The room is large and practically square, the dimensions being 21 feet 6 inches by 22 feet 2 inches. A series of four windows at one end, and two windows, one on either side of the open fireplace at the other admit light and ventilation. Two sets of folding French doors shut the living room off from the sun parlor,

which is 13 feet 6 inches long and 10 feet 6 inches wide.

To the left of the entrance hall is a large dining room 21 feet 6 inches long and 12 feet wide. A deep bay window with four sashes, and a fifth window at the rear admit the light and air. Off the dining room is the kitchen 9 by 12 feet, with pantry and built-in features that make this room in the modern home a convenient workshop.

The stairs to the second floor lead out of the entrance hall and to a central hall on the floor above. There are four large corner bedrooms, each having a large closet and two bathrooms shown in the second-floor plan. These bedrooms are unusually large, the two at front being 18 feet 3 inches by 10 feet 9 inches, and those in the rear being nearly as large.

As is customary in homes designed for those sections of the country where a large heating plant is needed a part of the year, the home is set on concrete foundation walls, which provide a large basement. Here is space for the central heating plant, for the storage of fuel and for the storage of fruits, vegetables and other things that usually are kept in the basement.

For a family of comparatively large size this makes an excellent home. The exterior is unusual; the rooms on the first floor are large and comfortable, while there is an abundance of sleeping rooms. The home is substantially constructed and will endure for many, many years.

Saving on Plumbing

When Home-Building
A material cut in the cost of building construction is assured builders who follow the directions included in the booklet, "Recommended Minimum Requirements for Plumbing Installations in Dwellings and Smaller Buildings," recently issued by the Department of Commerce.

This report is the result of investigations and tests conducted under the direction of the department's house division in co-operation with a group of distinguished engineers and expert plumbers, and shows that a saving of from \$50 to \$100 can be effected in the plumbing costs of ordinary dwellings. The results disclosed that the present customary house trays can be safely omitted; that many feet of vent pipe formerly thought necessary can be omitted; and that in innumerable cases 3-inch pipes can be used in place of the 4-inch standard as fixed by many municipal building codes.

Copies of this booklet may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 35 cents a copy.

Selecting Colors

Care should be taken in selecting the colors and quality of paint. It is economy to pay \$90 for a suit that will wear two seasons instead of paying \$40 for one that will wear but one season. Therefore, buy paint made of white lead and pure oxide of zinc mixed in pure raw linseed oil. If a color is desired, only enough of pure color should be used to get the desired shade. Scrutinize carefully the formula on the can, as there are good and bad paints, and bad paints really cost more than the best.

With Winter's Approach Look to Cellar Windows

Another almanac entry of the month has to do with cellar windows and gratings. Of course, those should be painted, exposed as they are, and now is a good time to attend to the job. Lighting in the cellar will be improved if wall and other surfaces near the windows are painted white, especially if the windows are set deeply and near the ceiling.

If construction is such that good reflecting surfaces are not near the windows, it will pay to secure a few pieces of wallboard. These should be cut to fit the spaces about the windows, primed with shellac, painted white and nailed into place.

The same idea is worth trying around the cellar electric light; a little wallboard or asbestos sheathing painted white, fastened to the ceiling above each light, will make a big difference. Do not neglect the cellar door; it needs painting inside and out.

Grate Ash Chute

Never build a fireplace without an ash chute, and in building the chute make it of sufficient size to take care of all sizes of ash and wood. The greatest mistake is to build one which is so small that it clogs up and makes more work than to shovel out the ash in the first place. An automatic ash pit door is on the market and opens through the weight of the ash and dumps automatically.

Window Leak

Many windows through loss of putty permit rain and wind to filter into the house. This is a condition which every home should protect against by having the windows examined and re-putted where necessary.

HOW

COINAGE OF SILVER WOULD SAVE TREASURY MONEY.
Some time ago it was announced that the United States treasury would seek to put silver dollars into circulation to a greater extent than has prevailed for some years. Assistant Secretary of the Treasury Charles S. Dewey reveals the reason. In speaking in Boston Mr. Dewey said that a dollar bill costs 1.7 cents for printing and it lasts about four months. A silver dollar costs 1 cent for minting and it lasts indefinitely, says the Pittsburgh Gazette-Times. If 40,000,000 silver dollars are put in circulation to replace bills there will be an immediate saving of \$1,000,000 a year. He remarked further, "Mr. Mellon is vitally interested in creating savings."

A million dollars saved to the United States treasury is of not less value than \$1,000,000 saved in any other enterprise, and the shrewd financier is seen in the discovery of what some might think so small a leak as not to be worth bothering about.

How Colonial Postal System Was Organized

In the English colonies in America before 1639 such postal facilities as existed were supplied by private enterprises. In 1639 the General court of Massachusetts took the first step toward the establishment of a government postal system. In Virginia each planter was required to convey the dispatches, as they arrived, to the next plantation, and so on. In 1672 the government of New York established a monthly mail to Boston, and this practice was followed in other colonies. Benjamin Franklin was identified with the early interests of the colonial post office. In 1737 he was appointed postmaster of Philadelphia. In 1735 the delivery of letters by penny post was begun. In 1755 the colonies combined to establish their own post office and to pay the necessary officials. The Continental congress appointed a committee to devise a postal system, which went into effect July 26, 1775. Benjamin Franklin was unanimously appointed postmaster general.

How Indians Explain Formation of Canyon

An Indian legend says that the Grand canyon of Colorado was made single-handed by Pack-i-tha-a-wi, who was armed with a large flint knife and a big stick. Once upon a time the world was covered so deep with water that nobody knew what to do until Pack-i-tha-a-wi took the initiative. The knife he thrust deep into the heart of the earth, hammering until the canyon was formed, the Family Herald says. Another legend says that there was a great chief who mourned the death of his wife Taywoats. One of the Indian gods came to him and told him his wife was in a happier land and offered to take him there that he might see for himself if upon his return, he would cease to mourn. The great chief promised. Then Taywoats made a trail through the mountains. Then he rolled a river into the gorge so broad and raging that it would engulf any that might attempt to enter thereby.

How Race Has Advanced

Just when and where and also how did the human race develop from some more or less ape-like ancestry? This is the most important of the questions which anthropologists are seeking to answer. Because most of the anthropoid apes of today are inhabitants of Africa, savants have held that Africa was the scene of man's emergence from darkness and the realm of brutes. Recent discoveries have tended to strengthen this assumption. Nevertheless there is reason in the argument of those who still hold that central Asia was "the cradle of the human race."

The plateau of Iran was long given the honor. Now, however, scientists are looking farther east and are casting very inquisitive eyes in the direction of the Desert of Gobi.—Cleveland Plain Dealer.

How Characters Grow

Two of the most remarkable instances in fiction where a character has gradually gained his maker's respect and affection may be seen in Mr. Pickwick and Dick Swiveller; compare the unpromising first appearance of these men with their development. Dickens could not have imagined any such growth in grace when he conceived of these characters; they won his heart in spite of himself. Clyde Fitch used to say that he would begin a play with a perfectly definite idea of what his characters were to be and to do; and then the characters would insist on behaving in a totally different fashion and he was forced, in spite of himself, to obey and follow, rather than have his own way with them.—William Lyon Phelps in Scribner's.

How Credit Is Employed

It is estimated that about 60 per cent of the transactions in retail trade and about 90 per cent of the transactions in wholesale trade are settled by means of credit instruments—checks, trade acceptances, drafts and notes.

COUNCIL PROCEEDINGS.

May 4, 1925.

Regular meeting called to order by President Caldwell. Trustees Taylor, Bricker, Auten, Patterson, Holcomb and Tindale present.

Minutes of previous meeting read and approved.

The following bills were referred to Committee on Claims and Accounts:

D. Hartwick, salary 2nd 1/2

April \$45.00

C. Kasonke, salary 4-1 to 4-7 20.00

R. Edgerton, salary April 40.00

C. U. Brown, salary April and postage 175.55

L. A. DeWitt, salary April and extra 67.00

B. J. Dailey, rest room April 15.00

H. Greenleaf, 25 hrs. labor 7.50

D. McComb, gravel 3.00

Grand Trunk, telegram30

D. Krug, labor30

H. Nowland, freight and cartage 1.55

G. West & Son, stat. 5-4 8.90

Standard Oil, stat. 4-2964

Alert Pipe & Supply, Inv. 4-24 10.59

Western Electric Co. Inv., 4-22 1.99

General Electric Co., Inv. 3-25 38.12

Total \$435.74

Moved by Tindale seconded by Holcomb bills be allowed and orders drawn on treasurer. Carried.

Moved by Auten seconded by Patterson the petition requesting that Oak Street, north of Church Street be graded and graveled, be referred to the committee on streets and sidewalks and to be reported at next meeting. Carried.

Moved by Bricker seconded by Taylor the President set date for Clean-up Day and arrange for same. Carried.

May 13 set.

Moved by Auten seconded by Taylor meeting adjourn. Carried.

LURA A. DEWITT, Clerk.

Regular meeting May 18th adjourned.

No quorum.

Pres. Caldwell and trustees Auten and Bricker present.

LURA A. DEWITT, Clerk.

June 1st, 1925.

Regular meeting called to order by President Caldwell. Trustees Taylor, Bricker, Auten, Patterson, Holcomb and Tindale present.

Minutes of May 4th read and approved.

Following bills and accounts were referred to committee on claims and accounts:

H. Greenleaf, labor \$3.15

D. Bond, labor 3.15

C. Travis, labor 8.05

Special election, board 30.00

D. Krug, team 12.00

R. Edgerton, May salary 40.00

L. A. DeWitt, May salary and post 61.00

C. U. Brown, May salary and post 176.12

Decoration Day, expense 30.00

Farm Produce Co., stat. 5-5 2.35

B. J. Dailey, May rest room 15.00

G. L. Hitchcock, stat. 17.20

N. Bigelow & Sons, stat. 12.65

H. Nowland, frt. and cartage 2.38

Great Lakes Power Co., April 882.00

F. Bissell Co., Inv. 4-17 80.72

Laminated Shein Co., Inv. 5-16 3.31

K. Anderson Co., Inv. 5-14, 5-23 20.73

A. T. Knowlson Co., Inv. 5-12 1.12

Total \$1400.93

Moved by Tindale, seconded by Auten bills be allowed and orders drawn on treasurer. Carried.

Moved by Tindale, seconded by Taylor the request of C. W. Heller for water service at store buildings on E. Main St. be granted. Carried.

Moved by Auten seconded by Bricker the light and water committee investigate the pump question and report at next meeting. Carried.

Moved by Holcomb seconded Taylor meeting adjourn. Carried.

LURA A. DEWITT, Clerk.

June 5, 1925.

Special meeting called to order by President Caldwell.

Trustees Taylor, Bricker, Auten, Holcomb, Patterson, and Tindale present.

Moved by Taylor, seconded by Bricker that B. F. Benkelman and E. W. Keating be appointed as members of Board of Review. Carried.

Mr. Edwards of Mich. Electric Power Co. was present.

Moved by Tindale seconded by Bricker that President and Clerk be authorized to sign and execute bill of sale to Michigan Electric Power Co.

Yeas: Taylor, Bricker, Holcomb, Patterson, Auten, Tindale.

Nays: None.

Moved by Holcomb seconded by Taylor meeting adjourn. Carried.

G. A. TINDALE, Clerk pro tem.

Unhappy Thought

It takes a woman to sit down and cry when she happens to think what a hard time her children might have had if some other woman had been their mother.—Exchange.

Copper Long Mined

Native copper was known and mined in the Lake Superior region by a primitive people hundreds of years ago. It is first mentioned in a book by Le-garde published in 1836. Its commercial development was begun in 1842.

Old Term of Reproach

The word "curmudgeon," meaning a crusty and disagreeable person, is a corruption of corn merchant. During a period of financial depression in England the corn merchants were accused of keeping up the price of corn through their avarice, and hence "corn merchant" came into use as a term of reproach.

"The Breeches Maker"

Daniele da Volterra, the Italian painter, was called "the breeches maker," for having added draperies, by order of Paul IV, to some of the figures in Michelangelo's "Last Judgment," in the Sistine chapel, the Vatican, Rome.

Checks Used in Business

More than nine-tenths of the business of the United States is done with checks and drafts. This is even a greater proportion than in England, where the banking and clearing house system is older than America's.

Few Real Intimacies

There is a wide difference between general acquaintance and companionship. You may salute a man and exchange compliments with him daily, yet know nothing of his character, his inmost tastes and feelings.

The Perfect Minstrel

Thomas Campton has been called the perfect minstrel among all English poets on account of his beautiful love songs. Among these songs are "When Daisies Pied and Violets Blue," and "Where the Bee Sucks."

Not Too Old for Work

Michaelangelo was nearly sixty years old when the supervision of work on St. Peter's, Rome, was entrusted to him. He labored on the huge edifice for seventeen years before he began the construction of the dome.

Plan Long Tunnel

A tunnel two and one-half miles long that will be the largest in England is being planned.

The Incurable

There is now a cure for almost everything except the medicine habit.—San Francisco Chronicle.

Schooling in Esthonia

There are practically no illiterate adults in Esthonia.

All He Really Needs

A good wife and health are a man's best wealth.—Benjamin Franklin.

NOTICE TO DESTROY WEEDS.

To all owners, possessor or occupants of lands, or to any person or persons, firm or corporation having charge of any lands in this state:

Notice is hereby given that all noxious weeds growing on any lands anywhere within the township of Elkland, County of Tuscola, State of Michigan, or within the limits of any highway passing by or through such lands, must be cut down and destroyed on or before the 15th day of July, 1925.

Failure to comply with this notice on or before the dates mentioned or within ten days thereafter, shall make the parties so failing liable for the cost of cutting the same and an additional levy of ten per cent of such cost to be levied and collected against the property in the same manner as other taxes are levied and collected.

Also all brush growing upon the right of way of all highways running through or alongside of said land, but not including any shrubs reserved for shade or other purposes must be cut and destroyed.

J. A. BALKWELL,
Commissioner of Highways, Elkland Township, County of Tuscola, State of Michigan.
6-26-3

When You Want Financial Advice

you consult your banker because he is a specialist in money and investment matters.

You can place in us the same degree of confidence regarding building materials and their uses. For years we have handled quality materials supplied by reputable manufacturers. Our job is to please and satisfy you so well by selling you what is best for your particular job that you will be a permanent customer. We are specialists in building and always are glad to counsel with you.

Next time you have a building or repair job, come in and talk it over. You can draw on our years of experience in the building business. Our stock is complete and we know we can satisfy you.

THE FARM PRODUCE COMPANY, Inc.

S. L. Brokenshire, Mgr. Lumber Dept.

Get a Good Refrigerator

The Automatic or Illinois Refrigerator is the kind to buy because either of these will keep food longest, in the best condition on the very smallest amount of ice.

We have a large stock from which to choose, in sizes to meet the needs of any size family.

Automatic Refrigerators are priced from \$63 to \$100.

Illinois Refrigerators are priced from \$17.95 to \$48.25

Napanee Kitchen Cabinets Save Time and Labor

Think of the thousands of useless steps a woman takes in preparing a meal—yet this can be eliminated if she has a good kitchen cabinet. The Napanee Dutch Kitchenet holds the world's record for time and step saving.

In several sizes. Oak, gray or white enamel finishes. Priced from \$39.75 to \$99.00.

USE OUR REST ROOM WHEN IN SAGINAW.

The Wm. Barie Dry Goods Co.

Saginaw, Mich.

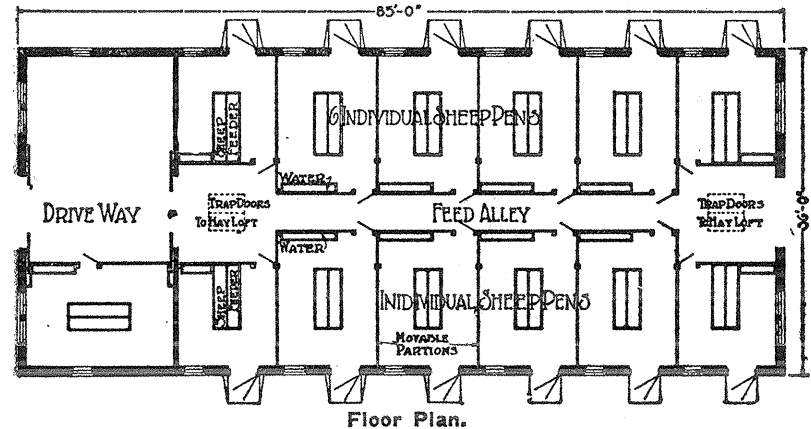

IT SURE IS GOOD

That's what every boy who tastes M & B Ice Cream says. And when a coating of any one or more of our delicious flavors is added, it is even better, if such a thing is possible.

Our mechanical refrigerator enables us to keep an ample supply of ice cream on hand at all times to supply our wholesale and retail trade. You can get M & B Ice Cream here any time, in any quantity.

A. FORT, Cass City

Sheep Profitable to Farmers if Flock Is Properly Handled

By W. A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on the subject. Address all inquiries to William A. Radford, No. 127 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

During the last two years and at the present time sheep have brought a profit to farmers. The price per pound of lambs and mutton in the five stock markets has topped all other meat animals, while their wool also brings a high price per pound.

Handling a flock of sheep is not a difficult farm job. They are simple eaters and can derive sustenance from pastures that would not support other grazing animals. The mother ewe more often produces twins than single progeny, while triplets are not at all uncommon. With lambs six weeks old worth about \$10 the owner does not have to devote much time or feed to bringing the lamb crop to a marketable stage, while the wool clip now is quickly disposed of.

There are a few simple rules of handling sheep, however, that must be observed. Pastures that are infested with vermin must be avoided; the ewes must have a protected house for themselves and their lambs at lambing time; they must be sheltered so as to be safe from dampness, and have an abundance of fresh air.

Walls Dominate Decorative Scheme in the Ideal Home

Should walls and ceilings dominate the decorative scheme of the room, or should they serve as complementary backgrounds for the furnishings?

Of course, in public buildings, hotels, clubs and theaters a considerable amount of interest must be given to the interior by wall decoration, and this is supplied by architectural form. But what of the home living room or dining room, where the interest is not given by elaborate combinations of plaster, cornice and panel?

It must be accomplished through the texture and decoration of wall surfaces. To quote from an authority: "The eye is readily satisfied with texture indicated by pleasing contrast in light and dark color and does not demand actual, tangible texture as in fabrics. Thus a wall may be covered with a smooth paint film, which can be easily washed, and yet have a most pleasing, visible texture."

How much interest the walls of the home should possess depends upon the room—a living room where the walls serve as a background, or a formal reception room where the walls are a special feature of interest.

Other factors to be considered are size of room, its lighting, the decorative scheme and color. The small room is made to appear smaller with large obtrusive figures from which there is no escape, and the large room appears larger if wall texture is too fine.

A sunny effect should be given the dark room, or the north room, by painted walls of tan or yellow texture. In like manner the too brilliant room, with big windows facing the south, may be subdued. If furniture is to be placed directly against the wall, huge figures on the wall behind it will destroy the outline and balance and dim the beauty of form and pattern.

With all its value as an agent of sanitation and with all its virtue as a durable and easily cleaned surface, paint could hardly be recommended for the walls and ceilings of all rooms if only solid color effects were possible. But this is not the fact. There are many special finishes, such as two-tone, flat-tone glazing, stipple, and so on. There is an infinite variety of tints and shades with which interest may be secured. There are flat, semi-gloss and full gloss finishes. And there is stenciling, with its endless possibilities.

The sheep barn shown in the accompanying illustration is rather elaborate, having been designed and built to fit into the architectural scheme of other farm buildings of a like character. The entire first floor is open, but has removable pen partitions to separate parts of the flock. Self-feeders from which the sheep and lambs may feed are set in the divided spaces, and the floor is high and well drained, to prevent the animals from standing on wet ground. A good system of ventilation is provided by the suction ventilators on the roof. Over the first floor is a mow wherein is stored the hay and other roughage needed to feed the animals when they are not on pasture. But above all this building protects the flock from the beating storms that take their toll of sheep.

The building, as shown by the floor plan, is 85 feet long and 36 feet wide. Double doors at either end permit wagons to be driven inside. Hay doors in the floor of the mow make it an easy matter to throw the hay to the ground floor for the feeding racks. A series of doors along the sides allows the owner to keep some of the flock penned up while allowing the others to pass in and out of the barn.

The building is constructed of frame with the exterior walls stuccoed. The stucco may be applied to either wood or metal lath or any of the patent stucco boards.

Good Plumbing Helps in Modern Sanitation

Sanitation, ventilation and hygiene are helping to make living conditions better all the time. Today modern comforts and conveniences are found in modest homes that far surpass those found in the homes of wealth a few years ago.

Modern plumbing is more than a network of hidden pipes, valves and fittings, in homes and business buildings, that distribute water and carry away sewage. It is a work that matches economy, comfort and finish with beauty, utility and durability.

Modern plumbing helps protect health and happiness. Quantity protection of plumbing goods puts them within the reach of all. To the village, farm and hamlet it has made better living possible. Factory owners find pride and profit both in making their factories models of cleanliness and sanitation.

Yet, notwithstanding the general appreciation of proper sanitation, there are many people who buy plumbing on a basis of cheapness and without a thought to its value or permanency. We give much thought to buying an automobile or grand piano; but often treat the plumbing—a matter of protecting the family's health—with brief consideration.

Good plumbing is best in the end, because it protects health and gives a lasting service with small upkeep. The property owner or home builder will profit by regarding the need for good plumbing.

Device Needed to Hold Doors of Garage Open

An item of considerable annoyance to the owners of garages comes through the failure of the doors to remain open when any wind is blowing, and many cars have been badly damaged through these doors swinging shut at a time when the car is being taken out of the garage.

There are a number of devices on the market which act both as a lock and an automatic stop for the doors while open, and these will prove of considerable value to any owner who is troubled through this cause.

The overhead or sliding door is a type greatly favored where space is to be considered, and this type of door completely eliminates all this trouble.

FARM POULTRY

FIND WEED IS CAUSE OF "GRASS EGGS"

Presence of the common weed known as shepherd's purse (*Capsella bursa-pastoris*) in pasture of laying hens is responsible for a peculiar condition in the eggs known to the egg buyer as "grass egg," "alfalfa," or "green rot," investigations by Prof. L. F. Payne of the Kansas State Agricultural college poultry department indicate. Professor Payne's account of the investigations is contained in Poultry Science. "Grass eggs" were especially prevalent on the market last spring. Professor Payne observed, but no explanation could be offered by buyers or flock owners.

In less than a week after the hens were given free range in the garden in the spring, eggs from the flock kept by Professor Payne at his home developed dark yolks so strong in flavor that they could not be relished. Professor Payne discovered that the birds were eating freely of shepherd's purse, which grew in profusion in the garden. Several flocks of chickens from which a large percentage of eggs offered for sale had dark or olive-colored yolks were located through a Manhattan shipper. These flocks were examined, and it was found that they were eating the same weed.

Experiments then were instituted at the college poultry farm. One pen of hens that had not received green feed in any form the previous five months was placed on wheat pasture and another pen on pasture containing shepherd's purse.

"The eggs from the hens that had had shepherd's purse ad libitum began to show dark yolks in four days, while yolks from the wheat pasture hens developed a dark color, but did not, within two weeks, develop the olive color," Professor Payne wrote. "Subsequent experiments were conducted in which three pens of hens that had not received green feed in any form for five months previous to the test were used. Pens one, two, and three were given a liberal supply daily of fresh alfalfa, penny cress (*Thlaspi arvense*), and shepherd's purse respectively. Other hens on the poultry farm were fed green sprouted oats daily. The yolks from the alfalfa and sprouted oats pens continued normal, but olive-colored yolks were found in both the penny cress and shepherd's purse pens."

Professor Payne suggests two preventive methods—either keep the hens confined until there is a variety of green feed available, or supply them with wheat or rye pasture or sprouted oats throughout the winter so they will have no desire to "fill up" on these particular weeds.

Use for Trap Nests

A trap nest is a laying nest so arranged that after a hen enters it she is confined until released by the attendant.

When possible it is advisable to trap-nest the layers for the following reasons:

1. To tame the birds, thereby tending toward increased egg production.
2. To furnish definite knowledge concerning traits and habits of individuals.
3. To furnish the only satisfactory basis for utility or other breeding.
4. To eliminate the nonproductive hen.
5. To add mechanical precision to judgment and experience in developing and maintaining the utility of a flock.

For further information and plans showing the construction of a trap nest, send to the Department of Agriculture at Washington, for Farmers' Bulletin 682, "A Simple Trap Nest."

Poultry Hints

Hens in the laying houses and bare yards need a lot of green feed.

Brooders permit the production of early broilers, which is one of the most profitable phases of the industry.

Late chicks are hard to raise and slow in maturing. Such chicks are easy prey to diseases, and robbers of the roost in many ways.

Get the brooder in condition before putting in the chicks. Disinfect it well and start it some time before the chicks enter it. The house must be warm and dry, and preferably on fresh, clean location.

Thousands of worthless producers got their "start" during the hatching and brooding season.

Toe-mark the chicks soon after they are hatched. This fixes their age and classification. Do a neat job with a sharp punch and keep away from the foot bones.

Give the young chicks a chance to dry off and get their "sea legs" before putting them into the brooder, and be careful not to chill them while making the transfer.

WHY

Simple Signature Is Best Protection

In their attempt to defy forgery of their names it is not uncommon for men to develop a certain flourishing in the signatures they attach to bank checks. Almost any bank cashier will corroborate this statement. They think they are smart, but in reality they are making a mistake, for, paradoxical as it may sound, the simplest signatures are the hardest to forge without detection.

A plain, straightforward signature, without flourishes, must be limited with consummate skill in the shape of shading each letter to avoid detection by keen eyes, whereas the one that is scarcely decipherable, or which is characterized by unnecessary elaboration, presents a comparatively easy task.

The forger, naturally presuming that the customer's signature is identified more by the characteristic flourishing than by the actual name, concentrates his effort on producing a perfect copy of them, trusting, and apparently with good reason, that any slight deviation in the unembellished part of the signature will not be noticed.

The most painstaking forger may, however, it is pleasant to say, fail in his purpose through some careless slip where everything else was perfect. Such was the case when, not long ago, a paying teller detected a forged check not by the signature but because he knew that the man by whom it purported to be signed always put the date before the name of the month, whereas on this check they were reversed.

Why Trade Winds Blow in Certain Directions

Trade winds are common to certain parts of the world, and are so called because they can be relied upon to blow for given periods in an absolutely given direction. The nearer the equator, the more direct are the rays of the sun. Consequently there is to be found the greatest heat, and the quickest rising of the heated air. To make up for this rise, cooler air is constantly rushing in from the colder belts to north and south, and so winds are set up. These currents do not, however, meet, for the following reason: The earth being very much bigger round its equator or middle than at its poles or ends, it follows that the spin round the equator is much faster than at the poles. This extra fast spin, then, bends the currents of air as they rush in from north and south, and so it happens that while there is an absolutely windless belt in the very middle, north and south are two belts with absolutely regular currents of air.

Why Builders Like Wood

To determine the cost of heating homes constructed of various materials, a test has been made in Norway with 27 models built of different materials by measuring the amount of electricity required to keep each at a uniform temperature. Floors, ceilings, double windows and doors were alike in all the houses, the only variable feature being the construction of the walls. Each of the models was about 6½ feet square and 8 feet high. The most economical to heat was found to be a lumber-built house having the hollows of the walls filled with sawdust. It was stated, however, that the sawdust must dry to be an efficient nonconductor of heat, and before its use can become general, some means must be found to make it dry and damp-proof. It was found that hollow walls are better heat insulators than solid walls.

Why Dishes Are Covered

How many persons, seeing covered dishes come to the table, have any idea of the origin of serving food in this fashion? How many know the reason that led to the covering of dishes? They were covered from fear—the fear of poison. In medieval days and down to the time of Louis XIV, people were afraid that poison might be introduced into food between the kitchen and the table.

The wholesomeness of the food was first tried on the servants, who were required to taste it before any of the guests, and then if they were not poisoned, the food was all right. It did not matter so much if a servant was poisoned.

Why Blonds Are Dying Out

An authority on cultural anthropology says that in the great urban centers of Great Britain the tall blonds are dying out and are being replaced by short, dark-haired and brown-eyed people. The Nordic blond seems to thrive best in the country, and the dark peoples do best in the cities. The anthropologist predicts that, if England continues to become more and more urban, Alpine and Mediterranean folk will predominate, as they did centuries ago.—Youth's Companion.

Why Wood Rot

It is claimed that rotting of wood results from the activity of low forms of plant life which take nourishment from the wood and thus destroy it. This refutes the theory that wood rot is caused by the elements or by direct chemical action.

Why So Many Divorces

Nearly half of the divorces granted in London courts in 1923 resulted from childless marriages. Divorces for couples without children numbered 1,266 out of 2,834 cases.

STATE OF MICHIGAN—The Circuit Court for the County of Tuscola, in Chancery.

Olive Pettingill and Bertha Pringle, Plaintiffs, vs. Adel Wheeland and Irving Wheeland, Defendants. In pursuance and by virtue of a decree of the Circuit Court for the County of Tuscola, in Chancery, in a certain cause therein pending wherein said Olive Pettingill and Bertha Pringle are Plaintiffs, and said Adel Wheeland and Irving Wheeland are Defendants, made and entered on the 7th day of May, A. D. 1925. Notice is hereby given, that I, James D. Brook, a Circuit Court Commissioner for said County of Tuscola, and State aforesaid, will sell at public auction to the highest bidder on Monday, the 29th day of June, A. D. 1925, at two o'clock in the afternoon of said day, at the northwesterly front door of the Court House in the Village of Caro, said building being the place in which the Circuit Court for said County of Tuscola is held, the following pieces or parcels of land situate, lying and being in the township of Juniata, County of Tuscola, and State of Michigan, to-wit:—The north half of the southwest quarter and the south half of the southwest quarter of the northwest quarter, and the northwest quarter of the southeast quarter of section fifteen, and the east half of the southwest quarter of section sixteen, all in township number twelve, north, range eight east. Said premises will be sold in the following order, viz:—First as one parcel, The north half of the southwest quarter and the south half of the southwest quarter of the northwest quarter and the northwest quarter of the southeast quarter of said section fifteen. Second, as one parcel, the east half of the southwest quarter of said section sixteen of said township of Juniata.

The said premises will be sold if desired by purchaser or purchasers for one-third of the purchase price in cash, and the balance secured by note and mortgage given by the purchaser or purchasers on the premises sold, securing the remaining two-thirds of the purchase price. Said note and mortgage to be payable in three years from date of sale, and draw interest at the rate of six and one-half percent per annum, payable annually, and be of forms approved by the undersigned Circuit Court Commissioner. Said premises will be sold as aforesaid together with all and singular, the tenements and hereditaments thereto belonging or in anywise appertaining.

Dated at Cass City, May 14, A. D. 1925.

JAMES D. BROOKER,
Circuit Court Commissioner, Tuscola County, Michigan.

DEPENDABLE FLOUR AND FEED.

Your Ad in this Paper

Putting an advertisement in this paper is much more economical and will get much greater returns than though you hired a boy to go about crying the news aloud. And it affords you the opportunity to place all of the facts of your offering before the people of this community in an intelligent and completely convincing manner.

CASS CITY CHRONICLE

The DAIRY

DAIRY PROFITABLE
WITH SMALL HERDS

Many creameries at the present time are losing money because they cannot get enough cream for the farmers in their territory to pay their overhead expenses. The volume of butterfat necessary to put these plants on a profitable basis is not likely to be secured until a large number of farmers begin to appreciate the value of the income from a few cows.

In the opinion of Prof. J. P. La-Master, chief of the dairy division at Clemson college, the creamery development must depend on farmers who will milk from four to six good cows, and there is no doubt a place for such a number of cows on every farm which is operated by its owner living on the land. These few cows can be milked and cared for in a very few minutes before and after working hours each day. No extra hired labor is necessary.

The feed which these cows need and which the farmer saves for them, and the pasture they consume, would yield no income for him if he did not have the dairy cows. When a farmer gets many more cows than is indicated above, says Professor LaMaster, the labor problem becomes important, as does also the feed problem. The dairy herd then becomes a major project on the farm and requires sufficient time and labor to make it interfere with the other plans of operation. It is often just large enough to be burdensome and yet not large enough to be profitable.

There is very little place for herds between six or eight and twenty cows for cream production. Many a farmer has made money and has been satisfied while milking four or five cows, but when he increased his herd to twelve or fourteen cows, he did not make as much money in proportion and was dissatisfied with the results. A large number of farmers with four or five cows each will make dairying profitable.

Beans Fail to Improve
Silage for Dairy Cows

Comparisons of corn silage and corn and soy bean silage for dairy cows at the Iowa station fail to show much advantage for the corn and bean silage. In the first two trials, the cows produced about 2 per cent more milk and butterfat when on the corn and bean silage ration as compared with their production of corn silage, the grain and hay rations being kept constant. In this trial the returns over feed cost were nearly 4 per cent greater when the cows were on the mixed silage.

In a second trial, however, there was a slight advantage for corn silage in weight of the cows and production of milk and butterfat when on the corn silage ration. The dairy husbandry authorities concluded that there is little, if any, difference in the usefulness of the two kinds of silage, so far as feeding to dairy cows is concerned. No apparent differences in palatability were noted and the differences in production were not consistently in favor of either brand of silage.

Soy Beans for Protein
Balanced Ration for Cow

The average dairyman finds it necessary to buy some feed rich in protein in order to feed a ration properly balanced. And protein feeds are the highest in price of any he can buy, therefore it is good business for him to grow something to take the place of cottonseed meal, linseed oilmeal, or whatever he has been purchasing.

Soy beans come nearer being suited to every dairyman's needs than any other crop. On soil too thin for clover or alfalfa, several varieties of soy beans do well. On a rich soil they make a great amount of feed. If threshed, the seed may be cracked and fed in place of cottonseed or linseed oilmeal with equal results. Or if the hay is used, the cows will digest the grain fairly well.

Dairy Notes

It takes only 12 minutes to tell whether or not a dairy herd is profitable.

None but high-producing cows are profitable, and the use of pure-bred sires is the shortest road.

Care of good, well-fed dairy stock covers many items, such as handling, breeding, housing, grooming, etc. In short, the dairyman must provide all the necessary conditions for good production.

Missing windows in the dairy barn mean missing dollars in your milk check.

A cow that has to use her energy warming the ice cold water she drinks can't use that energy to make milk.

Butter making begins with the production of good, clean-flavored cream. To obtain practically all the cream from the milk and have it in the best condition requires the use of a cream separator.

Daddy's Evening
Fairy Tale
By Mary Graham Bonner

ORANGE TIME

Mildred was not old enough yet to go to school but she had lessons at home.

Every morning at half-past nine Mildred and her mother and a little friend named Alice did lessons together.

Mildred's mother taught and the other two studied.

Mildred's dolls sat up on the sofa at lesson time and learned all they could.

It was wonderful how much they learned.

They learned all that Mildred learned.

After lessons were over, Mildred would ask Gyp, the dog, a question, and Gyp would answer in a little squeaky voice the right answer every time.

To be sure, Gyp was only a little dog filled with straw and sawdust but he understood even if Mildred had to speak for him.

It was Mildred's voice which answered the question but it was what Gyp wanted to say. Mildred simply spoke for him in the very tone in which he would have spoken had he been able to use words.

The big cloth cat could recite the alphabet and could spell his own name, too!

Mildred thought that was very smart.

And the rag doll could recite quite a little poetry.

Of course during lesson time they didn't speak. They only listened.

After Lessons.

But they took it all in as was clearly to be shown afterward when Mildred found out what they knew.

They learned to spell and to write a little and to recite and to do simple lessons.

Lessons kept up until eleven o'clock and then they all had oranges.

They cut the oranges in quarters so they would last longer, though sometimes as a special treat they had an extra meal of orange-juice.

They called eleven o'clock "orange time."

When the clock struck eleven they would get up—sometimes right in the middle of a sentence—and say: "Orange time!"

They always stopped on the very stroke of "orange time" just as they always began right on time, too.

Alice found lessons rather hard but she would say:

"When I grow up it won't matter as I shall be a wonderful circus rider. No one ever stops a circus rider to say:

"How much does two-and-two make?"

That thought used to comfort her a great deal when she couldn't get her lessons right.

But she tried to learn as much as she could as she wanted to be able to read her own name and what they said about her when the big signs would go up in the different towns to tell the people that Madame Alice, the famous rider, would be in town on the eighteenth, nineteenth and twentieth.

"When you come to the circus you shall come free," Alice told Mildred.

That made Mildred very much pleased and it would be a great help, too.

She would be able to go to the circus each day and not worry over the expense.

No one could ever have enough money to pay to go to the circus three times in succession, but she would be able to go free.

So, each morning they studied, and the dolls looked on and listened so they could repeat the lessons later.

But the best time of all was "orange time" when the clock struck eleven and lessons were over and it was time to eat.

That was the best time of all.

They had decided that right away and they hadn't changed their opinions since!

Not by Invitation

Billy was getting unconsciously bolder at the party, and the strict hostess was becoming annoyed.

"Willie," she said, gently but firmly, "unless you become more quiet I will have to send you home."

Billy looked at her soberly. His expression was like a somnambulist's after he has been told of his sleep walking. Then suddenly he brightened up with his boyish smile.

"No," he said, confidently though respectfully, "you can't send me home till 5 o'clock. My invitation read 'from 2 to 5.'"

Tales of Thumb
Tersely Told

Concluded from first page.

of James D. Brooker of Cass City, who has many times been associated with Mr. Wixson in legal work in this county, and the proposed new firm is to bring these several men more closely together in the practice of their chosen profession. Mr. Kern is a son of Fritz Kern of Keese, and is a graduate of Alma college and the University of Michigan. Mr. Brooker graduated from the law school of the latter institution this month. Mr. Brooker has been one of the star athletes of the university track team for the past three years, and this last year was honored by election as its captain. He is a pole-vaulter of international reputation, and was a point winner for the United States team in the Olympic games held last year at Paris, France.—Advertiser.

Caro—Citizens of the village voted Monday to bond for \$70,000 to purchase and improve the equipment and plant of the Caro Water Co. The vote stood 525 to 16.

Pigeon—What might have been a more serious accident occurred Monday morning when Albert Lotter, of Elkton, while driving a car collided with the rear end of the last coach of the Grand Trunk train at the crossing one mile south of town. The car was badly damaged and the steps of the coach were knocked off. Lotter escaped uninjured. Lotter says his brakes refused to work.—Progress.

Lapeer—Forest Ruschleau, of Caro, lineman for the Michigan Electric Power Co., who has been working with the line construction crew between Lapeer and Columbiaville, near Millville, was severely burned when a tie wire that he was carrying to the top of a pole came in contact with the high voltage line.

Caro—The local fair association, in a campaign to reduce the indebtedness

of the Caro fair, has secured the Royal Scotch Highlanders' band to give concerts next Wednesday afternoon and evening, July 1. The band plays works of old masters and popular music.

MRS. JAS. PETTINGER'S
FUNERAL ON WEDNESDAY

Mrs. James Pettinger of Cumberland passed away at the Hubbard hospital at Bad Axe on Monday, June 22, at the age of 54 years. She had been a patient sufferer with cancer for several years.

Jennie Lapeer was born in Uxbridge, Ont., on Jan. 4, 1871, and was united in marriage with James Pettinger of Cumberland on June 2, 1903. Several years of the early married life were spent in the Canadian Northwest.

Funeral services were conducted at the Wickware M. E. church by Rev. A. G. Newberry on Wednesday morning. Nephews of the deceased acted as pall bearers.

Besides her husband, Mrs. Pettinger leaves a nephew who was reared by her after the death of his mother, and three brothers, Wm. Lapeer of Cass City, Joseph Lapeer of Cumberland and Calvin Lapeer of Deckerville, and three sisters, Mrs. Sample of Atlanta, Mich., Mrs. Lewis Moshier of Deckerville and Mrs. Elmer Spencer of Sno-ver.

Those from a distance who attended the services were: Mr. and Mrs. D. Sinclair, Kingston; Mr. and Mrs. Fred Stenton, Bad Axe; Mrs. Pearl Nurenborg, Pontiac; Mr. and Mrs. Floyd Mosure, Deckerville; Mr. and Mrs. Geo. Mosure, Port Huron; and Mr. and Mrs. Ed. Mosure, Mr. and Mrs. Earl Damaw and Mr. and Mrs. Ralph Roberts, all of Detroit.

TRIBUNE INSTALLS
MODERN PRESS

The Bad Axe Tribune is keeping

up to the minute by the recent installation of a new Duplex perfecting press. The press is entirely mechanical in operation, printing as many as eight pages of the Tribune at one time. The paper enters the press from a web, or roll, and comes out printed and folded. The publisher, G. E. English, expects to add another column to the page, making the Tribune an eight-column paper.

The Tribune has an equipment superior to many city shops and enjoys a healthy advertising patronage from Bad Axe business interests.

HOSPITAL NOTES.

Robt. L. Woods of Pt. Austin was brought to Pleasant Home hospital on Tuesday critically ill with uremia.

Maurine Nash, daughter of Mr. and Mrs. Alvah Nash of Bad Axe, was brought here Tuesday and underwent an operation for hernia.

M. Hughes of Gagetown underwent an operation for appendicitis Monday.

Tonsil operations were performed upon Alma Loeffler, daughter of Mr. and Mrs. Jacob Loeffler of Reese on Tuesday and on Ben Bundo of Uby on Wednesday.

Other patients are Edward Kosanke, who is getting along nicely, and W. G. Hurley, county clerk, who is slowly recovering from a severe throat infection.

Turkish Delight

"The Turkish commander himself attended one football match. At the end he remarked: 'I am a himbashi who (Allah be praised!) has been in many wars and seen much bloodshed. But never have I seen a more desperate battle than this which you call football. The officers have indeed fought well; are there many wounded?'"

From "Tales of Turkey," by Maj. E. W. C. Sands.

Autos Not Castles

The Supreme court holds that a man's automobile is not his castle, and many a man realizes that his automobile isn't even his vehicle. It's the rusty old machine which hurts the pride of members of the family who use it while pater familias digs up the scads for gas and garage bills.—Louisville Times.

Irish Prefix Explained

The prefix "O" before the names of so many Irish families is an abbreviation of the word "ogha," meaning grandchild.

There is no other BURIAL VAULT that provides as permanent protection as the

NORWALK

They are Waterproofed and as solid as a stone. Your undertaker will furnish you one for \$65.00. Ask him to show you the sample vault he has. Manufactured and guaranteed by the

Marlette Granite Works
