## WELCOME TO PEOPLE OF 30 DISTRICTS

Compliment Extended to Teachers and Pupils on Splendid Progress Made.

Articles on this page of the Chronicle telling of the progress of the Cass City Schools this year were prepared at the school for this week's edition. In these columns, students give readers a glimpse of the activities in the community's educational center.

Again Cass City welcomes the people from more than thirty school districts to its third annual spelling contest. We wish to compliment the teachers and pupils on the splendid progress in this work. Many of the pupils have mastered the list of over 1800 words. The social and educational value of this work is inestimable. It brings everyone to a closer realization of the value of a higher education.

Last year twenty-two schools participated, with several pupils spelling the entire list of words. Those victorious were: Helen Severance, who received the prize of \$5, Edith Chaffee who received \$3, Lucille Knight \$2. The Cass City State and Pinney State Bank trophy cup was won by the Tanner school for having the highest number of points. Hannah Ballard, Grace Wyllie and Luverne Hill were the contestants from the school.

Supts. T. M. Clay of Vassar and B. H. Vanden Belt of Bad Axe will assist in conducting the work, and B. H. McComb, school commissioner, will give an address this afternoon.

The names of the teachers who have entered contestants are as follows:

Edith Garbutt, Raymond McCullough, Myrtle Hegler, May D. Eno, Aletha Seed, Jason Kitchen, Mrs. Delbert Profit, Freda Kelly, Ina Crawford, Ethel Robinson, Mrs. S. Blade, Gladys McComb, Ida Vogel, Mrs. Stanley Soule, Anna McRae, Mary Willerton, Mrs. Stanley Muntz, Reva Milner, Lola Austin, Mrs. Walter Emery, Clara Willerton, Dora Schrader, Mary Taylor, L. E. Allen, C. E. Nichols, Lillie Ferguson, Blanche Quick, Georgia Clarke, Aileen Campbell, P. L. Merrill, Reulah Hutchinson.

It is hoped and expected that other entries will be in before noon today.

## Vocational Bits

Jim Milligan says, "It takes a Scotchman to fatten a steer." He is fitting an Aberdeen Angus for the State Fair.

Maynard McConkey's good club heifer gave 52 pounds milk April 6. How many cows have you that give that much as a two year old?

Cass City boys and girls brought home 40 ribbons from Detroit last fall, including 2 reserve champions and one grand champion.

Claude Mitchell is the proud owner of two fine calves from the D. D. Aitken farm near Flint. They are from high testing dams and will be entered in the 1926 Calf Club.

Watch for the announcement of the pig club drawing to be held some time the last of May. This year, boys and girls will draw for Duroc Jerseys, Berkshires and Chester Whites. Better get one.

Raymond Wallace and his Reserve Junior Champion Duroc.

Raymond Wallace has 19 pigs from his two club gilts of last year. Both these pigs were placed high at the State Fair.

We have added many fine specimens to our Zoology collection this year. About 45 students are taking this work.

Arlan Hartwick gets an eighty-pound can of milk per day from his two fine club heifers. One of them has been fresh five months.

Ralph MacTavish's last year's heifer has just freshened. Watch out, Maynard, Ralph is a good feeder and caretaker.

Clarence Bullock, Angus McLeod, Ralph MacTavish, Claude Mitchell and Bruce Hoadley expect to draw for Berkshires this year. We made them step with our Chesters and we are "after the bacon" again.

Harry Reagh's typical club pig of last year is raising nine fine pigs. He

expects to show them at the Cass City Fair.

J. C. Blades again expects to enter the milking contest at the State Fair. The third time ever fails, J. C. We're for you! He will have Jim MacTavish and Keith McConkey as team mates.

George Gulick showed a profit of \$186.00 on one litter of pigs after the cost of feed and labor had been deducted. These pigs in every case were sold for breeding purposes. Our boys learn by doing.

Loyal Boulton realized \$182.50 on his acre of certified Russet Rurals last year. He expects to plant one acre this year.

Students who take projects not only receive some financial gain but practical training that will better fit them for a life work.

## CASS CITY SCHOOLS FOR YEAR 1926-27

List of Instructors in the High School Faculty for the Coming Year.

Cass City Schools will open Monday, August 30. The course of study not only covers the college and university requirements but provides for extra curricular work which gives each student an opportunity for the development of self expression.

On Saturday, August 28, the superintendent and principal will be at the office in the High School building to help students plan their work for the school year. Prospective students may feel free to ask for information at any time.

With the completion of the new building in the middle of the year a strong commercial course will be added which will include all the necessary requirements for any office work. Bookkeeping, typewriting, shorthand, commercial arithmetic and other necessary subjects will be offered in this course.

The facilities in the new building will offer splendid opportunities for careful and extensive work along the most modern lines.

Freshmen should plan their courses with the aid of some executive officer in the high school. Only four regular subjects may be carried by freshmen.

The high school faculty for the coming year will be as follows: H. W. Holmes, Superintendent. Harry E. Duke, Principal.

Cletus DeYoung, English.

Cletus Parker, Public Speaking and Junior High.

Amy Boone, Mathematics.

Open, Languages.

Willis Campbell, Vocational Agriculture.

Paul Smarks, History and Coaching.

Bertha VanEldik, English.

Helen White, Home Economics.

Alberta Bishop, Music.

The following is the general calendar for the school year 1926-27:

School opens Aug. 30.

Thanksgiving vacation—Wednesday evening, Nov. 24, to Monday morning, Nov. 29.

Christmas vacation—Thursday evening, Dec. 23, to Monday morning, Jan. 3, 1927.

First semester ends, Friday, Jan. 21.

Second semester opens Jan. 24.

Spring vacation—Friday evening, Mar. 25, to Monday morning, Apr. 4.

Baccalaureate—June 12.

Junior-Senior banquet—June 13.

Class Day—June 14.

Commencement—June 15.

School closes June 17.

## Oratorical and Declamatory Contests

This year we have tried to give more time and attention to oratory and declamatory work than ever before. Cass City has always stood high in these lines but the work has usually been done by only the few interested ones. This year declamations were made a part of the regular English work. Every freshman and every sophomore was required to learn a declamation. These were delivered before the class and eliminations were made until there were six freshmen and six sophomores. Each of the classes had contests before the High School and three from each class were chosen to represent the school in the local contest.

The local contest was held in the Assembly Room and the public was invited. The crowd was not as large as we hoped for but the speakers did their best and it was an interesting event throughout. The following took part: Helen Knight, Pauline Sandham, Clara Bailey, Claude Mitchell, Virginia Day, Fern Benkelman.

At this same contest, following the declamations, Doris Durkee, Andrew Schweger, Magdalena Just and Clark Knapp delivered orations. Mrs. G. H. Burke, Rev. Cargo and Mrs. Cargo judged this contest and the following Turn to page 2.

NEW SCHOOL BUILDING TO BE ERECTED AT CASS CITY THIS YEAR

The New Cass City high school building which will be completed about the middle of the coming school year, will be one of the most modern schools in the state.

The building will consist of three stories with a basement excavation for boys' dressing rooms. The building will be approximately 208 feet long and 63 feet wide. The auditorium and gym will be located on the southeast side. This part will be 92 by 71 feet, which includes a stage 35 feet long by 22 feet wide. The girls' locker rooms will be about 13 feet wide by 56 feet long. Above the locker room a balcony with permanent bleachers will run the entire length of the gym and will seat about 240. The playing floor is 57 feet by 70 feet 6 inches; it has temporary bleachers on each side which will leave a fine play-

ing floor 40 by 64 feet. The seating capacity, when a game is in progress, will be approximately 675. The entire seating capacity when used for auditorium purposes will be over 800.

On the first floor is the home economics room, which is designed to meet our needs for some time.

Since the building will face the west, there will be a main entrance in the middle with entrances at the north and south ends. The offices will be located at the left of the main entrance. The library, first grade and kindergarten are also on the first floor. The library is large enough to be used for a study hall.

On the second floor there will be the second, third, fourth, fifth and sixth grade rooms besides the chemistry and physics laboratory and

manual arts room. The third floor will consist of eight recitation rooms, commercial, agriculture and music rooms besides a large study hall.

Lockers will be provided for all students so that wraps, books, etc., may be safely taken care of.

While this building is modest in appearance it is so arranged to meet the needs of any modern school. The heating, lighting and ventilating are important factors in the success of any school, so with this aim in view the board of education has made ample provision for the careful selection of this equipment.

It is hoped that the public will take advantage of the splendid opportunities offered and cooperate in making this school a cheerful industrious home for the boys and girls.

## FACTS ABOUT THE LOCAL SCHOOLS

All Instructors Have Specialized in the Subjects They Are Teaching.

1. Cass City is on the University list.

2. Students are admitted to the Normal Schools, Colleges and Universities without examination.

3. About three-fourths of the teachers in this high school have degrees and the others are normal college graduates. All teachers have specialized in the subjects they are teaching.

4. Over 65% of the members of last year's graduating class are attending some higher institution of learning.

5. This year's graduating class consists of 40 members.

6. The Cass City high school enrolled 208 students at the opening of the school year. This is the largest number in the history of the school.

7. The freshmen class has a total enrollment of 88 members for this year.

8. The non-resident enrollment increased from 80 last year to 129 for this year.

9. The Home Economics work is organized under the Smith-Hughes law. During the 14 weeks that hot lunches were offered over 2,000 students were served.

10. The agricultural department is established under the Smith-Hughes law.

11. Members of the Calf and Pig clubs last year won over 40 ribbons and \$600 in money. These clubs are responsible for the introducing into this community in the past three years of 42 pure-bred cattle and 110 pure-bred hogs.

12. Cass City won the sub-district declamatory contest and was second in the oratorical contest this year.

13. Cass City's new school building will be one of the most modern in the state.

14. The athletic teams last year won the county championship in football, basketball, baseball and track.

15. This year the football and basketball teams have won the county championship. The basketball team also won the district tournament at Bad Axe.

16. All students are given an opportunity for self-expression, not only through the regular school work but through extra-curricular activities.

17. The Board of Education is thoroughly interested in the school and co-operates in every way with both school and community.

## "Nothing But the Truth" Is Senior Play

Do you believe in "white lies"? Do you think it is better to lie than hurt your friend's feelings? Robert Bennett believed he could tell the truth at all times, and gives it a very lively and life-like trial. Then there is Mr. Ralston, a successful business man of Wall Street, who attempts to mix business and chorus girls, much to his discomfort, and everyone else's dismay. The Bishop, "who knows

nothing of business" proves that "ignorance is bliss" as well as profit. He gives Mr. Van Dusen, who feels he is a "keen man when it comes to stocks" a run for first honors in business ability. Dick, the other partner, has just enough brains "to start something he can't finish according to Bob, but we'll leave you to be the judge of that."

Of course as with all plays, there must be "a girl in the case." There are, however, several in this case. Bob's fiancée, the spoiled child of a wealthy man, two chorus girls, dignified Mrs. Ralston, and even prim little Martha, all of whom help to make a well-balanced, worth-while play. Be sure to see it May 7th at the opera house.

The cast is as follows: Gwendolyn Ralston...Thelma Warner Robert Bennett...Carl McConnell Ethel Clark...Irene Kaiser E. M. Ralston...Harold Fiddymont Mrs. E. M. Ralston...Frances McLeod Dick Donnelly...Edwin Fritz Clarence Van Dusen...Arthur Randall Bishop Doran...Harry Wentworth Mabel Jackson...Eva Cole Sable Jackson...Abina Garety Martha...Edith Wood

## BUSY YEAR FOR FOUR H. S. CLASSES

Brief Review of Their Accomplishments and Their Entertainments.

The Freshman Class.

Although freshmen are considered rather insignificant in most respects, we take great pride in our membership record, which so far has surpassed all previous records. We started nearly 90 strong, and hope to keep up the good work through our high school days.

At our first meeting we elected Mr. Smarks as our class sponsor. Then came the election of class officers. The result was as follows: President, Clark Helwig; Vice President, Edward Greenleaf; Secretary-treasurer, Doris Bliss.

The next event of importance was our "wiener roast" which took place in Day's woods at four-thirty in the morning. Our class, however, was too large to conceal the time and place of meeting, and we were caught in the act.

Another disappointment was in store for us when, on Feb. 16, in obedience to the sophomores (the "wise fools"), we garbed ourselves in green. But Fate was against us and we must give them a party.

We, too, have won laurels this year. On Sodbusters' Day one of our sister "freshies," Adah Wright, carried off the prize for being the most cleverly dressed girl. More important than that, Virginia Day, one of our freshman girls, won the Sub-District Declamatory Contest. Virginia delivered her declamation, "Universal Peace," in a very pleasing and commendable manner. Under the training of Miss Reed, Virginia is preparing for the District Contest to be held at Holly some time this month.

The Class of '29, who in a short time will be promoted to the rank of sophomores, are aiming to maintain a wholesome class spirit and achieve high standards in scholarship.

## AIMS OF SEVERAL DEPTS. IN H. S.

A Review of Various Studies Pursued in a Modern High School.

Language Department.

When students first take up the study of a foreign language, they are surprised to find out how much of the language they already know before even taking up the study of its grammatical constructions. In their reading, they have run across many words and phrases which come directly from the Latin. Take, for example, the Latin words—"mare" meaning sea; "arbor" meaning tree; "aqua" meaning water, and so forth. Do they suggest any English words to the student who thinks that the new language is an entirely new subject? We find that one of the direct benefits derived from the study of a foreign language is the better knowledge of English that we have after studying it. In order not to neglect that phase of the work, every week each student hands in a list of English words he has found in his reading that are derived from the Latin. In order to vary the work, and perhaps arouse some added interest, now and then we have staged contests as to vocabulary, spelling, declensions, conjugations, and so forth.

Perhaps a word or two should be said in regard to the French work. In the advanced French class we have read the comedy, "Le Voyage de M. Perrichon," which was very amusing and at the same time educational, as it gave us some new ideas about the French people. At present we are reading George Sand's "La Mare au Diable," which is a pastoral story telling about the peasant class in France.

The first year class is reading "La Toudre Aux Yeux," which is a comedy. We become acquainted with an unsuccessful and, at first, truth-loving doctor, who, later, will allow himself to be convinced by his clever and silver-tongued wife that people like to be humbugged, and that success in life can be attained only by adopting more modern ways. We are then introduced to the couple Patinois, who hope to have their son, Frederic, marry Mademoiselle Molingear. Many families try to outshine each other by throwing dust into each other's eyes. In the end, the uncle, the exponent of common sense, comes to the rescue and saves the day.

Home Economics.

The primary aim of our Home Economics Department is to prepare the girls for better living. We hope

## WHAT THE SCHOOL OFFERS THE STUDENT

What the Community Has a Right to Expect of the Pupil.

Are you one of the student throng who feels that going to school is a boring and uninteresting, thus making that an excuse to waste time spent there or even to drop out entirely? Did you ever stop to consider that in the world of modern successful men and women, this type of student is a negligible quantity? Why? Because we are living in an age today whose work and problems demand educated skill and mental power in the highest sense. There was never a greater demand for high school graduates than at present. Other qualities being equal the boy with the discipline and training of the high school has a tremendous advantage over those without such training. This is an unchangeable law that you can neither escape nor deny.

Does a high school education pay financially? This is an age of competition—a match of skill against skill and the man with education wins.

In an investigation of hundreds of boys, those who had gone through high school were earning, by the time they were twenty-five years old, \$900 more per year than the boy who went to work at fourteen. Figures for girls show the same ratio of earning power. Thus for a solid financial investment, you cannot equal nor excel a high school education.

Some revealing statistics sent out by the publishers of "Who's Who in America," furnish an additional subject for thought.

This book lists 24,278 names (1922-23) of persons who were the "most distinguished of the active, progressive, leaders of the country." Of these 1814 did not tell the publishers about their education. Of the 22,075 remaining, 17,077 not only finished high school, but attended college, while 2,756 more attended high school but not college. In other words, of those who really succeeded, 89.8% had high school training, showing that education is essential to success.

What Our Community Has a Right to Expect of You.

It is because the people of Cass City know and believe that its boys and girls of today must have a better and a more efficient type of education, that they have so generously decided to invest nearly two hundred thousand dollars in you and your future, in the form of a new school building. On your part, they expect you to use its opportunities wisely, earnestly, staying until you graduate, doing your level best at all times.

Isn't this heritage something for which to prove yourself worthy, by a high type of idealism and strong effort?

This is a building-up time in your life. If the foundation bricks—a healthy body, an alert mind, a wholesome spirit—are firm, there need be

## REVIEW OF SEASON'S ATHLETIC EVENTS

Cass City Boys Won High Honors in Basketball and Football.

Football.

This year's football schedule has been about the hardest that Cass City has had in a number of years. It included all of the best teams in the Thumb, besides Saginaw, Arthur Hill, and Bay City Central. Cass City had an uphill fight, with stiff opposition, all the way through, but they were found equal to the task and when the final game with Marlette was over, Cass City was tied with Pigeon for the 'Thumb championship. In the Thumb District, Cass City was undefeated with only one touchdown scored against them.

The schedule and results of games were as follows:

Arthur Hill 19; Cass City 9.  
Uby 0; Cass City 21.  
Bay City Central 39; Cass City 13.  
Sandusky 0; Cass City 9.  
Pigeon 0; Cass City 0.  
Harbor Beach 2; Cass City 19.  
Caro 0; Cass City 12.  
Bad Axe 6; Cass City 6.  
Marlette 0; Cass City 10.

Basket Ball.

This year's basket ball season was as great a success as our foot ball season. The team, as a whole, was fast and aggressive. What they lacked in weight they made up by "fight."

For the third time in succession, Cass City won the annual county basket ball tournament at Caro, and acquired the permanent possession of the cup which is given to the winners. The following week Cass City won the district championship at Bad Axe by defeating Caro and Bad Axe. Cass City was eliminated at the regional tournament where Brown City won the championship.

Our second team also had a good season, winning from Caro, Kingston, and Clifford and losing return engagements to Kingston and Clifford by narrow margins.

Out of the squad of eleven men, six will return next fall with Harry Keenoy as the captain of the next year's team.

The schedule and results of the games are as follows:

Sandusky 5; Cass City 19.  
Unionville 11; Cass City 26.  
Elkton 3; Cass City 7.  
Vassar 14; Cass City 13.  
North Branch 11; Cass City 23.  
Pigeon 12; Cass City 6.  
Fairgrove 10; Cass City 24.  
Bad Axe 18; Cass City 19.  
Elkton 12; Cass City 9.  
Fairgrove 14; Cass City 23.  
Unionville 13; Cass City 19.  
Caro 16; Cass City 17.  
Akron 11; Cass City 21.  
Vassar 19; Cass City 20.  
Caro 8; Cass City 14.  
Caro 13; Cass City 16.  
Bad Axe 18; Cass City 19.  
Brown City 15; Cass City 14.

Baseball.

In the opening game of the season, Cass City defeated Akron 3 to 4. The weather was more suited for football than baseball, but considering the circumstances, the game was fast and interesting. Cass City took the lead Turn to page 3.

## Girl Scouts and the Camp Fire Girls

The Girl Scouts.

Last fall, some of the girls of the eighth grade had a happy thought. They decided that since all girls like to hike and skate and work together, it would be splendid to do this in an organized way. The idea quickly spread and the result was a new society, known as the Girl Scouts. The organization was open to all girls of the eighth grade and they joined one hundred per cent strong. Miss Reed was chosen as sponsor and the work began.

The aim of the society is to promote cooperation and friendship between the girls, through closer association, and to improve health, by giving special personal attention to its laws, as well as by the organized hikes of all the society members. Finally, they seek to be useful, cheerful and trustworthy at all times.

Through the kindness of Mrs. Pinney, the girls secured the use of a room in town, to be used as a permanent meeting place.

"A poor beginning often makes a good ending." The new Scouts proved this beyond a doubt. The day set for the first hike turned out to

FOUR H. S. CLASSES

Concluded from first page.

## Sophomore Activities.

During the first week of school we met and elected the following class officers: President, Clara Bailey; Vice President, Alta Hartwick; Secretary-treasurer, Leila Battel. For sponsor, we selected Miss Boone.

One night in early fall, we held our "wiener roast" in a wood near Cass City. The boys built the fire, and amid much laughter and talk, we gathered around to toast our "weeners" in the blaze. After playing several jolly games, we went home, everyone declaring that he had had a splendid time.

Near Thanksgiving we gave a party at the home of Watson Spaven in honor of Ercel Brown, who was moving away. We spent a delightful evening playing games and doing amusing stunts.

Sod Busters' Day arrived and everyone came costumed to represent the different occupations of the American people, and of course we were there, garbed as fancifully as the others. The high school gave a parade through the town, after which each of the classes gave a short program. A prize of a picture was offered for the best one, and didn't we feel proud when it was awarded to us!

In preparation for Freshman Day, we made a set of rules compelling the freshmen to wear apparel typical of their position as "Freshies." The penalty for disobedience was to provide a banquet for us. If, however, they obeyed all of the rules, we were to give them the banquet. They presented an amusing appearance, adorned with large green hearts and green ties. They were forced to bow to us when they met us in the halls, though some did so with evident reluctance, but on the whole they were pretty good sports. Alas for them, they did not obey all the rules strictly, and so they are to give us the banquet, which we are eagerly awaiting.

Among our representatives in athletics are Charles McKenzie, Raymond Wood and Clara Bailey. We feel justly proud of this representation and trust that through them we may serve our school.

## The Junior Class.

Our class held its first meeting the middle of September and chose as our class sponsor, Miss Lang. The following officers were chosen: President, Harry Severance; Secretary and Treasurer, Ethel Wager.

The first event of the year was, of course, our roast which was held the last Friday night in September. All were present and everyone had a merry time. After our roast was over, we at once began planning schemes to raise money for the Junior-Senior banquet. We planned to give a play and chose, "The Guest Retainer." Miss Reed kindly consented to coach us and gave us much of her time and effort. We first gave our play on February 26 at the Cass City Opera House and then we presented it at Kingston on the 10th of March, under the auspices of the Eastern Star. Both times the play was well attended and proved a success. As the end of the year is not far off, we have started to make plans for the Junior-Senior banquet which will be given some time in June.

## Seniors.

As the school year draws to a close, we 40 Seniors of the Class of '26 will pass, as all senior classes have, through the portals of our C. C. H. S. to return no more. Before thinking of parting, however, we want to make it evident that our class is as alive and enthusiastic, if not more so, than when we entered in the fall of 1922.

Our senior year, as are all senior years, has been the most eventful one of all, and as in past years, the Class of '26 has heartily supported every school and class function. Early in the school term, we held our first class meeting, which was not such a riotous nature as those of our first years. We elected as our officers: President, Thelma Warner.

Vice president, Frances McLeod. Treasurer, Calvin Patterson. (The office is now occupied by Grant Helwig.)

Very soon after this, we held the last and never-to-be-forgotten senior roast. Although the usual rites were solemnized—eating "weenies" and singing songs—we had one excellent time and departed for our respective home well-satisfied with the first class function of the year.

As is usual each year, the different classes of the high school put on chapel programs. We followed the custom by entertaining the high school with what seemed to be a very acceptable program.

One day early in the winter, we, the supposed-to-be dignified seniors, astonished the lower classmen by tripping into the assembly in garb that made us appear even younger than the freshmen themselves and further astonished them by the display of our magnificent banner that hung on the wall at the front of the Assembly. Immediately after the gong had rung, we sang songs and then paraded to our various classes. In this manner we celebrated Senior Day.

The Class of '26 has been outstanding in one branch particularly, athletics. We have played an important part in all athletics throughout our four years in high school, and have been very creditably represented by John Benkelman, Edwin Fritz, Harold Fiddymont, Harlan Bond, Andrew Schwegler, Carl McConnell and Calvin Patterson.

Every member of our class was greatly saddened by the death of Calvin Patterson, who was one of our most active members. All that we can say is that we are glad that such a character as Calvin was one of us. We are planning to leave a memorial for Calvin in the new school.

Two of our members, Abina Garety and Richard Schenck, have proved their ability as students by carrying on the honors of valedictorian and salutatorian.

In the near future, our class is going to present the annual senior play, "Nothing But the Truth" this year, under the direction of Miss Reed. We are looking for aid from all our friends and fellow students in this project. After a party that the whole class is looking forward to, only the usual events of graduation are yet to be experienced.

On the whole, we feel that we have spent a most active and successful year. Much of this success is due to our class sponsor, Mr. Duke, who has heartily cooperated with us in every way.

to have them acquire, before leaving this department, a knowledge of foods. This will consist of being able to serve a properly prepared and balanced meal. We try to acquire efficiency in our work as well as other qualities in household management.

We want to be able to solve our clothing problems, by not only being able to construct them, but to select them. To do this we must acquire an appreciation of good color and design. Care and repair of clothing is also a valuable and practical phase of our course.

Besides dealing with what we eat and wear, our work extends into the home. To live the most harmonious life, we must have harmony in our environment. Here we may again apply our knowledge of color and design in interior decoration. These are some of the major problems that we wish to solve in our department.

We hope to have girls leave our department, being more helpful to herself, her family and her community.

We have work in all grades from the seventh and eighth to the twelfth. The combined seventh and eighth grades completed their clothing work the first semester. Their work consisted of a study of textiles, learning constructive stitches, as well as hems, seams, etc. Their final problem was to construct a garment applying these forms of construction. Since the beginning of the second semester, they have been studying foods. This unit consists of food preparation as well as a food study which gives the girls a knowledge of their own needs. At present in their preparation work, they are making pastry. Their first lesson was making a lemon pie.

The ninth grade class completed their food work at the end of the first semester. For the practical part of their semester examination, the girls, working in groups of fours, planned, prepared and served a dinner. Two of the dinners were served to members of the school board.

Since this class began its clothing work, the girls have completed three garments besides making several samplers and having quite an extensive study of cotton. The final problem of our class is a wash dress, preferably of gingham.

In the eleventh and twelfth grades, we plan to have 10 weeks of clothing work, then 20 weeks of foods, finishing with 10 weeks more of clothing.

Our foods unit in the middle of the year is to take care of the hot lunches, which this class of girls serve during the winter months. These lunches are planned, prepared and served by the girls. We aim to serve a complete meal. Regardless of the number of dishes in the lunch, it was planned to contain all the food requirements for a complete meal.

Besides learning to plan and balance meals, the girls had a great deal of practice in food preparation. The knowledge they acquired of large quantity cookery is very valuable. These hot lunches ended the week before spring vacation. They were served over a period of 14 weeks. During those 14 weeks approximately 2,000 people were served. The receipts during this time amounted to \$308.60. At the close of the season, we had on hand a balance of \$2.88.

During the hot lunch season, the

department was self-supporting, and at the same time the lunches were served at a very low price.

Since spring vacation, the girls of this class have been doing work in dietetics. We expect to do some clinic work in the lower grades starting April 19.

The foods unit for these grades ends May 1. At that time, we take up our household arts unit. This unit for the remainder of the term will consist of house furnishing, interior decorating, laundering, color and design, costume designs, and some advanced clothing construction.

Besides our regular class work in home economics, we have a Home Economics club. At present we have about 25 members. This club consists of girls who are either taking or who have taken it. The aims of the club are:

1. To spread information concerning home economics.

2. To acquire an appreciation for the finer things of life.

Thus we aim to further educate ourselves in our line, as well as to be of a benefit to others.

At each meeting we have one or two numbers which are helpful as well as having value as information on home economics. We also have a social aspect to our organization. We hope to acquire the art of graceful entertaining. Our first attempt in this line will be when we entertain our mothers on May 1.

## The Physical Sciences.

The services of chemistry to industry, to medicine, to home life, to agriculture, and to the welfare of the nation should be understood in an elementary way at least. In our chemistry course in the high school, we strive to impart a scientific vocabulary and to promote acquaintance with the chemical methods and the chemical point of view. To give information of definite service to home and daily life has been the criterion of usefulness, which has served us as a basis for the selection of subject matter. Another aim has been to help students at all times to discover whether they have aptitudes for further work in pure or applied science, and to induce those having such aptitudes to enter the university or technical school to continue their science studies.

Class discussions are held three times a week and four hours per week are devoted to laboratory experimentation and technique.

Some of the experiments that have aroused special interest among the chemistry students are numbered among the following: the preparation of chlorine gas, the making of hydrochloric and nitric acids, laughing gas, glass etching and Fehling's test for sugar, the use of the burette in determining the ratio of acid to base in neutralization, the making of aniline from nitro-benzene, and the testing of milk to detect the presence of formaldehyde.

Experiments yet to be undertaken will consist of the following: the preparation of soap, methods of softening hard waters, analyses of different baking powders, dyeing and the detection of dyes in food, the chemistry of photography, and last, but not least, the identification of unknown substances by qualitative analysis.

Physics and chemistry are really one science. Students having an aptitude for one of these sciences should plan to elect the other.

Class conferences in physics are held three times a week. This group is generally small enough so that the class conferences foster cooperation, investigation, reciprocal interrogation and open or free for all discussions. The scientific method of study and problem solving as opposed to "memoriter" repetition is insisted upon.

Four hours each week are given to laboratory work and let it be said here that the high school physics laboratory is not a place to "verify laws" nor to "simply learn to be accurate observers." With a project as the unit and its solution as the motive for work, the pupil is expected to go to the laboratory to find out by experiment some facts that are essential to the solution of his problem and that cannot be obtained at first hand by other means.

Students of this department have become able to use standard measuring devices as the micrometer, the vernier calipers and the analytical balance.

Interesting experiments have been conducted involving the measuring of irregular volumes, the measuring of altitudes by use of the barometer, the velocity of sound, the determination of pitch of tuning forks, the measurement of focal lengths of concave and convex mirrors and lenses, the determination of boiling point of water and how and why it varies on different days.

The remaining weeks will be devoted to the study of electricity and at least one standard radio set will be studied and an elementary exposition of its operation undertaken.

## Debate.

Interest in debating has been greatly increased in the last few years, not only in this high school but in almost every one in the state. This is probably a result of the formation of the Michigan State Debating League, which many of the high schools of the state have joined. The first four debates are preliminary, and the schools aggregating the largest number of points enter the finals. Two of these four debates are affirmative and two negative. The question for debate is the same for all schools in the league. The question this year

was, "Resolved, that the proposed Child Labor Amendment to the National Constitution be adopted."

Cass City's first debate was with Caro and the second with Akron. We won both of these unanimously. Our next debate was with Bad Axe, in which we were not so successful, losing by a two to one decision. The last debate was with Saginaw High. Professor Beddow of the Central Normal School at Mt. Pleasant, the sole judge, cast his vote in favor of Saginaw.

The members of the team this year were Ethel Wager, Thelma Warner and Richard Schenck.

## Assembly Programs.

Chapel programs are held at frequent intervals in the high school throughout the entire school year. It has been our aim to encourage self expression from the student body so that many programs have been furnished by the students themselves. Last fall the Senior Class presented a varied program of musical numbers, monologues, and a short humorous sketch. Just recently we were favored by a musical recital by the pupils of Mrs. Caroline Fenn-Bigelow, and we are looking forward to another very soon.

Occasionally out-of-town speakers are our guests. This year Mr. Sanford, the noted vocational director, gave us an especially fine talk on "Choosing a Vocation." He worked out a unique scheme for a Career Book with the high school student. The ministers of the town have been very kind in responding when called upon. Rev. Holderby of Chicago was our guest, and he left us a real message.

A very interesting feature of the year's program was the exchange of programs between Bad Axe and Cass City. A considerable amount was learned and gained by the experiment, especially a better understanding of the problem of chapel exercises. Just what things are in store by way of programs for the balance of the year are not yet known, but it is safe to assume that several good ones will be given before graduation next June.

## Music and Art.

"I am music, servant and master am I; servant of those dead, master of those living. Through me, spirits immortal speak the message that makes the world weep, and laugh, and wonder, and worship; for I am the instrument of God."

Music and art are very closely related. Both are a means of expression. One through tone (sound) and the other through tone (color).

The artist and musician may see the same scene and the artist will put his thoughts on canvas while the musician will put his thoughts in musical sounds.

The children in the grades have music or art every day in the week. We are striving to give your children an insight into the finer things in life. Children love to express themselves and music and art create wonderful opportunities for self-expression.

When the child reaches high school, we feel that his approach to the study of music is sufficient to enable him to judge his own ability and tastes for further study.

We have a high school chorus and orchestra and anyone interested is most welcome to join these classes.

On March 25th, the chorus gave the pastoral comedy, "Sylvia."

ORATORICAL AND  
DECLAMATORY CONTESTS

Concluded from first page.

decisions were given. In declamations: Fern Benkelman 2nd, Virginia Day 1st. In orations: Andrew Schwegler 2nd, Clark Knapp 1st.

The winners, Virginia and Clark, now began doing some hard drilling to get ready to represent Cass City High in a creditable manner in the sub-district contest—and they certainly did it.

The sub-district contest was held in the Bad Axe auditorium and nine schools took part. We were mighty proud of the Cass City speakers and justly so. When the judges rendered their decision, we found that Virginia had won first and Clark was first in delivery, but a very close second to Bad Axe in the final rating. This made us rank above all other schools with one first and one second place.

Virginia is now the representative of this sub-district in the district contest, which will be held in Holly on April 23. We feel she will be a credit to both her school and her sub-district.

Oratory and declamatory are hard work. They require much time and effort but they also have their full reward.

This year, besides the personal benefit such as added poise, an increased vocabulary and such other things as come through this work, the two winners of our local contest each received a very fine dictionary from the Detroit News.

Now let's get ready for an even bigger and finer year in this work in 1927.

OFFERS THE STUDENT

no danger of the future structure tottering. May none prove unworthy of our community's trust in them!

## What the School Offers You.

What do you expect to get out of your high school career? You may say, "As good marks as I can and a passing grade at the end of the year." To be sure, you want those but, after all, they are only a measure of your training and not an end in themselves. From the time one is born 'till he dies, he is going to school. In the Great School of Life, we are always learning something, but this natural training is not enough; so we need education in a more specific sense: the elementary school, the high school, the college. What then are the plans of Cass City high school?

First of all, it introduces information which will prepare its students for intelligent citizenship. Second, it is made responsible for training in special lines of work. We have our efficient and practical agricultural department for the training of good farmers, the domestic arts for girls, and a commercial department is planned for the new high school curriculum.

We aim, above all, to aid pupils in discovering themselves, their capacities, interests and distastes.

For the high school in general, the best statement of aims is what is known as the Seven Cardinal Principles of Secondary Education. Briefly stated these are: (1) Health. (2) Command of fundamental processes. (3) Worthy home membership, as contributed by social studies, literature and music. (4) Vocational guidance. (5) Civic responsibility, which includes interest in the welfare of the community to think and act in terms of the group. (6) Worthy use of leisure time. (7) Ethical character, best developed by a high type of "school spirit," a sense of personal responsibilities, and a spirit of service among the pupils.

Whatever course or aims you may choose however, you may be sure of this: Education is the biggest job you have on hand right now. You have chances now that will never come your way again. Don't let any good opportunity slip by you.

## Everyday--

For most of us life is just one continuous battle. We have to fight for what we get—then we have to fight to keep it. And the man with re-inforcements wins out.

One of the best allies you can have is a checking account. Like heavy artillery at the battle front it speaks with authority and adds prestige to your dealings. It shows you where your money goes while you are fighting for it and also while you are fighting to keep it.

The hatching season is here. Your success in bringing those little chicks through the early stages, depends a lot on the feeding. Give them Purina Chick Startena and you will have healthy, vigorous chicks.

And the War Was On "John, dear, I am going to be in an amateur theatrical. What would folks say if I were to wear tights?" "They would probably say that I married you for your money."

This is the time of year when everybody likes to dig in the dirt.

We have had several farmers tell us that they are going to feed Cow Chow to their cows all summer. They will find that it will pay to do this.

"I'm all in," says a local man. We know what it is—spring fever.

Mrs. Thos. Whitfield and John Battle are the latest buyers of Royal Brooders. They each took the one thousand chick size. This makes the second one for Mrs. Whitfield and by the way she is feeding Purina Chick Startena to her little chicks and likes it.

Prospects for baseball this year are unusually bright. With quite a few regulars from last year back again, and with a large group of new candidates to pick from, a team will be developed that should give a good account of itself.

Many of the men who are reporting are the first-year men. Among the most promising are Elmer Flint, Robert Kelley, Charles and John Simkins, Edward Greenleaf, Harry Clark and Andrew Schwegler.

## Girls' Basket Ball.

The girls' team in the early part of the season, was not very successful, but through the persistence of a winning spirit in the long and hard practices, they came out on top in several intensive combats.

The following girls worked hard and practiced faithfully throughout the season:

Forwards: Captain Margaret Kelly, Eva Cole, Stephanie Waytovich. Guards: Erma Flint, Beatrice Goodell, Margaret Landon.

Side Centers: Thelma Warner, Doris Bliss. Jumping Centers: Nelda Hoadley, Abina Garety.

Girl Reserves and  
the A B C Club

With the realization that our high school has no organization that includes all the girls, we are planning the organization of a Girl Reserves for next year in which every girl in the Cass City high school can participate. The object of such an organization, in direct accordance with the Young Women's Christian Association, is to help a girl grow through normal natural activities with those habits, insights and ideals which will make her a responsible, eager woman, capable and ready to develop and share in those group expressions which are making effective the purpose of God in the world.

The purpose of the Girl Reserves of the Blue Triangle is "To strive, to seek, to find, and finding—Give." In their creed we have a larger expression of their purpose:

I would be true, for there are those who trust me;  
I would be pure, for there are those who care;  
I would be strong, for there is much to suffer;  
I would be brave, for there is much to dare;  
I would be friend to all—the foe—the friendless;  
I would be giving and forget the gift;  
I would be humble, for I know my weakness;  
I would look up, and laugh and love and live.

## A. B. C. Club.

A group of clever, enthusiastic ninth-grade girls are organized at the present time as a Literary Club in the making, under the direction of Miss DeYoung. Meetings are held every two weeks with a worth-while and interesting program each time. Their ideals aim, in a broad sense, toward self-improvement and experience in group work. A wholesome social spirit among themselves will tend toward creating right relationships in the larger social contacts later in life.

The girls are at present making careful preparations for a program to be given in the latter part of May, to which everyone will be invited.

## LAMBDA SIGMA.

Last fall, amid all the other stirring activities, the remaining members of the Lambda Sigma chose Miss Reed for their sponsor and were ready for another year of pleasure and profit. The society is a group of junior and senior girls, banded together with both literary and cultural aims in view. They meet once every month at the school house, where they enjoy a literary program, presented by a group of their own members and end with a social good time.

One of the first things done this year was the complete revision of the constitution. Among the important changes was the one which set the membership at twenty girls and provided that new members be taken in so as to maintain a society each year of eight juniors and twelve seniors. The purpose of this is to give the seniors preference and still insure a good nucleus of juniors to carry on the work the following year.

Another important step was taken when the girls considered and accepted the invitation of the local members of the Woman's Study Club to become affiliated with them as a junior organization. Mrs. Young, Mrs. Holcomb and Mrs. Warner, members of the club, were chosen as the senior sponsors.

Various things have broken in on the regular meeting night, but with all, the society has had some very enjoyable times studying chiefly modern books by American, English and French writers. This year is not yet closed and as for next year, we feel sure the present juniors will fill up their rank and "carry on" so that Cass City may always have an organization where upper class girls can gather in a spirit of both helpfulness and happiness.

The officers for this year are as follows: First semester—President, Erma Flint; vice president, Beatrice Goodall; secretary, Nelda Hoadley; and treasurer, Agnes Milligan. Second semester—President, Eva Cole; vice president, Adella Ferguson; secretary, Stella Mark; and treasurer, Catherine Wallace.

## THE GUEST RETAINER.

This year the Junior class did something new in presenting one long play as part of their plan for raising money for the Junior-Senior banquet. "The Guest Retainer," the play chosen, was certainly a great success in all respects. Every single seat in the opera house was filled, making it a financial success. The audience either enjoyed it or were most polite, as their comment was certainly favorable. As for the cast, they worked hard and have gained much valuable experience in drama. We hope for a record-smashing Senior play by them next year. Last, but not least, the cast, with the Cass City orator, Clark Knapp, and the de-clamer, Virginia Day, are to be entertained at A. J. Knapp's by Miss Reed, coach, Miss Lang, Junior sponsor, and Mrs. Knapp, always interested in all school activities.

"The Guest Retainer" is a clever comedy in three acts. The plot concerns two young men who find themselves in possession of a hotel but no guests. Mr. Verne, who is optimistic by nature, has "a large idea" and, despite the creeping hanging of his pessimistic partner, Mr. Tell, he hires a young man whose only duty is to entertain and amuse the ladies at the hotel, who would, under ordinary circumstances, be wall-flowers.

Mr. Richard Archibald Simpson, the young man hired as Guest Retainer is, at first, delighted with his position but he finds, much to his sorrow, that entertaining the ladies, isn't all play. Cassandra McArt, a sentimental story-writer falls in love with him; Ima Brayer, an advocate of woman's rights, uses pretended love for him to try to secure the affections of Mr. Coffin, a retired undertaker, who in turn mistakes her strategy for real affection and so develops a hatred for Richard; and when Helen Lark, his fiancée appears on the scene pandemonium reigns. In the funny situations and clever lines, we would not forget the bell hops and their charge, Oswald, who certainly made a hit with the audience.

For a high school production, the play was very well done and showed evidence of polish as well as hard work. It was so successful in Cass City that the cast repeated it in Kingston the following week. Under stage handicaps and lighting disadvantages much greater than those in Cass City the second performance went as well, if not better, than the first. We feel the Junior play was a credit to our High School abroad, as well as at home. The cast:

Richard Archibald Simpson, "The Guest Retainer," Glen Hartwick.

Helen Lark, his fiancée, Ethel Wagner.

## FACTS ABOUT OUR GRADES.

The grades have written standard tests in spelling and the results in each grade were considerably above the standards given us.

Our school is now listed on the Michigan State University Co-operative Testing Program. Twice a year hereafter our grades will receive standard tests and we will know our rating as compared with other schools on this list.

Fifth and sixth grades use arithmetic drill books in which a graph is kept of each week's review test. These have proven valuable incentives to improvement.

Organization develops team-work,

leadership and initiative. The sixth grade has attempted to develop these objectives through an organized class, with a president and secretary as officers. Less important officers, as monitor, hall guards and room officials are elected by the members every two weeks. The president and secretary hold office for only four weeks. The shortness of office gives each member a chance to do some work, to have some responsibility. Each member has also learned something of parliamentary law. The organization has led to better co-operation. It has developed better leadership.

Several interesting debates have been held in the sixth grade rooms this year. One of these was judged by high school debaters. Later one of them gave the grade a great deal of constructive criticism. Debating is helping our boys and girls to think quickly and also clearly. It is teaching them organization of ideas and conciseness of statement. It is also teaching some of the fundamentals and principles of debating for further debating work in high school.

On Nov. 6-10, the grades had charge of an art exhibit. About 300 pictures were obtained from the Porter Manufacturing company of Chicago. These pictures were arranged on the walls of the Junior high room according to subject. This proved a splendid way of familiarizing the children with the best pictures. The townspeople also were glad of the opportunity of visiting the exhibit. A small admission was charged which brought in \$43.00 and enabled us to secure one very splendid print of a 16x20 picture for each room, the hall and an additional picture presented by the company.

Our attendance is kept up by giving a picture to the room having the highest per cent each month. The room winning the picture the greatest number of times during the year keeps it permanently. The kindergarten and the first four grades compete as one group and the next four as another. The same plan is used for punctuality.

GIRL SCOUTS AND  
CAMP FIRE GIRLS

Concluded from first page.

spirits fall; but, with their aim ever in mind, the Scouts made the best of a bad situation and laid the foundation stones for a good society.

Since that first day, they have enjoyed many good times. At Christmas they had a party and, with the help of their guests, the seventh grade girls, they packed two boxes for needy people here in town and also sent a large box to Detroit. Early this spring they gave a Valentine party and invited their friends. Last week they took their first spring hike, ending with a roast.

After careful investigation, it did not seem advisable to join the national organization until the society had proved its ability by a year of independent work. This nearly completed, they look forward to next year with keen anticipation and a sure-to-be satisfied desire to be real National Girl Scouts, as well as closing this year with a feeling of happiness and satisfaction. The officers are as follows:

President, Phyllis Lenzner.

Vice President, Genevieve Schwadner.

Secretary, Marjorie Sickles.

Treasurer, Helen Milne.

Camp Fire Girls.

The nature of the Camp Fire Girls is given in the seven laws they strive to follow: Seek beauty, give service, pursue knowledge, be trustworthy, hold on to health, glorify work, be happy.

Due to some misunderstanding, the Camp Fire was rather slow in getting started with its work this year. But now that it has again been started we are looking forward to some good hikes. Plans are being made to earn money for the regular Camp Fire camping trip in the spring, when each girl will be given a chance to show her ability to cook, and her true worthiness to be a member of the Camp Fire Girls.

## HAVE YOU URIC ACID TROUBLE?

Many Cass City Folks Are Learning How to Avoid It.

Are you lame and achy; tortured with backache, and rheumatic pains? Feel nervous, depressed, and all-played-out? Then look to your kidneys! When the kidneys weaken uric acid accumulates, poisoning blood and nerves, and many mysterious aches and ills result. Help your kidneys with a stimulant diuretic. Use Doan's Pills! Your friends and neighbors recommend Doan's.

Fred Bardwell, farmer, W. Houghton St., Cass City, says: "Heavy work brought on backache and a depressed feeling in the small of my back. My kidneys acted often and the secretions burned in passage. I felt tired and in a run down condition. However, I found relief in using Doan's Pills. Several boxes fixed me up in fine shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Bardwell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 5.

## DAILEY MDSE. STOCK IS A FIRE LOSS

Blaze Did Considerable Damage to Dailey Block Early Monday Evening.

Fire broke out in the Dailey Cash Bargain Store shortly after the store closed at six o'clock Monday evening. Before the blaze could be subdued, the merchandise stock of dry goods, clothing, shoes and rugs was so badly damaged by fire and water that the stock together with the store fixtures is practically an entire loss. The building, a frame structure with a stucco finish, is badly damaged. Firemen gave the village water system a good test in playing three streams into the building. They had plenty of pressure and are well pleased with the manner in which the water supply was maintained. The blaze was a stubborn one to fight and it took considerable time to subdue the flames.

The cause of the fire is not known. Fire Chief West is of the opinion that an explosion in the stove blew the door open and started the blaze as conditions about the stove would indicate that possibility.  
Mr. and Mrs. W. O. Root occupy living rooms over the store, but they were away from home at the time of the fire. While they will suffer some damages to their household effects, their loss is not heavy owing to the fact that the fire was confined chiefly to the first floor.

B. J. Dailey estimates the loss to merchandise stock, fixtures and building at \$25,000. Insurance, Mr. Dailey says, will amount to approximately \$19,000.

## MEETING OF PRESBYTERY AT ERSKINE CHURCH

The United Presbyterian Presbytery of Detroit met in the Erskine church on Tuesday at 1:30 p. m. The opening sermon was preached by Rev. W. T. Armstrong, the retiring moderator. The Rev. R. W. Mansfield, of the First church, Detroit, was elected moderator for this year. The afternoon was spent in presbyterial business. The reports for the year were made. The presbytery was found to be in a happy and prosperous condition and the outlook for the next year very encouraging.

The evening session was mostly occupied with a conference on Evangelism, the address being given by Rev. R. W. Mansfield of Detroit. This address and the opening sermon were both eloquent appeals for a holier life and more aggressive work on the part of the church with a view of glorifying God in the salvation of souls through Jesus Christ.

The Erskine people furnished the special music. The Erskine ladies furnished bounteous and delicious meals up to the Erskine standard of hospitality.

There was a large attendance of Presbytery including many ladies. The fellowship was very good.

Rev. and Mrs. Pearson of the Grant M. E. circuit were present. Rev. Mr. Pearson is president of the Huron Co. Ministerial Association. One of the most interesting events of the meeting was Mr. Pearson's address of greeting from the ministerial association. His address was most interesting and appropriate.

The meeting of Presbytery was a happy occasion and very much enjoyed by all.

F. T. Kyle, Pastor.

### ENGAGEMENT ANNOUNCED.

Announcement of the engagement of Miss Gwendolyn M. Wilson, daughter of Mrs. Ella D. Wilson of Ann Arbor, formerly of Marlette, to James Kent Brooker, Jr., of Bay City, son of Mr. and Mrs. J. D. Brooker of Cass City, was made at a delightful luncheon given Saturday at noon at her home on Monroe St.

Spring flowers and yellow tapers formed artistic decorations and the announcement was conveyed to the guests from the hearts of yellow roses.

Miss Wilson is a member of Mu Phi Epsilon, honorary musical sorority, and is active here in musical circles. Mr. Brooker was graduated from the law school last June and was a member of Delta Upsilon and Phi Alpha Delta.—Ann Arbor Times.

## Death Calls Young Lady of Argyle

Miss Iris Brooks, 18, daughter of Mr. and Mrs. Robert J. Brooks (and Hamilton) of Argyle died at Pleasant Home hospital, Monday afternoon about six o'clock, after an operation performed earlier in the day. She has been ill for two months, but her condition did not become serious until a few days prior to her death.

Iris Brooks was born June 13, 1907, in Argyle. She attended the school at that place and completed the 10th grade course with her twin sister, Irene. Since then she remained at home with her parents. She was a young lady of beautiful character and will be missed by a large circle of friends.

Funeral services were held on Wednesday afternoon at 1:30 o'clock

at the Argyle M. E. church, Rev. John Willerton, assisted by Rev. W. Firth, officiating. Burial was made in Elkland cemetery.

Besides her parents, she is survived by three sisters, Mrs. Wilma Kraus of Pontiac; Irene, her twin sister, and Edna; and one brother, Lucas, all of Argyle.

The bereaved family has the sympathy of their many friends in their sorrow.

## Bird House Contest Closes on May 1

All houses must be turned in by five o'clock Saturday, May 1st.

The houses will be turned in to the committee Saturday afternoon from one to five o'clock, May 1, in the west side of J. L. Cathcart's store and will be on display in the window from May 1 to May 4. On Tuesday, May 4, the prizes will be awarded.

No boy can enter more than one house in any one division, but he may enter one Martin and one other variety in the class to which he belongs, either of which may be entered in his school collection.

A number of people have expressed their desire to buy houses. If any boys or girls wish to sell their entries they are asked to give the committee the price they wish for them.

Schools which expect to compete for the bird bath to be given the school having the best collection would do well to add to their collection of houses, shelters and feeding platforms also sparrow traps or anything along this line. The more variety the better.

The prizes have been printed in the last two issues of the Chronicle and will not be repeated.

The houses will be judged on the following points:

- I.—Design.
  1. Originality.
  2. General architecture.
  3. Ease in cleaning.
  4. Ventilation.
  5. Durability.
  6. Workmanship.
- II.—Appeal to Species for which Intended.
  1. Size of opening.
  2. Individual or colony.
  3. Manner of mounting.
  4. Alighting place.
  5. Color.
  6. Depth.

## Elmwood Pioneer Answers Call

Thomas Leach, 75, former resident of Elmwood, died at the home of his son, George W. Leach, in Saginaw Sunday, April 18, after an illness of several weeks' duration. His remains were brought to the home of his daughter, Mrs. Roy Allen, where funeral services were held Wednesday afternoon at 2:00 o'clock, and burial was made in Ellington cemetery. Rev. Wm. Schnug of the Presbyterian church, officiated. Tyler Lodge, F. & A. M., attended in a body and Masonic services were conducted at the cemetery. Mr. Leach was Master Worshipful of Tyler lodge for three years, being one of the older members.

Thomas Leach was born in Canada, Sept. 12, 1850, and spent his early days there. He married Miss Serena Wilson and about 42 years ago they moved to Elmwood township, where Mr. Leach conducted a blacksmith shop at the "corners" until recently. Mrs. Leach passed away July 7, 1914. Five children survive him: George W. Leach and Thomas D. Leach of Saginaw; Mrs. Alvin McCrea of Almer township; Mrs. Roy Allen and Mrs. Fred Smith of Cass City; also one sister, living in Canada.

## FRANK MCROY ENTERS FIELD AS CANDIDATE FOR REP.

Yields to Solicitations of Friends and Becomes a Candidate for State Representative at Primaries.

Frank McRoy has decided to allow his name to be presented at the coming Republican Primary election and will make an active campaign for the nomination of State Representative to succeed Phil O'Connell, who will not be a candidate for re-election to this office.

Mr. McRoy has been a life long resident of Marlette and actively interested in the township's welfare; one of the charter members of the Sanilac County Farm Bureau; a graduate of the Marlette high school and a student at the Ferris Institute for two years; taught school in Sanilac county for six years; Supervisor of his township for 10 years; chairman of the Board of Supervisors for 1923; member of the State Equalization board, and has been successful in all of his undertakings.

For the past 25 years he has lived with his wife and son and daughter on his farm north of Marlette. His responsibility and the manner in which he has conducted himself in public affairs in Sanilac county, have pointed him out as being worthy of the honor his friends now wish to confer upon him.—Advertisement.

## UNION OF CHURCHES IS ADVOCATED

Clergyman and Layman Advanced Reasons for Consolidation on Sunday Morning.

Union of churches has been discussed informally in Cass City on several occasions, but not until Sunday, has that unity been publicly advocated in a local church by a clergyman and layman. This occurred at the morning service at the Presbyterian church. Rev. Wm. Schnug, the pastor, in stressing the importance of keeping the prophet alive, basing his remarks from an incident in the life of Elijah, advocated church unity. Arthur A. Jones, who has for several years been an upholder of such action, presented the following arguments from a layman's point of view:

"Unity of churches is God's will, because almost two thousand years ago, Christ was crucified on Good Friday, and arose the third day—a light to the world. Then why look for strange lights, when 'united we stand, divided we fall.' Which will it be, the new testament or assumed legislation? The former teaches Christianity, the latter teaches religion or man-made creeds.

"Why halt between two opinions when Jesus Christ is just ahead, and the Bible makes it so plain; And Jesus knew their thoughts and said unto them, 'Every kingdom divided against itself is brought to desolation, and every city or house divided against itself shall not stand. And if Satan cast out Satan he is divided against himself. How then shall his kingdom stand?' Jesus Christ, the Son of God came to break down the middle wall of partition between the Jews and Gentiles. Has he failed? What could he do without co-operation?"

"In the language of the New Testament, 'Howbeit, in vain do they worship me, teaching for doctrine the Commandments of men?' Would there be any place here on earth for Jesus Christ to meet Jews and Gentiles all together that he might know that he was being recognized here on earth as the Messiah? Would he find human investments with human love and the church reaping dividends in saved souls, or would he find infidelity springing up in every land caused by speculation from the babble of all? Oh! how true and how sad!

"Our public schools unite us, our Sunday schools and churches divide

The remains of the two-year-old daughter of Mr. and Mrs. Wesley Waldon of Pontiac were brought to Cass City Wednesday afternoon and interred in Elkland cemetery. Mr. and Mrs. Waldon were former residents of this vicinity, Mrs. Waldon being a daughter of Mr. and Mrs. Andrew Hempton.

John C. Corkins was called to Detroit again Sunday, owing to the serious condition of his daughter, Miss Helen Corkins, who is suffering from the effects of blood poisoning in her leg. The young lady is now a patient at Ford hospital. A letter from Mr. Corkins Wednesday stated that her condition is not so favorable.

The fourth birthday of Hazel Corkins was celebrated Saturday afternoon when ten other little girls went to her home to play games. An exciting candy hunt was won by Christina Graham, and was followed by several other games. At 4:30 o'clock, supper was served. Hazel received several lovely gifts from her little friends.

Shortly after F. A. Bliss had lighted a fire in the furnace in his residence Sunday evening, his attention was attracted by a peculiar roaring noise. Investigating he found that a blaze had burned a small hole in the mop board in the dining room, probably caused by a spark from a defective chimney. Prompt work by members of the household soon put out the flames.

Mr. and Mrs. Samuel Chmapien and Mr. and Mrs. A. B. Champion expect to attend the Bill Posters' convention in Grand Rapids next Thursday and Friday. Samuel Champion is on the program for an address on the subject of "Good Posting." Mrs. Samuel Champion is state president of the Poster Art Alliance, an organization allied with the Bill Posters' Alliance.

Workmen are placing fireproof shingles on the residence of A. H. Higgins, who has had a roof fire each year for the past three years. The last one was last Sunday morning when quite a large hole was burned in the roof. Each time in the last two years, Mr. Higgins was in the bath tub when the fire was discovered. Of course, this is no insinuation that they are annual baths.

The Gowen Confectionery Store is all dolled up with new inside decorations which were completed Tuesday. The ceilings and sidewalls are done in a white flat and the woodwork in a dark oak finish. The neighboring business house, the Ricker & Krahling market, is now in the hands of Decorator Geo. Scholte. A light cream ceiling and dark buff walls are among the improvements. The woodwork will be done in dark oak.

UNION OF CHURCHES  
IS ADVOCATED

Concluded from page four.

us. The scripture teaches there shall be unity among us. Then ask God through unity of the churches to help us.

"A clear conception of the church of Christ as the apostles left it in the world is necessary to a full understanding of the great Apostasy and the Protestant Reformation. The main source of our knowledge of the primitive church is found in the New Testament. The first mention of it is in Matthew; Peter said to Jesus, 'Thou art the Christ, the Son of the living God.' Jesus said to Peter, 'Blessed art thou Simon Bar-Jonah for flesh and blood hath not revealed it unto thee, But my father who is in Heaven. And I say also unto thee that thou art Peter, and upon this rock I will build my church.' It was yet to be built upon the confession which Peter had just made. Its beginning is to be found between this conversation of Jesus with Peter and the adding of the saved to the church mentioned in Acts 2:47. A careful reading of this entire chapter of Acts will clearly indicate that the church began on the first Pentecost. After the ascension of the Savior, with the day of Pentecost, the career of the church militant fairly begins. The baptismal formula and the institution of the Lord's Supper are creeds. These and the confession of Peter antedate even the birth of the Christian church on Pentecost. The head of the Apostolic church was Christ and he is the head of the body. The church who is the beginning the first born from the dead. That in all things he might have the pre-eminence. And hath put all things under his feet and gave Him to be the head over all things to the church which is his body, the fullness of Him that filleth all in all. Christ was the creed of the ancient church, 'For God so loved the world that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life.'

"The New Testament church was a unit, both Jews and Gentiles were in one fold under one shepherd. Christ broke down the middle wall of partition between them that he might reconcile both to God in one body by the cross. Jesus prayed for the unity of his chosen disciples just before he left them, 'Holy Father, keep them in thine own name those whom thou hast given me that they may be one as we are.' Paul places great emphasis on the necessity of unity and the singleness of divisions.

"Is Christ divided? No, then why look for substitutes. Are we brothers and sisters in John Wesley, John Calvin, John the Baptist, Martin Luther, or Jesus Christ—with one accord Jesus Christ. Jesus Christ, why? Because God the Father has never made any division of God the Son. God the Holy Ghost cries aloud, 'unity' while the whole Godhead spurns legislative mockery heaped upon a redeeming plan of redemption. Legislative bodies and divisions did away with divine healing and proves to be a stumbling block to both young and old converts that stray out of the fold and are lost, because of religious inconsistency, not Christianity.

"Religion is one thing and Christianity is another. Quoting Paul, 'Now I beseech you brethren by the name of our Lord Jesus Christ, that ye all speak the same thing and that there be no divisions among you. But that ye be perfectly joined together in the same mind and in the same judgment, for it has been declared unto me of you my brethren by them who are of the house of Chloe that there are contentions among you. Now this I say, that each one of you saith, 'I am of Paul and I of Apollos and I of Cephas and I of Christ. Is Christ divided? Was Paul crucified for you? Or were you baptized into the name of Paul. I thank God that I baptized none of you but Crispus and Gaius. Lest any should say that I had baptized in mine own name.' 'For I determined not to know anything among you save Jesus Christ, and Him crucified. For ye are yet carnal; for where as there is among you envying and strife and divisions, are ye not carnal and walk as men for while one saith I am of Paul and other I am of Apollos are ye not carnal.'

"According to St. Mark 'Howbeit, in vain do they worship me teaching for doctrines the commandments of men. For laying aside the commandments of God, ye hold the tradition of men,' and he said unto them, 'Full well ye reject the commandments of God that ye may keep your own traditions.' According to Paul, 'Now I beseech you brethren mark them which cause divisions and offenses contrary to the doctrine which ye have learned and avoid them. For they that are such, serve not our Lord Jesus Christ but their own belly and by good words and fair speeches deceive the hearts of the simple.'

"If a united church was necessary under the guidance of inspired men it surely is necessary now. If divisions were sinful in Paul's day, why are they not sinful now? Jesus not only prayed for the disciples then with Him but He looked forward through the entire history of His church and said, 'Neither pray I for these alone but for them also who shall believe on me through the word; That they may all be one, even as Thou Father art in me and I in Thee that they also may be one in us; That the world may believe that Thou hast sent me.' 'As we said before, so say I now again; If any man preach any other gospel unto you than that ye

have received let him be accursed.' "The creed of the ancient church was Christ and should be stated to everyone in scriptural language. When a creed is worded in human language people have a right to doubt the correctness of the statements. But, when the language of the New Testament writers is used no one who believes that those writers were inspired can dissent in the least. The Lord never gave a few uninspired men the right to form a standard of faith for his church and disallowship all who refuse to accept it. If the first creed makers could have fully understood and rightly applied a few very plain scriptural statements they certainly would have been slow to make the attempt. Constantine was ready to embrace human creeds by the power of the Roman empire. We, today, should put forth our best efforts to correct all mistakes and restore the New Testament church.

"Martin Luther prayed, 'Do not call yourselves Lutherans, but Christians. Cease, my dear friends, to cling to creeds, party names and dissensions, away with them all and let us call ourselves only Christians after Him from whom our doctrines comes.' If Martin Luther could speak from Heaven today we believe he would say, to all God's people, 'Profit by my mistakes, give up everything which is unscriptural; unite God's people on the divine plan; preach the Gospel to the whole creation, that the world might be saved and that God may be honored and glorified.'

"Where and when did Christ or His apostles ever authorize men to make a creed for the church? Men simply assumed the authority. The apostles left the church in possession of the New Testament books without anything else to govern them and if uninspired men had kept their hands off, the Great Apostasy which culminated in the Roman church, in the long ago, would have been avoided. If the words of the Holy Spirit had always been used there never would have been a plurality of creeds, as one would have been sufficient, and the many divisions which are now paralyzing the church would have been avoided. The Holy Writ teaches only Christianity. If the conferences had allowed the liberty which is made so prominent in the New Testament the divisions would have been avoided. Christ is the only creed stated in the language of the Holy Scriptures. The Bible is the only book of authority. That division among Christians is a horrid evil, fraught with many evils, is true. It is anti-Christian as it destroys the visible unity of the body of Christ as if he were divided against himself, excluding and excommunicating part of himself. It is anti-scriptural as being strictly prohibited by his Sovereign Authority, a direct violation of his express command. It is anti-natural, as it excites Christians to contempt, to hate and oppose one another, who are bound by the highest and most endearing obligations to love each other as brothers and sisters, even as Christ has loved us. As a word it is productive of confusion and of every evil work. Taking the Holy Scriptures as our only guide we must reject human creeds, human names and legislative bodies. We need Christian co-operation. Unity is the only scriptural solution. The twelve apostles were supreme teachers representing one church, The Church. Should Jesus Christ come back to earth a natural body, whose call would he answer? How could we approach Him with an invitation covered up with a separate distinct creed? Would He call His own from each separate creed, or would He say in the language of St. Mark, 'That such worship was in vain.' How could we run to Him with creed marked upon our foreheads? Then why not take the New Testament as our only guide and book of authority, uniting these people into one glorious gathering and home-coming, into one church that Jesus Christ the Lord may know that we are looking to Him.

"The people of our town united, the vocal and instrumental musicians of our town united, the Sunday school children of our town united, the strangers that come into our town invited and united, the minister of our town encouraged by a full house, the expense of Christianity of our town within reach of a free-will offering. Such a condition would make it possible to say, 'Come right on in, it is free.'

"In conclusion let us not slumber and be indifferent in the face of our duty until the eleventh hour which would make us slackers in God's Kingdom. This means all known churches should be under one head, agitation, then unity, the remedy for creeditis.

# Are Times as Good as They Used to Be? Do Farms Make the Money They Used To?

A statement of The Cass City State Bank for Apr. 12, 1926, has been ordered published. Out of curiosity we looked up our statement for April 12, 1916, (ten years ago) and were greatly surprised at the difference. Our population has increased very little. You don't hear people proclaiming the times overly remunerative, but, when you compare the two statements, you must needs say that the bank has had a remarkable growth and that more people are saving money and saving more of it. It is a fair question to ask yourself if you are one of those people.

Following are the two statements:

Assets	Cass City Bank Apr. 12, 1916.	Cass City State Bank April 12, 1926.
Loans and discounts .....	\$ 86,338.13	\$187,529.14
Real Estate Mortgages .....	21,000.00	145,825.00
United States Bonds .....	None	30,900.00
Other Bonds .....	None	51,620.00
Banking house and fixtures.....	2,000.00	5,300.00
Other real estate .....	None	8,317.00
Overdrafts .....	1,082.32	759.97
Cash and due from banks .....	10,538.54	40,346.76
Customers' bonds .....	None	28,100.00
Total .....	\$120,958.99	\$498,897.87
Liabilities		
Capital .....	\$ 20,000.00	\$ 40,000.00
Surplus and undivided profits.....	994.04	6,751.94
Deposits .....	84,964.95	423,845.93
Bills Payable .....	15,000.00	None
Customers' Bonds .....	None	28,100.00
Total .....	\$120,958.99	\$498,897.87

When you consider:—

- (a) this bank was organized in 1882 and in 34 years had deposits of \$84,000.
- (b) that ten years later, it was five times as large and had deposits of \$423,000.

You will agree:—

- (a) times cannot be so bad;
- (b) our locality must be increasing rapidly in wealth;
- (c) depending on farm products entirely as we do, our farms must be increasing in financial returns;
- (d) farm values ought to be and will be higher.

The above Grade-mark is your guarantee of superior manufacture and rigid grading at the mill. The figure within the diamond is the grade of piece.

## for Sturdier Structures

To provide a safe haven for your loved ones during the stress of wind and storm, as well as in fair weather, build with Native Hemlock for these essential reasons:

- 1—Over-sized studding, rafters and joists—3% to 16% more wood to the piece—greater structural strength.
- 2—Grips nails like a vise—heat or frost can't draw them—holds your building rigid against wind strain.
- 3—Free from dry-rot—assures longer life for your buildings.
- 4—Contains no pitch—Hemlock lath won't stain plaster and is more fire resistant.
- 5—Easy to work—don't gum the carpenter's saw—speeds up construction and lowers building costs.
- 6—Takes all paints and stains perfectly.
- 7—And—it's Grade-marked with Licensed Association Brand and Grade plainly stamped on each piece at the mill insuring responsible manufacture and guaranteed grades.

No other structural wood combines all seven of these important and practical advantages. With good lumber like this plentiful, why use questionable substitutes? Ask your lumberman to show you samples of Grade-marked Northern Hemlock. Or write us for booklet chock-full of helpful suggestions on building.

## Paragraphs Concerning Michigan

(By Ed A. Nowack).

Lansing—An odd desk is to be found at the farm home of Horace Joiner, near Clare. Made of 35,000 pieces of wood, taken from 225 different species, which was picked up in all corners of the world, the desk is held together solidly with wood pins and glue. The desk was made by Grand Rapids furniture factory workers who spent nine years at the task.

Bulletins from T. E. Johnson's office, department of public instruction, say Michigan possesses 3.3 of the nation's population and 3.6 percent of the national wealth, while we paid 7.9 of the national taxes. Michigan is next to New York which leads the nation with 11.7 of the national wealth and 10.2 of the population which pays 28.8 per cent of federal taxes.

Proposed civic construction and improvements in Detroit for the years 1926-7 amount to three hundred millions of dollars. One hundred million will be spent for street widenings, 75 millions for the sewer program and five millions for parks.

From now on in Michigan it will be unlawful for aviators to fly at a less altitude than 1,500 feet above public assemblages. The special session of the legislature passed this law, introduced by Rep. Charles Sink, Ann Arbor.

Highway Commissioner Frank Rogers says that about twenty million motor vehicles now travel over three million miles of laid out public highway in the nation while 48 states, 3,000 counties and thousands of municipalities have more or less authority to pass traffic laws. This makes for a sorry conglomeration of laws, he believes, and is an argument for a uniform code.

George Dillman, deputy highway commissioner, says that Michigan has 3.4 per cent of its road mileage on the approved U. S. interstate system.

Michigan motorists will be glad to learn that the famous old toll road near Sarnia, Ont., has ceased to be such and the travelers using it henceforth will no longer have to pay a toll of 18 cents to travel the 16 miles of that stretch.

If the proposed fox farm merger is completed it will mean that about 200 fox farms, mostly in Michigan, backed with this state's ten million dollar investment in that business, will be the dominant factor in the combination.

Ford Motor Company has authorized the sale of outgrown factories in six larger cities outside of Michigan. These factories have been replaced by larger ones.

Southeastern Michigan has a purchasing power of a little less than three billions of dollars annually. Detroit, alone, including Fordson, Hamtramck and Highland Park, is third in the United States in industrial output with a total value of two and one-half billion dollars. Detroit, without the 600 million dollar industrial output of these three related municipalities, ranks fourth in the nation and will do better in the next federal industrial census.

The value of Michigan's crops produced in 1925 is estimated at \$269,956,000 as compared with the revised estimate of \$258,263,000 for 1924 and \$240,000,000 for 1923.

Michigan now ranks sixteenth in the nation in value of all crops while it is 21st in size with only little more than half its area in farms and but a trifle more than one-third its area of occupied acres improved.

## A Change

Nine weddings out of ten the society editor can guess correctly the selections that will be played and sung, preceding, during and following the ceremony. However, the other day she found a new one. Along with the program of the usual bridal airs of "Oh Promise Me," "At Dawning," "To a Wild Rose," etc., was the number "Adore, and Be Still."

## Belief Carried Too Far

In Florida a man went crazy. Thought he was the devil. Men shouldn't always believe what their wives say about them.—Exchange.

## The Social Whirl

The business man's calendar moves at the pace of cold molasses compared with the debutante's diary.
