## COMMUNITY CLUB

Will Feature Cameron McLean, Baritone.

The last meeting of the Cass City Community Club this spring will be ladies' night at which time the wives and lady friends of the members will at the Presbyterian church next Tuesday evening, May 4, and will be in and prosperous life. the form of an entertainment featuring Cameron McLean, celebrated baritone. The entertainment commences Mrs. Ora Hathaway promptly at eight o'clock. The blue membership card admits the member

Critics pronounce Cameron McLean 'an artist of genuine distinction." He excels in his ability to create the atmosphere of a song, whether it be humor, pathos, exaltation or classic beauty. An audience never finds a Scottish song which is unpleasant to listen to, when it is given expression by such an interpreter as Mr. Mc-Lean, cradled in the faith and genius of a great race. Mr. McLean has the gift of imparting delicate emotional color to every phrase, which only a man of exceptional understanding and sympathy could accomplish. Miss Mabelle Howe Mable is Mr. McLean's

The proposed program to be given by Mr. McLean next Tuesday evening includes the following numbers:

a. Lungi dal caro bene, Secchi. b. Would God I Were Among the Roses, arranged by Wm. Arms Fisher. c. Song of the Flea, Goethe's Faust,

a. Drumadoon, Wilfrid Sanderson. b. Wi' a Hundred Pipers, arranged by Arthur Whiting.

c. Mary, T. Richardson. d. The Leprechaun, arranged by Wm. Arms Fisher.

a. Nocturne, Pearl Curran. b. Lone Dog, Rupert O. Erlebach. c. The Gospel Train, H. T. Burleigh d. On the Road to Mandalay, Oley

Speaks:

Ample preparations are being made for the entertainment of visiting lodges of the district and visiting Mr. and Mrs. Pearl E. Fleming, members from other lodges on Thurs-

fifth. Those deserving honorable men- year. Mr. Fleming will teach physi- Caro in 1902, the following lodges This association was organized at charter members: Caro, Cass coach and Mrs. Fleming will teach City, Marlette, Vassar and Unionville. The lodges now belonging to the association are Reese, Wilmot, Akron, Millington, Cass City, Vassar, Cass River, Caro, Mayville, Fostoria and Marlette.

The principal object of the association was to celebrate yearly at one of the above places the anniversary of the founding of Odd Fellowship in the year of 1819.

## Sudden Death of

The funeral of James C. Colling, prominent for many years in business and political circles in Columbia township, was held at the family residence Sunday afternoon and was largely attended. Services were conducted by Rev. Norman Braby and interment was made in Caro cemetery.

Mr. Colling's death came suddenly and unexpectedly late Thursday afternoon. He was engaged in sowing oats when he became ill. He was helped from the field to the house and died five minutes after reaching

Mr. Colling was born in Hulton county, Ontario, 71 years ago. He came to Michigan in 1875 and homesteaded a tract of land in Columbia township where the village of Colling was later located. He was united in marriage with Alice E. Hollicker in 1880. She and four children survive. They are Jay Colling, sheriff of Tuscola county, J. Roy Colling of Detroit, Edwin C. Colling of Almer township and Mrs. Alison Stone of

After coming to Michigan, Mr. Colling lived on his homestead with the exception of a few years in Caro where he was a member of the firm of Cleaver & Colling, operating a stone-grind mill. Mr. Colling, at the time of his death, was president of the Colling Shipping Association. He served Columbia township for several To Mr., Mrs. and Miss Voter of Tusterms as supervisor and was postmaster at Colling for several years.

lided with an east bound auto. A bro- ed. ken fender was the only serious damage. The accident occurred in front of Young & Maier's meat market.

SLACK-HUBBARD.

Miss Lela Slack of Deford and Mr. Newel Hubbard of Wilmot were quietly married Sunday afternoon at the Methodist parsonage at Cass City by Rev. I. W. Cargo. The bride wore a gown of dark purple canton crepe, Entertainment Next Tuesday trimmed in silver, while the bridesmaid wore a gown of sky-blue flat crepe, trimmed in gold. The young couple was attended by Miss Mary Whalen and Mr. Lyle Biddle. Both were close friends of the bride and

be guests. The function will be held married couple has the many good the Cass City Schools, and appeared old and I will tell you whether she

Another one of this group is averaging 33 pounds of 3.5 milk a day and bids fair to give the other two calves a close chase for top honors.

Mr. Eldon Bruce, cow tester for Tuscola No. 1 has this to say about club work, "I have found that club heifers have left a lasting impression in localities where they have been April 23. placed. In every case, they are among the leaders of the herds they go into." An incident worth relating hap-

pened at the Cass City fair in 1924. The club heifers were about to be judged and a large group of farmers were on hand to witness it. Mr. Pearson, the assistant state club leader, placed the awards and did a splendid job of it. After the judging, someone in the crowd spoke up and said that he thought the judge must have had a beef animal in mind in placing the blue ribbon where he did. The animal in question was a little coarse over the shoulder but otherwise was a splendid type of dairy animal with a straight rump and plenty of middle for a heifer. Since freshening, she has given as high as 41 pounds, of 3.5 milk in a day. From the local fair, she went to Caro and then to Bay City the following week where different judges placed her first and Junior Champion. At Detroit in club work she was grand champion female, and in the open class fourth in com-Jonathan Whale were driving west on can primaries to be held Sept. 14, petition with the leading herds of the Main street Monday their auto col- 1926. The heifer that was too beefy to be a good dairy cow had the kind that would do credit to any herd.

done the unexpected and has made to date about \$100 for her proud owner besides giving a good quantity of milk for a two year old.

As a general rule, pigs are overfed and cattle underfed. Our best gilt at Detroit last fall gained at the rate of 1.32 pounds per day for ninety days while a litter mate starting at the Short Items Clipped from the same weight but fed a heavier ration was not good enough to take farther than the local fair. She was in the last five pigs in a class of twelve and had gained at the rate of 1.7 pounds per day. One of the noted Chester White breeders of the present day what the pig weighs at three months Turn to page 5.

the daily press usually tell you the 28, Juniata, \$1, etc. unusual, not the normal, course of life, as lived by some hundreds of millions of people. When surprised 14 of NW 14, sec. 12, Tuscola, \$1 etc. and puzzled by some inconceivably foolish act or deed of a man or woman, as recorded by the daily chronicle NE ¼ sec. 1, \$4,000.00. of the abnormal, think of the thousands unmentioned in today's idiosyncrasies—they, like you, are decent of NE 1/4 sec. 9, Watertown, \$1, etc. and law-abiding, or mostly so.

Burbank publicly stated, not so many weeks ago, his doubts about certain notions of eternity generally held. It was "first-page stuff" because he was a prominent man and had views which would appear strange and unusual to the newspaper reader. A few days later Edison spoke favorably for prohibition and although he is a distinguished American, well-known, the keen newspaper men handling "copy" didn't feature the item-apparently, it was the accepted viewpoint, and not unusual!

Unexpected events take an unduly prominent place. A recent prohibition story illustrates the press tendency the need for discrimination. When Dr. Empringham, secretary of an Episcopal temperance society, announced that his membership wanted a modification of the Volstead Act to permit wines and beer, the papers greeted it with big type. A temperance official aiding and abetting the wets-was new, unusual, and interesting! But, when 18 of 23 bishops of the Episcopal Church affirmed their faith in the present and future success of prohibition, little prominence was given-it was the attitude ordinary humans who read papers would expect from ecclesiastics!

Simpletons read and never think. They are heedless in their conclusions They are heedless in their conclusions based on superficialities and misconceptions created by the prominence of printed and circulated in said county. abnormality. Are newspapers to be censured? Maybe so, to a degree, but popular editors seek to interest many readers. To attract the multitudes sought for the sake of the weight of numbers with advertisers the journalist is always on the quest of the unusual, notwithstanding the myriad which will appeal to the inquisitiveness, the fascination and the diversion of his subscribers.

in the daily news. Read with discrimination when you are moulding opinions from what you are cramming in your mind each day. The man who talks without thinking is bombastic and ridiculous, but the man who reads without thinking will soon be a fool and a booby.

#### NOTES AND COMMENTS.

What has become of the mills that used to make cotton hose for women? This is the time of the year for the good ladies to begin wearing their furs.

Some waiters are so slow that if they had to bring in their own grub they would starve to death.

Minnesota, we understand, makes Minnesota, we understand, makes her criminals work for the support of their families. This is a good idea, GUY G. HILL, and might be copied all over the country.

Judging from the arguments now being advanced, to wit, that light wines and beer would better the moral tone of the country, it would seem to be advisable to close up the Sunday schools and turn them into breweries.

# Highest in Quality Lowest in Price

Fordcars are built throughout of the from mining of ore to final asfinest materials that can be produced. The very best-steels available are used in Ford manufacture. The plate glass for windshields and windows is as perfect as can be made. Upholstery material contains a larger percentage of wool than is ordinarily specified—evenformuch higher priced cars. The basic features of Ford design have never been improved upon by any manufacturer.

No other car offers greater dependability. The Ford car has won the favor of millions of users under every conceivable motoring condition. Its convenience is known and appreciated the world over; its performance is taken for

Such quality is possible at Ford prices because every operation, at Ford prices.

sembly, is under direct control of the Ford Motor Company. Iron is taken from Ford mines in

Michigan; coal from the Company's mines in Kentucky and West Virginia. Glass comes from Ford glass plants; wood from the Ford timber tracts in the North. Raw materials and finished products are carried over the Company's own transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills-all are part of this complete organization. There are even salvage plants, paper mill, cement plant; etc., to transform waste materials into useful by-products.

In this way every possible economy is effected. Under no other circumstances could Ford quality be had

#### What Co-operation Is Accomplishing

THE American shipping public since the war period has come to I realize a certain responsibility devolving upon it beyond the mere payment of the authorized charges for the transportation service performed.

There is, for instance, the requirement of the prompt loading and unloading of the railroad equipment on the part of consignors and consignees, respectively.

There is the obligation on the shipper of early advice of car requirements to enable the railroads to "mobilize" equipment.

THESE two requirements enter largely and eventually into the cost . of steam railroad transportation and they are dependent upon the good-will directly manifested by the shippers and altogether beyond the control of the railroads.

Recognition of these factors has brought about the organization of the Shippers Regional Advisory Boards and enables the country to get more service from the equipment of the American railroads.

HIS is entirely voluntary service on the part of the shippers and is 1 a unique page in the history of business. It has also been a profitable expedient, a lesson in co-operation gained from the world war, a phase in the onward march of the times, which Judge E. H. Gary, of the United States Steel Corporation, recently described as the application of the Golden Rule in business, a condition that was inconceivable twenty-five years ago.

It is a manifestation of a quiet but certain revolution in American business thought which is gradually progressing towards the finest ideals, and incidentally tending to the greater well-being of our people and making for greater material returns.

THE Michigan Railroad Association is keeping step with the shippers A and heartily seconding those ideals of an enlightened business opinion and appreciates that this policy is as important to the stabilizing of business as are the operations of the Federal Reserve Bank System in its particular branch of public economy. In fact, it is the identical application of that principle to transportation. Michigan industry has much to gain through the policy of the Shippers' Regional Advisory Boards.

DOLLING UP THE HUMBLE POTATO

Four Unusual Recipes by Four Famous Cooks

Don't think that after you've served potatoes mashed, creamed, and fried you've put them through all their paces. You don't have to begin repeating the old

MRS. BELLE

table!

the humble spud, as several famous cooks have discovered. They actually glorify this homely American vege-

story. There

are many de-

lightful ways

of preparing

Tamalpais Potatoes Tamalpais Potatoes. Doesn't the very name make your mouth water? This delicious dish, prepared from left-over potatoes, is a favorite with Mrs. Belle De Graf, San Francisco writer.

Chop fine 3 cups cold boiled potatoes. Add 1/4 cup of cream, and salt and pepper to taste. Pack very solidly in buttered custard cups, or mussin pans. Set in a pan in a very hot oven. Bake 30 minutes, or until golden brown crust has formed which will hold the notatoes tomolds.

Baked Potato "Tips"

Mrs. Sarah T. Rorer, Philadelphia cooking expert, adds two or three artful touches to baked potatoes which make them taste unusually good.

"After scrubbing large, perfect po tatoes, I soak them an hour in cold water," she says.

"I bake them on the upper grate of a medium oven, and turn them after 20 minutes. I let them bake another half hour, or until they feel soft when pressed in a napkin. "Never try them with a fork, for this allows the steam to escape and

kin at once. "The secret of good baked potatoes is a slow oven; for a hot oven hardens the skin at once and makes

makes them heavy. Serve in a nap-

Stuffed and Browned

Miss Margaret Allen Hall, nutrition expert at the Battle Creek College of Home Economics, has a decided preference for stuffed potatoes. She fixes them like this:

6 medium-sized potatoes ½ cup milk or cream 3 tablespoonfuls butter

1 teaspoon salt Select well-shaped potatoes about equal size. Bake until soft, then cut break each potato at about the middle. Remove the contents, mash add salt, butter, and sufficient cream or milk to cause the potato to beat up light. When very light, fill skins with the seasoned potato, piling it up in irregular shapes. Set the stuffed potatoes in oven a few min-

a la Pittsburgh

Mrs. Kate Brew Vaughn, home conomics director, of Los Angeles, teaches cooking to 100,000 women every year. Her Pittsburgh Potatoes are rich enough to serve as the only cooked luncheon dish, she says. If served with a good saled they provide a delicious meal. Here is her recipe:

1 lb. potatoes

1 cup grated cheese 1 diced pimento ½ cup bread crumbs

4 tablespoons butter 2 tablespoons flour 1 cup milk

Salt and pepper
Dice potatoes and boil until soft. Put a layer of potatoes in baking dish. Sprinkle with grated cheese, salt, pepper, butter and chopped pimentos. Add another layer of potatoes and repeat with cheese and nimento. Pour over this one cup white sauce. Cover with buttered bread crumbs. Bake in ...en until well browned on top.

Prepare the white sauce by melting two tablespoonfuls butter, and stirring in flour until smooth (2 tablespoonfuls), then add one cupful milk and salt and pepper.

There you are! Four tempting potato recipes, all easy to prepare, favorites of four famous cooking specialists. Try them on your family. They will welcome these unique variations of the potato theme.

(Watch next week for another interesting cooking article.)

For Oil Stove Users Women who cook with oil will appreciate one of the newer oil stove models with a reversible, easily filled glass reservoir. The hands do not come in contact with the kerosene at all.

Whitens Hands Before using rubber gloves sprinkle baking soda inside. You'll find them easy to remove, and your hands will be whitened.

When to Use Salt

When to Use Salt

Underground vegetables, the roots or stems of plants, should be cooked in boiling unsalted water. They contain a certain amount of weedy fiber which is hardened by salt. Salt them when ready to serve.

"Top ground" vegetables, such as peas, beans, cabbage, and onions, are much better cooked in boiling, salted water. Cooked this way they retain their color, and their flavor is intensified.

(Delayed letter).

severe attack of pneumonia.

The W. H. M. S., Home Guards Frank Reader has so far recovered and Mothers' Jewels met at the from his recent illness as to help church Saturday afternoon for a mite box opening.

Sanford Powell is suffering from a broken collarbone caused by a fall. The friends of Archie McAlpine, the week in Saginaw. Merrill Martin of Detroit visited Jr., are real pleased to hear he is on

the road to recovery again, after a over the week-end with his parents. Mr. and Mrs. H. F. Martin. Herbert Dulmage lost a valuable cow last week.

Greenland in Europe America is usually, but not properly understood to include Greenland. Al-Mrs. W. J. Moore spent the first of though located close to the North American continent; Greenland is physically a part of Europe.

Second Anthony Wayne

Nickname "Mad Anthony Wayne of the Confederacy" was given to John S. Mosby (1833-1916), a so lier in the Confederate service, noted for his remarkable career as a leader of an irregular force of cavalry.

Yes, Yes Some people are like blotters-they get everything backwards.

cooking experts agree

Pacific Coast, Gulf of Mexico, New England. and Lake Michigan! Six of the country's foremost cooking experts have just completed a rigorous test of the Perfection Stove.

HEY used every method of cooking from I frying to baking, and were enthusiastic about the Perfection. Read what they say.

"Whether I broiled steak or French-fried potatoes, the results were fine," says Mrs. Rorer, famous Philadelphia cooking teacher.

#### Crisp Waffles

"My waffles were light and beautifully brown," says Miss Allen, director of The Boston School of Cookery. "They cooked on a hot flame, with yellow tips 1½ inches high above the blue area."

"I found the Perfection so dependable," reports Mrs. DeGraf, home economics counsellor. "I left a roast lamb in the oven

#### No Scouring Needed

"Eggs a la King and broiled tomatoes are delicious enough in themselves," affirms Miss Hall, nutrition expert, "but twice as delicious to the cook whose kettle bottoms need no scouring. Perfection's long chimneys burn every drop of oil before the heat reaches the cooking. No soot or odor."

"Using a Perfection is like cooking with gas," remarks Mrs. Vaughn, domestic science expert. And Miss Rosa Michaelis is of the same opinion.

#### Tested Cooking Ability

These are just a few comments made by the six experts, satisfied with only the best cooking equipment. They find the 1926 Perfection fulfills every cooking requirement.

What does it mean to you?-That when you buy a Perfection you get a stove with cooking ability tested and proved by experts.

#### See Perfections Today

### The QUEEN Instant Starter

LIGHTS WITH A MATCH

The Greatest Advancement Ever Made in a Liquid Fuel Stove

The alcohol lamp and all other preheating devices have become obsolete with the development of the Queen Instant Starter. It lights with a match—and burners are going full blast in 30 seconds. Women everywhere are enthusiastic about the advantages the convenience—the saving of time brought about by this wonderful improvement.

#### HOTTER THAN ANY LIQUID FUEL STOVE

Vapor Gas as produced for Queen Stoves—burns with a clean, hot, blue flame. The stove operates perfectly under any and all conditions. Does not smoke and leveling is unnecessary. The Queen stove operates without continuous regulation—the flame does not creep up and need not be watched—but burns evenly and is turned up or down exactly like city gas. Nothing compares to the Queen blue vapor gas flame for cooking easily, quickly and economically.

Come in and let us demonstrate to you and prove what we say. At your service.

## Fashion Experts Planned These

#### New Coats Especially for the Larger Woman

New Coats specially for the larger figures.

#### Sizes 42 1/2 to 50 1/2

We wish to inform all our cutomers who wear the extreme large sizes, that we now have a very nice selection of coats, sized from 421/2 to 501/2 in shades of blue, tan, taupe, and rust, at popular prices.

Also new Chappie Coats for the little miss, sizes from 16 to 42. Priced from

\$9.75 to \$72.50

#### New Line up of Ladies'

Sweaters

The time is at hand when the overcoat will be too warm. yet you cannot do without unless you have one of these new sweaters.

These are very attractive and useful sweaters priced from \$3.75 to \$8.50.

#### New Silk and Cotton Underwear

A very large assortment of bloomers, slips, vests and stepins to select from.

#### Silk Hosiery Special

While they (sixteen dozen) last, we are going to close out the following numbers at 79c. These hose are our regular \$1.00, \$1.25 and \$1.50 silk hose.

The reason for this tremendous reduction is that these numbers are broken up in sizes and of which we will not re-order. Therefore it is to the advantage of every silk hosiery wearer to be on the job Friday morning, for at this tremendous saving they will go fast, and remember there are even less than 200 pairs of the values left, so be on deck early.

Colors Biege, Medium Gray, Polo, Black, Brown, Sandalwood and Suede. Price

only 79c

#### House Cleaning Time at Hand

Special Curtain Week for your new decorations.

We have yards and yards of curtain material priced from 18c to \$2.25 per yard for you to select from.

Ready-made curtains priced

#### \$1.25 per pair to \$8.00

Watch for our this week's window display of curtain materi-

als and ready-made curtains. Let us show you the new creations before you buy.

Charles H. White, head of the music department of the Bay City public schools, has promised good vocal and instrumental music and the Bay City Central high school band will also play several selections. The main address will be given by Mr. Abbott, and other distinguished guests will speak. The entire program will be broadcast by radio from WSKC, Bay

The ninety-sixth reunion of the Scottish Rite bodies will commence morning and continue Tuesday Wednesday and Thursday. through Inasmuch as this reunion will embrace the first class initiated in the new cathedral, a program has been arranged which will distinguish the event, the Saginaw, Flint and Midland consistory clubs all conferring some of the degrees. This is the first time that these three degree teams have all appeared on one program. The class is expected to be the largest on which the degrees have ever been exemplified.

During the reunion lunch and dinner will be served each day with the reunion banquet at 6 o'clock Thursday evening in the new dining room. Many Masons in northeastern

Michigan have been elected to take degree work in previous years but have never been given the work, and all of these are being asked to report on May 3 so they may go through with the first class in the new

The new building was erected at a cost of more than \$500,000 and will be the only cathedral in the state used exclusively for Scottish Rite

VALUE OF CLUB WORK TO COMMUNITY

Concluded from first page. has a chance in the show ring,

Judges last fall were very partial to gilts that were in just good growing condition. There is less danger of the hog going off its feet and a much better chance to develop a good frame-work in gilts of this type.

Must Feed Variety. I have found it hard to convince the boys and girls starting out in club work with a calf, that they must feed a variety of feeds. After they have been in competition with animals that have had the feeds necessary to get a maximum growth, little trouble from this source is noticeable. And right here is one of the big benefits of the club work project. Club members know what the prize winning calf was fed on and how it was handled. They know what constitutes good conformation and where their calf is lacking. This was very evident at our drawing for calves last spring when most of the second year boys picked a straight thin heifer as their choice of the ten heifers that were distributed. The average boy or girl would have easily

was anything but attractive in her thin condition. We find that best results come from getting yearling heifers rather than something smaller. At about this age the animal is taking on the form that we expect to find in the mature animal. Then too, the feeding of an older animal is not as difficult

placed her last in the class for she

#### as with a younger calf.

Exhibition Period. The exhibiting period is of course an exciting time. Previous to this event at intervals during the summer the club members have met to discuss such matters as feeding, care and showing of animals. The club leader can direct feeding when visiting the different projects, but the training the animal gets is left to the boy and girl. It is a very important consideration if the animal is to go to some of the larger fairs. I usually tell my club members that there are just three individuals in the ringthe judge, the animal he is showing and himself. Never is he allowed to talk to any one and his personal appearance should be for the occasion. An incident that happened at the 1925 State Fair illustrates the value of showmanship. One of my boys, Raymond Wallace, was showing a Duroc gilt that previous to this time had not been defeated in three shows. She carried a fine back, had plenty of length and good feet but showed some weakness over the shoulder, especially while standing. The pig club pigs were placed with Raymond's gilt placing fifth in a class of sixteen gilts. The pigs that placed ahead of her displayed splendid type and I think were litter mates. The next day the open class Durocs were to be judged and Raymond insisted on showing his pig. She was well trained and his plan was to keep her moving while in the ring and if possible cover up some of her prominent shoulder. He was successful for he left the ring with the blue ribbon safely clutched in one hand and his lead stick in the

## Your Car Deserves a Good — Home ——

A man as wise as farmers are, is pretty sure to own a car. And since the wagon used to stand out in the barn right close to hand, some think the barn's just right, of course, to house a high-priced metal horse. But cars are run with gas, you know, and some of that is bound to flow out on the floor right in the hay—to start a costly blaze some day! And so you'll find the modern farm discounts the risk, avoids the harm, and builds a good garage away from things that burn like oats and hay.

## Condensed Statement of

# Cass City State Bank

#### At Close of Business April 12, 1926

	•
RESOURCES.	
Loans and Discounts \$187,529.14	Capital
Real Estate Mortgages 145,825.00	Surplus
U. S. Bonds 30,900.00	Undivide
Other Bonds 51,620.00	Commerc
Banking house, furniture and	Savings
fixtures 5,300.00	G
Other Real Estate 8,317.00	Total De
Overdrafts	Customer
Cash and Due from Banks . 40,346.76	
Customers' Bonds 28,100.00	
498.697.87	

There are certain interesting facts about the above statement that we want the public to know.

The Cass City State Bank is highly capital-

1. The general banking law of Michigan (Act 205, P. A. 1887) states "that banks with a capital of not less than twenty thousand dollars may be organized in a city or village, the population of which does not exceed fifteen hundred inhabitants, and with a capital of not less than twenty-five thousand dollars in a city or village, the population of which does not exceed six thousand inhabitants."

2. The capital of this bank is \$40,000.00 double the amount required by law.

3. The capital of the bank is \$40,000.00 the deposits are \$423,000. The capital is almost ten per cent of the deposits. There are few banks in Michigan which have a capital equal to as large a percentage of the deposits.

4. The stock holders of a State Bank have a • double liability:

(a) The Michigan Banking Law states that "the stockholders of every bank shall be individually liable, for the benefit of the depositors in said bank to the amount of their stock at the par value thereof, in addition to the stock." This means that if you held one thousand dollars worth of stock, you would be liable to the depositors case of bank losses for another

thousand dollars. (b) Hence the actual capital back of the deposits of this bank are: Capital paid in ..... Additional liability of stock-Surplus ...... 4,500

The active officers and directors of The Cass City State Bank own 363 out of 400 shares of stock-over nine-tenths. Every loan made by the bank is passed upon by these men. Hence each loan is seriously considered. If the loan should prove bad, these men realize they must take ninetenths of the loss. This greatly encourages con-

The Directors of The Cass City State Bank are G. A. Tindale, A. J. Knapp, B. F. Benkelman, J. A. Sandham and M. B. Auten. All of these men have been moderately successful; none has obtained nor aspired great wealth. None has been a speculator. Speculation is kept entirely out of the assets of the bank.

IV.

The loans of the Cass City State Bank are well diversified:

1. Loans and discounts \$187,529.14. These represent (a) sale notes, (b) money loaned to merchants to finance their business, (c) automobile paper, mainly with monthly payments, (d) notes given for farm machinery (e) and short time paper purchased for temporary investments. Practically all the notes mature during the next

2. Real Estate Mortgage, \$145,825. These are mainly loans on farm property all of which property has been appraised by the Directors and with the exception of \$8,900.00 none of the mortgages exceed fifty per cent of the appraised value of the property mortgaged.

3. U. S. Bonds, \$30,900. All of these are Fourth Liberty Loan Bonds and should occasion require can be sold on a day's notice. If sold at the present market, these bonds would show the bank a profit of \$965.62.

LIABILITIES. . . . \$40,000.00

ndivided profits and reserves ommercial deposits 166,025.18 wings deposits . 257,820.75 ustomers' Bonds .

H

H

4. Other Bonds \$51,620. These are bonds carefully selected with not over \$3000. of any one kind and are mainly bonds which could be sold at any time should the bank need the money for local financing or to cover withdrawal of deposits. The bank carries a reserve of \$2500. in commercial deposits to cover any loss which might occur

5. Other Real Estate, \$8,317. This figure is the appraised value of the land; we hold however, as a cash reserve certificates of deposit amounting to \$3,800. to cover any loss taken in the sale of the property. Hence our actual investment is \$4,517.

in these bonds.

A small amount is invested in bank building, furniture, and fixtures, \$5,300. It is nice to have a fine bank building, but it is also nice to have very little capital tied up in that manner. Very few banks have building and equipment in their statements at so low an amount.

Examinations of the bank are made twice a year by two of the stock-holders and at various times by the State Banking Examiners. We have no idea of the day or hour that the State Examiners will appear. They count all the money, investigate all loans of any size; demand financial statements of such borrowers; require past due notes, doubtful notes, and overdrafts to be charged to loss; appraise the bonds; go through the mortgages, paying attention to appraisals, abstracts, insurance policies and past due interest; in fact, they check every item in the bank with a view of finding discrepancies and fraud. They are a wonderful safeguard to depositors; they protect a weak bank against itself, and give valuable information on methods of investing, and protecting such investments.

VII.

The bank is fully covered with insurance.

1. Fire and wind-storm insurance.

2. Insurance covering burglary and holdups. If held up, the money and securities are fully covered. If burglarized at night, they likewise are covered. While the bank is equipped with burglar-alarms which work automatically after hours and by buttons, placed at different points in the bank, during the day, yet we rely mainly on insurance for actual protection.

3. The President, Cashier, Ass't Cashier and Bookkeeper are covered by Surety Bonds. Should money or securities be taken or fraud committed by any of the aforementioned officers of the bank, insurance companies would have to make up the loss.

The overhead of The Cass City State Bank is cut to a minimum. The total salaries of the bank including officers and directors amounts to \$4,385. a year. This amount in many banks is equaled or exceeded by the salary of the President or Cashier alone.

#### Summary.

1. We do not claim to be the best bank. Merely the foregoing facts make us a good bank.

There are still people today who are afraid to deposit money in banks. We give you these facts in order that you may know that, if you deposit money with us, you will be able to receive it when you call for it.

3. There are people in this community who believe they must go elsewhere to find a strong bank. With the foregoing conditions and facts existing and before you, you will have difficulty to find banks in other, towns or cities where you can deposit with any greater peace and composure than right here at home.

MEREDITH B. AUTEN.

## Romance and Adventure—Just Around the Corner!

Within easy motoring distance of your own home, spots of wonder are waiting for you! The spectacular—the beautiful—the wonderful—not many miles from your own door! With fun, freedom and adventure in finding them.

Fill your tank with Red Crown Gasoline—get a good road map—leave your troubles behind—and thrill to the excitement of flying landscape and surprises at every turn. This short list is just a suggestion of the infinite variety that awaits you. 1—The Black Hills of South Dakota, in reality mountains over 7,000 feet above sea level,

the color of midnight blue because of their forest of blue spruce and Norway pine. State Highway No. 85. 2-Big Spring State Park, Missouri. An average of 223,000,000 gallons of water per day gush out of a rocky cliff and rush into Current River, one of the swiftest and most

beautiful of Ozark streams. Near Van Buren on State Highway No. 16. 3—Fort Lincoln Park near Mandan, North Dakota, on a high bluff overlooking the Missouri Valley. Old officers' quarters of Fort Abraham Lincoln and the site of an old Mandan Village. State Highway No. 6.

4—"The Giant Sycamore" largest broadleaved tree in the United States, over 42 feet in circumference at five feet above the ground. Three miles from Worthington, Greene County, Indiana. State Highway No. 12. 5-The vast prairie of Kansas, the "core of the continent." Union Pacific Highway No. 10

and Victory Highway No. 15 along the Kansas River. 6-Morehead Caves in limestone rocks that are hung with beautiful plants and rare ferns. Near Maquoketa, Iowa. State Highways

7—The famous Gull Lake, Michigan, beautifully wooded and silver-beached. State Highway No. 17 between Battle Creek and

8-The Swiss Settlement at New Glarus, Wis-

consin, an odd little town transplanted from

the Old World with Swiss people, architecture, language and customs. Not far from Madison, on State Highway No. 31. 9—The "North Shore Road" in Minnesota, one of the famous scenic highways of the country along the wild and rugged coast of Lake Superior from Duluth to the Canadian

boundary. State Highway No. 1. 10-The Cahokia Indian Mound covering 14 acres in Illinois, the largest edifice ever built by human hands. Just out of East St. Louis on State Highway No. 3.

Smooth, wonderful highways throughout the Middle West make motoring a joy. And at convenient intervals all along these highways the Standard Oil Company (Indiana) has established service stations for your convenience.

The progressive policy of better highways and the hearty co-operation of the Standard Oil Company (Indiana) have thus opened the road to happiness to all the thirty million people of the Middle West.

## Community Smile

It's so easy to acquire---especially here in Cass City--the place of Prosperity and Progressiveness, of Community Spirit,
Neighborliness and general Good Fellowship.

Medical science teaches us that it takes just one-fifth the muscular energy of a frown to produce a Smile. And how much more attractive we are, when our countenances are wreathed in a Smile. It makes life and all the world look brighter.

You can't help but like to do business with people who always Smilingly greet you. Why not show the world that you too, are happy to be living in this enterprising Community?
