## The Threshermen

of the Nichols & Shepard Thresher

and — The Tilting Feeder, Alemite-Zerk Lubricated Roller Bearings

Built into every Nichols & Shepard Thresher are the famous 4 Threshermen. They are the Big Cylinder, the "Man Behind the Gun," the Steel Winged Beater, and the Beating Shakers that send all the grain to the wagon box, none to the straw pile. The tilting feeder makes the cylinder easy to reach. Hyatt Roller Bearings and Alemite-Zerk Lubrication are standard equipment in every Nichols & Shepard Thresher. They substantially reduce the power needed to thresh. A Fordson threshes successfully with the 22 x 36.

Whatever you need in a threshing outfit, there is a Nichols & Shepard rig to fill the bill at a reasonable price. Five sizes of threshers. Also Oil-Gas Tractors and Nichols & Shepard Steam Engines. See us for complete information.

Obituary.

Mary C. Thornycroft was born in London, England, July 10, 1844. With her parents, she came to Ontario, Canada, and resided near Norwich, Oxford County, until her marriage to Theron Spencer at Woodstock, by Rev. Wm. Haviland, on Oct. 5, 1862. They came to Michigan and resided at North Branch, Mich., until 1867, when they removed to Tuscola County near Deford. Since that time they resided near here. To their union were born nine children, four sons and five daughters. Mr. Spencer and four children preceded the wife and mother in death. Those surviving include five children, George, Ransom and Mrs. N. R. Kennedy, who live at or near Deford, Mrs. (Dr.) McLain of Hot Springs, Ark., Dudley of Watsonville, Calif., 11 grandchildren and 12 great grandchildren survive.

Mrs. Spencer was spared to a good

old age and had many friends. Her passing was natural. We shall miss her, but we could not ask that she tarry always. Our hearts are strained at the separation but we know that through God, "Life is ever lord of death and love can never lose its own."

## NOVESTA CORNERS.

Mrs. Archie McLarty and children of Pontiac are spending an inclement time with her parents, Mr. and Mrs. George Collins.

Ed Sweet is very poorly at this writing, having had another stroke a few days ago.

The Who-so-ever class of Novesta church of which Mrs. Byron Kelley is a member, gave her a pleasant surprise Friday evening by gathering with well filled baskets at her old home and spending a very enjoyable evening. Mr. and Mrs. Kelley received many beautiful presents as a token of esteem in which they are held.

Mr. and Mrs. Lew O'Rourke of Pontiac spent over Sunday with friends here.

Mr. and Mrs. Frank Perry and daughter of Iron Mountain spent Sunday with the former's parents, Mr. and Mrs. John Perry.

Mr. and Mrs. Arthur Perry of Detroit spent over Sunday with the latter's mother, Mrs. Wm. Patch, sr.

Mr. and Mrs. Wm. Hicks and children were entertained for Sunday dinner at the A. H. Henderson home.

Wm. Collins is home from Pontiac for a week's stay.

Mr. and Mrs. John Davis were Sunday guests at the home of Mr. and Mrs. Leon Ashcroft.

Paragraphs Concerning Michigan

By Ed. A. Nowack. Lansing—It might interest farmers in Michigan to know there has been a steady increase in agricultural income in the state for several years.

The relative purchasing power of farm products was practically the same as a year ago, being 87 per cent as compared to 86 per cent for 1924.

The largest acreage of oats in the state was produced last year with 1,642,000 acres yielding 82 bushels per acre, of a total value of \$21,299,000 or \$12.80 per acre.

The estimated barley acreage was 126,000 from which a crop of 3,087,000 bushels or 24.5 bushels per acre were harvested. The crops value was \$2,223,000 or \$17.64 per acre.

Michigan still retains first position in bean production. Last year's acreage was 673,000, largest on record with a total production of 8,289,000 bushels valued at \$24,453,000. The per acre return was valued at \$39.82.

Sheer-Printed Gowns in Popular Fabrics

There was never a time when beautiful and airy fabrics were so universally demanded and so generally within the reach of women as they are now. Present styles in frocks take little material and are simply designed—so that every one may indulge her taste for those that are dainty and luxurious. Besides georgette, crepe and chiffon, there are many lovely silk-and-cotton mixed crepes made in the same colors and patterns as all-silk fabrics. Any of these materials may be used to develop a gown like the pretty model pictured here.

Alexander Still Great

Photograph is of Grover Cleveland Alexander, veteran Cub pitcher, who has been throwing them over for 19 years and is as good today apparently as he was ten years ago.

Breed Not in Demand

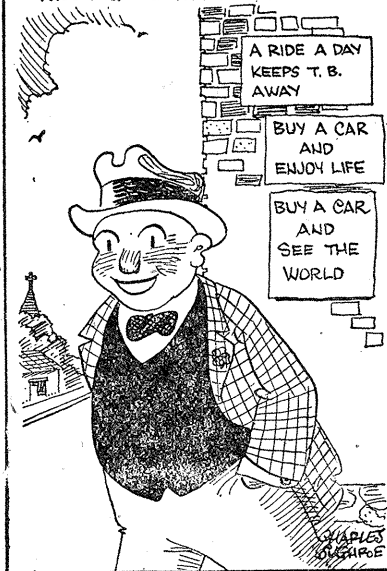

Very few Scottish deerhounds have been introduced into the United States and little has been done to establish the breed. This is easy to understand, inasmuch as our laws do not permit the hunting of antlered game with dogs, and our carnivorous big game demand dogs of a heavier and more aggressive nature than these fleet chasers of the Highland stag. The deerhound is said to make a wonderful companion.

Paying an Obligation

Few of us have been so exceptionally unfortunate as not to find, in our own age, some experienced friend who has helped us by precious counsel, never to be forgotten. We cannot render it in kind, but perhaps in the fullness of time it may become our noblest duty to aid another as we have ourselves been aided, and to transmit to him an invaluable treasure, the tradition of the intellectual life.—P. G. Hamerton.

SUCH IS LIFE

By Van Zelm

SOMETHING 2 WORRY ABOUT

Nature's Wise Guidance

There are certain insects which never partake of vegetable food, but whose young must have it to live. The females are led unerringly by the maternal instinct to deposit their eggs on plants which provide the right kind of food when it is needed. Experiments indicate that they are guided largely by the sense of smell to the destined plants.—Exchange.

Derogatory Nickname

James Nokes, a celebrated English comedian of the seventeenth century, was known as "Nurse" Nokes, from his best role in Otway's play, "Caius Marius." "Caius" was a mixture of "Romeo and Juliet" and another play.

Quail Retrieved Brood

The story is told by Arthur Drummond, a farmer of Elmdale, Kan., of an old hen that was determined to "set" but would not use the nests in the henhouse. She went out in the orchard and stole the nest of a quail. The old hen sat on ten eggs. She hatched eight quails and ten chicks. Then one day the mother quail came along and took all the little quails away.—Indianapolis News.

Aristocratic Redbird

The redbird is no communist. He is an individualist of the most marked degree. The flocking habits of his feathered brethren are not for him. He stands solitary and individualized, helmeted and handsome. If he and his kind had chosen Russia for a dwelling place extermination would have come before this, for the redbird is an aristocrat and he cannot conceal the fact if he would.

And a Coat of Paint?

The case grew out of her arrest recently when she drove an automobile clad in pajamas and a bathing suit.—From a news item in a Washington paper.

Never Fairly Judged

We never know the true value of friends. While they live we are too sensitive to their faults; when we have lost them we only see their virtues.—Hare.

The QUEEN Instant Starter LIGHTS WITH A MATCH

The Greatest Advancement Ever Made in a Liquid Fuel Stove

The alcohol lamp and all other preheating devices have become obsolete with the development of the Queen Instant Starter. It lights with a match—and burners are going full blast in 30 seconds. Women everywhere are enthusiastic about the advantages—the convenience—the saving of time brought about by this wonderful improvement.

HOTTER THAN ANY LIQUID FUEL STOVE

Vapor Gas as produced for Queen Stoves—burns with a clean, hot, blue flame. The stove operates perfectly under any and all conditions. Does not smoke and leveling is unnecessary. The Queen stove operates without continuous regulation—the flame does not creep up and need not be watched—but burns evenly and is turned up or down exactly like city gas. Nothing compares to the Queen blue vapor gas flame for cooking easily, quickly and economically.

BREADS AND BISCUITS AS 3 EXPERT COOKS MAKE THEM

(Ed. Note: This is one of a series of articles on cooking which 6 famous cooks are contributing to this paper.) Bread can be much more than the uninteresting, prosaic "staff of life." It can be made so delicious that you eat it because you want to, not because you think you ought to. Famous cooks have unearthed many delicious bread and biscuit recipes from various parts of the country for you. Follow their recipes for pleasing variety in breads.

Easy Bran Muffins Mrs. Rorer, the Philadelphia cooking expert, recommends her bran muffins for breakfast. "They are very nutritious and healthful," she says. "One might paraphrase the old saying into a bran muffin a day keeps the doctor away." It would hold just as true. "These muffins are easily made," she affirms. Beat one egg, add a cup of milk, a half teaspoon salt, one tablespoonful sugar, and one tablespoonful melted butter. Sift one cupful flour with three level teaspoons baking powder, and bake in a hot oven, in greased gem pans for 20 minutes.

Fats for Nourishment Mrs. Rorer has a very appetizing and nourishing nut bread, too. Here's how to make it: Chop enough nuts to make a half cupful. Put two cupfuls flour in a bowl, add four level teaspoons of baking powder, half a teaspoon salt, and two tablespoonfuls of sugar, and sift. Mix in the nuts. Beat one egg, add one cupful of milk, mix and add the flour. Beat well, and turn at once into a greased bread pan. Let stand 10 minutes. Light oven 3 minutes before bread is light. Bake half an hour at medium heat. Raisins may be substituted for nuts. Nut bread makes very good sandwiches if spread with butter. Cream cheese may also be used for a simple, delicious filling.

Southern Corn Bread Corn bread, that favorite of the South, is another nutritious change from the every-day white bread. Made with the recipe of Miss Rosa Michaelis, famous New Orleans cook, it's a welcome part of any meal. Here are the ingredients: 2 cups sugar, 1 cup cornmeal, 1 1/2 teaspoons salt, 2 eggs, 1 1/2 teaspoonfuls baking powder, 1 1/2 cups water (or milk, or the two mixed). Sift corn meal, salt, sugar, and baking powder together. Add water or milk. Add yolks of eggs and stir. Shortening which has been melted, add stiffly beaten whites of eggs. Put into a hot greased pan, and bake in hot oven. This can be served with butter or with syrup.

Real Beaten Biscuits If you have a patient right arm, you are bound to make successful beaten biscuits. This is another old southern recipe of Miss Michaelis. 1 quart flour, 1 1/2 teaspoons of lard, 1 pint of milk, 1 teaspoon salt. Sift dry ingredients. Then add the shortening and blend by using the fingers—rub until smooth; add gradually the liquid and knead all together till the dough is formed. Should be a rather stiff dough. Then lay the dough on a floured board and beat with rolling pin half an hour. Knead lightly and beat again for ten minutes, till air bubbles come all over the dough. Then roll out and cut with cutter in any shape and stick top here and there with fork. Bake in moderate oven about fifteen minutes or till top and bottom are a light brown.

Use Oranges Orange muffins are just the thing for breakfast. Toasted, they are delicious to serve with afternoon tea. Mrs. Belle DeGraf, San Francisco, formerly with the Pacific Coast Branch of the New York Cooking School, gives this delectable recipe: 2 cups flour, 4 teaspoons baking powder, 1 teaspoon salt, 2 tablespoons sugar, 1 egg, 2 tablespoons melted butter, 1 cup orange juice. Grated rind of one orange. Beat eggs and add liquid. Sift and combine dry ingredients. Add melted shortening and first mixture. Bake in greased muffin pans, in moderate oven about 20 minutes. You may serve a different bread or biscuit every meal. These recipes are especially helpful to women with the lunch problem, as different sandwich fillings may be used with all but the beaten biscuit with good results. (Watch for next week's special cooking article on this page.)

Much Ventilation One manufacturer is selling an efficient oven with 108 holes. These holes provide perfect air circulation and carry away all surplus moisture and all odors. This oven is especially made for oil stoves.

Baking Hint The oven should always be pre-heated a few minutes before biscuits are put in. They require fast baking.

For Oil Stove Users Women who cook with oil will appreciate one of the newer oil stove models with a reversible, easily filled glass reservoir. The hands do not come in contact with the kerosene at all.

COMMUNICATION.

Editor Chronicle: Please permit me to correct a false statement which is in circulation in regard to my daughter, Mrs. F. L. Merchant's, recent condition being hereditary. This is for the benefit of her many friends and schoolmates, who reside here, and are so interested in her recovery from her present serious condition. By referring to the Chronicle files of 1904, published at the time of my wife's death, it will be found that death was due to quick consumption. The writer was there to the last, and she was conscious, and in fine mental condition. The family records were looked over, and no trace of T. B. condition could be found. The present circulating statements concerning mental disease are untrue. Another fact which cannot be disputed is the death certificate on file in Lansing, Mich., and the fact that the undertaker and doctor who signed it are both truthfully and can prove my statements to be true. I do not wish to enter into any further controversy—only truth must prevail. Yours truly, MURDOCK McPHEE.

It is my desire to inform the many readers of your valuable paper that such statements as cited above have no foundation whatever, and have not thrown any reflection on our good name, or the young heir just born. The writer sincerely hopes the above will change public opinion. I am

truthful, and can prove my statements to be true. I do not wish to enter into any further controversy—only truth must prevail. Yours truly, MURDOCK McPHEE.

What 30 Years of Cooking taught Mrs. Rorer about Stoves

By MRS. SARAH TYSON RORER Philadelphia Cooking Expert

"I PREFER oil stoves to any other kind. I speak from the fullness of 30 years' experience with them. Oil is clean, economical, and dependable. It saves a world of work. No coal or wood to carry in, no ashes to carry out. And no dust. "I have just completed a special experiment on the 1926 model Perfection Oil Stove, testing it under all possible cooking conditions. I cooked many meals in my own kitchen. Every dish was deliciously cooked."

All flames remained steady and even. They did not creep or 'crawl.' This is a real blessing to the cook. She can forget her stove and keep her mind on her cooking. "Very Well Satisfied" "Altogether I was very well satisfied with the Perfection Stove. And, my good opinion of oil stoves has increased, if that is possible." 4,500,000 In Use The other five famous cooks were enthusiastic about the 1926 Perfection, too. And every day 4,500,000 women get real cooking satisfaction from their Perfections. You, too, will get the most cooking satisfaction the year around when you cook on the latest model Perfection.

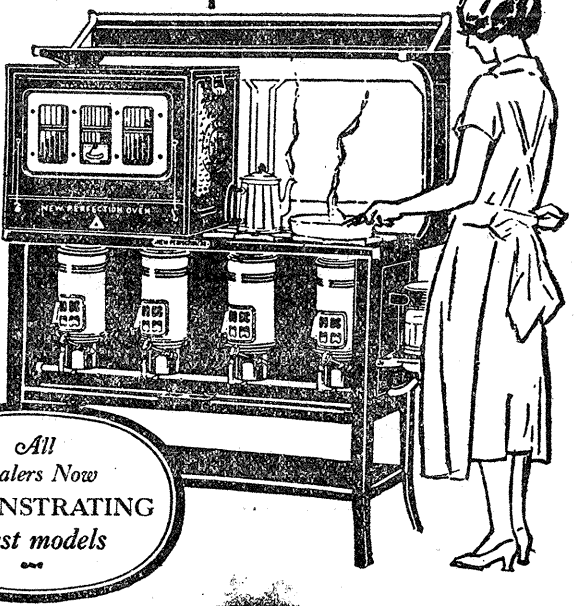

Immediate Cooking "Steak began to broil and my molasses cake began to rise almost as soon as I lighted the burners. There was no waiting for the heat to 'come up.' "The bottom of every utensil used in the experiment was as clean as a china dish. No scouring was necessary. Those long Perfection chimneys certainly are insurance against sooty kettles."

Send today for our free booklet, "Favorite Menus and Recipes of 6 Famous Cooks." Contains many of Mrs. Rorer's. Use this flame for pre-heating the oven for cakes. It has yellow tips about 1 1/2 inches high above the blue area," says Mrs. Rorer. "Heat at the touch of a match to the wick, when you cook on the Perfection," Mrs. Rorer says.

All at the Same Time "I cooked many things at once. For boiling beef I used a very low flame. I French-fried potatoes over a hot flame with yellow tips about 1 1/2 inches high above the blue area. I cooked white sauce over a medium flame. "I used all grades of heat at the same time satisfactorily."

MRS. RORER is one of the six famous cooks who just completed a novel cooking test on the Perfection Stove. Others are: Miss Lucy G. Allen, Boston; Miss Margaret Allen Hall, Battle Creek; Miss Rosa Michaelis, New Orleans; Mrs. Kate B. Vaughn, Los Angeles, and Mrs. Belle DeGraf, San Francisco.
