determined upon, will then be available to any individual or organization interested in the problem of farm land taxation, according to R. Wayne Newton, research associate in the M. S. C. economics department, who is conducting the tax survey.

A total of 30,000 of the questionaires will be distributed to Michigan farm owners, in order to get information from every section of the state. The divisions of Finance and of Land Economic of the U.S. Department of Agriculture are said to be co-operatng in the work.

"This investigation is an opportunity for farmers to submit their side of the land taxation question," says Mr. Newton. "A high percentage of questionaires filled out and returned will insure accuracy in the figure determined upon to represent the ratio between the earning power of farms and their assessed valuation."

State Farm Group to See Corn Borer

Agricultural interests of Michigan will gather at the special European corn borer experiment station in Monroe county on Thursday, October 21, to inspect the ravages of this imported crop pest and to study experimental and test work.

County agricultural agents, farmers, farm organization heads, and business men of the state have all been invited to view the work of the corn borer at first hand, and to learn of the methods being developed to combat the pest. The Michigan State College, the State Department of Agriculture, and the U.S. Department of Agriculture are all interested cooperatively in the special work of Monroe station.

Seriousness of the corn borer menace was reflected in the appointment last week at the college of an emergency corn borer committee, with all agricultural department heads and agricultural division executives at M.

S. C. included in its roster. The work life and his audience always goes of this committee will include the pushing of experimental and research projects and the extension of educational material on the corn borer to the farms of the state.

"It looks at this time as though the corn borer would become the greatest menace which has ever faced American agriculture," said Dean R. S. the fairs this fall will be presented Shaw of M. S. C. in appointing the to the young people at this meeting.

The fact that the borer has penetrated as far west in the state as Cass City Chosen Kalamazoo County was emphasized recently by Prof. J. F. Cox, head of the crops department at the college. Fourteen days of east and northeast winds in July are held responsible for the unusually rapid spread of the pest of the Thumb district to this point.

Several central locations are chosen Mrs. Frank Dillman and Miss Ina in the state for these conferences Otis left Saturday for Pontiac, where which are usually held in September. Miss Otis has secured employment. The first conference o fithe newly ber. Given under the auspices of

THE HUMAN SIDE.

The human side of the American people has been displayed most beautifully as the result of the disastrous storm in Florida. Those who had joked about a real estate boom that Florida was not responsible for starting, were quick to hold out a helping hand to her when she suffered a terrible loss of life and property at the hands of an agency that plays no favorites, and that may visit our own community at any time. Genuine sorrow is felt for the our schoolroom. stricken state, and that this sympathy is genuine is best shown by the speed with which help was rushed to J. Brown and Leslie Sharrard were Mrs. Al Morley of Elkton, Mr. and the suffering. We are a hard-boiled people when it comes to business, but when trouble comes we realize collection of caterpillars spin their that we are just one big family, and webs. all quickly join in helping the stricken members of that family. BAD CHECKS.

For a long time Michigan seemed to be a fertile field for the bad check United States. artist. Gangs recruited in Indiana and Ohio swept through the state, Bernice and Iréne McConnell, Bessie, leaving in their wake a sadder and Nickie, Katy and John Dasho, Harwiser individual who had listened to land and Carmen O'Dell, Hazen and their plausible tale about being in Eloise Abke, Albert Neman, Donald need of temporary funds. Due to Kelburn, Leland Blades, Grant Brown prompt work on the part of credit and James McLellan. associations and the newspapers they have been curbed for the time being. As these fellows apparently move in cycles, going from one state to another following exposure of their operations, it is about time we were due for another visit. Watch for them. Make it a hard and fast business rule never to cash a check for a stranger. Remember the policy of the restaurant keeper who put a sign over the cash register: "We have an understanding with the bank; we cash no checks, the bank will serve on Thursday and Friday. Teacher no meals."

The growing suspicion in some localities that Michigan was swinging back into wet column was dissipated print. Sufficient to say there are in the recent primary, when Con- twenty-seven. gressman Grant M. Hudson was renominated by an overwhelming majority over Rev. Pengelly, of Flint, who had the endorsement and active for the month was 9. assistance of the wets. Hudson's victory is all the more emphatic when it rence Dafoe. is known that his district embraces the large industrial city of Flint, as well as several townships in Wayne county.

The Stubborn Problem of 31 Years Solved in the Rubber-Silenced Chassis

Four vitally important features, plus the perfect coordination of every working part, render the Greater Oakland Six with Rubber-Silenced Chassis practically vibrationless at all speeds.

1 The Harmonic Balancer—built into the Oakland crank-shaft—eliminating torsional vibration.

2 Close-up section of engine mounting, showing rubber cushion and complete rubber insulation between motor support and frame side-member.

3 Cut-out view of Rubber-Silenced drive unit on trans-mission main drive shaft, showing rubber cushion. A New heavy cross-member for the Oakland frame com-pleting a super-rigid support for the entire power-plant and body assembly. These features—found in their entirety only

in the Greater Oakland Six-impart a smooth ness and quietness of operation and a freedom from closed car rumble unsurpassed by any other automobile, regardless of price.

Oakland Six, \$1025 to \$1295. Pontiac Six, companion to the Oakland Six, \$825 to \$895. All prices at Factory. Easy to pay on the General Motors Time Payment Plan.

Do not fail to see these automobiles in the fall showing of General Motors Corporation October 9-16 in the General Motors' Building or here in our own showrooms.

lady. And remember !"

After the doctor had gone Betty remained motionless for a space. A new thought had occurred to her. Brandon Cathewe. She would give him back his newspaper. Having come to this wise. decision, she returned to her room. It was then she espied once more Nancy's letter. This time she opened it. She had to approach a window to decipher this scrawl: "From George Cottar to Nancy Maddox, his friend."

It came to her, upon this second perusal, that the handwriting though in pencil, was strangely familiar. Then she came upon a little cross where a period should have been.

There fell upon her senses a roaring like the falling of mighty waters. Until this died away, she was powerless to move. When she could impart mobility to her feet, with her heart fluttering wildly she ran to the precious Florentine box. She opened a letter and laid it beside the sheet of manuscript. The same hand had

written them both. Immediately she flew out of the house and rushed off to Nancy's. "Oh, Nancy! Where can I find him?"

"You want father?" "No, no! I want George Cottarthe man who wrote those letters !" Nancy led the way into the living room and stopped only when she

don't you go over?"

he saw you." reached a window from which the

street was to be seen. "What do you see from this window?" she asked. "From here? I seem to be very

stupid, for I don't see anything." "See, then, that temple of fine Franklin dreams and music-the little white house with the picket fence. For the

man who wrote those letters to you, and George Cottar, and Brandon Cathewe-they are one, Betty. Why

"All right, I will," answered Betty and with the impetuosity of ardent youth she again dashed out of the you never thought was in your sys-tem. Stops that full, bloated feeling Betty crossed the street, opened the

gate and latched it behind her, and approached the fateful door. Mrs. Cathewe came forward and, with that interpretative insight which Adv. 3

"Oh, I loved him. He was charming. He was mad about children; he was genuinely fond of music, painting, books. And his love for me was one great, honest thing in his life. It wouldn't have been so hard other-

"We were married," continued Mrs. Cathewe. "Sonny came. There followed four wonderful summers. Digby would arrive in May and go back in October. The crash came the fourth winter. He was arrested for selling bogus oil and mining stock. He caught pneumonia in prison and died before I could get to him."

Betty reached blindly for the speaker's hand, found it, and presesd it strongly.

"Years passed. When he was twenty I told sonny the story. I told him what his name was, for we were then using the name of Cathewe. I added that if he so willed, he could live all his days in luxury, have all his whims gratified. He replied that he wouldn't use tainted money, and thereupon gave the money to a banker with a plan to disburse it to the poor. Eventually he became a reporter on one of the great newspapers, and discovered that he could write. A month

each summer he spent with me; he was at work on his second novel when To be continued.

helps teeth, mouth, throat and digestion in a delightful and refreshing way. Removes odors of smoking and eating. People of refinement use it.

Keep Eliminative System Active

Good Health Requires Good Elimination

O^{NE} can't feel well when there is a retention of poisonous waste in the blood. This is called a toxic condition, and is apt to make one tired, dull and languid. Other symptoms are sometimes toxic backaches and headaches. That the kidneys are not functioning properly is often shown by scanty or burning passage of secretions. Many people have learned the value of Doan's Pills. a stimulant diuretic, when the kidneys seem functionally inactive. Every-where one finds enthusiastic Doan's users. Ask your neighbor!

Rouge Rex Shoes Are Flexible and Soft

The velvety upper will not dry out stiff and hard after repeated soakings. Other shoes harden up with continual wetting, and as they do, they bring friction on the stitches, and rip. Rouge Rex Shell Cordovan, soft as new buckskin, stays that way and gives almost unbelievable service under all conditions.

It is unnecessary to say that Rouge Rex Shell Cordovan Horsehide is re-tanned. Half the work shoes sold are called re-tanned; but the word means much or little, according to the method used in the re-tanning. The method used in re-tanning Rouge Rex Shell Cordovan is a trade secret.

The benefits of Rouge Rex re-tanned shoes to the wearer are many. Wherever there are clay soils; where there is a considerable amount of limestone in the soil; where commercial fertilizers are used; where there are feed lots or barnyards; where men have sweaty feet; where men must subject their shoes to unusual heat; under any of the above described conditions, Rouge Rex Re-tanned Cordovan will give one-half to twothirds longer wear than any other leather. It is as near alkali, heat, sweat and barn yard proof as leather can be made.

You Can Now Buy These Wonderful Shoes for Less Than the Prices Usually Asked for Split Leather Shoes---\$2.69 and up.

PAGE FOUR.

Early Peoples Knew of Possibilities of Iron

The peoples of the Near East were among the earliest manufacturers of iron, according to Dr. J. Newton Friend in an address before the members of the Royal institution, London. In 1300 B. C. the Hittites were using iron weapons in their numerous wars, and among the treasures of early history preserved to posterity is a letter thought to have been addressed to Rameses II of Egypt from the littite king, saying that he is sending with the communication an iron dagger.

The Romans were skilled metallurgists with considerable knowledge of how to handle iron ores. Virgil's Aeneid, written around 40 B. C., contains an account of a smithy in full blast, and Pliny in his "Natural History," which was brought out in 77 A. D., shows an equal familiarity with the working of the metal. An iron ring recently unearthed from a Roman site was evidently made by solder. ing together the ends of a bent strip of iron with some sort of copper alloy. Cast iron, said Doctor Friend, was first known in Sussex in 1350 and soon became fairly common.

Vanishing Heath Hen

Was Farmer's Friend The New England heath hen is now in the last stages of extinction, the Louisville Courier-Journal reports. The farmer has found that he not only has lost a source of food for his table, but a protector of his crops.

Like the western prairie chicken, to which it is closely allied, and the "Bob White" of the Central West, the heath hen is a great enemy of insect pests. But of the thousands that once inhabited field and woods patch, less than 100 are alive today, and these are found only on the island of Martha's Vineyard.

The Middle West lost a prolific food supply when the passenger pigeons died off. But the wild pigeon was otherwise of little economic value. It was largely a grain eater, though beech mast and weed seeds also formed its food.

The heath hen, however, is as valuable as the quail to farmers. Ornithologists and conservationists have pointed this out. Hence efforts are being made to save the bird from extinction and, if possible to bring it back to its former numbers.

Penny Not Worth While

At Times square a matinee crowd waited for the long-distance busses. Other crowds pushed by in a steady stream, yet above the traffic noises came the clink of a dropped coin. Those passing looked down, alert, curious, until a single penny whirled into sight, spun around and then flopped to the sidewalk. No one picked it up. It was tramped on, pushed and started rolling again. Many looked, but none stopped until a chubby little fellow, holding tight to his mother's hand, spied it.

"Mother, mother!" he cried in excitement. "I see my penny! Stoplet me-let me pick it up!"

"Come, come," chided the mother, impatiently, as she jerked him along. "It's only a penny. Let it alone. You'll get your gloves dirty, dear."-New York Times.

Colonial Workmanship The greatest quality in all Colonial work is dignity. In the houses of the rich and the houses of the poor there is apparent the same dignified scorn of ostentation and the same pride in honest building and honest living. Although it has been said that Colonial architecture is old-fashioned and belongs to a day that is past, this is no more true of Colonial design than of any other of the traditional styles. Furthermore, Colonial architecture seems out of date only because its progress was stopped by the Greek revival and the eighteen eighties. If it had continued to grow and develop, how much more lovely would our countryside be than it is now with its potpourri of all styles-including the Scandinavian!

Mother's Orders

Ruth and Marjorie were spending the afternoon with their little friend. Jane. At five o'clock they informed their hostess that they must be going.

"My dears," said Jane's mother, "can't you stay and have supper with us?"

"No, thank you," both replied. "Mother told us to come home at five." Hats and wraps were brought. As they were being put on, Jane's mother asked again: "Are you sure you must go before supper?"

"Yes, thank you; we must go," plied Ruth.

Marjorie seemed to have a different opinion, and said to her sister: "We don't have to go. Mother said we could stay to supper if she asked us wice."

English Woman's Ten Names The petitioner in a case before the London divorce court was imposingly described as Mrs. A. B. K. F. I. H. G. P. D. Hill.

When asked by counsel to announce her full name, Mrs. Hill handed a sheet of foolscap to the judge. "Here they are," she said.

'Is your first name Acie?" asked Lord Merrivale. "It is." "Well, that will do," said the presi-

dent. "It is not your fault that you were given all these names." Upon the paper was written:

"Acie, Bethel, Kitzinger, Firth, Ishi, Helena, Goiga, Pretoria, Denyer Hill."

The Sunday school classes at the and son, and Mr. and Mrs. Sam Vyse M. E. church, taught by Mrs. I. W. and son, enjoyed a picnic dinner at Cargo, Mrs. Thos. Colwell, and Mr. Bay Port Sunday.

STANDARD DESIGNER 8828 Miss Zemke has just returned from our principal dress house with a wonderful

line of Satin and Jersey Dresses. Dresses that are superior to the common brands. Dresses of individuality in style. Priced very reasonable if you consider quality worth anything at all.

New Jersey and Flannel Dresses at \$5.75 and \$8.75 to \$10.75-

These are wonderful dresses for the price-dresses such as you need for school, office, street and store wear.

Come and see what a nice dress \$5.75 will buy at Zemke's.

Fall and Winter Coats—

First choice is always the best. Why not pick out your new coat today and avoid being disappointed-for we all know that the best is always picked out first. and it will be more so this year, due to the great strike in the East.

Our stock will never be any better nor larger than it is right now.

Prices ranging from \$12.50 to \$89.50.

New Satin Dresses at \$8.75 to \$10.75-

These dresses are without any exception the biggest values we have ever offered to our customers.

These dresses are well made, neatly trimmed and well styled.

Infants' Department—

We cannot help but call your attention to our infants' department, for nowhere in the Thumb can you find a better selected stock of infants wear than you will find at Zemke's.

We have everything an infant needs. If you cannot see what you want, ask our salesladies to show it to you.

Hosiery Department—

This has always been an outstanding department, due to its superiority in quality and price.

Every woman knows that if she buys a Rollins or Munsingwear hose that all her troubles are ended, for there is no better stocking made.

If you want to get in real bad in the community, just start out to tell the truth, the whole truth and nothing but the truth. An optimist is the fellow who is pleased at a puncture because it isn't a blowout. "There are folks in our town who think they are just as good as any one else," declares Ed. Corpron. And

he adds that "some of them are in their own estimation. The advice given the farmers since the first of the year includes everything, but having his tonsils taken out.

A noted club woman says girl workers should have men's wages. They usually get that by marrying the men.

Cal Striffler says barbers in the big towns are so busy bobbing hair that the only chance a fellow has to get a shave is to borrow his wife's skirt and wear it into the barber shop. Speaking of the movement of youth from the farm to town, we think it should be restricted to about 35 miles an hour.

Some people are lucky enough to have more sense than to depend upon luck. If you want to hunt for something

hard to find, hunt for the Cass City man who has at any time suffered an attack of writer's cramp from writing to his mother-in-law.

It may be that beauty is only skin deep but some of the ladies seem to put it on thicker than that. Many realize that the cost of liv-

ing is pretty high but they all seem to think it's worth it and are still trying to hang on. A knocker is a man who is always

in debt to the fellows he uses the hammer on. Another argument that seems to ****

have fallen by the wayside is the one that bobbed hair represents a saving of time.

I have bought the business of G & C Folkert and will continue to handle the same lines that have been handled before. I am going to buy first-class goods and will sell them at the lowest prices possible. Your trade will be appreciated. HERE'S A FEW SPECIALS FOR SATURDAY:

FORECLOSURE SALE. Default having been made in the onditions of a certain mortgage made by Charles Cooper and Violet Cooper, his wife, of the Township of Arbela, Tuscola County, Michigan, to Theo-dore Vuillemot, of Birch Run Town-ship, Saginaw County, Michigan, which mortgage bears date the 9th day of Longory A D 1920 and is reday of January, A. D. 1920, and is re-corded in the office of the Register of Deeds in and for Tuscola County, Michigan, on the 13th day of January, A. D. 1920, at 11:00 o'clock A. M. and recorded in Liber 134 of Mortgages on page 426. That there is claimed to on page 426. That there is claimed to be due on said mortgage, including in-terest and an attorney fee of Twenty-Five Dollars, provided for therein, at the date hereof, the aggregate sum of One Thousand Two Hundred Forty and 42-100, (\$1,240.42) Dollars, and the power of sale in said mortgage contained here because appendix and contained has become operative, and that no suit or proceedings having been instituted at law or in equity to recover this sum, said debt remains secured by said mortgage. Therefore, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default, and the Statute in such case made and provided, Notice is Hereby Given That said mortgage will be forcelosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of Tus-cola County, Michigan, on the 27th day of November, A. D. 1926, at 10:00 o'clock A. M. Central Standard Time, in the forenoon of said day, at the front door of the Court House, in the Village of Caro, Tuscola County, Michigan, that being the place for holding the Circuit Court for the County of Tuscola, which premises are situated in the Township of Ar-bela, in the County of Tuscola and State of Michigan and are described as follows: The South Twenty (20) Acres of the Northwest fractional Quarter (NW frl ¼) of Section Nineteen (19) Also the North Ten (10) Acres of the Southwest fractional Quarter (SW frl ⁽⁴⁾ of Section Nineteen (19) in Township Ten (10) North of Range Seven (7) East. rAGE EIGHT.

Telescoric Power

To determine the power of a telescope, focus it on a brick wall. With a little practice one can keep both. eyes open, in which case one sees the wall directly with one eye, and sees the wall through the instrument with the other. If the magnified brick is as large as ten unmagnified, the power of the telescope is ten. The telescope should be at least 100 feet from the wall.

Keep Old Custom

In the days when the Romans occupied Great Britain, what is now known as St. Mark's day was observed in the glorification of an agricultural deity, and the customs of that day are in part followed to this day. In many parts of England it is usual to cut down a small thorn tree on April 25 and burn a portion of it near a field where wheat is springing from the ground, exactly as was done 2,000 years ago.

Strength of Animals

It is impossible to name the strongest animal, since some of the smallest insects have more strength in proportion to their weight than the very largest animals. An ant, for instance, may carry a load fifteen or twenty times its own weight, while an elephant could scarcely drag its weight.

Technical Conversation "I want some consecrated lye." 'You mean concentrated lye." "It does nutmeg any difference. That's what I camphor. What does it sul-"Fifteen cents! I never cinphur?" namon with so much wit." "Well, I should myrrh-myrrh. Yet I ammonia novice at it."-Progressive Grocer.

Combating Poison Ivy

Thorough washing soon after exposre to poison ivy reduces the dance of injury. Even after inflammation has developed thorough washing should be tried in order to remove from exposed surfaces of the skin all traces of the poison that can still be reached.

To Absorb Ink Stains

One of the best methods of removing fresh ink from rugs is to apply ammonia. It should be rubbed lightly over the spot to be removed and this can be done by taking a soft cloth and saturating it with the solution. It will immediately absorb the ink.

Toys Beat Big Balloons In a balloon race between toy and real gas bags, held at Paris, the toy balloons greatly outdistanced the larger craft.
