### Keep Fit!

Good Health Requires Good Elimination

TO be well, you must keep the L blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and achy. A nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretions. If you have reason to suspect improper kidney functioning, try Doan's Pills-a tested stimulant diuretic. Users praise them throughout the United States. Ask vour neighbor!

To determine the liquidity of this bank, let each item be inspected.

- 1. Loans and Discounts \$213,585.75. These are notes of all descriptions. Borrowers wonder at times why banks dislike to take notes for six months or a year; the reason is that the banks wish to keep liquid, to have the notes mature early so if necessary they may be converted into cash. This bank has \$130,028.47 in notes maturing between Nov. 2nd and December 31st of this year. Nearly two-thirds of all the notes in the bank mature within two months. These will not all be paid of course, but the majority will.
- 2. Real estate mortgages-\$177,124.03. These are more or less permanent investments. Of this amount \$46,000 of mortgages have recently been purchased from out of town banks, all due in from one to three years, with 5% of the principal due semi-annually in addition to the interest. These latter mortgages were carefully selected from a large list and doubtless could be turned into cash should occasion require.
- U. S. Bonds \$32,100. These are liberty bonds deposited for safe-keeping in Detroit and could be converted into cash at an hour's notice. They yield  $4\frac{1}{4}$  per cent and a peaceful state of mind.
- Other bonds-\$68,660. These bonds have 4 been purchased always from the viewpoint that we may desire to sell them. A large proportion are listed on the market and could be sold immediately and every bond on the list could be sold in three days' time.
- 5. Banking house, furniture and fixtures-\$5,000. A purely frozen asset because it cannot be converted into cash; but certainly it is an extremely reasonable sum for land, building, safes, adding machines and all other equipment and supplies.

- 6. Other real-estate—\$4,499.50. This likewise is a frozen asset because we must find a buyer before it can be converted into cash. However this also is small and is indicative of the fact that our loans have not been excessive.
- 7. Overdrafts-\$372.61. These are accounts which for one reason or another have been checked upon by customers who did not have sufficient funds in the bank. It is the earnest desire of the officers and directors of this bank to keep these items as small as possible and none of these overdrafts were over two or three days' standing.
- 8. Cash and due from banks—\$31,933.49.
- Customers' bonds-\$30,150. These are bonds left for safe-keeping and in no way affect the bank but do indicate prosperity of the community.

In looking for the liquid assets in the Cass City State Bank, we find a very comfortable amount-the cash and due from banks, the Liberty Bonds, the large percentage of notes maturing in the immediate future, the other bonds, the mortgages purchased outside of this community.

While there is talk of hard times and poor conditions, yet the statements of the local banks by no means bear this out. For ourselves we can affirm and, in studying and comparing our published statements, you will observe that during the forty-four years of our existence as a bank, we are by far in the best condition we have ever been.
