She said she might have been going east yet, if the bank block had not been in the way and the aid of the

emergency brake. Her friends console her by saying they knew of no person who has a better right to try breaking into a bank than a banker's wife, but trying to enter with an automobile is a new projectile. No damage done to the driver or car but the demolished iron railing is a sight. Mrs. Purdy is still driving but she thinks she will hereafter park parallel.
