

THIRD REUNION OF DILLMAN SCHOOL

About 125 Friends, Patrons and Former Pupils of School at Gathering.

The third annual reunion of the Dillman school was held at the school grounds Thursday, July 14. About 125 friends, patrons and former pupils of the school gathered together to renew old friendships and exchange reminiscences of the "good old days." After the interchange of greetings well-filled baskets were brought forth and made to yield a generous supply of all kinds of things good to eat, and appetites proved to be no less hearty than in the days of the old dinner pail.

A short business meeting was held in the afternoon with Mrs. A. J. Knapp presiding in the absence of the president, Willard Wells of Flint. The meeting was opened by the singing of "School-Day Sweethearts" followed by the "Lord's Prayer" led by Phyllis Koepfen. A few words were spoken by several former teachers, Nelson Perry, Mrs. Alvin Beach, Mrs. A. J. Knapp and Miss Myrtle Hegler. It was voted to change the date of the reunion from July 14 to the second Saturday in July. Officers for the ensuing year were elected as follows: president, Frank Reid; vice-president, J. D. Tuckey; secretary, Mrs. John Evans; treasurer, Mrs. John Dillman. After the singing of "America" the meeting adjourned to the schoolyard for sports.

Neither added years nor weight dulled, in any degree, the enthusiasm of the participants in the games and contests that followed. A first prize of 50c and a second prize of 25c were given in all the races. The winners were as follows:

Girls' race, under 8 years—1st, Elaine Reid; 2nd, Fay Allen.

Boys' race, 8-14 years—1st, Alvin Reid; 2nd, Harry Reagh.

Girls' race, 8-14 years—1st, Lucille Allen; 2nd, Dorothy Boyes.

Fat men's race—1st, Guy Allen; 2nd, Emory Lounsbury.

Fat women's race—1st, Helen Allen; 2nd, Pearl Rondo.

Men's free-for-all—1st, George Dillman; 2nd, Frank Reid.

Women's free-for-all—1st, Mildred McConkey; 2nd, Jessie Allen.

The outcome of a tug-of-war between teams captained by Guy Allen and Emory Lounsbury for some time looked very uncertain but finally Lounsbury's team succeeded in drawing its opponents across the line. The day could not be quite complete without baseball and two games were played—a men's game in which Frank Reid's men defeated James Wilson's by a score of 4-6; a women's with Mrs. John Evans and Mrs. Frank Dillman as captains, the former being victorious by a score of 7-13. Mrs. Knapp served as umpire in the women's game.

The afternoon was nearly at its close and still a goodly number lingered as if loath to leave the scene of such a pleasant and happy gathering. Every one, as he departed, was looking forward to this time one year hence and making plans to be numbered with those present again.

Those from out of town who attended the reunion were Mr. and Mrs. Fred Reid and son, Mrs. Frank Dillman and son George, Mr. and Mrs. Howard James and daughters, Mr. and Mrs. Floyd Reid and children, and Glenn Reid, all of Detroit; Mr. and Mrs. Guy Allen and daughters of Cleveland, Mrs. Lena Bushlo of Pordson, Mrs. Charles Richter of Bay City, Mr. and Mrs. John Goodall of Merritt, Mrs. Leubke and son of Ann Arbor, Mr. and Mrs. McEldowney, the Misses McEldowney, Smith, and Rushlo, and Forest Rushlo, all of Caro, and Miss Margaret McKenzie of Kalamazoo.

KRUG-PETTIT.

The marriage of Miss Anna Gill Pettit, niece of Mrs. Jessie Pettit, to Dugald Krug was celebrated Friday, July 1, in the First Presbyterian church at Cleveland, Ohio. They were attended by Mr. and Mrs. Bert Clara of Gagetown. Mrs. Clara is a sister of the groom. A wedding trip was taken through the east to Watkins Glen, N. Y., to Montreal and the return trip was through Canada.

Both young people have spent the most of their lives in or near Cass City and are among the most popular young people of the community. They will make their home in Cass City.

TUSCOLA FARMERS' TOUR TO M. S. C.

The tours of Tuscola county farmers of the past two or three seasons will be continued this year to the Michigan State College. The dates of the tour will be as follows:

Leave Tuscola county Wednesday morning, August 3, arrive at Lansing and meet for picnic dinner at the college picnic grounds. After dinner the tourists will visit the different plots or take in session of the Agricultural Country Life Association as they see fit.

The next day, August 4th, will be farmers' day. John W. Sims, former Tuscola county agricultural agent, has promised to be present at the dinner and will assist in showing Tuscola farmers around, and the further program will be planned after the dinner. The tourists may either take a tent or it will be possible to secure lodging near the college grounds at \$1.00 per person per night. On account of the Country Life Session, it will be impossible to take care of the crowd as was done last year. The tour will probably start from two places in the county. The one from Millington and the other from Reese. Just who will be in charge of these parties will be announced later. Those contemplating the trip or wishing more particulars will please get in touch with D. B. Jewell, Co. Agr'l Agent, Caro, Mich.

CORN ACREAGE 8% SMALLER THIS YEAR

U. S. Corn and Fruit Crops Short; Other Crops Look More Favorable.

Michigan's corn acreage this year is eight per cent smaller than last year and the low condition of 64 per cent of normal indicates that the 1927 crop will be the shortest in the last ten years according to a statement issued July 13 by Herbert E. Powell, Commissioner of Agriculture and Verne H. Church, Agricultural Statistician for Michigan. The forecast is for 38,468,000 bushels of corn from 1,466,000 acres which is the lowest acreage since 1906.

Farmers were also unable to carry out their intentions to plant oats, and the acreage is 1,539,000 this year or two per cent below last year. However, the condition of 82 per cent shows that oats progressed better during June with more reasonable weather, and the outlook now is for a harvest of 52,372,000 bushels compared with the 1926 crop of 51,810,000 bushels.

With the winter wheat harvest close at hand, the outturn is expected to be larger than last year and above average. Latest information places the acreage for harvest at 920,000 acres with a condition of 88 per cent which forecasts a total production of 18,378,000 bushels. Since the intended acreage of winter wheat could not be sown last fall, the spring wheat acreage was increased from 5,000 acres in 1926 to 9,000 acres this year. This acreage indicates 140,000 bushels of spring wheat as Michigan's crop this year.

The barley acreage in Michigan this year is 190,000 acres or 57,000 acres above last year and the condition is two per cent above average so that with average weather conditions until harvest time a crop of 4,817,000 bushels will be realized.

Tame hay acreage in Michigan is one per cent larger than a year ago and is now nearly up to the large acreages of a few years ago. The increase came from larger plantings of alfalfa, sweet clover, legumes and smaller classes rather than from clover and timothy which showed an acreage lower than in 1926. The forecast from 4,097,000 acres of tame hay is 4,372,000 tons or 275,000 tons more than cut last year.

The disastrous weather conditions last fall caused such heavy losses to bean growers that some have reduced their acreage this year and only 662,000 acres were planted compared with 726,000 acres planted in 1926. However, the heavy abandonment last fall reduced the harvested acreage to 552,000 acres from which 6,624,000 bushels of beans were harvested the salable portion of which is approximately 5,300,000 bushels. The condition on July 1 was 11 per cent below average at 75, and this condition forecasts a crop this year of 6,206,000 bushels.

A sugar beet condition of 81 per cent forecasts 778,000 tons of beets from an acreage of 117,000. Last year's production was 793,000 tons.

Michigan growers increased their potato acreage 12 per cent this year and planted 279,000 acres. Although a marked increase, this acreage is still considerably under the 10-year average. The July 1 condition was 85 per cent of normal which is three per cent below the 10-year average and forecasts a production of 29,644,000 bushels; however, July 1 is too early to give accurate indications of the final crop.

The outlook for the apple crop declined heavily during June due to cold and cloudy weather which interfered with pollination and much fruit either failed to set or dropped shortly after setting. Scab is prevalent. The condition is only 43 per cent now

The Annual Battle

Borers, But Not Real Corn Borers

There have been several samples of borers brought to D. B. Jewell, county agricultural agent, during the past two weeks under the impression that they were corn borers. "There have so far no real corn borers been brought in as I think it is a little early," says Mr. Jewell. "The most common one has the appearance of the lined stalk borer which is probably in Michigan now and has been found in hollyhocks, burdock, corn and rhubarb. The following is the description of borers liable to be found—

"The lined stalk-borer has frequently been confused with the European corn in Ohio and to a lesser extent in New York. The work of the lined stalk-borer greatly resembles that which has been described for the stalk borer, and is usually confined to young corn, especially corn which has been planted on sod land.

"The caterpillars of the lined stalk-borer are nearly an inch long and yellowish white, with several conspicuous reddish brown stripes running lengthwise of the body. They may be easily distinguished from the corn borer by the presence of these conspicuous stripes and by the absence of the small brown tubercles or 'warts' which are present on the corn borer.

"The stalk-borer is often very numerous during the early summer in some sections of the country. It works habitually within the growing tip and stalk of young corn, and is frequently mistaken for the European corn borer on account of its habit of boring in the cornstalks. In addition to corn, it also bores in the stalks, and infrequently in the fruit, of several other cultivated crops and flowers, and in weeds.

"The young caterpillars of the stalk-borer are very easy to distinguish from the corn borer, as they bear a dark brown or purple band around the middle of the body and several conspicuous brown or purple stripes run lengthwise of the body. The corn borer does not possess these stalk-borer bands or stripes. As the caterpillar becomes full grown, however, these bands and stripes disappear and the color becomes plain creamy white or light purple, with only inconspicuous markings. The full-grown stalk-borer is slightly over an inch long and is much larger throughout than the corn borer. It is never found in cornstalks during the winter."

Pig Club Members Elected Officers

The Boys' and Girls' Calf and Pig clubs were entertained at the home of Mr. and Mrs. Charles Wright, southeast of town, Friday evening. The first event of the evening was a lively game of baseball. The score was still growing when darkness prevented the players from finding the ball. A business session of the Pig Club followed the ball game, at which time the following officers were elected for the ensuing year: President, Alex Ross; vice pres., Archie Bullock; sec'y., Bruce Hoadley; treas., Harold McGrath. Plans were talked over concerning the pig exhibits for the Cass City fair.

The meeting then adjourned and the Calf Club held a short business meeting. Willis Campbell, sponsor of both clubs, announced that owing to a shortage of funds in the club treasury that it was decided not to serve watermelon that evening as had been previously announced. A howl of disappointment, accompanied by groans, greeted this announcement. It was quite evident that a group of young folks like watermelon, and when they decided to hold their next meeting at the home of Bruce Hoadley, on Friday evening, August 5, everybody voted "Yes" to have a pot luck supper. Both clubs are enthusiastic about stock raising and their exhibits at the Cass City Fair, August 15-19, will be worth while visiting. Mr. Campbell is untiring in his efforts to raise the standard of the exhibits, and is scoring a success with the boys and girls of the community. The groups present Friday evening represented quite a broad stretch of country, there being members present from as far north as Gagetown and Sheridan and southeast as far as Shabbona.

Prizes to Local Jersey Breeders

Local Jersey breeders were successful in winning five prizes in the second annual show of the Tuscola Co. Jersey Breeders' Association which was held at Vassar on Wednesday.

In the aged cow class, Delos Parish of Fairgrove, secured 1st place. In the two year old class, 1st prize went to G. W. Landon of Cass City. One year and under two-1st, Delos Parish; 2nd, Grant Ball, club calf. Senior calf—1st, Alfred Fort, Cass City; 2nd, Clarence Dodge, Cass City. Junior heifer calf—1st, Harold McGrath, Cass City. Champion female and champion bull, both to Delos Parish. Clarence Dodge of Cass City secured third on senior bull calf.

ALFALFA SEED PROSPECTS.

J. D. Raney, specialist of the Farms Crop Department and Prof. C. R. McGee, Assistant professor of farm crops, were in Tuscola county Friday accompanying Co. Agent, D. B. Jewell, in looking over alfalfa fields which are being left for seed. Fields in the vicinity of Ellington, Colling, Fairgrove and Denmark townships were visited. The trip showed that there is a great variation, some fields undoubtedly not showing enough seed to pay them for keeping, while others gave promise of a fairly good crop. "The greatest reason for the trip," said Mr. Jewell, "is to get an idea so that we may be able to tell more about the acreage of alfalfa seed in Michigan. It looks to me as though it might be a profitable venture for Tuscola county farmers and I would be glad to visit any fields that people are planning saving for seed."

Ephraim A. Knight Died at Age of 85

Ephraim A. Knight passed away Tuesday afternoon at the home of his daughter, Mrs. Duncan Battel, in Elkland township, at the age of 85 years. He had been in poor health for several months. Funeral services will be conducted at the Battel residence this (Friday) morning at ten thirty o'clock by Rev. P. J. Allured, pastor of the Presbyterian church.

Ephraim A. Knight was born at Milton, Ontario, on April 6, 1842, the youngest of eight children. He was married in 1874 to Martha A. Morris of Alton, Ontario. To this union were born three sons and four daughters. The family moved to Marlette, Mich., in 1885, and the following year to Cass City. Mrs. Knight died here in

L. V. Nash Had Joyous Trip

Birmingham, Iowa, July 16, 1927. Editor of The Cass City Chronicle: A long cherished desire was gratified, and so pleasantly, too, in again being in your city. In the fifteen days' absence from home I saw many friends and a few relatives of myself and wife. In these sunset days of our lives memories of friends of other days are very pleasant, and to see those who remain was a deep satisfaction, indeed. We more and more appreciate what friends are to us as we have more time to think of many things and see them as they were, or

The first day's travel took me to Milwaukee where our son-in-law and daughter, Mr. and Mrs. F. M. Treadway, live with their four children. After three days there I went through Chicago to Grand Rapids where my sister, Mrs. Anna Deming, with her daughter, Hattie, Mrs. Eugene Shangles, met me, and the next morning, took me to Sparta to the Shangles home in a pleasant town, in a pleasant country surrounding it. There I was introduced to another Nash and family, and found that he has a genealogy of our family, and that he is related by going back a few generations along the line.

Returning to Grand Rapids after two days, left on Thursday morning for Saginaw to which I came at noon. There I found the office of the bus man to your city. There came to memory that in 1864 my father left that city at noon, and carrying a load of more than 30 pounds walked to his

FARMING AND FINANCE

Babson Park, Mass.—The sale of candy throughout the country during the past few months has grown steadily better. As it is not customary for store keepers to store up too much candy on hand at a time, it is safe to assume that the present gain in retail candy sales means that the public is certainly eating more candy now.

The retail sales of candy began their gain in February over January and each month since has been showing a bigger gain over the previous month.

Of course, the sugar crop has a considerable influence on candy sales in an indirect way, but it is really remarkable how uniform candy prices have been as compared with some of the other semi-food products.

Another outstanding feature that seems to strike the public as being quite remarkable at this time is the much larger variety of inexpensive candy that is being offered on the market. The War has probably had quite a bit to do with the gain in the consumption of candy throughout the United States.

Less Foreign Hog Growing. The packing companies in the United States should benefit during the next three months from an improved export market for meat products.

The high hog quotations in the United States during the past 3 years have stimulated hog development in Europe; and the current low prices for hogs in this country should result

CO. BANKS ORGANIZE FOR PROTECTION

Sheriff McEldowney to Appoint Special Officers as Vigilante Forces.

Seventeen out of 19 banks in Tuscola county were represented at a meeting of cashiers and officials of the county's financial institutions at the Hotel Montague at Caro Thursday evening, July 14, when the preliminary steps were taken for the organization of vigilante units in the county. Sheriff L. S. McEldowney was present and assured the bankers that he was entirely in sympathy with the movement and would lend his co-operation to the fullest extent. The sheriff will appoint reliable citizens in each community as special officers and clothe them with the authority of deputy sheriffs. The necessary arms and ammunition are furnished by the banks and an alarm system in each town is provided to notify these special officers in the event of a robbery of a bank in the town. The telephone is used in notifying vigilantes at outside points.

The cost of the vigilante system of protection in Tuscola county will be borne by the county banks in proportion to the amount of their capital and surplus.

The "vigilantes," a force of armed men organized by the Michigan Bankers' Association to be used in the capture of bank bandits, seems to have put plenty of fear into the hearts of the desperadoes, who a short time ago were making banks in the state common prey. Up until a year ago, bank robbers were reaping a bountiful harvest in their frequent hold-ups which not only resulted in financial losses to the banks, but often resulted in some employe of the bank or a customer being shot down. The bankers were face to face with a situation that was becoming more and more serious. Finally it was decided that banks would organize their own protective forces to augment the police. Men were selected in each community and equipped with rifles and are called the "vigilantes." Although this group of armed men has received very little actual experience the fact remains that bank bandits have decided to stay away from Michigan rather than lock horns with a small army that is waiting to show its wares. With men waiting for them in every section of the state, robbers have decided that the chances of holding up a bank and getting away are small and such attempts have been growing fewer and fewer in late months.

Robert Warner's S. S. class of the Church of Christ enjoyed a picnic at Randall's grove Tuesday. An attendance contest has just ended with Charlotte Warner's side winning over the side having Inez Quink as captain. The picnic was given to the winners by the losers.

Speaker of Note Here Sunday Night

An event of more than passing importance to the people of this community will take place at the union service to be held in the Presbyterian church Sunday evening, July 24, when Robert S. Womer, a 19-year-old school boy, will deliver his famous address, "The Christian Sunday—Can We Save It?" Robert Womer has already appeared in scores of Michigan towns and cities, speaking to audiences ranging from a few dozen people to hundreds.

His topic is one that should appeal strongly to every man and woman in this vicinity who is interested in his nation and in the world.

Following are a few brief quotations from prominent ministers in Michigan.

"A forceful, illuminating presentation of facts that presses home the urgency of the situation."—D. D. Nagle, Strathmoor Methodist church, Detroit.

"We appreciate your sending Robt. S. Womer to us. The unusualness of such a young man, speaking upon so vital a subject, drew a large attendance and they were not disappointed. The young man's message and personality put across a line of facts which ought to be heard in every church. It was a big service."—F. B. McAllister, Royal Oak Baptist church.

"He presents a wealth of information in an attractive manner with the force of his own deep convictions."—Rev. Charles E. Ehle, Baptist church, Romeo.

Everyone reports a very good time.

"Humanity" Student

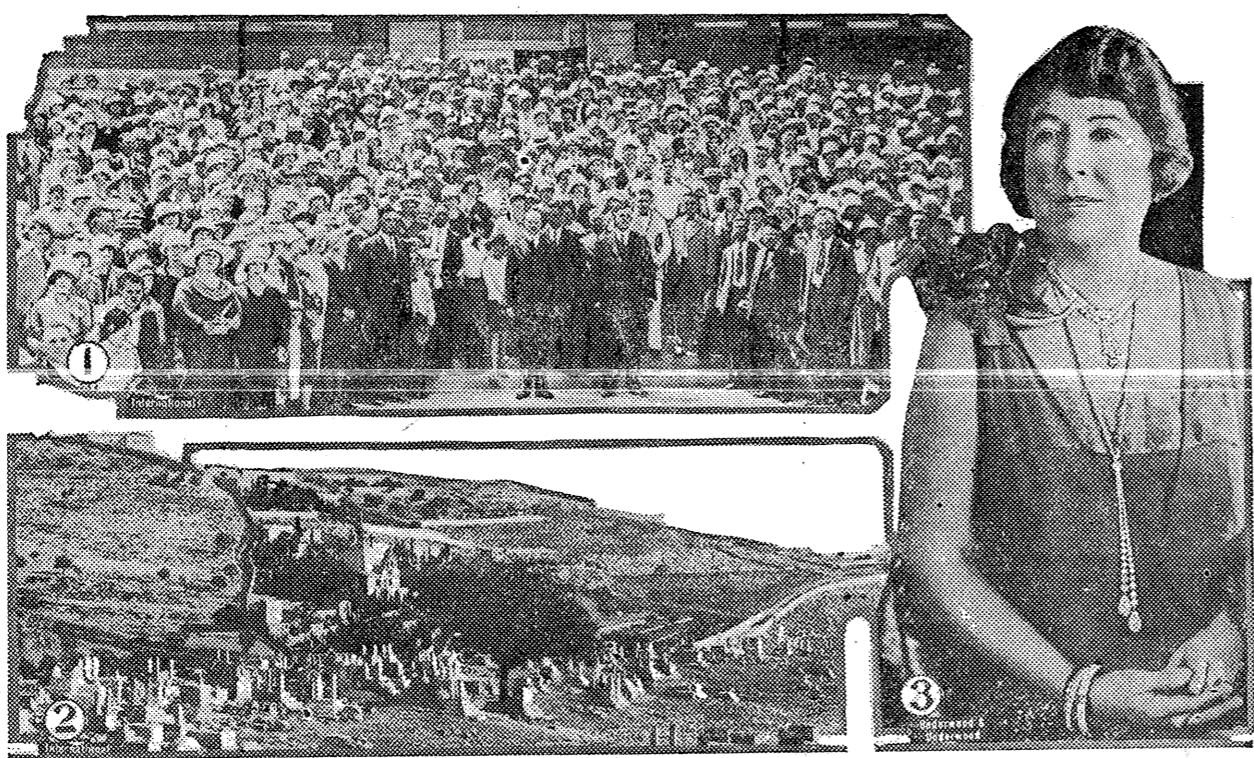

Humanist may be defined as a student of human affairs. In this sense Shakespeare is called the great humanist. The term more generally means a student of the "humanities," that is, a student of the ancient classical languages, literature and history.

NEWS REVIEW OF CURRENT EVENTS

Earthquake in Palestine and Transjordan Is Fatal to Hundreds.

By EDWARD W. PICKARD

HUNDREDS of men, women and children—perhaps as many as a thousand—were killed in Palestine and Transjordan by the severest earthquake that region has experienced in a hundred years. Thousands were injured and other thousands were rendered homeless. In Jerusalem many famous buildings were seriously damaged, including the Church of the Holy Sepulcher, the Hebrew university, the Dome of the Rock, the Basilica, the Russian church, the Bagdadede synagogue and the government house on the Mount of Olives; but the casualties in the "City of Peace" were few. Elsewhere, especially east and south of the Dead sea, the destruction in towns and villages was almost complete and hundreds of mangled bodies were taken from the ruins of houses. Half of the town of Nablus was utterly wrecked and many inhabitants were killed. It was reported that 300 were dead at Maan, 36 at Amman, 72 at Ramleh and 80 at Ludd. In Jericho there was but one victim, but the Winter Palace hotel collapsed and other buildings were damaged.

British military aviators from Transjordan helped in the rescue of many survivors, and relief work was got under way promptly. Pope Pius, deeply grieved by the catastrophe, sent instructions to the patriarchate at Jerusalem concerning relief measures. The earthquake was felt in Egypt and caused great alarm but not much damage. On the same day there were severe temblors in Victoria, Australia.

Floods following a cloudburst in the valleys of the Gottleuba and Muglitz rivers, tributaries of the Elbe in Saxony, killed about 200 persons and devastated the valleys, burying the ruins of villages deep in mud. Troops and hundreds of relief workers were rushed to the rescue, the Red Cross leading the expedition and being followed by the communists, the Fascists, the "Steel Helmets" and the rebullican "Reichsbanner" forces, all united for once in the task of extricating and feeding the hapless survivors. The same violent storm that struck Saxony raged along the Alps and Apennines in northern and central Italy, doing vast damage.

KEVIN CHRISTOPHER O'HIGGINS, vice president of the Irish Free State, minister for justice and perhaps the leading man in the government, was assassinated as he was on his way to church in Booterstown, a suburb of Dublin. Three men fired bullets into his head and body and escaped in a motor car. O'Higgins, before his death a few hours later, whispered: "I go as Collins went and as my father went. I die as I have lived—for Ireland. I die at peace with my enemies and with God. I forgive them all."

The brutal murder caused intense indignation, not only in the Free State but throughout the world, and messages of sympathy were received by President Cosgrave from King George, the duke of Abercorn for northern Ireland and many other personages. Eamon de Valera denounced the crime as murder inexcusable from any standpoint and said he was confident the republican organization was not responsible for it. Ten men, all said to be connected with irregular organizations, were arrested, the charge being that as senior officers of secret groups they directed the conspiracy resulting in the assassination. One of the prisoners was a son of Count George Plunkett.

ANOTHER week of debate in the naval limitation conference at Geneva, and no definite results. Great Britain, still striving to maintain her predominance on the seas but not willing that the conference should fail, suggested a compromise solution of the cruiser problem. W. C. Bridge-

man, first lord of the admiralty, said if the United States would agree to limit the number of 10,000-ton cruisers to ten each for America and England and six for Japan, he would be prepared to accept the maximum tonnage figures of 400,000 tons fixed by the United States. Mr. Gibson and his colleagues might have reached some agreement with the British with this as a starter, although it was asserted in Washington that our government could not accept Bridgeman's figures. But here the Japanese stepped in with the flat statement that they would not go above 480,000 tons for cruisers and destroyers combined, this being the total for both categories as suggested in the original American plan. Viscount Saito said his delegation was ready to return home without any agreement, but that if the Americans and British could get together, they might as well sign a two-power pact. This, however, did not suit Mr. Gibson at all.

Mr. Bridgeman requested that a plenary session of the conference be held on Thursday. At this he, Mr. Gibson and Viscount Saito again set forth the positions of their respective governments in a formal review of what had been accomplished—if anything. Talking to the correspondents, Mr. Gibson was optimistic. "We luckily hold a middle position," he said. "The Japanese are in full accord with our original figures and we can get an agreement with the British on increased tonnage totals under consideration. Now it is up to the British and Japanese to get together."

America has not definitely held out for 25 10,000-ton cruisers, Mr. Gibson added.

REPRESENTATIVES of the agriculturists in 13 Middle Western states, attending the Northwest farm conference in St. Paul, voted to support the McNary-Haugen farm relief bill until it becomes law, though they were willing it should be revised to meet President Coolidge's objections.

Drafted by Congressman Charles Brand of Ohio, the resolutions urged that the bill be changed: To permit the President to select nominees for the federal board to stabilize prices of farm products, instead of having them chosen by farm organizations. To make the bill general in its application so as to include all farm products, instead of the five specifically named in the bill which Mr. Coolidge vetoed.

MR. COOLIDGE received a call from representatives of the Western Stock Marketing association who presented a plan for extending the co-operative marketing process to the cattle business, and asked government aid in its organization. Extended to the entire Western range, as is suggested, cattle would be manipulated just as the fruit growers of California handle their crops, holding them until they get a certain minimum price. Such an organization would compel the packers to bargain for cattle on the ranches instead of in the Omaha and Chicago markets.

Among other visitors of the week at the summer White House were a large number of members of the National Women's party, just from their meeting in Colorado Springs, who presented to the President their demand for "equal rights for women." The farmers of North Dakota also sent a delegation to tell Mr. Coolidge that they are in favor of the St. Lawrence waterway project and a new diversion of the Missouri river waters through the James river valley and to urge the early completion of those projects.

FRANK O. LOWDEN, whose boom for the Presidential nomination has just received the indorsement of 10,000 residents of Montana, delivered an address before the Wisconsin legislature, and seemed to make an excellent impression. He confined his talk entirely to the problems of agriculture and the necessity for stabilization of prices of farm products. Especially vigorous applause greeted these two parts of the speech:

"What the farmer asks is that he be given the same right to name a price in the first instance and that he be enabled to acquire an organization which will secure to him the same

power to maintain that price which other industries through their superior organization now enjoy."

"The federal farm board should be able to empower organizations of farmers to take control of the surplus and to distribute the cost of that operation not only among the members of the co-operatives but among all the producers, whether they are members or not."

HONOLULU is host, for two weeks, of the Institute of Pacific Relations, and 100 leading citizens of ten nations bordering on the Pacific or having special interests in that ocean are trying to arrive at an understanding of the causes of friction between East and West. The conference is official and the discussions are frank and open, with no germane topics forbidden.

Nearly 50 Americans are present, including Dr. Ray Lyman Wilbur, president of Stanford university and chairman of the institute; Prof. James T. Shotwell of Columbia university; Robert Dollar, president of the Dollar Steamship company; Mrs. Carrie Chapman Catt, lecturer of New York; Stephen P. Duggan, director of the Institute of International Education, and Archbishop Edward J. Hanna of California.

EMULATING Oliver Cromwell, Marshal Pilsudski has executed another coup d'etat in Poland by sending his soldiers into the senate and ordering it to dissolve because it would not pass laws he considered necessary without debating them. Pilsudski had given democratic rule a trial for about ten months but it wasn't satisfactory to him so he has resumed the absolute dictatorship.

PROHIBITION COMMISSIONER DORAN held a conference with his district administrators in Washington and warned them that honest physicians and retail druggists are not to be harassed in the prescription or sale of liquor for medicinal purposes. Prohibition agents are not expected to practice medicine or pharmacy in the enforcement of the Volstead act, according to Commissioner Doran, who continued that doctors and druggists as members of responsible professions, should be given an ample opportunity to explain apparently irregular practices before they are subjected to the expense of proceedings to revoke their permits.

WHETHER the two \$1,000,000 libel suits against Henry Ford will be settled out of court as a result of his public retraction of and apology for the anti-Jewish articles in the Dearborn Independent is uncertain at this writing, but Aaron Sapiro said he was negotiating a settlement of his action. In Washington there was a mass meeting of Jews called to consider Ford's apology, and eloquent appeals for its acceptance in good faith were made. But a majority of those present preferred to wait and see if Ford's actions conform to his words. So the resolution of acceptance was rejected.

JOHN DREW'S death in San Francisco caused the nation to heave a sigh of regret, for the dean of the American stage was universally beloved and respected. His entire life had been given over to the work of entertaining the public with clean, intelligent and thoroughly artistic acting and he passed away "in the harness" though he had reached the age of seventy-three years. Another capable and popular actor, Gregory Kelly, died in New York after several months' illness.

DR. F. SCOTT M'BRIDE, general superintendent of the Anti-Saloon league, has issued a statement saying the league will make every effort to elect a bone dry congress next year, despite the fact that many constitutional lawyers are of the opinion that any modification of the Volstead act would be held unconstitutional by the Supreme court of the United States. "The 1928 campaign," he says, "will be carried into every congressional district. Candidates who are not known friends of the prohibition cause will be opposed, while candidates who are friendly to prohibition will be supported to the fullest extent."

A resolute man is often found to be remarkably shy on resolutions.

The happiest land is one in which the people aren't sore enough to justify the existence of "great leaders."

Come Out of Your Kitchen

No longer does the really efficient housewife spend hours of her precious time baking in the kitchen.

She simply looks for the shop where she can get her pies, cakes, pastries and bread made of just the same rich ingredients she would use herself.

And she doesn't have to search long. One trial of our delicious baked goods proves the quality of the ingredients and how well we know the art of baking.

Bread and rolls made extra nutritious by plenty of fresh yeast and milk.

ATTENTION: WHEAT FARMERS

\$15.55 EXTRA PROFIT per ACRE

Marlette, Mich., Aug. 8, 1926.

The American Agricultural Chemical Company, Detroit, Mich.

Sirs: I sowed 200 pounds of "AA QUALITY" Fertilizer (Homestead Brand, 2-12-2) per acre and threshed this year 40 bushels of wheat per acre—the best crop I ever raised. I never had more than 25 bushels per acre with other fertilizers, and I can truthfully say the "AA QUALITY" Fertilizers did the job.

Yours very truly, (Signed) HUGH CARGILL

Here are facts, not claims. Not an exceptional case, either. One of 1739 reported. This \$15.55 extra profit per acre is about five times the cost of the fertilizer.

"AA QUALITY" Fertilizers produce these outstanding results because only the best sources of materials are used. They are scientifically compounded and blended to provide properly balanced, readily available plant foods continuously from seeding to maturity. Perfect mechanical condition insures easy and even distribution.

THE AMERICAN AGRICULTURAL CHEMICAL COMPANY Sales Office and Works P. O. Box 814, Detroit

Look for the "AA QUALITY" seal on every bag of fertilizer. It stands for 60 years of manufacturing experience.

This seal guarantees more than correct chemical analysis—it assures you of proven crop-producing value.

The score of Tuscola county representatives ranked higher than that of either Huron or Sanilac county boys. Dugald Duncanson, a former resident of Cass City, passed away on Saturday morning, July 16, at Biloxi, Miss. He was taken sick the night before his death. Mr. Duncanson was born near London, Ontario, about 1850 and came to this country about 40 years ago. He had spent the past three or four winters in Biloxi. Doris Brooks was 13 years old on July 13 and 13 young folks were present at a party given in her honor by her mother that evening from seven until ten o'clock. Refreshments of ice cream, cake, sandwiches, oranges and lemonade were served. It was a happy time for all and Doris received some very nice gifts. Out of town guests were Evelyn, Phillip and Arleon Retherford of Deford, cousins of Doris, and little Gertrude Retherford of Royal Oak. St. Francis Borgia, one of the most beautiful Catholic churches in the Thumb district was dedicated Tuesday, July 19, at Pigeon. No contractor was employed to construct the building. Rev. Fr. Edward Gutha, pastor of the Pigeon church and of the Blessed Virgin church at Sebawaing, supervised the construction. Much of the work was donated. The edifice is of modern brick and tile construction with permanent roof and all equipment of a modern church. Both interior and exterior are very attractive, the style of architecture being Romanesque. It is 98 ft. long and 42 ft. wide in front, 56 ft. wide in the transept, with a seating capacity of 350 persons. It has stained antique windows. An auditorium, which will be used as a recreational center, was also built west of the church, capable of seating 400, and will be used for plays, etc. The floor of the auditorium will be used as a basket ball court. Rt. Rev. Michael J. Gallagher, D. D., bishop of the Detroit diocese of the Catholic church delivered the dedication service and Rev. Fr. Joseph Maers, former pastor of the parish celebrated solemn high mass after the service.

We know about a hundred who are havin' a spell o' summer flu, Throat all sore and watery eyes, Ain't it fierce? We sympathize.

What Makes a Hen Worth Money? Why, eggs of course! And what can you do to make your pullets into fine, big hens that lay more regularly?

Here's the answer: Feed Growena Growing Mash to the pullets and see them grow into large framed, eager to lay hens. Right now young birds are developing and if you give them the things that build frames and vigorous organs, you'll get more eggs next winter when eggs are worth real money. Do it right away. It's easy to use, saves bother and labor and goes farther.

Household hint—According to a trade magazine here, the best way to get rid of bed bugs is to chase them up the spiral bed springs until they get dizzy, then suffocate them with a sock.

Rain is not usually welcomed by the average boy. The more it rains, the more I have to mow the lawn, he reasons.

"If you are going fishing with the wife this summer," advises one of our newspapers, "take a hook and sinker."

Long time since we've seen a horse get frightened at an auto. In fact, it's a long time since we've seen a horse.

We often wonder who invented Cream of Wheat flour ought to have a memorial built in his honor. Cass City ladies who use Cream of Wheat flour will agree with us, too.

Small Son—"I ain't pullin', it's the cat." Mother—"Quit pulling the cat's tail."

Feature Story! "Children," said the Sunday school superintendent, "Why are we all like flowers? What do we have that flowers have?" "Worms!" shouted a small boy in the primary class.

And the superintendent crept under the pulpit chair to hide his emotion.

We know men who crab about the way things are going here in Cass City but boost to beat the band when they get away from home.

Why certainly! We're glad to run announcements of your meetings in the Grist Screenings. We want this space to be useful as well as "ornamental." If you're having a dinner, a bake sale, or any sort of a get-together, telephone us. It won't cost you a cent.

HORN HONKING STIRS DANIELS

Expert Drafts List of Ten Rules for Driving a Car on Sunday.

Ten special rules for the regulation of Sunday automobile traffic, in which the blowing of the horn upon all occasions is stressed, have been compiled by Harry Daniels in Thrift Magazine. Observance of these rules will insure drivers a portion of that highway confection known as traffic jam. Here are the rules:

1. On account of only taking out your car on Sundays, you are entitled to a lot of special privileges. For one thing, you can drive anywhere on the road you please. This entitles you to select your own ditch.

2. You are allowed as many assistant drivers as the back-seat will hold, provided they all give instructions at once. Don't neglect to blow your horn.

3. Whenever you get around a corner without hitting anything, stick out your left hand.

4. If you happen to run into a tree or fence, go to the nearest policeman and file a complaint. People must learn to be more careful about where they leave their trees and fences standing around outside. Be sure and blow your horn.

5. Take no back talk from any traffic cop. They don't understand the rules and get a good driver all mixed up. If one of them gets too fresh let him have a drink out of your flask.

6. In case your car starts running backwards by mistake, just let it go till one of the assistant drivers can find a wrench to use on your head.

7. If you run out of gas, put on a new tire. If the darned engine dies on you, let down your top and tighten up the bolts on your running board. Keep the horn blowing.

8. Whenever you find it is going to be possible for you to crash into another car, notify your assistant drivers at once so they can all be thinking up a lot of pretty names to call the other driver.

9. If another driver runs into you, stop whatever is left of your car and jump out at once so he can knock you down without needless delay.

10. If you find yourself tied up with a lot of other cars, don't try to get out, but be satisfied just to work yourself around so that nobody can get out. And keep that old horn going.

Hugging Inside Curves Dangerous for Drivers

Perhaps it is because every one knows that a straight line is the shortest distance between two points that a majority of motorists hug the inside of a curve when climbing a hill. It is well to remember in such a case that the shortest way is not always the best.

In hill climbing the outside of a curve, while longer, always is easier on the car than the inside. It simply is a practical application of the law of mechanical advantage. To climb up the longer way the engine is forced to make more revolutions, and therefore it is capable of lifting the machine that much easier.

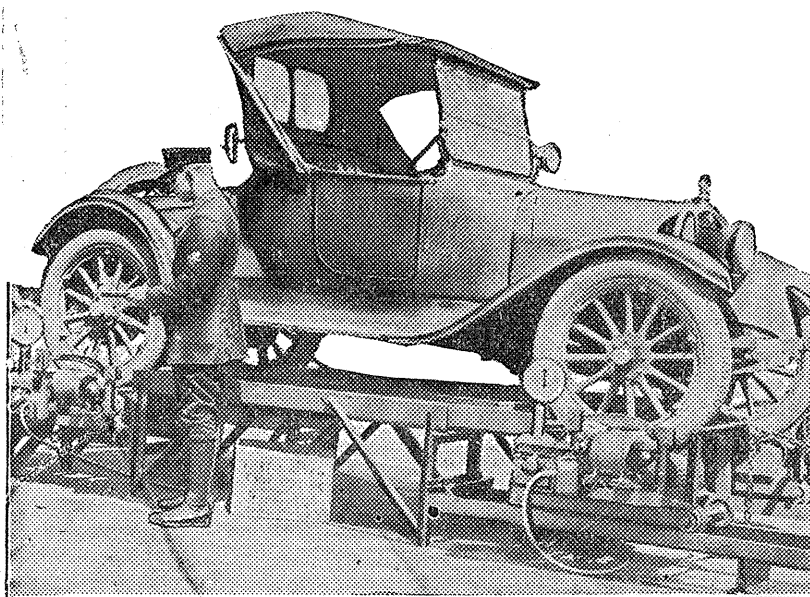

Regardless of the path the driver takes, the engine is required to lift the car the same distance. Taking the outside is a matter of spreading out the work over a greater number of revolutions.

Operation of Piston at High Speed is Big Feat

At a speed of 60 miles an hour, the pistons of the ordinary automobile engine are traveling at a rate of 30 miles every 60 minutes. Yet, they reverse their direction about every five inches of the way.

That this process can be continued without audible knocking of the pistons against the cylinder walls or banging of the connecting rod bearings is one of the greatest single achievements of modern engineering.

NOVEL DEVICE TESTS EACH WHEEL BRAKE

The first public demonstration of a new automobile brake-testing device has shown that 98 per cent of Washington's (D. C.) machines are as fault as far as perfect equalization of brakes is concerned. The machine to be tested is run on a platform, each wheel resting on a set of rollers which revolve at a speed which makes their pull correspond to the ordinary road pull. A separate gauge for each brake tells just how efficient each brake is.

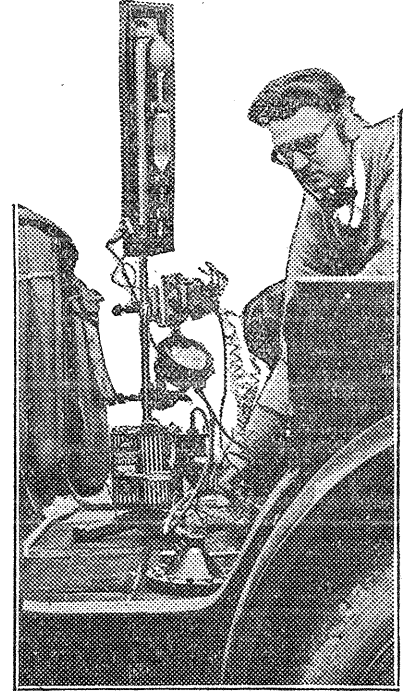

First Rule to Remember in Removing Mud Stains

The first rule to remember in taking the mud stains off a car is that they should be taken off at the first possible moment after the mud has fastened itself upon the car. Every minute of delay means so much more difficulty and so much more likelihood of a permanent spot. The reason for this is that mud will fasten itself very securely to the finishing coat of the car as it dries. When it becomes thoroughly dry and the mud is removed it simply takes the varnish along with it and leaves an unprotected spot of color on the surface. Very often this spot will not show for a short time, but as soon as it is exposed to a little wear or hard weather it will become visible.

Water is the only cure for hard mud, but water must even be used judiciously or it will be of as much harm as good. The garden hose is called into use by the suburbanite in cleaning the car. On this hose there is a nozzle which is adjustable to throw anything from a spray down to a thin, hard stream that has force enough to carry it 20 or 30 feet. This nozzle should be arranged to allow the water to come forth in a gentle stream so that when it strikes the body it only has a flowing or washing action without the suggestion of impact. This will dissolve the mud, removing it grain by grain.

Test Relative Comfort While in Automobile

In tests of relative comfort in motoring the United States bureau of standards in Washington has developed a new instrument, an accelerometer, which records the degree of comfort or discomfort minutely. The instrument was devised by Dr. H. C. Dickinson, chief of the division of

Testing Comfort of Auto.

heat and power. The device measures the acceleration of automobile seats caused by changes in speed and from vertical motion. Through its use it is hoped seats will be devised which will be much more comfortable. The photograph shows D. C. Ritchie testing the device.

AUTOMOBILE ITEMS

The United States makes 786 different models of motor vehicles.

If a man has enough relatives, he can easily go broke running a filling station.

The woman driver who gave us more than half the road the other day was in a ditch.

The world's champion idiot is the man who honks his horn to make the automatic traffic light give him the "Go" signal.

Another need is for an automobile that won't get all scratched up when it tries conclusions with a locomotive.

Tightening the body bolts of an automobile is not the hard job it sounds if the owner really is intent upon removing rattles.

State News in Brief

Detroit—Colonel Charles A. Lindbergh will visit Detroit August 11, this being the tentative date fixed by the schedule for the flier's trip around the United States in the interests of commercial aviation and contained in a letter to Mayor John W. Smith, received from Harry F. Guggenheim, president of the Daniel Guggenheim fund for the promotion of aeronautics.

Owosso—Twenty-five barrels of oil are being pumped daily from the first oil well in Shiawassee Co., according to the drillers. While this amount is comparatively small, operators declare that the large amount of water found is a good indication. The well has not been shot yet and the oil being pumped is only seepage. The well is down 2,203 feet. Preparations for a big flow are being made.

Lansing—Bootleggers confined in the Michigan State Reformatory at Ionia, may get their confiscated cars returned to them to repair. At the suggestion of Gov. Fred W. Green, the State Administrative Board has adopted a motion whereby all cars confiscated by the state police, approximately 4,000 annually, will be sent to the Ionia institution for painting and other repairs before being sold at public auction.

Mt. Clemens—A boy's love for his dog resulted in the death of William Bridges, 14 years old, only child of Mr. and Mrs. Noll Bridges, of Roseville. The boy jumped from a boat in Lake St. Clair for fear he would lose his pup, which had jumped overboard. Believing his dog would swim away and be lost, the lad jumped from the boat and plunged to the bottom of the lake. He never came up, according to the three boys in the boat. The dog swam to shore.

Port Huron—After lying for two days by the side of an unfrequented road near Allington, St. Clair county, with his throat cut in an attempt to end his life, Edward Davis, 66 years old, of this city, was brought to Port Huron. Davis was found by a farmer living near Allington. He heard moans and investigated. Davis told him he had slashed his throat with a knife in an attempt to end his life. The knife did not hit a vital spot but Davis was weak from loss of blood when found.

Lansing—Michigan's tax bill to the federal government dropped off considerably in the last fiscal year, as a result of the Coolidge income tax reduction program and the cut in the automobile tax, the treasury department announced. Telegraphic reports from the various collectors of internal revenue throughout the country show total receipts of \$2,865,895,509, of which Michigan paid \$197,993,492, a decrease of 12 per cent. In spite of the drop in Michigan taxes, the state returns as a whole indicated increased prosperity.

Brown City—The discovery of a cache of small bills and currency on a lot in back of the local bank has given Brown City its first touch of gold fever. The "buried treasure" was discovered by 11-year-old Ethel Schause, who stumbled over a piece of wooden moulding on which was written: "And under this board you will find a little hole. Dig down it and you will find some gold. It is yours." Ethel, her sister, and a little friend started to investigate and after a few minutes' digging unearthed about \$150 in currency.

Port Huron—Three swarms of angered bees held sway here for several hours recently, driving pedestrians to cover and forcing a temporary halt in motor traffic at two main intersections. More than 40,000 of the invaders massed army-like in three squadrons. The attack began. It grew in ferocity while police pondered the delicate problem. Finally William Blake, a bee expert, living near here, was summoned. Within two hours he gathered the bees together. Authorities do not know from where the invaders came.

Flint—Miss Mildred Doran, 22-year-old school teacher, and Augie Pedlar, Flint aviator, have left Flint in their newly christened airplane, the Miss Doran, on the first stage of their flight to Long Beach, Calif., from where they expect to hop off about Aug. 11 on a flight to Honolulu in a competition for a \$25,000 prize. At the christening ceremonies, Miss Doran was presented with an American flag. The flag will be carried on the flight to Honolulu. Miss Doran also took her seven-week-old puppy, "Honolulu," along as a mascot.

Lansing—Michigan's 2-cent gas tax raised \$1,206,647.73 more for road building purposes during the last fiscal year, ending June 30, than it did the preceding fiscal year, according to figures issued from the office of John S. Haggerty, secretary of state. A still larger increase in revenue is anticipated for next year from the gas tax as it stands, independent of the proposed 1-cent increase. The receipts from the gas tax for the fiscal year ending June 30, 1926, totaled \$9,311,767.64. The receipts this year totaled \$10,518,415.28.

L. V. NASH HAD JOYOUS TRIP

Concluded from first page.
home 40 miles away and arrived at midnight. On the bus I rode over the same road with but little change of route in three hours or more, in one of the chariots foreshown by the prophet, Nahum, and yet not even dreamed of in those pioneer days of Tuscola county.

Arriving in Cass City after the interesting ride over roads so familiar fifty years and more ago, I got supper and soon found myself in the beautiful and hospitable home of Mr. and Mrs. James Tennant. Seeing him brought memories of him in the past when he came to town and became such a part of the life in the Laing and Weydemeyer store for so many years.

Now, there are too many things to relate of the stay in your city, and must give but a few of them. The first is that which must remain in my heart and be recalled from time to time with depth of feeling. It is the kind and warm expression of gladness in seeing me again by the remaining ones whom I knew in the years so long ago. A number of persons remembered me as a teacher in schools taught nearly fifty years ago. One, Mr. Doerr, so kindly remembered me from the winter I taught the Gageton pupils in the winter of 1875-6, and finding I desired to see Mr. and Mrs. Richard Burdon, from whom I had heard nothing in many years,

and supposed them gone with the many others who have passed on, took me to Gageton, where an hour slipped away in much joy in seeing friends of nearly sixty years ago in whose home I remained while teaching the Brookfield school.

Of the celebration in the Presbyterian church, I need not speak, save to say how glad I am that the work of the church has been carried on through the years, and that there is the high regard for it, that the celebration of the half century of church life met with such loving response to do all necessary things so fitting to the occasion. Had the church edifice been abandoned, as many others have during the time, I would have felt depressed, indeed. But I find it even enlarged and beautified, and refined people still in the great faith that saves the souls of sinners and prepares them for the presence of the Lord of Glory for eternity. And how may we ever truly feel the real meaning of the work that lifts souls up to take hold of the things in the Holy Scriptures so grandly given? Let every loving heart seek to rise higher and higher in the pathway of life and peace in communion with saints and our Lord and Savior.

Your city has been changed, I find, since I departed from it in 1884. And again, I rejoice in the improved streets, and in the many fine homes that grace a truly fine town. The hard maple trees are an ornament, indeed, and to be prized.

Bidding adieu to the friends in the home of my sojourn in the city in which I would again like to live, I came to the home of Mr. and Mrs. Ed. Burse, finding a ride with one of the supervisors, John Benkelman. There I looked over the old home farm, and again recalled so many scenes of years long gone by. The contrast between the conditions of 1860 and 1927, bring to mind more of the work and meaning of the old pioneers. There I could stand and look about and see again all the hard work done in clearing the great forests that covered the now fine farms of that part of the county. Strong hearts as well as strong bodies were required to go into the deep forests and make a home and rear a family. But it was done, and but few remain to look over the places where the longing for the far distant scene was denied by the wonderful trees and towering pines that graced the land if one could find a height from which he could see what was there in such abundance.

Passing on to Detroit, I went to Adrian, and after a short stay there with relatives in a very pleasant visit, came home again in good old Iowa, finding the wife waiting for me, and very glad to hear of what and whom I had seen in the days long to be remembered.

Again I wish to tell of the joy of meeting friends, and of being reminded of what is so precious, continuing friendship, and in so many, the faith that assures me that we shall meet again where we shall know the great goodness that has followed us all our days and will go on before

us to lead us into the city that has no sin in it.

With kindest regards and best wishes to all who made my stay there so pleasant, remain sincerely yours,

L. V. NASH.

State News in Brief

Lansing—Michigan growers increased their potato acreage 12 per cent this year and planted 279,000 acres. Although a marked increase, this acreage still is considerably under the 10-year average.

Detroit—Cecil Mattinson, 19 years old, received serious injuries as the result of a 100-ft. fall through the smoke-stack of the Detroit Creamery Co. plant.

Lansing—With Michigan's winter wheat harvest close at hand, the output is expected to be larger than last year and above the average.

Lansing—Michigan's corn acreage this year is 8 per cent smaller than last year and the low condition of 64 per cent normal indicates that the 1927 crop will be the shortest in the past 10 years.

Corunna—Mrs. John Florinski, of this city, is again united with her three children after 15 years.

Battle Creek—Three warrants have been issued here for a man who telegraphed his mother he had died in a Grand Rapids hotel.

Lansing—Attorney-General W. W. Potter is on the way to Germany where he will investigate claims of alleged heirs seeking to recover from the State of Michigan the \$500,000 Klumpf estate.

Battle Creek—Despondent because of a shattered sideshow romance, Joe, "the boy with the elastic skin," with Ringling Brothers and Barnum & Bailey circus, committed suicide here by swallowing a quantity of poison.

Kalamazoo—Donald Carson, of the army flying school, at Brookfield, San Antonio, Texas, escaped death here when the plane he was flying crashed.

Detroit—E. F. Schlee, president of the Wayco Air Service, Inc., and Billie Brock, chief pilot of the company, both of Detroit, will attempt a round-the-world airplane flight to smash the present record of 28 days.

Grand Rapids—Two sisters and a brother were principals in a triple wedding ceremony recently at which another brother officiated and their father assisted.

Grand Rapids—The ceremonies were performed by Rev. J. M. Vandekieft, pastor of the Oakdale Park Christian Reformed church in this city.

GAGETOWN

Miss Georgia Munro, a student nurse at Harper Hospital, Detroit, has been honored by receiving the highest seniority in her class, or ranked highest in class work personally as a nurse and duty in the hospital.

Mr. and Mrs. Alfred Rocheleau entertained in honor of little Catherine's third birthday Wednesday, July 13, from 3 to 5, with a lawn party to the following guests of little tots: Marie, Billie and Carl Lenhard, Marian and Marjorie LaFave, Madelyn Walsh, Elinor and Isabell Fournier, Geraldine and Junior Kehoe, Genevieve Downing, Eugene Commet, Virginia Guza, Joy Fischer, Paul Hunter, Margie Pryor, Melvin, Thelma, Elizabeth, Pat and Virginia LaFave and Mary K., Ilene and Warren Van Hatton of Flint. Each guest was presented with a crepe paper cap of dainty shade. Games were played. Miss Catherine was the recipient of many lovely gifts. Refreshments were served under the wide spreading maple trees on the lawn.

Mr. and Mrs. Strimpel of Detroit visited Mr. and Mrs. Tony Weiler on Sunday, motoring to Bay City to visit Mr. and Mrs. Karner a few days.

Mrs. Van Halton and children of Flint are guests of Mr. and Mrs. Ted Fischer.

NEW BEAUTY—NEW COLORS and Surprising Price Reductions!

—made possible by the efficiency and economies of the world's newest and finest motor car factory

Enriched in beauty by new and fashionable color combinations, Pontiac Six is announced today at new low prices on every body type!

This surprising price reduction comes at a time when Pontiac Six Sales have been surpassing all previous records—and is made possible only by the economies of increasing production in the new \$12,000,000 Pontiac Six Plant.

So now at a base price of only \$745 Pontiac Six offers the following features which constitute definite assurance of lasting satisfaction and which are obtainable in no other low priced Six: (1)—Bodies by Fisher—with all the Fisher advantages in styling, comfort and safety. (2)—The largest engine used in any Six priced up to \$1,000. An oiling system which forces 250 gallons of oil an hour through the engine at 35 m. p. h.

Come in! See this triumph of efficient production and advanced design which makes possible the enjoyment of six cylinder performance and Fisher body luxury at the lowest price in history!

FARMING AND FINANCE.

Concluded from first page.
 In less foreign hog growing and an improved export demand, with a reduction in present large stocks of lard and bacon.
Good Crops Would Help Business.
 Undoubtedly business men would like to see the farmers have good crops this year. Abundant crops quite often help general business more than is sometimes realized.
 The best conditions for the successful expansion of industry are undoubtedly found in a plentiful and cheap supply of food and raw material.

The industrial expansion of Britain in the 19th century was based on a cheap and plentiful supply of food and raw materials obtained chiefly from America, where, by the opening of vast new areas of agricultural land, plus the invention and application of new agricultural machinery, the output per man was greatly increased.

The advantage was mutual since these advances in agricultural technique also increased the income of the farmers.

From the standpoint of the purchasing power of the agricultural communities, the outlook at this writing is not less favorable than it was last year at this time. On the contrary, the recent marked advances in prices for wheat, corn, oats, and cotton may afford an even larger purchasing power than the record crops of last season.

Substantial Decline in Lamb Prices.
 Prices for lambs in the wholesale markets have declined substantially during the last month because of the heavy receipts at markets. The low point in prices is normally reached at this season. A further moderate decline during the near future will probably mark the bottom of the downward price movement.

Replacing Old Farming Appliances.
 In spite of the talk that has gushed forth during the past year from different angles of the country relative to the poverty of the farmers, apparently the process of replacing old harvesting appliances has not received a complete stoppage by any means. Every year now seems to see more modern methods applied on the farms of this country as a whole. Of course, some are more fortunate than others.

At harvesting time, farm help is not always plentiful nor wages low. Districts vary in this respect. It takes money—and courage—to add to the investments of one's farm in the way of new machinery, at such a time as the present.

Yet it all helps to the conclusion that, after all, farm business and industrial business are very much alike. Cost-saving and better prices will smooth the road towards a better debt status in either business. Industrial concerns are all the time looking for ways and means to reduce the cost of producing their goods. They are called upon sometimes to spend money for new inventions in order to save money and fight competitors effectively. Farmers are doing likewise, more slowly simply because they cannot help it.

HOSPITAL NOTES.

Mrs. Florence Powell of Owendale was admitted Thursday, July 14, and was operated on Monday for caesarian section. Mother and baby are getting along nicely.

Mrs. John Kontor of Deckerville was operated on Wednesday for exophthalmic goiter.

Emerson Rose of Snover was admitted Monday and underwent an operation Tuesday for appendicitis.

Mrs. Arthur Little of Cass City was operated on Tuesday morning.

Mrs. J. B. McDonald of Cass City was admitted Tuesday and underwent an operation Wednesday.

Joe Bonkowski of Port Austin was admitted Tuesday and operated on Wednesday.

John Schaes of Cass City was able to leave the hospital Monday. Eldred Kelley is still a patient.

Most of the big jobs are held by men who couldn't even name three naughty magazines.

MISS THOMAS' FUNERAL AT UBLY THURSDAY

Funeral services for Miss Carrie S. Thomas, who died on July 10 following an emergency operation, were held at the Ubyl Presbyterian church of which she was a member, on Thursday, July 14. Rev. Cornell officiated and interment was made in the Ubyl cemetery.

Miss Thomas was born at Tyre, Mich., Feb. 14, 1884. She leaves her father, Wm. Thomas of Tyre and three sisters, Mrs. S. W. Soule and Mrs. Joseph Weltin, both of Tyre, and Mrs. A. N. Treadgold of Detroit.

Bridegrooms Pick Types

A helpful German philosopher has made it easier for a man to decide what sort of a wife he ought to have. All he has to do is to find out whether he is a hyomypic cyclohyomous type or an antistisic schizoid. As soon as he knows this the rest is easy, says Capper's Weekly.

All Termed Kanakas

Kanakas are the natives of the Hawaiian Islands, but the name is especially applied to the natives of the New Hebrides and other South Sea islands who were formerly employed on the sugar plantations of Queensland, Australia.

Short Summer

The air-mail pilots who fly over the Rocky mountains have a summer that lasts but two months—July and August—the other ten months being so cold in their line of service that they must wear thick, warm flying suits.

HUGH MacLEOD PASSED AWAY AT PONTIAC

Hugh MacLeod passed away at his home at Pontiac Wednesday morning at nine o'clock. He lived most of his life in Caro, coming there in his boyhood days. He worked over a year for Herman Charter of Cass City. If he had lived until July 23, he would have been 31 years old. He married on his 24th birthday Miss Fern McLalin of Caro.

Mr. MacLeod died of intestinal flu and inflammation of the kidneys, after an illness of five days. His loved ones are stricken with grief over his sudden death which comes so soon after the death of his brother, David, who passed away six months ago. This makes three deaths in the family in less than a year, as Hugh lost a little son in September, 1926.

Mr. MacLeod is survived by his wife and two children, Hugh, age 5, and Gladys, age 3, his mother, Mrs. Hugh MacLeod of Caro, four brothers and four sisters, Philip, Nellie and Mrs. James Moore, all of Caro; Mrs. Ira Wilson of Cass City; and John, James and Malcolm and Mrs. Willis Stoner, all of Pontiac. Funeral services were held at Pontiac Friday at 9:30 o'clock and burial at Caro.

CARD OF THANKS—We wish to thank the friends and neighbors for the kindness shown and for fruit and flowers sent during Glenn's illness; especially do we thank Dr. Morris and the nurses at the hospital. Mr. and Mrs. Dan McClorey and family.

IN LOVING memory of our dear husband and father, Paul Silvernail, who died one year ago July 23.

Just when his years were brightest, Just when his life was best, He bade no one a last farewell, He said goodbye to none, No loved ones stood around him To bid a last farewell; No word of comfort could he learn, To those he loved so well. When the evening shades have fallen And we are all alone, In our hearts there comes a longing If you only could come home. No friend like him on earth we'll find For all of us he did his best. Your memory we shall always keep, Your smiling face to us so dear Your gentle footsteps no more we hear, Your willing hands and face so sweet In heaven again we hope to meet. His loving wife and family.

CARD OF THANKS—I am very grateful to friends and neighbors for their kindness in my recent bereavement and for the beautiful floral offerings, to Rev. Scott for comforting words and to Clinton Bruce for singing. Mrs. Don Nutt.

NOTICE to Oddfellows—There will be a meeting at the I. O. O. F. hall on Tuesday evening, July 26, for the installation of officers and other business to transact. Light lunch served. 7-22-1
