MANY ANIMALS FOR CLUB EXHIBIT AT FAIR

Young Folks Are Fitting Live Stock for Cass City and Detroit Shows.

Fifty head of dairy cattle, five head of beef cattle, between 15 and 20 Chester Whites and 10 Berkshire swine will be the approximate size of the showing of Cass City clubs in club exhibits at the Cass City Fair August 15-19. Other clubs in the Thumb will also send exhibits in club work, it is expected.

"The stock is looking exceptionally good," says Willis Campbell, club leader. "We have the same quality as in the previous year and much better fitted for exhibition purposes. In dairy cattle there will be 40 Holsteins and ten head representing other dairy breeds. In the beef class will be five steers, one Hereford, one Shorthorn and three Aberdeen Angus. The Boys' and Girls' Pig Club will show from 15 to 20 Chester Whites and 10 Berkshires."

Some of the stock of the local clubs will also be exhibited at the State Fair. James Milligan is working hard to fit his steer as a champion at the Detroit fair. This calf will weigh about 100 pounds heavier than last year's calf. Clarence Merchant is getting his 1926 grand champion calf at the State Fair well fitted to show at Cass City and Detroit. Claude Mitchell, who won reserve champion calf at Detroit, is also giving this animal careful grooming for the shows this season.

G. W. Landon Treas. of Michigan Carriers

Mr. and Mrs. G. W. Landon attended the 25th annual state convention of Michigan Rural Carriers' Association held at Ludington July 26, 27 and 28.

The first session was called to order by the state president, W. G. Armstrong. The meetings were held in Gray Hall of the First Methodist church. Tuesday afternoon, C. G. Wenrich, of the fourth assistant postmaster general's department, Washington, D. C. gave an address. In the evening the Oriole orchestra entertained and E. D. Maxwell of Vassar gave a reading followed by a social hour. Mr. Wenrich in his address said "By the use of tact, diplomacy and common sense, rural carriers can maintain the good will of their patrons. The true purpose of the postal department is to serve the people. The true postal idea is service. It cannot be made successful except by a hearty co-operation of men in the service."

Other prominent speakers during the convention were Robert B. Dick of Indiana, treasurer of the National Rural Letter Carriers' Association; B. L. Reed, state president of National Association of Post Office Clerks; and Congressman J. C. McLaughlin. The Ludington high school band gave a concert Wednesday which was followed by a banquet.

At the election of officers all were re-elected except treasurer and G. W. Landon of Cass City was elected to that office. W. G. Armstrong of Niles is president; B. R. Gardner of Boyne City, vice president; J. L. Hoyt, Bellevue, secretary. The 1928 convention is to be held at East Jordan.

The Ladies' Auxiliary also met at Ludington. This year Michigan has 460 members, ranking third in place. Mrs. W. G. Armstrong, speaking for the ladies said, "We encourage them to give service with a smile."

A. L. Kinney Files Amended Schedules

Amos L. Kinney, manager of the now defunct banks of Silverwood and Clifford, known as Ealy and Kinney Co., has filed amended schedules in bankruptcy in the district court at Bay City through his attorneys, Farley and Selby, of Flint.

In the petitions Kinney lists his liabilities at \$114,903.82. His total assets, according to the petitions, are listed at \$229.89, besides his real estate and personal property, which has already been turned over to the First National bank here, the trustee in the case. Kinney claims exempt two cows, valued at \$19, and a Ford automobile, appraised at \$175, and his wearing apparel.—Bay City Times-Tribune.

Potato Field Meetings in Tuscola

There will be field meetings on potatoes held at the following time and places in Tuscola county.

Thomas Valentine, Section 15, Wa-

tertown, Monday, Aug. 8, 10:00 a. m. Morris Mount, Section 27, Dayton, Monday, Aug. 8th, 1:30 p. m.

John Newton, Town line between Arbella and Tuscola, Tuesday, Aug. 9, 10:00 a. m.

George Honsinger, one mile south of Watrousville, Aug. 9, 1:30 p. m.

County Agent D. B. Jewell will be assisted by David Woodman, County Agricultural agent of Huron County, at these meetings. These will be field meetings in which diseases will be identified and sprayings and its results discussed. The object is to learn to identify the different diseases and learn methods of control. Tuscola County ranks fifth or sixth in state production in potatoes and about 52nd in acres yield. It certainly is not the soil that causes the low yield but more likely disease much of which can be prevented. Everyone is welcome to attend these meetings.

BASE BALL AND HORSE RACES AT FAIR

Both Have Prominent Place on Fair Program for Four Afternoons.

Base ball and horse racing will have a prominent part in the entertainment program of the Cass City Fair held Aug. 15, 16, 17, 18 and 19. On four afternoons, both sports are on the program.

The base ball tournament opens Tuesday with Cass City playing Clifford. On Wednesday afternoon, the White Star Oil Co. of Detroit will play a Caro-Cass City team. On Thursday afternoon, the Gratiot Ave. Street Car All Stars of Detroit will meet the Bad Axe nine, and on Friday afternoon the Colored Giants will play the All Stars from Akron, Caro, Cass City and Unionville.

Four afternoons of horse racing are scheduled in the following program:

STATE DROPS AUTO SPEED LAW AUG. 14

State Highways Are To Be Patrolled, Reckless Drivers Nabbed.

Michigan's new traffic law, which goes into effect August 14, removes the 35-mile-per-hour speed limit and leaves the driver of an automobile to use his judgment and to drive not faster than a speed "at which a driver can operate his car carefully, safely and prudently."

The revision of the speed limit law is expected to prove effective, both for the motorist and for the traffic officials, highway officers state. "Drive safely" will be the new law for the motorist. The highways will be well patrolled, however, and all motorists driving in a reckless manner will be arrested, the officials declare.

Frank F. Rogers, state highway commissioner, has presented a summary of the new highway legislation passed at the recent session of the legislature. New laws include the following:

Provision for the payment to cities of \$2,000 a mile for maintenance of trunklines in cities where all the maintenance burden is on the municipality.

The Burke law, requiring the removal of slashings and debris from timber operations at least 100 feet from roadways.

Creation of a "wet traffic" season in March, April and May and limiting of truckload weights in that season.

Providing for the establishment of automatic signals at railroad crossings, with the installation cost divided equally by the railroad and the county, township or city.

A new condemnation law, giving the highway commissioner power to hold "hearings on necessity" and take immediate action after the hearing.

A law prohibiting the abandonment of roads that skirt lakes and streams, except through circuit court action.

Laws making it a felony to drive away a car without the owner's permission and laws requiring all school buses to stop at railway and interurban crossings.

Caro Players Accept Challenge

Cass City golf players have received an acceptance of a challenge issued to Caro players last week to play a game at Verona Hills course on Aug. 4. The acceptance written on a letter head of H. H. Smith, an attorney at the county seat, is dated Aug. 1 and is expressed in the following language:

"To the Cass City 'Slicers,' 'Hookers' and 'Dubs':

"Your vicinity has produced some remarkable athletes, ball players and field day winners but you can't win a golf game basking in the reflected glory of these strong young men of your town who have shown their mettle in the lists of sports.

"Your challenge to meet you at the golf course at Bad Axe on August 4th next, play to commence at 2:30 p. m., is unconditionally accepted. We will be there. To avoid surprise you ought to know just what you are up against.

"Barney Ransford is our umpire. To him the fairway is always the 'midway'.

can't bear to walk on the nice short grass on the fairway. So he plays in the rough all the way round.

"Pat Riley, who depends entirely upon his scenery, 'sichology and a sharp pencil to win.

"Hoke Smith, who can tee a ball as well with his foot as his hands.

"Clinton Seeley who has figures to show that he gets more pleasure playing the nineteenth hole than any other part of the course.

"To these may be added Carl Emery and Libbie Axford, two youthful golfers who have never been accused of picking up anybody's ball until it stopped rolling.

THUMB DISTRICT NEWS PARAGRAPHS

Items Gleaned from Newspaper Exchanges and Other Sources.

Unionville—The Unionville school raised its tuition from \$60 to \$80 for non-resident pupils.

Imlay City—Dr. C. M. Brailwood has one of the best collections of Indian relics to be found in Michigan, comprising nearly 3,000 pieces.

Vassar—For the convenience of patrons at functions in the village park, 30 steel benches have been purchased out of funds raised by the Vassar Exchange club through popular subscriptions.

Vassar—The east half of the five mile stretch of the Vassar-Richville concrete highway has been completed. Over 100 carloads of cement and 500 carloads of sand and gravel will be required to build the five mile stretch.

Sandusky—Sanilac county road commission plans to build 14 miles of new road this year. The townships to receive the improvements are Maple Valley, 3; Moore, 3; Flynn, 1; Delaware, 1; Watertown and Washington, 4; Elmer, 3.

Pigeon—H. P. McGinnis of West Virginia, representing the Philadelphia Oil Co., was in Pigeon part of last week and gave out the information that his company may drill a well in that vicinity this year. The company has approximately 6,000 acres leased north and east of Pigeon.

Capac—Capac's new industry, Durox Products, Inc., started to break ground for its new factory this week. They will manufacture various products from a new process of wood fibre. It is expected to provide employment for about one hundred men.

Bad Axe—State officials of Michigan realize the necessity of good roads in the Thumb district, with a concrete pavement around the Thumb shore line, and the roads will be built as soon as it is possible and practical to build them, Gov. Fred W. Green assured the people of the Thumb on his tour of this district Tuesday.

Harbor Beach—Funeral services for Edwin Hollander, local high school student whose body was found floating in Lake Huron three miles north of here on Saturday, were held Aug. 1 at the home of his parents, Mr. and Mrs. John Hollander. Hollander and Douglas Carmichael, the latter also a high school graduate here this year, left Harbor Beach in a flat bottom sail boat five weeks ago. They were last seen alive as they drifted into Lake Huron. The body of Carmichael was found about 10 days ago near Pointe aux Barques.

Bad Axe—A plan to hold up the State Savings bank here was revealed when Sheriff John L. Hoffman arrested John M. Rigby of Detroit and obtained a confession from him. Rigby was arrested charged with being implicated in robberies in Detroit. His plan for the Bad Axe robbery was checked when his friend Roscoe

Merritt was shot while attempting robbery in Detroit. The plan for the Bad Axe robbery called for three men, one to guard the rear and be ready with an automobile. Two were to enter the bank, cover the employes, get the money and leave by the rear door. Rigby was arrested at the home of Mrs. Paul Brandemill, Verona township, where he was staying. Sergeant Ryckman of Detroit assisted in the arrest.—Tribune.

Champion Showman Medal to Local Club

Willis Campbell, local club leader, has received for the Boys' and Girls' Club at Cass City a bronze medal which has been awarded to the local club in recognition of champion showmanship. The medal is from the Holstein-Friesian Association of America and bears the words "Awarded for Superior Merit." This medal is the same as that awarded by the association at the International Live Stock Show.

IDEAL WEATHER AT MASONIC PICNIC

A number of Masons from Cass City attended the Masonic picnic at Caseville Thursday. Ideal weather prevailed and many enjoyed the bathing while others took in the ball game between Bad Axe and Pigeon, Bad Axe winning 18 to 4. Picnic lunches were not small part of the day. A clown band composed of youths from Bad Axe entertained the crowd. George L. Lusk of Bay City, past grandmaster of Michigan Masons, gave the address.

Excerpts from Letters Written from British Isles by Miss Helen McGregor to Her Mother

July 8—Received our first mail from the States today. Everyone had some and you don't know how much we looked forward to it. Will write you tomorrow about the many things we've done in such a short time. Seems as if we've lived in London a month. Must meet the girls at Trafalgar Square in a few minutes to have lunch at "Ye Olde Cheshire Cheese," an old haunt of Ben Johnson, Dickens, Goldsmith and others.

We're constantly meeting acquaintances from the boat. Yesterday saw Grant Pinney and his friend from Coldwater at the American Express, proudly displaying the cutest little two-seated roadster about the size of a motorcycle, in which they are touring England. We have found one five-passenger car we can rent with no risks but haven't completed arrangements because Norma may go

100 ATTEND REUNION OF HILLSIDE SCHOOL

Roy Jackson's Tigers Defeated W. C. Morse's All Stars 7 to 3.

The first annual reunion of Hillside School, Dist. No. 6, Elmwood township, was held at the school ground Saturday, July 30. About 100 friends and former pupils and teachers were present.

After the crowd had collected, the tables were spread with lots of good things to eat. A short business meeting was held with Roy Wilson acting as chairman. Officers were elected for the ensuing year as follows: Pres., Mrs. W. E. Brock; secretary and treasurer, Arthur Livingston; program committee, Mrs. S. F. Dean and Bert M. Perry.

In the afternoon, a ball game was enjoyed with Roy Jackson and W. C. Morse as captains. Mr. Jackson's team won with a score of 7 to 3.

Those from a distance who attended the reunion were Mr. and Mrs. Thos. Leach and Mr. and Mrs. Geo. Leach of Saginaw, Mrs. Alice Clark and children of Flint, Mr. and Mrs. A. Daus of Imlay City, Mr. and Mrs. Roy Jackson and son, Lloyd, and Mike Tooley, all of Watrousville, Mrs. W. E. Brock and son, John, of Caro, Mrs. John Jackson and children and Mr. and Mrs. Chas. Seeley, all of Caro, and Mrs. Fern Arrowood of Manistique.

The next reunion will be held the third Saturday in June in 1928.

Lapeer Law Violators Largely Native Born

Some interesting facts were brought out in the annual report which Sheriff Byron Courter of Lapeer county made to the secretary of state recently. Of the 312 prisoners received at the Lapeer county jail during the past year, 280 were white males born in the United States and four were women also born in the U. S. Of this number only 32 had foreign born fathers and mothers which would seem to indicate that contrary to popular belief, most of the law violators are not committed by foreign born persons, at least not in this part of the country.

Of the whole number of prisoners there were three who could not read; 16 males under 18 years of age charged with minor offenses, and 11 males charged with high crimes.

The number of prisoners convicted and sent to state prisons was 10 and the number sent to the state house of correction at Ionia was five.

In the annual report filed by Sheriff McEldowney of Tuscola county, 296 of the males received at the county jail were born in the United States and 101 in foreign countries. Out of 15 females received at the jail, four were foreign born. Twenty-two of the whole number confined at the jail could neither read nor write.

Males under 18 received during the year numbered 34 and females under 18 were 6.

One hundred fifty males and three females were charged with high crimes and 236 males and eight females with minor offenses.

Asher & Son, who recently conducted an auto repair garage on East Main St., have decided to continue in that business and have leased the Doerr Bldg., first door west of Almer's Bakery for that purpose.

NEWS REVIEW OF CURRENT EVENTS

Naval Conference Resumed With Not Much Hope of an Agreement.

By EDWARD W. PICKARD WITH the return to Geneva of the British delegation, the naval limitation conference was resumed; but there was a feeling there and in Washington that the parley was doomed to failure. Viscount Cecil and W. C. Bridgeman had submitted to the British cabinet their demands and their entire policy, and apparently were upheld in every particular. Sir Austen Chamberlain, foreign secretary, then made a statement to the house of commons that left little hope that an agreement could be reached. The crux of this was that he considered the permanent formula adopted at Washington for limiting battleships inapplicable for certain classes of cruisers to have sounded the death knell of the conference. It was to apply this formula to auxiliary craft that President Coolidge called the conference. Sir Austen suggested that an agreement might be reached for a shorter period than originally planned, or on destroyers and submarines only, in case the three powers could not agree on a maximum cruiser tonnage; but this idea was coldly received by the American officials in Geneva and in Washington. Dispatches from Geneva said the final British proposals were as follows: 1. That, since an agreement has practically been reached on submarines and destroyers, a convention shall be framed providing for 90,000 tons of submarines and 180,000 tons of destroyers, with an approximate 66 per cent ratio for Japan. 2. That a quota of 300,000 tons shall be adopted for all cruiser types. 3. That the ratio between the United States, Great Britain, and Japan for 10,000-ton cruisers carrying 8-inch guns shall be 12-12-8, or, if this is not acceptable, 15-15-10. 4. That the next smaller cruiser class shall be limited to 7,500 tons, carrying 6-inch guns. 5. That the question of providing extra smaller cruisers for Great Britain from its obsolete vessels shall be left to the Washington conference in 1931.

Congressman Martin B. Madden of Illinois, chairman of the house appropriations committee, who has been traveling in England, gave an interview at Torquay in which he said that if Great Britain was not willing to give America the equivalent of English ship power with respect to speed, range, tonnage, etc., there was every reason to believe that the United States naval building program would have the support of the appropriations committee. An agreement putting our navy out of balance with Britain's would not be ratified by congress, he said. Ambassador Gibson has been told by the State department that the United States would rather have him return to Washington without a treaty than to sign an agreement which fails to safeguard American interests or make possible real naval economies.

FOR three days about two dozen governors of states and some guests, in annual conference at Mackinac Island, Mich., discussed all manner of topics related to the public welfare, devoting a large part of the time to flood control and farm relief. The executives do not adopt resolutions at these meetings, but they were unanimous in favoring flood control of the Mississippi river and its tributaries by the federal government and in blaming that government for past neglect of that problem and the consequent losses. Governors of the Middle West and West had a lot to say about the agricultural problem and most of them seemed to favor a measure like the McNary-Haugen bill which the President vetoed. There was a general condemnation of election corruption but the govern-

ment disagreed on the method of purification. A limited expression on federal control of hydro-electric systems was largely opposed and the sentiment against the centralization of power in Washington bureaus was all but unanimous. A proposed house of governors was called ridiculous by one governor and commended by others. Gifford Pinchot, former governor of Pennsylvania, found opportunity to tell the conference that Senator-elect Vare should be ousted from the senate, and to make a bitter attack on Secretary of the Treasury Mellon as Vare's political partner.

PRESIDENT AND MRS. COOLIDGE attended the pageant at Custer, S. D., celebrating the days of gold discovery, and experienced some thrills not on the program. Two big horses broke from a covered wagon they were drawing and, with the doubletree attached, ran through the crowd straight for the box where the Chief Executive and his party were seated. A mounted cowboy managed to turn them aside, the throng opened for them and they disappeared over a near-by hill. When Mr. and Mrs. Coolidge were returning to the State Lodge they were overtaken by a violent rain storm which made travel over the slippery, sloping roads rather perilous. Mr. Coolidge has been asked by several cities to use his influence in the matter of the location of the Republican national convention of next year, but last week he declared he had no choice, though he would be glad to confer with the national committee if it desired. It is said that San Francisco now has more votes pledged to it than any other city.

The President is seriously considering the invitation to visit Havana next spring, extended by President Machado of Cuba, and to address the Pan-American congress there. He might make such a proposed trip the occasion of visiting Porto Rico to inform himself of conditions in that island, the people of which are clamoring for changes in their form of government and the election of a governor of their own people.

MRS. ANNE U. STILLMAN and her son, "Bud," found place on the front pages again last week, for the young man was married in the Grand Anse camp, in the Quebec woods, to Lena Wilson, forest girl and former servant in the Stillman household. Fifi managed the whole affair with great eclat, gathered a lot of notable wedding guests and decked her new daughter-in-law with magnificent diamonds. Of course the news photographers were there in swarms, and as Father L'Ami was performing the ceremony some of them pressed too close. Fifi flew into a rage and upset them and their cameras and bombarded the whole squad of camera men with plates until they fled to the woods.

MARION COUNTY PROSECUTOR REMY of Indianapolis and his aids are working their way through a great mass of documents turned over to them on the order of ex-Dragon Stephenson, the life convict, which he says substantiate his charges against Indiana officials; and a new grand jury at Indianapolis is supposed to be investigating Stephenson's alleged control of the 1925 legislature. Gov. Ed Jackson continued silent concerning charges of misconduct in office, and two Indianapolis papers, the News and Times, asked him to show his innocence or resign. Editors of other Indiana papers back up this demand, the Republican organs saying the governor owes it to his party, as well as to himself and the state, to dispel the cloud of mistrust now enveloping the statehouse. Prosecutor Remy says the disclosures may rock the state and shock the nation.

FREDERICK STERLING, the first American minister to the Irish Free State, presented his letters of credence to Gov. Gen. Timothy Healy in Dublin and took up his duties. The ceremony was made elaborate by the Irish, their best troops acting as escort for Mr. Sterling and lining the route of the parade to the vice regal lodge in Phoenix Park. After seeing the governor general, the minister exchanged calls with President Cosgrave. Mr. Sterling's first task will

be the negotiation of a commercial treaty between America and Ireland, replacing the old American treaty with Great Britain.

IGNORING the Chinese treaties with the powers, the Nationalist government at Nanking has promulgated a new list of tariffs on luxuries, running from 15 to 60 per cent. American exports to China are especially hard hit, and the American merchants in Shanghai met and decided to send a strong protest to Washington, though their hope of relief was small. Though Gen. Feng Yu-hsiang was continuing his advance on Peking, along the line of the Hankow railway, Gen. Chang Kai-shek, generalissimo of the Nanking forces, was reported to be in a precarious position because the Radical forces from Hankow were moving down the Yangtze toward Nanking and also were threatening to advance south through Chekiang province on Shanghai.

FRANCE, or its government, is about fed up on Russian communist propaganda and Premier Poincare called in the soviet ambassador, Christian Rakowsky, and told him most emphatically that unless Moscow's Red agents in France were recalled at once France might be provoked into breaking off all relations with Russia. Rakowsky hurried to Moscow to confer with his chiefs. Eight communists, convicted in Paris of being spies in the pay of Russia since 1924, were given unusually severe sentences.

Secretary General Turati of the Italian Fascist party in a speech at Ravenna predicted that a clash between the Fascist and the Bolshevik conceptions of the state must come, and that the victory would rest with Fascism. NEW YORK was all set to undergo the inconvenience of a strike of traction workers, and the Interborough managers were prepared to continue service with strikebreakers—which promised riotous times—when Mayor Walker intervened and in two hours won both sides to agree to a settlement that resulted at least in a truce. The trouble probably is not over, however, for the union leaders assert they are now free to organize the traction workers, while the Interborough officials deny this.

ACCOMPANIED by his brother, Prince George, and by Prime Minister Baldwin, the prince of Wales has come over for another visit to Canada, and possibly to the United States. On August 7 these three distinguished men will represent England at the formal dedication of the Peace bridge between Buffalo and Fort Erie, Ontario, built to commemorate a century of unbroken peace between the United States and Canada. The United States will be represented by Vice President Dawes and other notables.

LIEUT. CARLETON C. CHAMPION of the army went up for an altitude record at Washington, and when seven miles up his airplane motor caught fire. Refusing to use the parachute because he was determined to save his barograph record, he descended by head and tail spins and back slips, all the time fighting the flames with a small extinguisher. Several times the machine was out of control, but Champion finally landed safely in a cornfield. Then he learned that he had failed of a record by 1,000 feet.

MAURICE E. CRUMPACKER, representative in congress from Portland, Ore., committed suicide by jumping into San Francisco bay, after previously attempting to kill himself with poison. The reason for his act was not revealed. Cardinal Czernoch, primate of Hungary, died in Budapest after a long illness.

CHICAGO'S worst marine tragedy since the sinking of the Eastland 12 years ago occurred Thursday, when the little excursion steamer Favorite sank in a squall. Twenty-six persons were drowned, fifteen of them being children and ten women. Fifty-five passengers and members of the crew were saved.

Happenings of a Quarter Century Ago

Items from the Tri-County Chronicle of Aug. 1, 1902.

Gust Faltimosski was instantly killed in a fall in the barn of Andrew Lorentzen, 1 mile east and 1/2 mile north of Shabbona, while assisting in unloading hay.

Many farmers throughout the Thumb are thoroughly discouraged on account of the damaged condition of their crops. It is estimated that over half of the hay crop will not grade as merchantable. The oats are badly lodged by reason of excessive rainfall.

"As a time saver I have adopted the automobile, although I still retain my stable and always expect to stick to the horse when I want to ride for genuine pleasure," says Senator Wm. A. Clark of Montana. "In time the automobile will to a great extent take the place of horses in industrial pursuits, but I do not think it will ever supplant the horse for pleasure riding."

Sixty tickets were sold at the depot Wednesday for the excursion to Bay Port.

I. Hall is in Deford this week doing carpenter work on L. Retherford's barn which will be raised this week. Meredith Auten is the victim of scarlet fever and the home is quarantined.

Sphinx L. Moore, owned by Frutchey & McGeorge, won the race at Bay City Tuesday, making the third consecutive race he has won since he started.

Wm. Davis returned from Chicago Wednesday and will again assume the management of the Cass City Lumber and Coal Co.'s yard.

Jas. Oathout expects a large crop of apples this season. He has finished about 700 barrels and has on hand material for several thousand more.

Combination Barn for Horse and Dairy Herd Good for Small Farm

By WILLIAM A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical building work on the farm, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only in close two-cent stamp for reply.

We are all more or less familiar with the "old red barn," which until recently was as well known along the countryside as the little red schoolhouse. But with the march of progress the little red schoolhouse soon lost its prestige and is now replaced by the more modern and efficient consolidated or district school. It was inevitable that the antiquated barn should follow down the road to oblivion. It has been one of the responsible factors in driving the boy from the farm to the city. For it meant untold hours of drudgery with little recompense. It involved hazardous methods, insanitary conditions and poor stock.

Better farm buildings have been the natural outgrowth of the present century of efficiency and sanitation. The old barn could not survive. Better buildings meant healthier, more contented stock and increased production. Increased production is the forerunner of greater profits and greater profits mean more comforts of life for the farmer and his family.

That is why barns such as that shown are being built on farms whether they are large or small. If large enough a barn is built for the dairy herd alone. And it is well worth the outlay. But if the farm is not large enough or does not have a large enough herd to require a special barn a combination barn is often built to house cattle and horses. Such a building is this. It is a beautiful structure and one that should inspire any farmer. It does not require a vivid imagination to see the sturdy sleek animals housed in this building.

This is called a combination horse and dairy barn, provision having been made for the housing of horses and cows. It is a long building, 124 feet by 38 feet in width. The gambrel roof allows plenty of room above the stalls for a spacious, unobstructed hay mow. Note the two large hollow-tile silos on the side. They are large enough to hold a good supply of silage for the winter feeding and are built next to the feed room which opens into that part of the barn in which the herd is housed.

At this end of the building the horse stalls are located. There are stalls for ten horses with a harness room at one side. These stalls face a central feeding alley down which the feed carrier can be moved along an overhead track. All work of carting feed in wheelbarrows has been eliminated by this overhead equipment and as a consequence much of the drudgery which has made work about the barn so distasteful is removed. A similar overhead carrier track is installed over the litter alleys in the rear of the horse stalls for carrying away the litter to the manure pit.

The barn is frame in construction, set on a solid concrete foundation. The entire floor is concrete with cork brick on the stall floors. Plenty of good-sized windows along the lower floor provide the sunshine and ventilation that is so important in housing animals. It not only keeps them healthy but stimulates production by keeping them active and alert. Active animals are workers and are contented and as the familiar saying goes "contented cows produce plenty of fine-quality milk."

Passing down the main alley of the horse barn we find a door opening into the dairy section. Here two rows of stalls have been built facing it. Again the carrier track over the feeding al-

leys and the litter alleys relieves the help of the heavy work of carting litter from the barn and feed to the animals. These cow stalls are of the latest type, set in concrete. There are individual drinking cups in front of each stall providing the cows with a constant supply of clean fresh water, one of the most important factors in good milk production. The stanchions are humane, yet firm and sanitary. At the far end of the barn are box stalls.

This barn design represents one of the most efficient types of combination barns for the average farm. Additional ventilation is provided by special roof ventilators and protection against fire by lightning is assured by the lightning rods which line the roof. When we stop to think that 95 per cent of farm fires are caused by lightning it is very important that proper and adequate protection should be installed on all of the buildings.

Needless to say if more barns of this type were found on the farms today there would be less agitation about keeping the boys there. In the final analysis drudgery and miserable conditions have been largely responsible for this menacing exodus each year which threatens to devitalize the most important industry of the nation. Better buildings and modern equipment are barriers that will stem the tide.

Leaking Roof in Home Means Poor Building

"No foot, no horse" is the very old saying. "No roof, no house" applies with equally as much force. A house is only as good as its roof. It must be roofed substantially if home's full protective purpose and assurance of comfort are to be realized.

Your roof, like the prow of a vessel, must stem the tide of the elements. It pushes upward against a continuous stream of destructive agencies. Heat and cold, rain, snow and wind are forever pitting their undermining forces against the endurance of your roof.

Concrete Slabs Used in Fireproof Building

When a fireproof residence of masonry construction is erected, it is customary to construct the floors of either portland cement or gypsum concrete. This same construction is largely used in the light occupancy commercial buildings of similar character.

Such floor and roof slabs are formed by simply pouring the concrete to the specified depth over a ribbed metal lath, which is attached to metal joists. The surface then is finished off in one of many possible ways—with wood, linoleum, composition flooring, etc.

Both portland cement concrete and gypsum concrete are incombustible. However, the latter is the lighter by about 50 per cent, and if a floor or roof slab of gypsum concrete is specified while the plans for the structure are being drawn, it often makes possible a considerable saving in steel.

EXCERPTS FROM LETTERS FROM HELEN MCGREGORY

Concluded from first page. "ference" last night. Never have I seen such marvelous acting. * * * The theaters here are smaller than ours, and always between acts maids serve you ices and cakes.

On the train between Ely and Peterborough—We certainly can see much in a short time. Left London at 10.30 this morning. Got on the train at Cambridge to see the University, then again at the little town of Ely where we spent a half hour in the very exquisite cathedral. We have been fortunate enough to visit several cathedrals during the time of a service so we can hear the choir and organs and sometimes the chimes. Am surely seeing things that will be memories for a lifetime.

Even traveling on the train is fun for usually we have an apartment to ourselves and traveling third class is very comfortable. All the roads we're passing look simply perfect and all we see on them is motorcycles once in a while and frequent bicycles. I wish you could see the fields that almost appear to be landscaped, all divided by lovely barberry hedges, or low, heavy foliated trees with loads of brilliant flowers, sometimes whole fields of them or exquisite gardens everywhere. Going as far as Boston tonight.

July 14—Having lunch at "Ye Olde Bridge Cafe" in Lincoln. We're certainly getting all "cathedraled up." Spent last night in Anderson's Temperance Hotel in Boston which was quite the rarest thing yet; extremely high puffy feather beds, turkey red walls covered with portraits and china plates, but always a lovely redeeming fireplace. The lobby and dining room all together and a jolly drummer with his stock jokes thrown in.

Brown's County and West End Hotel, Edinburgh, July 17—Came down to Lounge to write but instead have talked to people for two hours. There's nothing to do here on Sundays but it's a real hotel with honest-to-goodness beds, bath, electric lights, excellent food, etc. So we're contented to sleep, eat and wash.

It's so much fun to meet people some place, say goodbye, then suddenly come upon them in the most unexpected places, such as buses, on top of a high cliff, in some ancient castle crypt, hanging over a bridge or looking at some notable's tombstone—people from all corners of the world. Everyone gives advice and all are so friendly.

We start for Trossachs tomorrow, then down the western side of England to Southampton, from there across to St. Malo and up to France where I'm meeting Norma again. Must go to bed for we start out at 7:30 a. m.

NEW CHANGES IN SCHOOL LAW.

Concluded from first page that the retirement fund board may increase the annual contributions to \$10 for those who have taught five years or less; to \$20 to those who have taught more than five years but less than 15, and to \$30 for those who have taught 15 years or more. The Detroit teachers' retirement fund act was amended to provide for the repayment to teachers who resign, or for other reasons retire, of one-half

their contributions to the retirement fund if application is made within three months.

Provides that the driver of a school bus shall stop before crossing a railroad track.

Amendment to the act governing the granting of teacher's certificates to those who have received a bachelor's, master's or doctor's degree from a college or university by providing that such a certificate shall be a life certificate if the college or university for practice teaching and observation, and the courses of study, practice teaching and observation, have been approved by the state board of education.

Provides that \$1,000,000 of the primary school fund shall be set aside annually to help the poorer districts of the state. The terms of the act are that all school districts having a tax rate of 10 mills or more on the dollar, and having more school children per \$100,000 valuation than the average number per \$100,000 in the state as a whole, shall share in the \$1,000,000.

Provides that adjoining townships having township libraries may vote upon the consolidation of the libraries when 25 per cent of the resident freeholders of each township so petition.

Provides that land that has been taxed three years for the building of school houses may be set off with another district by the consent of two thirds of the resident owners of the land to be set in another district.

Provides that the state board of education may enter into contracts with school districts near the state normal schools for the purpose of providing practice and observation classes for the training of teachers in the normals.

Changes the name of the Kalamazoo State Normal to the Western State Teachers College, the Mt. Pleasant Normal to the Central State Teachers College, and the Marquette Normal to the Northern State Teachers College.

Provides that minors over 16 and under 18 years of age engaged in an occupation approved by the department of labor and industry, as provided by law, shall be considered legally employed and be subject to the provisions of the workmen's compensation act.

Provides for a tax of 10 cents an acre on state lands and for the opportunity of this tax between the township and school district where the land is located.

For a state commission for the investigation, registration and treatment of crippled children. Also an amendment to the act for the education of crippled children, the amendment providing that a school district shall pay the tuition of a crippled child in districts maintaining a class or classes for such children.

Gives county boards of supervisors authority to authorize the county commissioners of schools to appoint a deputy commissioner and supervisors of education. Deputy commissioners shall have the same qualifications as commissioners, and supervisors must be graduates of a college, university or normal school.

Amendment relative to bonds and other obligations of school districts by providing that a school district may keep in a bank an amount sufficient to meet the payment of principal and interest for two years rather than in deposits of bonds or other approved obligations. It also clears up the language relative to the sale of bonds, and gives the state treasurer authority to ascertain whether the law relative to sinking funds has been complied with.

Permanent streets are a good investment—not an expense

Don't Let Your Community Make the Same Mistake

Within recent years many communities have made the mistake of paving their highways at what they considered a "bargain price." The taxpayers thought they would save thousands of dollars.

In many instances the maintenance has not only wiped out the hoped for saving, but has exceeded original cost. And in many cases also it has been necessary to build entirely new streets—of permanent construction.

There are communities, however, which know the cheapest is not always the best. Many of these also built streets several years ago. And they built for permanence with concrete.

Those concrete streets, built in accordance with approved standards of highway construction, are in as good condition today as when they were built.

Which of these communities will yours be?

How to Prevent High Blood Pressure and Paralysis in Advanced Years HEADACHE GOES AWAY IN 40 MINUTES. To improve the chemical process in the body for better health take San Yak. It strengthens the blood and body fluids, antiseptic to the stomach, intestines and bowels. They prevent decomposition of animal and vegetable matter in the bowels that causes bloating and self poisoning and are years in advance of any other product for the kidneys, high blood pressure, diabetes and rheumatism. Take to reduce the flabby, wrinkled bowels the cause for diabetes. San Yak removes the possibilities to the development of appendicitis. Prevents Paralysis and Nerve Trouble. Dr. Taylor, 2011 Glendale ave., Detroit, says: "I was paralyzed four years. Three years ago I took San Yak. Two or three months of it cured me. I know because I improved at once and did nothing otherwise. I have gotten more out of life in the last year than in any previous years and I am 77 years of age. Physicians Recommend San Yak. Dr. L. B. Bailey of McBride, Mich., says of San Yak: "It will do all you claim. It is a fine medicine for the blood and has cured rheumatism of long standing. When one treats the kidneys with San Yak he is renewing the whole body. One can always depend on San Yak." (Signed L. T. Bailey, M. D.) Mrs. W. E. Brandon of Robison, Ind., writes: "I took San Yak for high blood pressure and it worked like a charm. I am not now troubled any more." Dr. Snyder Indorses the Kidney Pills Dr. George W. Snyder, of Chicago said this: "To people advanced in years, San Yak lends the thrill that comes from making human life lastingly better. This pill is so highly antiseptic to the pancreas that internal inflammation causing appendicitis would be much out of reason." S. F. Maring of Ohio Oil Co., Marshall, Ill., says: "San Yak is a wonderful medicine for stomach and bowels." Get San Yak in liquid or pill form at Burke's Drug Store, Cass City.

Family Reunions of Past Week

Kelley Family. The Kelley reunion was held Saturday at the home of Mr. and Mrs. Peter Greene at East Dayton. Ninety-six were present and spent a most enjoyable day. There were relatives present from Detroit, Pontiac, Saginaw and Cass City. Those from Cass City were Mr. and Mrs. William Kelley and children. Mr. and Mrs. Morris Kelley, Mr. and Mrs. Jesse Kelley and son, Grant, and Mr. and Mrs. Dan DeLong and children.

Wright Family. A reunion of the Wright family was held Sunday at the farm home of Mr. and Mrs. Charles Wright, two miles south and one-half mile east of Cass City. The reunion was held in honor of Mrs. Carl Jekel and twin sons of Colorado and Mr. and Mrs. Carl Heller of Los Angeles, California. A bountiful dinner, with plenty of home-made ice cream, was served on the lawn. Those present besides the honor guests were Mrs. Wm. Heller of Bad Axe, Mr. and Mrs. James Tuckey and children, Mr. and Mrs. James Heller, Mr. and Mrs. Glen Tuckey and three children, Mr. and Mrs. Clare Tuckey and two children, Mr. and Mrs. D. Stilson and three children, Mr. and Mrs. John Day and two children, Mr. and Mrs. Wm. Flint, all of Cass City, Misses Laura and Margaret Wright of Detroit.

Clark Reunion. The Clark reunion was held at Forester Park on Sunday, July 31. The day was spent visiting, bathing and singing. It was decided to hold the reunion next year at Flint on July 31. All of Mrs. Clark's children and grandchildren were present except three grandchildren. Those who

attended were Mrs. Sarah Clark, Mr. and Mrs. L. B. Stone and four children, all of Sandusky; Mr. and Mrs. H. E. Clark and daughter of Flint; Mr. and Mrs. Sherman Clark and two sons and Mr. and Mrs. Robert Nugent and eight children of Port Huron; Mr. and Mrs. G. Thorley and four children, Mr. and Mrs. Wm. H. Little and five children and Mr. and Mrs. John Little, all of Crosswell; Mr. and Mrs. Elson Clark and three children of Tyre; Mr. and Mrs. Jasper Clark and four children of Detroit; Mr. and Mrs. C. Doyra and three children of Cassville; Mr. and Mrs. John Hewett and son of Deckerville; Mrs. Frances Shupe and two daughters of Bad Axe; Mr. and Mrs. Fred White and five children of Cass City; and Rev. and Mrs. Thomas L. Clark and three sons of Pittsburg, Pa.

Heller Reunion. A reunion of the Heller families was enjoyed Tuesday at Bay Port in honor of Vern Heller of Neenah, Wis. A pot luck dinner was served. Those who attended were Mr. and Mrs. C. W. Heller, Mr. and Mrs. James Heller and Mr. and Mrs. E. L. Heller and children, all of Cass City; Mr. and Mrs. Wm. Heller of Bad Axe; and Vern Heller of Neenah, Wis.

HOSPITAL NOTES. Miss Dessie Edwards of Bad Axe was admitted Friday, July 29, and underwent an operation the same day. Miss Helen Bungart of Detroit and Arthur Bunker of Bay Port underwent operations for removal of tonsils and adenoids Saturday, July 30. John Miltz of Detroit underwent an operation for appendicitis Sunday, July 31. Mrs. Roy Powell of Owendale was able to leave the hospital Wednesday. Harve Klinkman of Cass City is still a patient at the hospital.

State News in Brief

Grand Rapids—Capt. Truman M. Smith, one of the three remaining survivors of the Sultana disaster, died here recently at the age of 79. The Sultana, with 2,000 homeward bound war prisoners aboard, blew up in the Mississippi in 1865.

Coldwater—Norman White, 15, son of Mrs. Edna White, of Homer, was shot and instantly killed by his own rifle at the home of his sister, Mrs. Thelma Philoda at Union City, near here. He was returning from hunting, when he slipped on the stairs.

Pontiac—A special government census of Pontiac is now under way. Enumerators have been engaged by Jesse T. Nichols, of the census bureau, who is in charge here. The census will include a division by races, as well as showing the total population of the city.

St. Marys—River and harbor allotments announced at the War Department at Washington, include: For the operation and care of St. Marys Falls Canal, \$240,000, in addition to a preliminary allotment of \$25,000 and an unexpected balance of \$9,142.

Grand Rapids—Seven Grand Rapids Reformed and Christian Reformed churches have petitioned the city council to forbid Sunday airplane flying. The petition says Sunday flying is a "public nuisance and a serious hindrance in our divine worship on the Lord's day."

Flint—Judge Fred W. Brennan came to the aid of Otto E. Briley in thwarting Cupid's plans when he enjoined Mardrew Alexander, 22 years old, from courting Briley's daughter, Rubie, 16 years old. Briley told the court he believed Alexander and his daughter were planning to elope.

Detroit—Illinois has one-sixth of the concrete highways in the United States, the Illinois Chamber of Commerce stated after completing a survey. Concrete road mileage in Illinois is 5,466; Pennsylvania, 2,200; California, 1,587; New York, 1,453; Michigan, 1,363, and Wisconsin, 1,253.

Almont—Robert Eller, 9-year-old son of Mr. and Mrs. George Eller, was drowned in a pond near here while swimming with three chums. The boys, frightened, ran from the scene and did not report the death until questioned an hour later as to his whereabouts. The body was recovered.

Hancock—Hancock firemen resorted to artificial respiration here recently to save the life of a dog. Emil Lante was awakened by his dog, Blackie, biting his shoulder and found his bedroom in flames. He saved his life by leaping from a window. After the fire was put out, Blackie was found, apparently dead, under the bed. A pulmotor was used and Blackie revived.

Menominee—The overturning of a crib on a \$3,000,000 power dam development in the Menominee River at White Rapids, 35 miles north of here, resulted in the drowning of five workmen. Two companions were rescued. The dead are Leo Hashey, 57, of Minneapolis, the foreman; Emmanuel LeBrasseur, 63, and Napoleon LaLond, 60, of Manistique; John Walburn, 43, of Brainerd, Minn., and Michael Palka, 54, of Iron Mountain.

Lansing—The war department at Washington has announced that seven vacancies exist at the West Point military academy for Michigan boys. Each congressional district is entitled to two appointees who are admitted on designation by the respective representatives, subject to passing the entrance examination at West Point. One vacancy exists in the First, Second, Third and Thirteenth Michigan districts, respectively, and two each in the Ninth and Tenth.

Port Huron—Losses estimated at \$20,000 were sustained by farmers within a radius of 35 miles of this city when a heavy rain, accompanied by high wind and lightning swept over this area recently. Two large frame barns on the farm of Allan Smith, north of here, were destroyed after being struck by lightning. Six calves, one horse and a quantity of hay were burned. At Minden City, three cattle on the farm of Stanley Covelski, were killed in the fields.

Lansing—A decision by the United States Supreme Court in an Ohio case a few months ago cleared the way so the Michigan Public Utilities Commission can proceed without further delay to require all Michigan-owned and operated interstate motor busses and trucks to take out state permits and pay an annual franchise fee of \$1 per hundredweight. The rate of \$1 per hundredweight franchise, or license fee, for interstate busses and trucks, will mean \$100 a year for a five-ton truck.

Alpena—The body of Marie Zimmerman, 19 years old, of Metz Farm, a village near here, who was reported missing November 9, has been found by M. Sobczak, of Metz, in a hollow log three miles from Metz, near the bank of the north branch of Thunder Bay river. Searching parties were organized after the girl was reported missing last November, but a raging snowstorm covered her tracks. No inquest will be held, as it was held evident that she crawled into the log for protection.

Muskegon—Rex, a prize winning dog owned by Mrs. H. Holt, was listed recently as a patient at a Muskegon hospital. Rex had been bitten by a rattlesnake.

Iron River—Gleason Davidson, 17 years old, was killed instantly when he dived 25 feet and struck a large rock. His parents were watching him dive from shore. The mother became hysterical after it was determined the boy was killed.

Kalamazoo—Of 2,000 farms in the corn borer area of Kalamazoo and St. Joseph counties, only 29 have not been cleared up enough to pass inspection, according to a report made by Hobart J. Wang, of Vicksburg, in charge of the inspection in these two counties.

Jackson—A 20-pound pike struck the bait of Henry J. Flint, local real estate agent, recently in Grand Lake and for 20 minutes gave Mr. Flint such a battle that at times he feared for his tackle. Finally the big fish was landed, gasping on the shore, where he gnashed his long eightpenny teeth and thrashed about in a fearful manner.

Battle Creek—Acceptance of the reduced judgment in Miss Louise King's damage suit against Arthur C. Rich, son of a Battle Creek manufacturer now serving a life term for criminal assault has been filed in Circuit Court here. Miss King sued for \$100,000 and the jury awarded her \$50,000. Judge Walter H. North cut the amount to \$25,000 on the ground the jury's award was excessive.

Traverse City—A one hundred pound sturgeon is an unusual fish even for this district, but when one man, Charles Passmore, catches two in the same season it is truly remarkable. Such is the case, however, and Charles is considered some fisherman. He caught his second fish in East Bay. It was taken alive and is now in the down town public fountain here, with goldfish for companions.

Calumet—The Rev. L. F. Klompic, pastor of St. Joseph's church here, has received permission to keep a tiny fawn which he recently found on a highway in Keweenaw county. The fawn is the smallest ever seen in this district. When found the tiny deer was not any larger than an ordinary house cat and was unable to walk. Woodsmen and conservation officers who have examined it believe it to be a dwarf.

Ypsilanti—A fight in the upper branches of a cherry tree, 22 feet above the ground, between two neighbors, each of whom claimed a portion of the fruit, brought Judson Knapp, 45 years old, of this city, into municipal court on a charge of assault and battery. He was fined \$25. The man he attacked is Harry Golden, 73 years old. The tree stands near the lot line, and Knapp ordered Golden out of the tree. When he refused to leave Knapp climbed up and attacked him.

Owosso—After a separation of 50 years, Frederick Almon, of this city, and his sister, Mrs. Louisa Killman, of Pellston, Mich., have been reunited here. They had not heard from each other for 25 years, until last winter when Mrs. Killman read of the death of Almon's wife in a railroad accident. Inquiry revealed the whereabouts of her brother. The family formerly lived at Newaygo, but Almon and his family left there 50 years ago and moved to Cadillac and later to Perry.

Detroit—Diana of Wildwood, a beautiful four-months-old white collie, was shipped by airplane from Michigan, to the summer White House at Rapid City, S. D., to be a companion for Rob Roy. The dog, a gift to Mrs. Coolidge, from Mary Anne and Robert Scripps, replaces Prudence Prim, the mate of Rob Roy, who died recently. Diana withstood the long air trip from the Scripps estate in Michigan in fine shape and soon after her arrival had her picture taken with President Coolidge.

Detroit—Detroit's cost of living, relatively higher in 1920 than that of any other American city, is falling fastest. A survey made public by the department of labor shows that food, clothing, housing, fuel and light, house furnishing goods and minor items now cost less in Michigan's metropolis. Detroit's cost of living is still 82.7 per cent higher than it was in December, 1914, a few months after the World War broke out. But it has fallen 22.4 per cent since June, 1920, and is still on the slump.

Grand Rapids—Grand Rapids shared with Erie, Pa., the distinction of having the lowest infant mortality rate in the country during the week ending July 16. Grand Rapids and Erie literally had no infant mortality rate during the week in question, reporting in each case not a single death among babies under one year old. This compares with an infant mortality rate of 40 deaths per 1,000 births in Detroit, and a rate of 106 deaths per 1,000 births in Fall River, Mass., the city that suffered the highest infant mortality during the week.

Beulah—Because he thinks his son is a better boxer than Benzon's boxing champion, Rev. W. M. Lamance, a Mt. Vernon (Ill.) minister, has applied for a state boxing license and will promote a bout between the two boys here August 13. Twice Billy Lamance, a 175 pounder, has met Dana Haswell, of Benzon, and on each occasion the judges have been unable to decide which of the boys should have the victory. Now the Illinois Evangelical minister is promoting the show that he hopes will decide the issue.

CARO PLAYERS ACCEPT CHALLENGE

Concluded from first page. so far as anybody who knows what they are will govern the contest except as modified by the local club's rules. Yours respectfully, "Dr. C. N. Race, Fred Striffler, Pat Riley, Hoke Smith, Clinton Seeley, Carl Emery, Libbie Axford."

The Challenge.

The challenge which was delivered in Caro by M. B. Auten in person last week read as follows: "We, the undersigned cripples of Cass City, being desirous of determining our worth in the field of golf against admittedly superior ability, do herewith issue a challenge to any six artists of Caro, including Fred Striffler, Hoke Smith, Pat Riley, Clinton Seeley and Doc Race, to hold forth in a great golf tournament on the Verona Hills course, Bad Axe, on Thursday afternoon, August 4, under the following stipulations: "1—Each man to pay his own green fees. "2—The losing group of players to pay for the dinners for both teams at the Club House. "3—Because of certain reports current about one of your most admirable players, there will be no touching of the ball in play, either by teeing up, kicking gently, or throwing out of traps. "4—All other rules of play to be decided upon by Hoke Smith and G. H. Burke. "Signed: "A. J. Knapp, who should be using crutches instead of golf clubs. "P. A. Schenck, who states that his greatest trouble in golf is that he stands too close to his ball after he hits it. "G. H. Burke, whose arm is apt to fly out of joint on any drive. "W. L. Mann, who manages our milk factory and thinks a mashie is something you feed cows. "C. M. Wallace, who drives his ball at right angles in the hope that it will curve around to the fairway. "M. B. Auten, who plays best when he is keeping score. "Alternate, Richard Schenck, who really can play."

KINGSTON-NOVESTA TOWN LINE.

Ch. R. Montague and Cyrus Wells threshed their wheat Saturday and Monday. Wheat is a fairly good crop here this year. Mr. and Mrs. Geo. Martin, Mrs. J. McLaughlin and son, Donald, were Kingston callers Sunday. Mrs. Mark Smith and daughter, Jean, and niece, Shirley Coleman, are visiting the former's parents, Mr. and Mrs. Howard Retherford. Mr. and Mrs. Lewis Retherford were Caro callers Saturday afternoon. Misses Norma and Marion Retherford of Saginaw spent Monday night at their parental home here. Miss Norma drives a new Essex coach. Mr. and Mrs. R. N. McCullough of Cass City were callers at the J. D. Funk home one evening last week. Mrs. Everett Bush and two children of Royal Oak spent last week with her mother, Mrs. Pratt. Mrs. Fred Pratt has returned from visiting relatives in Detroit.

Embroidery Ancient Art

Embroidery was an established industry in China centuries before the visit of Marco Polo. The earliest extant specimen is assigned to the Eighth century, but it is certain that this art was followed at a very much earlier date. Human Ailment Old

Stone formations have been found in mummies more than 4,000 years old. Since the time of Hippocrates, 400 years before Christ, physicians have attempted to explain the cause of such calculi formations. Differs in Meaning "Nag," the word used by use to describe a horse or a fault-finding woman, means to the natives of parts of India a snake god.

GRIST SCREENINGS

VOL. 2. Aug. 5, 1927. No. 50.

Published in the interest of the People of Cass City and vicinity by the Elkland Roller Mills Roy Taylor, Editor

We're told that lots of girls smoke cigarettes. But what if they chewed tobacco? "I had my nose broken in three places last summer." "Well, you should stay out of those kind of places."

We probably couldn't make a loaf of bread if we were forced to it. But we KNOW we like to eat bread made from Cream of Wheat flour. We've just heard of a circus thriller. A man puts his head in the lion's mouth and then lets the trainer kick the animal in the stomach.

No product can grow in demand if it doesn't have merit. We don't need to argue that point. Purina Chicken Chowder and Purina Hen Chow have increased in sales tremendously every year. There is one thing we can say in favor of a dog fight. The dogs don't go around town afterwards talking for publication

It was a small backwoods village. A motorist stopped at a shack and asked the way to the next village. A lanky youth ambled to the door. "Boy," asked the tourist, "How far is it to Hickman?" "Waal," drawled the youth. "I don't rightly know. But I'll call Jed. Jed's traveled all over. He's got shoes."

Be sure to cull the hens. There's no more room for a loafer in a good flock of hens as there is for a loafer in a hive of bees. The 1927 hen has to earn her living or get off the job. Grandpa, in a motor car, Pushed the lever back too far, Twinkle, twinkle, little star, (Music by the G. A. R.)

This "Is-it-hot-enough-for-you" business can be carried too far. Yesterday we threw a four-pound paper weight at Ab Higgins when he came in and inquired what was good for frost bite.
