FARMING AND FINANCE

Concluded from first page. that vast areas in the great West are dependent for their buying power on the success or failure of agricultural pursuits, and our lives would be vastly changed if it were not for the wonderful productiveness of our rich country.

Crop damage is a big word in the farm dictionary just now. One hears talk of rust, weevil, drouth and frost. It must, of course, be recognized that if a farmer's crop has been nearly destroyed by weevil or rust, by flood or drouth, the ensuing high prices do not help him much, consequently areas of extensive crop damage will reap no benefit, yet the net effect of the present price trend remains favorable to the average agriculturist.

Regardless of the rest of the crop year, there has been sufficient progress already in some farming districts throughout the United States to warrant the conclusion that at least some substantial buying by farmers is coming right along.

Nor would one be risking a great deal in a guess that names such as Nebraska, North and South Dakota, Montana, Idaho and Washington in the Northwest, as well as Texas in the South. The former states are in a position to benefit materially from an excellent spring wheat crop, while the boll weevil damage to the cotton crop in Texas is reported on the increase, but the large cotton acreage planted and the high average level of prices that farmers may be expected to receive for their crop assures a distinctly favorable income this fall.

Farmers and Immigrants.

By reason of the restricted immigration now to this country, of course our farmers cannot rely as they used to on securing cheap farming labor from this source. Other sources for farm labor are at the same time growing scarcer every year.

Canada is seeking farmers strenuously through immigration. We are not. When steamers are packed with immigrants from foreign shores, this suggests excellent business conditions in the U. S. and high prices for labor. This, however, like everything else, can be overdone, and too large arrival figures foretell a depression. Conversely, when departures are large in number and when immigrant traffic is small, it is a good sign that U. S. business can get no worse.

DEFORD

Mrs. Jennie Nutt has been visiting her son, David, for the past week and returned to her home at her daughter, Mrs. H. R. Silverthorn, on Sunday.

There were quite a few from Deford attended the ball game on Sunday at Shay's Lake—Deford vs. Caro. Score stood 13 to 9 in favor of Deford.

Little Garade Ealon Vanderkoooy is improving. He started school on Thursday of last week.

Wm. Randall visited from Tuesday until Friday of last week with his son, Elisha, in Detroit.

Rev. Scott left on Tuesday for Pt. Huron where he will attend conference. We are hoping that he comes back among us again.

Mr. and Mrs. Ben Gage, daughter Bernice, and Mrs. C. L. McCain ate supper in Cass City on Sunday night at the home of Mrs. McCain's grandson, Lyle Spencer.

H. D. Malcolm is having his barn wired for electric lights. Lawson Stinger is doing the work.

Alvah Spencer is on the sick list. N. Mont of Inlay City came Friday to visit his brother, Joshua Curtis.

Mrs. Bertha Cooper returned to her home after a week's visit at Elmwood, Saginaw and Merrill.

Mrs. Ward Roberts of Pontiac came Tuesday to visit relatives. She will be remembered here as Viola Randall.

Mr. and Mrs. C. J. Malcolm enter-

WINSOME STYLING GIVEN TO
GINGHAMS FOR THE SCHOOLGIRL

AFTER all, the back-to-school movement is not without its compensations for the returning vacationist. New clothes, for instance! Think of the fascinating frocks and sweaters and coats and shoes 'n' everything ready "on demand" for the home-faring schoolgirl.

The vogue for cotton fabrics plays right into the scheme of suitably outfitting girls and young women for school and college. The winsome frock in the picture demonstrates the style possibilities of gingham.

It combines one-tone yellow gingham with a plaid related to it in coloring. The clever jacket of plain yellow counts for much in that it presents a natty appearance on the way to and from school. The one-piece frock minus the jacket is just the sort which becomingly enters into the environments of a class room.

Now that the stores are making it a point to show one-tone gingham designed to complement the patterned

ones, there is every incentive to give to them an ensemble styling. Stunning effects are worked out by using two and three colors together of these one-tone gingham. This may be accomplished in different ways. That is, several shades of the same color may be assembled, such as light blue, delft and navy together. A navy gingham platted skirt, topped with a blouse striped like the new sweaters in several tones of blue, by sewing horizontal strips of the gingham together, would prove a source of delight to any schoolgirl aspiring to the most stylish.

Another method is to combine contrasting colors, such as gray gingham with yellow or green or any bright shade. Insets and appliques of the color, with gray for the foundations, abound in opportunity for smart effects. Pippings of white or gay-colored gingham are also much in evidence.

JULIA BOTTOMLEY.
(©, 1927, Western Newspaper Union.)

tained over Saturday night, Mr. and Mrs. Kelley and son, and a daughter, Mrs. Smith, of Brantford, Ontario.

Elmer Bruce is attending conference held at Pt. Huron. He left for that city Thursday.

Mr. and Mrs. L. F. Wood and son, Frederick, of Detroit spent the weekend at the Wm. Simmons and E. A. Livingston homes.

Mrs. P. Livingston and children were callers at the T. Lounsbury home Sunday.

Telling Age of Turtle

There is no sure way in which to determine the age of a hard-shell turtle. In most instances the plates are examined closely with a microscope and on these plates there can be noticed scale expansion. This scale expands as the turtle grows, leaving a ring of growth. These rings are counted the same as those of a tree.

Canoeing Sport Revived

The old Indian practice of canoeing was slowly but surely dying out when it was brought back to life by the organization of the American Canoe association in 1880. Due to the work of this association canoeing today is one of the most popular of summer sports.

Tides Travel Far

The ocean tide may be felt in the Mississippi river as far up as Red River landing, 307 miles above the mouth; in the Delaware river as far up as Trenton, N. J., 131.5 miles above the mouth, and in the Hudson as far up as Troy dam, 153 miles above the mouth.

Miss Evelyn Retherford is attending high school at Cass City this year.

Mr. and Mrs. Howard Retherford and son, Arleon, spent Sunday with friends at Caro.

Alva Palmateer, who has spent the summer at his farm home here, returned to Pontiac Thursday where he has employment.

CHOPS ARE QUICKLY AND EASILY COOKED

Chops Must Be Carefully Cooked to Retain Their Juiciness and Tenderness.

(Prepared by the United States Department of Agriculture.)

Serve chops for dinner once in a while—especially on the days when you want something that is quickly and easily cooked at the last minute.

Any of these chops may be either broiled or pan-broiled. They must be cooked carefully to retain their juiciness and tenderness.

Dinner should be served the moment the chops are done, whichever way they are cooked. If you try to keep chops warm after they are done to a turn they will be overcooked or greasy.

MATURITY AFFECTS QUALITY OF CORN

Toughness Increases Rapidly as Kernels Develop.

(Prepared by the United States Department of Agriculture.)

Quality in canned sweet corn is due to both factory and farm influences. The conditions in the factory which affect the quality of the canned product are generally understood, says the United States Department of Agriculture, and canning methods are fairly well standardized.

For several years C. A. Magoon and C. W. Culpepper, of the department, have been making a special study of the growing of sweet corn to determine the factors which have a bearing on its quality.

Cedar Chests Protect Clothing From Moths

Experiments conducted by the bureau of entomology of the United States Department of Agriculture on the storage of clothing in chests made of the East Indian woods known as "kamfer" and "lagan," to protect it from clothes moth damage have been completed with negative results.

Swiss Chard Among Most Satisfactory Vegetables

Swiss chard is one of the most satisfactory of the green-leaf vegetables available in the summer. The United States Department of Agriculture suggests several ways of preparing it:

ness of the pork may be served. Cat-soup or sweet pickle, or tomato or onion gravy—something with a pronounced flavor—combines well with the mild flavor of veal chops.

The chief point about any method of cooking chops is to sear the outside at once at a high temperature to prevent the juices from escaping.

To broil chops in a gas oven, put them on the rack in the pan that slides under the flame and turn them several times. Many people think that a chop broiled over live coals or a wood fire has no equal.

Tender veal chops are often protected from drying out by a coating of egg and bread crumbs. They are then fried in deep or shallow fat. If veal is dry or tough it must be cooked a little differently to develop tenderness.

Watermelon Pickle Has Several Excellent Uses

A very good pickle can be made from the rinds of watermelons. When it is being made some of the pieces may be placed on waxed paper and allowed to dry out.

Watermelon Pickle.

- 2 pounds watermelon 1 cupful water
5 cupsful sugar
1 lime water made from 1 quart water and 5.6 grams, or 1 tablespoonful lime 6 small pieces of stick cinnamon

Pare and remove all green and pink portions from watermelon rind. Put it in the desired shape or size, and cook for two and one-half hours in the lime water. Drain the watermelon and place it in fresh water to cover well, and cook for one and one-half hours or until tender.

Wisdom of a Whipping

It is better to give than receive. Of a whipping this doubtless is true, but of kissing I cannot believe it holds good till I've tried it, can you?

Woman's Intuition

A South street man, arriving home late met his wife with this: "Can you guess where I've been, dear?"

Not Prophesying

"Do you claim to be a political prophet?" "No," answered Senator Sorghum. "I feel pretty sure that I will be re-elected, but I don't want to risk creating a bad impression by bragging."—Washington Star.

Nerves and Nerves

Mrs. Owens—I am a victim of nerves. Mrs. Oke—You are? Mrs. Owens—Yes; I need some new clothes and when I ask the dressmaker and the milliner they have the nerve to refuse.

Light and Sound

The bureau of standards says that light and sound are transmitted by different media, and the speed of travel is determined by the properties of the transmitting medium.

Uncle Eben

"A man kin be good on Sunday," said Uncle Eben, "cause most folks is stayin' home. De other six days is de ones dat tests his regular righteousness."—Washington Star.

HOSPITAL NOTES.

Mrs. Earl Hewitt of Bad Axe entered the hospital Sunday, Sept. 11, and underwent an operation Monday for appendicitis. Mrs. Stanley Stasiak of Cass City entered Monday, Sept. 12, for treatment. John Keyes of Colling was admitted Sunday and operated on Monday for appendicitis.

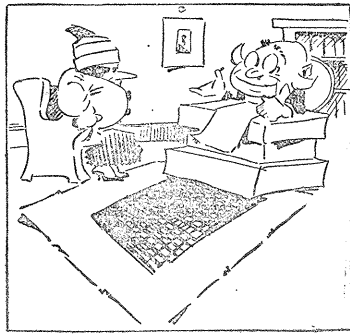

JUST A SUGGESTION.

The woman, after many years' devotion to old-fashioned overshoes, had finally succumbed to modish, if by no means esthetic goshoses. As the salesman tried on a pair of the newest zippers, the woman noted with distaste the great bulge at the top of them.

Farm Management

Rastus—We done sold all our black nules cause we figured they et more 'an white ones. Samba—How you all figger dat? Rastus—We figgered and we figgered and all we could find out was dat we had more black ones than white ones.—Dettler Crops.

METHOD IN HIGH PRICES

Patient—"I think you are charging me too much, doctor." Doctor—"But you wouldn't want to have it said that you had anything less than a major operation."

I Guess You're Right

It is better to give than receive. Of a whipping this doubtless is true, but of kissing I cannot believe it holds good till I've tried it, can you?

Woman's Intuition

A South street man, arriving home late met his wife with this: "Can you guess where I've been, dear?" "I can, dearrest," replied the patient woman, with a touch of vinegar in her voice, "but go ahead and tell your story."

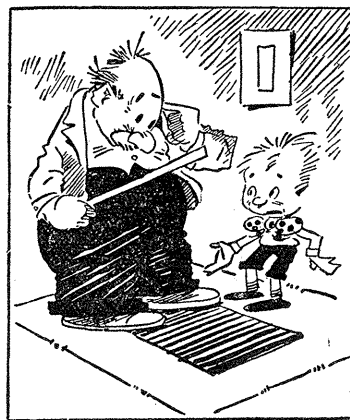

Not Prophesying

"Do you claim to be a political prophet?" "No," answered Senator Sorghum. "I feel pretty sure that I will be re-elected, but I don't want to risk creating a bad impression by bragging."—Washington Star.

Nerves and Nerves

Mrs. Owens—I am a victim of nerves. Mrs. Oke—You are? Mrs. Owens—Yes; I need some new clothes and when I ask the dressmaker and the milliner they have the nerve to refuse.

WISE SUGGESTION

"This whipping hurts me more than it does you, my son." "Let's spare each other pain the next time, dad."

Modern Version

Mary had a little lamb Left with her by a friend to keep. It followed her around until It died from lack of sleep.

Ancient Insurance Body

The first directors' meeting of the first fire insurance company in this country was held in Philadelphia on May 11, 1752. This was the Philadelphia Contributionship for the Insurance of Houses from Loss by Fire and is still in existence.

School Enrollment Near the 500 Mark

Four hundred ninety-two is the total enrollment of pupils in the Cass City Public Schools. It is expected that a few late comers will bring the enrollment still closer to the 500 mark. The high school numbers 220 students. Of this number, 136 are non-resident pupils, the highest number in the school's history.

SMALL GRAINS AND HAY UP TO THE AVERAGE

While all of the small grains and hay were up to the average, or better, all of the fall crops have suffered severely from drought, and early frosts took a considerable toll in many localities. The August rainfall was the lightest since 1894, which, with severe frosts on two dates, probably reduced the fall crop outlook to a greater extent than in any other 30 days in the last 30 years or more.

Spring Wheat: Michigan had only 9,000 acres devoted to the crop this year although this is an increase over 1926. The condition of 76 per cent indicates a production of 162,000 bushels as compared with 82,000 bushels last year.

Oats: The crop was harvested under favorable weather conditions and the quality is good except in the Upper Peninsula where considerable damage was caused by rust. In a few counties elsewhere, they are rather light in weight.

Barley: The yield of barley promises to be slightly above the average, but not quite up to that of last year. However, the acreage is considerably larger than in 1926 which gives a total production of over one million more bushels.

Buckwheat: The crop promised well in the beginning and a larger acreage was planted, but frost destroyed some of it in various localities and drought has retarded growth and development.

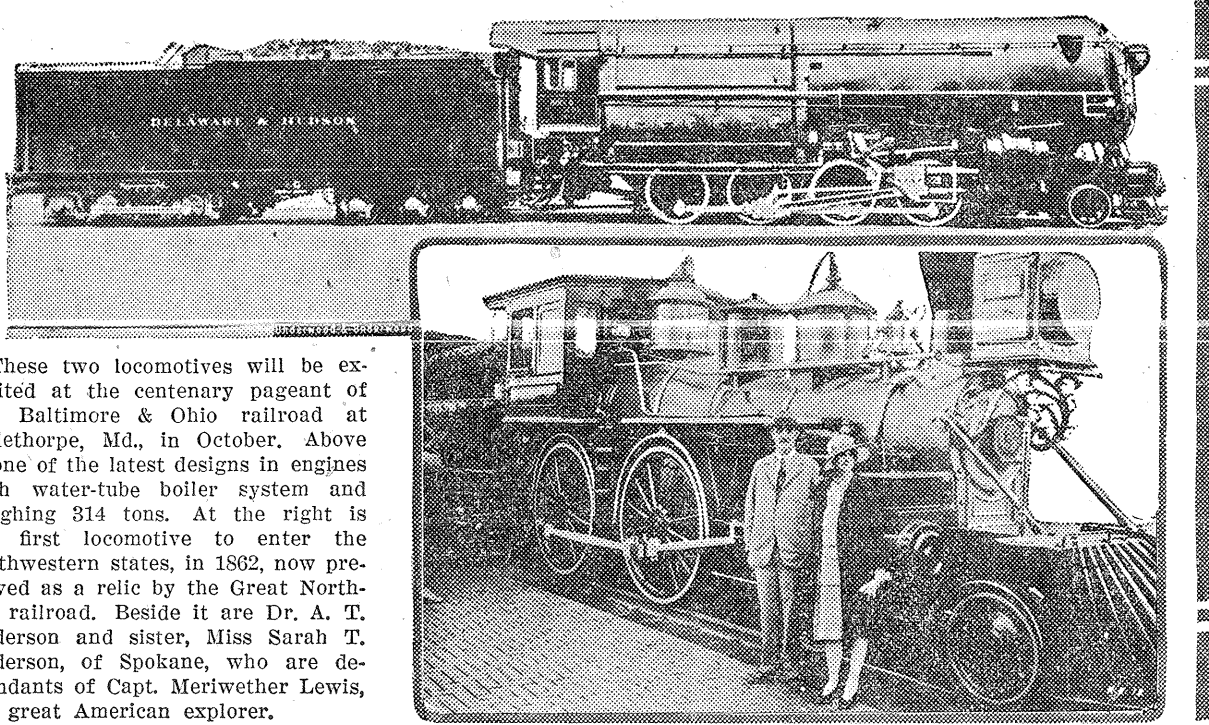

Field Beans: The crop has suffered severely from drought and was damaged in some sections by frost. The early-planted portion matured only a partial crop and the late-planted fields vary from poor to good.

Potatoes: While the condition of potatoes did not drop as much during August as that of some other crops, Michigan prospects shrunk over 7,000,000 bushels during the month.

Light and Sound The bureau of standards says that light and sound are transmitted by different media, and the speed of travel is determined by the properties of the transmitting medium.

Uncle Eben "A man kin be good on Sunday," said Uncle Eben, "cause most folks is stayin' home. De other six days is de ones dat tests his regular righteousness."—Washington Star.

Two Exhibits for the B. & O. Centenary Fete

These two locomotives will be exhibited at the centenary pageant of the Baltimore & Ohio railroad at Halethorpe, Md., in October. Above is one of the latest designs in engines with water-tube boiler system and weighing 314 tons.

CENTRAL GREENLEAF.

Mrs. Addie Jones of Detroit is visiting Mr. and Mrs. Avery Jones. Ila White of Pontiac visited her parents, Mr. and Mrs. Fred White, and family. Mr. and Mrs. Hill, Mr. and Mrs. Roy McCaslin and Mark McCaslin, all of Pontiac, spent the week-end with Fred McCaslin and family. Changed by Earthquake The series of earthquake shocks felt in the Mississippi valley lasted from the 15th of December, 1811, during 20 or 30 months, until the year 1813. There is record of but comparatively few deaths, since the country at that time was very thinly populated. The configuration of the territory was much changed and several lakes and islands were created.

WHEN WINTER COMES

Will you, Mr. Consumer, be on Easy Street with your coal in your cellar, or, when it is time to start the furnace, will you have to hustle around and get what coal you can? Think over these reasons why it is to your advantage to buy your coal now. 1. Price is lower now—may be higher during the winter. 2. Easy to secure now—may be hard to get later on. 3. Enough coal cannot be mined each month in winter to supply each month's demand and the Union coal miners' strike has cut down the usual surplus stock. "Think it over seriously."

Fertilizer

Have two fresh cars on hand. Call us on the phone and give us your order and we will save it for you.

Farm Produce Co. Cass City

Invitation to the Public

Through the courtesy of I. D. McCoy, who will furnish the radio, and F. A. Bliss, who will furnish the films for the evening, and the Cass City Oil and Gas Co., who will provide the hall and other entertainment, we hereby extend to our many friends and patrons an opportunity to come to the

Pastime Theater on THURSDAY EVENING, SEPT. 22

where you will be entertained ABSOLUTELY FREE by having the privilege of listening to the

Dempsey and Tunney Fight

which will commence at 9:00 p. m., eastern standard time. You will also be favored with some very interesting and instructive moving pictures pertaining to petroleum products and marketing, and if time permits, Mr. Bliss will put on a short, clean snappy comedy as a climax to a very enjoyable evening. This is known as gentlemen's evening so all gentlemen are invited.

Remember the date and place—Sept. 22, promptly 9:00 p. m., at Pastime Theater.

ROBT. WARNER, Manager.

A New American Car For All-America

No need of wasting a lot of words. No need taking a lot of time. Your eyes alone will tell you it's the new American car for all-America.

Length, grace and lowness in the new body creations by Fisher. A fashionable air of fleetness—an environment of luxury and richness. Distinction on the boulevard. Mastery on the road.

More than smoothness, more than snap, more than ample power for the steepest American hills and the roughest American roads. "Here he comes—there he goes. And 'there he goes' in comfort."

No magic, of course—and no untried engineering innovations. Just a big brute of an engine that laughs at hard work. A longer, stronger chassis. And months of testing at the General Motors Proving Ground.

Come in and talk to us. Then you'll know why all America is saying, "That's the car!"

Table with 2 columns: Car Model and Price. Includes 2-Door Sedan (\$1045), Landau Coupe (\$1045), Sport Roadster (\$1075), Cabriolet (\$1145), Landau Sedan (\$1265).

The New and Finer Pontiac Six, \$745 to \$925. Pontiac Six De Luxe Delivery, \$585 to \$770. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

WILLY BROS., Cass City

BUTTERICK PATTERNS.

The woman who sews will appreciate the simplicity of cutting a pattern if it is a Butterick Pattern. You can't go wrong with the Deltor instruction sheet.

Barie's

Saginaw Genesee at Baum

Navy's Huge New Bombing Plane

Striking picture of the new naval Douglas torpedo and bombing plane now undergoing tests at naval air station at San Diego, Calif. The plane is equipped with two air-cooled motors, and has glass panels in the sides as well as in the floor, enabling flyers to aim bombs more accurately. Machine guns are located in rear cockpit.

Tapestry Warp

Usually the warp in tapestries is of hemp. The pattern is usually made of colored wool threads, although threads of gold and silver are sometimes added to give richness. Silk is used in China.

Derived From Saxon

The word club, used to designate an organization, is supposed to be derived from the Saxon cleafan, to divide; a club being an association the expenses of which are shared among its members.

State News in Brief

East Lansing—Any parent whose children are caught playing in the streets here will be liable to a \$25 fine or 10 days in jail, according to a city ordinance which goes into effect Sept. 16.

Jackson—Negotiations begun last January for the purchase of the Southern Michigan Power plant at Quincy, by the Consumers Power company, have terminated in the deal being closed, it is announced by company officials here.

Lansing—The State Supreme Court has granted a writ of error in the Arthur Rich assault case to the United States Supreme Court. This means according to the court's ruling, that the famous case will be reviewed by the United States Supreme Court.

Detroit—Detroit's postal receipts of \$334,593 for the month of August showed an increase of nearly seven and a half per cent over the same month of last year, whereas the increase for the rest of the 50 leading cities of the country was about six and a half per cent.

Grand Rapids—Tumbling to the ground from a second story window in his home when the screen against which he had been propped broke, Eugene Fisher, 11-months-old son of Edward Fisher, received a fracture of the skull which resulted in his death. The child had been placed against the screen for relief from the heat.

St. Charles—Because he didn't want to go to school any longer, Arthur Sweatland, 16 years old, ended his life by shooting himself through the heart with a shotgun at his home at Willis Creek, near here. The boy's parents insisted he attend school the first of the fall term, and against his will, he went, objecting because he was older than the rest of the boys and girls in the seventh grade.

Lansing—Acting on the advice of Gov. Fred W. Green, the finance committee of the State Administrative Board refused a second plea by citizens of Jackson that the state contribute \$10,000 toward the expenses of the Jackson drill team to the American Legion convention at Paris. "I can not see how the state can afford to do anything of this sort with the finances in the condition they are at present," the Governor said.

Ionia—Lightning struck twice in the same place and as a result a large barn on the Louis Faxon farm, south of Lyons, was destroyed by fire. The loss is estimated at \$40,000, as the structure was filled with grain. The first bolt set fire to the barn but volunteer fire fighters had the blaze almost extinguished when a second bolt struck. The second shock dazed the fire fighters and by the time they recovered the barn was a mass of flames.

Mackinac Island—A hotel here has received \$1.50 from an anonymous woman in South Bend, Ind., to pay for a teaspoon stolen from the hotel dining room seven years ago. The letter accompanying the money read: "I am sending \$1.50 to cover the cost of a teaspoon taken from your hotel seven years ago. I had such a good time at your resort that I wanted a souvenir and decided to take the spoon. I still have it, but often wish I had paid for it them."

Adrian—J. William Shaffer, 16-year-old son of Mr. and Mrs. John W. Shaffer, of Adrian, was killed on the Deerfield-Dundee paved road when two automobiles collided in a cloud of smoke from grass burning along the roadside. Neither driver saw an approaching car until he was within a few feet of it. John S. Burke, of Fostoria, Ohio, driver of the other car was injured slightly. Shaffer was taken to the office of a physician at Blissfield where he died.

Lansing—Reports that the state has a chance to sell the Chelsea cement plant were current here recently following a conference between J. B. John, of Nawayo, and Gov. Fred W. Green. During the Groesbeck administration, John made an offer for the plant. He is connected with the cement industry. It was reported John is willing to pay an amount equal to what the State has invested in the Chelsea plant. Gov. Green has estimated the state's investment at \$1,000,000.

Saginaw—Oil well litigation will take on a new phase when a bill was introduced into court to restrain Mrs. William Glover Gage from sinking a well on her own property because it is in conflict with the city zoning code. It will be the first time that the new zoning ordinance will have a court test. Mrs. Gage petitioned the city plan commission to designate her property under the classification that would permit her to drill for oil. The commission refused, but Mrs. Gage went ahead with her plans.

Sault Ste. Marie—A company of St. Ignace, Mackinac City and Detroit men is being organized to operate a ferry across the Straits of Mackinac next year to compete with the state ferries now in operation there. A ship with a capacity of 65 automobiles has been purchased. It is announced that the company has obtained use of dock sites in Mackinac City and St. Ignace. Organization of the company follows complaints that inadequate service is being given by the state.

Charlotte—Fire destroyed the Masonic temple here with a loss of \$8,000. The origin of the blaze has not been determined. The loss is covered by insurance.

Jackson—Wayne Chesley, 15-year-old son of Mr. and Mrs. Fred Chesley, was shot accidentally by C. E. Long, Y. M. C. A. starter at a swimming meet at Brown's Lake. Long did not know his .22 calibre pistol was loaded with bullets. Chesley was not seriously injured.

Owosso—Hazing of freshmen in the Owosso high school by upperclassmen is taboo hereafter. The board of education has instructed Superintendent E. J. William to take any action necessary to stop the practice, which in the past, it is claimed, has resulted in injury to some of the freshmen.

Adrian—After setting his home afire here, Henry Myers, 80 years old, a farmer, took a rocking chair to an adjacent corn field and, after watching the place burn, slashed his wrist with a knife and bled to death. According to relatives, he had been showing signs of mental deficiency of late.

West Branch—Harry B. Leigh, 42 years old, was drowned at Peach Lake, 6 1/2 miles east of this city. He had wagered his wife he could swim across the lake. He sank in 15 feet of water, after shouting once for help. Leigh bought the Peach Lake resort about a year ago and moved here from Detroit.

Ann Arbor—Temporary bleachers may be put on top of the concrete stands in the new Michigan stadium to accommodate all persons seeking tickets for the Ohio State game who applied before September 1, it was intimated here. The bleachers will enlarge the capacity of the stadium by 18,000, bringing the total to 93,000.

Coldwater—Norwood Tooley, 21 years old, who resided with his parents, Mr. and Mrs. Frank Tooley, near Albion, died here, a few minutes after his machine crashed into a tree south of here. Tooley was en route home from Fort Wayne, Ind., and was riding alone. He told officers that he fell asleep. A broken rib is thought to have punctured his lung.

Caro—Children who were pupils in the Caro schoolhouse of Miss Mildred Doran, "flying teacher," who was lost on the Pacific with six other Dole air racers, will send floral pieces to be cast on the waters in memorial services Sept. 18. The services will be held 700 miles off San Francisco. The flowers are to be strewn upon the ocean from the Matson liner Maui while clergy deliver eulogies.

Lansing—Governor Fred W. Green is working for the state without pay. It was rumored here that none of his pay checks has been cashed. The governor admitted he has the 16 checks he has received for his eight months' work, but said he was saving them. His pay is \$5,000 a year and he receives a check twice a month. O. B. Fuller, auditor general, stated none of the checks has gone through.

Charlevoix—Donald Bartlett, 6-year-old son of Clarence Bartlett, of this city, died in a hospital here a few hours after being run down by an automobile driven by Mary Krulik, 15-year-old school girl, according to eye witnesses of the accident. The girl is said by the police to have driven away from the accident without offering help, and was found later at her home. She at first denied running over the boy but later admitted hitting something but said she did not know what it was.

Grand Rapids—Awakened by passersby, as he was sleeping on the bank of Grand river recently, Thesdum Rempalski, 16 years old, plunged into the stream and rescued David Lamphere, 7 years old, and Robert Gamble, 17 years old. Young Lamphere had slipped from the Fourth street dam and Gamble, going to his assistance, was caught in the current. Several persons on the river bank who saw the boys' plight, were unable to swim but they awakened Rempalski.

Escanaba—Lawrence Larson, 30 years, old, of Chicago, met death as he was posing for a snap shot his sweetheart was taking. He was killed almost at the instant the picture was napped. Larson, with his fiancée, Miss Olive Gunderson, of Manistique, her parents, and sisters were driving from Manistique to Marquette. The party stopped to take some pictures. Larson climbed into a pine tree and was killed as he reached out and grasped a 6,800 volt wire, running through the branches.

Owosso—Henry Clay, 82 years old, an Antrim township farmer, has started suit in circuit court against his son, Harvey Clay, and the son's wife, seeking an accounting. He claims he deeded his farm to them in 1925 and that they agreed to support him the rest of his life. They, however, charged him \$4 a week back since, and have refused to let him talk to his old friends, he charges. Clay asks that his son be made to return the board money and to fulfill the terms of his agreement.

Kalamazoo—A horse's love for its old master resulted in serious injury to Mr. and Mrs. I. Doolittle, who were out on the head and face when the animal plunged headon into their automobile. The horse, sold a few days ago, broke out of its new owner's barn and roared down the road in the direction of its old home. The animal dashed from behind an automobile just as the Doolittle car turned out to pass the other automobile. The impact threw the horse's head and the forepart of its body through the windshield and against the couple.

Complete Frustration

The height of disappointment is achieved by a mosquito that bites a scarecrow in the leg.—Farm and Fireside.

Cause or Effect?

A swelled head usually connotes a shrunken brain.—Wall Street Journal.

Order for Publication—Sale or mortgage of real estate.—State of Michigan, The Probate Court for the County of Tuscola.

At a session of said Court, held at the Probate Office in the Village of Caro in said County, on the 80th day of August A. D. 1927.

Present: Hon. Guy G. Hill, Judge of Probate.

Estate of Al Winchester, Deceased.
G. S. Graham, having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 24th day of September, A. D. 1927, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said county.

GUY G. HILL,
Judge of Probate.
Myrtle Burse,
Register of Probate. 9-2-3

Mortgage Sale.

Whereas default has been made in the payment of the money secured by a certain mortgage made by Charles N. Kreiner and Anna Kreiner, his wife, of Novesta Township, Tuscola County, Michigan, to the Pioneer Bank, a body corporate, organized under the laws of the State of Michigan, at North Branch, Michigan, bearing date the 16th day of February, A. D. 1918 and recorded in the office of the Register of Deeds for the County of Tuscola, State of Michigan, on the 27th day of February, A. D. 1918 in Libre 138 of Mortgages on Page 326 and

Whereas the amount claimed to be due at the date of this notice is the sum of One Thousand Five Hundred Twenty-five and 68/100 Dollars (\$1525.68) of principal and interest and

Whereas, no suit at law or equity has been instituted to recover the money secured by said mortgage or any part thereof.

Now, Therefore, By virtue of the power of sale contained in said mortgage and in pursuance of the statute in such case made and provided,

Notice is hereby given, that on Thursday, the 10th day of November, A. D. 1927, at ten o'clock in the forenoon, the said mortgage will be foreclosed by the sale of the premises therein described (or so much thereof as may be necessary to pay the amount then due and all legal costs, including an attorney fee as provided in said mortgage), at public auction to the highest bidder, at the front door of the Court House, in the City of Caro, in said County of Tuscola, Michigan, that being the place where the Circuit Court for said County is holden.
