MILK PRODUCTION SHOWS INCREASE

During the past seven years the production of milk in the United guest on Tuesday evening at the Ben States has shown a steady and fairly Gage home. uniform increase, but the production of milk products, although showing increases in most instances, has not been uniform, according to Prof. H. A. Ross, milk marketing specialist at the New York State College of Agricul-

Since 1920, the manufacture of condensed and evaporated milk has shown the least increase of all important milk products. The combined production of these commodities has increased at the rate of only 2 percent each year. The production of canned sweetened condensed milk has actually decreased at the rate of 10.5 per cent a year, but this decrease has been more than offset by an increase in canned evaporated milk. Cheese, also, has shown only a relatively small increase during this period.

Creamery butter and ice cream, on the other hand, have increased fairly rapidly. Both of these products are probably more sensitive to industrial conditions than are canned milk and been high because of the general prosperity of the urban population during the last few years, Professor

Approximately two-thirds of all the milk handled in New York state plants is now marketed as fluid milk or Thomas Colwell home. cream, largely in the metropolitan area including New York city. The demand for the semiluxury, cream, has increased more rapidly than has Redford and Pontiac. the demand for milk, but both are increasing at a sufficiently high rate, however, to insure a good market.

Pure Bred Doctrine Has

Been Given Big Setback Perhaps the pure-bred doctrine has been handicapped somewhat at times by making it too general. A man unfamiliar with good sense in feeding and dairy herd management has no business with an extra good bull any more than a baby has with a costly watch or a motor car. Pure-bred cattle are excellent for those who understand how to handle them, but they may prove of no particular value to the careless manager. With the right management, the

pure-bred dairy sire is the greatest single factor in increasing production and profits. The states which are high in percentage of pure-bred dairy sires are also high in average milk production per cow. As the percentage of pure-bred sires decreases in the list of states the production for the group becomes less. This is the result of a survey made by the federal government,

Ice Cream Time Is Here!

It's really always ice cream time, for this delightful delicacy is relished all the year round; but in the Merry Month of June it is more gratifying than ever.

What can be more pleasing to the taste than ice cream, pre-pared as it is by us in all manner of tempting combinations of flavors and syrups? You'll smack your lips in perfect ecstacy over our ice cream

And you can get M & B Ice Cream in bulk or brick, according to your taste. It's a healthy delicacy for parties and dinners. Try a plate at our soda fountain.

Forcing Plants

A bed heated from the bottom by means of pipes, flues or fermenting organic matter is used for seed germina tion and plant growing. It is used for short-season vegetables and for starting garden crops in order to have them mature early. An unheated frame is used to carry half-hardy plants over winter for planting the next spring or when only slight protection is needed.

Read the Bible

Victor Hugo named the old prophet Sunday. Mr. and Mrs. Wm. G. Moore and Isaiah as one of the six greatest lit-Mr. and Mrs. Ralph Ward and chilerary men of all times. Cakes in History

Frequently in feudal France manorial dues were paid with a cake. The overseers of Fontainebleau received a cake each year the first of May from the vassals who were allowed to pick up the wood in the forest. And whenever the king rode in Amiens, the good burghers were expected to present him with a cake.

Cotton in Auto Tires

Most motorists know of the important part that cotton plays in the sturdy carcass of an automobile tire. But it is not generally known that cotton fiber of length required for tire cords is raised in only two similar but widely separated areas. The delta regions of the Mississippi river, in this country, and of the Nile river in for the highest grade tires.

ALL Roads Are Easy with Red Crown Ethyl:

Dirtroads-paved roads-hilly roads -rough roads - all roads are easy when this famous fuel is in the tank.

Red Crown Ethyl makes your car glad to go! Gives it new power and pep and speed! At the wheel you can sense its eagerness!

Driving is easy-with Red Crown Ethyl. The car gets away on the instant - picks up fast - slips over hills — speeds or crawls with the same even purr. It will never knock, no matter what you ask it to do!

Red Crown Ethyl is a high compression gasoline. It made possible the high compression motor. It gives the advantages of high compression to any motor, old or new. And you can buy it for only a few cents more per gallon!

No one can tell you what it means

Doctor at 83 Found People **Preferred His Prescription**

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipa-tion, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that re-sult from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for hu-man beings to put into their sys-tem. If grown people want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for con-stipation, the safer for the child and for you, and the better for the gen-eral health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pep-bin why take chances with strenge in, why take chances with strong

4928

drugs? Al drug stores have the generous bottles. We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid FREE SAMPLE BOTTLE. FREE SAMPLE BOTTLÉ

GAGETOWN Close Successful Year-St. Agatha's school and the School of Music closed a very successful year Friday with a play by the pupils, which was well attended and well rendered. Sisters Germain and Julian. na left Friday and Sisters Marcella

and Lewis left Tuesday to spend the summer at Adrian. Fine Dairy Farm-

The farm one mile north of own, known as the Newton place, has electric lights in the house and barn, an electric pump, a milk house equipped, and a cow stable built onto the remodeled barn for 20 cows-a very complete dairy farm. This has been for several years a dilapidated run down farm, but now ranks among the best.

Annual Alumni Banquet-

The twelfth annual alumni banquet of the Gagetown public schools was held in the parlors of the M. P. church Friday evening, June 22, to about 75 guests. The dinner, a delicious three course affair, was served by members of the Junior class. The tables were prettily decorated with flowers and flags, symbolizing the motto "Loyalty."

After the banquet, Wilfred Burse, '20, president of the association, gave the address of welcome and introduced the toast master, Bruce Williams of the class of '26. Orville Karr, president of the class of '28 responded, after which the toastmaster invited the assembly to adjourn to the main room, where a program consisting of a reading by Mrs. E. Fischer, '21, a vocal duet by Esther Tamblyn '24 and Evelyn Kehoe '28, a piano duet by Myrtle Ziehms '28 and Belva O'Rourke '28. Toasts on "Responsi-bilities" and "Character" were given by Miss Beryl Koepfgen and Miss Mattie Babcock, both honorary members of the organization, and "Loyalty" by Mr. and Mrs. Hunter of Ohio Wesleyan University.

Following the program, the regular business meeting was held and the following officers elected: President, Harry McGinn '27, vice president, Bruce Williams '26, secretary, George Hendershot '18, treasurer, Delos Wood '26. The alumni song "Auld Lang Syne" concluded the program for the evening. Members of the alumni and hus

Banking System

This is done in conformity with our desire to give every security to our customers. The Federal Reserve Banking System is the strongest financial system ever devised. To be a member of this system gives to a conservative bank the greatest possible certainty of being able to secure funds under any emergency and in any conceivable stringent period at the lowest rates of interest. It links together in one great chain all the financial centers of the United States and brings to the country bank the same reassuring background in times of stringency that it gives to the large city bank.

We believe this will be gratifying to our depositors and will give our borrowers a sense of added security with their loans in our hands.

The Cass City State Bank
