## ONE DEAD, 6 INJURED IN 3 AUTO ACCIDENTS ON M-53

Two Very Seriously Injured Saturday.

Cadillac Car Upset Sunday Afternoon.

One dead and three persons injured, two of them very seriously, is

this corner within three months. sedan which he was driving collided home. with an Oakland touring car driven by Mrs. George Robinson of Austin township. Mr. Maney had his skull township. Mr. Maney had his skull ODD FELLOWS fractured and passed away within a very short time after the accident, before he could be removed to a hospital. Mrs. Robinson was unhurt. Mr. Maney was accompanied by his wife and Mr. and Mrs. John A. Ford, of Detroit. All three suffered injuries in the accident and were brought to the Pleasant Home Hospital at Cass City. X-ray examinations were taken which revealed that Mrs. Maney had a dislocated right hip and a small fracture of the hip bone and Mr. Ford had a compound fracture of the right leg just above the knee. Mrs. Maney was cut and carried many severe bruises and Mr. Ford had several cuts about the body. He is 71 years of age and is in a serious condition. Mrs. Ford suffered bruises and cuts about the bead and was the least injured of John C. Corkins of Cass City is head and was the least injured of the three. Mr. Ford was removed to Harper Hospital at Detroit Monday morning and Mrs. Ford was able to return to her home. Mrs. Maney is still a patient at the hospital here

and is too ill to be moved. Mrs. Robinson was driving from Cass City to her home 91/2 miles east of town. As she neared the junction of M-53 and M-81, she noticed a Ford car with trailer traveling north on M-53. She stopped the Oakland car she was driving and waited until the Ford car had turned the corner and started on its journey west on M-81. Mrs. Robinson says she looked both ways on M-53 while changing gears in starting on her journey eastward to cross M-53 and did not see any car. As she was about to cross, she looked north again and saw the road was clear. As she glanced to the south, she says she saw the Lincoln car within 10 feet of her machine. A load of nine sacks of fertilizer in the rear of the Robinson car weighted down that automobile and without question saved Mrs. Robinson from injury. The car was turned over on its side. The Lincoln sedan turned over several times, throwing the occupants of that car onto the highway. Mr. and Mrs. Maney and Mr. and Mrs. Ford were on their way from Detroit to visit friends in Bad Axe when the FIVE YEAR OLD GIRL accident occurred.

J. W. Maney of Detroit Is Dead; way from Detroit to Cass City where he was called in consultation in the case of Mr. Ford, when the accident happened.

Dr. McAlpine and Mr. Elliott were brought to Pleasant Home Hospital Detroit Doctor and Friend Hurt When for treatment. They were able to return to their homes in Detroit Sunday afternoon, the trip being made in one of Dr. McCoy's cars. The Cadillac car was badly damaged.

James Stewart of Grindstone City the toll of an automobile accident at was brought to Pleasant Home Hosthe junction of two state roads, M-53 pital for treatment for injuries reand M-81, four miles east of Cass ceived in an automobile accident on City, about five o'clock Saturday af- M-53 on Thursday, Sept. 20. Big Trucks — Motor Busses — Passenger Cars by the Thousand-

Wide Concrete Roads!

Experience counts when roads must be paved for heavy traffic. Last year, the mileage of portland cement concrete pavements built on state highway systems of the United States was more than three times the mileage of all other pavements. It is significant that the largest mileage of concrete roads was built by those states having the heaviest traffic, and the most experience in road building.

THE YOUNG FOLKS' CHANCE

The public schools have improved im-

measurably, and the country is dotted

with little and big colleges, technical,

vocational, and business schools, etc.,

where anyone with any ambition can

All these wide open doors of opportunity call for personal effort.

They are simply an invitation to come

in and work. No one is going to be

passed along easily through these institutions without doing much one-

self. The requirements are stricter than they used to be. Standards of

world demands more than it used to.

It wants well trained young people who have done their work faithfully,

and shown capacity to learn and wil-

lingness to work. But it has little use for those who could not or would not

get by in school. Such ones have to take low grades of work, and demonstrate by their fidelity that they re-

gret the failures of the past and

a long way in these times. People

may laugh at the young graduate who expects to get a good job on the

strength of his college degree or

high school record. And yet the world

It argues that the youth that did

well in school will continue the same

habits of achievement, and be willing

to learn the processes of any industry to which such a one is adapted.

So our young people should all real-

ize that success in their school work

is the first step toward a happy and successful life.

THE WOMAN VOTE.

**Prescription He Wrote** in 1892 is the World's Most Popular Laxative

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic phys-ics and purges for the relief of con-stipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxa-tive to be used by his patients. The prescription for constipation

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Cald-well's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, certic howed stimulant as Syrup gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pep-sin, and if you will once start using it you will also always have a bottle handy for emergencies.

172

N. B. Caldwill's mit AT AGE 83

It is particularly pleasing to know that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles. We would be glad to have you

rove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write, "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.

Flint spent Sunday with Mrs. Peteron's parents, Mr. and Mrs. John Barnes. Mrs. Peterson remained to spend the week in Cass City. Mrs. Leo Hopps of Detroit is also spending he week with her parents, Mr. and Mrs. Barnes. Mr. and Mrs. Lloyd Bigham and on, Lloyd, Jr., of Pontiac spent the week-end with Mr. Bigham's parents, Mr. and Mrs. Herbert Bigham. Miss Norine Bigham returned to Pontiac with them Sunday evening and they all left there the first of the week to spend a week in Springfield, Ohio. Mrs. N. Mellick entertained ten little girls Saturday afternoon at a wienie roast in honor of the eighth birthday of her daughter, Catherine. Various out-of-door games were played and wienies, buns, brick ice cream and cakes were served. Catherine received many pretty gifts. Miss Emma Bearss of Bay City spent the week-end with her parents, Mr. and Mrs. John L. Bearss. Mr. and Mrs. Charles Wilsie of Caro were Sunday guests at the Bearss home. Mr. and Mrs. Bearss and Mr. and Mrs. Wilsie motored to Bay City Sunday afternoon, taking Miss Emma back to her work there. Guy Rench and Edward Klinqner left Saturday for St. Louis, Missouri, where they attended a salesmen's convention of the Purina Mills. Mrs. Rench and children also left Saturday to visit relatives in Detroit and also visited Mrs. O. R. Longsworth, grandmother of Mrs. Rench, at Van Wert, Ohio. They all returned to Cass City Wednesday, Rev. Paul J. Allured left Monday for Evart to make a brief visit at the home of his mother. Tuesday, he left Evart for Ludington to attend the Michigan synod which convened there that day. Mr. Allured was joined at Reed City by Rev. Spafford Kelsey, who is also attending the synod. Mr. Kelsey occupied the Presbyterian pulpit at Tustin Sunday. Mr. and Mrs. Robert Orr and children of Pigeon were dinner guests on Friday evening at the home of Mrs. Orr's parents, Mr. and Mrs. W. D. Striffler. The dinner was in honor of the birthday of Mrs. Striffler. Miss Myrtle Orr of Detroit, who has been visiting relatives in Cass City, returned to Pigeon with Mr. Orr and

family. Friday evening and spent a

few days there.

#### Garden Pottery Adds

Charm to Exteriors The garden has always been indicative of freedom from the unpleasant and is regarded as a place where one may go and forget the cares and wor ries of everyday life.

In artistically designed gardens we see perfect harmony between the work of man and nature.

In planting gardens, future growth must be taken into consideration, but where nature has already determined Mrs. Durell Lane. what shall be, man can use his artistic ability to great advantage by placing furniture, such as sun dials, bird baths, flower pots and vases. and ladies' hair dressing. benches, fountains and the like, which harmonize beautifully with the grass paths, flower beds and pergolas.

Where one has stretches of lawn, the placing of a few urns, a fountain or bird bath and where the ococyhood days here. casion permits, a bench, gives an attractive effect. Even very small lawns can be much improved in appearance by a few pieces of garden Armstrong of Flint. pottery.

A striking arrangement can be had by planting the rear of the lawn to shrubs and placing a bird bath quite near it with here and there an ornamental flower pot filled with flowers.

The use of garden pottery as an asset to a beautiful garden or lawn is of great value, but the material of which city. this pottery is made should be taken into consideration. Decorations of this character should be of such material that the durability is assured so that they will retain their artistic value.

#### Rural Art to Succeed

Drab Farm Scenery

yield to the era of farm art in the Ypsilanti where she will attend school. United States.

Belief that the rural sections of the United States are "growing up to beauty" is expressed by Lorado Taft, Mr. and Mrs. Charles Smith of Colone of America's foremost sculptors, wood spent from Friday until Wednesin Farm and Fireside Magazine. He day with friends and relatives in Farr's parents, Mr. and Mrs. John sees the day of the dull, unpainted Canada. barns and the farmsteads that have gone unpainted for years passing, and instead the time when farmers will compete to produce the most beauti- afternoon. The boys not only enjoyed fully landscaped properties and the the wienies but also the excellent most attractive farm buildings.

"I often think of the drab bareness Smith of thousands of farmsides, and of thousands of country towns, with hardly anything beautiful about them except the lovely country girls," ays Mr. Taft. "And what a dreary setting for these girls! Only the picture show for diversion, as a rule.

"Before long, surely, we shall find rural sections competing with each other in building community houses where beauty can be within and without, and farmers competing with each other in producing handsomely landscaped grounds and yards. Beauty is towels. not expensive. Usually the farmsteads which should be the loveliest

Fourth Grade-The Scottish is the name of the picture that are pursuing agricultural courses at caller in our room on Friday. are very grateful to the people have donated children's magaz for our reading table. Thirty boys and girls are busy making book covers for use in our lang work. We have been studying ten Indian posters for our room

Fifth Grade-Thirteen boys thirteen girls are enrolled in the grade. We are enjoying the use superintendent. We hope to be to keep it, by keeping a good tendance record. Last week tramped to the woods where w joyed a wiener roast.

Sixth Grade-The "A" arithmetic are studying division decimals this week. Lorraine man has an average of 100 spelling so far this month.

#### OBITUARY

Mrs. Elizabeth Maxwell.

Mrs. Elizabeth Maxwell died on Thursday, September 20, at her home in Gilford, after an illness of nearly Mrs. Andrew Barnes and daugh-ters, Waunetta and Thelma, and Mrs. around, she had been poorly that

> Elizabeth Chase was born Sept. 20, ried to Mr. Turner near Caro, who also died. She was married to J. D. Maxwell in 1924, and lived in Cass City until two years ago when they moved to Unionville. Living there but a short time, they moved to Gilford, where Mrs. Maxwell passed away. She leaves beside her husband, two sisters and two brothers.

Funeral services were held Saturday afternoon at two o'clock at the land cemetery.

Henry Klinkman.

Henry Klinkman passed away at his farm home in Evergreen town-Mr. and Mrs. William Moreton of ship, 41/2 miles east and 1 mile south of Cass City, on Saturday morning, Sept. 22, at the age of 68 years. Funeral services were held at the home Tuesday afternoon, Rev. C. daughter, Evelyn, and Louis Usher F. Smith of the Evangelical church officiating. Interment was made in Elkland cemetery.

Henry Klinkman was born in Gernany Nov. 1, 1859, and went to New York state at the age of 6 years. On Nov. 27, 1884, he married Elizabeth

Mr. Taft is the creator of notable Middle West. His statue of Black Hawk, near Oregon, Ill., is familiar to farmers of the state.

#### Durability of Wood

An English bridge was of three trusses supporting two roadways, each about 12 feet wide. All parts were constructed of hewn timbers. The workmanship was reported by the engineers to be as nearly perfect as could be imagined, the framing and joining being as accurate as if it were cabinet work. The total freedom from racking of local distortion after 90 years of use was pointed out as bearing witness both to the excellence of design and execution of the work. If you fear to build with wood, thinking the wooden house will quickly decay, this long-lived bridge should quiet such fears. Wood is flexible, responsive to color and architecturally expressive .-- New York Herald Tribune.

#### City's Points of Interest

The magnolia gardens of South Car, olina express the higher ideals of the human race. They are a product of many years of planting and culture. Their display of magnolias and azaleas is the most extensive and beau-/tiful in the world. They attract varying streams of visitors as long as they are in bloom, especially at Easter time.

It is possible for almost any considerable city to approach perfection in some interesting development, and when it does it has something of definite value to itself and to its visitors .--- Cleveland Plain-Dealer.

#### Copper Roofing Spreads

By means of a new form of shingle one may have a roof which gives all the lasting protection of pure copper against wear, weather and fire-plus a charm that grows more lovely through the years. Once only expensive lomes could have the advantage of a copper roof. Now science has made it available in copper-clad at, half the cost of copper roofing in its old-time form and only slightly more than high-grade wooden shingles.

#### Tree Roots Clog Drains

It Is Quite Delicious Served in Its Own Covering.

Prepared by the United States Department of Agriculture.) and without puncturing the skin dig Served in its own covering, topped by golden brown bread crumbs, stuffed eggplant is an unusually attractive vegetable when it comes to the table. Here are directions for preparing it, given by the bureau of home economics. 1 medium-sized juice eggplant 1 pint finely cut 3 tablespoons butter 2 tablespoons cabbage chopped peanuts % teaspoon salt 1 cup fine bread crumbs 1 teaspoon onion

Cut the eggplant in half lengthwise

Add the peel and cook until about 1 tablespoonful of the sirup is left. Sift together the dry ingredients, cut in the fat, and add the well-beaten egg and the milk. Beat this mixture for about three minutes. Stir in the orange peel and mix thoroughly. Pour in a greased bread pan and bake for one

#### DO YOU WANT ATTRACTIVE CLOTHES?

Concluded from first page. which we select colors, where designers get their ideas for color combinahour in a moderate oven (about 325 tions and how the principles of design are related to good color arrangement. These are the topics that will be discussed and illustrated at Warm Weather Meals

the above lecture demonstration. There will be three meetings on the project besides the lecture demonstration. Local leaders will meet with the specialist for these lessons and they in turn will meet with the women in their local groups and relay the work to them. In the second discussion 🌋 each woman will have an opportunity to find out her most becoming colors and make color plans for her wardrobe that will suit her build and personality. Choosing becoming colors afford much pleasure but combining several colors successfully takes skill. So knowing principles for interesting color combinations gives endless opportunity for a woman to be individual in her dressing. Then there is the question of how and where to use dress accessories. Just the right bit of color in beads or Just the right bit of color in second handbag or scarf often makes an uninteresting costume individual. These

are a few of the topics answered in the third discussion. What do you consider when you buy a new hat, or dress, or coat? Becomingness? Certainly. Price? Of course. Fashionableness? To be sure. Practicability? Very probably. But, do you ever stop to consider the other articles of your wardrobe before you buy? Do you ask yourself whether this new possession will blend with them, or whether the combination of new and old will result in such a discord of color that will make your fascinating purchase a sad and total loss? Have you any idea how much it costs to dress yourself and your family? How a budget might be valuable in planning clothing expendi-

minutes, drain and add the other intures? These are questions that come gredients. Fill the eggplant shells up in connection with the last discuswith this mixture, and cover the top sion. Each woman is asked to assemwith buttered bread crumbs. Place ble a costume for herself that will the stuffed eggplant in a shallow bakexpress some of the principles of color harmony in relation to herself ing dish, pour two or three tablespoons of hot water into the dish, and that she has been studying. She may bake for half an hour or until the egguse garments she has on hand, or new plant mixture is heated through and ones if she had intended purchasing them for the season.

By DR. DAN F. BRADLEY, Cleveland.

Imagination, curiosity and humor are three characteristics for the man and woman who will advance continually. Ninety-five per cent of life is delightful. Growing up is glorious and you will always have the enthusiasm of life facing you.

The world has always been growing up and man is like the world. We are always in a period of transition and transition periods always involve certain unpleasantnesses, but there are more pleasures.

We have seen the world grow up from the period when crime had to be paid for by physical pain. We have seen the world graduate from the idea that sin is vulgar. And we are ever searching for a more ethical standard.

You are sure to select your new Fall and Winter Coat at Berman's if you make compaison of style, value and price. Our coat line excels any previous season with a complete price range from \$16.75 to \$58.00. Sizes from 14 to 56, also featuring half and quarter sizes to fit everv one.

#### A Dress Special at \$12.50

A group of 50 New Dresses of our regular \$15.00 quality, especially priced at \$12.50. The materials are of Satin and Canton Crepe, many with velvet trims, colors include the new browns and Spanish wine. The sizes are complete from 14 to 44.

Our large dress stock of 300 dresses offers a style and material for every shopper. Sizes from 14 to 60, priced from \$5.95 to \$16.75.

#### Millinery Department

This week we have an entirely new showing of hats to offer in velvet and the new metallic styles. These new offrings are sure to please. Plenty of felt hats also.

PENNEY SEES MR. HOOVER AS FARMER'S HOPE

Says Smith Fails to Grasp the Situation and Doubts His Competence.

HE REMAINS A DEMOCRAT

But Chain Store Owner Opposes Party Nominee-Calls Secretary Sincere and Competent.

J. C. Penney, president of one of the largest chain store organizations in the country, declares that, although he has been a life-long Democrat, he will support Herbert Hoover for the Presidency.

In his declaration Mr. Penney enthusiastically supports Hoover's stand on farm relief, which, he declares, is a matter of business and not of more laws.

"The well-being of the country rises above partisan issues," said Mr. Penney in a formal statement, "and, while I shall remain a Democrat in the affairs of my state, which is Florida, and have no intention of becoming a Republican, I have a feeling which amounts to a deep conviction that the opportunity to have Herbert Hoover as President is one that we should take.

"Two very important questions are before us-farm relief and prohibition. In the farm question I have an interest as keen as that of any farmer, for of our stores, which number more than a thousand, a majority are in the farm districts. Their prosperperity depends on the prosperity of the farmer. I started my first store in Wyoming, and for years all of our stores were in the Western and Middle Western states.

#### Knows Farm Problems

"I know that country; I was born and lived in it. I know farming and farm problems. For some years 1 have given a great deal of time and money to studying ways and means of making the farmer more prosperous. I have a tract of 120,000 acres in Florida, on which more than a hundred farm families are working at problems of production and distribution in a business way under the supervision of a well-rounded staff of agricultural experts. Our farmers are making money.

"I have noted that in sections, such as parts of Wisconsin, where the farmers maintain herds of blooded stock, they earn profits, whereas the farmer who has poor stock does just as much work and gets no return. This shows in our store incomes. And so I have a demonstration herd of Guernsey cattle, which I take around the country myself in order to teach the lessons of economical production We are likewise working on beef cattle and sheep.

"The farm problem is not a new one to me, and I am not in it for amuse ment. In the light of my experience it seems to me that few men

to that level by the leadership of a man who understands both business and farming. That man is Herbert Hoover. He can do for farming what, as Secretary of Commerce, he has done for business and can put it once and for all on a firm foundation. His proposals are direct, comprehensive and wholly practical. He does not just weep on the farmer's shoulder. "I am a dry. I am in absolute accord with Hoover's stand on prohibition. It is a noble experiment. Entirely aside from the moral aspects of prohibition, I trace to it much of our national prosperity. Governor Smith's proposals are entitled to weight, but I am wholly against them. I will not

vote for a wet. "In short, while I do not doubt Governor Smith's sincerity in his various pleas for election, I more than doubt his competence to grapple with our national problems. I doubt neither Hoover's sincerity nor his competence. And therefore I am going to do all that lies in my power to help towards his election." Arnold doubts whether the supply of

#### Army Rank Abolished

Ensign was the lowest rank of an officer in the Revolutionary army and also in the British army. The duties were to carry the ensign, or regimental colors. The rank has now been abelished in the army, and the lowes: rank of commissioned officer is second lieutenant. In the navy, ensign is the lowest rank of commissioned officer

Old and Popular Song

The song "The Old Oaken Bucket' was written by Samuel Woodworth in 1817, and first published under the title "The Bucket." The air is an adaptation by Frederick Smith of Kiallmark's music, which was composed for Moore's "Araby's Daughter."

REPORT OF SANILAC D. H. I. A. NO. 1 FOR AUGUST.

By DEAN GRAFTON ROGERS, University of Colorado. The apparatus for educating American lawyers is an undigested,

American Legal Training Lacking in Background

of the Highest Importance

neterogenous muddle. We are admitting men to practice with varying preparation. The typical man seems to have about one year of slim college work and two years of reasonably good law school experience.

He enters the bar with little information in literature, history or the social and political experience of the race. He enters the practice, moreover, possessing no closer contact with the actual daily work of a lawyer than an apprentice carpenter would have if he never had a saw or square in his hand, but had read and heard about them for some years.

Both the English and the French systems contemplate for the lawyer a general cultural education, while the American system is teaching a vocation before it trains the mind. Furthermore, the American system pays too much attention to the private side of law practice and too little to its public side.

I am not convinced that the American lawyer is as keen a public critic and as far-seeing a public adviser as his brother across the sea.

#### Problem of Empty Church Pews Calls for Most Serious Consideration

By REV. DAVID HOWIE, Cleveland (Congregationalist).

HERE are three fundamental reasons for nonattendance at religious services, though many excuses are put forward as to why men absent themselves from the public worship. I do not think anyone is prepared to show just how church attendance compares today with that of 25 years ago, the world over. But, losing sight of the matter of comparison, the fact remains that a great multitude of people do not attend church.

In a survey by the Federated Churches a few years ago, it was estimated that two-fifths of the population on the West side of this city were not affiliated with any church. This is the serious problem that confronts thoughtful Christians people.

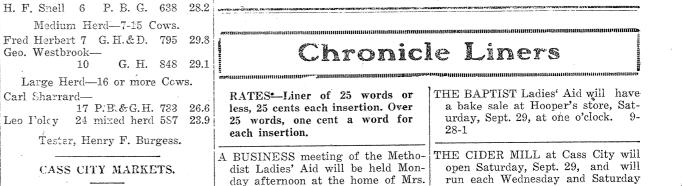

One reason why men stay away from church services is because their parents did not set a church-going example before them.

A second vital reason why so many men stay away from church is because so many church members have so little interest in the church services. It is the men of the church who represent the church to the men outside the church membership, and the thing that will appeal most to those outside is not the well-appointed building, or the finely balanced service, but the Christlike character of the church members.

With all its faults, this age in which we are living appreciates reality and consistency. The man who does not go to church is looking on, and is influenced by the church member's interest, or lack of interest, in the church's services.

The third fundamental reason why so many stay away from church is because they misunderstand the purpose for which the church exists.

These reasons are not the excuses that men always offer, but they are, I believe, the reasons which principally account for the absence of many. Church folk should face the facts if they are to remedy the situation.

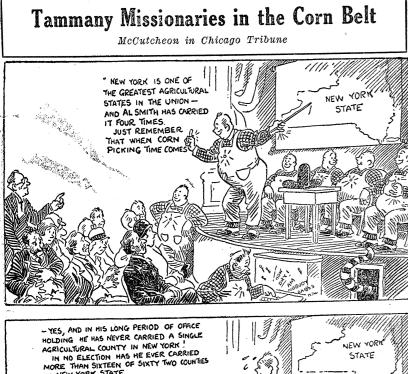

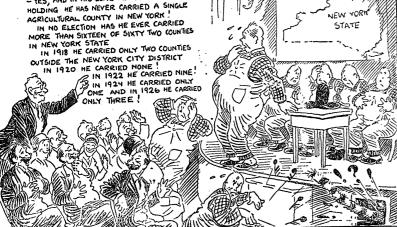

9|28|1

ever shown so slight a grasp of the situation as did Governor Smith-if his acceptance speech is to be taken as his best effort. His lack of understanding is fundamental. He simply does not know what it is all about, and after giving a few unimportant and misleading figures he simply says that he will try to get someone to help him solve it by law.

#### Doubts Smith's Confidence

"We have had solutions by law through the years, and we narrowly escaped destruction by law in the Mc-Nary-Haugen bill. The farm is a business enterprise and must be brought

Belief in Immortality It is impossible to say when the **Balanced** Feeding Best doctrine of the immortality of the soul was first advanced. suitable feeds supplying protein at a low cost was demonstrated beyond all doubt last year by hundreds of farmers who co-operated with their county farm advisers and the extension serv- | Anti-Saloon League. ice of the agricultural college in keep ing hog feeding records. The predic tion that this practice will pay even better this year than it did last is based on the fact that corn is higher in price and some of the feeds rich in protein lower in price than was the

case in 1927. Live Stock Hints

Cleanliness pays in handling all ypes of farm animals.

Hog oilers are labor savers in lice and mange prevention.

From the sanitation standpoint, covered hog troughs V-shaped open-top kind.

\* \* \* It has been shown repeatedly that pigs can be made to grow faster, make cheaper gains, and stay in a healthier and thriftier condition by adding tankage or a good animal protein to the ration. \* \* \*

It pays to feed turkeys well from the time of first feeding until they are marketed.

\* \* \*

Elimination of all of the progeny of boars which have been known to sire inguinally herniated pigs is strongly advised. Probably, in some cases, this would not be practical. \* \* \*

While blue grass pasture does not rank as high as rape or alfalfa as a forage crop for hogs, it does have considerable value for fattening pigs.
