MRS. C. JAUS FOUND DEAD IN FIELD THURS.

Left Home to Go to Her Son's During Night and Became Lost in Storm.

The body of Mrs. Christina Jaus, 76, was found in a field 30 rods from the farm residence of her son, Samuel Jaus, who resides in Elkland township, four miles northeast of Cass City, early Thursday morning. Mrs. Jaus' death was probably due to exposure, her body having lain in the field several hours.

After Samuel Jaus had finished milking at his barn shortly before seven o'clock Thursday morning, he glanced over at the residence of his mother, who resided just across the highway from his home, and noticed that the chimney had blown down during the heavy wind which prevailed during the night. He decided to go at once to her home and ascertain if she had been frightened by the noise of the falling bricks. On arriving there, he failed to find his mother in the house. Alarmed, he immediately instituted a search with the result that her dead body was found about 70 rods from her home.

It is thought that Mrs. Jaus, frightened by the falling chimney, left her home to go to the residence of her son about 40 rods distant. She crossed the highway and entered her son's farm through a driveway a short distance east of his house. Here her footprints show that she walked in the mud before the ground froze during the night, her steps taking a southeasterly course across the field. Part way across, the footprints indicate that she turned about, and then continued the same way toward the fence at the edge of the field. She carried a flashlight to light the way. Whether Mrs. Jaus was prevented from reaching her son's house by the strong wind which prevailed, if she became lost in the darkness in the journey between the two homes, or whether she suffered a slight stroke just previous or at the time she made the trip is not known. One or all of these may have contributed to the cause of her death. While Mrs. Jaus has been subject to heart trouble, she has been unusually well this winter. When last seen alive, she was at the farm barn Wednesday evening after her supply of milk and appeared in good spirits.

Christina Benkelman was born in Wuertemberg, Germany, March 24, 1852. She was united in marriage with George Jaus and within two years of that time they came to America, arriving in Cass City in March, 1873. Mr. Jaus passed away in 1900.

Mrs. Jaus was a member of the Evangelical church. She will be remembered by her friends for her cheerful disposition and kindly manner.

Besides her three sons, Samuel and Fred Jaus of Cass City and John Jaus of Cleveland, she is survived by two sisters, Mrs. Jacob Joos of Cass City and Mrs. John Crocker of Saginaw. Seven children preceded the mother in death. Funeral arrangements had not been completed when the Chronicle went to press Thursday afternoon.

FREE ENTERTAINMENT NEXT TUESDAY NIGHT

The Cass City Community Club will hold their next meeting on Tuesday evening, March 12. Banquet at 7:30 o'clock sharp at the Methodist church.

The program will be conducted by the Cass City high school under the supervision of the teachers and will be held in the auditorium of the school, directly after the banquet.

We have accepted the offer of a well known speaker from Detroit to give a 30 minute talk, after the program is concluded but as yet have received nothing definite from him.

The Cass City Community club cordially extends to the public far and near an invitation to be present at the Cass City high school and hear this fine program, which will be put on for the benefit of all who attend. Seats will be reserved for members of the club and the program will commence at 8:30 sharp. Everybody come.

By Order of Committee.

THREE UNIONS IN A ONE-DAY INSTITUTE

The Tuscola County Woman's Christian Temperance Union held a one-day institute at the Kingston M. E. church on Thursday, Feb. 28, which members from the Caro, Cass City and Deford Unions attended. The session opened at 10:30 a. m. with the usual Scripture reading and prayer. County director of institutes, Mrs. G. A. Martin of Deford, explained the work and the help derived from holding institutes.

How a model union meeting should be conducted and duties of officers

were discussed. Mrs. E. L. Carless of Kingston read an article prepared by a former state president, Mrs. E. L. Calkins, of Ypsilanti, on "The Bible in the Public School" which was thoroughly discussed. The aim of the W. C. T. U. is to have the Bible read at least once a day in all schools. The cigarette question came up for considerable discussion.

The district president, Mrs. Bell Waters, of Lum, was present and gave a fine address in the afternoon and a report of the national convention she attended at Boston in November which was very interesting. Rev. E. L. Carless, pastor of M. E. church of Kingston, and Rev. S. H. Wood of Pontiac gave brief addresses.

A number of selections of music were enjoyed. Special mention might be made of a duet given by Mrs. E. L. Carless, soprano, and Mrs. McKinney, alto, both of Kingston. The latter is a lady past 85 years of age. At noon a pot luck lunch was served in the church dining room.

IMMUNIZING MATERIAL IS FURNISHED FREE

Dept. Recommends Immunization of Children Found Susceptible after Dick Test.

Dr. F. L. Morris, health officer of Elkland township, has received a letter from the Michigan Department of Health which recommends the immunization of all school and pre-school children who have had the Dick test and who have been found susceptible to the disease. The Dick test is a test to determine if a person would contract scarlet fever, or was immune. "I think it advisable," says Dr. Morris, "for the parents or teachers to notify their doctor in order that they will know how much material they will have to procure. Parents should use the utmost discretion to keep their children home if they have sore throat and should not fail to realize the seriousness of the situation. A straw colored solution of iodine and water is a good gargle for the throat."

The letter from the Michigan Department of Health dated March 2 to Mr. Morris follows.

"Dear Dr. Morris: Your letter is at hand, concerning the scarlet fever situation in your community.

"The mild cases of this disease are a more potent spread of scarlet fever than any other single thing. The cases are so mild that they frequently do not seem to merit medical attention and as a result they wander about spreading infection to others. It is for this reason that the immunizing of whole communities has become more and more important. Whenever a case of scarlet fever in a community was desperately sick and in bed the chance for spread in the community was very much less than it is with the mild type of the disease that is present in the state this year.

"Michigan Department of Health recommends the immunization of all school and pre-school children, who have had the Dick test and who have been found susceptible to the disease. This is the only way we know of to protect communities now that the disease is so mild, that many of them are not in quarantine. Michigan Department of Health will co-operate with the physicians of your community, and will furnish the immunizing material, free of charge. We urge all parents in your community to give their children the benefits of this protection.

"You may use this letter for publicity in any way you think best.

"Very respectfully, Don M. Griswold, M. D. Dr. P. H., Deputy Commissioner."

NAME OFFICERS AND SELECT FAIR DATES

Members of the Tuscola, Huron and Sanilac District Fair Association met at Dr. P. A. Schenck's office Tuesday evening, elected four directors and made preliminary arrangements for the fortieth annual Cass City Fair.

Directors chosen were Alfred Fort, J. D. Tuckey, Earl Heller and J. D. Brooker. The board of directors selected the following officers: President, G. A. Tindale. Vice president, Roy M. Taylor. Secretary, C. J. Striffler. Treasurer, H. L. Hunt. The dates chosen for the 1929 fair are August 13, 14, 15 and 16.

To the Voters of Elkland Township. As we have been quarantined with scarlet fever, I couldn't see you personally, so through the Chronicle I am once more asking for your support. I was the first candidate in the field for township treasurer, and will be grateful for your help. John Reagh.—1 Adv. 1

NOVESTA VOTERS TRY NEW PLAN AT CAUCUS

Name Two Candidates for Each of the Principal Offices at Caucus Tuesday.

Novesta township voters are experimenting with a new plan of presenting candidates at the annual spring election on Monday, April 1. At the caucus held Tuesday, the two candidates receiving the highest number of votes were ordered placed on the spring ballot, thereby giving voters the choice of two men for nearly all offices. For several years but one caucus was held and but one set of candidates' names were on the ticket. Tuesday's township caucus results follow:

Supervisor—Geo. McArthur, Walter Kelley. Clerk—Robert Phillips, Hazen Warner.

Treasurer—Duncan McArthur. Highway com.—Wm. Zinnecker, Joshua Curtis.

Justice (full term)—Mack Little, Melvin O'Dell.

Justice (to fill vacancy)—Sam Sher, Henry Cuer.

Member of board of review—John McArthur, Howard Retherford.

For the principal offices in Grant township, present officers were nominated to succeed themselves at the caucus held Wednesday. The ticket reads:

Supervisor, Arthur Ellicott. Clerk, Douglas Brown.

Treasurer, W. L. Jarvis. Highway com., John McCallum.

Member of board of review, John H. Moore.

Constables, Geo. Wallace, Howard Helwig, Richard Cliff and Wm. Ashmore.

The Republican caucus in Elkland township next Tuesday promises to be well attended with eight candidates in the field for the office of township treasurer.

VIOLA M. QUICK AND BASIL COLTSON MARRY

Miss Viola Mae Quick, daughter of Mr. and Mrs. Clarence Quick of Cass City, and Basil Coltson of Pontiac, son of Mr. and Mrs. James Coltson of Kingston, were united in marriage Monday, March 4, at one o'clock, at the home of the bride on Houghton street. Elder Mudge of the Church of Christ performed the ring ceremony. The bride was attired in a gown of beaded white satin. She was attended by her sister, Miss Bernice Quick of Pontiac, who wore pink georgette. Mr. Coltson was attended by his brother, Earl Coltson. Miss Irene Kaiser of Detroit, who has been a very close friend of the bride since Junior high school days, played the Lohengrin Wedding March.

A wedding dinner followed the ceremony. A beautiful two-layer wedding cake was cut by the bride. Guests included immediate relatives of the bride and groom, Dr. and Mrs. S. B. Young and Mr. and Mrs. A. J. Knapp, with whom Mrs. Coltson had lived during part of her high school days here. Out of town guests were Mr. and Mrs. James Coltson, Mr. and Mrs. Earl Coltson of Kingston; Mr. and Mrs. Harry Cannons and daughter, Verna, of Marlette; Mr. and Mrs. Joseph Fulcher and son, Leo Hendricks, of Wickware; Mr. and Mrs. M. H. Quick of Novesta; Miss Irene Kaiser and William Quigley of Detroit; Miss Bernice Quick and Frank Hayes of Pontiac.

The young couple received many beautiful and useful gifts. Mr. and Mrs. Coltson will make their home in Pontiac.

ELKLAND ARBOR ELECTED OFFICERS

Elkland Arbor No. 31, Ancient Order of Gleaners met Thursday evening at the home of Clark Bixby and elected the following officers:

Chief Gleaner—Mrs. Minnie Warner.

Vice Chief Gleaner—N. Mellick.

Secretary-treasurer—Mrs. N. Mellick.

Chaplain—Mrs. L. E. Dickinson.

Lecturer—Mrs. Eliza Schwaderer.

Conductor—Walter Anthes.

Conductress—Mrs. Charles Wright.

Inner Guard—W. O. Root.

Outer Guard—Clark Bixby.

The officers were installed at this time. It was decided to have an oyster supper at their next meeting which will be held Thursday evening, March 14, at the home of Mr. Bixby.

Notice.

To the Voters of Elkland Township—I wish to announce that I will be a candidate for the nomination of Township Treasurer at the Republican caucus. I have never held this office. Your support and influence will be appreciated. George Burg.—1 Adv. 1

COMING AUCTIONS.

Chas. S. Wheaton has decided to quit farming and will sell his personal property at auction 1 mile south and 1 mile east of New Greenleaf on Monday, March 11. R. N. McCullough is the auctioneer.

Benj. Wentworth has rented his farm 1 mile south and 3/4 mile west of Shabbona and will have an auction sale of live stock and farm tools on Wednesday, Mar. 13, with T. B. Tyrell as auctioneer.

Alfred Elley has decided to quit farming and will sell his personal property at auction 2 miles west and 1 mile north of Deford on Thursday, Mar. 14. T. B. Tyrell will cry the sale.

All three sales are advertised in detail on page 7.

THE WEEK IN THE STATE LEGISLATURE

A Resume of the Matters Which Are Claiming Attention of Solons.

Michigan Press Association Lansing Bureau. March 1, 1929.

"They shall not pass" seems to be the war-time slogan adopted by the legislature in regard to important measures at the present session.

Two months of the session gone and not an appropriation measure of any kind has gone through the mill. Neither does relief for the hospitals of the state seem any nearer a solution than when the session opened. A bond proposal for twenty millions which passed the Senate and came to the House under pressure to be rushed through in time for a vote of the people at the spring election was murdered in the House Thursday afternoon, in the most stirring session of the year. "Now what's to be done?" is the outstanding question and there are nearly as many different answers as there are members.

The administration measure providing for amendments to the criminal code, House Bill No. 116, was passed by the House Thursday afternoon by the overwhelming vote of 72 to 18. Most of the dry members voted for the bill in spite of desperate efforts by Rev. R. N. Holsapple, anti-saloon league lobbyist. The bill had the hearty endorsement of the governor, the attorney general and his aides, Commissioner Arthur Wood of the pardon and parole department, of prosecuting attorneys and law enforcement officials from all over the state. The Cuthbertson bill or some similar measure will undoubtedly be passed which will make the liquor laws and their enforcement even more practical than they are under the present laws.

There is much favorable comment on a bill introduced in the Senate by Senator Conlon of Grand Rapids which would provide home rule under a charter for counties. It is said that this would greatly reduce running expenses, particularly in the more sparsely settled of the northern counties, and thus reduce the excessive tax rate of such counties. The bill carries a referendum clause. Opposition to the amusement tax bill was voiced strenuously at the public hearing Monday night, following.

GAGETOWN RESIDENT IN FATAL ACCIDENT

Chas. McFall Struck by Auto Saturday, While Visiting in Detroit.

Chas. McFall, a resident of Gagetown, while spending a few days in Ann Arbor and Detroit, was struck by an automobile Saturday night, March 2, and died from severe pelvic injuries at Providence hospital Sunday morning.

He was on a business trip to Ann Arbor and came back to Detroit early Saturday evening. He, accompanied by his host, C. J. Cole, had made purchases at a nearby store and the two were only three blocks from the Cole residence when a passing car apparently skidded or was shoved over, knocking Mr. McFall to the pavement. This was one of a possible eighteen fatal accidents due to careless driving the one day, Saturday.

Mr. McFall is survived by a brother and sister of Oskaloosa, Iowa; three children, Charlotte L., Merrivale E. and Helena M., aged 11, 10 and seven years, and the widow, Lila M. McFall, a teacher in Gagetown high school.

SUB-DIST. ORATORICAL CONTEST HERE APR. 10

Entries for Students in Declarations and Oratory Close Today.

The sub-district oratorical and declamatory contest will be held at Cass City Wednesday, April 10, when students from Tuscola, Huron and Sanilac counties will compete for honors and when it will be decided who will represent this section of the state at the district contest.

Three judges will be chosen to determine the winners in delivery here on April 10. The same judges will grade the orations in thought and composition. Previous to this time, two sets of judges were chosen for orations, one group to judge the delivery and another for thought and composition.

Entries close today for the oratorical and declamatory contests. H. W. Holmes of Cass City is managing the event.

Miss Virginia Day will represent Cass City in the oratorical contest which will be held here. The local declamatory contest was held March 1 with six students taking part. The first three places were awarded to Bernita Taylor, Catherine Bailey and Maxine Corkins. The race for first place was so close that it took the judges considerable time to make a decision.

CHURCH CALENDAR.

Presbyterian Church—Paul Johnson Allured, Minister. March 10, third Sunday before Easter.

SENIOR SENATORS DEBATE QUESTIONS

Senior classes in American Government in the Cass City high school organized as nearly as possible like the U. S. Senate last week. Last minute questions of discussion in Washington will be debated by the Senior Senators. In section two, Glen McCullough will represent Vice President Dawes, Clark Helwig will act as clerk of the senate. In section one, Catherine

Hunt will represent Vice President Dawes, Erma Hartwick, the clerk of the senate. Some of the senators that are represented are Reed of Missouri; Borah of Idaho; Couzens and Vandenberg of Michigan; Heflin of Alabama; Bruce of Maryland; Moses of N. H.; and Norris of Nebraska. The seniors are still in session as a mock senate and argue bills of moment as heatedly as any solon in Washington.

Members of the Community Civics, American History and American Government classes enjoyed the inauguration proceedings Monday which were broadcast by WJR. Through the courtesy of F. A. Bigelow, a radio was placed in the auditorium and social science classes met there instead of in their regular classroom. All the high school and junior high listened to the oath of office and the inaugural address given by President Hoover. Of especial interest to the senior class was the broadcasting from the U. S. Senate Chamber.

LOCALS WIN FIRST GAME AT TOURNEY

Defeated Mayville Wednesday Night 22-34. Meet Harbor Beach in Second Game.

Cass City defeated Pigeon in the local gym Friday night by a score of 25-19. Pigeon is the runner-up in Huron county for this year's championship.

Pigeon started with a rush and caught the locals for a 15-5 lead in the opening quarter, with Schmidt, the high scoring center, scoring almost at will. The home squad then awoke to the job on hand and brought their total to 11 at the half, while holding Pigeon scoreless.

After the first five minutes of the second half, the issue was never in doubt, the maroon offense clicking for five field goals in as many minutes and holding the big blue team to one point, a foul toss by Schmidt. The last quarter was marred by frequent substitutions with very little good basket ball shown.

This week the locals entered the District 10 tournament, defending the title won last year. Mayville, the opponents in the first round drawing, gave Cass City a battle in the county "go" at Caro. At Bad Axe Wednesday night, Cass City defeated the Mayville squad 22-34. The locals were scheduled for their second encounter with Harbor Beach late Thursday afternoon. The winner of this game will play in the finals with the Bad Axe, Sandusky, Marlette bracket winner.

On Wednesday, at the district tournament, Bad Axe won from Sandusky, Sebawing defeated Pt. Hope, Pigeon won from Uby, Harbor Beach defeated Crosswell, Gagetown won from Carsonville and Kinde defeated Owendale. The Sebawing-Port Hope and Harbor Beach-Crosswell encounter were hard fought and won by very narrow margins.

100 NEW BOOKS ADDED TO HIGH SCHOOL LIBRARY

About 100 new books have been added to the high school library, which came as a real pleasure to the students, inasmuch as very few books have been purchased in the past few years. A good library is a real benefit to any school.

Under the careful supervision of Miss Watrous, the library books have been cataloged and classed, so now the system is up to date. Miss Watrous has been ably assisted by several of the senior girls in this work.

REV. CURTIS SPEAKS BEFORE HURON MINISTERIAL ASS'N

Rev. William Curtis of Cass City attended the Huron County Ministerial Association held at Bad Axe Monday. The meeting was held in the Episcopal church, where a social time was spent in the forenoon with a pot luck dinner at noon. In the program which followed, Rev. Curtis gave an address on "Work Among the Boys" and Rev. F. L. Pohly of Sebawing on "The Efficient Minister." A lively discussion was held after each address.

CHARACTER TRAINING WAS P. T. A. SUBJECT

Speakers Stressed Importance of Child's Development in School, Church and Home.

The Parent-Teachers' Association enjoyed a very profitable and worthwhile meeting Monday evening when character-training was the subject of discussion. The session was opened by prayer by Rev. W. R. Curtis of the Baptist church, followed by the regular business routine.

Rev. P. J. Allured opened his address, "Character Training in the Church," by giving a brief history of the objectives of Sunday school work. The present aim of the Sunday or Church school is soul saving, a practical knowledge of the Bible and to develop religious personalities. All true character must have a religious background. It has been estimated that the commercial value of a human body is 98 cents; it is the soul which makes it valuable.

Among the principal thoughts Supt. Holmes left with his audience in his discussion of "Character Building in the School" were the following: "The job of the school and church is to train the child to live the highest kind of life. Education is not only preparation for life but is life itself. Everything we do has some influence upon some one else. Subjects of study are secondary to character training. A teacher unconsciously helps to form character in every subject taught. Music, history, athletics, assembly programs, English work are all elements of character training. In the home give the child responsibility, do not nag him too much and do not criticize teachers before pupils. Take care of the child's leisure time. Our job as parents and teachers is to help the child to find what he is best fitted to do." Mr. Holmes concluded by reading "The Transformation of Peter."

In opening her talk on "Character Training in the Home," Mrs. Knapp said that no child was ever created but what can be trained for good. She said that the first thing necessary for a good home was that father and mother have given their lives to God, and made a plea for proper home life in the community. We should be sure of a good foundation and then continually pray God to direct our actions and doings in home. President Hoover's mother dedicated him to God's service. Did it pay? Did God hear her prayer? It is better to say to our children, "Come with me to Sunday school" than to say, "Go." Parents must live up to their obligations if they expect the school and church to do their part. Let us take time to read the Bible with our children and to teach them to pray.

The musical numbers on the program were given by the high school girls' sextet and by Bert and Leonard Elliott. The girls sang two selections—"Pale Moon" and "The Dancers" and Messrs. Elliott gave a Hawaiian guitar number. Both groups responded to encores.

The April meeting of the society will be devoted to a discussion of recreation in home, school and community. Rev. Curtis and Coach James Lewis will present their views on the subject and Mr. Curtis will demonstrate with games in the gymnasium.

LAST MEETING IN LANDSCAPE WORK

The last meeting in the landscape work for Tuscola county will be held Thursday, March 14. Mr. Gregg from the college will be at hand at 9:00 a. m. so that the forenoon can be devoted to working on the plans. At 1:00 p. m. Mr. Post, from the college, will give a stereopticon lecture on perennials. He has 82 slides. All who have taken the work or are taking it should be present at this meeting. However, it should be remembered that there will be no lecture in the forenoon as that time will be devoted to working on the plans. It will be necessary for those making plans to try and get them finished at this meeting.

Mrs. N. Mellick left Thursday to spend several days with relatives in Ann Arbor. She was accompanied by her sister-in-law, Mrs. Earl Mellick, of Harbor Beach, who will enter a hospital at Ann Arbor for treatment.

THE WEEK IN THE STATE LEGISLATURE

Concluded from first page.

ing the regular session. Claims were made that the tax would put a great majority of small town movie houses out of business. The bill, which had been referred to the ways and means committee, has not as yet been reported out.

The Senate Monday night passed a bill providing for an advertising appropriation of \$100,000 to help the four tourist associations advertise the resort attractions of the state.

The House passed five bills at the Monday evening session, one establishing a fund for county law libraries, one permitting one country district to provide transportation for pupils from another district, one to provide for discharge of tax liens and land contracts in like manner as mortgages, one to provide for the disbandment of sparsely settled townships and one to provide for refund of drain assessments if funds are fraudulently expended.

Rep. McNitt introduced a bill making it a felony to own or drive a car equipped to lay down a smoke screen, such as is sometimes used by bandits to help their escape from a posse.

The Senate had a feed at the Downey Tuesday night at the expense of Senator Kolowich of Detroit, penalized for the time-honored introduction of the one hundredth bill. The dinner was followed by a dancing party.

The Senate has passed the Sink bill permitting township treasurers to hold more than two terms and the Richardson bill to permit an investigation of township and district school records and to provide for institution of suits by taxpayers who feel themselves aggrieved.

Rep. Look sponsors a bill placing county school commissioners under supervision of boards of supervisors as to expenses, and another to limit the expense of making the school census.

A public hearing on the capital punishment proposition was held Wednesday, at which many speakers favored the measure while but three speakers opposed it, all three of them being Detroit social workers. Five capital punishment bills have been introduced in the Senate but as yet none of them have been reported out. None have made their appearance as yet in the House, which is awaiting action by the Senate. Sentiment in the House is apparently strongly in favor of capital punishment.

Thumbs were turned down in the House on Rep. Frank Wade's bill giving the legislature power to make workmen's compensation compulsory. The measure had been amended to exclude farm and household laborers, but was voted down even as amended.

Rep. Watson, chairman of the judiciary committee, sponsors legislation which would require filing of finger prints and other identification methods with the state identification bureau and also with the national bureau at Washington, of all persons convicted of felonies.

A measure introduced by Rep. Armstrong would permit state aid to so-called "Home Loan Districts," for building small homes with garden plots for workers unable to finance home plans for themselves. The proposition calls for a state-wide referendum. A public hearing was held on the matter Wednesday before the House committee on revision and amendment. Opponents to the measure claim it has been a failure in New York, North Dakota and California, where it has been tried. The bill has not as yet been reported out of committee.

Senator Person has introduced a bill providing that auto insurance companies shall make a \$25 deductible clause in every policy. He claims the full coverage clause is responsible for many accidents, because careless drivers strip fenders and cause other damage under the proposition of "Let the insurance company take care of it."

A bill is in the Senate, sponsored by Senator O'Connell, providing for inspection of chicken hatcheries, under a bureau of the Department of Agriculture. The bill carries an appropriation of \$20,000.

Four bills regulating oil and gas wells and production have passed the Senate and have been sent to the House. They authorize the state to govern production, stock issues and gas rates.

Senator Kolowich sponsors a bill limiting primary school money distri-

bution to \$300 per pupil.

Senator Conlon has a bill providing that drivers who have their licenses suspended must have \$10,000 insurance coverage before having their licenses restored.

A bill giving the commissioner of agriculture power to revoke licenses of those found guilty of unfair and unethical business practices passed the House Wednesday on a division, 57, to 20. Opponents of the bill claimed it was a "price-fixing" measure and classed it as unconstitutional.

A bill permitting cities to bond for garbage disposal plants passed by a vote of 75 to 12 in the House.

A bill giving corporations power to condemn property for construction of hydro-electric plants was introduced by Senator Rushton, under regulation of the public utilities commission.

Rep. Farrand introduced a measure Thursday to take \$500,000 from the automobile title division money for building and maintaining new buildings for the state police.

Senator Woodruff has introduced a bill sponsored by the osteopaths providing that applicants for licenses must have had two years of college, one year of intern work in hospital training or one year in college and service. It would also permit osteopaths to treat eye, ear, nose and throat troubles. The Senate committee on public health has agreed to eliminate the osteopaths from the proposed basic science law if applicants for license hold a college degree or have attended a major college for not less than two years.

A bill allowing county boards of supervisors to control county fairs if the county owns the fair grounds has passed the Senate and is now being held by a House committee.

Adjournment was taken Friday, after a short session, until Monday evening. Warfare is likely to be spirited next week over appropriations and financial matters, after the week-end vacation. It is probable that various new plans will make their appearance early in the week.

DEFORD

Kenneth Kelley was home Friday night from Detroit where he is working. Bruce Malcolm returned with him Saturday morning.

A total of approximately 340 cubic yards of concrete and 9,200 pounds of steel.

Sealed bids on the above excavating concrete work and bridge steel will be received from nine o'clock A. M. to eleven o'clock Eastern Standard time. All persons wishing to bid on the above mentioned work will be required to deposit with their bid a certified check or its equivalent of \$300.00 as a guarantee that they will enter into contract and furnish the bonds as required by law within ten days. Checks of unsuccessful bidders will be returned as soon as contracts are awarded.

Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in the sum then and there to be fixed by us, reserving to ourselves the right to reject any and all bids. The date for the completion of such contracts and the terms of payment thereof, will be announced at the time of letting.

The said jobs will be let in accordance with the diagram now on file with the other papers pertaining to said drain in the offices of the county drain commissioners of the counties of Huron and Tuscola to which reference may be had to all parties interested and bids will be made and received accordingly.

Notice is further hereby given, that at the time and place of letting, or at such other time and place thereafter to which we, the drainage board aforesaid, may adjourn the same, the assessments for benefits to the lands comprised within the "Huron and Branches Drain Special Assessment District," and apportionments thereto, will be announced by us and will be subject to review one day, from nine o'clock in the forenoon until five o'clock in the afternoon.

The following is a description of the several tracts or parcels of land constituting the Special Assessment District of said drain, viz:

Members of the M. M. class at the Methodist Sunday School enjoyed an exceptionally pleasant evening Friday when they met at the home of Mr. and Mrs. A. H. Kinnaird. The committee for the evening were Mrs. Wood, Mrs. Holmes and Mrs. Kinnaird. Games and stunts made up the evening's entertainment. Each guest trimmed a hat. Prizes in this were won by Rev. George Hill and Mrs. I. A. Fritz. Refreshments were served.

Owing to sickness and poor roads not a very large crowd attended the Jolly Farmers' Club meeting held on February 28 at the home of Mr. and Mrs. Ralph Spurgeon. A fine dinner was enjoyed at noon after which a business meeting was held. Roll call was answered by Irish jokes which were much enjoyed. A short program was given. The next meeting will be held March 28 at the home of Mr. and Mrs. A. J. Knapp. Mrs. George Seed's group will have charge of the program.

Reduced loading orders are being enforced on Sanilac trunklines and county highways by Oscar Conklin and John H. Murphy, special deputies, working under the road commission. Orders received from the state highway department March 1 cut loads approximately one-half to a maximum of 450 pounds per inch of tire width on gravel surfaces and 525 pounds per inch of tire width on concrete surfaces. Continued thaws have softened road surfaces, and the annual spring breakup looms with road forces organized to combat gravel surfaces breaking through. Heavy laden trucks will be subject to penalty if found over-loaded. Due to heavy milk truck traffic main trunklines used on the Detroit route will be among the first to break through.

John N. Forshar, receiver of the defunct State bank of Deckerville for the past two years, ended his own life by shooting himself late last week with a 22 calibre rifle. Mr. Forshar had been suffering for some time with cancer, and despondency is believed to have caused the act. He came from Manistique two years ago

as a representative of the state banking department. Mr. Forshar had resigned his position as receiver just three days prior to his death. Funeral services were held at the family home with Rev. W. J. Jones officiating, and the body was taken to Manistique for burial. Mr. Forshar leaves a widow and five children. L. O. Wentworth, receiver of the First State Bank of Carsonville, has been named receiver of the State bank of Deckerville succeeding Mr. Forshar. His appointment was made by Judge X. A. Boomhower.

Justice court activity experienced a boom the past week with several violators appearing before Justice Noel A. Babcock.

Fred Shaw of Port Huron must spend 30 days in the county jail in default of fine and costs for pleading guilty to larceny of pine trees from William Wiltis, residing north of Lexington. The theft occurred last fall. Shaw said he intended to landscape the grounds of his house north of Port Huron, and later intended to start a nursery. Wiltis charged the theft of 12 pine trees. Archie Ross, a companion, is to be questioned by officers as to his part in the theft.

Lee English and Alvah Wannamaker, both of Peck, paid fine and costs of \$14.45 each before Justice Noel A. Babcock on pleading guilty to being drunk and disorderly.

Frank Gunza of Wheatland pleaded guilty to a charge of being drunk and disorderly and was remanded to the county jail for five days in default of fine and costs of \$11.15. His companion, Steve Jubonick, pleaded not guilty to the same charge and his trial was set for Saturday in justice court. The sheriff claimed Steve was driving a horse and buggy while drunk, but no such charge could be found in the statutes so Steve was charged with being drunk and disorderly.

Criminal arraignments launched the activity of the Sanilac circuit this week with a flood of defendants appearing before Judge X. A. Boomhower. Several pleaded guilty and are to be sentenced later this week while others elected to stand trial during the present term of court.

The usual run of liquor violators came before the court together with other minor criminal offenders.

Only one case of unusual interest appeared that of Peter Ernst, 21, former Watertown youth, living in Hazel Park, charged with enticing away a minor female under the age of 16 for the purpose of marriage. Ernst pleaded guilty to the charge of enticing away Virginia Taylor, 14, of Watertown. He was scheduled to be sentenced later this week.

Harry Calkins of Kings Mills, Lapeer county, charged with breaking and entering the Snover Grain elevator pleaded not guilty. Calkins is alleged to be a member of the theft ring that recently operated in Sanilac, Tuscola and Lapeer counties. Two other members of the alleged gang were recently sentenced in Caro.

An effort will be made to clear the criminal docket before other cases are taken up. Jury call has been tentatively set for next week.

BEE KEEPERS' MEETING

There will be a county bee keepers' meeting at the court house at Caro on Wednesday, March 13. J. C. Kremer, extension specialist in bee keeping from Michigan State College, will be present. There are a lot of subjects which may come up for discussion. Among them are: Making of increase, feeding, wintering, bee diseases, swarm control, spring management, comb and extracted honey production, queen rearing, transferring, marketing, grading, organization. It is hoped at this time to be able to organize County Bee Keepers' Association to look after the interests in this county. The morning session will begin at ten o'clock and the afternoon session, at 1:15. All who are interested are invited to attend.

FORD MOTOR COMPANY

WHEN the new Ford was designed, it was immediately apparent that a new tire would have to be made to match the car's performance. It was distinctly a new problem, for here was a car with quicker acceleration, greater speed and more braking efficiency than any car of similar size or weight.

So that every Ford owner might be assured of maximum tire mileage at the lowest cost, the Ford Motor Company devoted many months to research and experiment in conjunction with the leading tire manufacturers.

As a result, certain definite specifications were developed for tires for the new Ford. These specify cords of certain strength and texture, a large volume of tread and side-wall rubber, sturdy non-skid design, and reinforced plies for protection against bruise breaks—all the strong features of construction formerly considered for only the largest tires.

Great care also was taken to secure the best riding qualities in connection with the transverse springs and the Houdaille shock absorbers.

Though the Ford tires are designated as 30 x 4.50, they have the resiliency and air space of much larger tires because of the drop center rim of the steel-spoke wheels.

For best results, the tires on the new Ford should be kept inflated to an air pressure of 35 pounds and checked regularly to insure this pressure all the time. This is important. Low inflation breaks down the side-walls of a tire. By causing overheating, it also destroys the rubber that acts as an insulation, with consequent separation of the cord.

At the end of each 5000 miles, when you have the front wheels packed with grease, it is a good plan to have the wheel alignment checked. This will prevent premature wear.

When punctures come, as they will with any tire, you will find the Ford dealer particularly well-equipped to make repairs quickly and at small cost. See him, too, for replacements. Then you will be sure of getting tires built specially for the Ford car according to definite Ford specifications.

Michigan Happenings

Kenneth Bolenbaugh, 3 years old, was rescued from the Sharp Lake outlet, two miles south of Jackson, by Mrs. L. F. Secord. When Mrs. Secord heard a 4-year-old boy, who was with the Bolenbaugh child, call for help, she hurried to the stream, where she saw the boy under the surface a few feet from the bank. The woman jumped in, fully clothed, and found the water reached her mouth. She grasped the child's garments, pulling him to safety. The boy was unconscious, but Mrs. Secord revived him by first aid.

Robert W. Brooks, 33 years old, of Mt. Morris, died at Flint, apparently of heart disease, a few minutes after he had collapsed at the steering wheel of a Saginaw-Flint bus of the Eastern Michigan Railways at Saginaw street and Baltimore Boulevard. Brooks steered the bus with its eight passengers into the middle of the street, stopped and threw the engine out of gear before he slumped over the wheel. An ambulance was called and Brooks was taken to the Hurley Hospital, but was dead on arrival.

Quarantine regulations, designed to control the spread of European corn borer, have been extended at Washington by the department of agriculture to include territory found infested during the past season. At the same time the requirement of inspection and certification of packages of shelled corn, weighing two pounds or less, was discontinued. All portions of Michigan not hitherto covered in the regulations are included in the additional territory in the one-generation area.

Wolves have made such depredations on sheep ranches in Menominee County that an S O S was recently sent out to the conservation department. To protect the industry, the department sent a squad of trappers to the county to "clean up." Wolves have been so bold that the owners of the 1,200-acre Sugar Creek Ranch were obliged to gather their flock into the ranch yards and buildings, despite the protection of armed guards.

Grand Rapids was assured of being the base of a Grand Rapids to Milwaukee air line when the county board of supervisors recently approved a 25-year lease to the John B. Kohler interests of Chicago on two and one-half acres of ground in the northeast end of the airport. The company plans to operate a minimum of two amphibian planes on a regular schedule. Between May 1 and June 1, service will be started.

Lewis Sweet, Alanson fisherman, is convalescing after his toes and part of all his fingers were amputated at the Petoskey Hospital to stop the spread of an infection resulting from the freezing he suffered in January while adrift on an ice floe in Lake Michigan. Friends contributed \$600 to pay for the hospital treatment. It was said Sweet will be unable to work for six months.

Michigan now has a killing, packing and cold storage plant exclusively for rabbits, which is said to be the only one of its kind in the middle west. Located on State highway M-50, one mile west of Dundee, the plant started active operations recently. It was built by the Raisin Brook packing company and has a capacity of 3,500 rabbits a day.

An ice-covered bay and a thick blanket of snow in the orchards made the fruit growers in the Grand Traverse region happy. The orchardists believe the ice and snow will tend to retard bud growth until all danger of frost injury has passed. The growers declare the horticultural outlook for 1923 is very promising.

Miss Rose Navarre, of Monroe, 55 years old, attended the funeral of her 72-year-old brother recently at St. Mary's church. Descending the steps of the church she fell, stricken with apoplexy, and died in the house on LaPlaisance street, where the two had resided together for a number of years.

George Clark, 45 years old, truck farmer living near Tecumseh, took his own life by shooting himself in the mouth. He left a note stating that his body would be found in the barn. No reason is assigned for his act. Clark is survived by his parents.

Snowshoe rabbits have been reported dying in large numbers around Grayling this past winter. Specimens gathered and sent to Lansing for examination revealed that in all cases the animals died of pneumonia.

Despite the late harvest of early potatoes in the South, the market for Michigan old potatoes continues listless and prices are gradually working lower. Carlot sales now are being made at prices 10 to 20 cents a hundredweight lower than the peak quotations a month ago. Less than 10 cars of new potatoes have been shipped out of the South this season compared with approximately 100 cars in the corresponding period a year ago. Extremely cold weather has retarded the Southern crop.

Disaster stopped Edward A. Stinson and Randolph G. Page in their attempt to set a new world's endurance record for planes without refueling at Bay City, when their plane settled to the ice three minutes after their take-off. After flying nearly a mile at an altitude of 15 feet, the Sally Sovereign dropped slowly, striking the soft ice. The left landing gear broke and she slid for some distance, bending the propeller and tearing the left wing tip. Neither pilot was hurt. Stinson gave orders to have the plane dismantled, so it could be towed to the factory at Northville.

Analysis of the viscera of the 19 deer that were shot by sportsmen near the state game refuge in the lower peninsula of the state during the past open season, has been completed at the University of Michigan, at Ann Arbor, by George R. LaRue, professor of zoology. Professor LaRue reports that the examination revealed very little evidence of disease or of parasitic worms. These deer were so sound and healthy that Professor LaRue recommends no further work of this sort for lower peninsula deer.

The Johnson Oil Refining Co., of Chicago, has announced that it has overcome the difficulties of refining the Muskegon Dundee oil into a high grade gasoline and that it is prepared to start work at once on a 5,000-barrel refinery at Muskegon, to cost \$1,500,000. The test of the Muskegon oil was made at the Cleveland, Okla., refinery of the company. The Johnson Company says that as a result of its tests it has been able to produce a higher grade of gasoline than from other mid-continental oils.

For the second time within a year the postoffice and general store of W. E. Oaks at Drayton Plains has been raided by robbers. Theft of all of the outgoing mail from the postoffice, reported to the sheriff's office, is puzzling officials. Nothing else in the post-office was touched. No attempt was made to steal the incoming mail, stamps or money. The postmaster was unable to state exactly how many letters were taken. None of them contained valuables as far as he knew and none were registered.

The Senate at Lansing, has passed Senator Herbert J. Rushton's bill appropriating \$200,000 to be spent in the next two years to advertise the recreational advantages of Michigan. Senators Norman B. Horton, of Fruit Ridge, and Peter B. Lennon, of Genesee County, opposed the bill on the ground it was an expenditure that could be dispensed with and only would increase the burden of taxation. The Senate also passed the House bill changing the name of the village of Orion to Lake Orion.

The department of conservation at Lansing believes that its methods of predatory animal control must be altered. This winter, with poison ruled out, the state trappers' catches have been materially reduced. Traps, snares, guns and dogs are the only means permitted for the taking of these animals. Poison was abolished because birds and other game frequently were poisoned by eating the contaminated bait planted by the trappers.

Michigan air mail patrons now have an additional 40 minutes to post letters for Chicago. The time of departure of the evening planes from Kalamazoo for the West was set ahead last fall because of the earlier approach of darkness. By next winter it is hoped to have the airway lighted so the summer schedule need not be changed.

When Mrs. Truman Heckman, of Dundee, returned home from a brief visit to a neighbor she found her husband lying on the floor dead. Their year-old daughter lay beside him, her

arms around his neck, asleep. A coroner's examination showed that Heckman had been stricken by a heart attack. He was 25 years old.

It is estimated that high school teams competing in the district basketball tournaments and the regional and state events that follow, will travel nearly 100,000 miles. There will be nearly 5,000 boys competing and a majority of these must pack their grips and travel to tournament centers.

Distribution of one-half ton of corn to the starving pheasants of Macomb County was made recently under the direction of Deputy Game Warden Emil Beuschlein. Ice has covered the natural food of the birds this winter.

The first break in winter has visited the upper part of the Lower Peninsula, around Petoskey. The thaw was so heavy that roads were rutted to dangerous proportions in some spots and telegraph and telephone lines suffered.

Five companies of the Second Infantry will be stationed at Camp Custer, near Battle Creek, this summer, according to an announcement by Lieut. James M. Grey, winter commandant. Three of the companies will be from Fort Wayne, at Detroit, while the other two will come from Fort Brady, at Sault Ste. Marie. Col. A. C. Gillem, of Chicago, will command the first half of the training season from June 1 to July 16 and Col. Frederick L. Knudsen, of Detroit, will command the last half.

Odd Drawing Cherished

The Bohemian club lays claim to the most unusual picture in London. It is a sketch made by the celebrated cartoonist, Phil May, on a brother member's white shirt at a dinner. The shirt, framed, is now a cherished possession of the club.

Always Were Analogous

The discovery has been made that soap can be produced from coal. To which may be added the by no means newly discovered fact that handling coal produces a demand for soap.—Manchester Union.

Idea of Thermos Bottle

Sir James Dewar, an English scientist, realized that if a vessel could be contrived that would prevent liquid air from rapidly absorbing the heat of its surroundings, the air could be kept longer in a liquid state. His efforts to invent such a vessel were successful and resulted in the Dewar flask, which has had a much wider commercial use as the well known thermos bottle.

Grasshoppers as Food

In Tientsin, the bodies of grasshoppers are stripped of legs and wings and are then fried, and when placed upon a platter, look for all the world like a heaped and inviting portion of hot potato chips. But the insect is more palatable than the vegetable—or so we are informed. The Living Age

The althing is the legislative body of Iceland, and claims to be the oldest in the world. It was established in 930.

Where Whispers Travel

The best known "whispering galleries" are the dome of St. Paul's cathedral in London. Statuary hall in the Capitol, Washington; the vases in the Salle des Caratides in the Louvre, Paris; the church of St. John Lateran, Rome; the ear of Dionysius at Syracuse, and the cathedral of Girona in Sicily.

First to Cross Australia

The first journey across Australia was made in 1844-45, by Frederick Wilhelm Ludwig Leichhardt, who went from Germany to Australia in 1841. Setting out from Darling Downs, in the south of Queensland, he made his way to Port Essington (Northern territory), the most northerly tip of Australia.

Few Byzantine Relics

The palace of the Hecdomon at Constantinople, and a fragment of Theodoric's work at Ravenna, Italy, are all that remain of Byzantine palaces.

Watch Child's Bowels

"California Fig Syrup" is Children's Harmless Laxative

Children love the pleasant taste of "California Fig Syrup" and gladly take it even when bilious, feverish, sick, or constipated. No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without cramping or overacting. Contains no narcotics or soothing drugs.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

Short Talk by a Thoughtful Mother.

An Indiana mother tells this: "We find nothing to compare with Foley's Honey and Tar Compound for coughs and colds. My little lad had trouble with his bronchial tubes from his third year, but since we started giving him Foley's Honey and Tar Compound we have been able to control it. We know there is nothing to compare with Foley's Honey and Tar Compound." The very name tells a story. Good also for croup (spasmodic) and troublesome night coughs. Ask for it.—L. I. TWO GOOD MOTOR OILS

and

Times have changed! Faster driving speed—higher compression engines—more congested traffic—have put a heavier load on the engine.

A richer—sturdier lubricating oil is needed—An oil that will stand up no matter how hot the engine must run.

The Standard Oil Company (Indiana), always geared to anticipate changing conditions, has kept Iso-Vis and Polarine abreast of development. These two good oils are up to the minute—both do a good job.

Polarine is the standard motor oil. It maintains a protective cushioning film of oil between frictional surfaces. Drain your crankcase every 500 miles and refill with fresh Polarine for maximum efficiency and economy.

Iso-Vis is the new type constant viscosity motor oil. It will not thin out. It lubricates thoroughly and constantly the remotest frictional surfaces. It wears and wears and wears. It costs a bit more, but its use makes frequent crankcase changes unnecessary.

Use either of these rich, sturdy oils and your motor will run smoother and last longer.

Cass City Schools

Kindergarten—This is the month for wind mills and kites. We hope the ones we shall make will be a success. The people of Holland are of special interest to us at this time. For story period we are having the story about "The Red Mill" and "The Boy and the Dyke."

First Grade—March is the month of Dutch boys and girls. We have 28 little Dutch people in the first grade. To make our little Holland more realistic, the boys have built a windmill, with the hope that some northeasterly wind will blow in and disturb its peace. With the aid of our Dutch calendars, we are keeping track of the weather for each day. At the end of this month only, we can tell when the rain rained, the snow fell, the sun really shone, or hid his face, thereby making our day cloudy.

Second Grade—We are still having very poor attendance. There are from six to eight absent nearly every day. This makes it very hard to accomplish any new work. We were very glad to have Mrs. Creguer visit us Thursday afternoon. Friday we had a spell down with the third grade. Of course the third grade won as we expected they would. Thelma Surprenant stood up the longest for our room.

Third Grade—We enjoyed our spell down with the second grade very much last Friday. Ivan O'Connor spelled down all the rest. We are very sorry to see so many empty seats in our room. Today we have six absent. In art we have made some bright pictures to represent the four seasons of the year.

Fourth Grade—The Box-Car Children by Gertrude C. Warner is the name of the new book that is creating a great amount of interest this week. The playground may look like just mud and water to a great many people, but to our geography class it is a miniature river system, canyons, deltas, islands and peninsulas. After a lesson in physical geography on the playground, everything in the book sounded much more interesting. One boy came in and said, "Why, I even saw Roosevelt dam out there." The language class are studying about the life of Corot, and his picture, Spring, is being discussed.

Sixth Grade—Pauline Dodge won the spell down on Friday. The A class has finished the new Library reader and is now reading the Riverside reader. Our honor pupils for the month of February are Betty Hunt, Eunice Schell, Howard Taylor and Jacob Thiel.

Fifth Grade—We had our second election of room officers Monday. We have been especially interested in the efficient management of each officer. We had our first spell down with the sixth grade. They won, of course.

Pauline Dodge carried off the honors. We have been making very good read and raffia baskets. The arithmetic class have been working on multiplication of fractions. We are almost ready to complete the study of European countries in geography.

The seven grade Home Economics class is making griddle cakes and waffles and having a review of the breakfast in general. The ninth grade is making button holes and working on their pajamas. This week they begin the study of "How to Dress in Good Taste," dealing mainly with the principles of design. On Friday we may have one of a series of meat demonstrations. Up to date, 2050 pupils have been served in this year's hot lunches, with total receipts amounting to \$251.92. Last year hot lunches commenced two weeks earlier and during the entire period, 1900 pupils were served, and the total receipts were \$262.04.

The Community Civics classes have handed in the following statistics: of 1,250 qualified voters, the numbers of votes cast in the last three elections were 60-413-254. It's almost time for our town and township elections. Are you performing your duties of citizenship?

One day last week, John Sandham gave a splendid talk to the members of Mr. Holmes' Business Practice class on insurance. It has been the aim in this class to have local speakers. Occasionally, to discuss different phases of business work.

The seniors are very busy these days getting material together for their annual. We hope that the public will give us their support by subscribing for annuals, and by buying advertising space. It has been six years since the last annual was edited, and we feel that with a senior class of 56, it is the logical year to put out a book.

Commercial—Students who began typewriting this fall are writing as high as thirty words a minute on fifteen minute tests and thirty-five to forty on ten minute tests. In shorthand dictation is given from fifty-five to sixty words a minute. Students in shorthand and typing are preparing for a sub-district contest to be held in Caro on March 23. We are allowed to enter two students in each event and hope to carry off at least some of the honors. This is a sort of preliminary contest to prepare for the district contest which is to be held in Midland some time in April.

Seventh grade is studying diseases, their prevention and cure. We have studied quite thoroughly the use of vaccine and anti-toxin and other means of preventing the spread of disease.

The seventh and eighth grade classes in grammar have been studying oral composition. Many interesting talks on friendship, fishing, good English, and miscellaneous topics

have been given. The eighth grade class is now studying dramatization. Two leaders, Wauneta Warner and John Day, have been appointed to choose plays and select the cast. The coaching of the plays will be conducted by students of the class. The first year Latin classes are beginning work on notebooks in which will be included English words of Latin derivation, Latin mottoes and phrases in common use, pictures of Roman life and art, and modern advertisements whose names or pictures can be traced to Roman origin.

The public speaking class has been having some interesting lessons in the study of the pitch of the voice. Billy Ehlers has brought in his victrola and we have been studying the voice by slowing the record and analyzing the direction of the slides. We start our examinations next week. We have been studying the reading of poetry this semester, so that the examination will consist of ten minutes of poetry, memorized. The English 9 classes have been struggling with grammar all semester but the load will be lifted next week with the return to the literature books.

Agriculture Department—The zoology classes are working on the fourth group which includes star fishes and sea urchins. We expect to make some dissections next week. The horticulture class is landscaping the school grounds. Evergreens seem to be the favorite kind of shrub with most of the students. Mr. Campbell expects to attend the Shue sale of Holsteins at Armada this Friday in the interest of the Livestock Club. Many applications are already in for Holsteins. Next week, some Ayrshires and Jerseys will be purchased. Boys planning on being in this year's club must get their applications at once.

The English literature classes have just begun a very interesting study of the age of Samuel Johnson. English ten classes have been kept busy the last week with narrative writing. They began with the simplest kind, an anecdote, and each one has not completed his autobiography. The beginning class in French is studying the imperative forms. These people now can count in French and have quite an extensive French vocabulary. The advanced French class has just finished its first French drama, "Le Voyage de M. Perrichon." They are going to read Haleuy's "L'Abbe Constantin" next.

The tenth grade students are applying some of their knowledge of geometry in constructing ornamental designs, based upon their work in circles and parallel lines. The combinations of the various geometric figures used in decorative designs are numerous. They can be found in church windows, vaultings, mosaics, parquetry, and tile and linoleum patterns.

Music—The members of the girls' glee club are writing papers on different phases of music. They are choosing their own subjects and many are writing on the lives of great composers. We have selected the following girls to try out as an addition to the glee club: Mabel Crandell, Agnes Fennell, Bernita Taylor, Leta O'dell, Deloris Sandham and Irene Stafford. If these girls work out as well as we anticipate they will be entered in the music contest which is to be held here April 11 and 12.

Vivian Day is to be entered in a voice contest sponsored by the Michigan Federation of Music Clubs to be held April 20 at Pontiac. She will sing two numbers which are selected by the sponsors of the contest.

Next week we will tell you of the activities of the art department.

Would Not Have Learned

"We wish that we could live our lives over again," said H. Ho, the sage of Chinatown. "We should only be carried on in the social momentum to make the same old mistakes."—Washington Star

In 5 MILLION HOMES TONIGHT

A host of babies will enjoy sound sleep tonight. And their parents will have unbroken rest. Castoria is the cause of this contentment in a multitude of homes. Good old Castoria! Children cry for it. Mothers swear by it. Not a household where there is an infant should ever be without it. A few drops of Castoria quiet Baby in a perfectly innocent manner. It is natural slumber that follows. Castoria is a purely vegetable product. No opiates. No narcotics. Of any kind.

Now you know why trained nurses give Castoria as often as an infant is ailing, or even restless. And why doctors tell mothers it is the first and only home remedy when Baby has constipation, colic, diarrhea, or other upset. It is made for babies, and safe to give babies, and other things are not.

Fletcher's Castoria is "old-fashioned" if you count its fifty years, but it's an old-fashioned mother, nowadays, who worries along without it. Twenty-five million bottles bought last year! Think of the number of mothers who rely on Castoria! All these mothers can't be wrong! To keep a bottle in the house is a precaution you owe your little one.

BETHEL HOME ECONOMICS EXTENSION GROUP

Mrs. Audley Rawson entertained the Nutrition Club Wednesday, Feb. 27, with members present with exception of three.

A short review on Positive Health was given by different members of the club. Each member told in what way the club had been a benefit to her and in what way she helped someone else.

The new lesson dealt with "The Food Groups—Uses in the Body." It is requested of each member to do the following:

1. Score each member of family for food habits.
2. Suggest possible changes that would help each.
3. Carry at least one practice to three other persons.
4. Prepare and serve at least three new vegetable dishes.

A well balanced lunch was served at noon by five members of the club. We have decided to make the men of our community become more interested in what we are doing. We are planning to entertain them by giving an entertainment and a well balanced lunch at the home of Mrs. Alfred Maharg on March 27.

Mrs. Addie Knight will be hostess at the next meeting. Mrs. Delbert Profit, Sec. of Club.

Cecil, 13 year old son of J. A. Dick-

inson of Owendale, underwent an operation Saturday for removal of tonsils and adenoids.

Tip for Husbands

To make a good husband a man should have been very fond of his mother all through boyhood.—Woman's Home Companion.

And Never Will

A bite on the chin by her pet poodle caused a woman's death in New Jersey. We have never heard of such an accident happening to a woman from holding a baby in her lap.—Houston Post-Dispatch
