ELKLAND LOWEST IN TAXES RETURNED

Other Townships in Tuscola All Showed Higher Percentage of Unpaid Taxes.

DELINQUENTS RETURN FROM 1 1/2% TO 33.3%

Twenty-two of the 23 township treasurers in Tuscola county had settled with County Treasurer Orlo McDurmon before Thursday, March 14. The reports showed that delinquent tax returns for 1928 ranged all the way from 1 1/2% to 33.3%.

Elkland township, following the example set for several years, is again the lowest in the percentage of taxes returned by any one township. The total tax in Elkland in 1928 was \$65,774.67 and the amount returned uncollected by Bertha Tully, township treasurer, was \$968.07, which is a percentage of 1 1/2% unpaid.

The following table prepared at the county treasurer's office tells the story as it appears for the 22 townships reported to date:

Township	Total 1928 Roll	Total Returns	Percent

CHAS. KERCHER PLAYS FOR LINDY IN TEXAS

Chas. Kercher, who is a member of the 12th Cavalry Band, writes his parents from Fort Brown, Texas, under date of March 6, as follows:

"Was rather busy last week as it was the week of the polo tournament and we gave the music for the games. The game was Wichita, Kansas, vs. Fort Clark. Teams come here from quite a distance and parking space at the game was thirty dollars.

We played last night at Matamoros, Mexico, at the Cara Espanal at a banquet given for the polo teams and their wives. Pretty classy, an open air garden, Spanish court and baby grand pianos. The weather is very sunny and pleasant.

"I suppose you have read in the papers about the Mexican revolution. Well, don't take it too seriously as no order has been sent here or to Fort Ringold. The fighting is all up at Monterey. If the troops do turn out for border patrol all the band will do is to stand at the gate and play until the last trooper and his mount is past.

"As you will see in the papers, Col. Lindbergh inaugurates the Brownsville-Mexico City Air Mail service and will be in Brownsville this Saturday. They are giving a big banquet at the El Jardis Hotel for him and his lady friend and the orchestra I play in has Turn to page eight.

MRS. BUTZBACH WRITES OF TRIP TO HOLY LAND

Mrs. A. H. Butzbach, who has made a trip through the Holy Land, has returned and is now visiting with relatives and friends in Benton Harbor and Owosso. She expects to spend the week of Mar. 25 with friends in Cass City. The following paragraphs regarding her trip are taken from a letter received recently.

"It has been impossible to write many letters during this cruise. After we began to make stops they came so thick and fast it was hard to keep our notes written up. The past week we have seen nothing but the Azores as we passed by. The sea has been quite rough, so although we have time now to write, some of us have not felt able to write much each day. I have had very little sea sickness but I do not feel perfectly normal and get a headache when I write or read too much.

"I do recommend this method of travel. The 'Boring Travel Service' has been very efficient in caring for our crowd of 66, not including director and business manager. We had none of the fog and loss of time in hiring

cars and guides and finding hotels. This is all arranged for in advance. At every stop, the autos were lined up for us and guides waiting so we were able to see very much in the day given to each place.

"Of course, the part of the trip most of us enjoyed was through the Holy Land. We landed at Haifa. The Buicks with Syrian drivers were waiting at the dock. They drove us right to Nazareth, a ride of about two hours. On the way we passed many herds of nice looking cattle and many sheep. Just as we passed one shepherd, he had a lamb in his arms and several old sheep following. Of course we repeated the 23rd Psalm. At another place a Mohammedan shepherd had just spread down his prayer rug and stuck his staff in the ground and Turn to page four.

DELIGHTFUL PROGRAM ON TUESDAY NIGHT

Audience of 500 Enjoyed Program Presented by School Pupils.

The attendance at the March meeting of the Cass City Community Club showed an increase over that of meetings held earlier in the year, indicating a greater interest in the activities of the society.

The banquet was served at the M. E. church while the entertainment of the evening was provided by pupils of the public school at the high school auditorium. This was open to the public as well as members of the club and an audience of 500 or more enjoyed the program.

Rev. Curtis led community singing before the announcement of the program by Supt. H. W. Holmes. The high school orchestra under the leadership of Miss Tarnoski delighted the audience with several numbers. Horace Pinney announced an exhibition by the Freshman physical education class who successfully demonstrated their work in drills.

Little Joan McGrath, in a doll song, introduced the doll show where Solomon Levi exhibited live specimens of the various kinds of dolls that delight the eyes of little girls and boys. Twenty-eight little folks of the kindergarten and lower grades interpreted Humpty Dumpty, Little Bo Peep, Jack and Jill and many other juvenile characters and each appearance was enthusiastically received by the audience.

Pupils of the second, third and fourth grades introduced Irish songs and dances as their part of the program. Appropriately costumed for the act, they very nicely brought a St. Patrick's touch to the evening. Old time tunes and dances were introduced by pupils of the fourth, fifth and sixth grades to the delight of the audience. The harmonica quartet of Mike Frank, James McNeil, Woodrow Kehoe and Carlos Vader "brought down the house."

A one-act play was the concluding number of the program, by the public speaking class. The players had nicely started on their production when the broadcasting from WBCM at Bay City brought the local high school sextet on the air and the cast permitted an interruption to allow the audience to hear the singers, resuming the play after the sextet had sung several numbers.

The members of the Cass City Community Club feel greatly indebted to teachers and pupils for the pleasure given the club and the public by the excellent program of Tuesday night.

THUMB OIL MEN MEET HERE MARCH 21

The March meeting of the Thumb Oil Men's Club will be held at the Gordon Hotel at Cass City on Thursday, March 21, from 5:30 to 8:30 p. m. Following the banquet, M. B. Auten, president of the Cass City State Bank will address the oil dealers on the subject of "Credits."

Later in the evening, members of the Thumb Oil Men's Club will be guests of the Cass City Oil and Gas Co. at the Pastime Theater where a musical program and movie pictures are featured. The public has also been invited to attend the entertainment at the theater as guests of the company.

VILLAGE ELECTION A QUIET AFFAIR

Village election proved a quiet event Monday with only 22 citizens casting ballots. Officers elected were: President, Geo. W. West. Clerk, Cameron M. Wallace. Treasurer, John West. Trustees, Meredith B. Auten, Lester Bailey and Walter Mann. Assessor, Harry L. Hunt. Trustees holding over from last year are J. A. Sandham, A. C. Atwell and Roy Taylor.

CASS CITY HEADS CLASS C IN DISTRICT

Coach Lewis' Group Defended Its Championship for Another Year.

LOCALS ARE WINNERS IN 14 OF 16 GAMES PLAYED

Cass City successfully defended its championship for another year against the challenge of Bad Axe at the district tournament at Bad Axe Friday night, defeating the county seat school by a 27-23 score.

The worst scare of the tourney was given the locals in the second round, when Darwin Bailey's Harbor Beach tossers played the favorites to a standstill, only to lose in the final minutes by a 22-20 score.

A check-up of the score book shows Coach James Lewis' maroon and grays the winners in 14 of 16 games played, not losing a game on the home floor, county, district and Thumb champs. Also both teams that hold victories over Cass City have been defeated later in the season.

The team started the season by defeating Gageton, then lost to Caro and Bad Axe away from home. Not a game has been lost from the Bad Axe game to date, 13 straight wins.

The score book also shows that the boys have scored an average of 29.6 points per game while holding the opponents to an average of 19.8 points per game, giving a margin of about 10 points per game.

Brown and Flint have been leading the scoring all season, first the big center in the lead, then the shifty forward. The figures from the book show the following standing now of all men who have scored in games:

Flint	152
Brown	139
McCullough	75
Edgerton	43
Bohnsack	22
Ruhl	5
Ross	4

This week the regional tournament is being held at Flint with Cass City meeting Bad Axe in the first round game to be played at three o'clock on Thursday afternoon. The winner of this game will meet St. Michaels, last year's state championship team, in the second round, the winner to play in the finals Saturday. The other teams in Class "C" at Flint are Mt. Morris, Arthur Hill Trade School of Saginaw, and Chesaning. This is considered the strongest Class C entry in the state, with St. Mikes, the defending champs.

WILL BANQUET BASKET BALL TEAM TUESDAY

In recognition of the honors the local basketball team has brought to Cass City in winning the county championship and first place in the Class C division at the district tournament, basketball fans will honor the team at a banquet next Tuesday evening, March 19. It will be served at the M. E. church.

John McKay, superintendent of the Uby school, will entertain the team and their friends that evening with feasts of magic. The attendance is limited to 150 and tickets are now being purchased by students and adults, who are interested in the team.

MISSIONARY SOCIETY ELECTED OFFICERS

Forty-six attending the Presbyterian Missionary meeting Friday afternoon at the home of Mrs. G. A. Striffler. Mrs. Striffler and Mrs. William Paul were hostesses. During the business meeting, three new members were added to the roll. The offering was \$29.19. Mrs. Pinney and her committee, dressed in old-time costumes, gave a very entertaining program.

This was the last meeting of the missionary year. The officers for the coming year are: President, Mrs. A. J. Knapp; first vice president, Mrs. F. E. Kelsey; second vice president, Mrs. F. E. Kelsey; secretary, Mrs. Lewis Law; ass't. secretary, Mrs. M. McKenzie; treasurer, Mrs. Frank Reid; secretary of literature, Mrs. M. Ferguson; Presbyterial delegate, Mrs. A. J. Knapp; alternate, Mrs. Milligan.

NEW PASTOR AT CATHOLIC CHURCH HERE

The appointment of Rev. Fr. Joseph P. Halpin, assistant at St. Thomas Catholic church at Ann Arbor the last four months, to the pastorate of St. Pancratius church at Cass City and the St. Columbkille church at Sheridan, was announced Monday from the diocesan office in Detroit. Prior to going to Ann Arbor, Fr. Halpin was in charge of a mission among the Sioux Indians in South Dakota for ten years and from January 1, 1928, until going

to Ann Arbor was field secretary of the National Catholic Church Extension Society of America. Born in 1890, he attended parochial schools in Philadelphia, Pa., graduating at the age of 14 years. He then attended St. Joseph's college at Philadelphia from which he also graduated. He received the major part of his philosophy and theology training at St. Mary's Seminary at Baltimore, Md., and later studied at the University of Louvain in Belgium. Mr. Halpin was ordained March 16, 1916, in Chicago by Cardinal George Mundelein. During the war he served as chaplain in the army at Camp Hancock, Ga.

THE WEEK IN THE STATE LEGISLATURE

A Resume of the Matters Which Are Claiming Attention of Solons.

Michigan Press Association Lansing Bureau. March 8, 1929.

Relief came Friday morning to the dry interests when the House passed the Culbertson bill which puts teeth into the prohibition laws and makes them workable and enforceable, while making a discrimination between minor offenders against the laws and the mercantile moonshiner and bootlegger. The latter class still comes under the life sentence proposition for fourth convictions. The measure now goes to the Senate for its approval.

Innumerable propositions for raising revenues are coming up in both houses and the members of the finance committee of the Senate and the ways and means committee of the House are working overtime in their endeavors to sort out the most tangible and workable of the measures. The chances for any special tax grow less and less as the days go by, unless it may be something along the line of licensing of bill boards or some removal of certain special securities and properties from taxation exemption. Any such proposition immediately has some enthusiastic support, but it takes quite a bunch of votes to pass any kind of a measure. Representative Snow has introduced another income tax bill, but there is bitter opposition to any income tax proposal.

There was a lot of machine-gun oratory Thursday forenoon at a public hearing on Bible reading in schools and before it closed there was much animosity apparent. The bill is still in committee, however, and may stay there.

The Senate has approved of Sen. Turner's measure which allows school boards of cities and villages to borrow up to 50% of anticipated tax returns, in any year, in case the honey is urgently needed for building construction or additions, or other emergency.

A concurrent resolution has passed both branches inviting President Turn to page seven.

WEST TO ENTER H. S. COACHING GAME

With his usually effective game repeating itself against Lake Forest in the final game of the season, Alfred West brought to a dramatic close his basketball career at Central State Teachers' College.

Although a varsity man of no little ability for the past three years, West, Cass City high school athlete of a few years ago, has excelled all previous performances with a brilliant defensive game in his senior year. Not alone a defensive giant, West has been a consistent long shot artist in every game played this season.

With graduation in June, "Al" West will enter the high school coaching game where his experience as a varsity football and basketball man while at Central State will be of value to him.

The Fighting Teachers of 1929 will be remembered as the greatest quintet to ever wear the Central State colors. Their record of fifteen victories out of a stiff twenty game schedule is noteworthy.

SANILAC COUNTY CORRESPONDENCE

Circuit court under way in Sandusky this week was featured by arraignments and sentences. The trial of criminal cases was launched this week with the case of Clarence Weaver charged with violation of the liquor laws started before a jury Wednesday.

The case of William Periso also charged with liquor law violation was scheduled to open court Monday but owing to the mysterious disappearance of two complaining witnesses in the case, the case could not be brought to trial. Two men, who are said to be travelling under assumed names, and who are claimed to have made the

alleged "buy" in the Periso case cannot be located. Officers are said to hold a warrant for one of the men.

Harry Caikins of Kings Mills, Lapeer county, was sentenced by Judge X. A. Boomhower to spend from two to five years in Jackson prison for pleading guilty to breaking and entering the Snover Grain company elevator during which 20 bags of beans were stolen.

Isaac Littleton of Lexington drew a sentence of six months in Ionia on a liquor charge as the result of a raid by officers on his home this week in which a quantity of liquor was found. Walter Grubski of Elk township, on probation on a liquor charge was sentenced to six months in Ionia on a liquor charge arising from another raid on his home by officers.

Max Schott of Deckerville arraigned Turn to page eight.

CONTINENTAL CARBON CO. HAS BIG FIRE

Glenn Benkelman, Cass City Boy, Partner in Cleveland Factory.

Glenn Benkelman, son of Mr. and Mrs. John Benkelman, with his partner, Mr. Fleming, who are the owners of the Continental Carbon Co., at Cleveland O., suffered the loss of their plant and equipment and a large amount of material used in manufacturing radio accessories, in a fire on March 7. Plant and equipment was insured and the greater part of their loss will be on raw material.

The company employs two shifts daily of 150 persons in each shift and recently started the erection of a new factory.

A Cleveland daily newspaper tells the story of the fire in the following paragraphs:

"A three-three alarm fire destroyed the main plant of the Continental Carbon Co., 13904 Lorain Ave., Thursday and caused serious damage to two new additions in the rear of the plant when an overturned electric heater caused a quantity of lacquer to explode.

"More than 150 workmen, including twosome women employed in the plant barely escaped the rush of the flames and were forced to flee in their shop clothes.

"The flames roaring as much as 150 feet in the air for a time threatened two huge gasoline storage tanks of Turn to page eight.

EARL BARBER FARM RESIDENCE BURNED MONDAY

The farm residence of Earl Barber, 6 miles north and 3/4 mile west of Cass City, on what is known as the Pratt farm, was destroyed by fire on Monday. The family was away at the time. Mr. Pratt was in Cass City preparing to drive to Flint when word reached here that the house was burning.

Neighbors succeeded in saving a portion of the furniture from the flames. The loss is partly covered by insurance.

COMING AUCTION.

Walter Martin uses space on page 7 to advertise an auction sale of live stock and farm tools 2 miles north of Novesta Corners. The sale will be held on Monday, March 18, with T. B. Tyrell as auctioneer.

Rev. Townsend, Visiting in China, Writes to Two Congregations Here

1345 Avenue Joffre, Shanghai, China. 1/12/29.

Dear brothers and sisters of the Owendale and Grant congregations: Christmas and New Years have come and gone, and we are well into the year 1929; we are both well and enjoying ourselves immensely.

Christmas is fully recognized in our daughter's home and was an occasion of great joy. We are the recipients of many choice gifts and especially, in recognition of the fortieth anniversary of our marriage, of a beautifully embroidered piece of Chinese linen, that can be used as a table cover. We also received many beautiful Christmas cards, not a few of them from the Owendale and Grant charge, all of which we very much appreciated.

George and Gerry are in high favor, having many friends among both English and Chinese, and among the presents that they received were two turkeys, a couple of beautifully decorated Christmas cakes, and numerous boxes of candy, etc., so you can imagine that we had a sumptuous Christmas dinner, to which we did full justice—it gave us an excellent opportunity to practice self-denial. One of the guests at dinner was Turn to page six.

Best Food for Cat

Four to eight ounces of raw meat is a good meal for a cat. Two meals a day of fresh raw beef and plenty of clean, cold water will keep a cat at its best.

Geographical Designation

"Levant" is the name given to the coastlands of the eastern Mediterranean sea, from Greece to Egypt, or more generally to the coast lines of Asia Minor and Syria.

Bullion

The first recorded instance in England of the use of the word "bullion" for precious metal in the mass was in an act of 1451.

Michigan Happenings

Charles Curtis, 19, of Detroit, is a "hard guy." He admits it. He pulled into Chelsea, 15 miles west of Ann Arbor, and selected a one-man audience. "I'm hard," shouted Curtis, producing a hunting knife. "I drove the car for those Chicago machine gunners. Killing is nothing to me." His audience, it developed, was William Atkinson, special deputy sheriff. "I don't believe a word of it," replied Atkinson. "But I'll have to take that knife away from you and put you in jail on general principles." Curtis spent some time in the Washtenaw County Jail softening up.

A 10-year-old goose which acted as substitute for a watchdog on the farm of Frank Ackerson, near Springport, until it was killed Dec. 8, was described in an examination in the Municipal Court at Jackson. Ira Jennings, of Napoleon Township, was bound over to the Circuit Court on a theft charge after the examination. The goose, the life of which was ended by a charge from a shotgun, was described by Ackerson as trained to honk whenever a stranger came into the farmyard. Ackerson said he would not have sold the goose for \$50.

The experience of reading her own obituary in a newspaper was accorded to Mrs. William Hamilton, of Detroit, recently. Mrs. Hamilton's daughter, Mrs. Frances Wilbur, had died in Detroit, and was to be buried in Marshall. Word was sent to a Marshall relative, but the latter misunderstood the message. The relative caused a notice of Mrs. Hamilton's death to be published in a Marshall paper. The relative did not know of her mistake until she went to the train to meet the body and saw Mrs. Hamilton step from the platform.

It required the charging off of one cent to restore balance among customers and employees of the Eastside National Union Bank at Jackson recently after a skunk had in some mysterious manner made his way into the bank lobby and held sway for several minutes. Dog Warden Ernest Eaton failed in several modest attempts to capture the animal, finally resorting to tear gas bombs which subdued the polecat so that he could be picked up with a pair of long handled dog catcher's tools.

A young Grand Rapids mother, going home with some groceries, a bottle of milk for her baby, and the nickel that was left when her shopping was done, was held up and robbed by a bandit. The thug kept the nickel, but returned the groceries and milk after she had pleaded with him that it was all the food she had. Mrs. Mary Jerrills told the police. Mrs. Jerrills said that because of her nervousness she dropped the bottle, after reaching home, and spilled the milk.

In attempting to catch a ride on a Northwestern Railroad freight train to go to the district basketball tournament at Escanaba, Ray Greenwood, 16-year-old Menominee high school football player, was killed. As a crowd gathered, three women, returning home from church, stopped to ask what had happened. One of the women was Mrs. Dennis Greenwood, mother of the boy. When told the name of the victim she collapsed.

C. P. Olson, an air mail pilot, escaped injury when his plane crashed as he attempted to take off from the municipal field at Lansing for Bay City. The plane, owned by the Thompson Aeronautical corporation, fell into the swamp at the south end of the airport. The undercarriage and one wing of the ship were crumpled as it buried itself in the mud. The plane was carrying about 50 pounds of mail for the northern part of the state.

Fearful lest an epidemic of small-pox sweep the University of Michigan campus at Ann Arbor, the health service ordered that all students who have not been vaccinated take the preventive before further attendance at classes. The order is the result of a case of the disease reported when Ellwood Cushing, a basketball player, contracted the malady while with the team at Northwestern university at Evanston, Ill.

Fire, caused by spontaneous combustion in a coal bin, destroyed the three-story brick main high school building in Dundee, 14 miles west of Monroe. Damage is estimated at \$75,000. The building was 50 years old. Dundee, Milan and Monroe fire departments sent equipment to the blaze. The building housed 10 teachers and 450 pupils. Frank Ayers is superintendent.

An early smelt run developed at Beulah at the mouth of Crystal Lake and village officials wired the State Conservation Department for help in handling the crowd of fishermen and sightseers annually attracted by the phenomenon.

A new well which came in just off U. S. 31 at Muskegon, has made it necessary to detour at this point, as motorists are being spattered with oil from the well. A state trooper is stationed to direct traffic.

Postmaster General New announced at Washington, effective that, April 1, air mail service will be established between Bay City, Saginaw, Flint, Pontiac, and Detroit, Mich., and Cleveland, Ohio, to serve as a connection with the New York-Chicago overnight service. This new service will make it possible for letters posted in New York at the close of business to be delivered to these cities the next morning. In the opposite direction, mail posted at the close of business in the Michigan cities will be delivered at New York the following morning.

Gov. Fred W. Green, Mayor M. W. Hoffman, of Jackson, and M. R. Hull-berger, president of the Jackson Chamber of Commerce, removed a limb from one of the historic oaks, under which the Republican Party was founded, in Jackson, and had it made into gavel for President Herbert Hoover, Vice-President Charles Curtis and the Speaker of the House of Representatives. The ceremony was planned to create interest in Jackson's centennial next summer and the seventy-fifth anniversary of the founding of the Republican Party.

A new national bank to be known as the American National Bank of Grand Rapids, will be formed there. The new bank will have a capital stock of \$300,000 and a surplus account of \$150,000. Application has been made for a charter. In announcing plans for the new bank, one of the organizers, said: "With the recent merger of two of its largest banking institutions, Grand Rapids now finds itself with only half the number of banks it had five years ago, although increase in banking resources has approximated \$25,000,000."

Diogenes throw that lantern away and call at 239 Cortland avenue, Detroit. Ask for Harold Headley. He is the man you have been seeking throughout the ages. Headley returned a towel taken from the Heidenbrand hotel at Pontiac, explaining that it had been packed in his suitcase by mistake and that he did not discover it had been taken until he reached Detroit. In a note accompanying the towel he asked that the hotel overlook his carelessness.

Alex Van Luven, state trapper located at Beechwood, in the Upper Peninsula, has the distinction of having achieved an unusual record during January. He captured seven coyotes and three bobcats. In that connection it is pointed out that January and February are the most difficult months for the trappers because of the snow and cold. Van Luven uses dogs in his work and has been unusually successful with this method.

Fire trucks, ambulances and similar vehicles which must travel the streets at high rates of speed, would have to be equipped with some type of revolving warning light, which could be seen 2,000 feet, under the provisions of a bill offered by Senator Herbert J. Rushton, of Escanaba, in the Senate, at Lansing. An exception is made of police cars, where such a warning light might defeat the purpose of the occupants of the vehicle.

Rep. Otis Huff, of Cass County, introduced a bill in the house at Lansing, calling for the repeal of the five-day marriage license law. The bill has the backing of numerous county clerks, according to Mr. Huff, particularly those in the southern tier of counties. From Cass County it is an easy jump to Indiana, where a qualified couple can be married at once. Other clerks find their fees fitting to Ohio or Illinois.

Senator Tony Achard, of Clare, has a plan to make Michigan famous. The senator from Clare would give Michigan an official "Main street." From the Ohio border south of Jackson, it would follow U. S. 127 north to Cheboygan, and from Cheboygan, U. S. 23 to Mackinaw. Senator Achard would have the Legislature at Lansing designate and proclaim this as the Main street of Michigan.

George Ethier was found guilty of manslaughter by a jury in the Circuit Court at Ironwood. Ethier was charged with shooting Robert Johnson, his partner in a logging business, Oct. 16. The body was found in the woods four days later and almost a month after the shooting Ethier admitted he had killed Johnson but said it was accidental. He said he shot at a partridge.

Giant signs, 400 feet above the water, with the words "Ambassador Bridge," are to be hung between the towers at either end of the international bridge between Detroit and Canada, according to J. L. Fozard, vice-president and general manager of the Detroit International Bridge Co. The letters, in red, will be six feet high and will be lighted with neon gas.

DAIRY FACTS

EXPERIMENTS IN CATTLE FEEDING

Need Mineral Supplements With Poor Roughage.

When poor roughage is fed to dairy cows mineral supplements are shown to be necessary in a recent publication of the Wisconsin experiment station. Three cows fed on timothy hay, corn silage and a grain mixture were poor producers of milk. In addition they were slow to breed and when bred they tended to dry up from six weeks to two months earlier than three cows fed on alfalfa hay.

Another test on minerals showed that cows producing from 50 to 60 pounds of milk daily without direct exposure to sunlight were unable to maintain a calcium balance in their bodies even though the ration was otherwise adequate. When the cows were exposed to sunlight for six hours daily they decreased the loss of calcium from their bodies by 25 per cent.

In a comparison of soy bean hay versus alfalfa hay the cows produced approximately the same amount of butterfat and milk but the cows on soy bean hay gained only half as much body weight and wasted more of their hay. The results of this test, which does not check with tests run at some other stations, shows that soy bean hay was calculated to be worth 73 per cent as much as alfalfa hay.

In this connection it is interesting to note some experiments that were conducted in chopping alfalfa and soy bean hay. No advantage was noted in chopping alfalfa, but the cows wasted less of the soy bean hay. This caused the chopping to improve the value of soy bean hay by 23 per cent. These figures indicate that it may prove profitable to chop soy bean hay when used for feeding dairy cattle.

Modern Dairy Barn Must Have Good Ventilation

It must not be forgotten that each cow in the stable actually gives off from her breath alone about ten pounds of carbon dioxide per day and over two gallons of water. Hence, it is perfectly obvious that in the modern dairy stable there must be some system whereby this used, moist, foul air may be regularly taken out of the stable and replaced by fresh air. During the winter months, the occasional opening of doors and windows will help but how often is this done during winter months, and needless to say it is never done during the night.

King and other authorities on stable ventilation have estimated that there should be a continual air flow through the stable at the rate of about 3,000 cubic feet per cow per hour. In other words, in a cow stable 30 feet by 50 feet with an 8-foot ceiling, there should be a sufficient flow of air so that one-quarter of the air would be replaced every hour or that the air be completely changed in the stable six times per day. If this were done by the opening of doors and windows, the resulting changes of temperatures, chills to the animals, etc., would obviously be courting disaster. Hence, a regular system whereby such a change of air will go on continuously and still allow the maintenance of uniform heat conditions, should be the ambition of every one installing a ventilation system.

Well Bred Calves Most Valuable Dairy Asset

Calves from low producing stock are worth little more than their value for veal, but those from high producing strains must be assigned much greater valuation, as they command excellent prices as breeding stock.

In the keeping of high producing animals there are, of course, added expenses such as increased depreciation and risk, increased labor in caring for the animals, and expenses of advertising and selling; but it will generally be found that the value of the calves produced from such stock will more than offset the added expense of raising them over and above that involved in the keeping of common stock.

Cold Hampers Cow

A high producing dairy cow cannot continue normal production if she is exposed to severe weather. It is, therefore, important if good yields are expected to hold up through the cold months, that all discomforts be eliminated. A comfortable cow will more than repay for added labor for her protection. Milk is 87 per cent water, and a large part of this gets into the animal's system from the water trough.

Quarters for Cows

In addition to proper feeding, dairy cows will need good quarters if they are to produce maximum returns for their owners. Dairy cows do not have long hair or surplus fat to protect them from cold weather. They are more sensitive to cold winds, drafts and poor quarters than any other kind of farm live stock, unless it is the poultry. Warmth, comfort, ventilation and sanitation should receive consideration in fixing up the dairy barns or sheds for the winter months.

Brother's Delight

How the rascal loves to tease her,
 And to pinch her cheeks, and squeeze her,
 As he rocks with gales of laughter
 At her angry squeals of woe!
 He would rather hear her holler
 Than to find a silver dollar;
 He would rather tease his sister
 Than do anything I know.

He is just as apt to shove her,
 As he is to sweetly love her—
 He is just as apt to pinch her
 As to hug the little miss.
 He is just as apt to tell her
 That her Daddy's goin' to sell her,
 As he is to steal upon her
 And surprise her with a kiss!

But for some cause or another
 She believes her litt'e brother
 Is, in spite of all his torment,
 Still the finest boy of all!
 And to him, his sister Mary
 Is as sweet as any fairy—
 But he dearly loves to tease her,
 Just to hear her lusty squall!

I have warmed his little switches
 With my hand and little wittches,
 In a vain attempt to teach him
 Not to tease her any more.

But I might as well admit it—
 That I haven't made him quit it;
 I declare he's worse today than
 He has ever been before!

Purina Calf Chow

Weaned, by Gosh and Never Knew It!

Purina Calf Chow will raise fine, thrifty calves without milk. After the first few days they can be changed over from mother's milk to Calf Chow milk (Purina Calf Chow mixed with warm water). Then, when they are from six to eight weeks old they can be put on dry feed entirely.

Purina Calf Chow costs only about one-third as much as milk. Earlier weaning means money to you.

Let us tell you more about Purina Calf Chow. We have some records which will prove interesting to you.

CHRIST FOR ALL—ALL FOR CHRIST
The Word of God
 The word is a lamp unto my feet, and a light unto my path.—Psalm 119:105.
BIBLE THOUGHT AND PRAYER

Worship Him Who is Supreme.

Luke 4:8. And Jesus answered me, Satan; for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve.

Mark 12:30. And thou shalt love the Lord, thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength.

John 3:36. He that believeth on the Son hath everlasting life: and he that believeth not the Son, shall not see life; but the wrath of God abideth on him.

Prayer: Come and let us return unto the Lord: for He hath torn and He will heal: He hath smitten and He will bind up.

Funeral services for Mrs. Christina Jaus, whose body was found in a field near the home of her son, Samuel Jaus, Thursday morning, Mar. 7, were held Saturday afternoon from the Evangelical church. Rev. C. F. Smith officiated and burial was in Elkland cemetery. Those from a distance who attended the funeral were Mr. and Mrs. John Jaus of Cleveland; Mr. and Mrs. John Crocker, Mr. and Mrs. Jack Gibbs and two children, Mr. and Mrs. Fred Crocker, Henry Crocker, Mr. and Mrs. Laurence Hartman and daughter of Saginaw; Mr. and Mrs. Orton Klinkman of Decker.

Deputy Sheriff John Caldwell was called into the country Wednesday to take a man charged with insanity to the county jail where he will undergo an examination by physicians. On his way to Caro, he overtook a tramp who had made himself a menace with house to house calling, alarming several housewives. Mr. Caldwell told his first prisoner to watch the tramp closely and not allow him to escape. He accepted the "position" as watchman most willingly and the officer had the two in Sheriff McEldowney's care at the county jail in short order.

The body of John R. H. Gray was brought to Cass City Wednesday from Manistique. Mr. Gray was born Aug. 30, 1884 at Rochester, New York, and lived most of his life in Detroit with the exception of ten years in Grant township, Huron county. He died Saturday morning, March 9th, at Manistique from severe burns. He leaves to mourn two sons, Carl age 14, and Richard 12 years; his mother, Mrs. Ida Gray; one sister, Mrs. Henry Paschke; one brother, Robert G. Gray, all of Detroit. Short services were held at the grave. Interment was in Grant cemetery.

Local radio owners found great pleasure Tuesday evening in listening to local musicians when the high school girls sextet sang from the WBCM station at Bay City. Through an error in the schedule, the girls did not sing at nine o'clock as expected, their appearance being later in the evening. They sang two groups during the evening, presenting eight selections in their two appearances. Managers of the station were so pleased with their numbers that the sextet was invited to appear frequently on the station's programs. Members of the sextet are the Misses Elynore Bigelow, Harriett Tindale, Virginia Day, Margaret Jondro, Esther Caisers and Pauline Sandham, with Phyllis Lenzner as accompanist.

The Evergreen Community Club will meet at the James Cook home on Tuesday evening, March 19.

Cod Liver Oil Is Most Easily Given in Feed

The value of cod liver oil for poultry is summed up by one hen professor as follows: Stronger and healthier birds, prevention of leg weakness from heavy laying in late winter and spring, better looking egg shells, more and stronger chicks from the eggs hatched, and fewer blood spots in eggs.

Cod liver oil is most easily fed, this professor writes, in semi-solid buttermilk or cottage cheese. Or, he says, you can feed it with the scratch grain—a quart to 100 hens every week.

Guard Against Disease in Feeding Green Bone

Some butcher shops have installed bone grinders and sell ground green bone. This is an excellent feed when fed fresh, but poultry often must be ground in because of the danger of transmitting disease to the flock. This is especially true of tuberculosis. Whenever a supply of green bone is purchased it should be spread out thin in a cold room. If left in a paper sack even in a room below freezing the center of the mass will heat and spoil. Green bone cannot be successfully kept in large quantities unless thinly spread.

Poultry Notes

A fresh supply of water should be available to the hens at all times.

During extremely cold weather birds should be given more corn and grain than during mild weather.

Birds prefer grain feeds. The amount of mash consumed is determined by the amount of grain fed.

The mash is the egg food and the birds will like it and eat it as long as there is plenty for them in the hoppers.

Let your breeders out every day regardless of the kind of weather, as it is eggs with good, healthy germs that you are after.

Only by constant improvement can you hope to get in the A-1 class, and when you do you'll find a waiting market for every egg or baby chick you can produce.

OBITUARY.

Jacob Messner.

Jacob Messner, passed away Monday afternoon, March 11, at his home on West street, after an illness of several months. Mr. Messner has been in poor health for 12 years, but was able to get out until nine months ago when he suffered a slight stroke and since then, although not confined to his bed until last week, has been very poorly.

Mr. Messner was born Sept. 7, 1862, at Rainham Township, Haldimand Co., Province of Ontario. He was one of a family of four children. One sister, Martha, died when sixteen years of age. He married Miss Lottie Shaw in Canada and to this union two children were born, Roy Messner of Detroit and a daughter who died in infancy. The mother also died and September 18, 1902, he married Jennet Wait Stevenson at Caro. Mr. and Mrs. Messner lived a number of years at Pontiac and Argyle, and the last twelve years has been spent in Cass City, ten years in the home where Mr. Messner died. He was a member of the Orangemen, Foresters and of the K. K. K.

Funeral services were held Thursday afternoon at the Baptist church at two o'clock. Rev. William Curtis conducted the services. Burial was in Elkland cemetery. Besides his wife, Jennet, he leaves one son, Roy Messner, of Detroit, one sister, Mrs. Susan Wehlamm of Rodney, Ontario, and one brother, William Messner of Detroit.

Mrs. Roswell Brown.

Elsie Irene Pearson, daughter of Mr. and Mrs. Alfred Pearson, was born at St. Thomas, Canada, May 4, 1910, and departed this life at her home near Shabbona March 7, 1929, aged 18 years, 10 months, three days. She came to Michigan with her parents in early childhood, and spent most of her life in Sanilac county. She was married to Roswell Brown June 18, 1927. She leaves to mourn her departure, her loving husband, father, mother, three sisters, Ethel, Jennie and Velma, and five brothers, Merle, Floyd, Gerald, Vernon and Marvin, besides a wide circle of relatives and friends who will greatly miss her. She was converted early in life and joined the Mennonite Brethren in Christ church of which she has been a faithful member. Elsie was fortunate in possessing a lovely disposition and made friends wherever

she went. Her cheerful smile and friendly greeting made her welcome in any company. Added to these qualities, her love for her Master and devotion to Him gave her a lovely Christian character. The bereaved husband and other relatives have the sympathy of the entire community. Funeral services were held Monday, March 11, at the Shabbona Methodist church. Rev. Lewis Surbrook, her pastor, was in charge, assisted by Rev. Hosmer of the Free Methodist church of Snover. Interment in Novesta cemetery.

altars where they keep the candles burning. A Greek Catholic priest is in charge.

"By the time we got to the sea of Galilee, it was raining but we could see the cliffs on the opposite side. The water was very clear and blue.

"We spent the night in Nazareth and the next day being Sunday, we went to the Roman Catholic services at the Church of the Annunciation.

There again are many altars and candles. A church is also built over the spot supposed to be the carpenter's shop and we also saw the old synagogue where Jesus preached to the people of Nazareth the time they got so angry and tried to throw Him down a precipice.

"Each day spent in Jerusalem was well planned so we saw all the special places of interest, Bethlehem, Bethany, down to the Dead Sea, Jordan river and Jericho where still flows Elisha's pool.

"The Mount of Olives, where Jesus so often met with his disciples, the Garden of Gethsamane and the temple area are of most interest to us. There are two Calvaries. We all felt that the place called Gordon's Calvary fitted the description of the place of the skull and the tomb the best.

"A beautiful Mohammedan mosque stands where the temple stood. It is built over the rock of Abraham's sacrifice. We also saw the supposed stables of Solomon's horses, great underground caverns.

"Every place that can be built over has a church over it. Even Jacob's well, right out in the country, has a Greek Catholic church half finished

built over it. "If these spots are not correct, to me it makes little difference but it does make a difference how one regards the One who makes these places sacred. The life of Jesus is most real to me and I think I shall understand my Bible better since taking this trip. One comes away wishing for time to read Bible history as you never did before.

"Palestine is an interesting country. As we drove from the rocky hills at Nazareth to Jerusalem, we passed through the fertile plain of Esdraelon with wheat or other grain several inches high and bright yellow, red and white flowers by the roadside.

At first we thought the red ones were poppies, they were so bright but were told they are anemone. There were white ones also. Later in the spring, there will be many other varieties of flowers. Near Jerusalem were the stoniest hills I have ever seen. Dr. Fosdick says in his book, the lands look as though it had been stoned to death and it certainly does.

"From Jerusalem we had a long day's trip to Cairo. We all rode camels out to the pyramids. It was great fun. In the museum, we saw among many other things of interest, the several sarcophagi of Tut Ank Amen. The inner one is pure gold and the outer is gold overlaid. Among the many things of his household the one that impressed me much was his foot-stool on which was carved a picture of his enemies. So the picture of putting one's enemies 'under one's feet' as is so often expressed in the Psalms no doubt comes from that old idea in Egypt."

Swat that fly! We claim that's the first time it's been said this season.

Let's put the proof in the mail. That's been the Purina way for more than 30 years.

The wild wind blows on filmy hose
And unprotected necks
Yet ladies fair who brave the air
Are called the weaker sex.

You can save more than one-half the cost of milk feeding by giving those calves Purina Calf Chow. Cow Chow makes milk. Calf Chow saves milk.

It's a pretty good plan to keep on good terms with your neighbor—especially if you feel that last year's lawn mower won't be equal to the emergency this spring.

Buy Laura lump coal for your furnace or heating stove and you will be agreeably surprised. Laura will make it warm for you.

Little Johnny: "Look at that rhinoceros." Little Willie: "That ain't no rhinoceros; that's a hippopotamus. Can't you see it ain't got no radiator cap?"

Another expression we're going to have to forget is that one which says, "You couldn't do that any more than you could fly."

Purina Chicken Chowder puts life in hatching eggs which results in more chicks from the eggs put in the incubator. Startena, rich in life and growth vitamins, gives chicks a good start in life. Purina Growena, the growing ration, gets them to the laying stage weeks ahead. Feed Purina from start to finish and you'll be money ahead!

Everyday Heroes—The man who can see a dusty pane while waiting in the railroad station, and not scratch his initials on it.

Call 15 for Laura. You'll get her every time and more than that she'll do just what you want her to do. The best coal you can buy—Laura lump.

Let us have your order for baby chicks as early as possible.

NEED LOTS OF TIME TO FIT SHOW STEER

Months of Feeding Precede Appearance of Animal in Fat Stock Classes.

Exhibitors of steers in the fat steer classes at the Michigan State Fair next fall are already fitting their animals for their appearance in the show ring, according to statements by members of the animal husbandry department at Michigan State College.

Showmen who win top premiums in the fat stock shows must be able to visualize what an animal will look like in future months, and they must be able to carry through a feeding program which will model in living flesh the show points which catch the judge's eye.

All animals entered in the steer show are entered subject to sale in the auction ring. Last year's winner was auctioned off by Governor Fred W. Green for 86 cents per pound. The governor will call for bids on the 1929 champion.

Animal husbandry men at State College say that Michigan exhibitors of fat steers are showing better fitted animals each successive year. Fat stock shows now feature the baby beef type of cattle as the show ring reflects the type of animal demanded by the consumers of beef.

Five hundred dollars of prize money, a silver trophy for the champion, and a very attractive auction-sale price are the awards which will be given to the winners this year in the fat steer show.

Cass City Schools

Kindergarten—We expect to have a happy time this week trimming real hats with real trimming. Mr. Herr has given us two large boxes of trimming and hats from the hat store of Mrs. McGillvray. These are for the First Grade too.

Fifth Grade—We had one visitor this week. We successfully completed our spelling with the fourth grade, Vincent O'Connor being the winner. We will begin a spelling race next week, each row represents a certain kind of automobile. The automobiles are progressed according to the hundreds gained in each row. We have five types of cars competing, varying from the popular speedy Ford to the Reo Bus. The cars begin racing Monday. Wednesday we will read the speedometers. We have been interested in using newspapers for information in European geography. This week we will have newspapers printed in foreign languages.

Sixth Grade—On Wednesday, we were greatly surprised by a packet of letters sent by air mail from the fifth grade. These letters came from various European cities as London, Paris and Rome. We are now preparing letters for our European friends and hope in the near future to hear from them again. The "B" Class in Geography has been reading about oyster fishing along with their study of the North Atlantic Coastal Plain.

Home Economics—As this is test week, the 7th grade will have a review covering the work covered since the beginning of the second semester and have another lesson on muffins. The 9th grade is still working on either pajamas, slips or night-gowns, and studying line and color. In addition to the weekly tests we will have a

general one covering all units taken up this semester. The advanced class is still at hot lunches and studying dietetics.

This has been examination week at school, and an endurance test week for the parents of the Public Speaking students. Part of the examination consisted of ten minutes of memorized poetry for interpretation. The parents have our sympathy. Unfortunately, no hope for relief can be seen, as we start soon on the interpretation of one-act plays.

The World History class is studying the life and work of one of the world's most fascinating characters, Napoleon Bonaparte. The English 9 students all arrived in classes Tuesday with a smile on their faces. We have started on the study of Homer's Odyssey, which will be followed by a study of ballads, The Lady of the Lake, and Julius Caesar.

OLD FOLKS SAY DR. CALDWELL WAS RIGHT

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles, or write "Syrup Pepsin," Dept. #BB, Monticello, Illinois, for free trial bottle.

Man So Nervous Feels His Stomach Jump

"I got so nervous my stomach felt like it was jumping. Vinol entirely relieved the trouble. I feel better than in years."—J. C. Duke.

Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc., gives new life and pep. Vinol tastes delicious. Burke's Drug Store.—Advertisement 4.

An Indiana mother tells this: "We find nothing to compare with Foley's Honey and Tar Compound for coughs and colds. My little lad had trouble with his bronchial tubes from his third year, but since we started giving him Foley's Honey and Tar Compound we have been able to control it. We know there is nothing to compare with Foley's Honey and Tar Compound." The very name tells a story. Good also for croup (spasmodic) and troublesome night coughs. Ask for it.—L. I. REV. TOWNSEND WRITES TO CONGREGATIONS HERE

Concluded from first page.

cial affair, at which a sumptuous meal was served and favors were distributed. We were guests of the representative of an American importing firm, who lives at the hotel. Mr. and Mrs. Whittaker presented each of their personal guests with a Christmas gift.

The Foreign 'Y', of which our son-in-law is general secretary, gave a largely attended Christmas party at which, naturally, we were guests, on Dec. 29th, in their magnificent new building, said to be the finest Y. M. C. A. building in the world, outside of the United States. John D. Rockefeller, jr., gave \$298,000.00 towards its erection as a missionary offering. The building is much appreciated, the five floors of dormitories being already fully occupied and there is a waiting list.

We are frequently invited out to meals and twice have been served with Chinese venison. On Jan. 19th we are invited to Tiffin in a home of wealth, where Bishop and Mrs. L. J. Birney will also be guests. The hostess in this instance is an alumnus of our own Albion college, who is married to a British merchant.

Now, a few words with reference to Colombo, Hong Kong and Shanghai. Colombo is the principal port of the Island of Ceylon, concerning which Bishop Heber said in the old missionary hymn, "Where every prospect pleases and only man is vile." It is one of the great tea-growing sections of the world. It has some rain almost every day of the year and consequently all foliage is very luxuriant and beautiful. I was compelled to purchase a thin suit here as we were beginning to suffer from the tropical heat.

(Please take note that this was on the 19th of November.) It was here, too, that we got our first sight of the rickshas and my first reaction was that it was inhuman and cruel for some human beings to ride under the heat of a tropical sun, and be pulled by another human being, but you soon get over that when you remember that these men have been raised to this kind of work and that they make a good living by it. Oxen hitched to high two-wheeled carts are in much use in India and Ceylon for the transportation of freight. At Colombo we hired a taxi, conjointly with another clergyman, and took an 18 mile ride to Mount Lavinia and return, buying three elephants on the way.

At Hong Kong we were met by Mr. and Mrs. H. A. Wilber, Y. M. C. A. folks, and warm friends of the family, with whom daughter had made arrangements to give us a good time, instead of coming that far to meet us, as she had thought some what of doing. Hong Kong is an island, which with some hundreds of square miles of the main land, is the square of the British government. It is a Crown colony. The island is very hilly and has many splendid roads and we were given an auto drive of 28 miles, stopping at the magnificent Repulse Bay hotel for Tiffin, after which we took the cable-tram to the summit of the hill, where we took a two-mile walk, afforded us a splendid scenic view of the fine harbor and the surrounding country. On Monday I visited the fine property of the Chinese Y. M. C. A., also that of the Foreign Y and had our first experience of riding in sedan-chairs and jinrikishas.

Shanghai is a city of nearly two million population and one of the three or four greatest seaports in the world. It is some miles from the ocean on the Whangpoo river, and has one of the best and safest harbors in the world. It consists of three municipalities, the International Settlement, the French Concession and the Chinese city proper, each having their own city government, which of course results in some complications, and against which the Chinese are contending. There are numerous methods of transportation: Tramcars, bus lines, taxis, rickshas and wheelbarrows, besides privately owned autos, so that a person can get almost anywhere at a very small expenditure.

WASHINGTON THE EVERGREEN STATE

Whatcom County, on Puget Sound, northwest county of United States, offers greatest inducements to farmers and home-seekers. Highly productive soil; long growing season; crop failures unknown; finest markets; paved highways everywhere; highest educational advantages; wonderful recreation in an hour's drive to sea-shore or mountain; healthiest climate in world; no extremes of temperature; no severe storms to endanger life or destroy property. Whatcom County farmers produce \$15,000,000 yearly in dairying and poultry alone. All agricultural industries engaged in. Highly successful million-dollar co-operatives and progressive farmers' organizations bring highest prices to producers. Investigate fully equipped poultry and berry farms, well stocked dairy and highly improved bottom-land farms, with electricity; reasonable prices, good terms. 4,000 acres cut-over lands for diversified agriculture, \$10.00 to \$30.00 per acre. Come to Whatcom County where nature makes living easier, safer and better. Write

"THOMAS TYLER, Everson, Whatcom County, Wash.

There are many modern business blocks, especially along the Bund, or water front, and many beautiful homes, particularly in the French and International Settlements. (Our folks live in the French Concession).

You can easily understand that Shanghai is a very cosmopolitan city, and provision is made in both churches and schools, for many different nationalities. There are three Community churches for English-speaking folks, besides those of the Episcopal and Roman Catholic types. One is termed the Community church, and its membership is mainly American, and is composed very largely of missionary and Y. M. C. A. workers. Its present pastor is a Presbyterian, a very capable man. Its last pastor was a Methodist Episcopal minister. Near this church is the American school, a school which is semi-private, supported in part by missionary money, for many of its pupils are the children of missionaries. Then down town is the Union church, many of the members of which are British. Their present pastor is a Baptist. A union observance of the week of prayer is being conducted in this church. There is a very fine spirit of comity between the members of the different denominations out here, and the growing numbers of the Church of Christ in China is an illustration of the fact that Christ's prayer for the oneness of believers is being answered more rapidly in foreign lands than it is in the home-land.

Besides the above churches, there are many churches for the Christian Chinese, many of them largely self-supporting. One of the finest of these is one built in memory of the parents of our son-in-law, Rev. and Mrs. Geo. F. Fitch, who spent more than 50 years in China, laboring for its evangelization. There are also many educational, social and reform institutions, among which are four types of Y. M. C. A.'s—British for the "Tom-mies" and Marines of that nationality, Navy Y for American Sailors and Marines, the Foreign Y for English-speaking men, and the Chinese Y. M. C. A.

All of these are doing a much-needed work, and are in high favor with the classes that they serve. Mr. George A. Fitch, our son-in-law, is General Secretary of the Foreign Y, and Associate Secretary of the Chinese Association. He is also connected with other organizations in the interest of the Chinese and is naturally an extremely busy man. The fact is that I can't understand how he stands up so well under so many burdens. He is due for a furlough, which he will take in the United States, leaving here June 21st, and you will have a chance to see and hear him (also our grandsons) some time during the coming summer, probably in August.

The Y. W. C. A. is also here, serving both Chinese and Foreign young women, in addition to the regular lines of work. It is conducting a hostel, or home for young women. Then there is the Missions building, owned conjointly by different denominations, and used as headquarters for their business activities. The Mission Book Co. is conducted in a similar way. Then there is a Missionary Home, the China Sunday School Union, the Door of Hope for unfortunate Chinese girls, missionary hospitals of various

types, and various grades of schools and Universities, that are making a fine Christian impact upon this great people. I will speak of these at greater length in a future letter.

Many of the missionaries live in what are termed Compounds, which is a large yard, surrounded by a wall, or hedge, or high bamboo fence, in which a number of houses are built. This gives them greater safety, privacy and congeniality. Many of the well-to-do Chinese live in very good homes, but the great mass of the people live in very poor homes. We would not call them homes. We would scarcely be willing to house our pies in them—thin walls, dirt floors, thatched roofs, meagerly furnished, built around a court-yard where the live stock and fowls are running loose, and with no pretense at sanitation. Outside of this Chinese village, so-called, are the gardens, fertilized with human excrement in part, as a result of which, the foreigners will not eat any raw vegetables, Chinese grown.

On the creeks and rivers will be found hundreds of thousands of Chinese, living on junks, small freight boats, where you will see the children mingling indiscriminately with goats, cats and fowls, etc. The women on these junks will be seen assisting in handling the freight, with babies strapped to their backs—a most interesting sight. A good many homes, both of the rich and poor, have screens in front of the main entrance for the purpose of confusing the devils, so that they will not find their way into said homes; a superstition coming down from the past, but still believed by many of the people.

Our church has no missionary work in this city, but it is the headquarters for much of our work in the interior. There are treasurers here for both the Board of Foreign Missions and the Women's Foreign Missionary Society, and we have an interest in the Missions Building and the Mission Book Co. Bishop Birney also has his residence here, so that there is a Methodist Compound with residences for a number of families. We are trying to see and study various phases of missionary work, under different organizations, so that we shall be more intelligent with reference to world evangelism when we return, and, I trust, shall be able to open windows through which you will be able to get clearer vision of God's redemptive purpose for all mankind, and of your privilege in connection therewith.

Now, I must close, for if I continue at greater length, Bro. Crawford will not have time to preach a sermon. God bless you all and make you a wondrous blessing to your day and generation; may you co-operate so completely with God, your pastor and with each other, that you will gather a plenteous harvest as your reward. Brethren and sisters, pray for us, each other and the work. With warmest greetings, I remain, Christ's undershepherd for you.

FRED H. TOWNSEND.

THE WEEK IN THE STATE LEGISLATURE

Concluded from first page.

Hoover and other dignitaries to attend the anniversary celebration in Jackson July 4, 5, and 6 of the founding of the Republican party.

The Senate has passed the Conlon measure providing for a special tax commission. The bill carries an appropriation of not to exceed \$25,000, for expenses of the commission.

Sen. Lennon proposes a tobacco tax of \$1.50 per 1000 on cigarettes and a 5% tax on all other forms of tobacco, the money to be used to reduce the general property tax.

The administration furnished members early in the week with a report of expenditures made by authority of the state administrative board during the past two years.

Friday's grist of new bills in the House included one by Rep. Armstrong making it illegal for any candidate for office to fill out a questionnaire or to make pledges to support any particular measure, prior to election.

A concurrent resolution introduced by Rep. Warner would put up to a referendum the proposition of re-districting the state on a basis of citizenship rather than population.

Speaker Ming's amusement tax proposition is still held in the House ways and means committee, but Mr. Ming says that it will be amended and brought out later, with the proposition that the revenue thus obtained should go to the relief of the poorer school districts.

A private dinner party given by Rep. DeLand, at which it is asserted state matters were discussed, but which no member of the party seems willing to talk about, was severely criticized at another dinner party of legislators, not held privately.

The House Tuesday passed an appropriation bill of \$200,000 for advertising the state, to be spent in a 50-50 plan by the tourist and resort associations of the state.

A public hearing on the Lennon garnishment bill, which had been approved by the Senate, was held in the House chamber Wednesday before the judiciary committee.

Rep. Hartman's bill proposing a three-fourth mill tax to take care of the proposed hospitalization improvements seems to meet with the approval of quite a number of the legislators and is said to have the support of Speaker Ming and of the administration.

Deeming it wise to "Support home industries," Rep. Otis Huff has introduced a bill repealing the five-day marriage license act. He recalls that Rep. Frank Darin, author of the law, went to Buffalo, soon after, the law

was in effect, to be married, while only last week Senator Norman Horton, who sponsored the law in the Senate, took a day off to go to Ohio to be married.

Senator Condon has introduced a bill to make card and dice games illegal in pool and billiard halls, in towns of 5,000 population and over. He claims that in the larger cities these places are the breeding places of much crime and are the hang-outs of "gang" members.

An attempt to take from the state administrative board the function of designating location of trunk line highways failed and the House passed a bill authorizing additional highways to the extent of 500 miles, all of which it is claimed have already been allocated.

The Senate has spent much time this week arguing over tax matters and the taxation committees of both branches are holding almost continuous meetings in an effort to thresh things out to a satisfactory conclusion.

Black currants are put on the black list by Senator Campbell, because they produce white pine rust. His bill authorizes commissioner of agriculture to destroy all black currant bushes in the state.

Two conservation bills were passed by the House today, one giving more authority to fire wardens and one authorizing the state park commission to lease public service privileges in state parks.

Prospects are bright for appropriation matters to come into action during the coming week. If the budget, or the greater portion of it, can be on its way during the coming week it will help greatly toward bringing final adjournment within the range of vision.

Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in the sum then and there to be fixed by us, reserving to ourselves the right to reject any and all bids.

Notice is further hereby given, that at the time and place of letting, or at such other time and place thereafter to which we, the drainage board aforesaid, may adjourn the same, the assessments for benefits to the lands comprised within the "Huron and Branches Drain Special Assessment District," and apportionments thereon, will be announced by us and will be subject to review one day, from nine o'clock in the forenoon until five o'clock in the afternoon.

The following is a description of the several tracts or parcels of land constituting the Special Assessment District of said drain, viz:

WALTER MARTIN, Prop. T. B. TYRELL, Auctioneer Pinney State Bank, Clerk

CORRESPONDENCE FROM SANILAC COUNTY

Concluded from first page. last week on an automobile larceny charge pleaded guilty to theft of chickens and drew a sentence in the county jail of 60 days. Sentence on the theft charge was suspended. Probation sentences meted out include Anthony Yost of Deckerville on a chicken theft charge and Earl Tucker of Marlette. Each must pay \$20 costs in addition to the one year probation. Harry Brown and Maxwell Scheisler drew one year probation each on charges of forgery and larceny respectively, and Mr. and Mrs. Frank Picz of Austin township drew two years probation on liquor charges.

Township caucuses held throughout Sanilac county the past week resulted in the nomination of five new supervisors to be voted on at the April election. The defeat of the present supervisors were upsetting, some losing by small majorities and others being decisively defeated. The outcome in some townships may bring forth defeated candidates at the April election on "slips."

George Paton, Fremont township supervisor and present chairman of the board of supervisors, was defeated by Bert Mortimer by a vote of 90 to 50 in a feature upset. Paton has been supervisor for 10 years.

Peter Smithwick, Buel township supervisor for five years, was defeated by Irvin Hall.

Cyrus King, supervisor from Argyle township, was defeated by Barney F. McGarry. The vote stood 91 to 82.

Frank Geister, Lamott township supervisor, suffered a nine vote defeat by George I. Smith.

Hiram G. Brooks, Flynn township supervisor, met defeat at the township primary at which M. C. Whittaker and Thomas Baldwin were nominated. Flynn is the only township to use the primary system.

In several other townships opposition for the office of supervisor developed including Lexington, Marlette, Sanilac, Maple Valley and Washington, but opposition was unable to defeat present supervisors.

The office of township treasurer is usually a gem much sought after, and the usual contests revolved about this office. The opposition developed this year for the office of supervisor was unusual. Many close contests for the various offices has tended to stir up interest for the April election, with many "slip" candidates likely.

High winds which swept Sanilac county late last week caused damage upwards to \$25,000 complete reports show leaving a trail of damage including wrecked barns, unroofed structures, cattle killed, and communication lines crippled. No persons were injured in Sanilac by the storm.

Deckerville and Minden City were cut off from all communication for 24 hours, and it was 36 hours before makeshift lines could be established. The storm was general extending over the entire county, and was in strict contrast to the cyclone "twister" that descended down on Watertown, Buel and Elmer township in July, 1927.

A second Thumb Products banquet to be given by the Thumb of Michigan Association similar to the big banquet of Feb. 22 a year ago, when 1,400 persons gathered at Sandusky for the largest banquet ever held in the Thumb, looms as a possibility, according to a communication received at Sandusky from Lester G. Albertson, president of the association. The letter asked if Sandusky would desire the banquet again.

Mayor Geo. S. Tweedie has referred the communication to the Exchange club for action. April 12 was set as a tentative date.

The Sanilac county coffers are enriched \$500 in cash through the forfeiture of that sum by Peter Cassale of Port Huron and his bondman, Christopher Scivaco, for failure to appear at the trial of Cassale's liquor case in the Sanilac circuit court this week.

Judge X. A. Boomhower ordered the bond forfeit. Both Cassale and his bondman are said to have disappeared from Port Huron and cannot be located.

Cassale was arrested by officers 18 months ago with a quantity of liquor in his automobile. His car was confiscated. Bond was posted, but he failed to appear after his case was called the third time. Neither has his bondman produced the defendant, nor can the bondman be located.

At least one liquor case has resulted profitably for Sanilac county, without the necessity for a trial, court officers say.

The annual spring upheaval of Sanilac roads has been delayed through a spell of freezing weather, but road forces have everything in shape for the upheaval. Constant patrols have been maintained, and highways are reported in good condition. Side roads are reported bad, but main lines are in good shape.

Farm problems was the theme of an enthusiastic meeting sponsored by the directors of the Detroit, Caro and Sandusky railroad and the Sandusky Exchange club Tuesday noon at Sandusky. A large crowd of farmers attended the meeting.

sounded to restrict crops to avoid over-production of certain commodities. C. H. Allen of Marion, O., an agriculturalist of prominence, and C. R. Oviatt, extension specialist of Michigan State College, were the main speakers.

New sugar beet contracts announced by Fred E. Harvey, field manager of the Croswell plant of the Michigan Sugar Company, assures growers of the benefit of receiving more for their crop in the face of pending legislation in Congress toward the relief and protection of the industry.

The new contracts provide \$7.75 ton for beets delivered at the railroad points, and \$8.75 per ton for beets delivered at the Croswell factory. Beets contracted for delivery at weighing stations will be paid for at the rate of \$7.25 per ton. No free seed will be given under the terms of the latest contracts, Mr. Harvey said.

Contracts a year ago were \$7 for railroad and weigh station delivery and \$8 per ton delivered at the factory.

The new contracts will go in force at all Michigan Sugar Co. plants. Field men are now raking acreage, with progress being reported.

Harry C. Smith, school commissioner, has been elected a delegate to attend the annual meeting of the Michigan Educational Association in Lansing March 29 and 30. Prominent educators will be in attendance.

Peter Kociba of Harbor Beach underwent an operation for removal of tonsils Monday.

THE CHURCHES

Why does not God force men to serve him? He wants man to obey through choice. He is eternal; he can afford to wait. Yet, this very patience and silence of God tempt man to proceed on the path that leads to death. While conscience cries out in protest, no hand stays him and he tries to think that no one cares. Death finds him with his work undone or ill done. He dies an unprofitable servant. He has done nothing to deserve the life for which he was made, for which his soul craves, without which he can never have peace. Who can measure the force of that awful sentence, "Thou wicked servant!"

The call of the Church, then, is not only wise; it is kind. What is your spiritual pulse; your spiritual blood-pressure? Is there a leaky valve or an inactive organ? Are the glands functioning? Is there poison in your spiritual arteries? Locate it in time. Then, take every means to eliminate the evil and restore the functions.

Wise men balance their books regularly. Only a fool will run his ship without taking observations to find his location on the chart. Is not our soul worth reasonable care? It is the gem of our life. The body is only a setting or an instrument. It wears out and disappears, but our soul is immortal. Seventy or eighty years and life is ended. But the endless years of eternity await the soul. Well may our Savior ask, "What shall a man give in exchange for his soul?" "What doth it profit a man if he gain the whole world and lose his own soul?"

Lent is the acceptable time. It is the call of God for man to think of him and to set himself right if he has wandered from or loitered on the road to heaven.—John L. Bedford.

CHAS. KERCHER PLAYS FOR LINDY IN TEXAS

the honor of giving the music for this occasion. 'Lindy' is at present down in Mexico waiting for plane repairs.

"They have a fine airport here, a Federal and also a Municipal. The waiting room looks like a big castle. We played guard mount this afternoon. It was a perfect blue sky.

"For your benefit I am going to explain an interesting game that was played at the last horse show where we furnished the music. About fifty soldiers on horses get in a big circle around a ring of chairs. There is one less chair than riders. They run the horses in the circle while the band plays and when we stop playing they all jump off and run for the chairs and right here is where the fun comes in as some of the horses balk, etc. You see there is going to be 'one slow' left without a chair so he is put out. The next round another chair is taken out, etc., until only two men and one chair are left, and they race for it, and the one getting it wins the game.

"Am enclosing a picture of our orchestra. I sure put in some fine times playing in a saxophone trio, also a clarinet trio. We are also doing some broadcasting. Will try and send picture of full band later.

"The Essex Bag-pipe Band from Winsor, Canada, was here last Saturday. They certainly were a fine bunch of bag-pipe players. They would play a number and then our 12th Cavalry Band would give a number. We had a large crowd and the people sure enjoyed it. Many of the people here never heard the bag-pipes before. The Canadians were much pleased with the valley and called our country here a Paradise. They said the winter up there was the coldest in twenty years."

CONTINENTAL CARBON COMPANY HAS BIG FIRE

Concluded from first page.

the Cities Service Oil Co. station at 13822 Lorain Ave.

"The damage was expected to mount into many thousands of dollars as huge stores of paint compounds and lacquers were destroyed by the blaze. "Twelve fire companies under First Assistant Fire Chief Granger were summoned to the scene, three of the companies being called from the downtown area after every piece of fire fighting apparatus on the West Side had reached the scene.

"The 75-mile-an-hour gale that had torn through the city streets all day shot giant fingers of flame hundreds of feet into the air. The tempest of wind and biting sleet and snow blinded firemen, adding to the danger of their battle.

"Huge embers and glowing planks were carried through the air by the wind, which dropped them on nearby buildings tops, threatening to spread the conflagration for blocks.

"The flames spread so rapidly that additional companies were summoned

as soon as the first piece of apparatus reached the scene. "Squads of police from West Side precincts were sent to the scene of the spectacular blaze to reroute traffic, which for a time was completely tied up. "The workmen, who dashed into the

CARD OF THANKS—We are very grateful to friends for their expressions of sympathy at the time of our bereavement. The Jaus Family.

I WISH to thank my friends for remembering us while in the hospital; also the nurses and Dr. Young for their services. Especially do I wish to thank Dr. McCoy for his efficient service. Mrs. W. R. Kitchin.

CARD OF THANKS—I am most grateful for flowers, visits and other kindnesses of friends while a patient at Morris hospital; also to Dr. Morris and nurses. I will always keep in mind these friendly remembrances. Mrs. Carl Almer.

IN MEMORY of Mr. and Mrs. David Law, who died on March 13, 1928: We cannot say that they are dead. They are just away; With a cheery smile and a wave of the hand, They have wandered into an unknown land. And left us dreaming; how very fair! It need must be since they linger there. But yet we yearn for the old time step and the glad return. THE CHILDREN.

The Thrift Hour Teach Your Dollars to have More Cents The Thrift Hour is the hour when a little time spent in reading the advertisements in this paper can be made to pay a big part in the status of the family savings account. Consistent ad reading gives first hand information TODAY about the quality and prices of the purchases you intend making TOMORROW. The merchants of this city place their various offers before you each week in order that you may know in advance what the market affords. These advance suggestions, when acted upon, enable the buyer to make the most of every dollar spent. You, too, will find that reading the ads will make an astonishing difference in your daily expenses. An hour spent in ad reading is truly "THE THRIFT HOUR." The Cass City Chronicle
