

DEFORD

Thos. Davis is on the sick list.
Mr. and Mrs. N. R. Kennedy drive a new Buick sedan.
Mrs. H. Cuer and Mrs. A. E. Webster are on the sick list.
Mrs. Lewis Lock is entertaining her aunt, Mrs. Bedell, of Bellaire.
James Phillips of Pontiac, spent Easter at the Herman Rock home.
Mr. and Mrs. George Spencer entertained the following guests for Easter Sunday dinner: Mr. and Mrs. Lyle Spencer and family of Cass City, Mr. and Mrs. Roy Colwell and daughter of Saginaw, Mr. and Mrs. Seth Spencer of Deford, Byrl Franklin of Pontiac, and Mr. and Mrs. Elvin Spencer and family of Oxford.
Mr. and Mrs. Wm. Gage moved their goods to Pontiac on Sunday, where they will live for an indefinite time.
Mr. and Mrs. Chas. Tedford entertain their family on Sunday for Easter dinner in honor of Mrs. Wm. Gage's birthday.
Mrs. Henry Sweet and son, Edwin, were in an accident on Tuesday afternoon while on their way home.

Their car is a total wreck. Mrs. S. had a rib broken and received several minor bruises. The boy luckily escaped.
Mr. and Mrs. H. R. Silverthorn, Mr. and Mrs. Benj. Gage, Misses Bernice Gage and Lenora Trumbull spent Sunday afternoon in Caro at a Christian Science lecture.
Clinton Bruce came home on Friday from Flint where he has been employed for the winter. He came home on account of the poor health of his father, A. L. Bruce.
Mr. and Mrs. Lyle Penfold of Cass City moved to the old Sargent farm, west and south of town. A new house is being erected on the farm.
Mr. and Mrs. H. Case of Detroit, Mr. and Mrs. B. Curtis and Mr. and Mrs. Clarence Chadwick were entertained at the Mrs. Alice Curtis home on Easter Sunday.
Mr. and Mrs. E. L. Patterson spent Easter Sunday with her mother, Mrs. Harris, of Imlay City. Mrs. C. M. Lock accompanied them home to visit her son, Lewis.
Mr. Singland of Oxford visited over Easter with his mother-in-law, Mrs. A. E. Webster.
Mr. and Mrs. John Zinnecker entertained on Easter Sunday, Mr. and

Mrs. E. A. Cones, Miss Veda Cones and Amber Wilcox of Marlette, Mr. and Mrs. Carrie Wright and family and Ernest Barrons of Flint, and Mrs. Lena Slickton and little daughter, Dorothy.
Mrs. Max Agar and mother, Mrs. John Clark, spent Tuesday with their sister and daughter, Mrs. Delbert Martin, of Colling.
Mrs. Vern Bird left on Tuesday morning for her home in California after visiting her father for the past two and a half months.
Mr. and Mrs. Wendall Kelley of east of Wilmot spent Easter Sunday at the William Kelley home.
Mr. and Mrs. Harold Brock, who have been in Flint for the winter months, are moving to the old Ashley farm.
Mrs. Howard Retherford returned to her home after spending three weeks with her daughter, Mrs. Mark Smith, in Detroit.
Eldon Bruce has returned to his farm home after spending the winter in Port Huron.
A. E. Webster left on Monday morning for Orion where he will work on the roads helping Morley Palmateer of Imlay City.
Mrs. Bertha Cooper returned to her home here after a six weeks' stay at the home of her son-in-law, H. Retherford, in the absence of her daughter, Mrs. Retherford, in Detroit.
Mrs. Guy Woolman of Detroit came on Friday to visit over Easter with her brothers, George and John McArthur.
Mr. and Mrs. Ward Roberts spent Saturday night and Sunday with the former's grandmother, Mrs. P. Daugherty, and his sister, Mrs. Wm. Zenne.
The Ladies' Aid Society served dinner on election day, proceeds amounting to \$15.00. Pretty good considering the day and weather.

HOLBROOK.

There will be no Epworth League meeting Friday night (tonight) on account of the fish supper at Wickware.
Mr. and Mrs. Dwight Barnes of Royal Oak were Easter visitors at the home of Mrs. Barnes' parents, Mr. and Mrs. James Hewitt.
Charles Simkins, Edna Jackson and Aetha Morrish were visitors at the home of Rev. Blackmore of Argyle on Saturday.
Mr. Holder of Pontiac was a visitor at the Kamage home over week-end.
George Putman and Miss Marie Clark were married on Saturday, March 30, and given a real old fashioned charivari on Saturday night.
Mrs. Nelson Simkins and son, Charles, were visitors at the home of Mr. and Mrs. A. D. Gillies of Cass City on Friday.
Mr. and Mrs. Robert Spencer and family spent Easter Day at the home of Mrs. Spencer's parents, Mr. and Mrs. Jay Britton, of New Greenleaf.
Students from the Cass City high, who spent Easter vacation at the home of their parents were Miss Verne Hill, Misses Hannah and Marion Ballard, Miss Aetha Morrish, Misses Violet and Selena Jackson, Nora Jackson, and Marguerite Pelton, and Charles Simkins and Frank Pelton.
Mrs. Violet Wiley and daughter, Grace, of Cass City spent their Easter vacation with Mrs. Wiley's mother, Mrs. Mills.
Alex Cleland of Pontiac is visiting at the Chas. Morrish home.
Mr. and Mrs. Earl Englehart and family of Port Huron spent Easter Day with Mrs. Englehart's parents, Mr. and Mrs. Barney Shagena.
Mr. Moss and son, Augustus, made a trip to Detroit with a truck load of poultry and eggs last week.
Easter guests at the home of John Jackson were Mr. and Mrs. Howard McCordle and daughter, Linda Jean, of Jeddo and Mr. and Mrs. Alex Henry and family of Cass City.
Wm. Wilkinson is recovering from blood poisoning caused by an infection in his foot.

WOMEN'S MINDS ARE CLEAN

She—Women's minds are so much cleaner than men's.
He—Yeh! Because they change them so often.

Chiggers Bite

Ashes to ashes,
Dust to dust;
If the tourists don't bite
The chiggers must.

Lending

"Your constituents lent you strong support."
"Yes," answered Senator Sorghum. "But they only lent it. They may decide to call the loan and go the other way next election."—Washington Star.

RED CROSS CHAPTERS STRENGTHEN FORCES FOR DISASTER RELIEF

Launch National Campaign to Perfect Preparedness Plans in Every Community.

A nation-wide campaign to strengthen plans for preparedness against disaster and for emergency relief has been launched by the American Red Cross through its Chapters. The program is intended to perfect disaster preparedness committees in the ten thousand communities reached by Red Cross Chapters and their branches.

When carried out, through committees of men and women in the communities, it will insure that should a disaster come, an organization for emergency relief, including every modern method science has perfected—such as the radio, the airplane, the motor car and watercraft—can be mobilized to bring assistance, with the promptitude applied by the Red Cross in recent major disasters, such as the West Indies hurricane and the Mississippi Valley flood.

These enlarged and strengthened plans for disaster relief are set forth in the revised Red Cross manual, "When Disaster Strikes," which has been placed in the hands of every Red Cross chairman throughout the nation. The plan to encourage adoption of these added disaster preparedness methods was begun at this time because Red Cross records—covering 48 years of disaster relief—show that the period of the greatest number of disasters, large and small, ranges from the early Spring through the early Fall.

The Record of 48 Years

A historical summary of Red Cross disaster relief since 1882, shows that the society was active in giving relief in 938 domestic disasters and its expenditures in those relief operations were \$49,594,000. The three groups of calamities appearing most frequently were: cyclones, tornadoes, hurricanes and other storms, 231; fires, 131; floods, 126.

During this period, the Red Cross also has given assistance to distressed peoples of other countries in 153 disasters. Total expenditures for relief at home and throughout the world, in 48 years, amount to \$77,354,000.

In the four most recent major disasters, among the greatest which have ever visited the American continent, Red Cross expenditures for relief totaled \$29,188,908. Only in the event of large disasters such as the Florida hurricane of 1928, the Mississippi Valley flood of 1927, the New England flood of the same fall, and the West Indies hurricane of 1928, does the Red Cross seek contributions from the general public for relief work; and frequently these are not ample, as in the four disasters listed, the Red Cross donated \$1,338,201 from its own treasury to aid in the work. In the event of smaller disasters, the cost of the relief is met largely from Red Cross resources.

No Community Immune

No community is immune to great disasters of one type or another, the manual shows. One preparedness measure that can be adopted is a survey of the surrounding country, with the assistance of engineers and other experts to determine the type of disaster to which the section is subject. Hazards resulting from the presence of rivers and lakes, subject to overflow, of mines, munition factories, and other industries wherein dangers from explosion and fires may exist, are singled out for consideration.

Extension of existing disaster organizations in communities, and organization of men and women, trained in public health and community service, will result in the saving of lives and the prevention of extensive suffering, through privation, epidemic and other misfortune, should emergency arise through disaster. These organization plans, outlined in the manual, are similar to those now existing in most Red Cross Chapters, only strengthened in some particulars. They contemplate disaster preparedness and relief committees, under which function sub-committees on food, clothing, shelter, medical aid, registration of disaster sufferers and information service, transportation and communication and finance.

Co-ordination of all of the societies, organized groups and institutions in the locality is urged, so that all effort for emergency relief will be directed without conflict. Trained in advance, these committees can swing into action, and provide an orderly and systematic relief organization.

The following are expenditures made by the American National Red Cross for relief in the four most recent major disasters:

Florida hurricane, 1926	\$4,477,170.07
Mississippi Valley flood, 1927	17,498,902.16
New England flood, 1927	1,299,773.93
West Indies hurricane, 1928	5,913,062.47
Total	\$29,188,908.63

These Are the Days

By Albert T. Reid

GREENLEAF.

March went out like a lion. Repairs of property damaged by the wind storm are going on rapidly. A heavy wind and snow storm Sunday and Sunday night kept many homes.

Nearly every one were or had Easter guests Sunday.

Wm. Wilkinson is laid up with blood poisoning. He is also ill with diabetes.

Wm. Powell has the roof on his barn completed.

Several of the "faint hearted" citizens remained at home on election day because of the storm and cold.

Harold Anderson is working for Wm. Franks near Ubyly.

Mr. and Mrs. Ed. Bliss are ill with bad colds.

POULTRY

FLASHLIGHT BIG AID IN CULLING

Shows Many Loafers Among Layers in Hen Flock.

Literally catching the loafers napping is an excellent method of culling the poultry flock, if the culling process is carried on from week to week.

Birds showing shriveled combs or molt, or having empty crops, should be culled.

In the low producer, the comb is pale, small and shriveled, the vent is yellow, shrunken and dry.

How Much Does Pullet Cost Till Able to Lay?

The North Carolina State college has conducted several tests to determine the amount of feed required to start a Red, Barred Plymouth Rock or Wyandotte laying pullet.

For Early Winter and Late Fall Production

With most ordinary flocks only 50 per cent or so of the flock is kept as aged hens, the other half being pullets, and the purpose of this is to provide for early winter and late fall egg production.

Poultry Facts

Birds that are not fit to be kept over as breeders should be disposed of at once.

Moldy or spoiled feed is always dangerous. It causes loss of appetite, diarrhea, fungus growth in the "innards," and often kills the fowls.

Don't be afraid to feed oats, especially if you can get heavy white oats.

If laying fowls lose weight, give them more grain. If they're lazy, heavy, and laying poorly, cut the grain down.

Corn, also barley, if fed, should be given in the evening, because these feeds provide needed heat for the birds during cold nights on the roosts.

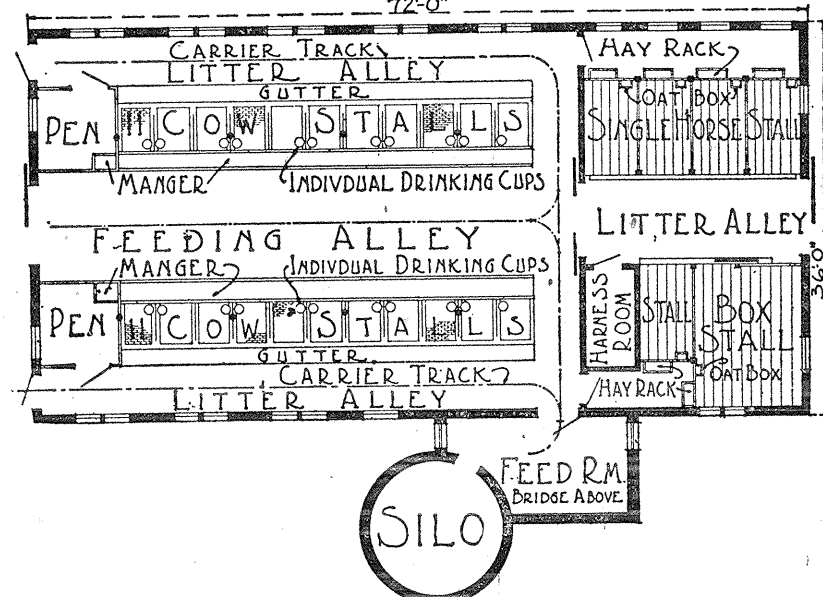

Improve your flock next year by getting some good males to breed with them.

Turkeys will begin laying indoors, even in the late winter months, if they are well sheltered and given a good laying mash.

There is plenty of room for more poultry meat and it pays to keep a flock of good meat fowls that have been bred for egg production.

Don't think you have to keep Leg-horns to get eggs. Any breed or variety can be bred for egg production.

Bank Variety of Barn Provides Splendid Shelter for Live Stock

By W. A. RADFORD Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building work on the farm.

The popularity of the bank barn is perhaps a sufficient argument for the soundness of this type of construction.

The big barn will take care of twenty-two cows and six horses, and keep them in top-notch condition.

drinking cups. At the end of the barn there are two maternity pens, one on each side of the wide feeding alley.

The silo is of concrete blocks, and the chute is inside the feed room, so that in bad weather the feeding job is not aggravated by the discomforts of exposure.

Although it is a bank type, this barn has plenty of light and air. There are twenty-eight windows, and a complete ventilating system.

Experts Should Build Windows of a Home

The casement window ranks higher in favor with the European home owner than it does with the American.

Furthermore, if the locking hardware has not been put on so that the sash may be drawn up tight against the frame you will have wind leaks, heat losses, rattles and general dissatisfaction.

The market affords many types of special casement windows, and of casement window adjusters that are most excellent devices.

Colorful Ceramic Tiles Add Luxury and Beauty

If you are building or remodeling a home you want it to have beauty and a measure of luxury.

Ceramic tiles permitting an endless choice of color, design and texture, you will find to be a beautiful, long-lasting material.

Ceramic tiles, produced at very high temperatures, resist the heat of the ordinary flame. The materials used in setting tiles are also fireproof.

Rusty Pipes

Rusty pipes never get any better. They gradually fill up until water can barely trickle through.

Buying Home Is Job That Needs Thought

Buying or building a home proves a greater task than anything ever tackled before, apparently, and the head of the family and the helpmate scrutinize with all their powers to select that which will suit, the means financially being foremost in the consideration.

In practically all instances, where a home is purchased, the real estate man or representative, or seller personally, sets out the virtues of the home in particular.

The good qualities are given in all of their details, the accommodations which are to be had in the home itself and the locality are told of without reservation.

It is a fact that many homes have been sold because of some peculiarity of the same, handsome fixtures, beautiful approach, convenience to car line, fireplace, kitchen, light in the house, etc.

The statement has been made that many people who are looking over homes to purchase see more in fixtures and decorations than in walls, foundations and constructions.

While good construction, substantial foundations, walls, roofs and other work about a home are essential and there is no intent to in the least criticize, still there are many other things which hold out a strong persuasive hold and are carefully presented.

Salesmanship is essential in many instances and it is this fact that brings out the qualities as above stated, decorations, fixtures, furnishings, doors, closets and so on.

The greater number of people, it is pointed out, are interested in conveniences and beauty; in short many sales are made where the home attracts the eye.

Home buying is an important step in the life of any man, for it gives that feeling obtained in no other way. There are few men in the world who are not happy to walk up to and through his own door.

Comparative Cost

The first cost of a well-constructed, durable and fire-safe residence of modern proportions is only from 5 to 10 per cent more than the cost of one in which cheap and destructible materials are used.
