

### Michigan Happenings

In 1928 the 49 state parks operated by the conservation department were visited by 5,500,000 people, representing 46 states other than Michigan, Canada and Czechoslovakia. Cedar Hills state park reported one car and two visitors from Czechoslovakia. Michigan furnished bathing facilities to 750,000 visitors in its state parks in 1928, and camping grounds to 127,000, 25,000 of whom were out-state people. Thirty-six thousand camps were made within the boundaries of these public recreation areas.

The Washtenaw Gas Co., of Ann Arbor, is refunding \$26,470.31 to consumers in accordance with an agreement between the company and the city whereby profits above a fixed percentage are shared with consumers. This year's refund represents 7.44 per cent of the amount paid for gas service during 1928, less the regular service charge of 30 cents a month, according to Charles R. Henderson, the manager, and is slightly smaller than last year's refund, because of a reduction in rates.

Dr. Robert M. Wenley, 68 years old, professor of philosophy and head of the department of philosophy of the University of Michigan, died at his home in Ann Arbor recently of a heart attack. Dr. Wenley was well known in educational circles throughout the country and was considered a scholar of the highest type. Coming to Michigan as head of the department of philosophy in 1896, he had held this position since. He came to Ann Arbor from Scotland.

After lying helpless on the floor of his home for two and one-half days, when he suffered burns on his head after the explosion of a can of kerosene with which he was kindling a fire, Orin Toll, of Flint, 50 years old, was found by neighbors. He died in the Hurley Hospital. Before his death he said he had been conscious during most of the 60 hours that he lay on the floor, unable to rise. Toll was a bachelor and lived alone at 1350 Hughes avenue.

Stanley Fairbanks, a junior in Ypsilanti high school, is the owner of the oldest dog in Ypsilanti. Of nearly 400 dogs licensed, the city treasurer says Stanley's dog Fritz is the oldest. Fritz is 16 years old, only three months younger than his master. On the farm in Lenawee county, where he was born, his hind leg was cut off by a mowing machine. A carpenter substituted a wooden one, which he used for some time, but finally gnawed it off.

Fire destroyed the old Grand theater building in St. Ignace. The origin of the fire is not known. It had good headway when discovered and the firemen confined their efforts to saving buildings on either side. This is the third fire for this building. It first burned about 12 years ago and was rebuilt and two years ago caught fire again. At that time it was boarded up and has not been occupied since.

The township of Northville, in which the village of Northville is located, has no indigent residents, Supervisor Willard Ealy announced at the annual township meeting when he asked for only \$100 to carry on the work of the poor commissioner for the year. Ealy said he believed the township had established a record in this respect.

Fire virtually destroyed the entire plant of the American Showcase company at Adrian, a firm employing more than 200 men. The damage was estimated at \$400,000. The American Showcase company moved to Adrian from Detroit three years ago. It has been operating at capacity, employing a double shift on production.

George Hopkins, of Bay City, 78 years old, 518 North Jackson street, died at Mercy hospital of injuries suffered when he was run down by an automobile driven by George Fanger, 18 years old, 211 King street. Fanger told the police that he first saw Hopkins as he crossed the street directly in the path of his car.

Rabies, with which he became infected when bitten by a dog February 28, caused the death recently of 4-year-old George Innis of Detroit. He died in Herman Kiefer hospital. The child's parents, Mr. and Mrs. George W. Innis, live at 3095 Ashland avenue.

Charles Hackert, Sr., of Ludington, 100-year-old Mason County pioneer, was a guest at the golden wedding celebration of his son and daughter-in-law, Mr. and Mrs. William Hackert.

Mr. and Mrs. Anthony Ritter, of Lake Odessa, celebrated their golden wedding anniversary recently. They have resided there for the last 22 years. Three daughters and five sons were present to take part in the celebration. The couple have 16 great grandchildren.

Ernest Turk, 53 years old, living alone on a farm near Leslie, killed himself with a shotgun. Ill health was given as Turk's motive. He is survived by a sister and a brother.

Buried treasure worth \$2,518.50 was dug up recently on the farm of Mrs. Mary Stoldt, near Three Rivers, who died March 7 at the age of 83. The money, all in gold and silver coins, was put in a Three Rivers bank. Discovery of the money was due to the memory of Mrs. Stoldt's daughter, Mrs. Helen M. Van Sickle. The latter remembered hearing her mother tell 20 years ago that she had buried some gold and silver. Of the total in coins dug up, \$1,920 was in \$10 gold pieces, \$180 in \$20 gold pieces, \$360 in silver dollars and the rest in half dollars.

The Watson Bill, amending the Criminal Code to remove Prohibition Law violators from the life term provisions of the code, has been signed by Gov. Fred W. Green. Dry leaders in the legislature still have a chance to defeat the provisions of the bill. They base their hopes on the Cuthbertson bill, designed to keep the bootlegger in the life term class by raising the maximum term of first offense liquor law violators to five years. The Senate reduced the maximum to four years.

Worried by ill health, Mrs. Herman St. Onge, 36-year-old wife of a Menominee paper mill engineer, ended her life and the lives of her two children. The tragedy was discovered by the father when he came home from work. The body of Mrs. St. Onge was in a small rocker before the kitchen range, the gas jets of which were open. The bodies of Douglas, 9, and Virginia, were on a couch near the mother. Mrs. St. Onge suffered from goitre. St. Onge formerly was a Menominee policeman.

Stripping himself to the waist and bracing himself against a shotgun propped against a table, John Tricell 50 years old, a farmer, shot and killed himself at his home, north of Oakley, after a quarrel with his wife. The shotgun charge entered his heart. Before shooting himself he threatened death to his wife, she told neighbors. During the struggle, Mrs. Tricell said, he choked her and tore off her dress. She broke away and ran to the home of a neighbor. He had told her, she said, "Either you kill me or I am to kill you."

Because a hen knows her owner's voice, Lawrence Haleis, of Beulah, is in Ionia Reformatory to spend from one to five years. Sheriff J. H. Crawford and Mrs. Harry Smith started out following auto tracks after six of Mrs. Smith's chickens had been stolen. The tracks led to Haleis' farm. "Here, chick, chick, chick," called Mrs. Smith. Two barred rocks came running to her. At Haleis' trial, Judge Fred S. Lamb decided Mrs. Smith knew her poultry and sent Haleis to Ionia.

Fred Shoemaker, 30 years old, of Ottawa lake, 28 miles south of Monroe, committed suicide in the back seat of his automobile, which had been parked at the intersection of two dirt roads in Whitford township. Shoemaker had been overcome by carbon monoxide fumes. A 12-foot rubber garden hose was found attached to the exhaust pipe and thrust through an opening at the top of a window which had been securely plugged with a blanket.

Six persons, including four small children, were burned to death in Detroit when fire destroyed a two-family house at 1384 Catherine street. The victims were trapped in the upper flat. All were Negroes. They were: Mrs. Bertha Richardson, 57 years old; her son-in-law, George Hankins, 38; his two children, William, 7 and Freda May, 4, and two neighbor children, Leon Jones, 3, and his sister, Dolma, 2.

Floyd Stahl, 49 years old, an assistant engineer at the Olds hotel in Lansing, was instantly killed when he fell seven floors down the elevator shaft as he attempted to open a door in an adjoining cage. Stahl was standing on a cable underneath a cage when he lost his balance and plunged headlong to the bottom. The body struck on a steel ptn. Police officials worked nearly an hour to free the body.

Special permission has been granted by the Department of Conservation to dip smelt in the Stover Creek at Charlevoix by artificial light. Henry Fliske, county game warden, has been placed in charge to guard against brook and rainbow trout being taken. It is planned to clear a 30-rod stretch of the stream of all obstructions to make dipping easier and string electric lights along the bank.

A west side chain grocery store in Grand Rapids was held up for the third time this year and by a lone bandit. John Coyne, the manager, his wife and two clerks were in the store.

At a special school election Petersburg taxpayers defeated a proposal to buy a site for a new \$100,000 high school. If the proposal had carried it was planned to hold another election to vote bonds to build the school. The vote on the site was 70 to 78.

Isabel Gedrits, 4-year-old daughter of Mr. and Mrs. Charles Gedrits, farmers living near Grand Rapids, died recently from burns received when her clothing caught fire while she was watching a grass fire.

**STURDY-RICH MOTOR OILS**  
*Polarine-Iso-Vis*

**WHICH** do you favor? Both are good motor oils—rich and sturdy. Both meet the new motoring conditions of engines running hotter because of higher compression and faster driving.

Polarine has a record of twenty years of outstanding service. Many thousands of motorists demand it wherever they go. If you want a smooth running motor—use Polarine—drain and refill your crankcase every five hundred miles.

Iso-Vis is newer. No other oil like it. It has a constant viscosity. It will not break down—it will not thin out—it lubricates faithfully and well all frictional surfaces. It wears and wears and wears!

Many Iso-Vis enthusiasts drive for a thousand miles or more without changing oil. Iso-Vis is as efficient on the last mile as on the first.

The Standard Oil Company [Indiana] recommends both. Which do you favor?

Definition of Words

A dialectical word is one derived from a dialect, such as the Scottish word "fey," which means "prescient." An obsolete word is one no longer in use, such as the term "yolept," meaning "called." A foreign word is one which has not yet been incorporated into another language. An example would be "heimweh," meaning "homesickness."

CHRONICLE PRINTED ON CORNSTALK PAPER

Concluded from first page.

manufacturers that cornstalk pulp could be used only in hard-surfaced, semi-transparent papers, such as bond, proved to be premature. General adaptability of the pulp in the paper industry in practically every class of paper has been proved by tonnage runs in several of the leading paper mills of the Middle West.

The first run of a genuine newsprint stock was made at the plant of the Watab Paper Company, Sartell, Minnesota, on March 13. Cornstalk pulp, shipped from Danville, was blended with ground wood, 50-50, in a rotogravure paper. Part of the newsprint run was made with a complete substitution of cornstalk pulp for wood sulphite, in the proportion of 30 per cent cornstalk and 70 per cent ground wood. In some of the newsprint 7 to 8 per cent of wood sulphite pulp was included.

The cornstalk-ground wood sheet tested much higher in bursting strength and was equivalent in tensile and tearing strength to the Watab Company's standard newsprint. A roll of the cornstalk newsprint inserted in the press of the St. Cloud, Minnesota, Times a few hours after manufacture ran parallel with standard newsprint. There was no adjustment of ink. No difference in appearance of the two kinds of paper was distinguishable.

The still very limited quantity of cornstalk newsprint available is being sold by the Watab Company at an advance of only 25 cents a hundred pounds over the price of its standard news, the manufacturer believing that the quality justifies the price.

At the plant of the Oxford Miami Paper Company, near Dayton, Ohio, complete substitution of cornstalk for new wood sulphite pulp has produced a fine grade of book paper of 60 per cent cornstalk and 40 per cent reworked old paper. The cornstalk sheet tested 8 per cent higher opacity and better in every other respect than the all-wood book paper.

Champion Coated Paper Company, which has the largest coating mills in the world at Hamilton, Ohio, has made a fine grade of bond paper, and coated paper which cannot be distinguished from its best standard product, substituting cornstalk for 70 per cent of the wood sulphite pulp.

Hopper Paper Company at Taylorville, Illinois, made a tonnage run of cornstalk paper on February 12th in the presence of state officials interested in the bill to put all Illinois official printing on cornstalk paper as soon as enough can be produced. High grade book and bond papers were made with blends up to 85 per cent cornstalk.

Engineers and chemists of Cornstalk Products Company explain that the use of 100 per cent of cornstalk fibre would be practicable in a specially equipped paper mill, but that it would be necessary to make certain adjustments in standard paper-making machines to form the all-cornstalk sheet at the high speed essential to making paper economically.

Paper experts of the United States Bureau of Standards have established that 100 per cent cornstalk paper has qualities equal to or better than paper made from 100 per cent of sulphite, the best grade of chemical wood pulp. Sheets for tests were made under similar conditions.

THE WEEK IN THE STATE LEGISLATURE

Concluded from first page.

Establish and maintain airports has passed the House, only the first of several bills which are on their way through to make aviation safe for democracy.

The Governor sent a report to the legislature early in the week of the status and condition of the Chelsea cement plant, but made no recommendations as to its disposal. There are varied opinions as to what to do with the plant, which is not a paying venture owing to its distance from a source of supply, the local supply of material having been exhausted. A suggestion that the plant be moved to some available location elsewhere in the state, where material may be obtained, and the plant be modernized to make the continued employment of convicts profitable is being seriously discussed.

Talk of a probable date for final adjournment is heard among the leaders of the state congress, which is a good sign. Both branches are working overtime in getting lesser measures out of the way, but there is a lot of business yet to be done before the session closes. May 10 is the most popular date suggested but some of the optimists think it can be made a week earlier.

A joint committee of both houses is busy investigating charges made by Rep. LeLand that the utilities commission was not functioning properly. DeLand demanded an investigation and the commission promptly responded with a request that the investigation be made and most thoroughly. A report is expected within a couple of weeks.

The Senate is still scrapping over a capital punishment bill, which the committee seems unable to agree upon. Likely something along that line will come out from under cover of the judiciary committee blanket next week, but probably with fuzz from the blanket all over it.

The appropriation bills will be probably the principal topic of discussion next week, and they will likely go through in a hurry, because every detail has been studied and discussed in committee meetings and practically all details agreed upon. None of the educational institutions will get all they have asked for, but the cut will be equalized, so that all will be fairly treated so far as possible without making the tax burden too heavy.

The tobacco tax measure has been altered to apply only to cigarettes, on which a tax of \$2.00 per 1000 will be levied, if the Lennon bill goes through according to schedule.

The Macrea bill in the House asks that every automobile driver must carry at least \$10,000 liability insurance, unless he can satisfy the authorities that he is personally worth at least \$11,000.

The Senate has passed the fisheries bill, with an amendment which will allow smaller mesh nets in the Saginaw district for herring. The bill will now go back to the House for concurrence in the amendment and if the House refuses to concur the matter will probably go to a conference committee.

After a hot session in the House Friday morning the Turner Senate bill apportioning \$2,000,000 in aid of the poorer school districts in the state was passed, for the day at the Friday morning session and will be up again Monday. It provides that all districts in which school taxes are more than \$10 per \$1000 valuation will share in a pro rata distribution of the fund. This will help out the many rural districts of the state which are overburdened by school taxes. Each legislator was furnished a list of the school districts in his district which will benefit under the proposed appropriation.

The Peters corporation tax bill passed the House and if approved by the Senate will permit taxing of intangible assets held by out of state corporations.

The bill allowing the conservation commission to sell oil rights on lands was ditched, then resurrected and then passed, with an amendment that oil and mineral rights may be sold to the person holding title to the lands.

More than 100 obsolete laws were stricken from the statute books at one fell swoop, by the Haight bill.

The House Wednesday passed the bank and trust company bills which were prepared by the banking department. Said the bills will prevent the organization of any more so-called industrial banks. The most important change, according to the state banking department, will be the granting of trust powers to banks, without requiring them to set aside portions of their capital and surplus in separate funds for that purpose.

Congressman Grant Hudson made talks from the rostrums of both House and Senate Thursday. Later in the Senate he was scored by Senator Gansser for voting against a tariff increase on sugar from Cuba and the Philippines.

Senator Person has introduced a bill empowering the governor to appoint a commission to index Michigan laws from 1803 to the present time, something which sadly needs to be done.

The governor has signed the criminal code bill, but the Cuthbertson bill, which provides stricter penalties for liquor law violations, is still out of sight in a Senate committee.

OLD FOLKS SAY DR. CALDWELL WAS RIGHT

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles, or write "Syrup Pepsin," Dept. 4BB, Monticello, Illinois, for free trial bottle.

**A Puzzle.**

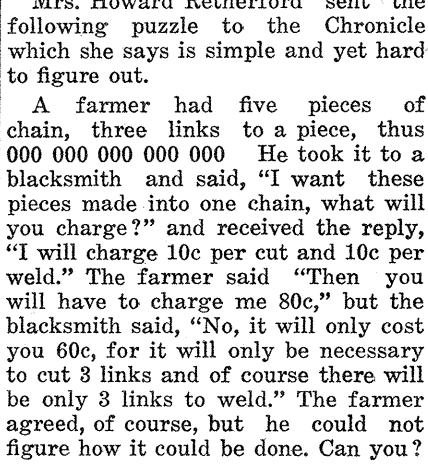

Mrs. Howard Retherford sent the following puzzle to the Chronicle which she says is simple and yet hard to figure out.  
A farmer had five pieces of chain, three links to a piece, thus 000 000 000 000 000 He took it to a blacksmith and said, "I want these pieces made into one chain, what will you charge?" and received the reply, "I will charge 10c per cut and 10c per weld." The farmer said "Then you will have to charge me 80c," but the blacksmith said, "No, it will only cost you 60c, for it will only be necessary to cut 3 links and of course there will be only 3 links to weld." The farmer agreed, of course, but he could not figure how it could be done. Can you?

**GREENLEAF.**

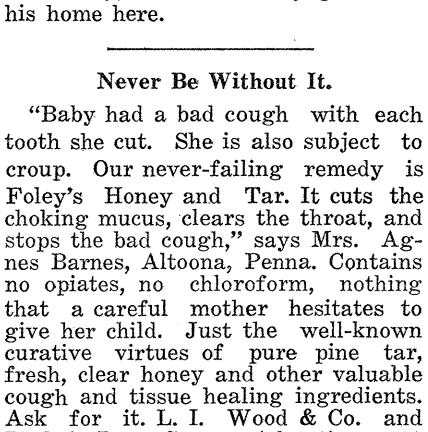

Phenomena of the week—hot waves, violent thunder storms, gales and near tornadoes that caused considerable destruction to farm property.  
Jos. Wrigglesworth is suffering from blood poisoning in his hand. He was taken to the home of Wm. Patrick, where he is being cared for until the arrival of relatives.  
Mrs. Anne McLeilan is still quite poorly at her home at New Greenleaf.  
Harold Anderson, who is employed near Ubyly, was a Sunday guest at his home here.

**Never Be Without It.**

"Baby had a bad cough with each tooth she cut. She is also subject to croup. Our never-failing remedy is Foley's Honey and Tar. It cuts the choking mucus, clears the throat, and stops the bad cough," says Mrs. Agnes Barnes, Altoona, Penna. Contains no opiates, no chloroform, nothing that a careful mother hesitates to give her child. Just the well-known curative virtues of pure pine tar, fresh, clear honey and other valuable cough and tissue healing ingredients. Ask for it, L. L. Wood & Co. and Burke's Drug Store.—Advertisement 1

**MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word genuine printed in red? It isn't the genuine Bayer Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:**

Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid

### Cass City Schools

Kindergarten—We are making umbrella booklets this week. These are shaped just like umbrellas and are fastened together with brass fasteners. We are writing words in these booklets which are descriptive of rainy April weather. Our room is filled with lovely early garden flowers, and May flowers. We have finished our study of the woodpecker family and are now learning some of the other birds. We shall tell more about them later. We may write a little booklet about our bird friends which we shall publish soon.

First Grade—The familiar lines, "Rain, rain, go away," and "April Showers" keep coursing through our little heads with the line, "bring May flowers", as the one consoling feature. Our robins we made look very much as if any moment they might burst in a spring song. Arabella and Joan, our little doll visitors, seem to enjoy us, much as they refuse to express themselves. Our only clue is the broad smile covering their otherwise passive countenances. As a means of protection, we have made ourselves an umbrella. The colors range from sky-blue pink to a lustrous black.

Fifth Grade—We are studying the continent of Africa in geography. Several interesting Indian relics have been brought in by members of the class as a result of our study of Hiawatha in reading. The hygiene class made posters to emphasize the need of war upon flies. We completed our spelling contest this week with the Buick as winner. Betty Pinney, Lloyd Donnelly, Helen Doerr, Gilda Gemmill and Helene McComb were the winners.

Commercial—The District Short-hand and Typewriting Contest will be held in Midland, Saturday, Apr. 27, 1929. Students will be entered in both shorthand and typewriting events. Elimination contests are being held in the classes this week to determine who the entrants are to be. A bronze medal was presented to Minnie Sutton by the L. Smith Typewriting Co. this week as reward for typing forty words a minute for fifteen minutes.

Science—The eighth science class have started their study of electricity. We began with the different kinds of batteries. The simple cell, the dry cell and finally the storage battery. During the thunder storms of last week, the question of lightning was brought up and discussed. This involved static electric. Robert Allured gave us a report on the kinds of lightning and Leonard Elliott told us about the electrical storms around the Woolworth Building, and then talked about positive and negative charges on objects and how they work. This week we are finding out how a generator generalizes electricity and in a few days we will wire some simple circuits.

BETTER CHICKS—We know that some hatcheries sell chicks for less money than we have to charge for "Better Chicks," but we also know that cheap chicks are expensive at any price. We know that husky healthy chicks of such high quality as "Better Chicks" are most always sold for much higher prices than we are now getting. Prices for April: Barred and White Rocks, Rhode Island Reds, Hollywood and Tanager White Leghorns \$14.00 per hundred, English White Leghorns \$12.00 per hundred, Mixed Chicks \$8.00 per hundred, 1/2c per chick less on orders of 500, 1c less on 1000 or more. Blood tested chicks \$3.00 per hundred additional. Custom hatching \$4.00 per hundred eggs. Beechwood Hatchery, Mayville, Michigan. Phone 9. 3-29-1f

I DESIRE to express my sincere thanks and gratitude to Mr. and Mrs. M. B. Auten, Mr. and Mrs. C. M. Wallace, the Church of Christ, the Adult Bible class, the W. C. T. U., the Rebekahs, the Art Club, and Mr. and Mrs. Stanley Asher, for the beautiful cut flowers and plants; also the Jolly Farmers' Club for the generous box of fruit and other good things, and to all who sent post cards or in any way helped to make my stay at the hospital pass more pleasantly. Your kindness will never be forgotten. Mrs. Robt. Warner.

CARD OF THANKS—I am very grateful to neighbors for their many acts of kindness during my illness; also the Evangelical Ladies' Aid for box of fruit. G. E. Krappf.

IN LOVING memory of our little loved one, Walter Louis, who has gone on before us one year ago today, April 11, 1929.

While affliction's surge is o'er you, Look beyond the dark'ning wave; See a brighter scene before you; Hail the triumph o'er the grave. Tho' our darling child is taken From our bosom to the urn; Soon the sleeping dust will waken And its spirit will return. Yes, again we will behold him, Fairer than the morning ray; In our arms we will enfold him, When all tears are wiped away. Oh, the pearly gates were opened, And a gentle voice said come; As the arms of our dear Savior Took our darling baby home. Oh, the loved words of our darling Prompted by our Savior's love, As that little voice was pleading, "Oh, please meet me up above." Yes, my darling, we will meet you, Where there is no cause to weep; Thus the promise we have made you, By our Savior's help we'll keep. His loving parents and brother, Mr. and Mrs. Oscar K. Hendrick and son, Lyle Gordon.

CARD OF THANKS—We are very grateful for the many expressions of kindness and sympathy by neighbors and friends at the time of our bereavement in the loss of our dear father, David Brown. The Family.

Test for Eggs The shell of a new-laid egg has a soft "bloom," which is the visible sign of perfect freshness. This bloom is destroyed by a touch, and in any case disappears after a few days' exposure to the air. After that the appearance of the shell is not a reliable indication of the condition of its contents.

HOSPITAL NOTES. Miss Beulah McRobbie of Kingston was operated on for removal of tonsils Wednesday. Maxine, daughter of Mr. and Mrs. Carl Hendrick of Cass City, was brought to the hospital Friday and underwent an emergency appendix operation the same day. Mrs. Mary Price of Cass City entered the hospital Friday and underwent an operation Saturday morning. Lyle Penfold of Deford entered on Tuesday and was operated on the same day for emergency appendicitis. Miss Thelma Palmer of Cass City was brought to the hospital Tuesday and operated on for emergency gangrenous appendix. Bert Campbell of Caseville entered Tuesday and underwent a serious operation for exophthalmic goiter Thursday morning. Arthur Hartwick of Flint was operated on Tuesday for removal of tonsils. Mrs. Sheldon Peterson and Mrs. Edward Sutton of Cass City, Kenneth McNeil of Bad Axe, Eugene Mileski of Kingston, Mrs. Frank Krueger of Deford were able to leave the hospital since last week. William Faegan of Cass City is still a patient. Early Bible Translation The first translation of the Bible of any literary value, into the popular or Latin tongue was the translation of St. Jerome in the reign of Pope Gregory. This version is known as the "Vulgate." St. Jerome commenced the translation in 382 and the work was practically finished in 390 A. D. There are comparatively few statues of women except those of goddesses or symbolical figures. Joan of Arc is probably the most popular subject. There are also famous statues of Cleopatra, Beatrice, Cenci and Frances E. Willard and a group of portrait busts of Lucretia Mott, Susan B. Anthony and Elizabeth Cady Stanton.
