TURNER BILL AWAITS GOVERNOR'S SIGNATURE

Every school district in Michigan having an enrollment above the state average and having a school tax rate of more than ten dollars per thousand dollars of assessed valuation will receive aid from the general treasury of the state, if the Turner Bill becomes a law. At least 37 districts in Tuscola county, and this includes practically all districts having high schools as well as several rural schools, would derive benefit from the proposed law. It is estimated that approximately \$25,000 would come through this source to Tuscola county schools each year if the bill becomes a law. Eighteen school districts in Sanilac county would receive approximately \$6,500.00 each year as benefit if the bill receives the governor's signature, while 21 districts in Huron county would receive nearly \$17,000.00, it is estimated. The Turner bill, known as Senate Bill No. 225, passed the House by a vote of 86 to 5 and passed the Senate as amended by a vote of 20 to 8. It is now awaiting the governor's signature.
