MAY 13 AND 14 ARE

Citizens Are Urged to Tidy-up Property in a Spring Clean. ing Campaign.

Clean-Up Proclamation.

May 13 and 14 are hereby proclaimed as "Clean-up Days" in Cass City.

On these two days every citizen should do what is necessary to make Cass City a place more beautiful and at the same time more healthful.

A sense of pride in a neat, orderly town, especially during the season when thousands of tourists are passing through and getting their impression of Cass City from the "looks" of it, should make every person here eager to have his own yard unlittered and his house and garage looking neat and trim.

> GEO. W. WEST, Village President.

Monday and Tuesday, May 13 and 14, have been designated as Clean-up Days by the village council who are anticipating hearty co-operation in the spring clean-up of village proper-

ASK EXTENSION OF M-81, FROM M-53 TO M-19

Greenleaf and Austin township residents are interested in circulating a petition addressed to Grover C. Dillman, state highway commissioner, asking for the extension of state trunk line road M-81, from M-53 east to M-19. This extension, the petition states, would make direct connection for traffic going west from Sanilac county.

Supervisors to Place Figures Before State Tax Commission.

A meeting of representatives from the Board of Supervisors of Sanilac. Lapeer, Tuscola, St. Clair and Huron counties took place in the Sandusky court house May 4. The purpose was to make plans for lowering valuation of the Thumb. After talks by State Representative Goodwine, Supervisors Alexander of Sanilac and Burr B. THE mails must go. That is why the Uni-I versal Aviation Corporation, operating fleets of passenger and mail planes between Chicago, Kansas City, St. Louis, Omaha, Indianapolis, Cleveland and Louisville, choose Stanolind Aviation products to protect their great Wasp and Hornet engines against friction.

The determining factors resulting in this choice were: Quality of Oil and Specialized Lubricating Service.

You may not be interested in airplanes but you gain the advantages to be derived from the work of these lubrication specialists when you use

POLARINE

They are exceptional motor oils that hold up under the most trying conditions. They are both sturdy and rich. They maintain protecting cushions of oil on all bearing surfaces. They make the engine run smoothly and keep it from wearing out.

Polarine is effective and economical. The Standard Oil Company has kept it abreast of developments and recommends it to you to give maximum lubrication at minimum cost. Use Polarine and drain the crankcase every 500 miles.

Iso=Vis is the most advanced of motor oils because it will not thin out and because it wears and wears and wears - frequent draining of crankcase is not necessary. Motorists drive 1,000 to 2,000 miles without changing Iso=Vis and every bearing is lubricated correctly on the way.

Use either Polarine or Iso=Vis. You'll save yourself worry and trouble. You'll save your money. You'll save your car. The Standard Oil Company [Indiana] recommends both Polarine and Iso=Vis. Buy the grade for your car.

MOTHER'S DAY.

Many thoughts come to us on Mother's day, of those dear women to whom we individually owe our lives, plished in the world:

One thought that could well be kept and sympathy of motherhood. When Mrs. Clem Tyo. all the world turns against anyone, the mother is always loyal. She can always find excuses for the things the children do. If they have been faulty and imperfect and even harmful to the community, the mothers usually blame themselves. They children would have come out entirely worthy citizens.
