

## 200 ATTENDED THE DILMAN SCHOOL MEET

Former Teachers and Pupils Renew Friendships and Exchange Reminiscences.

The annual reunion of the Dillman school was held Saturday, July 13, with 200 people attending. A basket picnic was held at noon in the school building, 1 1/2 miles west of Cass City.

After dinner, a short business session was held. J. D. Tuckey presided and opened the meeting with a jovial talk. It was decided to hold the 1930 reunion on Saturday, July 12. Officers elected were: President, J. D. Tuckey; vice president, Mrs. Harriett Boyes; secretary-treasurer, Miss Beryl Koepfgen. The company then sang "America" and the Lord's Prayer was said in unison. B. A. Elliott and son, Leonard, gave several selections on Hawaiian guitars.

The program was then turned over to the chairman of the program committee, Mrs. A. J. Knapp, who gave greetings. Mrs. Knapp was a former teacher at the Dillman school and found fifteen of her pupils present at the reunion. Mrs. John McLarty, also a former teacher, gave a short talk. She found that eight of her pupils were present. There were 13 of Miss Martha McArthur's pupils present. Miss McArthur gave a few remarks. The present teacher, Miss McEldowney, had 34 of her students at the meeting.

Two-minute talks were given by Harry Tims of Detroit, W. J. Nash and Mrs. W. J. Nash of Saginaw, Willard Wells of Flint, Elmer Randall of Lansing, Mrs. Charles Richter of Bay City, Fred Reid and Mrs. Frank Dillman of Detroit, and Allen Bickford of California.

Greetings were read from Armand McBurney, Maidstone, Sask.; Mrs. William Grills, Great Falls, Montana; Herbert Prentiss of Detroit and several short messages from others. Mrs. Jane McBurney and Mrs. P. A. Koepfgen represented the former parents and gave short talks.

The president appointed Miss Beryl Koepfgen and Audley Kinnaird as a committee to use the money left after all expenses were paid to buy a gift for the school. W. J. Nash, Miss Martha McArthur and Charles Travis were appointed to write a history of the school. After community singing all joined in the games. The following is a list of the winners in the various events:

Race for boys under 14 years—1st, Donald Reid; 2nd, Homer Randall.  
Girls' Free-for-all—1st, Elaine Reid; 2nd, Jessie Wilson.  
Men's Free-for-all—1st, Ronald Reagh; 2nd, Maynard McConkey.  
Fat men's race—1st, Fred Reid; 2nd, Emory Lounsbury.  
Fat women's race—1st, Helen Elsey; 2nd, Mrs. Wm. Flint.  
Boys and Girls' under 10 years—1st, Elaine Reid; 2nd, Eugene Wilson.  
Girls' gum chewing contest—1st, Florence Flint; 2nd, Helen Elsey.  
In the ball game, Lloyd Reagh's Giants defeated Ernest Goodall's Stars by a 21-19 score.

## TEN FT. POWER BINDERS BEING SOLD TO FARMERS

The use of tractors in this community is making possible the use of larger harvesting machines on the farms. These heavier and more powerful binders are gradually being added to the equipment of Thumb farmers.

Two of the 10-ft. power binders have been purchased here recently, one by Wm. McKenzie of Elkland township and the other by Joseph Young of Owendale.

It is estimated that the larger sized machine working under favorable conditions will do three to four times the work of a 6-ft. horse-drawn binder, which has been the standard size machine for many years.

## ALFALFA SEED MEETINGS IN TUSCOLA

Alfalfa seed has come to be an important cash crop, with some farmers. More could grow it. Meetings relative to growing and handling alfalfa seed will be held as follows:

Monday, July 22, at 1:30 p. m.—Bruce Brown farm, 3 1/2 miles west of Cass City.

Tuesday, July 23, at 1:30 p. m.—Dorr Perry farm, 1 1/2 miles west of Elmwood store.

Wednesday, July 24, at 1:30 p. m.—Fred Dehmel farm, 1 mile east and 1 south of Unionville.

Ralph Morrish, crops specialist from Michigan State College, will be present. Weed eradication by newer methods will also be discussed. Farmers are requested to bring along any weeds they want identified.

Advertise it in the Chronicle.

## URQUHART FAMILY IN ANNUAL REUNION

The annual reunion of the Urquhart family, held Sunday at the home of Mr. and Mrs. Fred Emigh, 8 miles east and 1 1/2 miles south of Cass City, was attended by 43 members of the family. A picnic dinner was enjoyed in the beautiful grove on the farm. The day was also a celebration of the birthdays of Leonard Urquhart of Pontiac and Oakley Phetteplace of Ypsilanti, son and son-in-law of Daniel Urquhart of Cass City. Guests were present from Ann Arbor, Ypsilanti, Northville, Royal Oak, Detroit, Snover and Cass City. George O'Neil of Detroit was elected secretary of the gathering. The day was spent in a general good time with visiting and games. The 1930 reunion will be held at the same place and about the same time.

## MICHIGAN LEADS IN BEAN ACREAGE

Land Planted to This Crop Is 37% of Total Bean Acreage of Nation.

The usual interest centers around the bean industry in Michigan at this time of the year as the growing crop attracts the eye of the observer traveling through the state's farming districts. For several decades the state has devoted more acreage to and produced more bushels of beans than any other state according to a statement from the office of the Federal-State Cooperative Crop Reporting Service. It leads again this year with 646,000 acres, its nearest competitor, California, reporting only 291,000 acres. Other leading states are: Colorado with 278,000, New Mexico with 210,000, New York with 100,000, Idaho with 92,000, Montana with 49,000, and Wyoming with 22,000 acres. Thus, Michigan's acreage is 37 per cent of the total for the entire country. The combined planted area in all states amounts to 1,737,000 acres, which is a gain of 10 per cent over last year's harvested acreage and 12 per cent over the average of the previous five years.

The condition is normal or above in the eastern and central states but is somewhat below the average in the western states due to a late season and lack of moisture. The present outlook, if maintained to the end of the season would give a total production of 18,223,000 bushels. This is 1,593,000 bushels more than produced in 1928 and 1,165,000 bushels more than the average for the preceding five years. With an almost complete clean-up of stocks from last year, such a production seems well justified and should not lower prices to an unprofitable level. However, an estimate of production on July 1 may vary considerably from the final results according to weather conditions during the remainder of the season are better or worse than average.

## BANK BANDITS GOT \$5,000 AT VASSAR

Three Robbers Held Up Employees of Michigan Savings Bank Saturday.

While one bandit stood guard at the door of the Michigan Savings Bank of Vassar and another waited in an automobile at the curb, a masked bandit thrust a revolver in the face of T. C. Chrysler, teller, about noon Saturday and greeted him with the remark to "Hand over all the big bills and make it snappy!" The robbers made way with nearly \$5,000.00 a check-up of the bank's funds revealed.

As the bandit shoved through the wicket a leather pouch, instructing the teller to fill it with "big bills," he also ordered Mrs. Pearl Chrysler, wife of the teller, and Miss Genevieve Wilson, both of whom are employees in the bank, to lie on the floor. Both women crouched behind the partition around the banking cage and saw little of what transpired.

While Mr. Chrysler was filling the leather pouch with currency of varying denominations from \$1 to \$20, the bandit kept up a running fire of conversation, according to Mr. Chrysler. "He tried to impress me how 'hard' he was," the teller said. "He said he would shoot if I made any false moves. He claimed he was from Detroit. I did everything he told me to do."

When the pouch was jammed with currency, requiring in the neighborhood of three or four minutes' time, Mr. Chrysler said the bandit told him to shove it through the window. Because of its bulkiness, the pouch would not go through the slot and Mr. Chrysler was forced to open the wicket to give it to the bandit.

The robber seized the pouch, Mr. Chrysler said, and backed out. At the door he was joined by his companion, who had stood watch during the hold-up. Mr. Chrysler said no one attempted to come into the bank while the hold-up was in progress.

When the bandits reached the door, both turned and ran, according to Mr. Chrysler. He heard the motor of their car start with a roar and followed in to the street. The trio drove west out of Vassar.

The robbery of the bank occurred while William J. Spears, its president, was seated in his private office talking with his wife and daughter and was unaware that his employees in the front office were being forcibly relieved of some \$5,000 of the bank's funds. On Mr. Spears' desk lay a 45-90 rifle and plenty of ammunition was close at hand.

Two suspects, who said they lived in a houseboat on the Cass river at Saginaw, were picked up in that city Tuesday night. Employees of the Vassar bank were unable to identify them Wednesday.

Because the gunmen used a Saginaw car in making their getaway from the institution after the robbery, suspicion naturally was aroused that the robbers were from Saginaw and were familiar with driving conditions between Vassar and Saginaw.

The bandits used a Hudson sedan in escaping from Vassar and this car, which had been stolen earlier in the day in Saginaw, was found about half an hour later, abandoned about three miles west of Vassar.

## ELLINGTON SCHOOL TO HOLD FIRST REUNION

A reunion of former teachers and pupils of School District No. 1, Ellington township, together with present residents of the district and their children will be held at the school house, one mile east of Ellington store, on Saturday, Aug. 3. A pot luck dinner will be served at noon.

## OIL COMPANY HAD PROSPEROUS YEAR

Pays 10% Dividend and Adds \$3,500.00 to Their Surplus Fund.

Three hundred people attended the annual meeting of the Cass City Oil and Gas Co. held at the Pastime Theater on Thursday evening, July 11, when annual reports were read and directors of the company elected.

Profits for the year ending July 1 were \$7,011.99 and equipment to the amount of \$1,885.00 was added to the company's holdings. A cash dividend of 10% was paid to stockholders and \$3,500.00 added to the surplus. This brings the total surplus of the company to \$18,869.10.

The company did \$2,000.00 less business in dollars and cents, Severance. Mr. Severance was chosen to succeed himself. Other directors on the board are M. B. Auten, Bruce Brown, Chas. E. Hartsell and Louis Travis.

Those attending the annual meeting were served with fried cakes and individual cartons each containing ice cream, a napkin and a spoon. The refreshment committee had their work so well organized that the 300 people were all served inside of ten minutes. Moving pictures on the screen were enjoyed by the audience at the close of the evening's program.

Mr. Warner, manager of the company, says that June 1929 is the banner month in the company's history. During that month, gasoline to the amount of 50,184 gallons was sold. Allowing 3% for waste and shrinkage, the gas tax on the remainder was \$1,462.00.

## UNIONVILLE COW IS AN UNUSUAL MILK PRODUCER

On the farm of Mrs. Bertha Wallin, south of Unionville, is a Holstein cow that must be milked three times daily. The animal gives more than 100 pounds of milk each day, her best day's record thus far being 105 pounds or more than 50 quarts. At the price paid for milk by town customers, this production would bring more than \$6.00 per day. The cow is less than six years old.

## MONEY FOR COUNTY FUNDS.

Orlo McDurmon, Tuscola county treasurer, has received a check from Lansing to the amount of \$14,094.63, this amount being part payment of the first quarter of the weight tax. The money goes in the county road fund. There was received from the county road commission the amount of \$11,332.17, which also goes into the county road fund.

Wm. Imerson, justice of peace, turned over to the county treasurer money received for fines to the amount of \$22.00. Two dollars of this goes into the general fund. The other \$20 goes into the library fund.

## THUMB DISTRICT NEWS PARAGRAPHS

Items Gleaned from Newspaper Exchanges and Other Sources.

Henry Prentiss, cashier of the bank at Argyle, has resigned his position and will enter the Pioneer bank at North Branch as assistant cashier on August 1st.

The county road running west one-half mile from the corner one-half mile south of Pigeon and thence three miles south on the Pigeon-Owendale road will be re-built this couple of weeks. This road will be twenty feet wide and will be of water bound macadam with a tar top. The work will be done by the County Road Commission and will be completed this year.

Suit for damages of \$7,500 for the alienation of the affections of his wife, Evelyn Weisenbach, has been filed in circuit court at Bad Axe by William Weisenbach of Sebewaing against August Anderson of Sebewaing. Mrs. Weisenbach had previously filed a suit for divorce from her husband, claiming cruelty. In Weisenbach's cross bill he claims the defendant in his suit for damages is responsible for his wife's action. Mrs. Weisenbach denies the charges in the cross bill and asks that it be dismissed. The couple have eight children.

Thursday, July 25, is the date set for the Tuscola county farmers' and business men's picnic sponsored by the Farmers' Clubs, Farm Bureau, Grange and Gleaner organizations of county co-operating with the Caro Board of Commerce. The picnic will be held at the Caro fairgrounds. A county horseshoe tournament will be held in the forenoon, basket dinners at noon, and a program of addresses and music in the afternoon, followed by athletic events.

## THANE GROUP WIN BY NARROW MARGIN

Four horseshoe pitchers from Fairgrove and a like number from Gagetown were visitors at the local courts at the City Park Tuesday evening. Visitors and local players divided into two groups, with Captain Ezra Kelley and Capt. Thane as leaders of the two divisions. The Thane group were victors with the long end of the 782-700 score of the evening.

## CALF WILL BE GIVEN TO GUERNSEY CLUB

The Guernsey Calf Club of Cass City will be presented with a male calf within the next few weeks by the Belle Isle Creamery Company of Detroit.

In a letter to Willis Campbell, local club leader and agricultural instructor in the Cass City High School, an official of the company writes under date of July 15 as follows:

"As per our agreement, we have purchased a male calf to be given as a prize to the members of your Guernsey Calf Club.

"He was born November 23, 1928. His dam is now on test and should finish with approximately 13,000 pounds of milk and 600 pounds of butterfat. She is a type cow with an excellent udder, and is all right to be the dam of a herd bull. This calf closely follows the Sequel and Valentine lines."

Advertise it in the Chronicle.

## DECIDED IMPROVEMENT IN CROP CONDITIONS

Average Michigan Winter Wheat Crop Is Predicted; Large Acreage of Beans.

The general outlook for Michigan grain and hay crops on July 1 was generally satisfactory. Following the extremely wet weather in April and May, June was drier than usual and several extremely warm days hastened growth. While corn, oats, barley, rye, sugar beets, and potatoes were below average in condition, they made decided improvement in the last two or three weeks prior to July 1. The total acreage in crops is slightly greater than last year, the excess being chiefly in hay which has increased nine per cent and beans which show a 20 per cent increase over last year's harvested acreage. The wet spring prevented the planting of the usual acreage of oats and barley, the former showing a reduction of eight per cent and the latter five per cent. Potatoes brought a low price last year and farmers have reduced the acreage approximately nine per cent. The condition of all tree fruits declined very materially during June according to the reports received from fruit growers by Herbert E. Powell, commissioner of agriculture and Verne H. Church, agricultural statistician. This slump in fruit prospects was predicted in the official report of June 1, the reason for which was the extremely cold weather which prevailed during the blooming period.

The outlook for corn is not quite as good as last year, the estimate of 46,308,000 bushels being about 4,000,000 bushels less than was grown in 1928. Planting was rather late in getting under way and early growth was slow, but the crop has made a considerable gain during the last two weeks.

Michigan's winter wheat crop will be approximately the same as the ten-year average, the estimated production being 16,707,000 bushels or about 18 bushels per acre. Owing to the lower condition and reduced acreage of oats and barley, these crops will be considerably smaller than were raised in 1928, the estimated production of oats being 45,420,000 bushels and of barley, 6,441,000 bushels. The rye crop is estimated at 2,258,000 bushels which is a trifle less than that of last year.

Notwithstanding the fact that the 1928 acreage of Michigan potatoes was only two per cent above normal the low price discouraged growers and some of them have reduced their acreage this year. The estimated area planted is 278,000 acres. The July 1 condition was reported at 84 per cent of normal which is equivalent to a total production of 30,358,000 bushels on this acreage. The acreage for the United States has been cut approximately 12 per cent which reduces the production in comparison with last year by 85,000,000 bushels. With an estimated crop for the United States of 379,000,000 bushels the price outlook for potato growers is the best in several years.

The average of beans planted in the United States is 10 per cent larger than the area harvested last fall. This gives an indicated crop of 18,223,000 bushels as compared with 16,630,000 bushels in 1928. The acreage in Michigan is 20 per cent larger than harvested last year but only about eight per cent more than was planted, there having been a large area abandoned because of bad weather in portions of the state last year. The indicated crop is 7,054,000 bushels against a production of 5,918,000 one year ago.

Our hay crop has an average condition of 86 per cent equivalent to a production of 4,881,000 tons. Not only is the acreage considerably larger than last year but the yield per acre is expected to be above normal. Much of the hay crop has already been secured. Weather conditions have interfered to some extent with haying but have not caused serious damage over any extensive district. The stands of clover are excellent this year in most sections.

During the past month the condition of apples dropped from 78 to 54 per cent; peaches from 65 to 51 per cent; pears from 50 to 36 per cent; plums from 54 to 37 per cent; and cherries from 67 to 47 per cent. These marked reductions were the result of cold weather prevailing generally during the blooming period. This was especially true in the southern half of the fruit belt. In the northern half various causes contributed to a considerable drop in fruit prospects. It now appears that all of the tree fruits will have a smaller production in Michigan than last year. Most of the small fruits will have a normal production or about the same as last year.

Mr. and Mrs. H. Reis of Buffalo, N. Y., are guests of Mr. and Mrs. Frank Cranick for a few weeks.

# Michigan Happenings

A small zoo will be established in the rear of the new University of Michigan Museum, Dr. Alexander G. Ruthven, director of the museum, announced at Ann Arbor. The zoo in the center of a small park between the two wings of the museum, was made possible through a gift from an anonymous donor. "We already have a fine family of racoons, and a group of skunks to place in the zoo," Dr. Ruthven said. "We also plan to have a badger, a wolverine, a bear cub and other animals."

Section men of the Detroit, Toledo and Ironton railroad, formerly owned by Henry Ford, Detroit automobile manufacturer, have been given notice that their wages will be reduced 40 per cent, according to a report received at Monroe. This ruling also applies to construction workers on the cut-off between Durbin, Monroe county, and Malinta, Ohio. The road was recently acquired by an unnamed purchaser, one report being that the Pennsylvania railroad had bought the line.

An appropriation of \$38,750 for Mackinac Island state park, made by the legislature two years ago, was saved for future use at a special meeting of the administrative board at Lansing. The board made the money available for improvements to land and buildings. All appropriations of the 1927 legislature, which have not been made available before July 1, automatically revert to the general fund as a new fiscal year begins July 1.

Does a partridge swim? Yes, indeed, says John C. Briggs, conservation officer at Clare. Several days ago Briggs flushed a young grouse which lit in a small pool of water. "It swam to shore like a duck, shook itself off and ran into the grass and hid," Briggs added. "Furthermore, it seemed to enjoy the experience." Many big broods of young birds are found in the area surrounding Harrison, the conservation officer revealed.

Lasting only a few minutes, a terrific windstorm, coming from the southwest, recently, swept across the western half of Lenawee county, near Adrian, and left in its path wrecked homes, barns, uprooted trees and wreckage-blocked highways and streets. Striking the eastern half of the village of Medina, it ripped through 13 buildings, the loss being estimated at \$40,000.

Two men, convicted of catching 45 trout on a closed stream, most of which were less than the legal length, were given a unique sentence by Justice Wesley B. Covey at Honor. After fines and costs of \$89 each had been imposed, the offenders were given the alternative of spending 90 days in jail, or going to church every Sunday for the same period. They chose the latter.

Hazel Bonzelaar, 4-year-old daughter of Harry Bonzelaar, of East Saugatuck, is dead of burns received in a gasoline explosion. Her father was filling the tank of a machine with gasoline, while the motor was running. The gasoline exploded and Bonzelaar threw the can from a window and struck the child, who instantly was enveloped in flames.

Elmer Gerstner, 12-year-old son of Mr. and Mrs. Nicholas Gerstner, of Menominee, was drowned while his companion, Jose Woznick, 13, swam to safety when their raft upset a short distance from a dock on the shore there. Jack Woznick, 10, who pulled his brother to the dock, said Elmer swam to within five feet of the dock before he sank.

James Ryan, of Manistee, 24 years old, escaped jail there by unscrewing the nuts from the bolts to the County Jail door. He carried the nuts away with him. Ryan was arrested May 27 after the entire police force and several members of the fire department were summoned to overpower him. He was sentenced for 90 days for intoxication.

Armed with his deer rifle, Abe L. Lawrence, of Grand Rapids, 64 years old, killed his wife, Mrs. Maude Lawrence, 53 years old, fatally wounded his daughter, Celia Lawrence, 22 years old, and then turning the weapon upon himself, ended his own life.

Thomas P. Henry, of Detroit, was re-elected president of the American Automobile association for the seventh successive year, at the annual convention held in Buffalo this year.

Philip Fisher, 65 years old, a well known farmer of Bedford township, fell 10 feet from a cherry tree and suffered a broken spine and other injuries from which he died later at the Monroe hospital.

A chain of state owned airports will be established by the new board of aeronautics, it was indicated at the board's first meeting held in Lansing recently. The meeting was called for the purpose of organizing, and no formal action was taken, except to elect William B. Mayo, chief engineer of the Ford Motor company, chairman. The proposal to construct landing fields, at state expense, at strategic locations resulted from a suggestion by Governor Fred W. Green that the board take over the operation of Lansing's airport, which is on state property.

Making a ladder of himself, Mayor John H. Rademaker, of Manistee, millionaire financier, rescued Esther Derzanski, 12 years old, from Lake Michigan. The little girl fell from the breakwater and was clinging to the edge of the wall calling for help when the mayor and Mrs. Rademaker passed. The mayor crawled down over the breakwater and hung his feet into the water so little Esther could crawl up his back to safety. He then took her home.

A 50 cent bet cost Fred W. Gaskins, 28, of Pontiac, his life, according to police. Gaskins was fishing with Clyde Weideman, in Morgan Lake. He wagered Weideman 50 cents he could hit a cork bobber with the .22 rifle he had with him. He stood up to aim but lost his balance when he fired. The boat overturned, Weideman clung to the boat until rescued but Gaskins made an attempt to swim to shore. The body was recovered.

Luther merchants closed their stores recently to give aid in fighting a fire endangering the business section. As many as 15 fires were caused at one time by sparks carried from the home of Roger Fairbanks, which was destroyed, and from the home of Clyde Streeter, father of eight children, which was damaged. The state fire truck was brought from Baldwin to aid in extinguishing the blaze.

NOTICE OF LETTING OF DRAIN CONTRACT

Notice is hereby given, That I, Conrad Mueller, County Drain Commissioner of the County of Tuscola, State of Michigan, will, on the 22nd day of July A. D. 1929, at the North-east corner of Sec. 27 in the Township of Novesta, in said County of Tuscola at 10 o'clock in the forenoon of that day, proceed to receive sealed bids for the construction of a certain Drain known and designated as "Gaspie and Branch Drain"

located and established in the Township of Novesta, and traversing Sections 22, 23, 25 and 26 in said Township, in said County of Tuscola.

Said drain is divided into one section as follows, said section having the average depth and width as set forth: All stations are 8 rds. apart. Section No. one, beginning at Station Number 0, at lower end of Main Drain and extending to station No. 118, a distance of 944 rods, and beginning at station No. 0 on Branch, and extending to station No. 23, a distance of 574 rods, having an average depth of 5.79 feet, and an average width of bottom of 5.50 feet, and estimated cubic yards of excavation 35,000.

The construction of said drain will include the construction of the following culverts and bridges having the location and of the type and size stated for which contracts will be let.

Bridge No. 1, located between sections 22 and 26, requiring 60 feet of 72 inch corrugated iron pipe, No. 12 gauge, and an estimated cubic yards of 1-2-4 reinforced concrete 18, for headwalls.

Bridge No. 2, located between sections 25 and 26, requiring 24 feet of 48 inch corrugated iron pipe No. 12 gauge, and estimated cubic yards of 1-2-4 reinforced concrete 14, for headwalls.

Bridge No. 3, located between sections 23 and 26, requiring 28 feet of 36 inch corrugated iron pipe, No. 12 gauge. Estimated cubic yards of 1-2-4 reinforced concrete 12, for headwalls.

Said job will be let in one section in accordance with the diagram now on file with the other papers pertaining to said Drain, in the office of the County Drain Commissioner of the County of Tuscola, to which reference may be had by all parties interested, and bids will be received accordingly. Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in the sum then and there to be fixed by me, reserving to myself the right to reject any and all bids. The date for the completion of such contract, and the terms of payment therefor, shall and will be announced at the time and place of letting and all persons desiring to bid on same will be required to deposit with their bid a certified check, in the amount of \$200.00 as a guarantee that they will enter into a contract if a successful bidder, and all checks of unsuccessful bidders will be immediately returned after contract has been awarded.

Notice is Further Hereby Given, That at the time and place of said letting, or at such other time and place thereafter, to which I, the County Drain Commissioner aforesaid, may adjourn the same, the assessments for benefits and the lands comprised within the "Gaspie and Branch Drain Special Assessment District," and the apportionments thereof will be announced by me and will be subject to review for one day from ten o'clock in the forenoon until five o'clock in the afternoon.

The following is a description of the several tracts or parcels of land constituting the Special Assessment District of said Drain, viz:

PROGRESS

"Well, this was a great day in the history of our institution," said the president of the bank, as he met his wife.

"Tell me about it, dear."

"The board of directors voted unanimously to double the size of the banking room so that we can have 25 brass 'next-window' signs, 10 more than any other bank in the state!"

"Force" and "Energy"

There is a difference in physics between force and energy. A force is considered as anything that produces or tends to produce, destroy or change motion. Energy is the capacity for doing work and it may exist in the form of motion, heat, sound, light, electricity, etc. This capacity may exist even though no force is being exercised.

When do the farmers want eggs?  
When egg prices are high—November, December, January.

Pullets fed through the summer on Purina Chick Growers and Intermediate Hen Chow will be giving you those high priced eggs.

Pullets that rustle for themselves won't. Why? Because Growers and Intermediate Hen Chow are balanced for growth and will bring your pullets to maturity sooner so they'll be ready to lay.

"What were you doing outside the Waldorf-Astoria the other day?"  
"I live there!"  
"Where?"  
"Outside the Waldorf-Astoria."

Hundreds of milk plants—many of them branches of the big national milk companies—are recommending Calf Chow. It brings more milk to them, and it helps their patrons raise good heifer calves. That's why they want them to feed it.

God's gift to the editor—The Scotchman.

Once you see the well-developed pullets and the extra eggs you get by feeding from the Checkerboard bag you'll never feed anything else but Growers and Intermediate

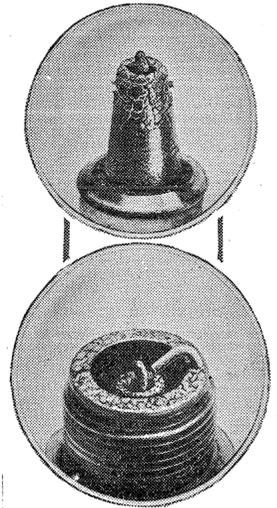

# OWNERS REPLACE CAR SPARK PLUG

## Annual Practice Has Advantages in Better Motor Work and Economy.

May 5 to 11 has been designated as National Change Week for 1929. During that time millions of motor car owners will replace the spark plugs in their cars with new sets, having learned by experience that the practice has advantages in economy and improved engine performance. One reason why spark plugs should be changed at least once a year is shown in the accompanying photomicrographs of a spark plug's electrodes after that length of service.

**Electrode Burned Away.**  
The center electrode is burned away. The ground electrode is likewise pitted and burned and its surface is no longer parallel to that of the center electrode. This results in a small spark, of no great intensity, and a gap setting altogether too wide for the spark to jump under load conditions, heavy pulls and rapid acceleration. Obviously, the corrosion means a weaker spark, a heavy loss of power and waste of fuel.

Exhaustive laboratory tests have proved that each spark plug fires its

These photomicrographs show what a spark plug looks like after firing an automobile engine twelve months. The carbon-crusted surface of the insulator and the pitted electrodes divert the current which is weakened and diffused instead of sending a hot intense spark across the gap, with the result that fuel and power are wasted. Engineers advise changing spark plugs at least once a year in automobiles and oftener in power plants of tractors, trucks and stationary engines.

charge more than 20,000,000 times in driving a car 10,000 miles. The intense heat, the ravages of chemical reactions which are set up and the tremendous mechanical shock to which spark plugs are subjected in such an ordeal inevitably take their toll.

**Encrusted With Carbon.**  
The insulator becomes encrusted with bits of carbon. In time and with the aid of intense temperatures these carbon particles impregnate the surface of the insulator, causing a partial short circuit. The result in the case of the spark plug is a diffusion of current from the electrode, a consequent loss of intensity in the spark and of efficiency in engine operation.

Experiments of automotive engineers have shown that changing spark plugs every 10,000 miles, or once a year, not only saves their cost in gas and oil but restores in large measure new car power, speed and acceleration, with all the pleasure that any car owner derives from these features of his motoring.

### THE MOTOR QUIZ (How Many Can You Answer?)

Q. When and where was the first automobile race held?  
Ans. In Chicago on November 25, 1895. Six cars started from Jackson Park to Evanston and back again. The course was 54 miles and was run under unfavorable conditions, the road being heavy with mud and icy slush. Charles E. Duryea won in 10 hours and 23 minutes. Two cars finished.

Q. When a motorist discovers that his brakes are not functioning 100 per cent, what should he do?  
Ans. He should have them checked immediately both for safety and economy.

Q. How many motor vehicles are there in the United States?  
Ans. 24,592,370.

Q. How many motor trucks are there in the United States?  
Ans. 3,123,774.

### High Compression Term Is Tensely Explained

In the days of muzzle-loading cannon, the tighter the charge was packed with the ramrod the greater the force of the shot.

Similarly in the high-compression engine of today the gas charge is packed into a smaller space, with the result that when the spark plugs fire the compressed mixture there is greater force or power exerted on the pistons.

This greater power impact with attendant increase in heat, makes it necessary that the spark plug be of the correct type in order to avoid pre-ignition and rapid wearing out of the plug.

Another important pointer is that the plug gap should be set at .020 for high compression engines because as compression increases a greater resistance to the flow of electricity is set up and a narrower gap is necessary to enable the current to jump from one electrode to the other. Spark plugs may not deliver a spark unless the points are set at the proper gap and it is advisable to check the gap from time to time.

### Increased Adoption of Automobile Fuel Pump

Widespread adoption of the fuel pump during the past 12 months is among the important developments that have taken place in the automotive equipment field.

Prior to July, 1927, not a single car was equipped with a fuel pump of any kind. Today there are 30 users of it in this country and abroad, and this number will be greatly increased this year.

It is interesting to recall that the fuel pump which had been under test for many years, made its initial appearance in 1927. At present there are three-quarters of a million cars now in service equipped with the pump.

The fuel pump has really added another manufacturing activity to the industry, and its quick acceptance by many prominent car manufacturers together with a huge increase in other business has necessitated building expansions totaling three-quarters of a million dollars. These expansions when completed early this year, will further increase production facilities, which have been at capacity during 1928.

### AUTOMOBILE NOTES

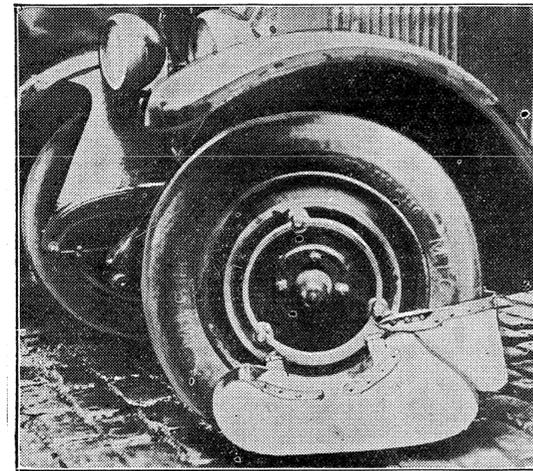

New auto license plates come clean. Keep them that way.

There are but ten motor vehicles in Bernuda. They know their onions!

Add anomalies: A champion flagpole sitter fell out of a remote seat and was injured.

The arrival of the first motor car in a remote village anywhere has a double significance. The moment after the car arrives the place is no longer remote.

### NEW ANTI-SPLASH DEVICE DEMONSTRATED

An anti-splash device, attached to the wheels of automobiles, which was successfully demonstrated in Parisian streets recently.

On Wednesday, the members of St. Agatha's church at Gagetown celebrated the 25th anniversary of the institution of their parish. At about half past ten, a procession was formed at the school house led by a cross bearer, then came little children dressed in white, followed by the priests who participated in the ceremonies. Rev. Fr. Krebs, of Fowler acted as celebrant and he was assisted by Rev. Fr. Turnis of Detroit and Rev. Fr. Crowley of Monroe, all of whom had been pastors at St. Agatha's. Several other priests from different parts of the state were also present. Rev. Fr. Stapleton of Bad Axe preached a short sermon and spoke of the history of the parish at Gagetown.

CHRIST FOR ALL—ALL FOR CHRIST
The Word of God
BIBLE THOUGHT AND PRAYER

Christ Teaches Us How To Pray.
Matthew 6:6, 7, 8. Jesus said: When thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly. 7. But when ye pray, use not vain repetitions, as the heathen do: for they think that they shall be heard for their much speaking. 8. Be not ye therefore like unto them: for your Father knoweth what things ye have need of, before ye ask him.

Konjola Routes Rheumatism and Catarrh Quickly

One Disease Held Sway for 15 Years and Other for 25; Former Sufferer Back on the Job.

"I can hardly believe I am the well man I am to-day," said Mr. Joe Lazarus, of Assaria Center, near Battle Creek, Michigan. "I suffered 25 years with catarrh and 15 years with rheumatism. My limbs, arms and shoulders were practically paralyzed. I was nearly deaf from the catarrh; my head roared and buzzed, and vomiting spells, because of mucus dropping into my throat, were frequent.

Mr. Joe Lazarus.

Four bottles of Konjola drove the rheumatism away, and now the catarrhal condition has totally disappeared. I am feeling fine for the first time in 25 years. Konjola put me back on the job again."
Konjola is sold in Cass City at Burke's drug store and by all the best druggists in all towns throughout this entire section.—Advertisement.

SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings. The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulences, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. B, Monticello, Illinois, for free trial bottle.

Marquette
\$965 to \$1035
"A Great Performer" the Marquette is being hailed, the nation over. Never before in a car of moderate price have there been such acceleration, speed, control, handling ease, roadability, flexibility, balance! Only Buick could offer such performance.
In Marquette you get an engine of remarkably large displacement. You get speed that holds an honest 68 or 70 miles an hour with unqualified ease, steadiness and security. You get acceleration of from 10 to 60 miles an hour in high gear in 31 seconds.
The Marquette is easy to own on the liberal G.M.A.C. terms. Come in and see this complete car. Take the wheel and learn the thrill of Marquette performance.

## A Farm Memory

I'd like to be down on the farm again,  
Where I used to go as a boy—  
And be in the spell of its charm again.  
Care-free, with a heart full of joy!  
How sweet are its mem'ries that call to me,  
And enter my heart like a dream!  
And sweetest, I think, of them all, to me,  
Are those of a little old stream.

A song's in my heart, as I tell of it—  
I'm out of the World of Today,  
And living again in the spell of it,  
As there 'neath the willows I play.  
I'm there with my cousins, who played  
with me—  
With "devilment" bright in our eye,  
And now, in the water they wade with me,  
With overalls rolled to the thigh!

And soon we are wet to the chin of us,  
Our shirt, and our tattered straw hat—  
We're wet, every inch of the skin of us,  
But what if we are? Answer that!  
And I hear the willow trees swishing  
there,  
As, playful, they bow to the breeze,  
And I in my fancy am fishing there  
My elbows propped up on my knees—

My chin in my hands, while I dream again  
That I am a pirate, and bold!  
And bravely we sail down the stream  
again.

In search of the treasure of gold,  
The end of the cruise, we are nearing now,  
Not very much farther we'll roam,  
But, hark! What's that I am hearing now?  
The dinner bell, calling us home!

## CHURCH CALENDAR.

Concluded from first page.  
from Isaiah 9:7—"Of the increase of  
His (Christ's) government and of  
peace there shall be no end."  
The topic to be presented in the E.  
L. C. E., at 6:45, is "Every Day Citi-  
zenship," interpreting Christian patri-  
otism. The lesson of the hour is  
prepared by Chaplain Ralph C. Deib-  
ert, of the United States army.  
Senior and Junior Leagues in their  
respective rooms promptly on time.  
The four congregations affiliating  
in the midsummer union evening ser-  
vices will gather in this church at  
7:30. The address will be by Rev.  
William R. Curtis, of the Baptist  
congregation. He will speak on  
"Proper Home Recreation." This is  
the second in series of sermons on  
"The Home," begun on Sunday night,  
July 7th, when the Evangelical pas-  
tor spoke on "Love, Courtship and  
Marriage."

Follow the crowds to the Sunday  
evening union services.  
All welcome at the midweek prayer  
meeting Thursday evening at 8:00.

Owendale and Grant Methodist  
Episcopal Churches. Fred H. Town-  
send, Pastor.

Owendale—Public service of wor-  
ship begins at 10:00 a. m. The ser-  
vice must begin promptly on time in  
order that the pastor may get to the  
Grant Church by 11:30. The service  
will mean much more to you if you  
are there and if you are there when  
we begin. The pastor's theme on Sun-  
day, July 21st will be "When ye  
Pray, Believe." A vital consideration  
for the Christian life and the success  
of the Kingdom. Every Christian  
ought to hear this.

The Bible school convenes at 11:10  
a. m. The motto of the Sunday school  
is "Every member of the church in  
the school and every member of the  
school attending public worship"; only  
so can we receive the most benefit  
from these supremely important in-  
stitutions. There is not a person in  
the community who would live where  
there was no church. Are we each do-  
ing our duty in maintaining those in-  
stitutions?

Grant—10:30 a. m., the church  
studying the Bible. Classes for all  
ages. Come. 11:30 a. m., public wor-  
ship. Pastor's theme: "When ye Pray,  
Believe." An offering will be taken at  
this service for additional church  
hymnals.

Tuesday evening, eight o'clock,  
fourth quarterly conference, Dr. Peter  
F. Stair, presiding. A brief address  
will be given. This is an important  
meeting. All officials and members  
of both churches are urged to attend.  
All others are welcome.

Seven new members were received  
into this church last Sunday, five by  
letter and two on confession of faith,  
and one adult was baptized.

Decker M. E. Church—Bert Ede,  
Pastor. Sunday school at 10:30 a. m.  
Supt., Bruce Adams. Church service  
at 8:00 p. m., when the speaker will  
be Mrs. A. J. Knapp of Cass City. The  
society of the Glee Club of Cass City  
will be present and render special mu-  
sic. This is recognized as ladies'  
night, the gentlemen being present on  
the invitation of the ladies.

Argyle M. E.—LeRoy Miller, 13-  
year-old boy evangelist of Port Hu-  
ron, will speak in this church Sunday  
evening, July 21, at eight o'clock.

## A Feature of the Entertainment Program at Cass City Fair Aug. 13-16

When an acrobatic act can go along year after year and be the hit  
of the show at every performance, either in the open air or in a theater, regard-  
less of the number of headline acts on the bill, there must be something  
unusual about their work. The Six Lucky Boys have been doing it ever since  
their first appearance with circuses, five years ago. Clean comedy, a lot of  
speed, plenty of smiles and some tricks that similar acts never even attempt,  
win the crowds for these snappy, neat looking young men.

The Lucky Boys are risley experts; "risley" being a circus word mean-  
ing foot-juggling of human beings. Three men lie on their backs on small  
platforms and toss the mounthers about as if they were rubber balls. Now  
and then one of the men is hurled so high in the air he has time to turn a  
complete somersault before landing back on the feet of the man under him.

**Old American Cities**  
St. Augustine, Fla., is the oldest  
city in the United States founded by  
Europeans. The Spanish settled on  
this site in 1565 and it has been con-  
tinuously occupied ever since. Santa  
Fe, N. M., is our second oldest city.  
It was founded by the Spanish about  
1605 on the site of a deserted Indian  
pueblo.

## HOSPITAL NOTES.

Allison Seeger, son of Mr. and Mrs.  
John Seeger of Cass City, was  
brought to the hospital Saturday and  
underwent an emergency operation  
for appendicitis the same day.

Mrs. John Mayes of Port Austin  
entered Sunday and underwent a seri-  
ous operation Monday morning.

Ray Brown of Decker entered the  
hospital Sunday and was operated on  
Tuesday for appendiceal abscess.

Carl Heller of Bad Axe was operat-  
ed on Tuesday morning for removal  
of tonsils.

Other patients at the hospital are  
Julius Hallitz of Wilmot, Miss Cath-  
erine Wallace, and Miss Tressa Sang-  
ster of Cass City, and Mrs. Fred  
Fehndrick of Gagetown.

Miss Bessie Hood and Miss Shoe-  
maker, both of Saginaw, and Mrs.  
Myrtle Hatzenbuehler of Mt. Clemens  
are doing special duty at the hospital.

By a vote of 124 to 29 electors of  
the Uby school district favored re-  
taining the 12 grade school when the  
matter was presented for straw vote  
at the annual school meeting Monday  
evening. A petition asking that the  
matter be presented at the meeting  
was circulated and presented to the  
board but owing to a mistake in the  
paper the vote on the question could  
not be valid, members of the board  
stated. Just to get the sentiment of  
the electors the matter was present-  
ed for a straw vote.
