SCHOOL OPENS HERE TUESDAY, SEPT. 3

Four of the 19 Members of Faculty Are New Instructors at Cass City.

Tuesday, Sept. 3, is the date set by the board of education as the opening day of the Cass City Public Schools. Only four of the efficient and talented staff of instructors who taught here last year will not return. Miss Florence Lewis, Miss Alice Lammers, Miss Ernestine Manigold and Miss Ruth Erskine are the instructors who are new to Cass City high school pupils. Miss Lewis has a degree from Oberlin College and has taught English and debating in the Mason, Mich., schools the past two years. Her debaters went well into the state finals this spring. Miss Lammers is a graduate of Hope College and received one of the ten highest scholarships given in 1929. Miss Manigold received her degree at the State Normal College at Ypsilanti and has had experience in teaching and principal at Wolverine. Miss Erskine is an experienced teacher in mathematics and received her degree at Michigan State College.

The list of instructors follows: H. W. Holmes, superintendent, mathematics; J. Ivan Niergarth, principal, science; James Lewis, junior high and coaching; Florence Lewis, English and debating; Alice Lammers, French and history; Ernestine Manigold, English; Ruth Erskine, mathematics; Esther Tarnoski, home economics; Virgil Logan, English and public speaking; Grace Beach, commercial; Willis Campbell, agriculture; Elynon Bigelow, music and art; Trena Ellenbaas, sixth grade; Goldie Wilson, fifth grade; Mary Holcomb, fourth grade; Margaret Wallace, third grade; Dorothy Lewis, second grade; Lulu Barton, first grade; Zora Day, kindergarten.

The Cass City High School offers four courses: academic, commercial, agricultural and home economics. The superintendent and principal will be in the high school office Saturday, August 31, to aid students who wish to arrange their course of study.

CHURCH CALENDAR

Methodist Episcopal Church—10:00, class meeting. 10:30, morning worship. 11:45, Sunday school. 7:30, union evening service at the Presbyterian church. Rev. W. R. Curtis will preach. Thursday evening, prayer meeting. Bethel Church—11:00, Sunday school. 12:00, preaching service. George Hill, Pastor.

St. Pancratius Church—Services are held each Sunday morning at 10:30 except the first Sunday in each month. On these days, services begin at nine o'clock. Rev. Fr. Fitzpatrick, Pastor.

Baptist Church—William R. Curtis, Pastor. The pastor will return and fill all of his appointments next Sunday. Preaching Sunday morning at 10:30. Theme, "The Element of Struggle in the Making of Men." Preaching at Austin at 2:30. Preaching at the union service at the Presbyterian church at 7:30. Theme, "Lack of Equipment in the Face of Need."

Owendale and Grant Methodist Episcopal Churches—Fred H. Townsend, Pastor. There will be no services in either of these churches on Sunday, Aug. 18, as the congregations have voted to close on that day. But be sure to put Aug. 25 and Sept. 1 down on your date book, as there will be items of great interest on those days. On Monday, Aug. 26, 8 p. m., will be held an important official board meeting. It would be splendid if the treasurer could report all bills paid to the close of the conference year at that time. He can if every one rises to their privilege by that date. "Eventually, why not now?" Church goers classified: 1—Social: Attend societies, but too busy for worship. 2—Spasmodic: Attend when they feel like it but do not control the feeling. 3—Periodic: Attend Christmas, Easter and festival days, but afraid of the habit. 4—Occasional: Attend when "nothing prevents" but easily satisfied with an excuse. 5—Loyal: Allow no cause to keep away that would not keep away from business.

MAIER STUDIO INSTALS MOVING PICTURE CAMERA

A moving picture camera and a Kodascope projecting machine are the latest additions to the equipment of the Maier Studio. The Kodascope uses a 400 ft. film and projects a 30x40-inch picture at 9

or 18 feet from the screen. This lasts about 16 minutes on the screen.

Rented films used in the projecting machine have been shown successfully and clearly in Mr. Maier's home.

Mr. Maier's first movie picture was made recently with Buster, his dog, as the star performer. Buster appeared to be quite a capable actor, doing many stunts in the water and along the river bank, and his owner is anxiously awaiting the developing of the film so it may be thrown on the screen.

Buster has reached the 8th milestone and his years in dogdom are numbered. When he goes out of this life into whatever the future holds for dogs, Mr. Maier will have a picture showing his pet in his days of vigor and cleverness.

MANY RACE HORSES CONTEND FOR PURSES

Club Exhibits in Livestock Show 20% Increase Over That of Last Year.

Rain, sorely needed for farm crops, spoiled the performance of the Cass City Fair on Tuesday, the opening night, and the special acts and fireworks program were cancelled for that evening. The moisture, however, kept farmers from the regular routine on the farm and as a result there was a large crowd at the fair on Wednesday afternoon.

Special attractions were meritorious, and if numbers count in horse racing, purses should be subjects of lively competition. An unusually large number of racers are here, so many that there is a lack of sufficient stalls on the fairgrounds and it was necessary to place several race horses in other quarters.

In the 2:16 trot or pace on Wednesday, there were ten horses. First money went to 'The Girl; second to Mackinaw; and third to Baldy Direct. The time was 2:19 1/4. In the 2:30 trot or pace, 13 horses were entered. Lear Axworthy was first in this race; Holly Rood Hadley, second; and Rulene, third. The time was 2:24 1/4.

Elkton defeated Sebewaing 7-6 in a closely contested game of baseball Wednesday. Today (Friday) Lapeer will play Bad Axe. The race program for this afternoon contains the following numbers: free-for-all trot or pace, consolation race, free-for-all farmers' run and farmers' run (named).

In the livestock exhibits, A. Fort & Son have an excellent showing of Jersey cattle and H. T. Crandell is among the larger exhibitors with a flock of sheep. The club exhibit shows a 20% increase over that of last year. The Chester White swine showing is outstanding and the exhibit of dairy cattle is exceptionally fine. The champion dairy calf is a senior yearling Holstein of David Knight's. Mr. Taylor, dairy cattle judge, was well pleased with the Ayrshires shown and wants Willis Campbell, local club leader, to see that four of this breed are entered in the open classes at the Michigan State Fair.

Verne Ferguson of Michigan State College, another livestock judge, says James Milligan's Angus beef steer is the best he has ever handled. Mr. Freeman found the best cattle showmen of club boys in the state in members of the Cass City Livestock Club. He was well pleased in the promptness of the boys and the excellent condition of their stock.

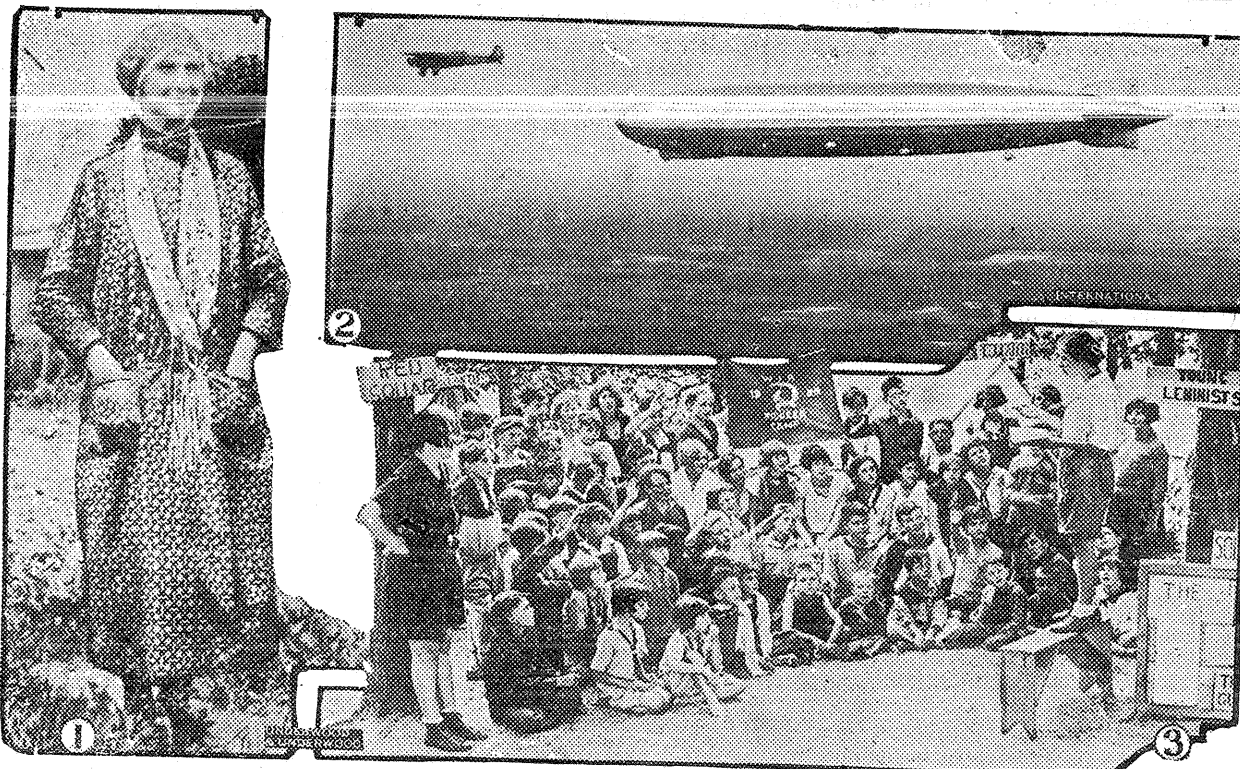

To Mr. Freeman was given the difficult task of determining the winner of the Holstein Friesian bull calf which prize was contributed by the Nestlé's Food Co. This valuable prize was to go to the boy who had the best fitted and shown Holstein heifer exhibited by a club member. Fitting counted 60% and showing 40%. The choice finally simmered down to two boys, David Knight and Kenneth Maharg, and after considerable more deliberation, Mr. Freeman announced David, as the winner. Kenneth was a very close contender for the award.

Audley Horner exhibited his Holstein calf that made the airplane trip from Detroit to the Cleveland Livestock Show last fall. Mr. Horner's steer was determined the best Short-horn on the grounds.

In floral hall, local merchants have excellent displays of merchandise. Corpron's Hardware is showing hardware and radios; May & Douglas, rugs, radios and furniture; and N. Bigelow & Sons, hardware and radios. The DeLaval cream separators are displayed and E. F. Luckhard, landscape artist of Bach, has a nice showing. At other places on the grounds, farm machinery, Delco-Light products and Ford automobiles are displayed.

An exhibit in the floral hall that is attracting a great deal of attention is a large number of drawings and paintings that were done by students of the art department of the Cass City High School. Many designs show exceptional talent.

LOCAL HAPPENINGS

Miss Marie Ferguson of Pontiac spent Sunday with her mother here. Miss Agnes Ferguson returned to Pontiac with her sister and will be employed there.

Mr. and Mrs. Robert Warner and daughter, Charlotte, and Mrs. Mary Glaspie returned Monday from a week's vacation spent at the Rock Lake Assembly, two miles from Vestaburg. This is an annual assembly of the Church of Christ.

Those from out of town who attended the funeral of Mrs. Eugene Wentworth Wednesday were Mr. and Mrs. Clayton Wentworth and Mrs. Jennie Devlin of Dryden; Mrs. Fred Palmateer of Rochester and many friends from Caro and Deford.

Among those who attended church at Huron City Sunday were Mr. and Mrs. M. C. Wentworth, daughter, Norma, Mrs. Dan Ashley, Marion Reagh, Mrs. J. B. Coates, Mrs. R. A. McNamee, Miss Lura DeWitt, Miss Joanna McRae, and Miss Margaret Jondreau.

Mr. and Mrs. George Southworth and two children, Donald and Dorothy, of San Luis Obispo, California, came Thursday to visit Mrs. Southworth's parents, Mr. and Mrs. W. D. Striffler, at Cass City and Mr. Southworth's parents, Mr. and Mrs. Charles Southworth, at Elkton. The expect to remain until November 1.

Mr. and Mrs. Ralph Ward entertained over the week-end Mr. and Mrs. T. J. Treapp and two children, Mr. and Mrs. Arthur Treapp and two sons of Flint; and Mrs. Thomas Harris of Dorchester, Canada. Mrs. Harris remained to spend a few days and will be accompanied home by her mother, Mrs. Mary Ward, who has spent some time with her son, Ralph Ward.

The Ladies' Guild met at the home of Mr. and Mrs. Robt. J. Gallagher Thursday, Aug. 8. A large crowd attended, including a large number from Gagetown and Colwood, and enjoyed the evening by playing cards and dancing. Lunch was served at twelve o'clock. A purse was made up amounting to \$36.00, for the benefit of St. Pancratius church.

Mr. and Mrs. Clarence Quick and daughter, Miss Inez, attended the sixth annual home coming of the former employees of the Pontiac State Hospital and their families held at Pontiac Saturday. Mr. and Mrs. Quick returned home Sunday and Miss Inez remained to spend the week with her three sisters at Pontiac. Mr. and Mrs. Quick were guests of Mrs. Quick's brother, E. Adams, at Clarkston Saturday night and Sunday.

A. J. Knapp journeyed to Ludington Sunday where he went for the body of his cousin, W. J. Tibbits, who died Sunday morning after a short illness. The body was taken to Bad Axe and funeral services were held Wednesday from the home of his mother-in-law, Mrs. S. M. Blakely. Mr. Tibbits was 68 years of age and was an engineer for the Pere Marquette railroad for 45 years. He is survived by his widow and one daughter, Janet.

Mr. and Mrs. Robert C. Brown left Monday for Albuquerque, New Mexico, where they expect to spend some time for Mr. Brown's health. They were accompanied by Frederick Brown and Edwin Fritz, who will go with them as far as Colorado and farther if they find they are needed. The party are camping and will not hurry their trip. Frederick and Edwin expect to return by a different route than the one taken when going to Colorado.

Miss Mima McArthur returned to Chicago Wednesday after visiting relatives in Cass City. The Misses Margaret and Martha McArthur accompanied her as far as Jackson, spending Wednesday afternoon and night with cousins there.

Mr. and Mrs. H. W. Holmes and daughter, Doris Jane, who have spent some time at Holt and Bloomingdale, returned Saturday to spend the week at their home here. They were accompanied by Mr. Holmes' brother and family, Mr. and Mrs. J. E. Holmes and two daughters, of Spring Lake who are spending the week in Cass City. J. E. Holmes is superintendent of schools at Spring Lake.

Mr. and Mrs. Thomas Colwell of Cass City and Mr. and Mrs. Ray Colwell and children of Saginaw left Thursday morning to attend the Palmateer family reunion which will be held at Spencerport, New York. The party will visit the Falls and other places of interest on the way to and from Spencerport. Last year, the reunion was held at the Colwell home, one and one-half miles west of Cass City.

FREE CHEST CLINIC AUGUST 20-21

Examinations Are Financed by the Sale of Tuberculosis Christmas Seals.

"Only through early discovery of tuberculosis can a cure from the disease be made certain," warns the Michigan Tuberculosis Association in advising persons who have the symptoms of tuberculosis to attend the free chest clinic which will be held in the court house at Caro on August 20 and 21. The clinic hours will be from 9 a. m. until 12 noon and from 1 p. m. to 5 p. m.

Chest examinations at the clinic, given free to the residents of Tuscola county, are financed by funds raised in the sale of tuberculosis Christmas seals, in which the citizens of Tuscola county participated.

"Early recognition of tuberculosis is not always easy," state the examining physicians of the Michigan Tuberculosis Association, "because the onset of the disease is usually so insidious that it often secures a firm foothold before the patient realizes that anything out of the ordinary is wrong with his health. But for that very reason, it is important that knowledge of its early symptoms be common property."

"Early warning signals that should lead to a thorough chest examination are: a cough that does not yield to the usual methods of treatment; unexplained loss of strength or weight; persistent digestive disturbances and loss of appetite; a slight elevation in the temperature afterwards; or a continued unexplained tired feeling.

"Tuberculosis may or it may not be the reason for these symptoms," advise the physicians, "but the only safe course to follow when they are observed is to secure a thorough examination."

Attention—I. O. O. F. and Rebekahs.

A joint, meeting of the Rebekah and Oddfellow lodges will be held Tuesday evening, Aug. 20. As important business is to be transacted it is desired that a good attendance be present. A social time will follow, with ice cream and cake as refreshments. Rebekahs bring your husbands and Oddfellows bring your wives.

CATHCARTS HOMEWARD BOUND FROM EUROPE

Mrs. J. L. Cathcart and daughter, Hester, have been traveling two months abroad. Their last letter came from Germany. They had just visited Heidelberg castle and the University. Both were wonderful sights.

The farming country there is fine. One sees many women working in the fields with gay kerchiefs tied over their heads. The farmers use lots of oxen and sometimes horses and oxen hitched together, and often a cow drawing a wagon. The houses are quaint, painted in gay colors—some bright blue and some pink, and everywhere flowers in the windows and in boxes.

Mrs. Cathcart loves Switzerland the best of any country they have visited. It's so clean and so beautiful. They often served the meals out of doors and beautiful scenery everywhere made it look like fairy land, the towering mountains at the back all lighted away up to the top. One day they took a bus to the top of a mountain 8,000 feet and where the bus had to make those hair-pin curves, so close to the edge, it fairly made one dizzy. It was so grand and so wonderful and yet it almost took one's breath away.

Mrs. Cathcart and Hester are now on the ocean returning home and expect to land in New York Saturday, August 17.

HOME-COMING AT SHABONA AUG. 17

Evergreen Community Club Is Sponsoring First Annual Reunion.

The first annual home-coming and reunion of Evergreen township residents sponsored by the Evergreen Community Club will be held at Shabona Saturday, August 17, and extensive plans are being made to make it a day long to be remembered.

In the forenoon, field and track events will be given, followed by a basket dinner at noon. At the program in the afternoon, Mrs. Geb. Jones, an Evergreen pioneer, will deliver the address of welcome. Roy Phillips, superintendent of the Alma high school, and Harry Smith, Sani-lac county school commissioner, both former Evergreen boys, will deliver addresses. Geo. Gotham will speak on "Early Experiences in Evergreen" and Mrs. A. J. Knapp of Cass City on "Pioneer Days." Other speakers will also participate and readings, selections by a chorus and a male quartet will be numbers on the program. The North Branch Band will furnish music during the day.

Later in the afternoon, a ball game between married and single men and horse races will furnish entertainment. Many former residents living at distant points are planning to attend the home-coming.

ONE INJURED, TWO CARS DAMAGED

Cars driven by Mrs. William Flint and Andrew Wooley came together Monday afternoon at the corner of Garfield Avenue and West street. Mrs. Flint, driving a Jewett sedan, was going west and Mr. Wooley driving a Ford pickup was going south. The Ford struck the front wheel of the Jewett, breaking it off and causing the larger car to turn completely over.

Mrs. Flint was badly bruised and received a deep cut on the right arm. She was taken to a local hospital and later to the home of her parents, Mr. and Mrs. James Tuckey. Mr. Wooley was uninjured except for a bad shaking up. The Jewett was a complete wreck and the Ford was badly damaged.

MARLETTE LADY DIED ON WAY TO FAIR HERE

Mrs. Wm. Swinson, 75, was taken ill Tuesday between Kingston and Deford while traveling on a bus from her home in Marlette to attend the Cass City Fair. She was taken to the office of Dr. Merriman at Deford. The doctor was away from home and Dr. S. B. Young of Cass City was called to attend her. Mrs. Swinson passed away before Dr. Young arrived in Deford. Heart trouble is given as the cause of death.

Mr. and Mrs. Swinson had planned to visit at the Clark Bixby home while attending the fair here. The Swinson and Bixby families lived neighbors in their first years in Michigan and their friendship has extended over a long period of years.

CARO FAIR A BIG ATTRACTION NEXT WEEK

For nearly a half-century, to be exact—48 years—Caro Fair has offered to thousands of people in eastern Michigan yearly programs that have kept pace with the largest county fairs in the United States. At a great outlay of expense and energy the management of Caro Fair have provided attractions for this year's exposition, in keeping with the progressive policies adopted through the years. The Caro Fair is just around the corner. It will be a big attraction in this section next week, August 19 to 23 inclusive.

NEWS REVIEW OF CURRENT EVENTS

Graf Zeppelin Arrives and Starts Eastward on a Trip Around World.

By EDWARD W. PICKARD
GRAF ZEPPELIN, the great German dirigible, was the feature of the week's news. Its second crossing of the Atlantic, from Friedrichshafen to New York, was made without mishap, and after flying over the metropolis it came to the ground at Lakehurst, N. J., in a perfect night landing. Nineteen fare-paying passengers, one stowaway and a miscellaneous cargo that included one chimpanzee, one gorilla and 600 canaries were brought over in comfort and safety.

Three days later the big airship, having been refueled, started back to Germany on what is planned to be the first leg of a trip around the world. The only stops are to be at Friedrichshafen, Tokyo, Los Angeles, and again Lakehurst. If the Zeppelin keeps her schedule she will arrive at the New Jersey hangar on August 29. Twenty-two passengers were taken on the eastbound trip. Those who intended to continue aboard for the globe circling journey included William B. Leeds, Lady Grace Drummond Hay, Carl von Wiegand, Joaquin Rickard, Sir Hubert Wilkins, Lieut. Jack Richardson, Lieut. Commander C. E. Rosendahl and C. B. Burgess, the last three being sent by the United States Navy department. Dr. Hugo Eckener, as on the previous flight, is pilot of the dirigible, but it was reported that after this world tour he would relinquish its command and devote himself to the management of the Zeppelin company, of which he is the business head.

Rear Admiral William A. Moffett, chief of the naval bureau of aeronautics, while praising the successful trip of the Graf Zeppelin, calls attention to the fact that our navy is now building at Akron, Ohio, two dirigibles that will be about twice the size of the German airship. Work on these vessels has been going on for some time and the admiral says the first of them will be put into use in 1931. Each will be filled with six and one-half million cubic feet of helium gas and will carry five airplanes attached to the bag. Admiral Moffett has been looking along the Pacific coast for a good place for a base for these immense dirigibles.

One novelty in aviation is to be noted this week. A company has been formed in Kansas City to rent "fly-it-yourself" airplanes to persons who cannot afford to own and maintain planes. One hundred two-seater sport planes have been ordered and they will cost the renter between \$15 and \$20 an hour.

LIEUT. ALFORD J. WILLIAMS, America's lone hope in the international seaplane race for the Schneider trophy, to be run at Cowes, England, September 6 and 7, has produced his plane, without government backing but with the aid of Admiral Moffett, and was testing it out near Philadelphia last week. He believes it will prove to be the fastest ship in the world and that it will beat the time made by Major De Bernardi of Italy last year—318 miles an hour. The engine, of 24 cylinders in banks of six, will deliver 1,100 horsepower. The plane is a twin float monoplane, the fuselage, wings and fixed tail surfaces of wood and the control surfaces of metal.

Lieut. Florentin Bonnet of the French army, selected by the ministry of air to pilot the French entry in the Schneider cup races, was killed when the airplane in which he was training for the speed test was wrecked in leaving the airfield at Bordeaux. Bonnet was the holder of the world speed record for land airplanes.

Michigan Happenings

In an insane rage, George Williams, of Grand Rapids, 29 years old, dragged his wife, Catherine, 25 years old, into a tunnel which forms the approach to the palatial west side home of Frank A. Stone, where she was employed as a maid, and fatally wounded her. As the woman was being rushed to the hospital, where she died, Williams drove furiously to police headquarters and surrendered. Less than four hours later Williams had pleaded guilty before a Superior Court Judge and was sentenced to Jackson for the remainder of his life.

Caught in the knives of his binder when his three-horse team ran away, Frank E. Smith, of Marshall, 72 years old, former chairman of the Calhoun County Board of Supervisors, suffered injuries so serious that the amputation of his right leg was necessary. Smith was standing near the binder when the team started to run. In attempting to stop the horses he stepped in front of the knives and was caught by them, being dragged 20 rods before he was thrown clear of the machine.

Use of luminous buttons in the wording of stop and danger signs along the state trunk line highways has been agreed upon by the road committee of the administration board, and an appropriation of \$25,000 for marking some of the principal roads, including the Woodward, Grand River and Michigan roads, was approved. The luminous buttons reflect a small spot of red whenever headlight beams strike them.

Placards appearing on windshields and rear windows of automobiles reading, "Don't shoot, we are not bootleggers," with pictures of the American Flag on either side of the reading matter, are desecrations of the Flag under the Michigan law, according to an opinion prepared at Lansing by Atty-Gen. Wilber M. Brucker. The opinion was requested by E. R. Norwood, co-ordinator for the bureau of customs of the Treasury Department, at Detroit.

Once an important figure in the upper Michigan iron industry, Solomon S. Curry, 90 years old, died at his home in Ironwood. Curry was born in Canada, June 12, 1839. He came to the Upper Peninsula in 1862 as a prospector on the Marquette Range. He discovered and opened several iron mines on the Menominee range, including the Curry and Beauford mines. He came to Ironwood and opened the Norrie Mine in 1884. He retired 30 years ago.

Total resources of 575 banks and of 10 industrial banks in Michigan as of June 29 amounted to \$1,613,385,081, it is shown in a report issued by R. E. Reichert of Lansing, State banking commissioner. Total resources of the 24 trust companies in the state on the same date amounted to \$223,336,923. Compared with a year ago, commercial accounts show a gain of \$33,817,684, and savings accounts of \$22,957,653.

James Sharpstein, of Lansing, representing the aviation division of the State Highway Department, is investigating desirable sites in Newaygo County for a county airport. A committee of the Board of Supervisors will make recommendation concerning a site at the October meeting in Fremont. At Manistee the Board of Commerce has appointed a committee to select a county airport site.

High water in Lake Michigan has robbed Manistiquette shore line property owners of considerable land. Beaches have been destroyed and in many instances summer homes undermined. The erosion this year has been greater than that experienced over any five years in the past. If the wash continues much longer, lake property owners will be forced to resort to dyking.

Throwing himself in front of a speeding Michigan Central passenger train on a grade crossing at Battle Creek, Perry Pearce, 75, a retired farmer, committed suicide. His body was badly mangled and it was several hours before identification was made. Police say witnesses saw the man standing near the railroad tracks for about half an hour before the train killed him.

Mrs. Annice Vert, 26 years old, ended her life at her home in Jackson by shooting herself through the heart. According to relatives, she had become despondent over business worries. She had been separated from her husband for four years.

Gas fumes hovering about a new well in the Muskegon oil field exploded and seriously burned Charles Ridgeway, 28 years old, of Camden, O., an employe of the Buckeye Oil & Gas Co., of Cleveland. Ridgeway had opened a gas valve to relieve the heavy pressure in the well when gas was ignited from a spark of a car driven by Ray Bannister. Ridgeway was taken to a hospital badly burned but will recover. Bannister was burned about the face and hands.

WHY "Fox Terrier" Is No Longer Used to Hunt Foxes

Why the name fox terrier? Simple enough—Le went to earth (terra, as the Romans put it) after foxes 100 years or so ago. That was the job for which he was developed, and he fulfilled it with honors, says the Washington Post.

But the fox terrier of today, in the smooth as well as the rough-coated varieties, has largely dropped his original work. Not because of any want of courage on his part, but rather because of changing conditions in England, the country of his development. The fox hunting enthusiasts began to breed their hounds and horses for greater speed; the stocky little terrier couldn't stay with the chase until his chance came to go to earth after the fox. Then his friends tried putting more speed into him by giving him longer legs, but they did it at the expense of his stamina and general underground hunting qualities. And finally, foxes became less numerous, and when the hound pack did run one to earth it was considered proper to leave him there so that he might live to run another day.

It would have been an irreparable loss to the dog world if the fox terrier had sunk into oblivion with the setting of his bright particular hunting star. For he is much too attractive and healthy a little rascal for us even to contemplate the thought of losing him. Indeed, his admirers have made him even more popular than in the old days of fighting foxes, and he has become standardized as an all-around small dog that is guaranteed to win his way into the coldest and hardest of hearts.

Why Snake Protrudes Tongue Is a Mystery

Many people believe that snakes sting with their tongues. This, of course, is not true, the tongue of a snake being perfectly harmless. The continual motion of this organ doubtless has some sensory significance, but its nature is not yet fully understood, according to Waldo L. McAtee, a biologist of the United States bureau of biological survey. Apparently the long delicate, forked tongue enables the snake to feel its way over the ground. The projecting of the snake's tongue, says Dr. William Mann, director of the National Zoological park at Washington, "is supposed to be sensory in function. It has been suggested that the sense of smell is present, to some extent, in the snake's tongue, though I do not believe this has been very well substantiated." Raymond L. Ditmars, curator of reptiles at the New York zoological parks asserts: "The tongue of the snake is an extremely sensitive organ, and serves to trace scents over the ground by taste. It also is sensitive to sound vibrations."

Why Beard Has Value

The United States public health service has discovered that unshaven skin is less susceptible to the penetrating powers of the virus of the fever tick that causes Rocky mountain spotted fever than freshly shaven skin. In view of this it is likely that whiskers will come into fashion in the Bitter Root valley of Montana. The health service has been studying the dreaded disease in the valley for the last 20 years. The valley is one of the few places in this country afflicted with the disease. Between seventy-five and one hundred fifty cases of spotted fever develop there every year. The death rate among the victims of the fever is about 90 per cent. Montana has appropriated \$19,000 for fighting the disease. This will be used largely for manufacturing a vaccine treatment recently developed by Dr. R. R. Spencer after many years of research.—Pathfinder Magazine.

Why Trees Need Water

An average size oak or elm bears each season approximately 5,000,000 leaves, according to scientists. Patched together, these leaves would cover five acres, and they are continually giving off moisture—perspiring, you might say. On a fairly hot dry day, for every 1,000,000 leaves about a ton of water will be given off. Therefore, you can see what need trees have of water. Water, air and a few minerals that are in the ground—which minerals the tree imbibes, thinly diluted in its water, are what build a great tree. The roots of almost all trees extend as widely and as deeply as the branches and leaves; to have a certain amount of leaves and branches you must have a corresponding amount of roots to nourish them.

Why Birds Stop Singing

Do birds quit singing because their throats are dry? The possibility of something of the sort being the case is suggested by Dr. H. S. Reed of the Citrus experiment station, Riverside, Calif., in a note to Science. He says that the California meadowlark sings occasionally in winter, and that such outbursts of song almost always come in damp weather, either before or after a rain. Doctor Reed also calls attention to a supporting observation made by Dr. William E. Ritter of the University of California, who has heard meadowlarks singing all the winter through at La Jolla, where the sea air is always humid.

Why Dimple Appears

A dimple is a slight depression or dent in the surface of the human body, caused by the adherence of the skin to the deeper tissues, most frequently on the cheek or chin.

"Quebec" Indian Name
The word Quebec is of Indian origin. It was used by the Micmacs to denote a narrow passage like that between Halifax harbor and Halifax basin, and by the Algonquins for a similar purpose. The peculiar conformation of the St. Lawrence river at Quebec where Cape Diamond narrows it so suddenly, is readily noticeable, and doubtless gave rise to the use of the word as the name of the city.

Hotel in a Mountain
One of the most extraordinary hotels in the world is on the Jungfrau. It is on the shoulder just below the crest of this Swiss giant, and was excavated rather than built, as most of the structure, which has five stories, is actually within the mountain. Everything in the hotel is worked by electricity, and access is gained by a tunnel from the terminal station of the Jungfrau-Joch railway.

Possibility Is There
At an auction in London only \$25 was paid for the desk on which Charles Dickens wrote many of his stories. The young writers have no ambition. With that desk, and a bottle of ink, and plenty of paper, a man could write another "Pickwick Papers" if he was another Charles Dickens.

And There Are Others
"No human being has ever told all the his to which the flesh is heir," says a writer in a medical journal. Well, some of the old medicine almanacs made a pretty complete job of it.—Rochester Democrat and Chronicle.

SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

RIBLE THOUGHT AND PRAYER

A Good Recipe for Worry.

Matthew 6:25, 26, 33. Jesus said: Therefore I say unto you, Take no thought for your life, what ye shall eat, or what ye shall drink; nor yet for your body, what ye shall put on. Is not the life more than meat, and the body than raiment? 26. Behold the fowls of the air; for they sow not, neither do they reap, nor gather into barns; yet your heavenly Father feedeth them. Are ye not much better than they?

Matthew 6:33. But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.

Prayer: We would, Lord, cast all our care upon Thee, for Thou carest for us.

Fresh Water Under Sea
An undersea well in the Persian gulf gives forth fresh water. That water is the only source of supply for the city of Bahrain. Divers equipped with waterproof bas descend into the depths, swiftly fill their water bags from this gushing spring and come back with sweet drinking water for the inhabitants of the hottest spot on earth.

"Vitamin" or "Vitamine"?

The pronunciation of this term depends on the form of spelling used. Two forms are in use, vi-ta-min, giving the first "i" the diphthongal sound that it has in aisle, and vitamine, pronounced vi-ta-meen. Of late, certain medical men have introduced the pronunciation vit-am-in, a pronunciation that is not yet recorded by the dictionaries.—Literary Digest.

Duties of Citizenship

Every gift or ability is a talent to be accounted for, and to be improved to our Master's advantage. Yet is it also a debt to our country to have a calling; and it concerns the commonwealth that none be idle, but all busied.—George Herbert.

The BOYS
 BY A. J. DUNLAP

They're scattered everywhere today,
 The boys of the old home town,
 And rich or poor they're old and gray,
 The boys of the old home town,
 They've won their share of life's acclaim,
 The boys of the old home town,
 They've missed their step and been to blame,
 The boys of the old home town.
 But right or wrong they'll always be
 The boys of the old home town,
 The friendliest crew on earth to me,
 The boys of the old home town,
 O could we all but meet once more
 The boys of the old home town,
 And spend an evening at the store,
 The boys of the old home town.

On Airways or Highways

when performance counts
 products of the Standard Oil Company (Indiana) are chosen.
 Their dependability is *proved*.

The planes of the Universal Aviation Corporation, as part of the new coast to coast air-rail passenger service, carry passengers and mail on regular schedule. The lubrication of their Wasp, Hornet and Wright Whirlwind engines is a vital matter—entrusted to this Company because it offers a Specialized Lubricating Service and a Quality of Oil unequalled.

Day in and day out, Stanolind Aviation products faithfully protect airplane engines of the Universal Aviation Corporation against friction.

Iso-Vis and Polarine

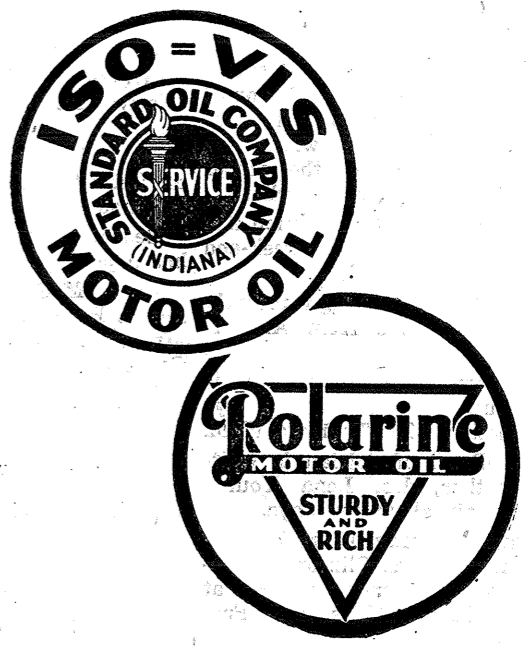

as faithfully protect automobile engines against friction. These two motor oils are unusually sturdy and unusually rich. They stand up under every strain of modern driving. They insure smooth performance and a long life for modern motors.

Polarine has been kept abreast of developments. It is a modern oil for modern engines—with the reputation of years of satisfactory service behind it. Drain Polarine every 500 miles and you'll have no lubrication worries.

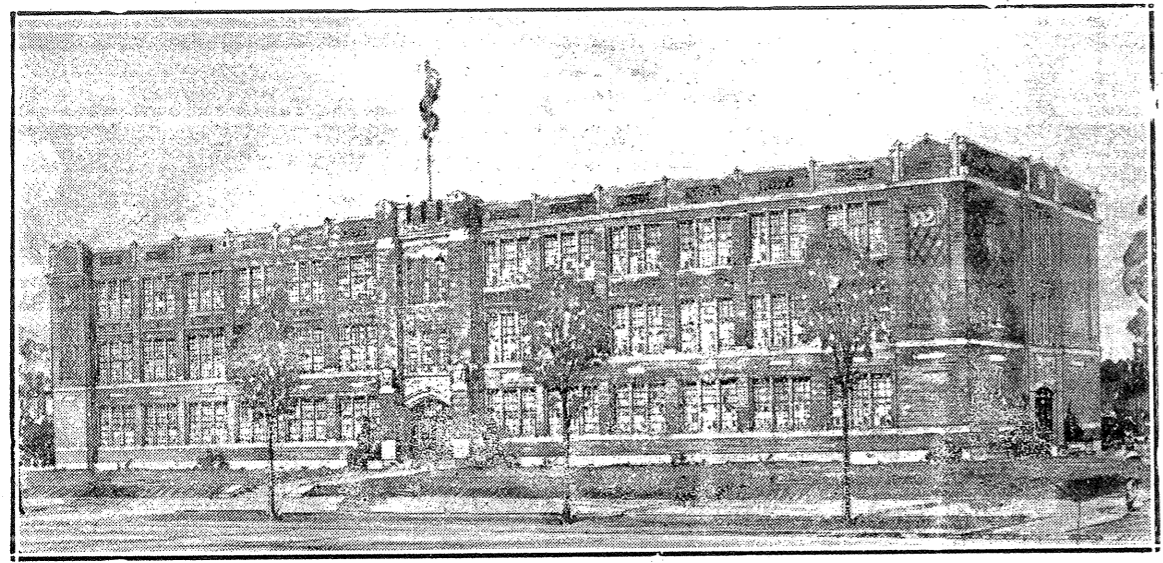

Iso-Vis is a newer motor oil—equally dependable. It represents a sensational advance in lubrication for it will not thin out. Motorists drive for 1000 or 2000 miles without draining Iso-Vis.

If the performance of your car counts—and if you'd like to keep the engine young and healthy—use Iso-Vis or Polarine of the grade manufactured for your car.

At any Standard Oil Service Station and at most garages.

Cass City High School

The Cass City High School offers excellent educational advantages to boys and girls who have passed the county eighth grade examination. They are cordially invited to attend this modern school during the coming year.

Courses are offered as follows: Agricultural course, Commercial course, Academic course, and Home Economics course. The Cass City High School course offers extra credit in the following work: Art, Chorus, Orchestra, Debating, Public Speaking, Bible, Girls' Glee Club, Boys' Glee Club, Agricultural Project. Numerous school societies provide valuable training. Added advantages are to be had in the splendid churches, library, and the various lectures and gatherings which center in the community of Cass City.

The Cass City High School is accredited by the University of Michigan and is on the North Central Association list. Students graduating from the high school here are admitted to the various colleges, universities and normal schools without examination.

All high school and grade teachers are specialists in their respective fields. All high school teachers of academic subjects hold degrees.

The 1929 graduating class numbered 57 students. This compares favorably with schools in towns two or three times larger than Cass City.

The commercial course gives the student four years of special training, fitting him for the commercial field. Commercial arithmetic, bookkeeping, typewriting and shorthand are all offered in this course.

Enrollment in the high school has passed the 260 mark. Non-resident pupils

have increased in the past few years from approximately 40 to 163 in 1928. Careful attention is given each pupil in planning his course of study and in his work throughout the year. We have a physical director for students and a dean for girls to look after their social welfare while attending school here.

Good roads make it possible for students to come long distances. Many drive to and from school to their homes each day. Others living much farther away have been at home week ends. Provision is made at the school cafeteria for high school students to purchase lunches at cost during the winter months. Over 2500 meals were served last year at an average cost of 15 cents per meal.

Cass City students won the sub-district oratorical and declamation contests in 1928 and 1929; won second place in the state academic contest at Mt. Pleasant in 1928; won first place in the district music contest in 1929; won the county and Thumb championships in football and basketball the past year, the county championship in baseball and the Thumb championship in track. Cass City vocational boys have exhibited 17 state champions at the Michigan State Fair in the last five years.

Tuition is \$80.00 a year for high school pupils. The home district must pay \$60.00 of this amount per year if application for tuition has been made to the director of the home district.

The principal and superintendent will be in the high school office Saturday, Aug. 31, to aid those who wish to arrange their course of study. School opens Tuesday, Sept. 3.

Address all inquiries to H. W. HOLMES, Superintendent.

FINE PROGRAM AT WATER CARNIVAL

Interest in the queen contest of the water carnival at Bay City was spurred last week by the announcement that Miss Eastern Michigan would be sent to the national beauty contest at Baltimore to compete for the title of Miss America. It is hoped that Miss Cass City may win the big contest at Bay City and thus be made the delegate to the national competition.

With the carnival only about a week off, a last intensive checkup is being made all over the state to see that no details have gone amiss. The Bay City committee wants to be sure that the program will be well oiled when the opening day comes.

Thursday, Aug. 22, will be given over mainly to the selection of a queen from the host of beauties who will be on hand to represent most of the communities in Eastern Michigan, from Alpena south to Flint. There will be a street parade through Bay City which will wind up at Wenonah Park, on the Saginaw river, and here, before the thousands of spectators who are anticipated, Miss Eastern Michigan will be chosen. A committee of outside judges, experienced in their work, will be in charge. After the selection there will be entertainment of various sorts, and in the early evening an Indian pageant will be held on the river.

The program Friday will be well split up, with events going on at the same time on the Saginaw river, on the bay at Wenonah beach, and out in the bay. The river will see a general program of interest, including canoe tipping contests, log rolling, etc. At the beach will take place the Michigan state outdoor swimming championships. Entries for all these divisions of the carnival have been coming in strong to Bay City, and the events, both in the swimming and in those competitions on the river, are expected to bring out the best talent in Michigan. Far out on the bay, but within viewing distance will be a series of sailboat races.

Saturday, August 24, will see an afternoon of motor boat racing which is going to draw the best drivers in the state. There will be races for boats with Class B, C, D and E motors, a free-for-all race, and other events.

In the evening the parade on land which opened the carnival Thursday will continue on water. The floats, which may include an entry from Cass City will be transferred from the autos to boats, and in a line more than a mile long on the water they will parade before the reviewing stand in Wenonah Park, Bay City.

Fireworks at 9 o'clock that evening will start to sound the end of the first annual Eastern Michigan Water Carnival.

SPARKS CIRCUS IN BAD AXE TUESDAY, AUG. 20

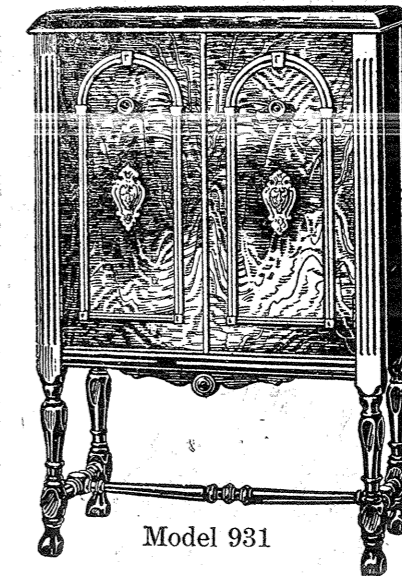

Tuesday, August 20, afternoon and night, under huge masses of canvas, the finest circus ever made by the ingenuity and courage of men, will parade and show in Bad Axe on Tuesday, Aug. 20, to make the young folks happy and the old folks young. The great street parade is on Tuesday morning at 11:00 o'clock.

First of all, a real wild animal circus is a 1929 acquisition, having been imported from the world's greatest wild animal training quarters at Stellingham, Germany. Included in these displays will be found lions, leopards, polar and grizzly bears, trained ostriches and zebras, the Sparks' group of "Rotation" horses, three elephant herds, fancy gaited and posing horses trained under the guiding hand of Carlos Carreon. Then there is the Bibb County Pig Circus, Sparks' Seals, and hosts of others of a novel nature.

The circus will also introduce the elaborately staged spectacle, "Lily of the Nile," in which all of the animals, performances, premier dancers, and a large chorus participate. Sparks Circus today is the largest in the world still offering a daily street parade and has been tripled in size since its former visit to this section.

Don't forget the date, Tuesday, August 20, at Bad Axe.—Advertisement.

Feed costs are the largest single item in dairying. They represent the largest chance for profit or loss. To make a profit in dairying, every dairyman must know feeds, know his market, know his cows, and feed with one eye on the milk pail and the other on the feed cost sheet.

A young Cass City man was hoeing the other nite, when he turned up a quarter; then a little later a dime, then a half. But it wasn't a silver mine. It was a hole in his pant's pocket.

The Sunbeam is guaranteed to give more years of good service than any other iron made. It heats quickly, stays hot and does nicer work because of the famous 30-year all-over heating unit. Heats entire ironing surface right out to the edges and points. That's why you finish quicker—many say they save half an hour to an hour every week with the Sunbeam. With every famous Sunbeam Iron you get the new \$2.00 TROUBLE-PROOF Indestructible Steel Plug at no increase in price. Steel construction—nothing to crack or crumble. The only plug that holds cord out of way when ironing. The greatest improvement in electric irons in years. The Sunbeam is also the only iron that has a patented Air-Cooled Handle which keeps the hand cool. You can't buy a better iron than the Sunbeam. Act quick, order yours now, before the Little Princess Irons are all gone. Bring in your old iron and get \$1.00 allowance.

Another Record!
a Million
SIX CYLINDER CHEVROLETS
on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today!

NEWS REVIEW OF CURRENT EVENTS

Concluded from first page.

settled were the adoption of the Young plan for German reparations, the evacuation of the Rhineland, and the establishment of a committee of conciliation and control to supervise the demilitarized zone of Germany along the western frontier. Whether all or any of these things could be arranged amicably at this conference was a bit doubtful. This was especially true concerning the Young plan, which in certain of its features was distasteful to every one of the powers except possibly France and Italy.

Philip Snowden, British chancellor of the exchequer, opened the discussion by frankly stating that the British government could not accept the Young scheme for division of reparations because it reduces England's share from 22 per cent to 18 per cent. He said: "Great Britain objects to the proposed division by which France gets five-sixths of the unconditional annuities—\$11,900,000 out of \$157,080,000. Italy gets a considerable annual sum, amounting to \$10,000,000—much larger than under the Dawes plan. I hope for your forgiveness for my frank and firm speaking, but this division is utterly indefensible and the experts did not attempt to explain or justify it."

The smaller creditor powers, for which Premier Venizelos of Greece was the spokesman, also protested that their debts had been overlooked by the experts when they formulated the plan which "compresses" their reparations, but they said they had no intention of attacking the Young plan.

Representatives of France, Italy, Belgium and Japan defended the new plan as probably the best that could be devised, although each of them asserted his country was making sacrifices in accepting it. M. Cheron, French minister of finance, declared France accepted the plan in its entirety, without reservations, and considered it indivisible as the experts stated. Notwithstanding these expressions on behalf of the other nations, Mr. Snowden and Arthur Henderson, British foreign secretary, told the reporters positively that Great Britain would reject the proposed new division of reparations.

Two commissions were named by the conference, one to study the political consequences of adoption of the Young plan and the other to deal with the financial questions involved. These bodies may not get through their work for five or six weeks.

Dispatches from Rome said Italians generally were indignant at Snowden's speech, which they considered a childish attack on the Latin nations and calculated to endanger the friendship between Italy and England. Berlin also disliked it, feeling that Snowden was trying to "squeeze still more out of the unfortunate German tax payers," and fearing that France, rather than quarrel with England, would compromise at Germany's cost.

PRESIDENT HOOVER'S law enforcement commission has divided its work into eleven sections and for each a committee has been named. Chairman George W. Wickersham himself is head of the committee to study prohibition, the other members being Newton D. Baker, Ada L. Comstock and Judge William S. Kenyon. No other single body of laws was singled out for such concentrated study as those concerning the Eighteenth amendment.

Judge Kenyon was designated chairman of the committee on lawlessness by government law-enforcing officers, which was made one of the subjects of special inquiry because of the recent use of firearms by prohibition agents in cases which aroused criticism in and out of congress. The committee on juvenile delinquency is headed by Miss Comstock, that on causes of crime by Henry W. Anderson, of Virginia, statistics of crime and criminal justice by Dean Roscoe Pound, of Harvard law college, police by Frank J. Loesch, of Chicago, courts by Judge William I. Grubb, of Alabama, prosecutions by Monte M. Lemann, of New Orleans, penal institutions by Judge Kenneth Mackintosh, of Washington state, criminal justice by Newton D. Baker, and cost of crime by Judge Paul J. McCormick, of California.

FARMERS who wish to make cider and let it get hard will not be interfered with by the agents of prohibition if they don't sell the stuff. Treasury officials announced that no restrictions would be placed on the manufacture of cider and fruit juices in the home providing these beverages were not sold unlawfully, and Dr. James M. Doran, prohibition commissioner, warned the dry agents not to molest the makers unless there was clear violation of the Volstead act.

"**HOLD** your wheat as long as possible in order to avoid increasing the congestion of the terminal markets," is in substance the message to wheat growers issued by the federal farm board. The board's statement said the crowding of the markets by unusually heavy shipments has caused a sharp depression of cash prices, although there is every prospect of a crop shortage in the world supply, which naturally would make prices higher in domestic and foreign markets.

The state board of bank organization listened to the plea of a delegation of Pigeon citizens for a state charter for the American Exchange Bank of that village, now being operated as a private bank. The petition previously has been denied by Rudolph E. Reichert, state banking commissioner, on the grounds that the Pigeon State Bank provided sufficient service for a village of that size. The plea was an appeal from Reichert's decision. The board took the matter under advisement.
