

## COUNTY ORATORICAL CONTEST HERE TODAY

Declamations Will Be Heard  
This Afternoon and Orations  
Tonight.

Today (Friday) the declamation and oratorical contests for representatives of high schools of Tuscola county will be held in the high school auditorium at Cass City. It was at first planned to have all the contests in the evening, but the entries have been more numerous than expected which has necessitated two sessions. Declamations will be heard this afternoon commencing at 2:30 o'clock and orators will contest this evening commencing at seven-thirty. Virgil Logan will serve as chairman. Supt. L. D. Randall is manager of the contests.

The names of contestants, the schools they represent, and their subjects are:

## TRACTOR SHOW HERE SATURDAY, MARCH 22

A tractor and farm machinery demonstration will take place here tomorrow (Saturday) at the G. A. Striffler implement store on East Main St. This demonstration will start at ten o'clock in the morning with pictures of the John Deere plant and the various ways in which their product is used. A free lunch will be served at noon to all the farmers who are in attendance.

After lunch is served, three experts from the John Deere corporation will tear down and rebuild one of their tractors and in doing so will explain the workings of the tractor. This will be interesting to all farmers or those mechanically inclined.

## TWO NEW HEADS IN TUSCOLA'S SCHOOLS

J. L. Meachum, a Smith-Hughes teacher in the schools at Dowagiac, will head the Millington school next year. B. F. Latzer, the present superintendent, sent in his resignation to the board of education, the same to become effective at the end of the school year. Mr. Latzer has been in ill health for several months.

W. R. Bush, principal at the Akron high school for five years, will be superintendent next year. He will succeed C. P. Kline, who has been superintendent there for six years.

## EXPECT NORMAL YEAR FOR MICHIGAN FRUIT

Michigan horticulturists can find considerable encouragement in the agricultural outlook published by Michigan State College as members of the College staff point out that fruit growers in this state are in a better position than growers in some sections.

Producers of apples are told that well colored fruit which is of good size and free from blemishes will find a ready market. Growers are warned that new plantings should be made sparingly and that varieties such as McIntosh, Fameuse, Jonathan, Steele Red, and Northern Spy will be the most profitable for this state.

Winter injury to peaches in some parts of the country give the Michigan grower whose orchard will produce a fair crop an opportunity to sell on markets which are normally sup-

plied by growers in other districts. Orchard practices which insure a clean crop of good sized fruit are recommended.

Normal prices for sour cherries are expected as there has been very little carried over of canned stock, but Michigan growers are advised to go slow on setting new orchards.

Proximity to large markets is expected to give the Michigan grape grower a normal market for his crop. Not much change in prices for strawberries is expected. The acreage remains about the same as it has been for the past two years.

## R. S. PROCTOR HOLDS OLD LAND GRANT TITLE

R. S. Proctor of Cass City has in his possession a certificate of a land grant from the government signed by President Franklin Pierce, Feb. 15, 1857, on 160 acres in section 8, Austin township, Sanilac county, given to John Strowd, who in turn deeded it to William Proctor, in 1865, father of R. S. Proctor. The land is now owned by Albert Grifka of Austin township.

## WON FIRST, LOST SECOND AT REGIONAL

Account of Themselves at  
Flint Tourney.

All Tournament Class "C"

Valek, Holly, center.  
Hopstetter, St. Michaels, guard.  
Edgerton, Cass City, guard.  
Ferguson, Holly, forward.  
Maison, Imlay City, guard.

Cass City defeated Bad Axe in the first game of the regional at Flint last Thursday, 10-5, repeating the verdict that was pronounced in the district meet here March 5-7. The locals played a tight, defensive ball and managed to gather five points each half to lead handily up to the last four minutes. The score at half-time was 5-0 with the locals leading. By the end of the third period, the score had changed to 7-0 and with but four minutes to go, developed to 9-0. Facing a goose egg, the Huron county seaters braced and dropped in two free tosses to make the count 9-2. Here the local reserves were injected and the final dropped with the score 10-5.

Friday night against St. Mike's, the locals showed some stage fright in the first period and emerged to play the finest ball of the season in the

last periods. The perennial champs from Flint caged three long toms and two free shots to lead the maroon 8-0 at the end of the first quarter. Capt. Edgerton brought his men back in the second to hold the parochials even 3-3 and end the half at 11-3. Opening the second half, the boys passed and cut their way to within Turn to page 8.

## DOG TAX IN TUSCOLA IS \$7,000 A YEAR

Dogs are responsible for more than \$7,000.00 a year in taxes in Tuscola county. At least, the owners of the canines think enough of the animals to pay that amount for dog license tags each year.

In 1928, the amount paid to township treasurers was \$5,226.00 and in 1929, the total was \$5,356.00. In addition to this, the county treasurer will receive about \$1850.00 a year from dog owners who failed to settle with the township treasurers.

The amounts paid by dog owners to township treasurers in the past two years are contained in the following table:

	1928	1929
Akron	\$354.00	\$384.00
Almer	144.00	162.00
Arbela	210.00	236.00

## PAROLE VIOLATOR IS RETURNED TO JACKSON

Three Criminal Cases Were  
Heard by Judge Smith  
Last Thursday.

At a special session of circuit court in Tuscola county on March 13, Mary Johnson and Chas. Johnson, both colored people from Vassar, were brought before the bar of justice. Mary pleaded guilty to a violation of the prohibition law and Charles admitted he was guilty in an assault charge. Both were released on suspended sentence. They promised to leave Michigan and return to their former home in Indiana.

Glenn Marsh of Deford pleaded guilty to the charge of contributing to the delinquency of a girl 15 years of age. He was sentenced to a term of 90 days in the county jail. Marsh was released from the state prison at Jackson on Feb. 19th last. Monday, officers came from Jackson to return him to the state prison to serve the unexpired term of his imprisonment there. Officers say he has still two years to serve because he violated the terms of his parole.

John Smith, sr., John Smith, jr., and Steve Smith arrested several weeks ago on a charge of breaking and entering, when, officers say, they were caught appropriating oats on the John Young farm in Gilford township, appeared before Judge Henry H. Smith Thursday. The elder Smith was returned to the county jail where he will be held until the May term of court when he is to receive his sentence. His two sons were released on suspended sentence and are to report to the judge in May.

In chancery court, in the suit of the State Savings Bank of Caro vs. David B. and Etta May Glazier, a judgment of \$2,472.80 due on principal and interest in a real estate mortgage was rendered in favor of the plaintiff.

In the case of the Great Lakes Foundry and Sand Co. vs. Thos. W. Axcell, a decree was ordered for the fulfillment by the defendant, of a contract on a 99-year lease on 40 acres of land in Juniata township.

## WARN INVESTORS AGAINST CROOKS

Michigan Securities Commission  
Says Crooks Are Fleecing  
Investors of State.

The Michigan Securities Commission is asking the co-operation of newspapers throughout the state in an effort to warn investors against several crooks who are picking up stocks by making false statements. The commission, in a warning to the public, regarding the operation of these crooks, says:

"The Michigan Securities Commission wishes to warn you to beware of men who come to you, knowing that you own stocks, and represent themselves to be agents of that company. These men use an assumed name and a fake address."

"They represent to you that your company is reorganizing or merging, or they offer to sell your stocks at a price a few points above the market price but promise you that the broker which they claim to represent will send a check for the amount the stock sells for. Or, they offer to trade real estate which they do not own. Once these stocks are in their possession you never see or hear of them again."

"If you wish to dispose of your stocks take them to your nearest broker or banker, or send them by mail to the company who sold you the stock. They will protect you."

## POLITICAL ANNOUNCEMENT

I wish to announce that I am a candidate for State Senator from the Twentieth District. This includes the counties of Tuscola, Huron and Sanilac. The office having recently been held by Huron and Sanilac counties, it now becomes the privilege of Tuscola county to present a candidate for this Legislative position. Having served in the House of Representatives during the sessions 1925-1927, I feel qualified to take up the work in the Senate with understanding and efficiency. Being personally identified with business and agricultural interests, the requirements of my district would receive my best efforts. I should consider it an honor to be elected Senator and I assure you of my honest endeavor to represent you in a creditable manner.

Your vote at the September Primary will be appreciated.

Respectfully,

## COLLEGE SETS DATE FOR GARDEN SCHOOL

A one-week course for those people who combine profit and pleasure by growing flowers and vegetables in home gardens will be given by the horticultural department, Michigan State College, March 24-29.

Anyone who does not enjoy continuous work had better save the dollar which it costs to register as the program of the course shows that the students will begin work at 8:00 o'clock in the morning and will still be going strong in the evening.

Both rock gardens and vegetable gardens are included in the course, but the outline of the studies does not state whether or not the rocks are assembled to give the vegetable garden convenient missiles for use on trespassing poultry.

Insect control, the use of fertilizers, and proper sprays for plant diseases are other subjects which will be discussed by the instructors during the week. The care of fruit and nut trees are also listed in the study outline.

## BARN AND LIVE STOCK BURN NEAR ARGYLE

Herbert Wilson Lost 13 Cattle,  
2 Horses and 2 Mules  
Tuesday Night.

The barn and its contents on the farm of Herbert Wilson, 3 1/4 miles west of Argyle, were totally destroyed by fire on Tuesday night. The fire was discovered by neighbors about 9:30 p. m., but had gained such headway that it was impossible to save anything from the burning structure.

Besides a quantity of hay and feed, 10 good cows, 3 head of young cattle, a span of horses and a span of mules were burned. The loss will run between \$2,500 and \$3,000.

The cause of the fire is unknown. Mr. and Mrs. Wilson were at Shabbona, attending a meeting of the Evergreen Community Club when the fire was discovered.

## HIGH SCHOOL LOSES HONOR STUDENT

Wendell Parrott, the oldest son of Mr. and Mrs. W. A. Parrott, died at his parents' home in Novesta township, on Wednesday morning, at 2:30 o'clock after nine weeks of illness. Funeral services will be conducted from the home this (Friday) afternoon at two o'clock, the Rev. Geo. Hill, of the M. E. church officiating. Interment will be made in Elkland cemetery.

Wendell Parrott was born in Glen-

Wendell A. Parrott,

dale, Van Buren county, May 14, 1914. He attended school in Mt. Pleasant until he reached the eighth grade. While living there, he was a member of the Boy Scout organization, Troop No. 1, of the Owl Patrol, winning several points of merit. He graduated from the eighth grade at the Brown School, Tuscola county, one of the honor students, and also winning the first prize in the mental arithmetic contest. He entered the Cass City High School in September, 1928, and was in attendance there until his illness. In the ninth grade, he Turn to page 8.

## LAST OF TOWNSHIPS REPORT RETURNED TAX

Indianfields township's treasurer has reported \$13,379.90 of unpaid taxes to County Treasurer Orlo McDurmon. Dayton township's returned tax is \$4,936.71. The total amount of taxes assessed in Indianfields was approximately \$106,783.00 and the total tax in Dayton was \$24,046.00. This makes the amount of 1929 unpaid tax in Indianfields 12% of the total assessed and that of Dayton 20%.

The amounts of unpaid taxes in other townships in Tuscola county were printed in the Chronicle last week.

## MRS. MINER SPEAKS AT W. S. C. FUNCTION

Delightful and Pleasing Pro-  
gram Rendered after Lun-  
cheon at High School.

The Home Economics department of the local high school was the scene of a happy occasion Tuesday afternoon when Mrs. Leon Miner of Owosso, state chairman of the division of poetry of the Michigan Federation of Women's Clubs, was the guest of honor of the Cass City Woman's Study Club. Mrs. Miner has a very pleasing personality and gave a review of the poem, "John Brown's Body" by Stephen Vincent Benet very interestingly. She had time to cover only the most important parts of the epic but she created in the minds of her hearers a desire to read the whole poem.

Preceding the program, a delicious luncheon was served by the Home Economics girls under the supervision of their instructor, Miss Esther Tarnoski. The ladies, nearly sixty in number, were seated at small tables prettily decorated in emblems of St. Patrick's Day with centerpieces of cut flowers. Many complimentary remarks were expressed in praise of the following menu which was served:

- Cream of Celery Soup
- Browned Crackers
- Breaded Pork Chops
- Apple Sauce
- Scalloped Potatoes
- String Beans
- Gelatin Salad
- Pineapple Tapioco
- Wafers
- Coffee

The music of the afternoon was given by the High School Girls' Glee Club who rendered two numbers, "The Shepherdess" and "Ride Out on Wings of Song."

Virgil Logan, public speaking instructor, was in charge of the humorous one-act play, "Red Carnations," very cleverly portrayed by Loma Reagh, Albert Warner and Robert Edgerton.

Besides Mrs. Miner the following out of town guests were present: Mrs. Detweiler of Owosso, Mrs. David Knight of Marlette, Mrs. Madigan of Saginaw, and Mrs. Charles Schwaderer and Mrs. Alex. Marshall of Kingston.

## ESSAY CONTEST FOR 7th, 8th AND 9th GRADES

Announcement is made by Superintendent L. D. Randall of an essay contest to be conducted in the 7th, 8th and 9th grades from March 27 to April 9, in cooperation with the Michigan Tuberculosis Association, on the topic "Protecting Health in Youth." The relation of health to success in life, and its value in the prevention of tuberculosis is the subject matter upon which the students will write.

All students in the three grades will participate in the contest, which will be carried on as a class exercise in English. It will be a purely local enterprise. The best paper will be printed by the Chronicle, and its writer will be rewarded with a prize offered by a local store.

The essay contest will be the principal local enterprise to be conducted

in connection with a nation-wide April campaign on child health and childhood tuberculosis. This campaign is based on the fact that approximately five out of every one hundred school children have "childhood tuberculosis," a condition often leading to active tuberculosis later in life, and that 80% of all children are infected with the germ of the disease by 14 years of age.

## 275 AT EVERGREEN COMMUNITY MEET

Two hundred seventy-five were at the March meeting of the Evergreen Community Club at Shabbona Tuesday evening. This is the largest attendance in the history of the club. Elder Slacker gave an address and Probate Judge Smith explained the provisions of the Couzens fund. Musical numbers included a selection by the McNaughton family, duets by Wilma and Jack Collier, Mrs. Wm. Waun and Alice Waun, and Mr. and Mrs. Wolf, Hawaiian guitar selections by Bert and Leonard Elliott and a harmonica solo by Jack Bullis. Other numbers on the program were a recitation by Vera Hersch, a dialogue by the Leslie School and a recitation by Edward Bauer.

## CROP OUTLOOK FAIR FOR STATE FARMERS

Increased Acreage Advised on  
Alfalfa, Home Grown Feed  
Crops and Sugar Beets.

To maintain normal acreages of most crops and to increase only those for which there is an assured market or which will be used at home, is the suggestion given Michigan growers of field crops in an agricultural outlook just published by Michigan State College.

Eastern hay markets recently have shown a preference for alfalfa hay from Michigan, and many state farms still do not produce enough of this legume to supply forage for their dairy cattle and livestock. The acreage devoted to this crop and to clover and sweet clover can safely be increased.

Michigan had to buy quantities of corn for feed this year, because the extremely bad weather materially reduced last year's crop. The outlook states that the corn acreage can safely be increased to care for the local demand.

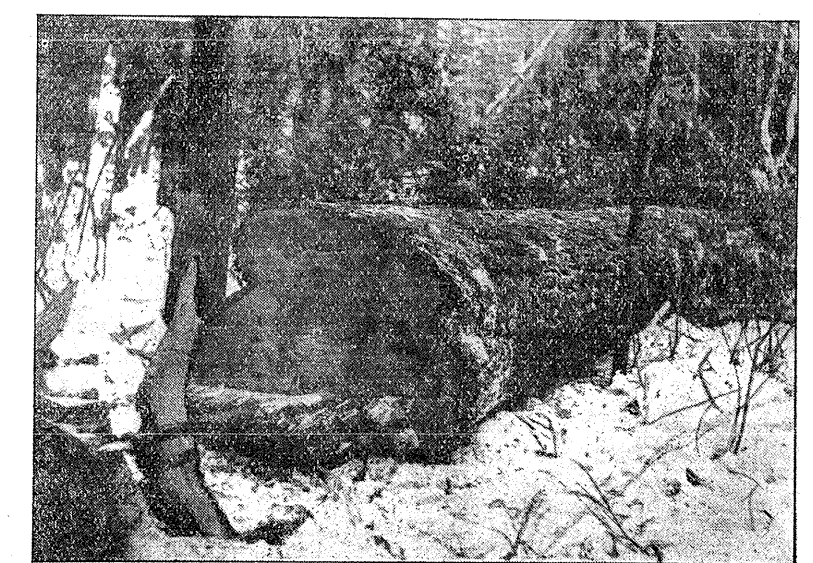

The barley acreage has been steadily increasing in the state, but large quantities are still shipped in for feed. The grain is practically equal to corn in feeding value for most classes of livestock, and it can be grown in regions where growing corn for grain is unsafe. The cost of milk and meat production can be reduced by growing a large percentage of feed on the farm.

With prospects of cheaper and more available labor, sugar beets, a contract crop, can be safely increased on fertile lands. Possible profits from bean and sugar beet crops depend a great deal upon the tariff regulations which are to be adopted. Any marked increase in the acreage of red kidney beans causes a price reduction, as there is only a limited demand for this type of bean.

Carl M. Horn, who has been connected with the Bad Axe schools for nine years, has accepted a position as superintendent of schools at Dowagiac. He will take up his new work in September.

Announcement has been made that Edsel Ford and many other prominent men of the state are aiding in the efforts to secure a government harbor at Port Austin at the tip of the thumb.

## TOWNSHIP VOTERS NAME CANDIDATES

Only One Contest in Elkland;  
Six Ballots for Treasurer  
in Elmwood.

Less interest was taken in the Elkland township Republican caucus on Monday than a year ago. Monday's caucus called out 149 voters. In 1929 the number was 378.

The only contest was for the office of supervisor. John Benkelman, who has served in that office for eight years, was nominated to succeed himself. He received 104 votes on the first ballot and his opponent, C. J. Striffler, received 45.

For the office of clerk, C. E. Patterson received 120 of the 128 ballots cast. Other nominations were made by acclamation as follows: Treasurer, Geo. E. Burg, highway commissioner, John Profit; overseer of highways, Geo. Russell; justice of the peace, Robert Spurgeon; member of board of review, John A. Sandham; constables, Jas. D. Tuckey, John McGrath, Lyle Koepfgen and C. D. Striffler.

All of the above candidates except Mr. Sandham and Mr. Koepfgen, were nominated to succeed themselves in the offices named.

The caucus was called to order by John Marshall. J. C. Corkins was chosen chairman and H. L. Hunt, clerk. John A. Caldwell, John Marshall, Mrs. A. A. Schmidt and Mrs. J. D. Tuckey were named tellers and officers of the caucus were sworn in by Justice A. D. Gillies.

Elmwood. With five willing to take the nomination for township treasurer in Elmwood, it was necessary to ballot six times to secure a majority for the successful candidate on Saturday at the Republican caucus. Wesley Downing was named as the candidate. Bert Perry was nominated to succeed himself as supervisor and Moses P. Freeman was named candidate for clerk, an office he has held for a period of 19 years. Other candidates on the ticket are: Highway commissioner, John Kennedy; justice, Edwin L. Burse; member of board of review, Clayton Hobart; constables, Chas. Seekings, Stephen Moore and Dan Mullin.

Novesta. Ninety voters attended the Novesta township caucus on March 13. Officers nominated were: Supervisor, Geo. Turn to page 8.

## EARLY PLANTING OF POTATOES ADVISED

Not More Acres, but More  
Yield per Acre Is  
Important.

At the recent Potato Conference called by Dean Cox, Michigan State College, Michigan's potato crop for this year was discussed thoroughly by both representatives of the growers and dealers and the Extension people of the college.

"Out of the conference, three or four things stood out prominently," says D. B. Jewell, Tuscola County Agricultural Agent, "among them that Michigan is not producing enough potatoes to supply the territory to which she has an advantageous freight rate. In other words, we are not supplying the markets to which we can ship potatoes cheaper than anyone else. Maine and Idaho potatoes have been taking these markets at a much higher freight rate, chiefly because of quality. There is no reason why Michigan should not thumb.

HAPPENINGS IN THE NEIGHBORING TOWNS

Carefully Selected from Interesting Exchanges for Chronicle Readers.

Clark J. Bisbee, former judge of probate of Huron county, died Feb. 24 at his winter home at Melbourne Beach, Fla. He had suffered a paralytic stroke ten days before. He is survived by his widow and two sons.

Within a few days, the ancient frame structure at North Branch, familiarly known as the "Cobb building," located on the northeast corner of Huron and Saginaw Sts., will be no more. Workmen are engaged in wrecking the property, recently purchased of P. F. Heenan by Fred Baxter, who will utilize the material in residence construction. Built approximately 45 years ago it has been the scene of perhaps more varied and rapidly changing business enterprises than any other structure in that community.

E. H. Crosby & Co. on Saturday, celebrated the 33rd anniversary of its establishment in the grocery business in Bad Axe. The firm was established March 4, 1897, by the late E. H. Crosby and his daughter, Ida, the late Mrs. John Clark. About three years after the organization was formed, Seymour, Howard and Leonard Western entered the business and have been active members of the firm since that time.

Jack Ernest Paul, former Pigeon high school star has carved out a brilliant record as a star guard on the freshman basketball team at Central State Teachers College which has copped the Frosh Michigan Collegiate Conference title. Paul started the season as forward but was shifted to guard to take full advantage of his exceptionally effective defensive play.

Three men armed with sawed off shotguns held up and robbed the Shell gasoline station at Lapeer at 9 p. m. Friday of \$45. J. B. Young, the proprietor, was asked to change oil in the robbers' car. While doing so, two men "covered" him. The third man warred off customers with his gun and robbed the till. They escaped.

A meeting to consider the addition to the court house at Bad Axe approved by the supervisors last fall was held in the judge's room Thursday by a special committee and the board of auditors. John Paison, who made a rough sketch of proposed improvements, met with the committee. Nothing definite was decided at a late hour Thursday afternoon. The county board approved of a plan to erect an addition to the court house to care for the office of the register of deeds and the prosecuting attorney, whose offices are rented by the county at present. The proposed wing would cost upwards of \$6,000, according to the plans.—Tribune.

There was a community auction sale in Peck on Saturday and those having articles to dispose of were invited to bring their wares to the sale. Fred Lasher, who lives in Fremont township, did not notice anywhere that moonshine was restricted and along about noon drove to the sale and parked a borrowed automobile near the ten-cent feed barn where the sale was being held. However, he seemed to have most of the crowd and this caused Deputy Sheriff Victor Teeple to make an investigation. When the deputy got in the vicinity of the car, Lasher ran away and was not apprehended. Teeple made a search of the car and found a quantity of alleged moonshine whiskey and placed Mrs. Lasher under arrest. According to reports, Lasher is still running, but probably will be picked up by the officers very shortly. Mrs. Lasher was taken to Sandusky and following her arrest, the house in Fremont was searched and a still, mash and moonshine were seized. At this time Ira Johnston was arrested and he, too, was taken to the county jail at Sandusky where all three will be charged with violating the liquor law. The Lashers live on the Johnston farm and are related to Johnston. It is said that an elaborate still and other contraband equipment were on the farm.—Peck Times.

Louisa's Letter

Some People Let Special Folks Run over Them.

Dear Girls: It is an absurd fact that some men and women who have the courage of lions on most occasions and with most people are as spineless as jellyfish where some particular member of their families is concerned.

Some father who are powers in the outside world will allow their daughters to get away with anything. Some mothers who are forbidding and austere members of committees, are as putty where their sons are concerned.

These children have gotten a strange hold on their parents, so to speak, while they were young and are clever and selfish enough never to let go.

There are other instances of this weakness which have not parental love as their root. I have known sisters and brothers to bow down to one girl in the family. They never seemed to resent the fact that she got the pick of everything, that her wishes were considered before those of the others.

I have known boys who got the lion's share of everything, who never considered the rest of the family until they needed help, on which occasions all of them would rally around like a trained chorus.

It is hard to realize in such cases as the latter two, why sensible men and women continue to be trampled upon by the family idol of all their lives. But if we could look back and see how they were reared, it would probably not seem so strange.

The fact of the matter is that these people were made to give up to these favored ones in their youth. They had instilled in their minds that sister was not well or would go into tantrums if she failed to get what she wanted, and it was the best thing all around to let her have her way or they were told that brother was the oldest and he had had to work so hard that it was only fitting to let him have the best of everything and to take his advice whether it amounted to anything or not.

Things instilled in a little child's mind are there to stay. Let us be careful of our children—let us be impartial and see that we have no little family idols in our home.

Yours, LOUISA.

WICKWARE.

Miss Nora Jackson of Mount Pleasant spent the week-end at her home here.

Mrs. John McClure of Alpena, who has spent the winter in California, was the week-end guest of her daughter, Mrs. Cecil Decker. Park McClure, who spent several weeks at the Decker home, returned Sunday to Alpena with his mother.

Mr. and Mrs. John Jackson and son, Clark, were Sunday guests of their daughter and sister, Mrs. Howard McCordle of Jeddo.

Mr. and Mrs. Thos. Nicol, Mrs. Leland Nicol and two sons spent Sunday at the S. Nicol home.

Mrs. Ward left Sunday for Pontiac where she will spend a few days.

Clayton Hartwick returned to his home here Tuesday after spending several days in Detroit.

Merle Chambers motored to Alpena Saturday, returning Sunday.

Mr. and Mrs. Chas. Nicol of Caro visited Sunday afternoon at the Jas. Nicol home.

Don't Sell Wheat Short Federal Control of Power Memories Fade Smallpox Also Marches

Uncle Sam buying wheat at a price above world market and storing it helps wheat growers of other countries, although that is not his intention.

What the wheat situation will be next July, nobody can guess. Wise gamblers will refrain from selling short. Uncle Sam's pocketbook is back of wheat prices in the United States, a new kind of "corner."

Flour has reached its low price since the World war, \$6.60 a barrel, compared with \$7.30 a year ago, and \$18 a barrel, the peak price in war time. Good news for housewives. Bad news for farmers.

Senator Couzens introduces a bill to regulate production, transmission and distribution of all classes of power in interstate commerce.

He would let government supervise rates, and securities issued by holding companies.

Some say the people should have no control of power and its distribution, although power in national life comes next to food, water and air.

The people at least might supervise sales of securities. One company issued more than 60,000,000 shares of stock based on odds and ends of power companies. Foolish investors bought the pieces of paper, at a price exceeding fifteen hundred million dollars for the whole collection.

William Howard Taft, chief justice of the Supreme court, President of the United States, secretary of war, rode to his grave in Arlington cemetery on a gun carriage, the first United States President to be buried there.

A military funeral was, perhaps, not what he would have suggested, but he was entitled to it as former secretary of war and commander in chief of the army and navy.

Before burial the body of the late chief justice lay in state for three hours in the Capitol, on a catafalque upon which had lain the coffins of Presidents Lincoln, Garfield, McKinley and Harding.

Now Lincoln stands out in that, or any list. How soon men become unimportant and are forgotten! Lincoln never.

Ominous and threatening for India is the beginning of Mahatma Gandhi's campaign of "no violence, but refusal to obey," against the British.

Gandhi and his followers march in protest to make salt tax-free, and smallpox marches with them. Three are dead, 22 prostrated by disease. The British have made a desperate fight against the various plagues in India, smallpox included, with the natives fighting against them.

It has never been possible to prevent natives looting in the filthy Ganges, occasionally swallowing water upon which corpses are set adrift.

Under British rule the population of India has increased by 100,000,000. It would soon diminish under native rule, with the aid of smallpox and other plagues.

There is plenty of money in this country, the difficulty is to get it. Secretary Mellon needs \$450,000,000 for Uncle Sam.

The public offers to buy twelve hundred and ninety-one million dollars' worth of treasury certificates. There is plenty of water in the oceans, lakes and rivers. The trouble is to get it on dry soil that needs it.

All doctors and parents will be interested in news of a "meningitis carrier," a nineteen-year-old youth, William Fehiker, in the reformatory for boys at Booneville, Mo.

Five superintendents and inmates with whom he came in contact died of meningitis, showing how easily the deadly disease may be contracted.

From Devil's Lake, N. D., comes the sad story of Sioux Indians that drank anti-freeze mixture for the sake of its alcohol.

It was the wrong kind. This small item of news interests managers and stockholders of railroad and steamship lines.

An airplane driven by a Diesel engine flew from Detroit to Miami in ten hours fifteen minutes without stopping, with Chief Engineer Woolson of the Packard company and Walter Lees, pilot.

And the trip cost for fuel \$8.50.

"Every sweet has its sour; every evil its good." Emerson said it, British Tories believe it. The attack on religion in Russia has created intense feeling in Britain. If Premier MacDonald's labor government refuses to break off relations with Russia, it will probably be driven from power.

Men and nations, with their radios movies and other interesting things, may seem to lose interest in religion. But such an attack as Russia makes on established beliefs shows that religion retains its hold on the human race.

Happenings of a Quarter Century Ago

Items from the Tri-County Chronicle of Mar. 17, 1905.

At a meeting of the directors and officers of the Cass City Fair Saturday afternoon, the following superintendents were appointed: Horses—Byron Bingham and Richard Parr, jr. Cattle—J. B. Pettigrew. Sheep—E. Knight. Swine—Jas. Maharg. Poultry—A. Livingston. Floral Hall—A. E. Boulton. Agricultural Hall—J. W. Stitt and J. M. Allen. The sum of \$400 for races and \$300 for special attractions was appropriated for the coming fair.

Village election passed off quietly here Monday, every candidate on the Village ticket winning over the candidates on the Citizen ticket. There were 187 ballots cast. Officers elected are: President, A. H. Ale; clerk, Chas. G. Matzen; treasurer, Matthew L. Moore; trustees, Herbert Frutchey, Isaac Hall and Clark McKenzie; assessor, Egbert B. Landon.

Last Thursday evening, a National Protective Legion was organized here with a membership of 38. Officers chosen are: Past pres., Etta M. Schenck; pres., Mrs. G. W. Goff; sec., J. C. Corkins; treas., Geo. W. Goff; conductor, Mrs. A. A. McKenzie; sentinel, Roy Hallock; guard, Frank Bliss.

N. A. McPhail left Tuesday morning for Adrian where he will arrange for making models and patterns of the "Security Gate" which was patented just recently by Messrs. McPhail and Janes.

The material for a new railroad bridge over Cass river, just south of town, arrived last week and on Sunday morning a gang of 35 men under the supervision of Wm. J. Grigware and Roy Hallock commenced the job of putting the bridge in place.

Last Friday evening, John Benkelman of the firm of Young & Benkelman was so unfortunate as to fall down the cellar stairs at the meat market and fracture a rib.

P. S. McGregory became the sole owner of the Model Shoe and Clothing Co.'s store last week when he purchased H. B. Outwater's interest in the business. Mr. Outwater will act as solicitor for the Massachusetts Mutual Life Insurance Co. A. L. Johnson and E. B. Landon sold their butter and egg business to A. Ale. John Riker has again entered the barbering business and has purchased the business formerly owned by him from Thos. Quinn.

**Sore Throats and Coughs Quickly Relieved by this Safe Prescription**

Here's a doctor's prescription that is really throat insurance. Sore or irritated throats are relieved and soothed almost instantly with the very first swallow. About 90% of all coughs are caused by an irritated throat; consequently for most coughs too there is nothing better than this famous prescription—it goes direct to the internal cause. It is put up under the name Thoxine and is guaranteed to stop coughs and relieve sore throats in 15 minutes or your money will be refunded. Singers and speakers find Thoxine very valuable.

The remarkable thing about Thoxine is that while it relieves almost instantly, it contains nothing harmful, is pleasant tasting and safe for the whole family. Ask for Thoxine 35c, 60c, and 1.00 bottles. Sold by Burke's and all other good drug stores.—Advertisement 1

**Professor Lauds Efficiency**

A QUESTIONNAIRE ASKING THEIR OPINION OF CHAIN STORES WAS SENT TO 45 PROMINENT UNIVERSITY PROFESSORS. 43 OF THEM ANSWERED. EVERY ONE OF THE 43 REPLIED THAT HE CONSIDERED THE CHAIN STORE TO BE IN THE INTEREST OF THE PUBLIC.

E. G. Rasmussen Instructor in Marketing, Vanderbilt University, cites the efficiency of the chain-store method. He says:

"Economies are brought about largely through large-scale buying. Its advantage is due to large-scale economies and efficiency in management." Professor Rasmussen thus emphasizes the reasons why the chain-store system is a benefit. Kroger Stores employ these principles in their operation—large-scale buying, quick handling and efficient management. These economies are passed on to the public.

# THIS AND THAT

### What Does 1930 Mean To You?

It is not what a man earns in life that makes him independent financially, but what he saves. The present year of 1930 will be a good year for you in proportion that its end finds you better fixed to withstand the vicissitudes of life. It doesn't make any difference how much big money you get if you throw it away foolishly.

Of course, we are speaking of financial matters only. So far, one-sixth of the year has passed. How do you stand? What has 1930 meant thus far? Will the other part of the year show any improvement? You are the only person in the world who can answer the questions for yourself, and it is entirely in your control.

### Tuscola Needs But One Candidate.

The Vassar Pioneer-Times last week suggested the nomination of Wm. J. Spears of Vassar as state senator from the Tuscola-Sanilac-Huron district, and the Caro Advertiser, in an editorial, proposed the name of Herbert P. Orr, a Caro attorney, as a candidate. Neither man has made a formal announcement. Not so with Phil O'Connell of McGregor, Sanilac county, who now holds the office. He placed his announcement in the newspapers of the district last week, and this week Erastus C. Brainerd of Vassar is announcing himself as a candidate.

A. D. Gallery of the Caro Advertiser, this week, is conducting a straw vote with seven candidates on the ballot for the nomination for senator. The names on the ballot are: Ed A. Dillon, Columbia township supervisor; H. P. Orr, Caro attorney; E. C. Brainerd of Vassar, former state representative; E. A. Rohlf, prominent farmer of Akron; Wm. J. Spears, Vassar attorney and banker; Wm. Cook of Akron; and Philip O'Connell.

If Mr. Gallery's canvass is confined to the Caro community, it will be probable that Mr. Orr will be the favorite. If it is county-wide, the results will be more interesting. There remains this fact, however, that if Tuscola county is to provide the senator for the next two years, one candidate will be a plenty to campaign against the present incumbent, who has quite a following in the district and who has been found up and doing in the days preceding the primary.

### Children's Growing.

We were intrigued with an item we read recently in Better Homes and Gardens about children growing more in certain seasons than others, and we are reproducing it below:

"I was amused to receive a letter from Nell Griffith Wilson, Kenwood, California, who asks: 'Did it ever occur to you that children have their growing season at the same time that plants have? We discovered this when we kept measurements on our kitchen wall for several years to see how much our two girls were growing. It happened that the first measurement was made in August and the second in February. The record showed, over a period of several years, that each of them grew sometimes as much as 2 1/2 inches from February to August, or during the spring and summer season, while during the winter period, they would grow little more than 1/4 inch. And so this experience shows that sunshine and warmth are as conducive to growth in children as they are to plants.'

### Flyblowing the Churches.

Every once in a while you run up on a citizen who tries to impress you with the broadness of his religious viewpoint by taking a few pot shots at the churches of the nation. The speaker will tell about helping other human beings in distress, and exhibit every sign of superiority over those who worship in organized churches in the name of their religion.

It is rather seldom that these talkers realize that without the organized churches of the past it is highly improbable that they would know very much about religion. It is worse than that. Without the organized churches of the past it is doubtful if our present civilization would be even vaguely as good as it is. The critics of the church are quite willing to accept the fruits of its work, but they are not always just enough to give credit where it is due.

### To Fight Crime.

In Chicago a committee of twelve prominent business men has been formed and furnished with \$1,000,000 to fight crime in that city.

The committee will employ prosecutors, investigators, secret agents, and anybody else necessary to secure adequate protection for property in the Windy City.

The necessity of such an action is reflection upon the government of that city. While conditions are worse in Chicago than anywhere else we know about, still such a sore is a grave indication that our governmental agencies are falling down.

Various states have recently overhauled and reorganized their systems of government in an effort to achieve economy and efficiency of operation. Does our political system need a thorough repair to meet new conditions and accomplish new tasks?

A team of horses won't accomplish much unless they pull together. Neither will business men.

Cavalier coal is high quality coal. When we say that we mean every word of it. All we're asking is a chance to prove it.

Our telephone hangs on our wall for just one purpose—to make it more convenient for you folks. Just call 15.

It takes more shovels full of poor coal to heat your home—and then the heat isn't satisfactory. Put a ton of Cavalier coal in your basement. Just try it.

The mosquito season is next on the schedule.

Thousands of the most successful chick raisers have proved that "Wayne All Mash Chick Starter" does the job right. They have discarded the fussy methods formerly used to feed chicks, and are now getting bigger profits with less work.

Motorist: "Am I on the road to Janville?" Native: "Nope, y' ain't." Motorist: "Then that old man back there has lied to me." Native: "Mebbe not, stranger. Mebbe I hev."

Every good chick is an investment which should be carefully guarded.

Several tired looking men tell us it's housecleaning time. We've often said that the women of this community work their husbands entirely too hard.

Hundreds of the most successful hatcherymen feed and recommend Wayne All Mash Starter—because it insures well feathered chicks and quick uniform growth at a low net cost.

"I ain't never rode in a automobile but once!" said the old colored man, "an' den I didn't put all my weight down."

Wayne All Mash Starter saves work, time, worry and puts extra poultry profits into your pocket.

"Chicken, sub," said the old Negro sage, "is the usefulest animal dere is. You can eat dem before dey is born and after dey is dade."

We have a fine lot of Leghorn pullets for sale. This is a fine bunch and are laying.

A salesman in our office here was talking about a homely girl he once knew. He said she looked like seven miles of bad road.

It's quite a trick to raise a lot of chicks and anyone who does it will tell you that no small part is in proper heating of the brooder. Jamesway brooder stoves do it right.

If you are looking for a flock of Leghorn pullets see us. We have a fine lot and the price is right.

We begin to see signs of graduation here in Cass City.

## Channelrain

OF COP-R-LOY

**Fire Proof—Lighting Proof—Trouble Proof—**

Channelrain Roofing is a step forward in metal roofing design because it is most successful in preventing capillary attraction—tendency of water seeping over the lap joints and getting beneath the roof.

Channelrain has a vertical barrier to rain water which goes under the lap. This is the famous channel wall and is seen in the illustration. The channel formed by the patented design of Channelrain Roofing is for the purpose of carrying off water that seeps or is blown under the lap. When properly applied Channelrain drains off all the water that falls on the roof, and this roofing is so simple in design that no special experience is required to apply it.

No roofing sticks are required under the ridges, the vertical member which is the channel wall furnishing adequate support for nailing.

Not only in design but in material itself Channelrain is a distinctive roofing. It is made of COP-R-LOY, the Copper Alloyed Steel, is coated with pure zinc by the hot galvanizing process. You can apply Channelrain yourself and enjoy the superior benefits from this modern patented roofing through long years to come. It will save money for you. It is sold by responsible dealers.

## Lesson for March 23

### JESUS TEACHING AND HEALING

LESSON TEXT—Matthew 13:53-16:12. (Print Matthew 15:21-31)  
GOLDEN TEXT—Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.  
PRIMARY TOPIC—Jesus' Kindness to a Stranger.  
JUNIOR TOPIC—Jesus' Kindness to a Stranger.  
INTERMEDIATE AND SENIOR TOPIC—Faith that Wins.  
YOUNG PEOPLE AND ADULT TOPIC—Faith Tested and Triumphant.

The material embraced in this section of Scripture is too abundant to attempt to cover in one lesson, therefore selection should be made in keeping with the lesson topic.

#### I. Without Honor in One's Own Country (13:54-58).

Jesus shared the common fate of men—unacknowledged in His own country. Even His own brothers did not believe on Him till after His resurrection (John 7:3-8; cf. Acts 1:14). Familiarity has a paralyzing effect, and at times breeds contempt. Because of unbelief only a limited work could be done there.

#### II. Jesus Healing the Multitude (14:13, 14).

1. He retired to the desert (v. 13). The news of the cruel death of John the Baptist brought grief to the Master's heart, and He withdrew to a place of quietness to commune with His Father. The best thing to do in time of sorrow is to flee into the presence of God. Jesus accepted John's death as typical of His own.

2. Followed by the people (v. 13). He could not be concealed. The peoples' interest was such that they followed Him on foot. Where Jesus is, the multitude gathers.

3. Jesus healing the sick (v. 14). Although the rulers had broken with Him, He did not abandon His work. He continued to preach and work for the good of those who would hear. Though desperate and hopeless cases were brought to Him, nothing was found too hard for Him. The peoples' great need excited His sympathy. He is just the same today.

#### III. Jesus Healing the Daughter of the Woman at Canaan (Matt. 15:21-31).

The first twenty-one verses of this chapter should be considered in connection with this topic. The force of the lesson can only be seen in contrast with the failure of the people. Verses 1-20 represent the apostasy of Israel and her rejection of the Savior. In sharp contrast, we see in the healing of this woman, salvation typically going forth to the Gentiles.

#### HOSPITAL NOTES.

1. The mother's awful distress (vv. 21, 22).

Her daughter was grievously vexed with a devil. The sufferings of the mother were perhaps as intense as those of the child. This Gentile woman had doubtless heard of the fame of Jesus. His power to heal had come to her notice and many times she longed for Him to come her way that her daughter might be healed. Now that He was in her neighborhood she came straightway to Him. Let parents be encouraged to bring their children to Jesus, even though they be demon-possessed.

#### 2. The woman's fervent appeal for help (vv. 22-25).

She fell at His feet and pled for mercy. She besought Him to cast the devil out. Her appeal may be considered as a model prayer.

(1) She was sincere and earnest.

(2) The prayer was brief and definite.

(3) It was personal and humble. (4) It was believing and persistent.

#### 3. The woman's faith rewarded (vv. 26-28).

(1) The Lord's apparent refusal (v. 23). He answered her not a word. The reason for His silence was that He was sent to the lost sheep of the house of Israel. This woman was a stranger to the Covenant people. Her appeal was on the wrong basis. She addressed Him as the Son of David, which only a child of the kingdom had a right to do. She must come in the right way. (2) The woman's quick response (vv. 25-27). As soon as she perceived the difficulty, she worshiped Him as Lord and cried for help. While only the Israelite could approach Him as the Son of David, all could come to Him and own Him as Lord. She willingly took her place as a Gentile "dog," recognizing that salvation is of the Jews. (3) The glorious issue of her faith (v. 28). She received more than she asked. Her daughter was healed at once and the instruction she received was worth much to her. She goes down in history with the Savior's commendation of her faith.

#### Life Needs a Good Pattern

Remember how swiftly the shuttle flies and how a broken thread may mar the fabric. Remember that without a good pattern, all weaving is to no purpose; take much thought, therefore, as to the pattern of a good life and be greatly instructed by that life which is the exemplar for us all—Galus Glenn Atkins.

## LARGE ACREAGE WILL SINK POTATO PRICES

Conservative Plantings and Cuts in Growing Costs Urged for Michigan Producers.

Michigan potato growers are asked to consider the statements made by government officials in the Agricultural Outlook which reports a contemplated increase in the acreage of potatoes grown in the United States and predicts a consequent reduction in market prices if weather conditions are favorable for the crop.

With normal weather conditions, the proposed acreage to be planted will produce 421 millions of bushels. The farm price for the 1924 crop which was approximately the same number of bushels was 62.5 cents per bushel.

Prospective lower prices will make production economies still more profitable. The usual method of reducing the costs of production per bushel is to produce more bushels per acre.

One of the least expensive ways of improving the crop is to use high grade seed which is certified to be free of trouble-some seed-borne disease. Michigan produces some of the world's best potato seed and growers of the state have the first opportunity to purchase it.

The varieties of seed recommended by the State College farm crops department are Irish Cobblers for early potatoes, and Russet Rurals, Green Mountains, or White Rurals for late varieties.

**SUPERIOR PERFORMANCE**  
this new eight is  
economical to own

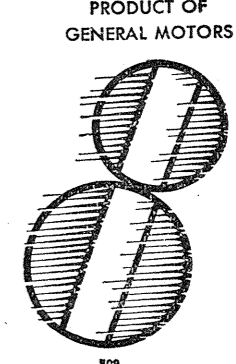

Few cars can equal the speed, pick-up and climbing ability made possible by the 85-horsepower engine of the New Oakland Eight. It is the most powerful used in any car of comparable size and weight, only racing cars excepted. But even with its superior performance, this car is inexpensive to own. Its first cost is very moderate. And its gasoline mileage equals that of many sixes of the same size. . . . Maintenance costs, too, are very low because parts are easily reached and the power plant is remarkably sound in basic design. Valves can be easily adjusted. Bearings are large, sturdy, interchangeable. A water recirculation system promotes greater engine efficiency. And full pressure lubrication assures positive oiling. . . . Oakland's Fisher bodies, too, are built to withstand extremely hard wear. The effect of all these features is not only to assure economy, but to keep the car's ultimate resale value high. . . . Come in. Let us point out the New Oakland Eight's many exceptional qualities. Then let us give you a demonstration, and you will realize how much you are offered in the car with superior performance.

The New Oakland Eight, \$1045 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers, rear fender guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

**SERVICE POLICY**

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet

owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations!

In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

### STATE FOLKS FINISH SHORT COURSE STUDY

#### List of Graduates Shows Michigan Residents Use Scholastic Opportunities.

The list of short course graduates who recently finished their work at Michigan State College prove that the home folks favor this practical scholastic work as only seven of the 137 graduates are not residents of Michigan.

The dairy production course was the most popular this year and 32 men received diplomas in that subject. Many of the testers who work in the state dairy herd improvement associations receive their training in this course.

The course in poultry attracts both men and women. Twenty graduates obtained training in modern production methods.

Two courses in general agriculture, one of eight and the other of 16 weeks, had a combined graduation list of 46. Home Economics was not so popular; only two women receiving diplomas in that subject.

Studies of the manufacture of dairy products held the attention of 28 students, and 14 specialized in agricultural engineering. The use of power machinery on farms has given impetus to this subject.

Among the short course graduates were seven from the three Thumb counties. They are: Arthur Rapson of Bad Axe, winter team, general agricultural; Gilbert B. Goodwine of Marlette, agricultural engineering; Lewis Richards of Brown City, dairy manufacturing; Robert E. Crosby of Fairgrove, Preston F. Taylor of Marlette, Ralph T. Van Petten of Reese, and Ralph H. Wischman of Marlette, dairy production.

#### HOLBROOK.

The town hall was filled to full capacity on Wednesday afternoon at the Greenleaf township caucus. The women especially showed a decided interest as they nearly outnumbered the men folks. Quite a lot of opposition in the field this year.

Officers nominated were as follows: John Jackson, supervisor; James Dew, clerk; Hugh McColl, treasurer; David Hartwick, commissioner.

Mrs. Edgar Jackson and daughter, Edna, attended a sewing circle at the home of Mr. and Mrs. James Morrison on Thursday.

Mrs. Lewis, mother of Mrs. Stanley Jackson, is on the sick list this week.

The Golden Rule Club met at the home of Mrs. Barney Shagena on Thursday. The work for the day was quilting and rug making. A very nice dinner was served at noon. Mr. and Mrs. Hartel of Argyle and Mrs. Elizabeth Simkins were the honored guests. The next meeting will be held at the Vogel home in April.

The Holbrook Community Club held its second annual home-coming meeting on Thursday night at the home of Mr. and Mrs. Edgar Jackson—a business meeting with the election of officers. Robert Spencer was re-elected as president, Arthur Ballard as vice president, Mrs. Nelson Simkins as secretary and treasurer. Committees were named. It was decided to make this a monthly gathering of the community. The next meeting will be at the home of Mr. and Mrs. Robert Spencer on April 17, followed with a pot luck luncheon. Everyone welcomed.

A poultry meeting at the home of Mr. and Mrs. Guy Hoadley, south of New Greenleaf, will be held on Apr. 15, at night. Pictures will be shown to illustrate the feeding and care of baby chicks. The meeting is under the direction of Mr. Hartt, county agent.

Sunday visitors at the Nelson Simkins home were Charles and Gerald Simkins and Mr. and Mrs. Jack Dunn of Ubyl, Mr. and Mrs. Frank Simkins and family of Pontiac, Mr. and Mrs. Francis Souden and children and Mrs. Barney Hill.

A reunion was held at the James Hewitt home on Sunday.

Mr. and Mrs. Ramage of Pontiac visited at the home of Mr. and Mrs. R. Ramage on Sunday.

#### RESCUE.

A nice crowd attended the oyster dinner at the Wiltton Heron home last Wednesday.

Mrs. George Hartzell has been having a serious attack of the flu the past two weeks.

Mr. and Mrs. John Combs were Owendale callers Saturday.

Ralph Britt was an Owendale caller Monday.

Mr. and Mrs. Jesse Putman were Bad Axe callers Saturday afternoon.

The Grant Ladies' Aid will meet with Mrs. Levi Helwig for dinner and work on Thursday, March 27.

Stanley Mellendorf attended the teachers' institute at Bad Axe Friday.

Rev. and Mrs. O. W. Trask of Elkton were entertained for supper at the Joseph Mellendorf home Thursday.

Mrs. John MacCallum and son, Arnold, and daughter, Vera, were callers in Cass City Friday afternoon.

Mr. and Mrs. Jos. Mellendorf were business callers in Cass City Saturday.

Mr. and Mrs. Roy Russell and daughters of Owendale were Sunday visitors at the John MacCallum home.

Sunday visitors at the Jos. Mellendorf home were Miss Erma Hartwick of Cass City, William Parker and daughters of Bad Axe and Mrs. John Beewick and daughters, Ula and Margaret.

#### Lightest of Metals

Lithium is said to be the lightest of metals, having a specific gravity of 0.59. There are eight metals between this and aluminum, which has a specific gravity of 2.6. Therefore, aluminum may be said to rank tenth.

#### World's Largest Cities

Paris is the fifth city in size. London and New York are first and second. Some authorities consider London first and New York second, while others give first place to New York. It depends upon the area considered as comprising the cities. Berlin is third, Chicago fourth and Paris comes next.

#### Painful Surgery

Surgical operations were performed by the ancients. Among such operations were trephining or fracture of the skull, and the crushing and extraction of stones in the bladder. Of course, these were all operations performed without anesthesia.

#### The Mount of the Holy Cross

THE Mount of the Holy Cross is one of the sky-piercing peaks which constitute the Rocky mountain range. It is located in Eagle county, Colorado, near the town of Miniera, its noary head rises to an elevation of 13,973 feet or considerably more than two and one-half miles above the waters of the Atlantic and the Pacific.

On this mountain nature carved a deep ravine some 2,000 feet long running up and down its side, fashioned a transverse ridge some 800 feet long across and above the center of this ravine and thus produced a mighty and holy cross from which the mountain takes its name.

By virtue of its altitude this ridge is almost always covered with snow, high winds cause the snow to drift into the ravine and thus a great, white cross appears on the mountain. This inspiring marvel has been referred to as "A Nation's Guiding Emblem of Faith."

Uncle Sam, through his forest service, now has set aside a tract of land of some 850 acres which includes this mountain and is known as Holy Cross National forest, as a shrine for the use of his people for devotional, educational and recreational purposes, and it has come to pass that an annual, non-denominational pilgrimage can be made to the top of Notch mountain, directly opposite this great nature-made cross, by all who desire to "lift up mine eyes" in this unusual and glorious spot.

#### Expensive Message

A business man climbing a Swiss glacier was astounded when an Alpine guide suddenly arrived with a telegram for him. The tax on the message was \$10, but the guide had made a five-mile journey on skis over the frozen snow.

### Konjola Ends Agony Caused By Rheumatism

#### Lady Suffered for Five Years—Feared Relief Would Never Be Her Position.

Don't have the fear that there is no escape from rheumatism, even though medicine after medicine, treatment after treatment has failed. Put your

Mrs. Magdalena Roberts, faith in Konjola, as did Mrs. Magdalena Roberts, 10109 Forest Avenue, East, Detroit. Think of her joy when she uttered these glad words:

"No wonder I am grateful for Konjola. For five years I endured agonies; at times the pains in my back were so terrible that I was sick all over. The pains attacked every part of my body. My stomach was in bad condition too. Nothing helped me, and I was about to give up in despair when I heard of Konjola and its amazing success.

"How glad I am that I put this wonderful medicine to the test. Why, the very first bottle did me a lot of good, and then the improvement was rapid. In just six weeks the rheumatism was conquered and my digestion was restored. I am feeling just fine, and I think it my duty to tell the world what this remarkable medicine, Konjola, did for me."

Konjola is sold in Cass City at Burke's Drug Store, and by all the best druggists in all towns throughout this entire section.—Advertisement.

## WON FIRST, LOST SECOND IN REGIONAL

Concluded from first page. Three points of a tie when the score was 16-13 with the Flint team badly scared. Bracing here, they held the locals to just one free throw for the rest of the game and ran their total to 22. The second team played the last four minutes and did a good job. The basket ball suits are being packed away this week and the season is now a memory. In the two state tournaments, the squad won five games before losing to St. Michaels, turning back Sebawaing, Deckerville, Unionville and Bad Axe twice.

## EARLY PLANTING OF POTATOES ADVOCATED

Concluded from first page. produce the quality to keep this market. "Michigan acreage of potatoes last year was 10% under normal. Indications this year are that Michigan will have an increase of 10% over last year which should mean that she should have a normal acreage. In order to produce quality, the potato growers of this section should have their potatoes planted from the middle of May to the first week in June in any case. Later than this means immature potatoes. "In order to make profits, not more acres but more yield per acre is important. Three factors will influence yield greatly. Good seed, and by good seed is meant seed from inspected fields, has on the average increased the yield 50 bushels per acre over ordinary seed. Spraying with a high pressure sprayer has on the average increased the yield 50 bu. Add to this, sufficient plant food and the average yield for this section should be raised from less than 100% to the acre to nearer 200. The potato area comprising Bay, Huron, Tuscola, Saginaw, Genesee, Lapeer section raised more potatoes than any other section in the state of Michigan. We have the location to get our potatoes more directly to the consumer than do most growers in other sections of the state. It looks as if we are losing a good bet if we do not go after this crop in an intelligent and careful way."
