The Chronicle, in relating the story of the automobile accident in which six persons were injured while on their way from Cass City to the 12th of July celebration at Yale, said that the bus stopped to avoid running over a flock of turkeys. Clare Stafford of the Stafford Motor Bus Line says this statement is incorrect. He says the bus did not stop, but that the driver slowed up when the turkeys were seen. The bus, Mr. Stafford says, was travelling between 12 and 15 miles an hour when the car containing the people who were injured struck the rear end of the bus.

Twenty-six ladies of the Baptist church held a social afternoon at the home of Mrs. Mary Gekeler on South Seeger street Wednesday. The affair was in honor of Mrs. James McKenzie, who expects to leave Cass City soon to make her home with her daughter, Miss Zelma McKenzie, in Kalamazoo, and was a complete surprise. Mrs. William Curtis, in behalf of the ladies, presented Mrs. McKenzie with a beautiful floor lamp. A delightful six o'clock dinner was served on the porch. A beautiful angel food, bearing pink candles to represent the years of active service given by the honor guest to the church, was presented by one of the ladies. Seven candles represented the years she had been president of the missionary society, ten candles for ten years as church clerk, twenty-seven for the years she had been a member of the Baptist church. Mrs. McKenzie has also been a Sunday school teacher for a number of years whenever she has been able to attend.

# The DAIRY

**LIBERAL FEEDING OF HEIFERS BEST**

**Specialist Offers Suggestions to Meet Conditions.**

Feed a liberal amount of feed to the yearling heifer and watch her grow.

That is the recommendation made by J. C. Nisbet, extension dairyman, Kansas State Agricultural college, to all dairymen.

"By lack of sufficient and the right kind of feed the yearling heifer will never develop the size she should and will mature much later than the well-fed heifer," says this dairy specialist. He offers four rations to increase the returns from the yearling heifer.

First ration: Feed all the alfalfa hay she will eat. Under ten months—feed two to three pounds of a mixture of corn chop, oats, bran, and oil meal and 12 to 20 pounds of silage per day. Over ten months—feed small amounts of corn chop. Increase the silage to 20 to 30 pounds daily.

Second ration: To be fed where alfalfa hay is not available but silage is plentiful. Feed all the roughage she will eat. In addition feed 15 to 30 pounds of silage per day. The heifer will need three to five pounds of grain mixture of corn, oats, and oil meal in which the oil meal makes up at least one-half of the grain ration.

Third ration: Where alfalfa hay is available but there is no silage: Feed the heifer all the alfalfa hay she will eat and three to five pounds a day of a mixture of equal parts oats, corn, bran, and oil meal.

Fourth ration: Where neither alfalfa hay nor silage is available: Purchase alfalfa to form one-half to one-third of the total roughage consumed daily. Feed grain as in ration three.

### Don't Stop Grain Feed During Pasture Season

Early pasture for the dairy cow is not going to make the owner any money if he assumes that washy grass will entirely take the place of grain feeding. In that case the pasture results in a heavy strain on her. She will soon be in poor condition, falling off in her milk flow, and illly prepared for the later test of hot weather, flies and short pasture.

It is much better to keep up the grain feeding at a fair profit now, in order to insure a steadier milk flow throughout the summer, and to keep the cows in good physical condition.

The correct ration for cows on pasture, according to the Missouri experiment station is: 300 to 400 pounds of ground corn, 200 pounds of ground oats or bran, 100 pounds cottonseed meal, a good mineral mixture. The minerals will furnish lime and phosphate to make milk, keep the cow in condition, and help to develop the calf she is carrying. It makes the cow more resistant to abortion and possibly also more resistant to flies.

### Immature Sweet Clover Likely to Cause Bloat

Alfalfa and sweet clover, when in full bloom, are less likely to cause bloating than the immature clover where wet with dew or rain. Keep cows off the pasture until dew and rain have dried. Allow free access to salt and slaked lime. Feed cows before turning them into the pasture. When sweet clover is the exclusive roughage ration and has been fed for some time it may cause death from bleeding. The hemorrhages occur in large swellings about the rump or elsewhere in the body or internally. Such poisoning most commonly occurs when the sweet clover is moldy, having been killed by frost or withered in autumn, or when old sweet clover is excessively fed. Dehorning or castration is likely to be followed by fatal bleeding when such sweet clover has been the exclusive roughage feed of cattle.

### Weedy Pastures Injure High Quality of Milk

Ridiculous is not the word to describe the quality of milk from cows running on weedy pasture fields, observes the Farm Journal. Ragweed, pigweed and goldenrod cause milk that is way off when it comes to flavor, to say nothing of reduced flow at this time of year.

But cows don't eat these weeds from choice. Cows will let the weeds alone if you will feed plenty of good roughage, plus grain and supplements, or a ready-mixed dairy feed.

Sheep for weed killing and for wool, dairy cows for milk—that's the best dairy program.

### Bolt the Separator

The separator should be placed level and firmly bolted to a strong foundation, to prevent vibration of the machine. It should run smoothly, to prevent loss of butterfat, in the skim milk as well as excessive wear of the machine. To prevent undue strain and wear, the separator should be started at low speed and gradually raised to full speed. The bowl should be filled with warm water when started, to take out dust and odors and keep the milk sweet.

aches made it almost impossible for me to do my work. I tried different medicines, but could not get the slightest relief.

"I heard and read a great deal about this new medicine, Konjola, and thought I would give it a trial. The first bottle did me no more good than any other medicine tried.

That's the kind of medicine Konjola is . . . one that keeps the faith; that brings results; that makes good. From six to eight bottles are recommended as a complete treatment.

Konjola is sold in Cass City at Burke's Drug Store, and by all the best druggists in all towns throughout this entire section.—Advertisement 7-25

"It is more important to use an antiseptic for the stomach, bowels and kidneys than an antiseptic for the mouth and teeth for the reason that 95% of all diseases arise from intestinal disorders. I have prescribed Dr. Burnham's SAN YAK as a laxative and kidney diuretic for swelling of

the limbs, high blood pressure with rheumatism, dizziness and diabetes and found it the one and only product I would be willing to tie to. San Yak is the only laxative I ever prescribed that does not irritate and flush away the mucus membrane of the lower bowel. Hence its use in moderation is highly commendable to health." "WE" Join With Firestone To Bring You GREATER VALUES at LOWER PRICES

PRICES are low on many good tires, but there is only one "best". The Firestone Company, Firestone Dealers and Service Stores join in reducing distribution costs.

It was not enough for Firestone to originate and apply economies in tire building. Firestone now originates and further applies economies to distribution which reduce our cost and enable us to in-

crease our volume at small profits . . . We invite you to come in and see the new Firestone Line at these low prices. We not only have tires in all popular sizes, but we have the cross sections so that you may examine the inside construction of the tire, and actually see the advantages of Firestone over other makes. You will be convinced that no such values have ever been offered you before.

LEADERSHIP

- Firestone brought out for automobile use: —The first straight-side tire. —The first rubber non-skid tread. —The first commercial demountable rim. —The first patented Gum-Dipping process. —The first balloon tire.

PERFORMANCE

- Firestone Gum-Dipped Tires; —hold all world's records on road and track for safety, mileage, speed and endurance. —for eleven consecutive years have won the 500 mile Indianapolis Endurance Race. —were on winning cars in Pike's Peak Race, where a slip meant death. —were on the Studebaker car which on a board track at Atlantic City in 1923 went 30,000 miles in 26,326 minutes. —ran 71,351 miles on a Detroit taxicab, before the first tire was replaced. —were on the G. M. C. truck carrying a two-ton load that hung up the Coast-to-Coast endurance record. —for 10 years have been sold on a mileage cost basis to taxicab and bus lines in greater volume than any other tires, and now equip the world's largest taxicab fleet and the world's longest bus line.

Taboo Still Live
Hard Kurdish Fighters
Sarnoff Sees Ahead
No Bets Against Jones

Civilized men laugh at "taboos" that keep a woman in the South seas from touching a canoe...

But the taboo is not dead, even in civilization. Horror seized the British house of commons when a Laborite member, Beckett, laid hands on the heavy mace...

The mace symbolizes the power of the house of commons. Beckett was suspended, 324 to 4.

Kurds from Persia, convinced that Kemal Pasha, Turkish dictator, flouts the will of Mohammed, undertake to correct him. Fifteen thousand of them, pouring in from Persia...

Kemal killed about 15,000, nearly all of them. But the Kurds, desperately courageous as is usual with Mohammedans...

Their treatment of one Turkish aviator whom they shot down, immediately gouging out his eyes, proves their earnestness.

Kemal's bombing planes are searching the Mount Ararat crevices where Kurds hide. A change from the day when the ark landed peacefully!

Armenians are doing what they can to help the Kurds kill the Turks. In the light of history you can hardly blame them...

RECOLLECTIONS OF A PIONEER—NOT OLD

Concluded from first page.

The best of my recollection, were J. C. Laing's store, Tennant's tavern, J. L. Hitchcock's store, Gottlieb Ahl's and Buckingham's boot and shoe making and repair shops...

I believe that every boy early forms ideals, particularly as to his ideal man or men, after whom he would like to pattern, even though, like myself, he should later fall far short of the original specifications.

My ideal men back in those days, aside from my father of course, were John C. Laing, Dr. P. A. Schenck and L. I. Wood. I can vividly recall at this time the pleasing personality and benevolent smile of Mr. Laing.

Dr. P. A. Schenck had but recently graduated as a dentist and was located in a one-room office over Tennant & Polly's store.

bumpy and causeway roads ten miles to the "dead-waters," and then back through the woods to a small clearing, where stood a small log house.

With the later medical history you are all more or less familiar. I may say, however, that with the rest of you, I'm mighty proud of the present Pleasant Home Hospital.

As previously remarked, I sold out to Dr. McCoy on June 17, 1917. The Chronicle of that week contained this bit of news.

The first newspaper published in Cass City was launched in the fall of 1881, during the big fire of that year.

At this juncture, I would like to tell you how much I regretted the untimely passing of my dear friend and former partner, James D. Brooker.

I forgot to mention that just because Walter Gamble, Homer Weydemeyer, Johnnie Bader, Hugh Seed, myself and others stretched a tight wire across the sidewalk and violently upset the first editor Cass City ever had.

From the first crudely printed Cass City paper to the present splendid Chronicle is a long step as well as a big comparison.

And, by the way, it has just occurred to me, that to Walter Gamble and myself should be extended not a

little credit for the most excellent newspaper and printing plant that you have in your city today.

Now just a few words about the little Cass City Times, "which lived six months to a day and then all of a sudden gave away."

I will never forget the fire of 1881. What a trying and strenuous time it was, with forests and settlers' homes burning all around us.

The people of other states responded nobly to the call for help. Clothing, food and hay were sent in as early as possible.

Speaking of spring freshets, how the water used to tumble down Seed's hill in the spring and how much fun it brought to the boys and how much grief, inconvenience and annoyance to their parents.

It may not be generally known, but it's a sad fact just the same, as the history of this county records, and that is that Cass City was at one time the county seat of this county.

Since the foregoing callous trick was perpetrated on a quiet, friendly and unsuspecting people, there has at all times existed more or less rivalry between Cass City and the so-called hub of the county.

A number of years ago one of our most prominent citizens drove over to Caro with his horse and buggy.

DEATHS OF THE WEEK.

Henry Croft. Henry Croft, 73, pioneer resident of Sheridan township, died suddenly Sunday morning in his home on East Irwin street in Bad Axe.

Besides his widow, he is survived by six children; Alex of Detroit; William of Sheridan; Ernest of Cass City; Miss Dossie Croft of Bad Axe; Mrs. Minnie Wilkinson of Detroit; Mrs. I. H. Moore of Plattsburg, N. Y.; also one sister, Mrs. William Lammy of Twining.

Philip Mark. Philip Mark, for many years a resident of Evergreen township and Cass City, died Wednesday morning, July 9, at his home in Yakima, Wash., which he had made one of the beauty spots of the city through his love of flowers and his response to his skillful handling.

Mr. Mark was born in England and was 87 years of age on March 8, 1930. He came to Canada when a young man and married Charlotte Louvina Wells 53 years ago on May
