PAY NOW.

"Buy now" clubs are being formed in many communities to encourage people to buy supplies with greater freedom and thus make business more active.

Many persons run up monthly bills for groceries and other supplies. They could help the situation if they would pay cash as they buy.

Those people who let their bills run up month after month, and only pay up at long intervals, are one of the heavy loads which business has to carry.

There is just as much money in the country today as there ever was, but it is not circulating fast enough.

Some people are slow in paying their bills because they are hard up all the time, and they pay out their money as fast as they get it.

THE WORK OF THE LEGION.

It is a quite remarkable thing that the annual reports of the American legion convention at Boston show that there has been an increase in the membership of the legion the past year amounting to considerably over 100,000 members.

This increase of membership at this time proves that this organization has a very powerful hold upon the former soldiers.

The war experience of these men was an episode that has colored all their lives. A deep sense of comradeship draws together the men who participated in this experience.

These men are bound together by common desires. Having made great sacrifices for this land of freedom, they want to see it protected from perils that menace it.

CURBING SPECULATION.

President Hoover, in addressing the American Bankers' Association, referred to the excessive use of credit to finance speculation in times of unusual prosperity.

Excessive speculation in 1929 was the main reason for the stock market crash, which had such a depressing effect on business.

effect on business. What can be done to discourage the speculators from such follies another time? People do not seem to learn in such matters from the losses of the past.

Theoretically it ought to be possible to prevent any such use of the country's credit for speculation as occurred in 1929.

A FARMER'S VIEW ON WAR AND PEACE

(A worthwhile editorial selected by the National Editorial Association.) It is carnival night in the home town and chief of attractions is the big parade of 20 Legion posts.

Twenty miles south of the home town is a huge government hospital where are quartered veterans to whom the gods of war have been less kind.

This war business is getting a lot of attention nowadays and rightly so. Since the dawn of history war has been regarded as inevitable.

Judged by any standard war is a failure. When a dispute arises between two countries it is futile to take up arms if right be the objective sought.

Raymond McCullough of Big Rapids and Miss Esther Farnoski of Alpena were week-end guests of Mr. McCullough's parents.

The Cass City Grange will meet at the home of Mr. and Mrs. Jos. Benkelman on Friday evening, Oct. 17.

Breezes from the Hill

Audree Bliss, School Editor. Elementary— Kindergarten. Having experimented in making witches, brooms, hats and pumpkins, we are now making the witch's house. This house folds up and may be opened up, showing the witch inside. We are learning Stevenson's poems, "The Swing" and "The Friendly Cow." For conversation, we are telling our personal experiences and our dreams, the most of which are spun from pure imagination. First Grade. We have two new first graders. The boy is Harding Lefler, and the girl's name is Juaneta Wise. We have made a book of "Raggedy Ann's Home." In the afternoon we have writing class and learn to write in Raggedy's book. Alice's group is reading about "Bobbie's Yellow Chicken." Second Grade. I never heard of a milk bottle, and tea pot or a coffee pot creating such enthusiasm as they have here in the second grade this week. All the pupils who drink coffee or tea must drop their names in the teapot or the coffee pot while the ones who drink milk have their names in the milk bottle. Of course we hope soon to have the bottle full and the tea and coffee pot empty. We have two very colorful new pictures of "Jack and the Bean Stalk" and "Little Red Riding Hood." Intermediate— Third Grade. We are starting to decorate our room for Hallowe'en. We are also making plans in language class for our Hallowe'en party. We are studying the different kinds of sugar for hygiene class. We are very much interested in the manufacturing processes. Buddy Kirkpatrick, who was injured in an accident last week is back in school this week. We are very glad that his injuries were not serious. We are studying Roman numerals in arithmetic. Fourth Grade. Hilda O'Dell was a caller in the fourth grade on Wednesday. Our geography journey club are at present visiting the Yellowstone National Park. The children have brought some very splendid pictures of Yellowstone Park from home. We expect before next week to be in San Francisco. Our trip was from coast to coast. Window boxes and a very pretty plant presented by Mr. Campbell

gave our room a cheery look. The pupils in the hygiene class have made some health records that they expect to follow closely. We want to have a good attendance and we know we can do that by keeping healthy. Donald Allured has carried off the honors so far this year in spelling. He has some pretty close followers. We hope to work hard for his laurels. We hope more of the parents will find time to visit us. Come up and watch us work. Fifth Grade. We are trying to establish a commercial system in our arithmetic class. One unit, a store, is partially completed. In our health class we have been studying foods. The class was weighed last week. We found nearly every one a few pounds underweight. We hope to have a health chart completed this week. We have found the number of calories needed by each pupil. Now we will begin working on menus. The English class is working on a Columbus playlet. The first scene is very nearly complete. Sixth Grade. These are some of the health rules we are trying to observe: 1. I wash my hands before each meal. I cleaned my finger nails to-day. 2. I brushed my teeth last night and this morning. 3. I carry a clean handkerchief and use it to protect others when I cough or sneeze. 4. I drink no tea or coffee. I drink at least four glasses of water. 5. I eat three wholesome meals and drink three glasses of milk. 6. I sleep ten hours at night with my window open. 7. I try to sit, stand and walk straight. 8. I play out of doors at least one hour. We mark ourselves on these rules. The Crusade will last for twelve

weeks. At the end of the time anyone who has 75% is entitled to a certificate stating he is Health Crusader of good standing. High School Notes— The green-house is commencing to look much like it did last year. The boys are propagating some soft wood cuttings and hope later to be able to supply each room in the building with a flowering plant. The animal husbandry class are using the "Breeder's Gazette" in a study of market. They are finding other articles in the magazine very helpful. The past week we have been registering Holstein and Ayreshire cattle, using actual pedigrees. The American History class is taking up the study of the Constitutional Convention. Each member in the class represents one delegate. George Washington, the chairman, presides and debates ensue as to whether the Virginia or New Jersey plan of government shall be adopted. Our conclusions were reached in the adoption of our present constitution. In Economics we are making out personal budgets for those who earn moderate incomes. In this way we hope to be more systematic in the spending of our own incomes when the time comes when we shall earn our own money. High school students rush "Cass Tatler." When the freshmen paper came on the newstand Wednesday, everybody had a "ready 2 cents" and the 100 copies were sold in 5 minutes. There was great applause by the assemblage Thursday when Mr. Logan parted the curtains and opened the second assembly program of this year. The program was a play, "Wurzelmumery" directed by Deloris Sandham. The cast consisted of Richard Van Winkle playing the part of Robert Crawshaw and Blanche Stafford as his wife. Viola Crawshaw and her fiance were played by Loma Reagh and Horace Pinney. Clark Dunn plays

the part of a theatrical-minded solicitor. The program of next Thursday was announced today too. An ex-sailor who spoke here last year will give an interesting account of his adventures. Dr. Hibbard, president of one of the largest educational institutions in the Philippines, Stillman College, noted historian and traveler, spoke to those who did not have a class the third hour Thursday. Coach Kelly was recently appointed to a position on the board of directors of the Upper Thumb Athletic Association. This association is made up of twelve of the larger schools of the three upper Thumb counties, Sanilac, Tuscola and Huron. Cass City will be confronted with three new faces in Class C basketball competition this season. All high schools enrolling between 100 and 300 pupils are classed as C schools and compete for honors at the state tournament. The new members are Caro, formerly a Class B school but re-organizing on a Junior-Senior High School basis placed them in Class C; Pigeon, and Fairgrove, the latter two schools have gone into Class C through increased enrollments. In their desire to acquire suitable reading for the students both for recreation and references, the high school has subscribed for the better magazines of today. These magazines may be found on the reference shelves in the library or in the different class rooms: National Geographic, Literary Digest, Popular Science Monthly, American, World's Work, Reader's Digest, Historical Outlook, Nation's Business, Saturday Evening Post, American Boy, English Journal and Country Gentleman. B. A. Walpole, head of the Teachers' Training Department at M. S. C., once said that our Agriculture Department subscribed for more magazines than any other school in the Thumb and possibly in Michigan. In Mr. Campbell's bookcases can be

found: Jersey Bulletins, Guernsey Breeders' Journal, Hereford Journal, American Poultry Journal, Better Homes and Gardens, American Farmer, Holstein Friesian World, Breeders' Gazette, Rhode Island Red Journal, Farm and Fireside, Poultry Tribune, Aberdeen Angus Journal, Berkshire Journal, Leghorn World, Small Stock Magazine, Ayreshire Digest, Successful Farming, Chester White Journal, American Sheep Breeder, Duroc Bulletin Journal, Spotted Poland China Digest, Hoard's Dairyman, America Fruit Growers, Cleanings in Bee Culture, Agriculture Leaders' Digest, Shorthorn World, Calf Club Magazine, Crops and Markets and Holstein Breeder and Dairymen. As is the yearly custom, the campaign for magazines is on. The senior class of 1931 are working hard for a trip next spring. If a senior calls at your door for a subscription for the Ladies' Home Journal, Country Gentleman or Saturday Evening Post, remember he is doing it for his class. All he needs is your support. KONJOLA FREED THIS MAN OF STOMACH PAINS Could Not Eat a Meal without Distress—New Medicine Wins Another Fine Triumph.

Mr. Henry Geddes and always brought on smothering spells. I found it impossible to get sound, refreshing sleep. "Konjola marked the turning point of my health. Day by day the different ailments became less severe and then, like magic, they disappeared. Today I eat what I please, enjoy the food and digest it as nature intends. Sound, refreshing sleep is mine. I owe this all to Konjola and I praise it with all my heart and soul." Though Konjola works quickly, and many sufferers are greatly benefited in a week, a complete treatment of from six to eight bottles is recommended for thorough results. Konjola is sold in Cass City, Michigan, at Burke's Drug Store, and by all the best druggists in all towns throughout this entire section.—Advertisement 10-17
