VOLUME 25, NUMBER 33.

CASS CITY, MICHIGAN, FRIDAY, NOVEMBER 28, 1930.

EIGHT PAGES.

LOCAL CHAIRMAN TO MANAGE SEAL SALE

L. D. Randall Has Complete Responsibility for Conduct of Sale.

L. D. Randall, superintendent of schools, will act as chairman for the 1930 Christmas seal sale in Cass City with complete responsibility for conduct of the sale, the Michigan Tuberculosis Association announces.

No Christmas seals will be sent to Cass City residents through the mails from the Michigan Tuberculosis Association office in Lansing, though the association states that by error some may come to the city. Persons who receive seals from Lansing are asked to send them back in the envelope accompanying them with the explanation that seals are being purchased locally.

Cass City, by having a local chairman in charge of the sale, is eligible to win one of the health awards offered by the Michigan Tuberculosis Association to communities making the best record in the sale. Three awards are being offered, one for each of three population groups into which the communities are divided. Awards will be made on the basis of the number of seals sold per school student.

In cities having a school enrollment of from 50 to 150 students, the award for the best sale will consist of one week's service by a school nurse. For communities having from 150 to 300 students, the prize will be two weeks of nursing service. Three weeks' service will be given the winning community in the group having a school population of more than 300 students.

SUPT. CRAWFORD SPEAKER AT P. T. A.

The December meeting of the Parent Teachers Association will be held Monday evening, December 1, at the high school. Community singing will be in charge of Miss Ione Hulst. The High School Boys' Quartet will also furnish music. M. J. Crawford, superintendent of Cass schools, will be the speaker of the evening. He will take for his subject, "Present Trend of Education."

The recreational director of the P. T. A. has arranged for a boxing match next Monday evening between Bruce Brown and Alex Henry. This will be a hard fought battle, it is predicted. Alex has the advantage of two inches longer reach, while Bruce expects to offset the length by his rapid firing. There will be five rounds allowed. "Chet" Graham and J. L. May will act as seconds, while G. A. Tindale will fill the place of referee. A bedroom suit will be given to the winner by E. W. Douglas.

STATE TO TAKE PART IN LIVESTOCK SHOW

Michigan will be well represented at the International Livestock show at Chicago next week. Selected animals from the herds of Michigan State College will attempt to uphold the high record set by past showings, and a student judging team will compete with representatives from other institutions in the judging ring.

An unusual feature of the student group is that for the first time a co-ed, Evelyn Bradley, of Augusta, will compete as a member of the team. The others who have been chosen include W. L. Finley of Hartford, Chas. L. Davis of Eden, Robert Lasher of Waldron, L. E. Keyt of Lakeview, and Kenneth D. Parish of Fairgrove.

In preparing for this year's exhibit many of the animals which have won recognition in the past have been replaced by individuals bred at the college. Early showings at state fairs have brought blue ribbons, and the animal husbandry department of the college is confident that this year's accomplishments will again be satisfactory.

NEW PASTOR WELCOMED BY EVANGELICALS

A social gathering was held at the Evangelical church Monday evening to welcome the new pastor and his wife, Rev. and Mrs. C. F. Smith. It was a sort of home-coming event, for the "new minister" in a sense is not new at all but returns to Cass City after 18 months' absence to fill a vacancy in the pulpit here.

Rev. Smith served the local congregation here for five years, leaving Cass City to serve as pastor at the Kilmanagh church at the beginning of the conference year in May, 1929.

Mrs. Louis Krahling, representing the local congregation, welcomed Rev. and Mrs. Smith back to the Cass City church, at the reception Monday evening. Rev. Bottrell, pastor of the M. E. church, Rev. Allured of the Presbyterian church, and Rev. Curtis of the Baptist church all gave short addresses. Their remarks revealed the fine spirit of fellowship and cooperation among local churches.

Rev. Smith told of the pleasure of Mrs. Smith and himself in renewing their positions in the church here.

Master Gerald Kercher gave a recitation in his brisk style and musical numbers during the evening. Included a piano solo by Miss Ruth Schenk, vocal duets by B. A. and Leonard Elliott, and Myrtle Greenleaf and Shirley Lenzner, and a vocal solo by Mrs. Albert Creguer. Edward Helwig presided as chairman of the evening.

Light refreshments were served in the church dining room at the close of the program.

NEW LICENSE PLATES RECEIVED IN TUSCOLA

Henry W. Beecher, manager of the Tuscola county branch of the office of the secretary of state for issuing automobile plates, received the 1931 consignment Friday. He will handle 7,500 pairs of plates this year. For several years the Tuscola county license numbers started with a "45." The present consignment has for its first number, 967,201. Sheriff James Kirk secured the first number.

DENIES CHARGE; WILL STAND TRIAL

Albert Johnson, 48, colored, a native of North Carolina but now claiming Vassar as his home, was arraigned in Justice Frank St. Mary's court at Caro Saturday on a charge of assault with intent to kill. He waived examination and was bound over to the circuit court for trial. He is alleged to have attacked another resident of the negro quarter at Vassar with a knife. Johnson, who claims his reputation for honesty and quietness of deportment has never been questioned before, denies the accusation and says he will stand trial on the charge when the next term of circuit court opens on December 1.

CRANDELL'S SHEEP WIN MANY PRIZES

H. T. Crandell of Cass City was very successful in his showing of sheep at the American Royal Stock Show. Showing against most of the good Oxford flocks in the country, Mr. Crandell's winnings included champion ram, champion flock, first get of sire, second pen of ram lambs, third one-year-old ram and first aged ram.

In Lincoln, Crandell won 11 first prizes and three champions. In Cotswolds, he won all first prizes and champions, showing against sheep from seven states.

BIG FLINT BAND TO GIVE CONCERT HERE DECEMBER 5.

Groves' 70-piece band and Double Quartet of Flint will give a concert at the High School Auditorium in Cass City on Friday evening, December 5, under the auspices of the Cass City Community Club. Officers of the club are convinced that they are offering to the people of this community a wonderful musical treat in bringing the Flint band and singers to Cass City.

The Groves' Band is composed of graduate members of both the Flint Central and Northern High Schools, all of whom have had from two to four years of advanced band training. The quality of their programs is said to be exceedingly high. Both band and octette are under the direction of Clarence Eddy.

Four of the members of the band have won national honors with their selected instruments. Bernard Smith, trumpet player, won national honors in 1927, and Garrett Elmhoy, trumpet player, was selected as national soloist at Interlochen in 1930. Willard Johnson and Wesley Mumford were chosen as the national snare drummers in 1928.

Members of the 70-piece band and the double quartet will be entertained in the homes of Cass City people during their stay here.

REGARDING THE EXHIBIT OF COTSWOLD SHEEP AT THE AMERICAN ROYAL STOCK SHOW, THE DROVERS' TELEGRAM SAYS:

"Harry Crandell, Cass City, Mich., created even more of a sensation in Cotswold sheep than he had in Lincolns. When M. H. Thornton had finished working out on this breed Crandell stood with every blue-ribbon and the purples signifying both championships in his hand. In addition he took all second places but that on pen of three ram lambs, which went to D. F. McDowell and Sons, Mercer, Pa., and in the two ewe classes annexed third-place ribbons in addition.

"His aged ram brought the championship in that sex, while a yearling captured the corresponding place in ewes.

"Crandell met his toughest competition in the McDowell entries. Rams from the latter flock took all seconds in class. In ewes and the group classes McDowell was given every third ribbon that did not go to Crandell, with the exception of pen of ewe lambs, which went to R. E. Richards, Portage, Wis.

"Carl Schaffner and Sons, West Union, Ill., took fourth in yearling rams and flock.

"Five exhibitors made up one of the best Cotswold shows ever seen at the Royal and one which brought out some classes numbering as high as 12."

JUNIORS ARE CLASS CHAMPIONS

Quick on Injured List as Result of Breaking a Bone in His Leg.

The football suits have all been piled away, with the Juniors established as the 1930 champions of the class football. These games started off last Wednesday with the Freshmen and Sophomores playing first. The Sophomores, ruled the heavy favorites to easily defeat the "freshies," and even mentioned as possible class champions of the entire school, were forced to take a humiliating defeat at the hands of Russell Quick's sturdy followers. The ball carrying of the Freshmen backfield, composed of Quick, Moss, Dodge, and L. Kelly, was the outstanding feature of the contest. They took the ball over the goal line for two touchdowns, while the Freshman line held the vaunted Sophomore backs to small gains.

The second game was played Thursday between the Juniors and Seniors. This game developed into a strictly defensive battle, with the Juniors finally taking advantage of a break to force the Seniors to accept a safety which netted the Juniors a scant two points. These two points, however, were the final margin by which the Juniors won the game.

The final game between the two winners (Freshmen and Juniors) was rated to be a battle royal, with the Juniors slight favorites as they possessed an entire first team backfield and many Varsity linemen. On the first play of the game, Russell Quick, the mainstay of the Freshman backfield and acting captain of that aggregation, was severely injured, breaking one of the bones in his leg. He will be kept on the injured list for a couple of months at least. This blow demoralized the Freshman squad and the Juniors romped away with a 33-0 victory to clinch the class championship.

The drug store of Harvey Manley at Reese was entered by burglars one night recently. Cigars, cigarettes and tobacco to the value of \$80 were stolen.

Banks Closed Saturday Night.
After Nov. 30, the Cass City State Bank and the Pinney State Bank will not be open on Saturday nights.—Advertisement.

CHICAGO TRIP GIVEN STATE CLUB MEMBERS

Jim Milligan Will Represent Tuscola and Ella Engelhard Huron County.

Jim Milligan, a member of the Cass City Live Stock Club, who, for four years in succession, exhibited a grand champion steer in club classes at the Michigan State Fair, expects to leave this week for Chicago where he will represent Tuscola county at the National Boys' and Girls' Congress Nov. 29 to Dec. 5. The selection was made by the club department of Michigan State College.

For six years, Jim has exhibited live stock at the state fair. In 1926, 1927, 1928, and 1929, he showed the grand champion steer at Detroit. In 1928, he won second prize on his calf at the Junior Live Stock Show at Cleveland and at the same show in 1929, his Angus steer was third in its class and his Shorthorn stood in 4th position. In prize money, his winnings at these shows and at local fairs have totaled \$515.50.

Jim Milligan's gross returns on his club stock in six years are \$2,278.50 and the net returns are \$1,324.91. There are 20 purebred cattle on the Milligan farm today where there were none six years ago.

Nearly 50 Michigan boys and girls will be rewarded for long hours spent caring for crops, tending livestock, canning fruits, or making clothing by a trip to the National Boys' and Girls' Club Congress, Chicago, Nov. 29 to Dec. 5.

Some of the club members who will make the trip were winners in contests held at the State Fair, part of them won in national contests conducted for club members by companies interested in club work, and the rest are sent by local agencies in their home counties.

Winners in the state contests will compete at Chicago with the thousands of other club members who will represent most of the states in the Union. One Michigan girl is taking an exhibit of canned fruit to Chicago and one boy will show a pen of fat lambs. Michigan's boy and girl health champions will compete for national honors. Members of the staff of state club leaders will accompany the youngsters and will supervise the sight seeing trips which have been arranged for them.

Miss Ella Engelhard of Sebawaing was chosen recently to represent Huron county at the Congress.

PIGEON MAN IN JAIL FOR SHOOTING OFFICER

Emanuel Rice, 40, Pigeon elevator employee, is in the Huron county jail charged with shooting Richard McBride, 27, Pigeon night watchman, late Monday when the officer came to his home to arrest him.

McBride is in the Hubbard hospital at Bad Axe suffering from loss of blood. A charge from Rice's shotgun struck him in the right fore arm.

The officer was called to the Rice home by Mrs. Rice, who said her husband had threatened her.

Bazaar and Dinner.
Division No. 4 will have their annual bazaar and serve dinner at the M. E. Church on Wednesday, Dec. 3, commencing at 5:30. Menu for the dinner:

Roast Pork and Applesauce
Mashed Potatoes and Brown Gravy
Buttered Peas
Lettuce Salad
Pickles

Brown and White Bread
Apple, Cherry and Mince Pie
Coffee
Price, 25c and 50c.—Advertisement.

SUNDAY HUNTING LAW IN FORCE IN SANILAC

"Sanilac county is closed right now to Sunday hunting. The law recently passed whereby a penalty is attached for Sunday hunting in Sanilac county, went into effect the very day the vote was certified to the secretary of state," says Conservation Officer Trigger. He also says that hereafter hunters caught with guns on Sunday may be arrested under the new law.

The penalty for violating the Sunday hunting law is as follows:

"Any person violating the provisions of this act shall be deemed guilty of a misdemeanor and on conviction thereof shall be liable to a fine of not less than ten dollars and costs of prosecution or more than twenty-five dollars and costs of prosecution, or to imprisonment in the county jail for not to exceed thirty days, or both. Any officer authorized to make arrests, including the state game and fish warden and his deputies, may arrest without warrant any person apprehended by him in the act of violating any of the provisions of this act. In case the arrest is made on Sunday, the person arrested shall be taken before a justice having jurisdiction and proceeded against as soon as may be on a week day following the arrest."

HAPPENINGS IN THE NEIGHBORING TOWNS

Carefully Selected from Interesting Exchanges for Chronicle Readers.

On the occasion of the 25th wedding anniversary of Mr. and Mrs. Will Zimmer of Unionville, their son, Vernor, and daughter, Ruth, arranged a surprise celebration in their honor. Between 50 and 60 guests were present.

Under the auspices of the Research Club at Marlette, Elizabeth McCormick Bogen, graduate of the University of Michigan and student of Zimmerman School of International Relations, Geneva, Switzerland, will lecture at Marlette Wednesday evening, Dec. 3.

The Home Economics and Agricultural clubs of the Imlay City High School sponsored a Smith-Hughes Fair recently in which the members of the clubs looked after the programs for two days. The people of the surrounding territory brought in many articles for exhibition and many of these people took home prizes. The prizes were awarded by the local merchants.

December 9 has been set for a session of the Imlay City High School to be held at night to give the people of that community an opportunity to hear the recitations of pupils. The classes will begin at 7:00 p. m. After 8:30, there will be a brief program in the auditorium. A night session was held two years ago and many took advantage of this opportunity to visit the school.

CASS CITY DEBATERS WON FROM UNIONVILLE

Cass City debaters, upholding the affirmative, won a two to one victory over Unionville high school representatives in the debate here Friday, on the subject, "Resolved, that the National Chain Grocery Stores in the State of Michigan are Detrimental to the People of the State."

The members of the affirmative team are Marie Vader, Richard Van Winkle and Evelyn Robinson. Unionville's debaters are Helen Achenbach, Edna Herman and Helen Sellers.

Supt. Crawford of Caro, Supt. Clay of Vassar and Supt. Tweed of Marlette served as judges.

S. S. RALLY WELL ATTENDED SUNDAY

Both afternoon and evening sessions of the Sunday School rally held in the Sunshine church, west of Cass City, and in the local Presbyterian church Sunday were very well attended. The meetings were sponsored by the Eastern District of the Tuscola County Council of Religious Education.

Rev. Grinnell, president of the district, acted as chairman and local pastors participated in the devotions. Rev. Bernard Coggan of the State Council Staff was present and delivered two inspiring messages entitled, "What Can the Churches Do Together to Train Leadership?" and "How Big Are You?"

Group conferences were conducted in the afternoon by Mrs. H. W. Ambrose of Caro, Mrs. Edward Fischer of Gagetown, and Rev. T. S. Bottrell of Cass City. Rev. H. W. Kuhlman of Caro, county president, gave a consecration message and Rev. P. J. Allured, county treasurer, gave a brief report of the state convention at Kalamazoo. Special music consisted of a vocal duet by Rev. and Mrs. Carless of Kingston and selections by the Cass City High School girls' quartet.

STATE GRAIN WINNERS FOLLOW NEW METHODS

Good Seed, Fertilizer and General Improved Practices Produce Top Samples.

A study of the methods used by Michigan farmers who produced bumper yields of small grains in 1930 shows that improved farm practices were used universally by the outstanding producers.

Farm crops specialists at the Michigan State College made a study of the methods used by 148 Michigan farmers who entered fields of small grains in the Ira H. Butterfield Memorial Grain Growing Contest, which is administered by the Michigan State Fair Board.

The study showed that 80 per cent of the winning exhibits in the 1930 contest planted improved varieties of wheat, oats and barley developed by the Michigan State College plant breeders. Sixty per cent of the winning exhibitors in wheat, oats, and barley grew a legume in their crop rotation. Alfalfa was the most common legume.

Eighty-five per cent of the winning exhibitors used commercial fertilizer at an average rate of 200 pounds per acre for wheat, 150 pounds per acre for oats, and 125 pounds per acre for barley.

Early planting at a normal rate of seeding on well prepared seed beds was a practice followed by all of the winning contestants. Improved practices, followed by contestants, were strikingly similar.

Favorable weather conditions for small grains, combined with proper cultural practices, resulted in yields surpassing those of previous years.

DO YOUR CHRISTMAS MAILING EARLY AND PROPERLY

Postmaster Hunter offers a few suggestions for Christmas mailing:

Packages for distant points should be mailed as soon as possible.

Prepay postage fully on all mail matter. If you do not know the rates, ask the postmaster or rural carrier. Put all addresses in ink in a plain manner. Pack articles carefully in strong, durable containers. Wrap parcels securely, but do not seal them except when bearing a printed label or indorsement, reading: "Contents, merchandise. Postmaster, this parcel may be opened for postal inspection, if necessary," together with the name and address of the sender, as sealed parcels not so labeled or indorsed are subject to postage at letter rate.

Parcels may not exceed 84 inches in length and girth combined nor weigh more than 70 pounds if for delivery within the first, second or third zone, or 50 pounds in any other zone.

CASS CITY GRANGE INSTALLED OFFICERS

The monthly meeting of the Cass City Grange was held Thursday evening, Nov. 20, at the home of Mr. and Mrs. Benj. Schwegler.

The installation of officers for the next year was conducted by Mr. and Mrs. Theo C. Hendrick of the Ellington Grange. After the regular business session, a fine program was given. Musical numbers included three selections by B. A. Elliott and son, Leonard, on Hawaiian guitars and two vocal solos by G. W. Landon, accompanied by Miss Phyllis Lenzner. Afterwards all partook of a fine luncheon.

The next meeting will be held at the P. H. McComb home.

TUSCOLA READY FOR WINTER'S BLIZZARDS

Snow Fighting Equipment Is Increased One-third Over That of Last Season.

Snow fences are being erected in Tuscola county and snow-plowing equipment is ready for the job of clearing Tuscola county roads from the effects of winter blizzards.

The plowing equipment will be increased one-third this winter over that of last year by the addition of two truck snowplows. One is already equipped and the second plow has been shipped and Godfrey Schultz, county road commissioner, expects it to be delivered soon. The county's snow removal equipment now consists of six truck plows and two caterpillar machines. One of the caterpillar machines is the property of the state and one belongs to the county. Last winter one of the caterpillars was stationed at Vassar and the other at Caro.

Truck plows cover the roads five times more rapidly than do the caterpillar machines and at much less expense. Ordinarily the truck plow accomplishes the work, but when the snow is unusually deep and packed hard the caterpillars are needed for the work.

Trunk lines are opened first and connecting county roads and main trunk line crossings are second on the road opening program. With the additional equipment, it is expected that additional roads will be served this winter over last year's program.

ATTEMPT TO REMOVE STRAIN ON VASSAR SCHOOL BUILDING

An attempt to remove the strain from the southeast corner of the Vassar school building will be made by trying to raise the building from one to three inches with jack screws, it was decided at a meeting of the school board. The settling of a portion of Vassar's fine school building a few weeks ago caused that part of the building to be vacated until repairs could be made.

"On inspecting the condition of the building," says the Vassar Pioneer-Times, "it was found that a portion of the wall will have to be replaced. Several places have been found to need repair in the walls where bricks are loose, it is said.

"The board was well satisfied with the progress the Green Construction company has made in reconstructing the building. Many expressed the belief that the building will be much better, even in appearance, than it was when first built, after the necessary repairs have been completed. Those who took advantage of the opportunity offered to see the uncompleted work of the construction company last Friday, with the added steel columns and braces exposed, seemed to be impressed with the extensiveness of the repairs and the appearance of stability now shown in the building"

MURRAY WINS IN HURON RECOUNT

Joseph Murray of Bad Axe, Democrat, will be the next sheriff of Huron county, according to the official recount of the November 4 vote, which was completed late Thursday. The winner had a majority of 51 votes over Joseph Smith of Pigeon, Republican, who led by six votes before the recount.

Eleven out of the 33 precincts could not be recounted because ballots had not been properly sealed by election boards. The new sheriff is 40 years old, is a road contractor and well-known in the county.

100 POUNDS OF HONEY TAKEN FROM WALLS OF HOUSE

Mr. and Mrs. Allan Swartz of Brown City had a "sweet" time for a week after tapping the "golden" storehouse of a swarm of bees that had taken "lodgings" in the walls of their home, says the Banner. Their prospecting netted them over 100 pounds of excellent honey.

Three years ago the swarm, in some way, found an entrance under the bathroom window on the north side of the house. Here, safe in the wall, they established themselves and grew and flourished.

Mr. and Mrs. Glenn Folkert moved Monday from the residence rooms over the Folkert store to the residence of Mrs. C. P. Miller of Detroit, corner of Houghton and Grant Streets, recently vacated by Mr. and Mrs. Elmer Fitzgerald.

Arthur Fritz of Detroit, a frequent visitor at the Wm. Martus farm, killed a fine 200-pound, ten point deer the second day of the season on Drummond Isle. Mr. Fritz wrote home that it was one of the greatest thrills of his life and he is proud that inasmuch as this was his first experience hunting deer, he "landed" it with one shot.

Fifty-five members and friends of the First Methodist church attended the annual church meeting Friday evening. Supper was served by the ladies in banquet style, after which songs were sung and an address was given by Dr. Stair on the subject, "The Church and Its Great Task," followed by reports from the committees. The pastor, Rev. T. S. Bottrell, reported his findings and work for the past two months and outlined his plans of church work for the year.

During the past season, the driest in Michigan in years, 4,344 forest fires occurred in the two peninsulas. In making a preliminary report of the forest fires for the 1930 season, Howard R. Sayre, chief of the Fire Division of the Department of Conservation, said that the final figures may add a hundred or so more to the total but that 4,344 represents close to the actual number of fires for the season. While the number of fires occurring in 1930 was the largest in at least nine years, the amount of damage done was proportionately low.

We made a big poster. The Pilgrims are going to church.

We are making books for Thanksgiving.

We made globblers that move their heads and tails.

We have a bed for Raggedy.

We miss our boys and girls who have the chicken pox.

Alice is ahead on our "I Like To Read" chart.

Second Grade.

We have a reading contest started. We are offering a prize to the person who reads the most books during this next month.

We lost another student this week. Mamie Garcia moved to Bay City.

Third Grade.

We are spending all our spare time at our work table making various Christmas presents.

We have two pretty white rats in our room.

Our Thanksgiving program is coming along nicely.

Fourth Grade.

Our book club has had a very interesting time observing "Book Week." We have learned the poem, "The Song of the Children's Librarian," and read the play, "Mary in Bookland."

The play is about a little girl who does not like to read. She goes to sleep and has a dream in which all the book characters come to life and talk to her. Mary decides to become better acquainted with books.

Our November picture story study is "Pilgrims Going to Church."

Our room is decorated with Pilgrims, Indians, and turkeys.

Fifth Grade.

In Geography we are working on the homes, dress and customs of people in Poland and England. Lorraine Watson gave an interesting report on Polish homes, illustrating it with pictures.

We are making waste baskets from wall paper and card board. We have a few good Pilgrim children drawn by the art class.

In Hygiene we are studying dental hygiene. We have gained a few who use their tooth brushes daily. We started with thirteen and we hope to be able to raise it to 33.

Yesterday we listened to an interesting discussion over the radio of Joseph Lauren's picture, "The Interior of a Cottage."

Sixth Grade.

We have just finished reading the most interesting story about Socrates, the greatest of all Greek philosophers. Socrates was a very wise man. He said a man was not wise who pretend-

ed to know more than he really did. A wise man would be truthful and say, "I don't know," if he did not know the answer to a question. Socrates found no honest men in all Athens according to his standard.

Socrates was poor and lived a very humble life. He cared not for nice clothes, lovely homes, nor money. He wished only to teach the people of Athens to be good and happy. By attempting to do this he made many enemies. Socrates was made to drink poison by these enemies.

High School.

The following new books were added to the library last week: "We" by Charles A. Lindberg, "Walt Mason, His Book," "A Heap 'o' Living," by Guest, "Back Country Poems" by Foss, "Form Rhymes" by Riley, "Kak, the Copper Eskimo" and "India" by Lowell Thomas.

Supt. Randall judged a debate at Sandusky on Wednesday evening, and one at Deckerville on Thursday evening.

"Plymouth Rock" was the subject of Rev. Allured's talk given in chapel Friday. He told of the many interesting sights he enjoyed during his trip east in 1927, such as Wayside Inn, Bunker Hill, Lexington, Old Oaken Bucket, and Concord. In Public Speaking class, during our study of Parliamentary law, we organized the class as the City Council for the city of Cass City. James Krake was elected mayor of the city; therefore he acts as chairman, according to the constitution drawn up by Horace Pinney, Deloris Sandham, and Evelyn Robinson. Albert Doerr was voted vice-president, Bernice McConnell secretary, and Deloris Sandham treasurer. We are amending, debating, and voting on questions of unemployment in our town. We have also had bills for a recreation building and a city park.

"Too many cooks spoil the soup." This old saying did not hold true Wednesday night when no less than all the Lambda Sigma girls tried their hand in the preparation of an appetizing meal of pancakes, syrup, coffee, applesauce, and wafers. After eating their fill, they sat around the table and "talked."

IF THEY COULD BE THANKFUL THEN

Beset by hostile savages, surrounded by bleak wildernesses, primitively housed, the fathers of New England looked upon life and found it so good that they set aside a day of giving Thanks.

If they could find thankfulness amidst such circumstances, how much more should we be able to rejoice in the blessings which attend our life today. It is our hope that you, like we, are astonished at the long list of things for which we are thankful this year.

THE NEW CHEVROLET SIX HAS MANY IMPROVEMENTS

The introduction of the new Chevrolet Six marks the most impressive forward step in Chevrolet's twenty-year record of constant progress and improvement. For this Bigger and Better Six offers new beauty, new luxury, new completeness and new quality—yet it sells at lower prices!

In every curve and sweep of Chevrolet's modern lines—in every detail of its new Fisher bodies, you will see the fine hand of the master designer and the skillful craftsman. And the more closely you inspect it, the more deeply impressed you will be.

The improvements in the new Chevrolet Six begin at the smart new chrome-plated headlamps and extend throughout the entire car. The radiator is deeper. The lines are longer and lower, giving an air of exceptional fleetness and grace. And the interiors of the new Fisher bodies provide a new degree of comfort

and luxury: greater roominess; fine quality mohair or broadcloth upholstery; more pleasing interior fittings; and a new, completely equipped instrument panel.

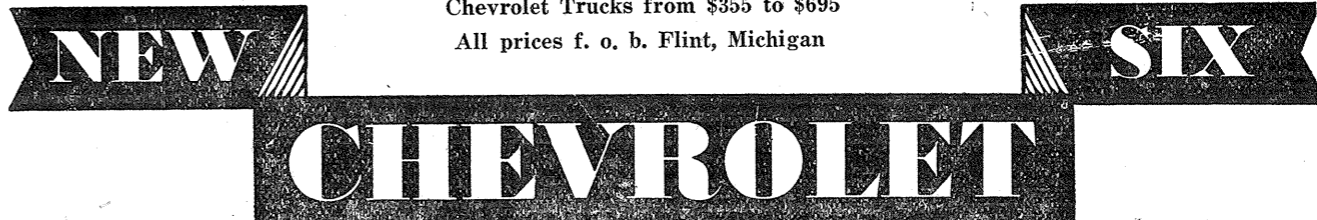

The chassis of the new Chevrolet Six has also been refined and advanced in a number of different ways. The frame is heavier, deeper and stronger than before. There is a smoother operating, long lived clutch; a sturdier front axle; an entirely new steering mechanism; an easier shifting transmission. In fact, every vital feature of the new car has been made better to provide more thorough satisfaction for the owner.

And along with these improvements, Chevrolet offers the smooth performance of a 50-horsepower, six-cylinder motor—four long semi-elliptic springs—four hydraulic shock absorbers—a safety gasoline tank at the rear of the car—and an economy of operation not surpassed by any automobile.

ELKLAND ROLLER MILLS TOLD BY ROY

You Must Be Satisfied. -:- Published Every Friday.

Vol. 6 Nov. 28, 1930. No. 22.

Published in the interest of the People of Cass City and vicinity by the
Elkland Roller Mills

We're thankful! We are thankful for friends, for food, for shelter, and for the privilege of living in such a community as Cass City.

For Cavalier coal is full of health giving comfort and heat—re-sponds quickly to draft control and makes furnaces do their duty when cold weather comes.

Morton's Smoke-Salt is a real discovery. It is the easiest way to put up meat, the surest way to cure it, and the best way to smoke it. Ever tried it? We have it for you.

Pa—"How are you getting along with your Greek?"

Mary—"Now leave the boy friend out of this."

Dollar for dollar we have never sold a better coal than Cavalier and we guarantee it to your complete satisfaction. It is an all weather fuel that you will appreciate.

If you would put

away \$10.00 a week for 20 years on compound interest, you would have—but why bring that up?

It's better to be a widow's second husband than her first.

Never do your work by halves—

Feed Wayne Calf Meal to your calves!

When the thermometer begins to hover around the zero mark... that's the time you will appreciate the real efficiency of genuine Cavalier coal.

Forty pullets for sale. Yes, they are laying.

We still contend that no man is in such a hurry that he has to drive sixty miles an hour.

Wayne 32% will point the way to bigger dairy profits for you. Try it!

It costs no more to specify Cavalier, yet this small precaution will show you the great difference between efficient heat and ordinary heat. It also means that your heating problems will be delegated in your community to Authorized Dealers whose judgment is backed by a reputation

for service and efficiency.

Another car of Cream of Wheat flour this week.

About the most useless thing in the world is a man about the house in the day time.

A lazy hen is a liability. Make her want to lay by feeding her Wayne Buttermilk Egg Mash. She just can't help herself on a Wayne diet. She feels so good she has to lay! Try it! And get it here.

Will have another car of Wayne Feeds next week.

Prohibitionists need no fear of a return of the corner saloon. The corners are all taken up with filling stations.

Mrs. Christopher McRae and daughter, Miss Joanna, were called to London, Ont., Sunday by the serious illness of Mrs. McRae's brother, who is a patient in a hospital in that city. Miss McRae returned home Monday and her mother remained in London to be near her brother.

The next meeting of the Woman's Study Club will be held at the school-house Tuesday afternoon, Dec. 2. The following will be the program: "Immigration Problems and Legislation," Mrs. R. J. Knight; "Drama and Its Effect on Students," Virgil Logan; a play by the High School Dramatic Club; roll call, a play and author.

Ralph Cobb of North Branch was sentenced to spend 35 days in the county jail on a charge of stealing an auto tire from a car of a person attending a school social in Koylton township. Donald Stoneberg and Wm. Erwin, both of North Branch, arrested by Tuscola county officers at the same time as Ralph Cobb and on the same charge, were turned over to LaPeere county where they will answer to a more serious charge.

Mrs. Frank Ward gave a birthday party on Wednesday, Nov. 19, for her daughter, Ruby. The house was decorated in pink and white. Those who attended were Mary Jane Campbell, Mary Lee Doerr, Carol Heller, Pauline and Lucile Tye, Betty Fort, Amy Vance, Kathleen McCaslin and Eileen Hegan. Three others who could not attend were Barbara Jean Bardwell, Betty and Frances Mark, as they had the chicken-pox. Ruby received many lovely gifts.

Deer hunters are still applying this week for licenses at the office of County Clerk Guy Ormes. Ten licenses were issued on Monday and two on Tuesday. This brought the season's total sales in Tuscola county up to 736, over 100 more than in 1929. Nearly all of these went to Tuscola county residents. Sanilac and St. Clair county's supply of licenses was exhausted recently and several hunters from these two purchased licenses in Tuscola county on their way to the north woods. Applicants' ages ranged all the way from 16 to 82 years.

Township treasurers are filing bonds with County Treasurer McDurmon for state and county taxes which they will start collecting next month. Treasurers who have already sent in bonds and the amounts are: W. C. Downing, Elmwood, \$57,000; Mrs. Etta Frenzel, Fremont, \$22,767.18; Leon C. Dawson, Watertown, \$12,019.49; Henry J. Cuer, Novesta, \$12,000; Asa E. Streeter, Vassar, \$15,747.56; Henry R. Palmer, Tuscola, \$18,815.46; Geo. W. Shadley, Indianfield, \$38,576.79; John J. Hayes, Ellington, \$12,000; Joseph W. Best, Koylton, \$12,675; John E. Bradley, Gilford, \$34,000. The last seven named treasurers filed surety bonds for the amounts given.

READY AND WILLING

Little Lottie, aged four, who was spending a week with her aunt in the country, had developed a great fondness for milk. One day, having drunk as much as her aunt thought good for her, she was informed that she could not have any more.

"Pshaw!" exclaimed the little miss, "I don't see why you want to be so stingy with your old milk. There's two whole cowfults out in the barn."—Brooklyn Eagle.

Ah! 'Twas Brutish

Recent Bride—I can't stand it any longer, Judge. My husband actually swore at me. And I was learning to drive just to please him, too.

Judge—What did he say?

Bride—He sat there in the ditch and said: "Holy cats, woman, didn't you see that lorry?"—Border Cities Star.

Rehearsed

Caller—Is the boss in?

New Office Boy—Are you a salesman, bill collector, or a friend of his?

Caller—I am all three.

New Office Boy—He is in a business conference. He is out of town. Step in and see him.

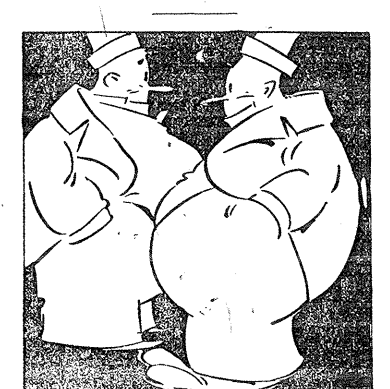

A Big Demand

Kind-Hearted Lady—And so you have nine brothers and sisters!

My! It must take a lot of toast every morning for breakfast!

Maggie—I'll say it does! It takes all we can scrape together!

NOT STONE BLIND

"I don't believe Love's stone blind."

"Why not?"

"Well, he never misses seeing a diamond ring."

What and How

This world, so sadly incomplete, Shows contrasts strange, I vow: With rich folks wondering what to eat And poor folks wondering how.

Family Secrets

"I hope you'll grow up to be a good and intelligent man like your father," said the patronizing relative.

"That's easy," answered the precocious youngster. "Mother says I've got him beat already."

Simple

"What do you do with a husband who always is losing his job?" groaned the discouraged wife.

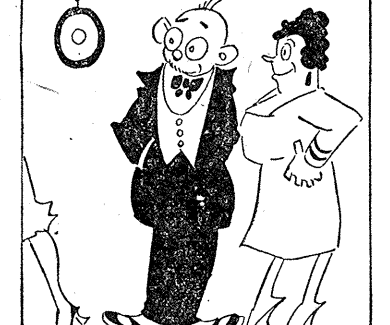

"Lose him and try to find one who doesn't," replied the practical, modern woman.

Invoked Old Law
The French military authorities decided to wipe out a small village to make room for a training camp. This scheme was thwarted by the parish priest, who, searching through old laws of France, discovered that the small church of the village could not be closed down so long as there were two attendants at daily mass!

Bloodthirsty Tiger
The worst tiger on record was one which created panic in the Ganjam district of Madras between 1906 and 1909, and is known to have killed more than 150 people. It grew so bold that it would enter a village by night and drag unfortunate peasants from their huts. At last it was shot by a young British officer.

Where could You find a better Salesman?
"Thank goodness, it's you, Elsie, and not another agent!" Mrs. Pelton opened the door wide for her friend. "I've had three this forenoon," she continued with acid in her voice, "but I simply will not let them in!"
After a discussion of "these peddlers," Elsie asked, "By the way, did you get one of these announcements yesterday from Simmons & Blake?... Isn't that Jeffers that the cutest thing?"
At least three points in this conversation should interest every merchant in our town.
First: Your competition from city stores and factories today is right on our own streets—ringing the doorbells of your customers.
Second: Most people dislike that kind of selling. You must imitate the "peddler."
Third: There is a businesslike way to meet this problem, and protect your trade. Simmons & Blake are using it!

POULTRY

NOT NECESSARY TO VARY CHICKS' DIET

Feed Same Mash From 36-Hour Age Until Maturity.

The Cornell mash mixture for baby chicks eliminates the old practice of changing the feed every few days. The same mash is fed from the first feeding at 36 to 48 hours to maturity, and at eight weeks a grain mixture is added, says Prof. L. M. Hurd at Cornell university.

The chicks are allowed constant access to the mash, but it is best to feed so that fresh mash can be added twice a day. There should be enough hopper space so that all the chicks may eat at the same time. Fine grit may be given from the start and oyster shell when the chicks are about four months old. Charcoal is unnecessary, he says.

Cod liver oil should be fed at the rate of one-half pint to every 100 pounds of mash during the period when mash is fed, especially if the chicks are indoors most of the time. When grain and mash are fed, one pint is used with each 100 pounds of mash. If the chicks run outdoors daily, no oil is needed after eight weeks.

The Cornell mash contains 45 pounds of yellow corn meal, 10 of wheat bran, 15 of flour wheat middlings, 10 of fine ground heavy oats, 10 of 50 to 55 per cent protein meat scrap, 10 of dried skim milk or dried buttermilk, 2 of steamed bone meal, and one-half pound of salt. The grain mixture is 60 pounds of cracked yellow corn and 40 pounds of wheat.

The grain mixture should be in hoppers, always accessible to the chicks. They should not eat more grain by weight than mash until they are three months old. It is sometimes necessary to restrict the grain to get proper mash consumption, says Professor Hurd.

Two of Most Effective Destroyers of Vermin

Two of the most effective louse destroyers are blue ointment applied to the skin beneath the vent in about the amount of a bit the size of a grain of corn, and the powder sodium fluorite, applied in pinches well worked down to the skin of a half dozen parts of the hen's body.

A more recent application is to the perches instead of to the birds. This consists of the poisonous liquid Blackleaf 40, a very concentrated tobacco preparation. A ribbon of this is spread from an oil can or other convenient container along the top of each perch shortly before the fowls go to roost. The fumes arising kill the lice, according to various authorities who have tried the method.

Open Shed Shelter Is Favored for Turkeys

A form of shelter for turkeys which has proven very satisfactory when it is necessary to construct shelter, is the open shed of the machinery shed type. One end can be closed at the front and the roosts placed in that end, so that they will always be protected from wind and storm. This type of structure affords excellent ventilation, ample room for exercise, and all the protection that is necessary. Another advantage of this type is the fact that the shed can be used for sheltering small machinery in the summer.

Rat Poison Discovered Is Harmless to Humans

Don't throw up the sponge when a rat runs off with a chicken, and bewail "bad luck." Science says, "Let's get the rat," and starts out to do it. As a matter of fact, and this may be news, too, there grows off the coast of Italy, in the Mediterranean sea, a big bulb, called squill. Scientists with the United States Department of Agriculture found that the essence of that bulb would kill rats. It will not kill and is not poisonous to hen, dog or man.

Lice Deterrent

Thick cream on the head of a pout as a deterrent of head lice is better than grease, for grease will also kill. Camphorated oil applied very lightly between the quill feathers with a fine paint brush will do the work, but it must be used economically. Poultis must not be confined at night in a newly painted coop, painted either with paint or lice killer.

Broiler Feeding Tests

Broiler raising tests were conducted with Single Comb Rhode Island Reds at the North Carolina State college. It required seven pounds of feed to raise and fatten a two-pound broiler for market. This includes both mash and grain. The feed cost amounted to 20 cents. The chick at 20 cents and other costs at 10 cents will make the two-pound broiler stand you 50 cents when ready to sell. Fall is a good time to raise a few hundred broilers.

PROBLEMS OF HIGH FLYING ARE STUDIED

One-Way Winds, Thin Air and Extreme Cold.

New York.—The upper reaches of the earth's atmosphere, long regarded by foresighted aviation leaders as the correct location for the express air highways of the future, are receiving renewed attention in view of the cross-country record flight of Col. and Mrs. Charles A. Lindbergh, writes George Gardner in the New York Tribune.

At ten and fifteen thousand feet pilots avoid many of the common hindrances of flying such as low clouds and local winds and storms. Colonel Lindbergh, who flew at such an altitude during his entire flight from the Grand Central Air terminal at Glendale, Calif., to Roosevelt field, L. I., said that he encountered very little unfavorable weather.

Non-Stop Civil Trips Unlikely. Colonel Lindbergh accomplished the flight with only one stop at Wichita, Kan. This is not the type of flight that is likely to be made commercially, and Colonel Lindbergh was the first to point this out, explaining that his own flight was only one of many experiments that must be carried out.

It is more likely that fifteen-hour cross-country commercial flying will be with half a dozen scheduled stops for refueling and transfer of passengers and mail. If non-stop or one-stop trips were attempted, the heavy gasoline load would prevent the plane from carrying any pay load. Moreover, for passenger carrying, the stops would break the journey, relieving the monotony, which would be accentuated in a trip so high above the earth that nothing below could be seen clearly.

A difficulty that presents itself at the outset of the tests is that the very high route seems to be a one-way street. The prevailing wind above 10,000 feet blows from the west to the east, rising in velocity as altitude is increased. Winds at the high altitude usually exceed gale velocity, which is forty miles an hour.

Velocity Gains With Altitude. Dr. James H. Kimball of the United States Weather Bureau New York office, who has devoted much attention to the meteorological problems of aviators, explained that the wind at high altitudes gets its characteristics from the rotation of the earth and from the difference in temperature.

"Above 10,000 feet," Doctor Kimball said, "you get away from easterly winds, and you get above local adverse conditions. There is a gradual increase in wind velocity as you go up, and the winds are faster and more uniform at the higher altitudes."

Colonel Lindbergh took advantage of this peculiarity of the upper atmosphere in flying across the country for a record of 14:45:32. A similar flight in the opposite direction undoubtedly would take longer, and this has been the case even in flights at lower altitudes, such as those of Capt. Frank M. Hawks.

Problems in High Flying. Although there is a vast difference between flying at 15,000 feet and at 30,000 feet, it is not too much to expect that commercial operators may be interested at some future time in the possibility of flying at the higher altitude. Already it has been suggested that transatlantic airplanes may fly high and fast, reaching Europe after flights of five or six hours.

The chief problems encountered at twenty-five and thirty thousand feet are brought up by the thin atmosphere and the extreme cold. For the pilots oxygen and electrically heated flying suits overcome this obstacle.

Special provision must be made also for the engine and the plane. A supercharger gets air to the carburetor of the motor in the quantity that would be available at sea level. The wing area of a high-altitude plane is greater than is usual, so that it can get the necessary support in the rare atmosphere, and the shape of the wing is given a decided curve.

Airport for Every 600 Miles, Officials Hope

Washington.—Hopes that before the end of 1930 an airport will be established in every 600 square miles of territory in the United States are held by officials of the aeronautics division of the Department of Commerce.

Such a project will be aided by literature distributed in various strategic communities by the government, it was said. Speakers of the aeronautics division will stress the importance of airports, using as their theme that the "future of aviation is on the ground."

Following an extensive survey by the government it was declared that the saturation point for airports will not be reached until an adequate landing field is provided for every 200 square miles.

During the last 18 months \$300,000,000 has been expended in this country for airports by more than 1,000 communities, the report of the government survey shows. It is conservatively predicted that upwards of \$500,000,000 will be spent in the next year and a half in airport development.

China Plans Pilot School

Shanghai.—A scheme for the establishment of a civil aviation school in Shanghai for instruction of Chinese pilots has been presented to the aviation department of the Air Ministry. The school, if it materializes, will be the first of its kind in China.

THANKSGIVING GUESTS.

PROFIT-SHARING ADVERTISING

This sale has been developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full-size packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice in profit is justified, because we know that these goods will please you. No limit—buy all you want. Remember, this sale lasts only a few days.

Gets No Credit for World Record

Jack Barstow, twenty-four, first-class glider pilot and gliding instructor (left), being congratulated by Clyde Freeman, vice president of the Bowlus Sailplane company, after Barstow had exceeded all world official and unofficial endurance glider flights by remaining aloft over Point Loma, Calif., in a Bowlus sailplane for 15 hours and 13 minutes. Absence of a barograph in Barstow's craft deprives him of official recognition for his flight.

WEST POINT OF AIR DEDICATED IN JUNE

Randolph Field in Texas Huge Flying School.

San Antonio, Texas.—An outstanding event in the history of aviation will take place June 20 and 21 when Randolph field, the world's largest flying school, will be dedicated. Located seventeen miles northeast of San Antonio on the Old Spanish Trail, "the West Point of the air" covers 2,300 acres and will cost millions of dollars, \$11,000,000 of which has been appropriated by congress and is now available.

Eventually the government expects to spend between \$30,000,000 and \$40,000,000 on the project. Operating at an annual cost of over \$10,000,000, this training center will be the most complete and modern in the world. Elaborate plans are being made in San Antonio for the dedication of the field. The dedication ceremonies will take place at 10 o'clock on the morning of the 20th. Over 200 military planes from Brooks and Kelly fields, Fort Crockett and Fort Sill will be in the air at one time, flying in formation and performing various maneuvers. On the morning of the 21st the June class will be graduated from Kelly field and special maneuvers are being planned for the members of the class. One hundred planes will take part in the exhibit.

Unique Design of Field. The design of the field is unique in that the building area is located in the exact center of the field. The flying area, surrounding on all four sides the almost square building section, is crossed by only one road, that being the wide entrance driveway that leads from the Old Spanish trail to the building areas.

The flying area, comprising 1,625 acres, will provide from 3,000 to 10,000 feet of landing field for ships landing or taking-off from any side of the field against wind from any direction. An extensive study has been made of the wind currents, and the runways will be built in accordance with the prevailing breezes, which come from the southeast during eight months of the year.

The only tall building, the administration building, is located in the center of the circle at the entrance to the building area.

The artery for traffic will enter the building area at the center of its northwest boundary and divide at the small entrance circle, forming a large circle 2,500 feet in diameter around the center of the post. The officers' clubhouse, located in the exact center of the circle, will serve as a hub, and the officers' quarters will radiate from the center as spokes of this gigantic wheel.

The remainder of the buildings in the area are located in the square which surrounds the circle. The entire building area includes 475 acres. Diagonal roads from the center to the outside give a spider-web effect to the layout.

Tribute to Texas Flyer.

Randolph field is a tribute to Capt. William M. Randolph, adjutant of Kelly field. He met his death in a crash September 17, 1928, while on a cross-country flight. He was born in Austin, Texas, September 9, 1893, and had served in the army from before the World war until the time of his death.

Aeronautical instruction now in progress at the primary flying schools Brooks and March fields will be brought together at this field along with the advanced training now being given at Kelly field. The personnel to be stationed at Randolph field will consist of 350 officers, 500 flying cadets and 2,000 enlisted men. Inclusive of the families of the married men on the field the post will contain 5,000 people.

Huge Hangar

Not a post or pillar breaks the 7,800 square yards of floor surface in the Munich municipal airplane hangar at Oberwiesenthal. The building can be opened completely on three sides and can accommodate airplanes of any size.

Aerobus Service Given to Paris Hotel Guests

Paris.—The hotel aerobus has come. A famous Paris hostelry has acquired two planes for the convenience of its patrons. The machines start at any hour. The larger will fetch patrons with their baggage from the boat at Cherbourg or convey them to London, Berlin, or Madrid. The smaller is available for short journeys for golfing or gambling at such resorts as Deauville or Le Touquet.

MAGYAR PLANS HOP ACROSS THE OCEAN

Will Try Nonstop Flight, Detroit to Budapest.

East St. Louis, Ill.—Lieut. Alexander Magyar, wartime Austrian bombardier pilot who intends to fly nonstop from Detroit to Budapest in a Lockheed Sirius monoplane in June, has been doing his preparatory work at Parks Air college here. He spent several hours in the air daily familiarizing himself with controls after almost four years of aerial inactivity, and did intensive work in navigation under the direction of Ensign Norman Anderson, U. S. N. R.

Lieutenant Magyar will be accompanied by Lieut. George Endres, Austrian commercial pilot and wartime pursuit flyer. The Lockheed in which they will make the trip is identical with the ship in which Colonel Lindbergh established a new transcontinental speed record recently.

Magyar's flight is sponsored by Hungarian-American societies in Detroit, Toledo and other American cities as well as by similar organizations in Canada. It is designed to draw attention to the dismembered state of Hungary which lost more than two-thirds of its total area through the Treaty of Trianon after the World war.

Magyar intends to take off from Detroit with a comparatively light gasoline load about June 15. He intends to refuel in the air at St. Johns, Newfoundland, and from that point will continue across the ocean. If necessary he will refuel again in Ireland but under normal conditions his ship is capable of a nonstop flight from St. Johns to Budapest with a comfortable margin of safety. The distance from Detroit to Budapest is 4,500 miles.

Navy Obtains Fastest Bomber in the World

Washington.—Accomplishing a feat which never has been attempted before, a bomber built for the navy by a Baltimore company made a vertical dive of 6,000 feet with a full load including a 1,000-pound bomb, levelled off without releasing the missile and then was put through a series of stunts by the pilot to demonstrate its strength and fighting ability.

The new plane gives the United States navy the fastest bombing plane in the world and when placed in production will give the navy the most powerful bombing fleet of any nation. The planes will be able to hurtle out of the clouds, drop their bombs squarely on the decks of the enemy ships and return to a safe level in but a few seconds, it is said, the release of the bomb enabling the bombers to climb even more rapidly than present-day attack planes.

Carrying machine guns and standard fighting plane equipment, the bomber, after it has released its missile, may enter the aerial battle as an attack plane or return to its base for another bomb. The plane already has been accepted by the Navy department.

Minimum Age for Mechanics

Washington.—The minimum age requirement for airplane mechanics has been placed at eighteen and no licenses will be issued to mechanics who have not attained that age, according to an announcement by Clarence M. Young, assistant secretary of commerce for aeronautics.

NEEDS FOR RED CROSS SERVICE ON INCREASE, SAYS CHAIRMAN PAYNE

Disaster Relief and Service to War Veterans Make Heavy Demands—First Aid on Highways New Plan.

Demands upon the public services that the American Red Cross is organized to give are increasingly heavy, and will continue to be so in the future, John Barton Payne, chairman, has announced. The two major services of the society—service to war veterans and their dependents, and relief in disasters—show each year a greater number of persons helped by the Red Cross.

Pension legislation passed recently for World War Veterans, and increased allotments to all Spanish-American War Veterans, have given to Chapters and the national society many thousands of additional cases to handle, Judge Payne said.

In the past year help was given in 108 disasters. Ninety of these were in the United States, twelve in foreign possessions and six were in foreign countries.

Health activities of the Red Cross also are being extended, especially in the rural communities where all health authorities agree the greatest need exists. Red Cross, with 794 nurses in its employ, is the greatest employer of public health nurses in rural areas in the United States.

In its campaign against accidental deaths, begun twenty years ago with its life saving and first aid programs, the Red Cross now has adopted an additional program—that of combating the huge toll of life from automobile accidents on the highways.

Expenditures of the Red Cross in the past year were \$4,254,796.34, of which \$1,208,151.09 was spent in disaster relief, the chairman pointed out.

"The Red Cross depends upon the public for its support, through their memberships enrolled once each year in the period from Armistice Day to Thanksgiving Day," Judge Payne said.

"We do not receive any support from the Government, or through other taxation, although as the President of the United States is president of the society, and one-third of its governing members are representatives of U. S. Departments, it ranks as a semi-governmental agency.

"By joining as a member, in the local Red Cross Chapter, once each year, during the annual Roll Call, every citizen will have a part in carrying on this great humanitarian task."

Motor Injuries Treated By Red Cross First Aid

In line with its work for the preservation of life and prevention of accidental death, the American Red Cross has adopted a new program of emergency first aid stations on the highways of the nation, where victims of automobile injuries will be helped.

In the last year 31,000 persons were killed as the result of automobile accidents and more than 1,000,000 were injured. As its contribution to the nation wide safety campaigns of other organizations, the Red Cross will aid through the emergency stations. A number already are in operation by Chapters on such important traffic arteries as the Westchester County, N. Y., park system, the Valley Forge and Gettysburg highways in Pennsylvania and the White Horse Pike in New Jersey, connecting with Atlantic City.

Saving Mothers and Babies Is Important Red Cross Task

Saving mothers' lives and better babies were important features during the past year of the Public Health Nursing Service of the American Red Cross. About four-fifths of the 794 nurses in the Red Cross work made more than 100,000 prenatal and maternal visits, in addition to assisting doctors in the examination of 1,309,409 school children.

Statistics reveal that the lives of two out of three American women who die in maternity cases could be saved if they received proper medical and nursing care. As more than 15,000 women die in the United States each year from various diseases of the maternal state, this means that more than 10,000 of these deaths are preventable.

Comfort Kits Sent 40,000 Service Men by Red Cross

Gay patterned cretonne bags, or comfort kits, containing articles useful and amusing, are sent by the Red Cross to 40,000 soldiers, sailors and Marines, on foreign service, as Christmas remembrances.

The little gift bags are donated and packed by women in Red Cross Chapters all over the country. They are despatched by Army transport in the early autumn in order to reach the foreign ports and posts of the U. S. services in time to be hung on the Christmas trees. Giving the remembrances from home is the outgrowth of a plan adopted by the Red Cross prior to the World War when so many National Guard regiments were on the Mexican border.

HUNDREDS OF SUCCESSFUL SALES CAN BE TRACED TO CHRONICLE ADVERTISING

On cold days, rainy days, and on days that the worst weather rages, Uncle Sam carries the Chronicle into the country home. On these days the Auction Bill flutters helplessly in the wind or is torn to pieces by the gale. The Chronicle is read by the man you wish to reach when he has the greatest leisure, that is, when he is sitting around the table after supper. The Auction Bill on the other hand is glanced at as the farmer or buyer is hurrying past. Nine chances out of ten he won't even see it. Then, too, The Chronicle way you reach thousands of readers through its circulation. That's the biggest argument. Besides the ad we furnish you with the necessary bills to be placed in stores, shops, elevators, etc.

The DAIRY

GET BEST RESULTS BY FEEDING GRAIN

Adjust Calf's Ration to Prevent Tendency to Scour.

To get best results, calves should have about all of the grain they can eat up to the time they are five to six months old and a good method of feeding would be to have enough grain in the manger so that there is some grain there practically all of the time.

It would be desirable to feed the grain twice a day, aiming to feed it so that there will be just a little left from each feeding when it is time to give the next feed. Calves are handled this way to the age of about six months, after that they can be turned to pasture or fed about the same as you would feed older cattle and should go ahead and make satisfactory growth.

It is only occasionally that it is desirable to try to treat a calf for scours by any other means than to adjust the ration so as to prevent the tendency to scour. Changing grain ration should help to reduce the amount of scouring in calves. It is necessary to avoid feeding too much skim milk also. Generally about one gallon of whole milk at a feed twice a day is as much as any calf can handle during the first two or three weeks of its life and many calves will not handle quite this much. It is doubtful if it is ever desirable to feed more than one and one-half gallons of skim milk at a feed twice a day to calves after they are put on the skim milk. Larger amounts of milk are often the cause of scouring and digestive disturbances.

Putting Milk Cows in One Large Box Stall

At various times there has been mentioned a system of dairy cow housing that has an able exponent in the head of the Illinois University Dairy department—Prof. W. J. Fraser. The plan that Professor Fraser has followed for years at the university farm, St. Paul, is to run the milk cows in large box stalls, the whole herd in one stall. The cows are stanchioned only for grain feeding and milking. Hay and ensilage are fed in racks. This plan has been quite widely adopted in Illinois and those who practice it claim that labor is considerably reduced, the cows are in better health, the manure is preserved more perfectly and the cows are cleaner. To keep the cows clean about one-third more straw will be required than when stanchioned. The cows so stabled are necessarily dehorned. This is considered an advantage whether the cows are in stanchions or loose boxes.

Hot Water Effectively Removes All Milk Fat

Several agricultural colleges and hundreds of users of machines have found from experience that hot water, not less than 160 degrees Fahrenheit, will effectively remove the milk fat that is so destructive to the rubber parts and at the same time kill most of the bacteria. Cold water should first be sucked through the machine immediately after the milking is finished. By lifting the teat cups up and down, an air brushing action will be secured as well as a water brushing effect. This will remove the milk that is in the machine.

Following the hot water rinse some users of machines find it desirable to keep the teat cups on solution racks designed for them. This arrangement keeps the teat cups and tubes filled with a fresh chlorine sterilizing solution as is not possible with the jars which were formerly used.

Dairy Facts

Yearling and two-year-old heifers should be fed very little grain.

All inferior calves in individuality and breeding should be vealed or otherwise disposed of.

The young bulls should not be used for service until they are a year old and then should be given very light service.

Weed out the unprofitable dairy cows. It is more profitable to milk three good cows than a half dozen poor ones.

Kelp is of value in the ration for the iodine content, more particularly in localities where calves are known to be afflicted with big-neck or goiter.

Of the various means by which one may get greater returns from a given acreage of pasture, none is more important than turning live stock from one pasture to another.

When the daughters of a bull come into production, that bull will soon be proved to be either a valuable breeding animal or just so much soup meat.

A cow which gives 10,000 pounds of milk in a year returns \$103 more above feed cost than the typical New York state cow.

HAPPENINGS IN THE NEIGHBORING TOWNS

Valentine Draper, foreman carpenter for the Hunt Construction Company, builders of the new Deckerville Oil & Gas Company's station, while in performance of his duties, had the misfortune Saturday afternoon to have three fingers of his left hand taken off at the first joint, while using a power saw.

Two land titles, dated 1837 and 1854, and signed respectively by Presidents Martin Van Buren and Franklin Pierce, are possessions of Albert Sleeper of Bad Axe, former governor. The latter is the original paper and contains the signature of President Pierce. The former is a certificate of the original grant which is in the General Land Office at Washington.

In response to the personal application of Congressman Cramton, the Post Office Department has announced that free delivery of mail at Yale will be installed in the near future. An inspector will soon visit the city to lay out a carrier route and otherwise prepare for inauguration of free mail delivery service. Recently the City Council of Yale adopted resolutions approving such free mail delivery and directing the installation of the necessary street signs, house numbers and mail receptacles. The Exchange club also has endorsed such service.

Marlette business men are making an effort to get a pea viner located there. They are trying to interest the W. R. Roach Canning Company in the idea.

The dates for the St. Clair county 1931 agricultural fair at Yale are set for August 18-21. This is the same week the fair has been held for the past two years. Last year's show was a successful one.

Uncollected taxes for the village of Vassar amounting to \$1,382.05 were returned to the county treasurer, Orlo J. McDurmon, by Coze Taylor, village treasurer of Vassar. This uncollected tax of more than one thousand dollars from a tax roll of \$24,500 is the largest percentage of uncollected tax returned by any of the villages in the county that have yet reported. John West, Cass City treasurer, returned \$94.99 uncollected from a tax roll of \$10,000, while Unionville with a tax roll of \$3,520.04 returned only \$19.62.

Harold Hahn is the Unionville treasurer. Harrison Honsinger of Fairgrove was the other treasurer to make returns. He reported \$36.50 uncollected from a tax of \$3,054.00.

John D. Martin, former Sanilac County agricultural agent and now owner of the Thumb Hatchery at Sandusky, has added a new line of work to his activities. He is one of three men recently added to the staff at M. S. C. to co-operate with the Federal Farm Board in advancing the board's co-operative marketing plan. Realizing that the economic side of farming had been neglected in the concentration of thought on production, Congress recently appropriated, on recommendation of the Farm Board, sufficient money to help farmers develop the marketing end of the business, in all parts of the country.

Agricultural schools and farm organizations have been asked to assist in this work and Michigan State College has responded. Mr. Martin, who had made an intensive study of the marketing of eggs, has charge of the forming of co-operative creameries and egg buying organizations. At present he is in the Albion district.

A disastrous fire occurred on the premises of Walter Henry in Fremont township, Sanilac county, Sunday night when the large barn, 60x80 feet, a shed, together with a team of horses, a cow, some farm machinery and a part of this year's crop were burned. The fire started about eight o'clock and the origin is undetermined.

The P. T. A. of the Pigeon schools is undertaking to sponsor the beginning of musical instruction in the Pigeon schools. Mass meetings have been held from the twelfth grade down through the sixth grade and questionnaires sent home to obtain the opinion and consent of parents. Some twenty-five to thirty replies have been received so far wherein parents want their children to have the benefit of such instruction and are willing to buy their own instruments and pay for the instruction.

The automobile accident Saturday forenoon on M-53, five miles south of Bad Axe in which Gustav DeBeauclair, 52, of Detroit lost his life, turned into a double tragedy Saturday night when Mrs. Martin DeBeauclair, sister-in-law of Gustav, died in Hubbard Memorial hospital of injuries received in the crash. Martin DeBeauclair, husband of the dead woman, escaped with slight injuries. Harry Budnik, 24, nephew of the DeBeauclairs, was cut on the head. The party was on its way from Detroit to visit relatives in Kinde and Port Austin.

IN MEMORIAM—In loving memory of our dear wife and mother, Christina Lorentzen, who departed this life ten years ago today, Nov. 22, 1920.

When the evening shades are falling, And we're sitting all alone, To our hearts there comes a longing, If she only would come home.

Off and off our thoughts do wander To a grave not far away, Where we laid our darling mother Just ten years ago today.

Like the petals of the lily That droop and fall away, So was our dear mother's life, Just fading day by day.

Peaceful be thy sleep, dear mother, It is sweet to breathe thy name. In life we loved you dearly; In death we do the same.

And when at last her end had come, While we stood by in tears, We thought of all the loneliness Through all the coming years.

Oh! This world would be a heaven Could we hear your voice again. You are gone but not forgotten; Never shall your memory fade.

Sweetest thoughts shall ever linger Around the grave where you are laid. Friends may think we have forgotten, When at times they see us smile, But they little know the heartache That the smile hides all the while.

Andrew Lorentzen and Mrs. Louise Arendt.
