

CASS CITY, AKRON ARE DIST. CHAMPS

Akron Won from Gagetown and Cass City Defeated Caro in Finals.

Cass City players are district champions in Class C and Akron stands at the head in Class D as the result of the final contests played here on Saturday, the last of the three nights of the district basketball tournament.

Coach Kenneth Kelly's quintet defeated Caro in the most important game of the season on Saturday by a 30-16 score after the county seat high school group had defeated Cass City three times earlier in the season. The local group took the lead in the start of the contest and maintained it throughout the game. A close defense on the part of the Cass City players helped materially in their success. Ruhl and Pinney led in the scoring for the locals, Ruhl securing 13 and Pinney 8 points. McDurmon led the scoring for Caro, securing half of their 16 points.

Akron and Gagetown fought a close battle for the Class D championship in one of the best games of the tournament, Akron winning the long end of the 16-13 score. Gagetown came within one point of tying in the third period when the score stood 11-10, but Akron forged ahead 5 more points to Gagetown's 3 in the last period.

The Semi-Finals.
In the semi-finals on Friday night, Cass City defeated Fairgrove easily by a 40-16 count. Cass City scored 26 in the first period. The local squad consisted of ten men, each of whom entered points in the scoring column.

Unionville led the scoring in their game with Caro in the first half and gave the county seat supporters many anxious minutes before turning to page 8.

Prepare for Vigorous Campaign

Rev. P. J. Allured and Mrs. A. J. Knapp of Cass City attended a meeting of the Tuscola county Ministerial association at the U. P. church at Gifford Monday. The meeting opened at 10:00 a. m. Rev. Schwartzoff of Saginaw gave a very interesting talk on his trip to Palestine. Dinner was served at noon and a short business meeting held.

Following this meeting, Mrs. Knapp presided over the first meeting of the United Dry Forces of Tuscola county, in which committee members were elected, one from each township. An aggressive campaign will be launched soon in defense of the eighteenth amendment during this election year.

A. R. Meredith of Caro is president of the county dry forces; Mrs. A. J. Knapp, Cass City, vice president; Rev. H. W. Ambrose, Caro, secretary-treasurer.

Repeated School Pranks of 1878

The Woman's Study club enjoyed a unique meeting at the home of Mrs. J. D. Brooker Tuesday afternoon. The program was in the form of an old-fashioned school, planned by Mrs. John McLarty and

Mrs. R. A. McNamee. Mrs. McLarty presided as teacher, with Mrs. McNamee as assistant and the school was composed of "boys and girls" who impersonated pupils of Miss Sarah Jane Dickson (Mrs. McLarty) in the year 1878. The teacher and her assistant conducted arithmetic and spelling classes, heard compositions, recitations and musical selections by the pupils and answered many important questions.

The juvenile participants appeared in costumes of bygone days and many were the pranks they committed. The next meeting of the club will be held at the home of Mrs. A. A. Ricker on Mar. 22 with Mrs. A. J. Knapp, Mrs. F. E. Kelsey and Mrs. L. E. Dickinson in charge.

MARRIAGE LICENSES.

Lonie Erwin, 26, Missouri; Edith Coleman, 16, Caro.

Local Happenings

Division No. 4 of the Methodist church will meet Wednesday, Mar. 16, with Mrs. J. A. Sandham. A pot luck supper will be served at seven o'clock.

Mrs. Alice Nettleton, Arthur Atwell, son Stuart, and Ernest Schwadner visited Joseph Frutchee at Saginaw Sunday. Mr. Frutchee is a patient in Saginaw General hospital but is getting along nicely. A most enjoyable time was held Friday evening when the M. M. class of the Methodist Sunday School met at the home of Dr. and Mrs. I. A. Fritz. Various games were played and refreshments were served by the committee, Mrs. Fritz, Mrs. Beardsley and Mrs. Parrott.

County Treasurer Orlo McDurmon reports \$216,838.27 in state and county taxes paid into his office up to Mar. 9. Receipts up to Mar. 1, 1932, were \$198,913.98. In 1931, receipts up to Mar. 1 were \$164,761.23. Township treasurers are beginning to make their final returns to the county treasurer.

The members of the Presbyterian missionary society enjoyed a one o'clock pot-luck dinner in the church basement Thursday, March 3. A social hour was spent after which the regular meeting was held. The program was on the work of the Board of Christian Education of the Presbyterian church and was in charge of Mrs. P. J. Allured. She was assisted by Mrs. R. J. Knight, Mrs. G. A. Striffler and Mrs. Mills. Clarence Merchant, chosen national champion 4-H Holstein boy for 1931 out of a field of over 30,000 possible candidates, by the extension service of the Holstein-Friesian Association of America, was an honor guest at the Rotary club luncheon here Tuesday. Willis Campbell, advisor in club work here, reviewed the young man's achievements as a club member, and Harry Crandell, Jr., presented Mr. Merchant with a traveling bag as a gift from members of the Cass City Live Stock club.

Mrs. S. B. Young, Mrs. A. J. Knapp, Mrs. A. A. Ricker and Mrs. E. Hunter of Cass City and Mrs. D. D. McNaughton of Argyle were among those who attended a luncheon in the grand ballroom of the Book-Cadillac hotel in Detroit on Wednesday. The luncheon was given by the Republican Women's Federation of Michigan in observance of the Washington bicentennial anniversary. The guest of honor and speaker was Mrs. Dolly Curtis Gann, sister of Vice President Charles Curtis. It was particularly fitting to find Mrs. Gann on a Washington Bicentennial program as she is a descendant of John Jay, whom Geo. Washington appointed as the first chief justice of the supreme court of the United States.

Explain Russia's Five Year Plan

Mrs. Earl W. Douglas, as leader of the Forum meeting Sunday evening, gave an unusually complete and clear explanation of the Russian Five Year Plan for industrializing and modernizing the nation as it is taught in schools of Russia today. It included a very pungent criticism of the planless and wasteful economic conditions under the capitalistic system. The chief aim of this great socialistic venture is to bring the modern conveniences and more leisure time for the enjoyment of life to every

factory worker and peasant in the land.

Spafford Kelsey reviewed a recent series of articles in the Country Gentlemen which revealed how crude and primitive are the living conditions still among the workers on the collectivized farms.

The form of government was shown by a chart to be, on the one hand, a dictatorship under J. Stalin, and on the other hand a strictly representative government based on the Soviet or workers' committee, which manages the affairs of each industrial unit or each peasant village.

Because of lack of time the subjects of religion and social conditions in Russia and advisability of recognition by United States were not taken up last Sunday and will be discussed next Sunday. Further developments in the disarmament conference within the last two weeks will also be presented.

Guilty Pleas in Criminal Cases

Circuit court opened in Sandusky Monday for the regular March term with Judge X. A. Boomhower presiding. Arraignments in criminal cases featured the opening day of court. The March term docket was also arranged for trial.

The March term jury will not be called for duty until later in the term, if it is called at all. Chancery cases and non-jury cases will be tried during the first of the term. Guilty pleas were taken in practically all criminal arraignments. Most of the defendants were from Crosswell.

Mr. and Mrs. Guy Stapleton, Crosswell, entered guilty pleas to possession of liquor, when arraigned before Judge Boomhower, and drew two year probation terms each. The probation also gives the sheriff the right to search the Stapleton premises without a search warrant at any time. Sheriff's officers in a recent raid confiscated a quantity of alleged liquor.

John May and Bertha Brooks, both of Crosswell, entered not guilty pleas to a charge of lewd and lascivious co-habitation, and the case was nolle prossed on motion of the prosecutor. May was also charged with liquor law violation, and pleaded guilty to possession and sale. Judge Boomhower sentenced May to serve 60 days in the county jail, and to one year's probation to run concurrent with the sentence.

Walter Suchin, Crosswell, father of seven children, pleaded guilty to possession of liquor, and drew 30 day sentence in the county jail, and one year probation. Suchin's home was raided by officers at the same time the Stapleton home was raided.

Neil Turnbull, 18, Crosswell, pleaded guilty to larceny of an automobile which was recovered, and was placed on one year probation.

Stanley Bloomfield, 16, Applegate, whose case of breaking and entering was waived from the probate court, entered a plea of guilty and was placed on two years' probation. Under the probation terms of Judge Boomhower, Bloomfield is to go to work and save a part of his wages. The portion to be saved is to be determined by the court later. Bloomfield was also ordered not to loiter around town after 9:00 p. m. He was caught in the Vincent garage in Applegate recently when the owner returned from supper, but escaped with about \$12 in cash. A chase across the fields followed, and the youth was later apprehended.

Court will continue in session trying chancery and law cases this week.

JUSTICE COURT.

Wm. Sholes of Wahjamega was arrested by Deputy Sheriff Milligan Friday on a charge of stealing four chickens from Carl Dilla, a neighbor. At a hearing before Justice Frank St. Mary on Friday, he pleaded guilty and was bound over to the circuit court.

Delbert Hurd of Mayville has been held at the county jail at Caro while a charge of rape entered against him on Feb. 8 has been under investigation by officers. On Monday, at a hearing before Justice St. Mary, officers report that he pleaded guilty. He was bound over to the circuit court.

Mr. and Mrs. R. W. McConkey, Mr. and Mrs. R. B. McConkey and daughter, Janice, were week-end guests of Mr. and Mrs. Grant Smith in St. Clair.

COUNTY AGENT IS GETTING ACQUAINTED

Agricultural Com. Will Arrange a Tentative Program This Week.

The county agricultural agent is becoming acquainted with his duties in Tuscola county with a varied line of activity during the first ten days on the job. These range from visits to farmers' clubs and granges to the conducting of several regular scheduled extension meetings, and included with several other things, instruction for the beekeepers of the county, a county conference of 4-H livestock club members, and a meeting of a county breeders' association.

The agricultural committee from the board of supervisors will meet with the agent this week for the purpose of making a tentative program of work for the coming year. Any suggestions as to the need of any kind of extension help for individuals or any of the many communities of the county are welcomed by the agent.

Due to the absence of clerical help the agent will spend a considerable portion of his time in the office. Farmers are cordially invited to come to the office when in Caro, get acquainted and discuss their farming plans and difficulties there. It is hoped that a large number of office calls may save many trips to individual farms.

Snover Club Awarded Cup

The Snover Literary club has been awarded the silver cup trophy given to the club or organization that reported the largest signed membership in the last Red Cross roll call in Sanilac county.

The cup is a donation of the late Dr. Geo. S. Tweedie, Sandusky, and was put up to stimulate interest in Red Cross roll call work. The Snover club enrolled 31 members out of a possible 300 of population. The percentage of population was also considered. The Deckerville Hypatia club with an enrollment of 52 members out of a possible 800 of population was declared to be second.

The award was made by Mrs. Dan R. Leslie, chairman of the Sanilac roll call work, on behalf of the Red Cross executive committee. Mrs. Chas. L. Bell of Snover was in charge of the enrollment work for the Snover club.

The Sanilac chapter enrolled a total of 216 members during the last roll call. Mrs. Leslie's final report states. The total enrollment was disappointing as a goal of 1,200 was sought. In many localities the campaign was not organized, Mrs. Leslie said.

Tax League Wants Lower Salaries in Co.

At a meeting of the Tuscola County Taxpayers' Protective league held at the town hall at Cass City on Monday night, it was decided by vote to request Elkland township officers to take a 20% reduction in salary for the coming year. Thirteen citizens of the township attended.

Richard Karr, who presided as chairman, complimented Elkland's officers, stating that he was well pleased with their efficiency in past years. A. A. Jones read a paper on the subject, "Government Expense" and W. F. Dowling and Arthur Tonkins, both of Fairgrove township, spoke on high cost of taxes.

At a meeting of vice presidents of the league held recently, a schedule of county officers' salaries was prepared and the board of supervisors, it is said, will be requested to fix salaries not to exceed this schedule and to make them less if they deem it wise to do so. The schedule was read here Monday. It contains these suggested annual salaries: Sheriff, \$2,500; county clerk, county treasurer, and drain commissioner, \$1,500 each; school commissioner, \$1,500; superintendent of road maintenance, \$2,000; road commissioner, \$800; office help, \$900.

The play is given under the auspices of the Parent-Teacher Association, under the direction of Ann Crenshaw and Oma Goff, representatives of the American Play Producers.

"The Hoodooed Coon" is a farce full of laugh-provoking situations and witticisms. Like most farces this play depends more on its action and humor for its success than upon a complicated plot. Gideon Blair, aged 93, and a multi-millionaire, has determined to marry his grandchild, Rosebud Reese, to the son of his old friend. If either of

Court of Honor of Boy Scouts

The second gathering of the court of honor of the Boy Scouts of the Thumb area met Monday evening at Caro in the high school gym. A splendid representation of the area was in evidence.

Geo. Landane, who is chief executive for the district, was present and presented the new troop of Caro their charter. An improvised campfire was arranged on the platform for the evening. A day of camping was dramatized by several scouts in uniform. Special music on guitar and mouthorgan was given around the campfire. Some nice tumbling was given by boys from Bad Axe. The proverbial fat boy was there, and seriously mixed things up.

After a talk by one of the council, many badges were received. Twenty received Tenderfoot badges, 16 were awarded second class badges, and seven received first class badges. There were 20 that received merit badges. Two were advanced to the rank of Life Scouts. Twenty-three boys were present from Bad Axe and 12 from Cass City.

Arnold Reagh, Avery Strickland, Russell Clement, Herford Korte, Arlington Huffman and Elwin DeLong, of the local group of Scouts were promoted to second class at Monday night's meeting.

ALMER FARMER KILLED IN RUNAWAY ACCIDENT

John Allen, 51, Almer township farmer, was killed in Caro Saturday night when his team ran away. The horses were frightened by a passing train. Allen was thrown from the wagon and a rear wheel passed over his head. His skull was fractured.

BARN AND CATTLE BURNED TUESDAY

Rolland Bruce, Deford Farmer, Suffered a Loss of \$6,000 by Fire.

Fire destroyed the basement barn, 40 by 73 feet in size, on the farm of Rolland Bruce, one mile east of Deford, on Tuesday night and burned 10 tons of hay, several loads of straw and two harnesses. Nine purebred Holstein cattle, three horses, and two hogs were burned to death. The loss is estimated at \$6,000.00. Insurance was carried on barn and personal property to the amount of \$2,900.

The fire was discovered about nine o'clock when it was well under way. Mr. Bruce and his father, Elmer Bruce, hurried to the barn and freed from their stanchions all of the cows except one. Only nine left the barn; the other eight head of cattle perished in the flames. A purebred Holstein bull also lost his life in the fire. He weighed about a ton and was purchased by Mr. Bruce for \$200 at the age of four months.

The origin of the fire is not definitely known, but it is thought by some that parties in visiting the building with the idea of stealing veal calves or other live stock may have started the blaze accidentally. Mr. Bruce found that the north doors of the basement which have been kept closed all winter were open when he reached the barn after the fire had been discovered. Two other doors inside the basement were also open and care had always been taken to keep them closed at night. Mr. Bruce had not had a lighted lantern in the barn for two weeks.

Nine years ago a barn on the Bruce farm was struck by lightning and destroyed by fire. A cement silo "weathered" that conflagration and again went through the fire with little damage on Tuesday night. Mr. Bruce is planning to build a barn this spring to take the place of the one burned Tuesday night.

County Farmers Hear Fine Program

The Tuscola County Federation of Farmers' clubs held their 24th annual meeting at the Caro Methodist church on Thursday, Mar. 3. The ladies of the church served a bountiful dinner to 120 persons. The clubs had as their guests the board of supervisors, the Caro board of commerce and members of the farm organizations. A large number came to enjoy the program in the afternoon.

Robert Warner of the Jolly Farmers' club of Cass City, president of the federation, called the meeting to order and several songs were sung with H. H. Purdy as leader and Fred Gussell at the piano. Rev. Ray Wilson of the Ellington-Almer club offered prayer.

Rev. Kuhlman gave an address of welcome. By the time he had finished, everyone present felt very much at home. The president, Mr. Warner, responded. He said he was proud of the village of Caro and vicinity, congratulated them on the fine churches and pastors and the fellowship of the members. He mentioned the aid in securing the operation of the sugar factory this coming season.

Burt Elliott and son of Cass City, sometimes known as the Hawaiian Twins, gave two splendid selections of Hawaiian music. The first was a medley of hymns and with the second number they sang "The Old Rugged Cross." Both numbers were greatly appreciated by all.

A brief time was devoted to the business meeting. Edwin Eckfelt of the Linden club, was elected

VASSAR BOY AMONG CONFESSED KILLERS

Three members of youthful bandit gang interrupted their trial on charges of murder Tuesday in Chicago and pleaded guilty to killing Detective James J. Caplis, state dailies reported. They were Nick Bruno, Frank Freeman and Hurlon Burilson.

Dorothy Evans, 16-year-old high school girl, testified the shots which killed Caplis in an attempted night club robbery were fired by Rocco Ferro, who never has been apprehended.

With them in the robbery, Miss Evans said, was Marcella Royce, 17. She said that after the robbery she and Miss Royce went with Burilson to his mother's home in Vassar, Mich., the Royce girl posing as his wife. They returned to Chicago and were captured.

REFRESHMENT.

In my New England boyhood a sign frequently seen on country taverns was "Refreshment for Man and Beast." You could feed your horses and yourself at the same time. Horses have given place to the automobile and the filling station takes the place of the wagon-shed, while the food obtainable along the highways varies, as a rule, from bad to worse.

Ask any motor tourist how many places he found to eat where the food was really palatable. He'll remember them all; it is no tax on the memory!

With everything else becoming standardized, the movement to standardize roadside food stations so that the motorist can be sure, before trying his luck, of what he is going to get, was bound to come. One of the big oil companies, operating its own gasoline filling stations, has made a deal with a large restaurant organization which operates a chain of eating places in many parts of the country. Light lunches of good quality and real coffee are to be served at the filling stations. I can think of nothing better calculated to encourage motor touring.

GOLD.

With their money depreciated and their nation off the gold standard, the people of England are showing their patriotism by turning their gold jewelry and ornaments to be melted up for money. One noble duke gave up his coronet, worth \$50,000 in coin but many times that in sentimental association.

Of course, the people who are doing this get the bullion value of their gold in the form of bank notes, but it strengthens their nation's financial position because it puts the gold where it can be weighed and counted as a basis for currency, which is impossible when it is in private hands.

Gold is useless except as a basis of money. The debate on the Glass-Steagall bill, just enacted, disclosed the fact that only a part of America's gold reserve, the largest in the world, was available for monetary purposes, owing to a defect in the original Federal Reserve law. The new law remedies that defect, and we won't have to give up our coronets, yet awhile, to keep our currency issues up in sufficient volume for business needs.

SILVER.

Talk about restoring silver to its place as a basis of money is being heard everywhere. The latest move in this direction is the introduction in congress by Representative Somers of Brooklyn of a resolution for an international conference on silver.

I am not sure that I agree with my friend Rene Leon, regarded as the foremost authority on silver, that the demonetization of silver by the British government in India in 1926 is at the bottom of all of the world's present economic trouble, but I do believe that the legalization of silver, up to a reasonable percentage of gold, as a basis for currency, would help to stabilize finance and business.

At any rate, as I have often said before in this column, silver is something interesting to watch.

DUCKS.

It looks as if the twentieth amendment to the constitution of the United States would be one which would change the date of presidential inaugurations and eliminate "lame ducks" from congress. As things are now, we elect a new president and congress in November but their term of office does not begin until March 4 the next year. In the meantime, the old congress holds a session in which defeated members, known as "lame ducks," still sit.

This is a hangover from the old stage-coach, horseback days of slow travel. It used to take three or four months to get to Washington. Both houses of congress have agreed to submit a constitutional amendment making January 3 the date for congress to meet with only the newly-elected members sitting and the new president to take office on January 20 instead of on March 4.

AMERICA.

While the "Star-Spangled Banner" is the official national anthem of the United States, many more people can sing "America," the familiar song beginning "My country, 'tis of thee." That was written just 100 years ago, in 1832, by the Rev. Samuel Francis Smith, who was then a theological student. He discovered an old German tune in a collection of hymns, and in half an hour had written the words which are still sung, to fit the tune. It was not until some time after-

wards that the same tune was adopted in England for the national anthem, "God save the King."

Gagetown

Miss Edith Miller has just learned that she is an expert needlewoman, through a quilt she pieced the past winter and which she presented to her friend, Miss Elsie Munro, of Albion. Miss Munro entered the quilt in a quilt contest at Albion where 150 quilts were exhibited, Miss Miller's quilt receiving first prize.

The Gagetown Woman's Study club met at the home of Mrs. F. D. Hemerick Monday evening. Roll call was responded to by "An Economy Stunt" practiced by member responding. Numbers on the program were: "Are Budgets Practical?" by Mrs. A. J. Burdon. "The Perfect Hostess," Mrs. M. P. Freeman and "Correct Table Setting," by Mrs. F. D. Hemerick. An informal dinner was demonstrated and the table correctly set for each course. The table was beautifully decorated to denote spring. Its pale green and silver damask table linen, the centerpiece of gold marigolds interspersed with green leaves standing on a table mirror, plain cut glass candlesticks lighted on each side of the centerpiece and the beautiful dishes made a very pretty setting. The next meeting will be held at the home of Mrs. M. P. Freeman. It will be a bridge party.

Mr. and Mrs. Basil Ziehms and little son visited over the week-end at Alma.

Mrs. LaFrave returned to Detroit after spending the past six weeks with her sister, Mrs. Wm. LaFave.

Alphonso Rocheleau transacted business in Toledo, Ohio, the early part of the week.

Leo Diamond of Detroit spent a few days with Mr. and Mrs. Angus McCarthy, who are ill.

Mr. and Mrs. Edward Kehoe entertained a party of friends at a fish supper Tuesday evening.

Miss M. E. Burleigh has returned from Detroit where she spent the past three weeks studying spring styles in millinery.

Mr. and Mrs. Michael Carolan of Detroit are visiting relatives and friends here.

Benj. Girou of Detroit and Edward Girou of Bay City are visiting their brother, Henry Girou.

Miss Mildred McDonald visited over the week-end at her home in Mt. Pleasant.

Mrs. Grace Krug of Cass City spent the week-end with her daughter, Mrs. Bert Clara.

A large number of Masons attended the Masonic dance at Unionville high school auditorium. All report a good time.

Lesson for March 13

JESUS COMFORTS HIS DISCIPLES

LESSON TEXT—John 14:1-18. GOLDEN TEXT—Peace I leave with you, my peace I give unto you: not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid.

PRIMARY TOPIC—Jesus Plans a Home in Heaven.

JUNIOR TOPIC—Jesus Plans a Home in Heaven.

INTERMEDIATE AND SENIOR TOPIC—Jesus Comforts His Disciples.

YOUNG PEOPLE AND ADULT TOPIC—Jesus Comforts His Disciples.

The hopes of the disciples were utterly shattered when Jesus told them about the cross. He had told them that he was going away and that they could not follow him. He consoled them by

I. Pointing to the Coming Reunion in the Father's House (vv. 1-3).

1. He asked them to trust in himself even as God (v. 1). Faith in the God-man, Christ Jesus, will steady the heart, no matter how intense the grief or how great the sorrow. Faith in God and Christ is one and the same thing, for Jesus Christ is not merely another God, but one with God. Christ himself is divine and therefore the revealer of divinity. Jesus Christ is the same object of trust as God himself. The believer should repose in him the same confidence and yield unto him the same submission as to God. Trust in Jesus as God is the secret of a quiet heart.

2. He informed them that he was going to the Father's house to prepare a home for them (v. 2). Heaven is the Father's house. Heaven is an eternal dwelling place. There is in it abundant room for all. There are "Many mansions." All who come to God through Christ will find room.

It is a prepared place for a prepared people.

3. He assured them that he would come again and escort them to the Father's house (v. 3). Jesus will not wait for his own to come to him, but will come and call forth from the graves those who have died and transform living believers, taking them all to be with himself forevermore in the heavenly home.

II. Revealing the Way to the Father's House (vv. 4-11).

Jesus informed the disciples that they knew the way to that place to which he was going. To this Thomas interposed a doubt, in answer to which Christ asserts that he is

1. The way to God (v. 6). He is something more than a mere guide or teacher—he is the way itself. He is the door to the sheepfold—the very entrance to the tree of life.

2. The truth (v. 6). He is not merely the teacher, but the truth incarnate. In Christ's incarnation the spiritual and material worlds were united. Therefore, every line of truth, whether spiritual or material, converges in him. No one can ever have the real truth about anything who does not have Jesus Christ. In him we have especially the truth about God. To pretend to know God while at the same time rejecting Jesus Christ is utter folly. Only as Christ reveals God can we know him (John 1:18).

3. The life (v. 6). Christ is not merely the giver of life, but he is the essence of life. Only those who receive Christ have life in the truest sense.

III. Assuring Them That His Work Was to Continue (vv. 12-14).

Jesus' going away was not to end the work which he had begun. This, no doubt, means that through the ministry of the Spirit-filled disciples the work which Christ began would assume larger proportions. There would be a much greater number of conversions than under his ministry. The means by which they were to get the power to do such wonders was prayer. God will surely answer prayer, not only because he loves his children, but through answered prayer his own name will be glorified.

IV. Promising Another Comforter (vv. 15-17).

The word "Comforter" means literally "one called to the side of another to give help, protection and deliverance." This Comforter is the Holy Spirit. Jesus was the Comforter while here on earth. The Holy Spirit was to be "another" Comforter. The condition upon which they might enjoy the comfort of the Spirit was obedience to Jesus (vv. 15-17).

V. Assuring Them of His Return to Them (vv. 18-24).

Although Jesus went away he did not leave his disciples as orphans. He is spiritually present all the time. The Father and the Son make their abode with the disciple who loves and obeys Jesus Christ.

Faith

Prayers and pains, through faith in Jesus Christ, will do anything.—John Eliot.

We were house cleaning every spare minute this week. Mrs. Groombridge cleaned the floor. We oiled it at noon and after school. We also cleaned the windows, back door and desk.

The primary grades enjoy reading about "Boys and Girls in Holland." Perhaps that is why we cleaned up. The first grade have made Dutch dolls with many pretty bright colored costumes. The second grade are modeling Holland scenes from clay. The third grade are drawing and coloring Holland scenes. We like this because Holland has so many bright colors. Princess Watassa will visit our school Wednesday morning. We expect our mothers to come too.

Sera and Elenora Dybels were captains for a spelling match. Elenora's side won.

Reporters, Violet Hathaway and Lorene Barnes.

SAND VALLEY SCHOOL.

Eva Marble, teacher.

Notice—Mice eat the leading crops of the United States. At least they stripped Elizabeth Windy's map of corn, wheat and oats.

Vera Palmateer colored our March poster for us.

The third graders are studying methods of transportation in a large city.

Agnes Windy won in the spell-down Friday.

We have a beautiful bouquet of pussywillows in our school room.

Alice Sobieray spent Tuesday night with Mrs. Marble.

Elizabeth Windy and Vera Palmateer made relief maps of North America this week.

Mrs. Marble taught the second graders a little prayer, so Thursday night their prayers were said for the safety of little Charles Lindbergh.

The sixth graders are having a struggle with verbs.

Mrs. Marble taught us this little verse which Mrs. Kelsey had taught her years ago at Sunday School: "We are building every day, in a good or evil way, and the structure as it grows will our inmost self disclose, till in every arch and line will our faults and failing shine. We may grow a castle grand or a wreck upon the sand." We hope you like it.

Vera Palmateer, reporter.

Twenty-five Years Ago.

Mar. 15, 1907.

Chas. Keyworth, who has been for over three years buttermaker at the Shabbona creamery, has contracted with the Coleman Creamery Co. He will be buttermaker and secretary of the company.

The minister of Novesta church, three miles south of town, was sacked and pounded twice within five days. The members of his church and people of his congregation as well planned a surprise on him for Mar. 1, but it being a very rainy night only about 30 turned out. They came around with sacks of flour and pounds of butter, sugar, coffee, tea, lard, etc. This so far relieved the unsuspecting preacher of any farther attempt at an assault that he thus became an

easy prey when 50 more walked in on him Mar. 5 and in much the same manner as before, pounded him and his family until they "hollered" enough.

Miss Nancy McArthur of this place is a member of the graduating class of the University of Chicago, the commencement exercises to take place on Mar. 19.

Wm. B. Davis of Moose Jaw, Sask., and Miss Loretta Brown of Jackson were married at Windsor Tuesday.

The home of Nathaniel Darling, four miles southeast of town, was burned Wednesday afternoon.

J. A. Renshler has rented his blacksmith shop to A. T. Crafts and the latter commenced work in the new shop Monday. Mr. Renshler will devote his attention to his automobile garage and to the repairing of gas and steam engines.

Miss Emily Muma was married at Rochester, N. Y., last Thursday to Rev. W. L. Brooks of that city.

Thirty-five Years Ago.

Mar. 18, 1897.

A. L. Hunt, formerly of Caro and quite well known here, is now run-

ning a barber shop on Russell St., Detroit.

E. Gilbert has resigned his position as engineer at the roller mills in order that he may devote his time to looking after his farm. P. S. Rice fills the vacancy at the mill.

On Thursday last, Frank Sheffer left for Kewanna, Ind., where he will enter the employ of J. P. Smith, formerly of this place. Mr. Smith has purchased a newspaper plant at that place.

A baseball meeting was held on Monday night and officers elected for the season of '97 as follows: Manager, W. H. Hebblewhite; captain, C. I. Frost; secretary-treasurer, H. P. Weydemeyer.

Chas. D. Striffler will travel for the Champion Machine Co. again this season.

S. Champion, having leased his barber shop which he has conducted for a number of years, will now turn his attention more fully to poultry raising in which he has been engaged to a considerable extent for the last three years.

W. S. Parker of Detroit, a construction engineer, told the village council Monday evening that his

estimate of the cost of a water-works and electric light system for Cass City was \$8,950.00. This estimate is based on the present prices of materials and labor; also that some one of our mills furnish the steam and buildings for plants. If a sewerage system was put in as well, it would make the total cost something less than \$12,000.

Mr. and Mrs. R. E. Fry of Lompoc, California, are rejoicing over the arrival of a little daughter, Florence Joyce, at their home on February 29. Mrs. Fry will be better known to her Cass City friends as Wilma Striffler.

Mrs. Thos. Gotts was taken to Pleasant Home hospital Thursday where she underwent an operation for appendicitis the same day. Mrs. Wm. G. Moore is also a patient at the hospital and underwent a serious operation Wednesday morning.

Officers of the Associated Charities report a great need for clothing for welfare work in this community. A request for all kinds of clothing, for both adults and children, is made. Business places have receptacles for receiving these contributions. Housewives are urged to look into clothes closets and send in as much clothing as can be spared.

Hogs and Poison

Hogs are not immune to poison. Their comparative immunity lies in the fact that they have very thick skins underlain by a thick layer of fat. For this reason poison often fails to penetrate to the blood stream of a hog attacked by a poisonous snake or in some other way subjected to poison.

STRAW JACKET IS NEW STYLE QUIRK

Introduced by One of Leading Paris Dressmakers.

A prominent Paris dressmaker has added straw to the economical features in styles for spring. He showed a jacket and dress trimmings, both of close-woven lacy straws. A fitted hip-length brown straw jacket was worn with a beige cotton sports frock. A black silk coat had a white lacy straw collar. Prints gay as a florist's shop, used for frocks, coats and slippers, marked the second outstanding feature of the seasonal showings which hitherto displayed only plain fabrics. New materials had either conventionalized bright flowers on black grounds or a solid mass of small bright designs.

Printed silk crepe frocks were worn with matching sleeveless jackets, or coats, or wool coats lined with prints. Slippers were made of brilliant prints matching dresses.

The shows stressed white sports frocks made of a new cotton called roumanex, looking like a heavy diagonal wool. It was used for high-waisted white skirts with colored sleeveless blouses attached, and for the white jacket worn with them.

ULTRA NEW SHOES

By CHERIE NICHOLAS

Fashion calls attention to an ultra new shoe which enters the style panorama this season. The feature of the kidlet, as it is called, is its high-at-the-back and over-the-ankle effect, its graceful curves accentuated by strong color contrast. Green and black kid are combined to make the chic kidlets which mid-lady in the picture wears with her smart jacket suit with its gay touch of color at the neckline. The high ankle has a swirl of black which gives the shoe the effect of a sandal. The high Cuban heel and the trim ankle are all planned for smart and comfortable shopping tours. The dainty pair of kidlets shown in the inset are done in quality-kind orange and white kid, and are just such as best dressed women are wearing at the present moment under southern sunny skies.

Spring Suit Must Have Jacket to Be Success

You must have a jacket with your new spring frock if it is to be a grand success. Of course, the jacket is sometimes a long coat, especially when it comes to the ensembles that are so liked just now. But it is jackets and nothing but in the evening, when the younger set, almost to a girl, steps out wearing some sort of jacket, however brief, with her frock.

Mostly the jackets are of the same material as the frock, and what they lack in length they make up in chic. But to put back to the frock with its coat, that does not match in color or material and yet manages to show that it is the soul-mate of the accompanying frock.

Fetching Ankles

Since the frocks are so much longer it is pleasant to know that one's stockings are above reproach, and one's ankles as becomingly arrayed as possible. Stockings of chiffon in waffle pattern will help solve the problem.

STYLE NOTES

Sheer creepy woolens are this season's choice.

Dark blue combined with red registers for spring.

Cape sleeves are variously interpreted in the mode.

Fashion insists on metal buttons, either nickel or brass.

The one-piece dress with top of lace or printed silk is stressed.

Brief jackets in contrast color to the frock play spectacular role.

Bright-printed blouse with picturesque soft-tied sash to match enlivens the spring suit.

Latest Frocks of Lacy Open Mesh

By CHERIE NICHOLAS

FASHIONLAND is enjoying the thrill of a new enthusiasm. It's for open lacy mesh effects, if you please. Seeking shoes, hosiery, gloves, dress goods, sports frocks, evening and afternoon gowns, wrap, suits, sweaters, or a blouse, millinery, handbags, or "what have you" in shops, you will be reminded every day in every way that open mesh effects are "it."

Some of the woolen materials are woven so open and lacy one has a feeling they surely are knitted or corseted. Often these "meshy" weaves are made up with touches of hand crochet to finish them off. At any rate, if madam or mademoiselle aspires to follow in the footsteps of fashion, an openwork knitted or mesh-fabric gown on the order of the up-to-the-moment models pictured is inevitable for midseason and spring.

The good-looking spectator sports dress which you see to the left in the illustration is of bright orange woolen in a knitted patterning which looks very much like allover lace. Its smart tailored handling adds "class." The coat repeats the white accent which occurs in the yoke of the dress, a whole fox skin forming the collar. The swanky shoes enter into the color scheme most beautifully. Observe that they are very smart open-shank sandals made of exquisite orange toned kid. According to the style program a big vogue is in promise for dainty footwear of finest kid in very lovely coloring.

Black tangerine and white are cleverly combined in the early spring street costume shown to the

right. The open square-mesh material is in tangerine. Its many-gored skirt which slenderizes at the hip and flares at the hemline is one of the outstanding features of the model. The surprise yoke of white mesh is also voguish.

The kid opera pumps, knitted turban, and abbreviated fur jacket are in black. A chain motif in gray beige to match the hose trims the shoes. Waist-depth jackets of every type of flat fur or of velvet, corduroy or velveteen are outstanding.

It is not only for the dress entire that mesh fabrics are scoring a triumph, for the making of the suit-blouse these loose-woven effects are the rage. In this connection mention should also be made of the latest blouse as per Schiaparelli and other Paris dressmakers, which is hand-crocheted of coarse mercerized crochet cotton and worn with the new spring suits.

Another use of French square-mesh hand crochet or of the materials which simulate these effects is that of making of them the deep yokes and sleeves such as top fashionable frocks this season, in contrast or of like color.

So popular has the theme of openwork novelties become, some of the shops are displaying accessory sets that include gloves, scarf and bag, all of matching mesh material, either in black, white or bright colors.

Likewise, latest footwear plays up to the flair for open mesh in that ultra chic shoes made of suva cloth (open mesh that looks like lace) are shown at all leading boot-eries.

VELVET IS SMART FOR SPRING WEAR

Many velvets are popping up here and there in the shops.

One of the most effective suits for formal wear combines a white velvet jacket with a black satin skirt. The velvet of the jacket is the new dull-surface variety, and very smart.

Short velvet evening wraps are to take the fashion trenches by storm this spring. They are being shown in every conceivable color, from black and white, through the pastels, to the bright jewel tones.

A black velvet coat for spring wear has barrel sleeves starting to flare at the elbow, and gathered into a tight cuff of white ermine. A standing white ermine collar is finished by a black velvet bow, like a windsor tie.

Black Velvet Suit Is Newest Note for Spring

The black velvet suit, in the dull finish, lusterless variety, is one of the newest notes for spring. The simpler the better—with belted waistline and stream-line effect. Worn with a simple, boyish white satin blouse, white gloves and perhaps a white ascot scarf, nothing could be smarter.

The evening cloak of white velvet, long and fitted in the medieval fashion, will stand out in any theater lobby. Especially when it is worn over a gown of garnet red. White and chamois-colored cotton velvet is being shown in sports coats and jackets.

A striking evening frock seen recently combines a tunic of white transparent velvet with a flowing skirt or black remain. The tunic employs the new suspender shoulder strap, coming to a "V" in front.

Pink and Black

Unusual lingerie is of pink silk trimmed with very sheer black lace.

HIGH WAISTLINE

By CHERIE NICHOLAS

The built-up waistline is important this season. This smart black and white check wool suit achieves the desired silhouette via a skirt which is brought up high over the blouse. The lining and the blouse are a vivid green crepe. Even when there is a belt, the newer skirts are made to look as if they extend above the normal waistline by means of tabs and various other clever devices.

HOME TALENT IN THREE-ACT FARCE

Concluded from first page.

The young people refuses to marry the other, the one refusing loses a million dollars.

Tom Rissle, who has never seen Rosebud, mistakes an old maid for the heiress and hires Hiram Tutt to impersonate himself, thinking that the heiress will refuse to marry him. Rosebud tries to persuade Tutt not to marry her by feigning insanity, but when she learns that Tutt is merely masquerading as Tom she nearly scares the life out of him.

The comedy scenes are furnished by Misery Moon, a hoodooed con, who is always in trouble; Lulu Pearl, whose every move and speech is ragtime; Paula Maleek, who is Tutt's deserted wife and who is after him with a dynamite bomb; Samantha Slade, the funny old maid who takes care of Gideon; and Patrick Keller, the bewildered ticket seller, who is in love with Lulu. Misery's fights with a "ram-pageous" colored cook (who does not appear in the play) afford great farcical opportunity, as do his frantic efforts to collect nine dollars from the old multi-millionaire.

Guy Landon and his haymakers are one of the biggest features of the entire play. This specialty is composed of 25 prominent business men, who pose as farm lads and lassies of the gay nineties. This merry group sing a bunch of the old favorite songs and put on some rare exhibitions. The Kelley Bros. and Elliott & Son, long famous for their musical talent, will render several specialties at this time.

To add spice and variety, a group of good looking high school girls and boys will sing and dance the modern tunes. Among these features will be: "The Darktown Strutters' Ball," "I Want to Be Happy," "Honolulu Moon," and "I Still Get a Thrill Thinking of You."

The cast chosen for the senior play is as follows: Horace Pinney Algernon Noncerief Albert Warner.....Jack Worthing Bill Ruhl..... Lane Algernon's valet Romney Horner.....Merriman, Jack's butler Bernita Taylor.....Lady Bracknell Irene Stafford, Honorable Gwendolyn Fairfax

The judges for that class were Miss Zuschnitt, Miss Perrin and Mr. Logan. Hester Kitchen, "Martyrdom of Joan of Arc"; Howard Taylor, "Vision of War"; Marion Milligan, "Abraham Lincoln"; and Genevieve Garaty, "The Unknown Soldier," placed in the freshmen class. Miss Manigold chose these people as winners.

Class Activities.

The American history class is studying the French Revolution. To illustrate the use of the guillotine, Arleon Retherford and Leland Kelly made a miniature model of the contrivance.

Miss Reed's art class has been working on modernistic scenes which are to be used in the senior play. These will add color and charm to the London apartment. This is examination week for the first seven weeks period of the second semester.

Sixth Grade

We are working on a Dutch project which we are finding very interesting as well as an educational benefit. The girls' craft class has been making boxes from plaster paris. In arithmetic we have started the study of interest problems.

Fifth Grade

The question, "Should the Philippines Be Given Their Independence" was debated by Clark Watson, captain, Donald Allured and Shirley McCaslin on the affirmative side. Mary Lou McCoy, captain, Harry Wise and Geraldine Strifler were on the negative side. The decision was made in favor of the affirmative side.

Fourth Grade

The geography class is studying the Mediterranean countries. Dorothy Mallory has been absent from school for the last two weeks. We hope she will soon be able to return.

We are enjoying the new ball we won by selling tickets for the operetta.

Third Grade

We are studying about birds. We are also working on an Easter decoration project.

Kindergarten

We have been making kites and windmills for decoration. We hope soon to have a life-sized picture of the Easter bunny. We shall then make nests and color eggs. Our hand-made flower pots are quite colorful, but will be more so when we have finished our tulips and chrysanthemums.

The right color for curtains will add sunshine and cheer to a dark, dingy room. The warm colors are yellow, peach and similar shades, which reflect a bright sunny light.

The mother who is interested in keeping her family well will provide milk, fruits and vegetables, the so-called protective foods, for her family. One quart of milk for each child and a pint for each adult will provide the lime essential for the building and maintenance of good bones and teeth.

All children need playmates who are about on the same development level. This helps them all to solve the problem of the give and take of human relationships.

A wooden spoon used in a utensil saves dark streaks on food stirred with them. It is particularly good for whipping potatoes, candy, or frosting. The spoon should be made of hard wood and shaped so that it can be easily cleaned.

COUNTY FARMERS HEAR FINE PROGRAM

Concluded from first page.

President for the coming year, Lorenzo Gee of the Indianfields clubs vice president, and Mrs. R. L. Robinson, secretary-treasurer.

Mr. Crawford, secretary of the Michigan Sugar Co., was present and answered questions asked him relative to the sugar beet situation in general. The time was short so he was given more time at the close of the meeting to answer any more questions.

Rev. Ray Wilson of the Ellington club and president of the State Federation of Farmers' clubs, gave a short talk stating that helps for programs might be obtained from Mrs. Potter of Owosso, secretary of the state federation.

Edwin Eckfelt introduced the new county agent, E. L. Hammond, who responded in a pleasing manner.

Rev. and Mrs. Carless of the Kingston club sang a duet. This number was greatly enjoyed by all. Herbert Leon Cope expressed his pride at being a member of the Ellington-Almer club. He said in part that "the world needs laughter. God gave us laughter. Man is the only animal that can laugh. Animals were created first. They did not have anything to laugh at." He brought to mind the hymn, "Faith of Our Fathers," as "what we need to really live; live an old-fashioned faith of our fathers."

The audience was again privileged to listen to two more selections of Hawaiian music by Burt Elliott and son. The talent was enjoyed.

Prof. E. L. Austin, head of the education department of Michigan State college, delivered the address of the afternoon. His topic was "Putting First Things First." He stated that he was raised on the farm, had milked 30 cows, plowed new ground with two blind horses and husked corn until his hands bled, so he felt very much at home with farmers. Coming back to "Putting First Things First," the schools were his idea of one of the first things. We now have 3,300 public school teachers, with 1,000,000 boys and girls attending the public schools of Michigan. The church is the only other institution that can match it from numbers attending.

"In 1928, the cost of operating schools was \$49,000,000," said the speaker, "while in 1932 the budget for Detroit city schools was \$24,955,000. Lansing's budget is \$1,750,000. For every dollar spent for schools, \$3 are spent for luxuries. For every dollar spent for schools, \$5 are spent for crime. For every \$1 tax spent for schools, we spend \$6 for automobiles, and for every \$1 spent for schools, there are \$8 spent for health and waste depending on same. Above figures are paid by taxpayers of the state. Not everyone in the state is paying taxes. All money spent for schools in U. S. for each man, woman and child is \$17.25 per capita, less than 5 cents per day. You and I pay more taxes than that. The biggest job we have is the job as parent if we have a boy or girl. There is an old saying, 'The longest journey begins at a single step.' It is so with the schools. Let's have better schools than ever. In matters of education, put first things first."

The meeting closed with the benediction by Rev. Kuhlman.

Continental English
A traveler on the Continent sent two amusing examples of English which are displayed in his hotel. The first is a notice: "Mistress and venerable voyagers are advertised that when the sun him rise a horn will be blown." The second, presumably by the same author, appears in the wine list and states, "In this hotel the wine leaves the traveler nothing to hope for."

Another sign of spring: We saw two boys flying kites last week.

We're pretty fond of Cavalier coal—it keeps us warm all the time. How is your supply lasting you?

It's mighty expensive to be too good natured.

High in quality, low in ash—that's Cavalier.

A flea and an elephant walked side by side over a little bridge. Said the flea to the elephant, after they had crossed it: "Boy, we gained! We've done that, too."

After you've used Cream of Wheat flour a while you won't be satisfied with any other kind.

Andrew Schmidt has about 20 brood sows for sale. A good bunch to pick from.

Once upon a time there were two Irishmen. Now there are lots of them.

To date, we haven't heard of a single aviator complaining because his parachute did not open.

Did you ever buy a disappointment? We said the flea to the elephant, after they had crossed it: "Boy, we gained! We've done that, too."

Complete Meal Ticket. Wayne All Mash Starter provides all the feed that chicks need during the first six weeks of life.

Japan, Having Saved Face by Victory, May Make Peace With China—Lindbergh Baby Kidnaped for \$50,000 Ransom.

By EDWARD W. PICKARD

PROSPECTS for cessation of hostilities in China and for ultimate peace were somewhat enhanced the middle of the week, for Japan had "saved face."

Her forces in the Shanghai area strongly reinforced and under the supreme command of Gen. Yoshinori Shirakawa, former minister of war, another tremendous effort to drive back the Chinese army was started, and after many hours of fierce fighting, was reported to have succeeded.

Gen. Tsai Ting-sai's Nineteenth route army which had been so bravely resisting the invaders, broke and fled northwestward and westward from the Chapei-Kiangwan line, and the Japanese having accomplished their immediate object, their military and naval authorities ordered the cessation of operations and submitted terms for a truce pending the holding of an international conference on the Shanghai situation.

It was apparent that the Japanese were determined to win a victory before the meeting of the League of Nations assembly on Thursday. Having accomplished this object, they were in better position to make or accept peace plans. Earlier in the week conversations in Geneva and aboard the flagship of British Admiral Sir Howard Kelly at Shanghai had led to hopes that there would be an immediate cessation of fighting. But the Japanese still insisted on the withdrawal of the Chinese forces before moving their own, and this China refused. In Geneva the council of the league adopted a proposal of Joseph Paul-Boncour for a conference of all the powers directly interested, in Shanghai, and the Japanese government accepted this plan. Sir John Simon, British delegate, announced that the United States would adhere to this proposal. The council made the conference contingent upon a truce, and the fact that the severest fighting of the war followed immediately served to confuse the situation and to make observers in Shanghai skeptical of results.

Dispatches from Tokyo quoted War Minister Araki as declaring: "Even if diplomatic negotiations are opened, we cannot withdraw our forces immediately. It is impossible to do so in dealing with China's undisciplined and treacherous military forces. We can only withdraw our troops after witnessing ourselves that the Chinese forces have been withdrawn definitely to a certain designated point. We can keep our promise, but there is no guarantee that the Chinese will keep theirs."

Notwithstanding the arguments and pleas of certain university presidents and many pacifists, the United States government will not countenance a boycott of Japan, which would be in effect a war measure. Great Britain is opposed to such an economic blockade, and therefore it was predicted that this drastic step would not be voted by the league assembly. The smaller nations were expected to favor the boycott, but it could be sidetracked by the British.

CHARLES AUGUSTUS LINDBERGH, Jr., the twenty-months-old son of Col. and Mrs. Charles A. Lindbergh, was kidnaped Tuesday evening from the nursery on the second floor of his parents' home at Hopewell, N. J. The police forces of New Jersey, New York, Pennsylvania and other eastern states were busy on the case within an hour and, with the aid of countless airmen, began an intensive search for the infant and the rash miscreants who had stolen him. Indications were that the crime was committed by a man and a woman and that the kidnapers had fled in an automobile.

The criminals left a note demanding the payment of \$50,000 ransom and threatened the baby with death if this was refused. Colonel and Mrs. Lindbergh were of course ready to pay anything possible to get back their child and the authorities aided them in facilitating negotiations. At this writing it is reported that the return of the baby is expected soon. The kidnaping shocked the nation and the Lindberghs had the warm sympathy of the entire population of the country and the active aid of everyone who could in any way help them.

NOT officially associated in any way with the situation in the Orient, but interesting nevertheless is the fact that in a short time almost the entire navy of the United States will be in the Pacific ocean. Orders issued by the Navy department direct most of the warships in Atlantic waters to take part in the

March and April maneuvers in the San Pedro area. The training squadron of the scouting force and the special service squadron, including ten new cruisers and destroyers, will join the scouting force of the Pacific fleet in defense of that part of the California coast from attack by the battle fleet, which was due to start eastward from Hawaii on March 8. A total of 141 warships of all types, including battle-ships, aircraft carriers, eight-inch gun cruisers, destroyers, and submarines will participate in the test of the Pacific coast's defensive power.

REPRESENTATIVE CHARLES R. CRISP of Georgia, acting chairman of the house ways and means committee, and his subcommittee for the drafting of the new tax bill completed their work and reported the measure to the full committee, after which it was offered to the house for passage. Mr. Crisp announced that the bill assured a balanced budget by the end of the next fiscal year provided current estimates were not upset.

The measure is expected to provide approximately \$1,100,000,000 additional revenue annually through new or increased taxes. The principle feature is the general manufacturers' sale tax, which, by the inclusion of a tax on gasoline sales, should produce \$625,000,000 annually. Increases in income, inheritance and estate taxes will bring about \$250,000,000. The remaining \$225,000,000, or thereabouts, will be raised by excise taxes. A promised cut of \$125,000,000 to \$150,000,000 in appropriations will bring this revenue program within the limits of next year's budget, it was said.

ECONOMY went by the board when the house passed the emergency road construction bill which appropriates \$132,500,000 for federal aid to the states in road building. Supported as a means of relief to the unemployed, the measure passed by a vote of 205 to 100, only 12 Democrats being recorded in opposition. Most of the money is to be allotted to the states by the secretary of agriculture under the provisions of the federal highway act. The federal government, according to the terms of the measure, is to be reimbursed over a period of ten years, commencing in 1933 by making deductions from regular appropriations to be made later under the highway act.

Secretary of Agriculture Hyde severely criticized the bill, asserting it would provide jobs for only about 35,000 men and would endanger stable development of the future federal aid program. It was predicted the measure, if it passed the senate, would be vetoed by the President.

QUARRELING over credit for legislative achievements, the Hoover supporters and the Democratic leaders have quite ruptured the bi-partisan alliance for the economic relief of the country, such as it was. Speaker Garner assailed the President, was in turn attacked by Senator Moses of New Hampshire, and the Democrats who hope to see Mr. Garner nominated for President leaped to his defense. Chief of the latter was Senator Tom Connally of Texas. In a fiery speech he lambasted the administration for extravagance and lauded the Democrats for economy. Senator Brookhart of Iowa interjected a question and brought on himself this withering retort:

"The senator from Iowa is a Republican in name only. He is just as bitter an antagonist of the present administration as any Democrat dare be. Yet he is afraid of anything that happens to bear the Democratic label."

In the house of Representatives John McDuffie of Alabama, Democratic whip, declared himself for Garner for President, demanding that his party draft the speaker.

possibly Democratic year to regain his old seat is Daniel F. Steck of Iowa. In announcing his candidacy he outlined views on national issues, advocating tariff revision, a referendum on prohibition and adequate farm relief legislation. Steck was the Democratic nominee in 1924 and was seated by the senate after an election contest with Smith W. Brookhart. He was defeated in 1930 by Senator L. J. Dickinson.

Maj. Gen. Smedley D. Butler announced that he is a candidate for the Republican nomination for United States senator from Pennsylvania against Senator James J. Davis. General Butler said he would run on a bone-dry platform and would have the full support of Gov. Gifford Pinchot.

PRESIDENT HOOVER in a special message to congress asked for legislation that would speed up federal criminal court justice, eliminate flaws in the national bankruptcy act and strengthen prohibition enforcement in the District of Columbia. The President's proposals included:

1. Legislation permitting the United States Supreme court to prescribe uniform rules of practice and procedure in criminal cases for all proceedings after verdicts in the district courts and for the Circuit Court of Appeals so as to shorten the time between conviction of prisoners and their incarceration in federal penitentiaries.
2. Laws permitting an accused person to waive the requirement of indictment by grand jury when the accused admits his guilt.
3. Legislation making valid all grand jury indictments where at least twelve eligible jurors voted for indictment, regardless of whether ineligible jurors voted.
4. Passing of legislation limiting the time for making motions to quash indictments because of disqualifications of jurors.
5. Legislation enabling the attorney general to forego prosecution of children in the federal courts and to return them to state authorities to be dealt with by juvenile courts and other state agencies.
6. Legislation supplementing the prohibition law for the District of Columbia.
7. Amendment of the bankruptcy laws to give debtors protection of the courts in certain cases, to remove cumbersome sections of the bankruptcy laws, to require examination of every bankrupt by a responsible official and numerous other reforms.
8. Legislation creating additional judgeships and federal court personnel to relieve congestion.

REVOLT has broken out in Finland. The rebels are members of the Lapua party, or Fascists, and they have gathered in large numbers well armed, threatening civil war if President Pehr Evind Svinhufvud does not oust all Communists and Socialists from his cabinet. The president's reply was the decreeing of a new safety law that gives him extreme military powers to meet the crisis. It permits the suppression of newspapers found guilty of agitation, dissolving of all demonstrations, search of homes, examination of all persons out of doors and hindrance of armed individuals moving from place to place, with other steps considered necessary to preserve order.

The army and civil guards proved loyal to the government and went out to meet the revolutionaries, and the president decided the leaders of the Lapua party should be arrested if possible. The disturbance was mainly in southern Finland.

LEGISLATION to authorize a complete investigation of the stock exchanges is favored by the senate banking committee and a subcommittee headed by Senator Walcott of Connecticut has been appointed to prepare it. It was the consensus of the committee, Chairman Norbeck said, that all phases of stock market speculation should be inquired into. The activities of the long interests as well as the short interests will be investigated, he said, but it is probable that the bears will receive first attention.

With only five votes in opposition the senate passed the Norris anti-injunction bill for which organized labor has been crying for several years. It sharply limits the cases in which federal injunctions may issue in labor disputes; provides that a person charged with indirect contempt of a federal court shall have right of appeal, and outlaws the "yellow dog" contract—that is, any agreement whereby workers promise not to join a labor union during the term of their employment.

There is no longer any doubt about getting a test vote on prohibition in the house. The petition to bring the Beck-Linthicum bill for state liquor control to the floor has received the necessary 145 signatures, the final name being that of J. J. Mansfield of Texas, a cripple who made his way to the clerk's desk in his wheel chair and affixed his signature as the vote cheered. The test will not come before March 14.

Brief Description of That Unusual Serial--

The House of the Three Ganders

by Irving Bacheller

THE reader of this story will speedily recognize that there is at work here more than the ingenuity of the good story teller. There will be justice in the conclusion, for the author of "Eben Holden" has taken as a basis for the plot a trial famous in the legal annals of New York State. The amazing developments that stirred the tranquil little village of Amity Dam have rarely been matched as a proof of the adage about fact and fiction.

But transcending the sheer fascination of the plot itself is the rich and poignant humanity of the story. Old Bumpy Brown with his wooden leg hollowed out to hold liquid fire for cheer on his journeys, and Shad Morryson, his young friend who inherits Bonaparte blood from a great-great-grandmother, are the principal characters, but many others are drawn in to activate a moving drama of a humble man's fight for his life against bewildering odds. The woody setting, the quaint customs and highly humorous sayings of the countryside, the unconscious nobility of its steadfast people, all blend to make the distinctive flavor of a true Bacheller novel.

In this story the "North Country" comes into its own. Even in the villages the Adirondacks press closely about; white birches shimmer in the sun; still, dark waters reflect pursuer and pursued. The country store which is the clearing house for gossip; the blacksmith's forge, the office of the country lawyer, Angel Alley where the tombstones are cut, the Sunday snoring match in the Sob Works; canoes, camps, ferry-boats; deer, trout, wild geese—the local color is strong and convincing, as might be expected from the pen of a man who was born and reared in the region he describes.

Humor and wisdom shine through the tale, often in homely phrase: "History is often like a wolf on the trail of a stag;" "Miss Betsy is scared of safety;" "Cigars are like Indians, hostile and friendly;" "Memories are like rats in your soul;" "A good dinner loses its temper when it is kept waiting."

With the same quiet mastery that marked "Eben Holden," "The Light in the Clearing" and "A Man for the Ages," Mr. Bacheller proves again that a story rooted in the soil needs no surface trickery to make it compelling.

CHAPTER XIII

Freedom at Last.

WHEN Sir John went to the drawing room in search of Lucy, he found her sitting there, strained and waiting. She sprang up as he came in, asking:

"Well?" on a sharp note of anxiety.

"Lucy, dear, he's terribly broken up. . . . He's a fine boy at heart, Lucy. . . . I could wish that things were. . . ." He broke off, evidently tremendously wrung by the emotion he had seen in Lee and felt himself.

"I must go to him, dad," cried Lucy, her lips quivering. . . . She started for the door, but he stopped her.

"Lucy, he. . . he asked me not to let you go to him. . . . He doesn't want to see you, dear. . . ."

She turned and faced him, her eyes wide and full of pain.

"He asked you. . . ? Dad, is that true. . . ? He really doesn't want to see me?" There was a cry in those words that Sir John missed.

"Yes, he said that, and, Lucy, he meant it. . . . Come home with me now, darling. . . . It is really best. . . ."

The anxiety and wretchedness of the next few days were awful. Lucy couldn't sleep for wondering what Jim was doing. . . . How he was, and what he was thinking and planning. . . . And she could not think out anything clearly, because all this put her into such a state of confusion. One thought contradicted another. One emotion was at war with the next. She endured four days of it, and then went to the flat in an endeavor to see him.

There, to her complete amazement, she found Perry St. Abb. But she did not find Jim.

"He's gone away," St. Abb told her. "He went yesterday, and I don't know where. Nor when he'll be back."

"Perry!" she cried, looking at him with wide, tragic eyes. "He. . . he hasn't gone. . . . for. . . . for good, has he?"

"No, of course not," he soothed her. "That isn't like him, is it?"

"Oh, I don't know! I don't know! Everything's so. . . . confusing. . . ."

She swallowed back the tears that were threatening. Then: "Perry, what made you come back to him? Had you heard. . . ?" She broke off.

"Not until he told me," he answered. "I had him badly on my conscience. I'd judged and deserted him. I felt that I'd rattled, and that's far from being a jolly feeling. What you said the day I left haunted me a good deal. So I came back two days ago. He thought I'd heard of his official exoneration, but I hadn't heard a syllable of it; nor of his imprisonment on anything. . . . I just came back because I'd known that I'd condemned him, knowing nothing. . . . I don't applaud the Linforth's business but I do understand it. . . . St. Abb's young, engaging face was very serious; his voice intensely earnest. It was, perhaps, one of the longest speeches he'd ever made in all his life. . . . He seemed to become aware of that, and smiled a touch self-con-

sciously as he added, with a hint of the old airiness: "So I suggested that if he wanted a Man Friday again, I was ready to come and spread my footprints all over this highly polished flat of his. . . . What?"

A little laugh jarred from her. It was a great relief to her to hear it. The sight of her pale, strained face; the sound of her lifeless voice, cut him badly.

"As for his being away now," he added cheerfully, "I don't honestly think it means much. Just that he wanted to be by himself. . . . out of town. . . . Or something. . . . Really, you mustn't worry about that. . . ."

"No," she said, as bravely as she could. "I suppose I mustn't. It's a little difficult, sometimes. . . ."

She stopped, and caught a sharp little breath. Then, in a new tone: "Did he mention Jocelyn?"

"Not in detail. But enough to make me think she'd been busy in her own rather infernal way. I saw her yesterday and had a talk with her. It was a heart-to-heart, with masks well off. I can tell you. . . ."

"I shall leave it at that then. Goodbye, Perry; and. . . . and thanks for coming back to him. . . ." Her voice shook badly, and he suddenly couldn't trust his own. They parted in silence.

When she got back to her father, her white face and unhappy eyes told him that something had happened even before she broke out:

"Dad, he's gone. . . . He went yesterday, and Perry doesn't know where he's gone to, nor when he'll be back or anything. . . . Tears threatened but she forced them back. "Oh, I knew I ought to have stayed with him that day!" she cried out, after a moment. Sir John was startled. Jim had promised not to go away without letting him know.

Somehow, he had thought that he would keep his word. . . .

"He kept his word. . . . He expressed it. . . . Lucy, I believe him, somehow. . . . He won't. . . . bolt, dear. . . . He's done a lot that I'm furious about, but he'll keep his word, you'll see."

And he was right. Another two days went by, and then Lucy had a telephone call from Perry St. Abb.

"I've heard from the boss," he told her, evidently very much relieved himself. "He's gone down into Hartford. I knew there was some perfectly simple explanation."

"Bless you, Perry," she said, a shake of emotion in her voice. "Just stick to him."

"You can bet your life I will," he answered genuinely. She thanked him, and set down the receiver. Her hand was shaking, and hot tears were running down her face. As she turned away, she saw her father coming toward her with a letter in his hand.

"From Jim," he told her. "He doesn't give an address but tells me that if I want to know where he is I can find out from St. Abb. So you see, my dear, I was right. He hasn't. . . . er. . . . bolted."

"What has he written to you for?" she asked.

"About my taking over Linforth's. He says that he is not going to have anything more to do with it, and is arranging to make over his control of it to me. . . ."

"Anything more?" asked Lucy, who did not find the question of business the most important one just at the moment.

"Only that he has gone away for a while, and he wants to think things over, and clear his mind as to his next steps. . . . He has suffered, Lucy. . . ."

"Yes," she broke out passionately, "and we went yachting, and let it happen!" She caught a breath. "Dad," she added suddenly, "I'm going to him. I don't care if he said a hundred times over that he didn't want to see me. . . . I'm going to him. Now. This minute. . . . This is just breaking my heart. . . ."

She finished on a faltering, tearful note, that made Sir John say, after a moment:

"Very well, dear, if you think it best. . . . It is your affair very much more than it is mine. . . ."

Less than fifteen minutes later, Lucy was in her little two-seater car, heading for the Hertfordshire house where her disastrous honeymoon had been spent. A suitcase, with a few necessities hurriedly thrown into it, was on the seat beside her; and, "Daddy," she had said, "if he wants me to stay with him, I shall stay. . . ."

When she turned into the drive, her heart was beating almost hurtlingly fast. She pulled up at the steps, and ran up to the door. It was fastened. When she had rung the bell and stood waiting to be admitted, she felt that her heart must be going to suffocate her. The maid who opened the door was surprised to see her, but very welcoming.

"Is Mr. Lee in?" she asked quickly.

"Yes, madam," the girl answered. "He's in the drawing room. I think. . . . I'll go and tell him. . . ."

Lucy stopped her.

"No, I'll go myself. . . . Just see that the car is garaged, and my things taken to my room. Will you?" She gave the girl her hat and coat, and went along through the familiar hall to the drawing room, opened the door quietly, and went in. Lee was sitting by the fire, elbows on knees, his head in his hands. His attitude was one of deep dejection. The winter afternoon was already going dusky, and his bowed head made a detail-less silhouette against the fireplace.

She closed the door softly, raised a hand to still the wildness of her heart, and said as steadily as she could:

"Jim. . . ."

One word, but it brought him starting up to his feet, a smothered cry breaking from his lips.

She came toward him slowly, half shyly; but at a closer sight of his face, pale and ravaged with the emotional turmoil he had gone through, her shyness dropped from

her, and she saw something that the confusion of doubts and fears had obscured from her; something she had not been sure of, since she had last seen him. . . .

"You love me, Jim; don't you?" she asked softly, her lips curved to the tenderest imaginable smile. He stood motionless for the space of a breath, then turned away and put the length of the room between them before he faced her again and said:

"Yes."

"I love you, too," she answered. There was silence again. Then:

"I love you enough to know that I mustn't let you love me," he said. "And I love you enough to know that you can't stop me," she said. He went on quickly:

"I've done some things that you could never really overlook. Never

her, and she saw something that the confusion of doubts and fears had obscured from her; something she had not been sure of, since she had last seen him. . . .

"You love me, Jim; don't you?" she asked softly, her lips curved to the tenderest imaginable smile. He stood motionless for the space of a breath, then turned away and put the length of the room between them before he faced her again and said:

Suggest Time Table to Boil Vegetables

A time table for boiling vegetables will be of practical use to housewives in procuring the best results. The extension division of the home economics department of Michigan State college has prepared such a guide, which designates the proper amount of water needed and the time required for the vegetable to become tender.

A large amount of water is required for green beans, young and old beets, brussels sprouts, cabbage, cauliflower, fresh corn, onions and turnips. Asparagus, parsnips, Irish and sweet potatoes require enough water to cover the vegetable, while young and old carrots, celery, and peas need enough to keep them from burning. Only what water clings to the leaves after washing is required for boiling spinach.

Over-cooking of vegetables lessens their palatability, destroys the delicate flavors and textures, destroys the vitamins, and lessens the nutritive value. Difficulty in digesting food is often the result of over-cooking, especially in the case of vegetables of the cabbage family.

The proper time for boiling the more common vegetables to tender point has been determined by the extension department as follows: asparagus tips, 5-10 minutes; green beans, 30-35; beets, young, 30-35; old beets, 60-120; brussels sprouts, 8-12; cabbage, quartered or shredded, 6-9; young carrots, 15-25; old carrots, 20-30; cauliflower, 10-15; celery, cut, 15-25; fresh garden corn, on cob, 3-5; fresh market corn on cob, 10-15; onions, quartered, 20-35; parsnips (quartered) 25-30; peas, shelled, 15-30; Irish potatoes, 20-30; sweet potatoes, 15-25; spinach with stems, 8-12; spinach without stems, 3-8; turnips, pared and diced, 20-30.

Growers Lose Money Buying Poor Chicks

The few cents saved by poultrymen when cheap baby chicks are bought is apt to become an expensive economy after the chicks have grown to a producing age and it is found that the birds lack the characteristics which are necessary to make them profitable layers, according to the poultry department at Michigan State college.

Sellers of baby chicks are in business for profit. They cannot maintain good breeding flocks and use good systems of flock and hatchery management and then sell their product at a low price. Eggs producing characteristics are hereditary and a pullet which lacks the producing factors cannot be fed or handled in a manner which will make her profitable.

The difference in price between good chicks and mediocre ones is usually only a few cents. The feeding and care of poor chicks is just as expensive as that of better birds so the only saving made is in the original purchase price.

Well bred pullets should lay 200 eggs or more a year, but poorly bred pullets usually have production records of 100 eggs or less each year. The difference in production may be as high as 10 dozen eggs per year, and if the price for eggs is only 25 cents per dozen, the difference in returns from the two birds is \$2.50.

When any lot of chicks is placed in the brooder house, all small, weak, and deformed chicks should be taken from the lot and killed.

These chicks are apt to be a continuous liability and time and feed should not be wasted on them.

Apricots Yield Almond Oil

Almond oil in the Middle ages was prepared from bitter almonds by distillation in water. Nowadays it is obtained almost entirely from apricot kernels.
