STATE'S BEST CROP

Michigan Farmers Will Realize \$6,500,000 from 1932 Beet Harvest.

With a production of 330,000,000 pounds of beet sugar, during the campaign just closed, Michigan takes its place as the third largest beet sugar producing state in the Union according to a report just released by the United States Department of Agriculture to the Farmers and Manufacturers Beet Sugar Association of Bay City. The report reveals that 121,000 acres of Michigan land were devoted to sugar beet culture, dur-

ing the past season, from which more than 14,000 farmers harvested 1,184,000 tons of sugar beets. While the cash return to the farmers can not be determined until the unsold portion of the sugar produced is marketed, it is estimated that the 1932 sugar beet crop will bring the Michigan farmers

well over \$6,500,000. Reports received from the various beet sugar producing areas in Michigan indicate that a large in-

devoted to sugar beets next summer and if the movement to reopen the several beet sugar factories, which were closed down for several years, is successful, it is estimated that more than 200,000 acres will be devoted to beet cul-

ture next season. business men Farmers and throughout the state are lending their support to the movement to rehabilitate Michigan's beet sugar industry, since it has been demonstrated that sugar beets are the most important cash crop grown

in Michigan and as such is vital to the agricultural and industrial prosperity of the state. Commenting on the value of the

beet sugar industry to the nation, Charles S. Young, of the United States Beet Sugar Association, said, "Last year the beet sugar industry of the United States provided, in proportion to its size, more employment than any other agricultural industry. More than eighty thousand men were engaged in the production of the crop, fifteen thousand men were employed by

the beet sugar factories, three thousand men were required to produce the coal and limerock used in ton, East Lansing, secretary; for the manufacture of beet sugar while many additional thousands

The appointment of this commission was the direct result of a series of articles prepared and published in Michigan weekly news-J. Brown, the pioneer crusader for a reduction in the costs of the state government.

Alone and single-handed the Ingham County newspaper publisher set out to show to the people of Michigan just where and how its fore step in at this time and save money was being spent and how it the public school system from a could be saved. Former Speaker complete demoralization. The edu-Fred Ming of the house saw to it cation of our boys and girls is the beets means a reduction in grain that Mr. Brown was a member of the commission that his articles made necessary to appoint. In cooperation with the other members of the commission, over six months of diligent study was given to every state department and every state institution.

One of the big Detroit newspapers catching the spirit of what Representative Brown had accomplished, started a follow-up series of articles on governmental waste, following exactly along the line that Mr. Brown had pursued in his series presented to the weekly press months before.

Before the legislature for their immediate consideration are the scores of bills that Mr. Brown and his committee prepared, which provide a reduction of something like \$10,000,000 in the operating costs of the state per year.

Just whether these bills fit into the legislative program that Gov- to run about with idle hands at ernor Comstock has in mind, has such a time as this. It is therefore not yet made itself manifest. The governor has indicated that he is in sympathy with most of the recommendations made by Representative Brown's committee.

Both Governor Comstock and Lieutenant Governor Stebbins have indicated to the legislature that they do not favor a mass of bills covering all kinds of legislation and that it is their wish to follow a certain line of directed economy legislation.

his inauguration. This development angered the President and on his return from Florida he told the correspondents that all recent reorganization moves on the part of congress were merely make-believe and the proposals of the Democratic leaders a backward step. He asserted that any real reorganization "sensibly carried out" will sooner or later embrace the very executive orders which he issued lately and which the Democrats in the house planned to veto. These would regroup 58 separate agencies into nine divisions. Chairman Cochran of the house expenditures committee was unmoved by Mr. Hoover's protest. He said it would be "unjust and most unfair" to Mr. Roosevelt to make so many changes only a few

weeks before he takes office. JACK PICKFORD, brother of Mary Pickford and himself a film star of no mean fame, died in a Paris hospital of what the doctors called "progressive multiple neuritis which affected the brain center." He had been ill for many months but would not take care of himself and could not stand the pace. The Democratic party of New

York sustained a great loss in the death of Mrs. Belle Moskowitz who, though holding no public office, was remarkably able in statecraft and politics. During Al Smith's ascendancy she was his adviser in regard to progressive legislation for

which he strove. She was an active worker in many welfare movements. FTER three years of thorough A FTER three years of the President's research committee on social trends

has made its report, and Americans found that its conclusions are not widely different from those of technocracy that have caused such ardent debate, though the

committe does not

predict the total collapse which the technocrats profess to foresee. Instead, it sees no imminence of failure of Dr. Wesley C. civilization, but Mitchell

rather a gradual readjustment to a new scale of living. Both this report and that of technocracy has advanced at such an alarming speed that the development of social and cultural factors has been left far behind, and neither offers any definite remedies. Many of the country's ills are attributed in the report to a "cultural lag," or the failure of changes in economic life, education, govern-

ment, religion, and science to move forward at the same rate. The great problem is for the man to catch up with the machine. New inventions, the committee

believes, are at hand, that will be plain language it factors in creating employment; calls for a sales the electric eye, the electron tube, tax on necessities light weight storage batteries and for the benefit of other devices may duplicate the part played by the automobile, the radio and the movies a few years sors, of the nation ago in making jobs for workmen. On the other hand, the committee

declares that there is no assurance that "violent revolution and dark periods" can be averted "unless there can be a more impressive integration of social skills and fusing of social purposes that is revealed by recent social trends." Dr. Wesley C. Mitchell, professor of economics at Columbia university, is chairman of the committee,

Wheels Hypnotize Girl

Wheels had such an influence over a girl in Sydney, N. S. W., that they lured her to death under a train. Such was the testimony at the inquest. Medical experts declare that the sight or sound of the train wheels exerted such an influence on the girl's mind that she fell in front of them without knowing what she was doing.

The Present Forgotten

 $J_{\rm course}^{\rm APAN}$ has resumed its ruthless course against China, and the rest of the world thinks it can do nothing about it except to express regrets. As a mat-

ter of fact there is little or nothing that can be done. Military intervention is out of the question, and financiers, merchants and munition makers would make loud and probably effective wails if an economic boycott of

Japan $w_a e r e pro-$ Chang Hsuehposed. The League liang of Nations has al-

ready demonstrated its comparative helplessness in such emergencies.

Resumption of hostilities between the two Oriental nations began at Shanhaikwan, the gateway city between China- and Manchuria at the end of the Great Wall. Marshal Chang Hsueh-liang, former war lord of Manchuria, according to the Japanese, was gathering there troops, arms and munitions, and transporting them thence into Jehol province, which Japan intends to add to Manchukuo. Furthermore the Japanese conveniently found two bombs in their gendarmerie station in Shanhaikwan. This was enough excuse for them, so they first bombed the city from airplanes and then occupied it after making three assaults by sea and land. Chang's troops resisted bravely, but were forced to retreat after losing from 500 to 1,000 men. Large numbers of civilians also were killed or wounded and the city was badly battered. The Japanese losses were officially reported as eight dead and 13 serious ly wounded. Their attacks were made with two destroyers, ten field guns and 5,000 infantry

Marshal Chang reformed his sol-

CASS CITY CHRONICLE- FRIDAY, JANUARY 13, 1933.

SUNDAY SCHOOL LESSON by Charles E. Dunn

Jesus at Work.

Lesson for January 15, Mark :21-24. Golden Text: John 5.17

The verses chosen for our lesson give a swift moving picture, from the graphic pen of Mark, of a busy Sabbath in the life of Jesus. The impression given is one of concentrated power, without haste, without rest. Mark is at his best in the nervous rapidity of the narrative.

At the beginning, we are told that the Master went to the synagogue. Such attendance was habitual. (See Luke 4:16) Now there are many people in our day who that they no longer attend church. They feel emancipated. Such folk get no comfort from the example of Jesus, for He went regularly to the house of prayer, even though He must have been greatly bored, at times, by the sermons He heard.

Modern life needs badly the relaxation of spirit true worship affords. The tempo, the strain, the social pressure of our time, are so fierce, that we easily succumb to nervous prostration, or "nervous prosperity," as Dr. Grenfell calls it. But the Master not only entered the synagogue. He took an active part in the worship, charming those present by the beauty of His words.

Then Jesus healed an afflicted man. one nervously unstrung. While few have similar cleansing power, all of us can, as Cardinal Newman bids us, be "merciful toward the absurd."

Next the Master went into the ome of Peter. There He continued His ministry of healing, curing the

apostle's mother-in-law of a fever. Finally, in the evening, a great crowd gathered at the door and He was able to comfort and restore many of the sick. What an ideal finish to a victorious day! How beautifully worship and service are blended! Here we see the Great Teacher and Physician with all energies released, giving Himself to the full!

CONTRACT BRIDGE LEADING INDUSTRY Taxes on Cards Alone Brings

in 5 Million Yearly. New York .--- The next time you

foozle a squeeze and vow in a moment of disgust to throw away the bridge cards and take up ping-pong reconsider your hasty decision and remember that every hand you play helps Uncle Sam in Washington and aids in building up a business now worth \$100,000,000 a year. For a survey has disclosed that contract bridge is fast taking its place along with the leading industries in the United States.

Conservative estimates place the number of active contract bridge players, experts and partners who still pass after two-demand bids inrather pride themselves on the fact cluded, at no less than 15,000,000. Baseball, so-called national pas-

time, never had this number in all its history.

These 15,000,000 hardy souls, who struggle with contradictory systems and survive night after night, buy each year a total of some 50,000,-000 decks. The United States treasury receives 10 cents tax on every deck, or some \$5,000,000 annually. There are now some 5,000 bridge teachers in the country. Their earnings aggregate between \$5,000,000 and \$10,000,000 a year at least.

The sale of tables, chairs, score pads, party favors, duplicate bridge boards and the like reaches a truly staggering total. One book alone, expounding a popular system of contract bridge, has sold 500,000 copies

Bridge has broken into the movies and into radio broadcasting. Tournaments staged throughout the country for profit or charity realize a tremendous turnover.

Motors Replace Horses

of Northwest Mounted Winnipeg .- For 40 years famed throughout the English-speaking world as the Scarlet Riders of the plains, the Royal Canadian Northwest Mounted police at last have discarded their horses and taken to the motor car.

Before there were dirt roads across the prairies, before the era of the railways, the old Northwest Mounted carried law enforcements, the crown's justice, into every nook and cranny of the Western prairies. They did so with the aid of horses and their prowess as horsemen. Their ability to travel weeks and months living off the country, cut off completely from supply depots, earned for them the reputation of the greatest mounted police force in the world.

New method of crime, new problems of law enforcement have changed all this. The photographs and paintings of the old scarletcoated riders, astride their horses is now only a relic of a Northwest which is gone.

go off successfully in class. Frequently they don't."

Wisdom From Study

How much soever you may study science, when you do not act wisely you are ignorant. The beast whom they load with books is not pro-

foundly learned and wise; what knoweth his empty skull whether Mr. and Mrs. Isaac Gingrich and he carrieth firewood or books?-

Why Not?

"Mother, I want to ask you something," said Steve. "The world goes around, doesn't it? Well, then, when the endurance flyers are up in the air several days, why can't they

reds, romantic greens, gold, light blue and rose as well as gray and beige

In design the patterns are brush rial and such varied experiments, or freehand motifs. They are that even the lectures alone on modeled in simple tailored effects. these matters would occupy more The patterns seemingly are selectthan five hours, and the series of ed to harmonize well with current experiments several more, to say | colors in winter coats, which shows nothing of the many additional that the designers are at last hours of preparation. This is sup- recognizing the need of giving the posing that each experiment would wearer an opportunity to be well dressed without purchase of an en-

tire new costume.

The illustration above portrays one of the popular new spring print models. It is a pumpkin ground with a romantic green and black pattern.

Lighting Liberty Statue

The light in the torch at the top of the Statue of Liberty is maintained by a lighthouse service of the government. On December 2. 1916, arrangements were completed for the permanent lighting of the entire statue, the signal being given by President Wilson for the turn ing on of the lights. The funds for

the permanent illumination were collected by the New York World through popular subscription.

Maxwell, Neb.-C. J. Israel, Civi war veteran, has for years received a pension from the United States government. Now, he says, he wishes to repay the government.

Israel, eighty-five years old, has enough money to assure him a comfortable living. So he has offered to donate the use of the former Maxwell State Bank building to the government for its post office. The building has been vacant since the bank was closed several years ago.

Son of Siam Diplomat Works on American Farm

Boscawen, N. H.-Prince Debriddhi Devakul, seventeen, son of the foreign minister of Siam, is spending his vacation from an exclusive New England preparatory school working on a farm here The prince is hoeing potatoes, milking cows, and feeding chickens, in order to acquire a practical knowledge of American farming methods in his homeland when he returns.

Comma Makes King of Siam Real Mad

Bangkok, Siam .- The king of Siam is very mad.

He's mad about a comma-o rather about the absence of one. for if the comma had been in the story there wouldn't be any royal flush now whenever the story is mentioned.

The Malay Mail left out the comma. It published a story with this headline: "Ipoh Man Says He Is Cred-

itor of King of Siam." A gentleman named Whitaker was examined in bankruptcy proceedings in Ipoh. Among little accounts owed him he cited

King, of Siam, \$57.000. A copyreader on the Mail saw no significance in the commas, dropped them and wrote the head implying that his majesty was \$57,000 on the cuff to Mr. Whitaker.

His majesty spun about on his regal ear when he saw the story The item, it has since developed referred to one S. J. King, an Australian tin miner, who lives in southern Siam. The editor of the Mail now goes home by a circuitous route so he won't have to pass the palace doors.

DEFORD.

Called by Death-

"He was a good man". These words are the greatest homage that can be offered to any man and they are true in respect to our neighbor and friend, Colin M. Ferguson, who died at his home Jan. 7, 1933. The funeral was held Wednesday, Jan. 11, at the Novesta Church of Christ and the body laid to rest in Novesta cemetery. Rev. Paul Jones of Detroit, pastor of the church, preached at the service.

Mr. Ferguson had not been well for several years. Since September 13, 1932, he has been confined to his home by pernicious anemia, which resulted in his death.

Colin Ferguson was born at Duart, Ontario, sixty-five years ago and came to Tuscola Co. in 1880. He was ordained in the ministry when a young man and intended to make that his life work. Continued study weakened his eyes and he was forced to forego that desire. During the years past he has spent much time in the work, being pastor of the Church of Christ for a few years. During his early life he taught school for some years. He attended the Johnson Bible College at Kimberlin Heights, Tennessee.

March 21, 1901, he was united in marriage with Miss Phebe Teskey and they were the parents of Ernest. Jack, and Harold, and Mrs. Eldon Bruce of Fairgrove. He also is survived by two sisters, Mrs. N. W. Bridges, of Novesta and Mrs. D. A. Preston of Snover and two grandchildren. One brother, Malcolm Ferguson, preceded him in death.

Farm Home Burned-

The farm home of Mr. and Mrs. M. H. Moore, three miles west of Deford, was very quickly destroyed by fire on Friday morning when Mrs. Moore in endeavoring to explosion resulted, and the house burned with all the contents. Sixty worth of carpenter and plumber's tools, a large quantity of lumber in the basement, together with all vegetables and canned fruit, were on Monday to the home of her pardestroyed. her arms. On the floor, in a pool of water, lay the beloved mug broken into fragments, while the crib. as well as Algy himself, was deluged by its contents.

"Don't cry, darling! It's a shame, but Mary will buy you another just like it, only prettier, maybe, the next time she goes to Wallacetown. Hush, honey. Let Mary put you in bed with Moses while she gets you dry pajamas and changes your sheets and wipes up all the pieces so you won't cut your dear little

Comfort, fresh linen and more water al having been provided. Moses was urged to continue his devotions. "I don't see why I should say, 'If I should die before I wake,' I've said it and said it, and I ain't never died at all." "Well, just say 'God bless' tonight,

then."

"God bless Daddy and Mary and Algy," mumbled Moses glibly, "and all my dear friends, and make me a cises at school seemed to him more good boy, and bless Cousin Jane and Cousin Violet and Blanche. You needn't bother about Paul, he snitched my woodchuck trap. Amen.

feet."

ing into bed and settling himself on his pillow.

Mary began it bravely enough. But the reference to Paul was too much for her. Before she reached the Chocolate Cat she found she could not go on. "I'm afraid I can't finish. "The Su-

gar Plum Tree' tonight, darling," she said abruptly, bending over to kiss him; and in spite of her, some hot tears fell down on his face. Then she fled from the room.

Moses lay for a long time wideeved, and pondering. He loved Mary as he loved no one else in the world, and Mary, plainly, was very unhappy. Moses always slept with a small Canton-flannel dog named Spotty, to which he had been devoted from infancy. It had gone through numerous vicissitudes. More than once it had fallen in the brook, but Mary had always fished

it out, and dried it in the oven. And one night he had ripped it "But He's White Clean Through, for open and devoured most of its lining—an experiment which had proved very disastrous to both. But through for all that, believe me! Spotty still survived. Moses made If he could have your chance, my! a sudden resolve. what he'd have done with it! A He hugged Spotty and kissed

what remained of his nose. He gulped as he did it. Never, since he could remember, had he gone to sleep without first laying his head on the cherished toy. Then he picked it up and pattered into

Mary's room. It was as he had expected. Mary vas lying on her bed, weeping. Moses held out his hand. "Don't cry any more, please,

Mary," he said softly. "I've brought Spotty to sleep with you." It was then that Mary realized

that she had found a second source of comfort in Moses. Most of her unhappiness had been caused by selfishness. Moses was willing to make, for her, what was to him a tremendous sacrifice. She drew the child, with his little, Canton-flan-

nel toy still in his hand, into bed with her and cried without retraint. holding him in

CASS CITY CHRONICLE- FRIDAY, JANUARY 13, 1933.

this burg, and I don't deny that We'll be connected with the British and hurt pride that were trickling comfortable feeling that she saw you've got something to be proud of army. Well, may be, and see their descendants good by." wearing out the seats of their trous

Paul began to feel very sorry for ers sitting on the post office steps himself. Public opinion, which he and saying what they'd do if they had at first thought to be wholly was President, or standing on the on his side, seemed to be gradcurbstone in Wallacetown thinking ually, but none the less surely, they're having the h-l of a time swinging the other way. If the because they've got a couple too older women still chattered against many drinks inside of them and are Mary, the younger ones spoke diftalking to some skirt they wouldn't ferently, and none of them would introduce to their mother-I guess have anything to do with him. He them old captains and judges and led an unappreciated existence, governors would think the good old after twenty-one petted years. As stock had run down to a pretty poor for the men, he thought they were line of goods! I got a fellah in actually beginning to go out of their New York-floor walker on the way to be disagreeable to him and eighth-who doesn't know who his pleasant to Mary. He found himfather was, let alone any great self virtually ostracized in Hamgrands! But he's white clean stead, and neither White Water nor Wallacetown, though he tried them

both, seemed to furnish either lasting stimulation or lasting solace. He discovered, as many another man has discovered, the deadly dullness with which dissipation is permeated.

loneliness and boredom, he decided to go to Mary and ask to be reinstated in her favor. This seemed easy enough when he first thought of it, but the more he reflected, the more he saw that it might be rather difficult. He had treated Mary somewhat shabbily,he admitted. She was having a very good time without him-he was forced to admit that too--and there was really no special reason why she should ever crave his society. He started on his errand of reconciliation several times, only to turn back, feeling that his stomach was caving in uncomfortably for some reason, and that it might be better to wait a few days longer. At last having spent a Saturday evening at home when every one else under thirty in town had gone off on a picnic, returning in the highest spirits at midnight-Mary was with the Grays and laughing and singing when they dropped her at the front door-he took his courage, what there was of it, in his hands and sought her out. He found her, late that Sunday afternoon in Indian summer, sitting in the fragrant orchard reading a book, a rather solid looking book. She was, Paul thought, looking unusually fresh and contented

"Why don't you read heavy snow storm had obliged him to drive the old family horse, instead of using the new motor, and "If you would honestly like to. it was two o'clock in the morning when he reached home. There was, he happened to notice, a light in Mary's room. When he had put the horse up and was going from the barn to the house, he saw that it was still burning, and heard her voice at the telephone through an open window. Seth and Jane were both away, he knew, attending a Sunday school convention. Mary was therefore alone with the two little boys, and something was certainly wrong. He went up close to the house and called:

"Mary! Mary! Is anything the matter? Can I help?"

He was more frightened than before at the agonized voice that answered him.

"Yes-YES-Oh, thank God you've come !"

He pushed open the front door and bounded up the stairs. Mary was bending over the bed. And on the bed lay Algy, gasping and writhing, and then lying deathly still.

Mary

--Wallacetown--any place you can think of."

Again Paul tried. One doctor was sick himself. Two had gone away also-to give you a message from States will be in the war, too. He's to attend a medical congress. A fourth, twenty miles away, ap pealed to as a last resort, didn't rather long talk with her about a to 'the real job' later on if we do. it's Christmas day-that perhaps know how he could get there-"the roads aren't broken through down the things she said to me was, went downstairs for a minute just you again for a long time. . . ." this way."

"We've got to face it alone." said Mary at last.

Paul knew that it was in that moment that his selfish and idle boy hood died and that the potential manhood in him came to life. "We've got to face it together,

Mary," he said.

It was eight o'clock in the gray November morning when David Noble finally came to them. Mary was sitting in a large rocker, with Algy, a little gray shadow of the rosy child of the day before, ended. clasped in her arms. Paul, a glass of brandy-and water in his hand. rose from his knees beside his cousin's chair.

"Algy was all right when he went to bed last night," he stated briefly. "He woke up in convulsions at midnight. I was passing about Austin to make something else two o'clock and saw Mary's light. his first consideration. Maybe She was all alone with him till then. he's needed a lot more in France We've done the best we could."

David raised the child's eyelids a-a tragedy like that to show him to look at the pupils and felt his how much he was needed." pulse while Paul was speaking. He bent over, listening intently to the lently at the boy. He was too surlittle heart. Then he raised his prised at such conclusions reached his cousin, his friend, his companhead.

"You've saved his life," he said, ance to speech. with equal brevity.

A few minutes later, in the last. "But Austin isn't the only had forgiven him freely for all he blessed sense of security that had one, you know, who's needed in come over her, Mary asked for France just now." Svlvia.

"She didn't get her twins, of course?" she asked, almost lightly. said about the Foreign legion. I'll in his life, deeply in love, and per-"She's talked of nothing else for be up tomorrow night to have you haps for that reason, daily going months."

David's face contracted, and Mary noticed for the first time that he shall be off myself pretty soon, hopeless. Well, he must hide it as looked strangely old and very, very tired.

"Yes," he said huskily. "She did. Twin girls, just what she wanted. [1] see you tomorrow night! Mean- knowledge that she regarded his And-she's taken one of them back to Heaven with her."

CHAPTER X

THE tragedy of Sylvia Gray's death shook Hamstead to its very foundations. Austin was almost crazed with grief, Even David, who had always had more influence over him than anyone else except Sylvia herself, could not move him.

Next to Austin himself, there was no one, perhaps, in the whole village, to whom the loss of Sylvia came as such a horrible shock as beyond me." to Mary. Algy was still very ill. The fear that the child would yet die, in spite of her fight for his life, grew a thousand times larger gan to find the kitchen fire built Paul, with the rest of the vilnow that Sylvia's death had and the tea kettle boiling when she lage, was glad to have his sister brought the Valley of the Shadow so close to her.

Mary did not close her eyes, nor tended faithfully day and night, them, but because it was easier. in stir from her little brother's side the porches and paths kept free their presence to keep from saying for three days and nights. And all from snow. On Monday mornings the things he was longing to say to buried in Hamstead, with someone that time, beside the actuality of he appeared to empty washtubs Mary-to keep, as he was longing I loved," Philip said. "What do you the stricken child that she saw and hang out clothes. It is unfortunately true that many fighting to get Mary back, if he has you were here, so he didn't wait. naturally sweet-tempered women, if He asked me to invite you to go they are also clever, take refuge, when they are hurt or frightened. "I should think it might be rath- mas. He'll be there for a fortnight, in flippancy or sarcasm. It is to be er difficult," said David dryly. "I at least, making final arrange hoped that they do not know how deeply they can wound with these weapons. But whether they do or not, Mary was no exception to this

> "Why should you care about it so much?" she quoted scathingly, 'a kiss doesn't mean anything.''

Paul stepped to one side, leaving the passage upstairs clear for her. She went by him swiftly, her head up. Then, on the landing, she turned and came still more swiftly down.

"That wasn't fair," she said.

"No," he said slowly. "It wasn't fair, and it wasn't kind of you to remind me of it. But what I said was true. There are some kisses that don't mean anything in almost since they had "made up," Paul saw every fellow's life. They drink too much sometimes, too, I'm sorry, but it's so. But that doesn't mean they're hopeless drunkards anddegenerates. There hasn't been anything to drink, or any of that kind of kisses for me in a long time. You know that, and you know why, too, And you ought to know that it would mean more than anything in the world to me if I could kiss you again."

> Paul had learned a good many valuable lessons in the last months. Mary learned one now. The boy was humble, but he was not abject. If he had a right to demand nothing else from her, he deserved and

"When you go to New York-" she began.

"You'll let me kiss you good-by?" intended to say. She hesitated a minute, and then, in spite of herself, she nodded. Then she leaned and let stand one hour. Turn into her lips, so lightly that it seemed to answer it as she fled.

"I wonder if Mary and Paul are really going to make up, after all?" Philip asked Blanche, a few days later

"Oh, I hope not-even if he is my marry him now that she's got such a splendid chance!"

"Splendid chance!" "Yes. "Well, I shouldn't mind being a thick, rich sauce for the bananas.

all druggists.

He doesn't look a day over fifty. And feels like forty.

At the age of 62.

That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant!

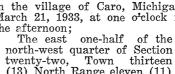

When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar patent medicines. Stimulate the liver and bewels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin.

This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose Dr. will clear up almost any case of beadache, biliousness, constipation.

But if you want to keep in fine shape, feel fit the year 'round, take a spoontal of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better. You will never need another laxative.

Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels from clogging. And saves them from so many sick spells and colds.

Have a sound stomach, active liver and strong bowel muscles that expel every bit of waste and poison every day! Just keep a bottle of Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor in every way.

PAGE EIGHT.

CASS CITY, MICHIGAN.

Balancing the Budget Still Remains Government's Greatest Problem.

By WILLIAM BRUCKART Washington.-Although the government's fiscal year is only a little more than half gone, it is apparent now that the treasury deficit next June will exceed \$1,750,000,000. That is why so much talk has been heard lately about balancing the budget.

Budget balancing can be accomplished in only two ways. Either more taxes must be laid so that more income is received by the treasury, or expenses must be reduced to make the government live within its income. The talk of the last few days has been on both sides, but the cold fact is that nothing congress can do prior to its expiration on March 4 can prevent the government being on the short end of its finances when the current fiscal year ends June 30.

Thus, leaders in congress and treasury authorities are moving along with plans, or rather with ideas, for they have not taken the shape of plans, for raising enough revenue to balance the budget during the fiscal year that opens on July 1, 1933. It must be said, however, that more speed will have to be displayed than has been shown thus far in the session if the desired end can be accomplished for the next fiscal year.

The trouble is that there are too many schools of thought in congress, and there is an unwillingness among many of them to give up. their own programs so the necessary strength for passage can be concentrated. This, however, has happened before. When the situation gets critical, there will be cooperation.

New Source of Revenue.

It is yet too early to offer a suggestion whether the manufacturers' sales tax or some increase in the lower brackets of the income taxes will be employed, or whether both of them will be used. Besides a tax on beer, if and when it is legalized, the two sources mentioned present about the only new places to which congress can go to get revenue in quantity.

There can be no assumption either that the current session of congress will pass a revenue law, in which event the probabilities of a balanced budget for the fiscal year beginning next July 1 are obviously pushed further back.

Attention must be called to the circumstance that if congress were to pass a new revenue law before it adjourns on March 4, the revenue it would add to the treasury income would be only through the months of March, April, May and June, or oné-third of this fiscal year. This means, of course, that whatever the tax is, the expected deficit can be

altered very little.

This much can be stated, however, with assurance: if there are definite plans for reorganization presented in the current session of congress, other than those ordered into effect by President Hoover, they will not appear on the floor of either house until very late in February. Democratic leaders do not want President Hoover to have a

chance to make use of the wide discretionary powers that probably will be given to the Chief Executive for use in shifting, abolishing

or remaking governmental units. But Republican leaders in the senate and in the house as well tell me that they are not disposed to raise much serious objection to whatever proposals the Democrats bring forth. It is a Democratic child, according to the Republican

view, and many of the Republican leaders say they are entirely willing to let the child be reared as a Democratic responsibility. Some of them go so far as to say, that the child may turn out to be an "ugly duckling" for the reason that reorganization of the government on his knees, begging to hear more blind beggar. of his stories. structure is surely not as easy as it sounds

Examination of congressional records will show that a very great many of the bureaus, divisions, commissions, boards and what-not agencies were the direct result of | ed one of those sayings which |

congressional initiative. And they were the offspring of Democrats of his gospel. "They are the very and Republicans in about equal Heaven," he said, "unless you benumber. Picture for yourself the influences and the pressure that wise enter in." Like them-like will be exerted every time one of them is to be eliminated, including little children-laughing-joyousdestruction of the jobs that go unaffected—trusting implicitly with time to be kind. with it.

Question of Jobs.

As a matter of fact, this question of jobs is the thing that makes reorganization next to impossible, that is, reorganization of sufficient consequence to reduce government expenditures, which is the only real purpose of reorganization. The effect is felt not alone here in the Ĉapital City, but it reaches in the hinterland to the farthest point. And every spot that is touched immediately becomes a charge of dynamite that is ready to explode in proximity to the senator or rep-

resentative who supports a reorganization plan which takes away jobs. From these facts, it must be obvious to every one that the job of the President-Elect insofar as reorganization is concerned, presents a tough problem. A sample of the work cut out for him, if he carries out his party platform, may be had from the undercurrent talk that

greeted Mr. Hoover's announcement of executive orders making a host of changes in the government setup. President Hoover's changes were made by virtue of authority given him in the so-called economy act, passed last June. But a string was

tied to the authority. The President had to tell congress what he had done in the way of reorganization, and congress reserved the right to make them inoperative. The President's messages, making

known what he had done, had hard-Zuehlke. ly been read until Senator King FOR SALE or SERVICE-a Ches-(Dem.), of Utah, had introduced a

But, if congress passed a revenue act in this session, the whole of the fiscal year beginning July 1 would be ahead and the receipts for that period naturally would be increased. If no law is passed now and the question is not taken up until later-in an extra session, for example—each day's delay means that much less revenue for the next fiscal year, because an excise tax plain such as the manufacturers' sales tax begins producing as soon as it is signed as a law by the President. From these facts it becomes apparent that congress is faced with a decidedly ticklish situation as re-

gards the revenue needs of the government. Which leaves hope of complete success only in the direction of economy in government expenses. The appropriations, now being considered, are going to be trimmed and there is going to be some semblance of an economy program, but the best judgment now is that the total of the cuts in government expenses will be only a couple of hundred millions. And that is not enough to make much of a dent in the deficit. Further, such economies as are accomplished will apply not to the current fiscal year, but to the period beginning July 1. Democratic leaders, such as Senator Harrison, of Mississippi, and Representative Rainey, of Illinois, are not satisfied with President Hoover's government reorganization program, and they are working at one of their own. But even the most optimistic know that it must fail of enactment in the short session of congress. With this, as with so many other phases of legislation, cross winds are blowing and it takes time to get all factions in agreement.

Develop Fear Complex.

With respect to the Democratic plans for reorganization, however, a fear complex has developed among the leaders. It is not hard to understand. President-Elect Roosevelt is giving the subject thorough consideration during his sojourn in the Southland. A good many of his party in congress are afraid, therefore, that they may be wrong if they speak too early or too often about what can be done in reorganizing the government.

resolution holding up the operation of the executive orders. He said some of the changes were good and some were bad, so all should be checked. In the meantime, other senators and representatives were saying much the same thing. But none of the senators and none of the representatives seemed to hit upon the same changes as being good or as being bad. The effect of the outside pressure was

those who will favor Change A but will oppose Change B, and some of those favoring Change B will fight off efforts to make Change C, and so on.

But in these days of high, and perhaps higher taxes, the natural question is whether the talk about reorganization is going to net anything in the way of reduced levies on those who pay the cost of government. The answer is that "it can be."

The probability is that it will mean very little in the way of reduced expenses. It is as difficult to eliminate a government function, once it has been started, as it is to get a hobo to do an honest day's work. Someone was benefitted. probably a good many, from the day an additional function of the government was launched, and they are naturally unwilling to give up that which they consider to be their interest.

quence, therefore, the eyes must be turned in other directions, such as the so-called subsidies for airmail and steamship mail, the \$990,000.-000 chunk that goes to veterans, the vast sums that are being laid out on government building and other items of the kind.

Any proposal to reduce the sums paid for transporting mail by air or steamship immediately causes the arrival of lobby agents in Washington; any move to reduce amounts being paid out daily in eveterans' compensation creates a furore, and when you talk about abandoning plans for construction of public buildings, every town or city that was expecting a new post office or a new federal courthouse arises en
