A much lighter and inexperienced Black and Gold aggregation on Friday at Vassar, showed a clever offense and much fight to score early to frighten an over-confident Cass City squad. But the Hilltoppers, completely outplayed in the first half, came back in the second half, with the help of the injured Ballaugh, who was absent the first half, to score three times in the

closing minutes, winning 18 to 6. Vassar, rated by pre-game showing as the under dogs, failed to hold their opening pace and lost when they could not match the final spurts of the Thumb champions. Graham was outstanding for the victors with his punting, giving his team a continual advantage. Swertz of the Black and Gold kept the Cass City defense in continual hot water with his accurate passing arm.

After the opening kick and Graham had punted deep into Vassar territory, the home boys (Vassar) opened hostilities for fair when they marched straight down the

field with four first downs. Line plays failed to help this march, but a series of short completed passes carried the ball most of the way. The fifth successive first down was already made when a fumble nullia chance to punt out of danger.

THE AMENDMENTS.

Michigan voters will be asked to decide on six constitutional amendments at the November election. Four of the six proposals will have far-reaching effects on Michigan's financial problems for years to come. Before reaching a decision these amendments should receive careful scrutiny and be decided strictly upon their merits.

Because they threaten serious impairment of highway funds at a time when every dollar is needed to carry out a program framed by the last legislature, Proposals 2 and 3, limiting by constitutional amendment the gas and weight tax, should be emphatically turned down.

Proposals 4 and 5, allowing for reform in county government when approved by a majoirity vote in the county, and permitting the legislature to abolish the uniform rule of taxation, seem to be the answer to the distressed taxpayer's prayer for tax relief. Because taxes have fair trial to peaceful methods of adbecome confiscatory in thousands justing their conflicts of opinion of instances in recent years both and interest, and to experiment for these proposals should have the en- a reasonable time with measures dorsement of every well-thinking suitable to civilize our induscitizen.

While the delegates were cheer ing this announcement, Col. W. F. Axton, tobacco manufacturer of Louisville, Ky., arose and made a lively speech in support of the 30hour week as the means of getting everybody back to work. "If we want to get business back we must give employment to labor," Axton said. "Industry at the same time must be protected from unfair

If instead of kicking the fellow through the front door when he first puts in an appearance the distracted business head is inclined to believe his story, he should at least protect his interests by demanding dress, the President said: in other cities whom they have satisfactorily served. Citing closed deals is one thing they cannot do. When they encounter a business leader smart enough to ask for this information they lose little of the employment of labor at a time in separating themselves from his presence. Later he realizes he has saved himself both money and another heart-breaking disappointment.

Self-aid is now being stressed in relief work. That type of work will make for rehabilitation and self respect.

"I am happy to report that after years of uncertainty, culminating in the collapse of the spring of 1933, we are bringing order out of the old chaos with a greater certainty reasonable wage and of more business at a fair profit. These governmental and industrial developments hold promise of new achievements for the nation.

First formal response to the President's speech came from the National Association of Manufacturers, which urged him to issue a proclamation for a "truce on industrial warfare" during which existing employment relations would be continued, and challenged the American Federation of Labor to take like action.

WHILE President William Green and some other leaders of the American Federation of Labor, just convened in San Francisco, expressed approval of what Mr. Roosevelt said in his radio address, many others prominent in the federation are far from satisfied with the way things are going. The executive council's annual report de-

voted pages to an analysis of the effect of the NRA upon the interests of labor. Almost without exception, the effects were found either directly harmful or at least unsat isfactory. The criticism was directed at the

workings of the recovery program, in actual operation. The NRA and the New Deal itself were not condemned.

But the committee indicted the program on these main grounds: That it has failed to increase the purchasing power of the workers.

the general staff, struggling against what he considered its intrigues and politics. Now the general staff is having its way with him and, as one Washington commentator says, instead of the flying air fighter which his record fitted him to be, he has become a desk soldier and a school teacher. Just as this order was issued Brig. Gen. William Mitchell, former chief

of the air corps and a perpetual storm center, was testifying before the commission appointed by the President to study the government's aviation problem. Mitchell called the organization of

a "GHQ" air force "a lot of bunk,' and he declared that all army officers who signed the Baker report should be "kicked out of the service." He referred to army aviation plans as the work of "Boy Scouts" in the War department. According to Mitchell, these are the measures the country should adopt for its aerial defense:

Merge army, navy, and all air services under one command. Build planes with a cruising ra dius of 6,000 to 8,000 miles. Make detailed plans for war, in-

cluding the evacuation of New York city in case of an air attack by Japan from a base in Alaska." Construct dirigibles, for 50 of them "competently" handled could destroy Japan within two days. He told the commission that "our

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate Mr. and Mrs. Tony Shinska had the kidneus. as their guests Sunday, Mr. and

The right dose of a liquid laxative brings a more natural movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief frcia constipation. It gently helps the average person's bowels until enture restores them to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child.

control procedure.

When a person is bitten by a black widow, acute pain develops almost immediately in the region of the bite and spreads to other parts of the body. Accompanying the pain there may be muscular contraction, difficult breathing, cold perspiration, nausea, and an extreme rigidity of the abdomen. Fatalities are not common, but

when death does occur, it usually comes swiftly-within 32 hours after the bite.

More Work for Turks in **Turkey Banks Demanded**

Istanbul-Turkish employees in foreign banks and business houses have formed a union, with the object of securing the dismissal of all

non-Turkish employees except specialists. It is claimed that out of 507 employees in foreign banks in Turkey

only 97 are true Turks, and these receive only 11 per cent of the wages paid. The union will ask for the inser-

tion of a clause in the new labor law requiring better pay and conditions for Turks in the service of foreign banks.

Bankers Mystified by

Silver Dollar Increase Walla Walla, Wash .-- Local bankers want to know where all the silver dollars are coming from. For the past three years at least one bank has sent monthly shipments of the "cartwheels" out to rid the city of the surplus. Banks here "export" about \$5,000 worth of silver dollars a month.

A GREAT COMMOTION

 $A^{\rm GREAT}$ commotion had broken out in the Old Orchard. Instantly Skimmer the Swallow flew over to see what it was all about and Peter Rabbit followed, lippertylip, as fast as his legs could take him. He was just in time to see Chatterer the Red Squirrel dodging around the trunk of a tree, first on one side, then on the other, to avoid the sharp bills of the angry feath-

ered folk who had discovered him trying to rob a nest of its young.

Peter chuckled. "Chatterer is getting just what is due him," he muttered. "It reminds me of a time I got into a Yellow Jackets' nest. My, but those birds are mad!"

Chatterer continued to dodge from side to side of the tree while the birds darted down at him, all screaming at the top of their voices. Finally Chatterer saw his chance to run for the old stone wall. Only one bird was quick enough to catch up with him, and that one was such h tiny fellow that he seemed hardly

Hummer followed Chatterer clear to the old stone wall. A moment later Peter heard a humming noise just over his head and looked up to see Hummer alight on a twig, where he squeaked excitedly for a few minutes, for his voice is nothing but a little squeak. Often Peter had seen Hummer darting from flower to flower and holding himself still in midair as he thrust his long bill into the heart of a flower to get the tiny insects there and the sweet juices he is so fond of. But this was the first time Peter had ever

seen him sitting still. He was such a mite of a thing that it was hard to realize he was a bird. His back was a bright shining green. His wings and tail were brownish with a purplish tinge. Underneath he was whitish. But it was his throat on which Peter fixed his eyes. It was a wonderful ruby red which glistened and shone in the sun like a jewel.

Hummer lifted one wing and with his long needle-like bill smoothed They the feathers under it. Then he darted out into the air, his wings moving so fast that Peter couldn't see them at all. But if he couldn't see them he could hear them. You see, they moved so fast that they made a sound very like the humming of Bumble the Bee. It is because of this that he is called the Hummingbird.

In a few minutes he was back again, and almost at once was joined by Mrs. Hummer. She was dressed very much like him but did not have the beautiful ruby throat. She stopped only for a minute or two The fourth point of the star is sorand then darted over to what looked for all the world like a tiny cup of moss. It was their nest.

Pay 1933 Taxes in October and Save

16197

Property owners who have not paid their 1933 taxes will find it to their advantage to pay them in October, 1934.

On the 1933 taxes the present collection fee is 3%. On Nov. 1, 1934, new rates are effective. The collection fee will be 4% and $\frac{3}{4}$ of 1% interest will be charged starting from March 1, 1934.

FOR EXAMPLE On \$100 tax paid in October, the tax and collection fee are \$103. On Nov. 1, 1934, the tax, collection fee and interest on a \$100 tax amount to \$110.75.

THE CHRISTIAN AND HIS BIBLE

LESSON TEXT-Acts 8:26-39. GOLDEN TEXT-O how love I thy law! It is my meditation all the day, 46.8 Psalm 119:97.

PRIMARY TOPIC-Learning From

God's Book. JUNIOR TOPIC—An Ethiopian Finds Good News in the Bible. INTERMEDIATE AND SENIOR TOPIC-Finding Time for Bible

Study. YOUNG PEOPLE AND ADULT 68.5 TOPIC-How to Study the Bible.

In the conversion of the Ethiopian we not only see the Word of God in relation to the salvation of a sinner, but the Lord's work broadening in its scope.

I. Philip Meeting the Ethiopian (vv. 26-29).

1. Leaving the Lord's work by Divine direction (v. 26). The Lord that during August Tuscola county | called Philip away from a great work in Samaria. and specifically cows. Bruce Brown of Cass City | like, he obeyed the divine command, the work in Samaria and go into leading under year old; and Milton a desert place. As he journeyed on by faith, he espied the state chariot of the Ethiopian treasurer. The Spirit of God directed him to go near and join himself to the chariot. The tactful question put to the treasurer gained him a seat by the side of this dignified officer. The commission which at first seemed so unpromising was now clear. The way of faith begins in obscurity, but it always ends in

the clear light. 2. An officer of state reading the Bible (vv. 27, 28). The Ethiopian had been to Jerusalem to worship. Despite his high official position, he was not ashamed to be a worshiper of God. Following after God should ers, Fred of Caro, Herman and not be considered beneath the dig-Henry of Pontiac, and Arthur, who nity of a statesman. Indeed, the lived with him, and three sisters, world's greatest statesmen have been God-fearing men.

3. A providential meeting in the desert (v. 29). The coming together of these two men was clearly the predetermined way of God. God knew the road which the eunuch would be traveling, and the time of his passing through Gaza. Philip's Sunday, after a short illness with | going to that place was timed according to the divine knowledge. II. Philip Preaching to the Ethiopian (vv. 30-35).

1. The Ethiopian's employment while journeying (v. 30). His occupation at the time of this meeting was reading the Word of God. At the invitation of the Ethiopian, and found him reading from the fifty-third chapter of Isaiah. God will eventually show the way of life two sons of Walkerville, Ont., to the one who searches his Word.

preter of the Scriptures. The mind of the natural man is blind to spiritual things, making the work of an Herman and Henry Gabert of evangelist indispensable. Preaching the Word of God will always be nec-

essary. Valuable as is the Bible in the hands of men, the touch and influence of the living man who has experienced the work of God's saving grace in his own heart is

needed. 3. Philip's message (vv. 32-35).

He began at the Scripture which the Ethiopian was reading, and preached unto him Jesus. This shows us that the person represented in the fiftythird chapter of Isaiah as suffering in the stead of others was Jesus Christ instead of Israel. It shows also that the central theme of the preacher's message should be Jesus. He did not preach Jesus as a great teacher, but as a Saviour who had suffered and died instead of the sinner. He preached Jesus as the one who had offered himself as a ransom for many. If there is to be a revival, there must be a return to the preaching of salvation through the shed blood of Jesus

As a result of Philip's preaching, the eunuch proposed baptism. When Z Christ is truly preached, men naturally desire to confess him in bap-× tism. Water baptism is clearly in-× cluded in the program of evangeli-H zation. The Ethiopian might have offered many excuses as to why he should neglect this important ordinance, but, like every man who is honest before God, he was willing at any cost to render obedience. It is faith in the finished work of Jesus Christ that saves, but those X who have a genuine faith desire to seal it in baptism. H

Happier Cooks — because this gleaming enamel range shortens the hours spent in the kitchen and makes cooking a real pleasure.

21C

Better Cooking - because a MONARCH Range is so perfectly uniform, as hot or as cool as you want it. Even the best cook has her troubles with an old leaky, worn-out range. And even the least experienced soon becomes a good cook with a MONARCH.

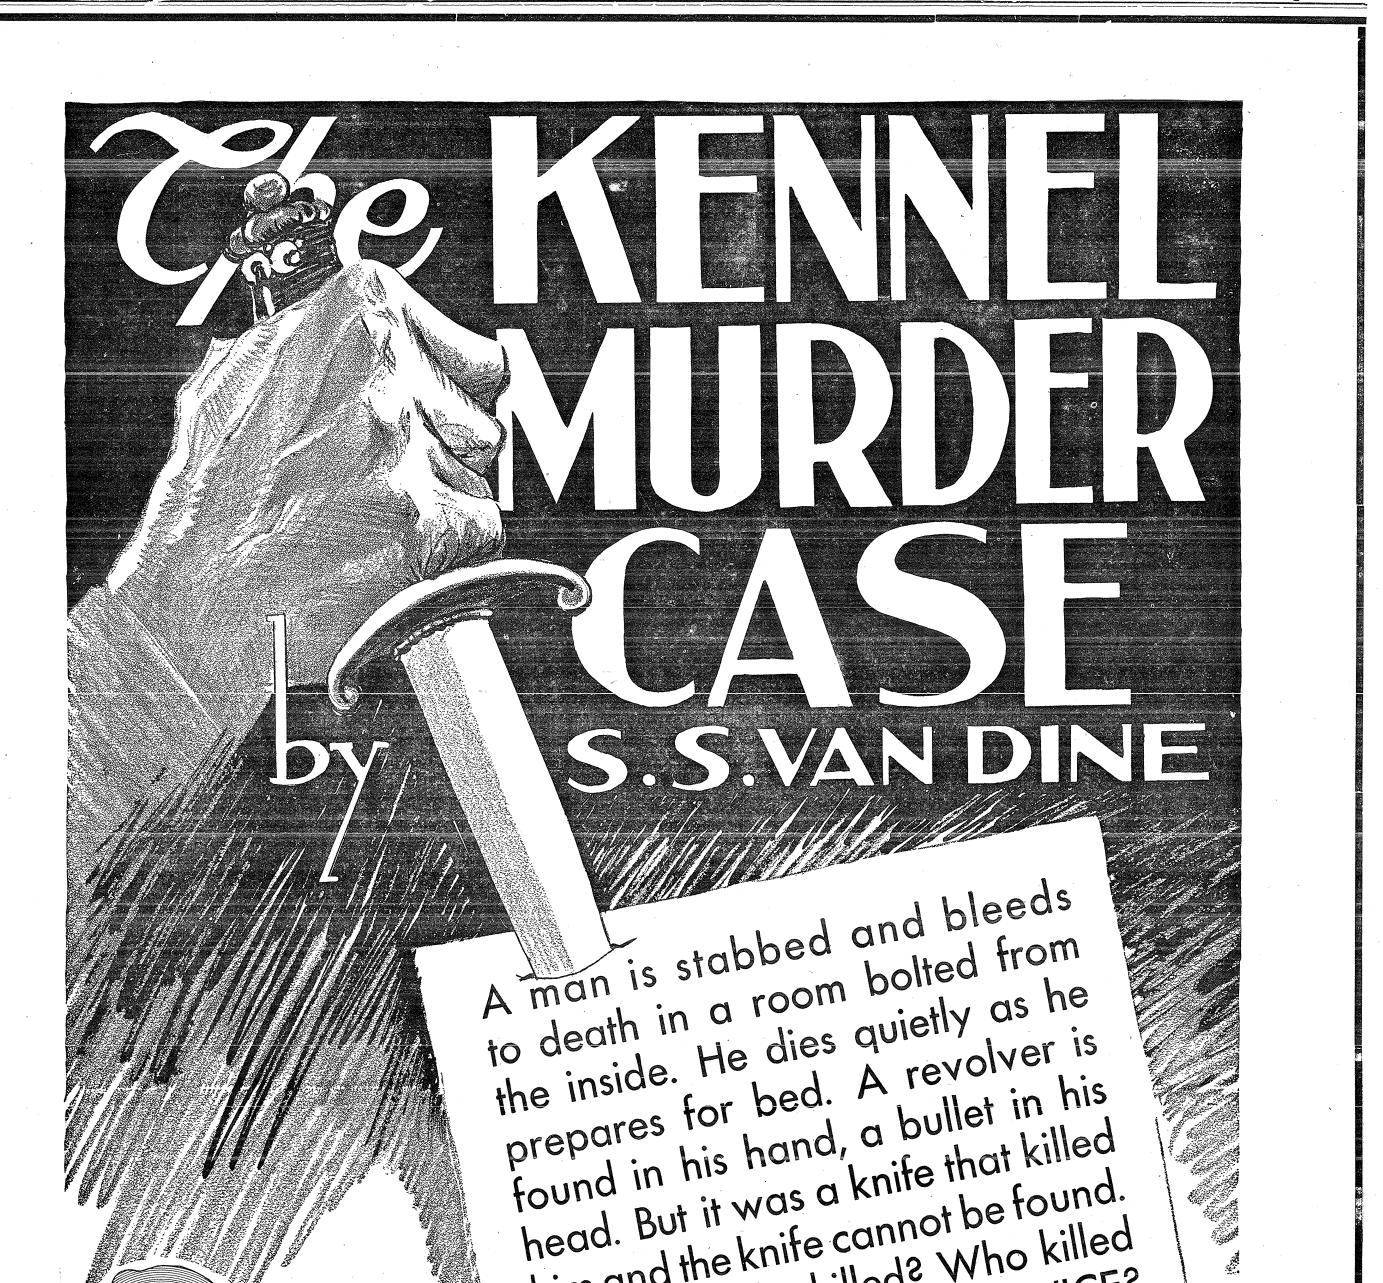

Much as you admire beautiful appearance in a range, look beneath that when you buy. Under the MONARCH'S vitreous enamel body, you will find the rigid permanent tightness of unbreakable, malleable iron closely riveted to the steel plates — and a remarkable 4-ply wall that is proof against rust damage and loss of heat.

Perhaps you need a new range, even though the old one seems to hold together. You may be wasting enough fuel soon to pay for a new MONARCH. Let us show you our display.

him? Why was he killed TWICE?

How did the murderer escape?

Readers have a chance to join in the manhunt for the shrewdest killer Philo Vance ever sought. They will follow the chase with breathless interest until the solution of the mystery is disclosed in the last chapter. That's what makes "The Kennel Murder Case" a great serial. Story starts in the Cass City Chronicle on Oct. 19.

DEATHS

Mrs. Margaret Black. Mrs. Margaret McIntyre Black, 73, passed away at her home in Topeka, Indiana, on Monday, October 8, after a week's illness with pneumonia. The body was brought to Sheridan township, her former home, and funeral services were held at the Erskine Presbyterian church on Thursday afternoon. She was born in Glencoe, On

tario, in 1861 and came to Michigan at the age of 19 years. She was united in marriage with Daniel Black three years later. Mr. Black died in 1916. Since 1930, Mrs. Black has lived with her son Martin, at Topeka, Indiana. She leaves three children, Martin Black and Mrs. Mary Higgins, both of Topeka, and Duncan Black of Brewster, Minnesota. A daughter, Bessie Roblin, passed away in 1918.

Leg-Power Boats Note from the magazine Asia.

"The leg rowers of the lovely Inle lake in the southern Shan states of Burma propel a boat with great power and perfect control by standing on one leg and entwining the other around the paddle for the stroke, which is circular in action, with the sharp finish so characteristic of the good waterman. It is not, of course, rowing with the leg, but with the whole weight of the body, as in all effective propulsion. The leg around the paddle acts only as a link between the body and the oar. The oarsmen use either leg, leaving one hand free to hold a
