1159th Student Graduates from Cass City High

57 WERE PRESENTED WITH HIGH SCHOOL DIPLOMAS TUESDAY

Class Night Program Given Before Large Audience in Auditorium.

PRESENTATION OF MEDALS BY SUPT. J. I. NIERGARTH

Fifty-seven of them—one of the six largest high school classes that have graduated in Cass City—were presented with diplomas Class Night, and when the last certificate containing the information that the course of study had been completed was presented Tuesday evening, the 1159th pupil in the history of the Cass City High School was graduated.

Simplicity was the keynote of the setting, and with the 57 young people in caps and gowns, the scene was one of which school patrons and parents were proud.

Clifford Ryan presided as master of ceremonies and presented nine of his classmates, who participated in the Class Night program. The salutatory by Marjory Schwieger, the president's address by Eugene Spencer, the valedictory by Jean Kerbyson and Shirley Lenzner and a reading by Mary Slimko introduced the more serious thoughts and expressions of students, while the class prophecy by Delbert Rawson, the giftatory by Myrtle Greenleaf, anecdotes by Russell Hicks and the class will by Floyd Kennedy presented a humorous side to the program. Delbert Henry played "Witches' Dance" by MacDowell as a piano solo.

Supt. J. Ivan Niergarth presented medals to 12 honor students of the class and Willis Campbell, high school principal, gave the diplomas to the graduates. The program was concluded by the pronouncing of a benediction by Arlington Hoffman, a member of the Class of 1937.

BACCALAUREATE SERVICE SUNDAY

School Auditorium Was Well Filled at Union Service of Churches.

The school auditorium was well filled with friends and relatives of the 57 members of the Class of 1937 who came to attend the baccalaureate service here Sunday evening.

As Miss Retta Charter played a march, the seniors, in single file, were ushered to seats at the front of the auditorium by Miss Martha McCoy, president of the junior class. Rev. L. A. Kennedy gave the invocation, the high school glee club sang "God's Glory in Nature" by Beethoven, scripture was read by Rev. Charles Bayless and prayer was offered by Rev. Paul J. Allured. The second selection of the glee club was "Lovely Appear," a composition by Gounod.

Rev. George A. Spitzer chose as the subject of the baccalaureate address, "A Trinity of Trinities."

In the beginning of his address, he spoke of the essentials of true education. "In what does a true education consist," he asked, "and what should be the ideal young men and young women should have as they pursue their college or university courses? Possibly they do not have anything very clearly in mind, except the amassing of a certain amount of book knowledge.

"For our young people as they are beginning their courses in a school of higher education or are continuing them, as the case may be, we submit the following test, as outlined by a University of Chicago student, to page 5, please.

Possibility of a Smallpox Epidemic in Sanilac County

"The survey in the schools conducted by the Sanilac County Health Department this spring shows an alarming condition as regards the possibility of an epidemic of diphtheria or smallpox occurring in Sanilac County. Past experience has shown that at least 65 to 70% of the preschool and school population must be immune if the community can consider itself protected against these diseases, and the survey figures show a far lower number to have been immunized," says Dr. Lloyd H. Gaston, director of the department.

"Parents owe it not only to their own children but to the community as a whole to have their children immunized against diphtheria and vaccinated against smallpox.

Miss Blondell Is Bride of C. A. Gurdon

Saturday, June 5, at 9:00 a. m., at St. Agatha's Church at Gagetown, Miss Virginia E. Blondell, daughter of Basil Blondell, of Gagetown became the bride of Charles A. Gurdon, son of Mr. and Mrs. Charles Gurdon, of Cass City.

Rev. Fr. John McCullough, pastor, officiated.

The bride was very pretty in a white satin and lace gown with tulle veil and was attended by her sister, Miss Margaret Blondell, of Gagetown, who wore pale blue crepe.

The groom was attended by Joseph B. Gurdon of Detroit.

Later in the day, a bounteous dinner was served to about thirty-five relatives at the Gurdon home. Guests were present from Logan, West Virginia; Toledo, Ohio; Detroit, Monroe, Gagetown and Cass City.

Mr. and Mrs. Gurdon left on a trip to places of interest in Michigan after which they will make their home for the present with the groom's parents in Elkland Township.

The bride was a graduate from the Gagetown High School in 1935.

OLD LANDMARK TO BE REPLACED

Mizpah Mennonite Church in Evergreen Township Will Be Rebuilt.

LAST SERVICE IN PRESENT BUILDING ON JUNE 20

Forty-one years ago, when a wooden bridge still spanned the deadwaters of the Cass River in Evergreen Township, there was built the Mizpah Mennonite Church. For over two score years this church and its pastors have been ministering to the spiritual needs of this community. That this ministry is appreciated has been shown by the ready response to a subscription which has been circulated for the purpose of rebuilding the church. Nearly fifteen hundred dollars have been subscribed and the end is not yet.

The new building will have a full basement for furnace and Sunday School class rooms, an auditorium 28x44 feet with an addition 10x26 feet on the west end for pulpit space and a small room for Sunday School use; also an addition 12x18 feet on the east end containing the entrance and basement steps and cloakroom.

Elder W. Schroeder of Pontiac, who was pastor at the time and chief builder of the church, has been invited to preach at the final services in the old building to be held Sunday, June 20. Other special features of these services will attract the attendance of many. Church officials extend a cordial invitation to all to attend.

McMANN—WARNER.

Miss Irma Warner, daughter of Mr. and Mrs. Fred Warner, and Byron L. McMann of Pontiac, son of Mr. and Mrs. Nelson McMann, of Cass City, were quietly married at 8:00 p. m. Saturday, June 5, in the home of the bride's parents in Pontiac. They will make their home in Pontiac where the groom is employed as an inspector for the Yellow Cab Company.

First of Class of 1937 to Wed

Miss Myrtle R. Greenleaf, who graduated from the Cass City High School on Tuesday evening, will be the first member of the Class of 1937 to wed. The date of her marriage to Charles Walmsley, son of Mrs. John Walmsley, of Cass City is set for Wednesday, June 16. Miss Greenleaf is an honor student in her class and the daughter of Mrs. Henry O. Greenleaf.

Harper, colored star of the Vassar squad, placed first in three events, the 100 and 200-yard dashes and the broad jump.

Only one record was broken. Robinson, Fairgrove, set a new mark of 16.1 seconds in the 120-yard high hurdles, lowering his own record of 1936 by two-tenths of a second.

The summary: 100-yard dash—First, Harper, Vassar; second, Freeland, Vassar; Turn to page 6, please.

Triplets Show a Steady Gain

The Dunlap triplets, now ten weeks old, are steadily gaining in weight and individuality. They are being cared for at the home of Mrs. A. A. Jones on East Third Street, Cass City.

Joyce Lillian, who weighed 4½ pounds at birth, now tips the scales at 8 pounds. Joan Irene also comes near doubling her weight, having increased from 4 pounds 5 ounces to 8 pounds. James Theron, the smallest of the three, weighed 4 pounds 3 ounces at birth and is now a seven pound boy.

The triplets were born Tuesday, March 30, at Pleasant Home Hospital here, following a Caesarian operation, to Mrs. William Dunlap, 27, wife of an Evergreen Township farmer. The babies are very comfortable in a special triple cradle built for them by manual arts department students of the Cass City school. Mrs. Jones, who became nurse for the babies soon after they were born, is very proud of her charges and delights in watching their development.

The Cass City Grange will meet at the Samuel Blades home on Tuesday evening, June 15.

SOIL CONSERVATION CHECKS RECEIVED

Frank Sweet, secretary and treasurer of Sanilac County Agricultural Conservation Association, received 1,840 checks this week in the amount of \$123,367.21; making a total received to date of \$231,975.79.

The average payment per farm is \$60.38.

DAVIDSON PLEADED GUILTY TO ROBBERY

Companion Pleaded Not Guilty and Will Stand Trial on Charge.

Vivian McLachlan, 22, of Evergreen Township, pleaded guilty to a "hit and run charge" before Judge Louis Cramton in the Tuscola County Circuit Court Tuesday.

He was remanded to the custody of the sheriff to await sentence. McLachlan was the driver of the automobile which struck and injured Mrs. Mose Karr of Gagetown on the afternoon of Memorial Day, on M-81, in front of Elkland Cemetery.

Clinton Davidson of Pontiac pleaded guilty to the charge of robbery unarmed and he was also remanded to the custody of the sheriff to await sentence. Davidson was arrested in Cass City on the night of May 31, several hours after the robbery of the drug store at Gagetown when James Lindsay, the proprietor, was relieved of approximately \$30. RESCUE.

Mrs. Ralph Britt has spent the past two weeks in Detroit.

The Ladies' Aid met at the church on Thursday to clean the church.

Mr. and Mrs. John O'Rourke and children were dinner guests at the Jacob Osentoski home in East Grant Sunday.

Children's Day exercises will be held at the Grant M. E. Church Sunday, June 13, at eleven-thirty o'clock.

Mrs. DeEtte J. Mellendorf and son, Norris, and grandson, Kenneth McAlpine, were Elkton callers Friday evening.

Mrs. Richard Summers and children of Middleville visited at the Ostrum Summers home the past week.

Mrs. Dorothea MacAlpine and daughter, Audrey Lee, spent from Wednesday until Sunday evening at the Stanley Mellendorf home in Elkton.

Mrs. Ostrum Summers and son, Alton, and three nieces were callers in Owendale Tuesday.

Mr. and Mrs. Herbert Dulmage and Mrs. Lydia Russell of East Grant were Sunday visitors at the George Hartsell home.

The Snowy Owl

The snowy owl has a strong, easy flight. Its cry, which is seldom heard, is wild and wailing, and is a scary sound to hear in the woods.

First Greek to Collect Books Pistratus is reported to be the first Greek who collected books on a large scale.

We Must Not Falter Now!

by LAWRENCE HAWTHORNE

America today needs men Of courage, and with vision clear, To bring into our lives again The spirit of the pioneer! America needs men of might And character, to fight their way Across a wilderness of night And win for us a better day.

We need the statesmanship that dares To challenge rule and precedent! We need the leadership that shares And stimulates our discontent! For there are higher goals to gain, And there is nobler truth to learn, Before we ever can attain The great rewards that we should earn.

Contentment is a curse to men, If born of idleness or greed; America must seek again Expression through heroic deed! We must not falter on the way Our fathers trod with steadfast zeal! America needs men today To lead us toward a new ideal!

Largest Whaling Ship Is Manned by Crew of 320

London, England. — The largest and most modern whaling factory in the world has left Springfield for the antarctic.

It is known as the Terje Viken and also is the largest tanker and has a greater freight-carrying capacity than any other vessel.

When fully laden, the displacement is 43,000 tons. The fuel tank capacity is so great that the vessel could steam full speed for eighteen months, covering a distance equal to six times round the world without calling at any port.

Capt. Gullik Jensen, master of the whaler, has a crew of 320. Until March 7, the Terje Viken will operate from South Georgia. It will load fuel oil at Curacao and at South Georgia will be joined by seven whale catchers, each of about 330 tons, which sailed from Norway recently.

GAGETOWN

Death of William Come—

William C. Come, well known to old settlers of this community, died at the home of his daughter, Mrs. A. E. Staeb, in Ann Arbor on Monday, June 7, after a week's illness. Funeral services were held at the Staeb home on Thursday morning and interment was made in the Williamson Cemetery here.

Born at Bennington, Vermont, May 31, 1851, William C. Come came to Tuscola County on Feb. 22, 1877, from Ann Arbor. For many years, he owned a threshing machine, horse-drawn, with which he threshed grain on nearly every farm in this section, and thus became widely acquainted with farmers. He was a charter member of Acme Lodge, F. & A. M., at Gagetown.

In 1879, Mr. Come married Miss Esther Gage, daughter of Mr. and Mrs. Peter Gage, first settlers in Gagetown. Mrs. Come died in June, 1898, and thirty years ago, Mr. Come left Gagetown.

He leaves one son, Edward Come, of Lansing; three daughters, Mrs. E. F. Luebke and Mrs. A. F. Staeb, both of Ann Arbor, and Mrs. John Dillman of Cass City; eight grandchildren and one great grandchild.

Baccalaureate Service—

Seats were reserved for the seniors, juniors, high school faculty and the parents of the graduates. Rev. Fr. McCullough, who addressed the graduates, chose for his text these words taken from the book of St. Peter, "Be ye humbled, therefore, under the hand of God that He may exalt you in the time of visitation, casting all your care upon Him." Burning candles and baskets and bouquets of flowers decorated the altars and sanctuary.

Class Day—

Class Day exercises for the graduates of the high school were

Five Generations of Family Meet

Five generations of one family gathered in Chicago when this picture was taken. Left to right are shown Mrs. Lillian Lapp, thirty-seven, grandmother; Mrs. Elmer Wendt, seventeen, the mother; Great-great-grandfather Samuel Field, eighty, holding baby Elizabeth Ann Wendt, five months old; and John Bagley, sixty-two, great grandfather. Baby Elizabeth was christened on the day this unusual picture was made.

held in the M. P. Church beginning at 8:15 Monday evening, with Jas. McGinn acting as master of ceremonies. The decorations for the occasion consisted of spirea and iris as a background with baskets of other flowers standing here and there on the stage. The class motto, "Forward ever, backward never," in blue and gold lettering, the class colors, was an added attraction.

The salutatorian was Marie Lenhard. Class history was given by Elizabeth Freeman and Mae Russell; the prophecy by Dorothy McHenry, Thelma LaFave and Harry Kehoe; the poem by Marie Seurynck; giftatory by Jean Clara and Richard Downing; mantle oration by James McGinn; class will by Clinton McCrea and Eugene Comie; and the valedictory by Marie Kelly. The program ended with the singing of the class song by the graduates.

Reception—

A reception for Mr. and Mrs. Patrick Kehoe, Jr., was held at the home of the groom's parents, Mr. and Mrs. Patrick Kehoe, Sr., Saturday evening. The evening was spent in visiting and cards. Refreshments were served. The newly-weds received useful gifts.

Born to Mr. and Mrs. Adam Deering at their home on Monday, June 7, a 12 1/2 pound baby boy. They named him Duane James. Miss Louisa Meyer is caring for Mrs. Deering.

Champion Duck Caller More Natural Than Duck

Stuttgart, Ark.—Thomas E. Walsh Greenville (Miss.) accountant, became the South's champion duck caller, routing 16 veteran farmers and hunters in a contest with an exhibition that one fan said "sounded more like ducks than ducks do."

Walsh, unlike all but one other contestant, didn't use any mechanical calling devices. How did he master the duck language — the open water call, the mating call, and the woods and scare calls?

In his spare time he raises ducks.

Don't Scare Waukegan Horses—Agin' the Law!

Waukegan, Ill.—In just a few days now, Waukegan citizens can go around frightening horses as much as they like.

For a long time, Corporation Counsel McGaughey explained, there was a city ordinance which specifically forbade persons from gathering on sidewalks in such a manner as to frighten horses.

This is one of many laws which McGaughey says will be voided by the revision of the city code, now in progress.

Judge Uses Curfew

Woodland, Calif.—Curfew is being utilized by local courts as a means of punishment. A youth found guilty of disturbing the peace, received a suspended 60-day sentence during which time he must not appear on the streets after 8 p. m.

Tiniest Co-ed Is Senior

Mitchell, S. D.—Mildred Main, senior at the Dakota Wesleyan university here, is the shortest and lightest co-ed in the school, 58 inches tall and weighing 85 pounds.

Naples Has Tomb but Lacks Soldier

Naples, Italy.—This is perhaps the only non-capital city in the world with a Tomb of the Unknown Soldier. One of the town's wealthy men had the tomb built for his own use. Later he was unable to get the ground consecrated, and so decided it to the city. It has been set aside as a tomb for an unknown soldier, but no soldier's body lies within.

Injured Shoulder Follows Broken Ankle

Misfortune keeps "meeting up" with Carl Reed these late spring days.

On Saturday, May 29, he had the misfortune to break a bone in his ankle as he stepped off the scales while at work in the Ricker & Krahlhing meat market.

Sunday, June 6, the Reed family were in an automobile accident and Mr. Reed received an injured shoulder. While spending a few days with relatives at Shady Shores, Mr. and Mrs. Reed and sons, Phillip and Charles, were driving near there when a car directly in front of the Dodge pick-up of Ricker & Krahlhing and driven by Mr. Reed stopped suddenly to avoid being struck by another car with a drunk driver. Mr. Reed put on the brakes and pulled over to the side when the pick-up turned over in the ditch. The road had been recently oiled and was very slippery. Members of the Reed family were badly shaken up and bruised. Mrs. Reed received severe cuts about the face.

Mr. and Mrs. Reid and family returned to their home in Cass City Tuesday evening.

Annual Pioneer Picnic June 17

The pioneers of Novesta and surrounding townships will hold their annual picnic at the M. E. Church in Deford on Thursday, June 17. A short program is being planned and the committee in charge is looking forward to seeing a good old hand-shaking time and to hear that old familiar phrase, "Hi neighbor!"

The committee also is asking people to show the good old pioneer spirit of looking up someone who has no way of transportation and giving him or her a lift. Each one is to bring his own dishes and food enough for himself and one more. Coffee will be furnished. Dinner will be served in the dining room of the church.

BACCALAUREATE SERVICE SUNDAY

cago professor several years ago, as reported by the Churchman.

"He stated that he would consider them educated in the best sense of the word when they could answer in the affirmative each of these fourteen questions:

"Has your education given you sympathy with all good causes and made you espouse them?"

"Has it made you public-spirited?"

"Has it made you a brother to the weak?"

"Have you learned how to make friends and keep them?"

"Do you know what it is to be a friend yourself?"

"Can you look an honest man or a pure woman straight in the eye?"

"Do you see anything to love in a little child?"

"Will a lonely dog follow you in the street?"

"Can you be high-minded and happy in the meaner drudgeries of life?"

"Do you think washing dishes and hoeing corn just as compatible with high thinking as piano playing or golf?"

"Are you good for anything to yourself? Can you be happy alone?"

"Can you look out on the world and see anything except dollars and cents?"

"Can you look into a mud puddle by the wayside and see anything in the puddle but mud?"

"Can you look into the sky at night and see beyond the stars? Can your soul claim relationship with the Creator?"

In using his subject, "A Trinity of Trinities," Mr. Spitzer spoke of a trinity in education—the instructor, God; the instructed, the child; and methods of instruction. In the last named there is also a trinity—constancy, memory and deeds. In the trinity of affection one must love the Eternal, his God, with all his mind, all his soul and with all his strength. In the trinity of allegiance, there must be a giving of self to deep reverence to God, to service, and to loyalty. All we have and do must relate itself to our Maker.

HOW

TO GET TO SLEEP WITHOUT COUNTING LITTLE LAMBS.—Dismiss thought and relax! If these two orders can be carried out completely, says Roy Temple House in Hygeia, the Health Magazine, any one can get to sleep without delay.

Sound living and generally good hygiene are also contributing factors to the courtship of Morpheus, he believes. Obedience to the first order, however, cannot be achieved by stubbornly declaring, "I will stop thinking!" One can stop it only as one might stop rowing or swimming when the intention is to float. Merely relax, mentally and physically. And this is an art which can be learned, he declares.

Although physical pain and mental discomfort or excitement tend to discourage sleep, the technic of dismissal and forgetting which can be learned will carry you off. This technic involves both the developing and the discarding of habits, and the habit of waiting until certain physical and mental tensions relax is an unnecessary one which must be abandoned.

Hot baths, warm drinks and reading are practices which may have certain benefits for the encouragement of relaxation, but they should be discouraged as unwholesome procedures. There should be no suggestion, no numbing process, no hypnotism in the method of securing sleep. Regularity in the hour of retiring should be the keynote.

How Pearl Divers Work With Little Difficulty

Most pearl diving in all the beds of the world is still done without manufactured gear. Some natives use nose clips, some do not, but almost all of them use tight-fitting goggles, which they make themselves, to seal water away from the eyes.

The most accepted method of skin-diving, according to a writer in the New York Herald-Tribune, is "half a lungful of air, a descending stone and a sense of direction when you're on the way up!" Pacific divers work from dugout canoes. They have one assistant who keeps to the paddle and maneuvers the boat so that it always remains over the diver. In preparing for a dive the swimmer takes several deep draughts of air, then blows out all but half. If he kept his lungs full he would never get down as far as he does. When ready, he releases a heavy stone from the side of the canoe, holds on to it and is on the bottom quickly. This gives him working time and hasn't cost him the effort of swimming down. He may remain on the bottom two and a half to three minutes. At the end of that time he makes a dash for the surface.

How the Flute Is Played

The flute is a great favorite with the children. It is believed to be descended from the original wind instrument—the hollow reed. Its three octaves range from a warm, smooth and dark lower register, to a high, brilliant and penetrating tone. The player does not blow into his instrument, but across a hole in the side called an embouchure. The air column within the flute vibrates with his breath and produces the tone. The agility of the flute is equal to that of the piccolo, which is a little flute, piccolo meaning diminutive. Its scale extends an octave or more above that of its big brother.

How to Waterproof Shoes

If you are a gardener and do not wear rubber boots, you will find your gardening shoes will need waterproofing again every once in a while. Here is a good mixture for the purpose: Melt together two parts of beeswax and one part of mutton fat. Apply to the shoes overnight. Wipe over with a flannel the next day.

How to Make Dustless Duster

Pour into a quart jar about two tablespoons of furniture polish or liquid wax and shake until the entire jar has been coated with the mixture. Place in the jar a piece of old, soft silk or charmois about a foot and one-half square. Allow it to stand for a day or two and the cloth will absorb the polish evenly.

How to Test Chair's Strength

Before buying it is wise to scrutinize carefully the back posts of chairs that are being considered, and also the legs of beds, tables and cabinets. The pieces should be shaken to see if they stand squarely upon the floor; no one desires a tipsy table or a wabby chair.

How "Fame" Names Are Chosen

The names to be inscribed in the Hall of Fame at New York university, are chosen every five years by a college of electors, consisting of approximately 100 American men and women of distinction, representing every state of the Union and several professions.

How to Protect Tool Edges

Strips of adhesive tape placed over the ends of wood chisels will prevent them from being dulled when bumped against other tools in a drawer or chest. Screw points on auger bits can be protected by twisting them into pieces of cork.

Automobiles Crash—
Two automobiles came together on Sunday afternoon with the result that five persons escaped with minor bruises and cuts and one car is beyond repairs. An automobile driven by "Lash" Randall of Detroit hit a car driven by Ervin Evans as the Evans automobile turned off the highway to enter the driveway on the Leo Legg place near Kingston at 5:00 p. m. Sunday. Two people in the Randall car and three in the Evans auto were fortunate to escape serious injuries. The Randall car was not so badly damaged and could continue its trip to Detroit, but the other vehicle is not worth repairing, it is said.

Radium Worth \$10,000 Stolen in Hungary

Budapest.—The police of Hungary are in a state of alarm to save the life of an unknown thief, who stole the radium stock of the Budapest clinic of gynecology.

He opened the safe where 225 milligrams of radium were kept in a small brass tube. Nobody knows who the thief was; it is probable that it was one of the female patients. Her life is in danger, if she opens the tube without the necessary gloves and precautions. The radiation can cause a fatal disease, which kills in a few days. The stolen radium is worth \$10,000.

Tells 1937 Plan to Improve Soil

Each Michigan farm whose owner or operator desires to participate in the 1937 federal soil conservation program is to be allotted a soil building allowance which may be earned by practices designed to conserve and improve soil resources, it is announced from headquarters in Lansing.

This allowance is in addition to the payments which are made to operators of diversion class farms for decreasing the acreage of depleting crops below the depleting base.

Practice payments cover approximately two-thirds of the cost of seed or material, says John M. Reagh, president of the Tuscola County Agricultural Conservation Association. Payments serve as a bank balance obtained only by performing worthy soil practices.

Allowances vary with farms and depend upon such factors as the crop land acreage, conserving base, acreage diverted from depleting base, and the amounts of commercial fruit and commercial truck and vegetable crops on the farms in 1936.

Practices suggested for improvement of the soil include new seedlings of conserving crops such as alfalfa, red clover, timothy, brome or reed canary grass, application of lime, use of fertilizers on conserving crops, tree planting and windbreaks, woodlot improvement or orchard cover crops.

Farmers are invited to confer with community committeemen to learn the approximate amount available to individual farms.

6 or 18 Sheep? Tests to Show

Pasture improvement by better seed mixtures and management that may make Michigan's millions of acres of grazing land more profitable in producing pork, mutton and beef is sought in a new type experiment just started at Michigan State College.

Normally six sheep to the acre is considered all that a good pasture can carry, but the experimental work at the college may lead to a revision of practices that efficient farmers have been following for decades. The plots laid out and now under test are rated the most extensive and practical ever undertaken in the United States.

Eighty-four plots of one-twenty-fourth acre each were seeded last year to provide pasture growth now being grazed by sheep from the college flocks. Cooperation with the animal husbandry department is making the experiment of the farm crops department possible.

H. C. Rather, head of the farm crops department, and C. M. Harrison, specialist in pastures and grasses, are supervising the project which was developed and tested on a smaller scale last year. One of the objectives is to develop a process of using a mixture and management that will provide pasture in July and August, when a typical Michigan pasture dries up and offers little or no feed.

Some of the preliminary results are to be available for visitors attending the annual Farmers' Day program at the college on Friday, July 30. The sheep are beginning to pick and choose from the different mixtures. Individual weights of the 42 sheep in the experiment are checked each two days to determine gains and losses.

Half the plots were seeded with white clover and with other grasses mixed with the clover, while the other plots were seeded with alfalfa and with other grasses for mixtures. Three rates of grazing are being tried on the plots. Some are being grazed at the rate of six sheep to the acre, other duplicate plots at 12 to the acre, and some of the plots are carrying sheep, so far, at the rate of 18 to the acre.

POSSIBILITY OF A SMALLPOX EPIDEMIC IN SANILAC COUNTY

is a simple procedure. One dose of a diphtheria toxoid is injected into the arm and nature does the rest. It is rare that more than a little transient soreness develops at the site of injection and systematic reactions are seen even less often. The younger the child is given the protection, the better. There is less reaction in the younger children and it is in the earlier years that most deaths from diphtheria occur.

"The procedure of vaccination is simple and painless, and with modern technique a moderate reaction and a small scar result. The health department recommends that an individual be vaccinated when an infant, on entering school, and thereafter when there is a possibility of exposure to the disease.

"The physicians of the county recognize the need for these procedures and are quite anxious to make the protection available to all. They have offered to immunize against diphtheria and vaccinate against smallpox free of charge anyone who feels unable to pay their customary fee."

Clergyman's Reception Needn't Bore Anybody

DEAR Mrs. Post: I am one of the committee in charge of giving a reception for our new clergyman and his wife. It has been suggested by one of the women that we have a musical program first, after which the newcomers will receive and then everyone go downstairs to the large Sunday-school room to have refreshments. I personally think such an arrangement might prove drawn out and awkward but I don't know what better plan to suggest.

Answer: I think the combination of a welcoming reception and a musical program requiring everyone to sit in silence is exactly what you describe as awkward. If I were managing it, I would have the entire reception in the Sunday-school room, which you say is ample, where one or two members on the committee would receive with the clergyman and his wife and introduce parishioners to them. Several stringed instruments playing softly as a background for conversation would be delightful. This arrangement could not prove tiring since after people have spoken to those receiving they would stand around in groups talking to one another and be served with refreshments. As newcomers arrive the first-comers—if they grow tired—would be free to leave.

Introduce Her Tactfully.

DEAR Mrs. Post: My son has given a ring to his fiancee, although as yet there has been no engagement announced and will not be for several months because her parents are not returning from abroad until then. My husband and I are to celebrate our wedding anniversary soon and would like at this occasion to introduce her to our many friends, but we don't want to in any way "steal the show" from her parents. Can you explain how we can introduce her and yet give no impression of a betrothal?

Answer: There is no reason in the world why she shouldn't be one of the guests, and no reason why she shouldn't be more or less casually introduced to all the people there. But certainly she can not very well receive with you without having it taken for granted that your interest in her is very special.

Children in Court

Judge Malcolm Hatfield.
A sixteen year old boy was arrested yesterday for automobile banditry. This youngster's parents should stand trial in his place as they are primarily responsible for his crime.

The beginning of this young man's criminal career started years ago when his parents let the whip fall from their grasp. The boy soon picked it up and from that day forward never dropped it. His father and mother never realized that they had abdicated their authority and stepped down from their legitimate places as heads of the family. Consequently the boy was never taught to respect authority or the rights of others and as a result soon violated both the federal and state laws.

Mr. and Mrs. V. B. McConnell and daughter, Melva, accompanied another daughter, Norma, to Ann Arbor Friday, where she remained to be a patient at the University Hospital.

Mr. and Mrs. Neil McLarty and son, Neil, of Cass City were dinner guests of Mr. and Mrs. Mack Little Sunday.

Donald McConnell spent Friday and Saturday at the home of his grandparents, Mr. and Mrs. Lue Keilitz, at Caro.

Sunday visitors at the William Little home were Mr. and Mrs. William Jackson and two daughters of Elmwood and Mr. and Mrs. Arthur Little and family of Cass City.

Mr. and Mrs. Lue Keilitz of Caro and Mr. and Mrs. Elvin Keilitz and son, Jerry, of Pontiac spent Sunday

Sunoco Oil

Sunoco Oil is the only oil made by the Mercury Process. That may not be of interest in itself, but when you realize that this wholly distilled oil is so pure that it will not clog up motors with hard carbon, then it is important. Many people do not realize that hard carbon causes knocking, lost power, and a host of other engine troubles.

Once hard carbon is formed, nothing will remove it but an expensive job in the repair shop. Of course, Sunoco Oil will not remove hard carbon, but it will prevent it, and if you get a motor clean, Sunoco will keep it clean and powerful.

Notice of Letting of Drain Contract and No Review of Apportionments.

Notice is hereby given, that I, William J. Steadman, Huron County Drain Commissioner, and I, Roscoe Black, Tuscola County Drain Commissioner, and I, John Hudson, State Chief of Drains, will on the 16th day of June, A. D. 1937 at the concrete bridge E. side of Sect. 15, T. 16, N. R. 15 in the Township of Fairhaven, in said County of Huron at 10:30 o'clock in the forenoon of that day, proceed to receive sealed bids until 12:00 o'clock at noon of that day, when bids will be opened and publicly announced for the construction of a certain Drain known and designated as "Shebeon Drain," located and established in the Townships of Fairhaven, Winsor, Brookfield, Grant, Huron County, and Elmwood and Elkland Townships, Tuscola County.

Said drain is divided into four sections as follows, each section having the average depth and width as set forth: All stations are 100 feet apart.

Section No. One beginning at station number 0+00 at the lower end of said drain and extending to station number 42, a distance of 4100 feet, and having an average depth of two feet, and a width of bottom of 35 feet, excavation 12,200 cu. yds.

Section number two beginning at station number 0+00 and extending to station number 26, a distance of 2600 feet, having an average depth of 1.4 feet and a width of bottom of 16 feet, excavation 2,250 cu. yds.

Said Section 2, is in Section 24, Fairhaven Twp.

Section number three beginning at station number 0+00 and extending to station number 35, a distance of 3500 feet, having an average depth of 1.2 feet and a width of bottom of 12 feet, excavation 1,225 cu. yds.

Said Section 3, is in Section 8, Brookfield Twp.

Section number four beginning at station number 0+00 and extending to station number 8, a distance of 800 feet, having an average depth of 1.3 feet and a width of bottom of 10 feet, excavation 550 cu. yds.

Said Section 4 is in Section 16, Brookfield Twp.

Said job will be let by sections. The section at the outlet of said Drain will be let first, and the remaining sections in their order up stream, in accordance with the diagram now on file with the other papers pertaining to said Drain, in the office of the County Drain Commissioner of the County of Huron to which reference may be had by all parties interested, and bids will be made and received accordingly. Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in the sum then and there to be fixed by me, reserving to myself the right to reject any and all bids, and to adjourn such letting to such time and place as I shall publicly announce.

Said bidders may bid on Sections 1, 2, 3 and 4 separately or as a whole, which will be taken into consideration by the Drainage Board.

The date for the completion of such contract, and the terms of payment therefor, shall and will be announced at the time and place of letting. Any person desiring to bid on the above mentioned work will be required to deposit with the County Drain Commissioner a certified check or its equivalent to the amount of two hundred and no/100 dollars as a guarantee that he will enter into contract and furnish the required bond as prescribed by law. The checks of all unsuccessful bidders will be returned after contracts are awarded. The payments for the above mentioned work will be made as follows: Will be announced day of letting.

The following is a description of the several tracts or parcels of land constituting the Special Assessment District of said Drain, viz: Said Shebeon Drainage District will constitute the same lands that were assessed in 1917 and 1918, when last constructed.

Now, therefore, all unknown and non-resident persons, owners and persons interested in the above described lands, are hereby notified that at the time and place aforesaid, or at such other time and place thereafter to which said letting may be adjourned, we shall proceed to receive bids for the construction of said "Shebeon Drain."

Dated this 25th day of May, A. D. 1937.

WILLIAM J. STEADMAN, County Drain Commissioner, County of Huron.

ROSCOE J. BLACK, County Drain Commissioner, County of Tuscola.

A Non-Partisan State News Letter By GENE ALLEMAN Michigan Press Association

Lansing—How to yield to home district pressure for additional state aid and at the same time to balance the budget without additional taxes is the A-1 legislative problem this week at the state capitol.

The state legislature, entering its final lap of a six-month session, is in a generous mood, all in all.

State institutions have been granted increased appropriations to meet rising costs and to place operations on a post-depression basis. Financial experts are now warning legislators that present appropriations will top the \$100,000,000 mark, and that further spending of public funds without tapping new sources of revenue will put Governor Murphy in the same budgetary position as President Roosevelt—operating government at a deficit.

Deficit of \$16,000,000?

Here is the financial puzzle: The senate has approved a bill to grant \$47,000,000 state aid to Michigan public schools. This amount is sought by Dr. Eugene Elliott, newly re-elected state superintendent of public instruction, and the Michigan Education Association. Republicans held a caucus preceding the vote, but examination of the roll call shows that balloting was not on party lines.

Yet the only active opposition came from three Democrats, Sen. William Palmer, floor leader; Sen. J. Neil Lamoreaux, finance committee member, and Sen. Earnest C. Brooks, Wayne County Democrat, voted for it.

The senate has approved an additional appropriation of \$5,000,000 so that the state highway department can match more state funds for federal aid in road construction. The department will receive approximately \$50,000,000 from automobile weight and gasoline taxes, of which \$26,000,000 will be returned to the counties. In its original form the measure would have appropriated \$11,000,000 from sales tax receipts—half going to county road commissioners and the remainder going to the state. The \$5,000,000 bill is a substitute, leaving the county road commissioners to row their boat alone.

Each year carbon monoxide takes an increasing number of lives. The deadly gas pours in volumes from every motor car exhaust. It is colorless, tasteless, without odor, and therefore strikes without warning. Only a few minutes, under proper conditions, are sufficient to cause unconsciousness, followed by death.

Most common, perhaps, is the case of the thoughtless driver who warms his car up of a cold morning with the doors and windows of his garage tightly closed. Seldom is rescue effected in time.

Other fatalities have occurred on the open road to unwary drivers in tightly closed cars. Carbon monoxide, escaping from a defective exhaust system has seeped between the floor-boards a sufficient quantity to kill.

But there is another hazard of this insidious gas. One of its symptoms is a tendency to drowsiness. It is probably a factor in the many traffic accidents, a very small quantity being enough to destroy alertness and confuse that nice driving judgment necessary in avoiding sudden dangers.

Leave a window open while you drive. Swing the garage doors wide before you start your engine. Fresh air, and plenty of it, is the one sure protection against carbon monoxide.

The philosophical attitude of Rep. M. Clyde Stout (D), chairman of the ways and means committee, tells the story of what you may expect: "Increased governmental activity means increased cost. . . . A boost in expenditures cannot be avoided."

Spending tax money is one thing. Imposing new taxes is a horse of a different color.

A movement for a state income tax had a short life several days ago after rural legislators had tentatively approved a bill exempting from taxation the first \$2,000 of valuation on every home. This relief to home owners would have deprived governments of \$15,000,000 to \$20,000,000 annually and would have made necessary the adoption of a new tax raising plan—probably a state income tax.

Urban representatives, led by able Rep. John Hamilton (D) of Detroit, went into action and the bill was stopped, but only after Democrats retired to hold a caucus and to hear doleful warnings of a disastrous deficit.

Before the state senate this week is the much-discussed and much-amended labor relations bill. . . . the so-called "Little Wagner Act" for Michigan.

The original measure, as endorsed by the governor, was later revised materially at the insistence of A. F. L. and C. I. O. leaders so that financial records of labor organizations would not be open to inspection of the state labor board, so that the representatives for collective bargaining may be chosen without an election, so that minority employees shall not have the right to present grievances to their employers, and so that the employer cannot obtain temporary legal relief through appeal to the court for a restraining order while the negotiations are pending.

Even labor-minded Representative Hamilton of Detroit declared that

the present bill, as revised and as passed by the house, was poorly drawn and very bad in spots. "If this is the governor's baby, then let him rock it," was Hamilton's snappy retort.

Under the substitute labor relations bill an employer would have to prove that he has made every reasonable effort to settle the dispute by negotiation before he could go into court for relief. Practically, this provision would cripple the courts in granting relief for property rights against threatened irreparable injury.

It is pointed out that the anti-injunction clause goes even beyond the federal Norris-LaGuardia act which contains a provision for a court appeal in the above-stated emergency.

Better Hunting Due in Michigan

No official estimate is available of the number of birds native to Michigan in season, yet reports from Michigan hunters and anglers have been encouraging, it is announced by zoology staff members at Michigan State College and by Harry D. Ruhl, head of the state conservation department.

Nearly 9,500,000 ducks and geese including mallard, pintail, scaup and black ducks, baldpate, snow and Canadian geese were seen by United States biological survey observers. They estimate that this is about a fourth of the continent's waterfowl. This is the second year that there has been an increase in the number of birds wintering in the United States over the previous year. Until last year there had been a continued depletion.

Due to mid-winter conditions, there are few ducks or geese wintering in Michigan, so the only effort in this state was to take a count in the southeastern and southwestern sections of the state. An army plane from Selfridge Field was used for that purpose in this state. Survey observers in other states used automobiles, airplanes, blimps, autogyros, powerboats and even snowshoes in the recently completed inventory.

The upward trend in bird population is attributed to new and more strict hunting regulations, the federal refuge system, and the increasing support of the restoration program by sportsmen.

The survey's report, however, emphasized the fact that the waterfowl had not yet fully recovered, and issued this warning: "These gratifying gains should not lead sportsmen to believe that waterfowl have fully recovered. The last two mid-winter inventories show only that the birds are beginning to respond to better treatment."

"Apple Pie Order" One of our expressions, "apple pie order," comes from the custom of early English cooks in adorning their apple pies with a neat row of scallops. In those days "order" meant "row," so anything that was neatly done was in "apple pie order."

Better Hunting Due in Michigan

No official estimate is available of the number of birds native to Michigan in season, yet reports from Michigan hunters and anglers have been encouraging, it is announced by zoology staff members at Michigan State College and by Harry D. Ruhl, head of the state conservation department.

Nearly 9,500,000 ducks and geese including mallard, pintail, scaup and black ducks, baldpate, snow and Canadian geese were seen by United States biological survey observers. They estimate that this is about a fourth of the continent's waterfowl. This is the second year that there has been an increase in the number of birds wintering in the United States over the previous year. Until last year there had been a continued depletion.

Due to mid-winter conditions, there are few ducks or geese wintering in Michigan, so the only effort in this state was to take a count in the southeastern and southwestern sections of the state. An army plane from Selfridge Field was used for that purpose in this state. Survey observers in other states used automobiles, airplanes, blimps, autogyros, powerboats and even snowshoes in the recently completed inventory.

The upward trend in bird population is attributed to new and more strict hunting regulations, the federal refuge system, and the increasing support of the restoration program by sportsmen.

The survey's report, however, emphasized the fact that the waterfowl had not yet fully recovered, and issued this warning: "These gratifying gains should not lead sportsmen to believe that waterfowl have fully recovered. The last two mid-winter inventories show only that the birds are beginning to respond to better treatment."

"Apple Pie Order" One of our expressions, "apple pie order," comes from the custom of early English cooks in adorning their apple pies with a neat row of scallops. In those days "order" meant "row," so anything that was neatly done was in "apple pie order."

Safe and Sane DRIVING BY THE NATIONAL SAFETY COUNCIL

CARBON MONOXIDE—THE KILLER.

Each year carbon monoxide takes an increasing number of lives. The deadly gas pours in volumes from every motor car exhaust. It is colorless, tasteless, without odor, and therefore strikes without warning. Only a few minutes, under proper conditions, are sufficient to cause unconsciousness, followed by death.

Most common, perhaps, is the case of the thoughtless driver who warms his car up of a cold morning with the doors and windows of his garage tightly closed. Seldom is rescue effected in time.

Other fatalities have occurred on the open road to unwary drivers in tightly closed cars. Carbon monoxide, escaping from a defective exhaust system has seeped between the floor-boards a sufficient quantity to kill.

But there is another hazard of this insidious gas. One of its symptoms is a tendency to drowsiness. It is probably a factor in the many traffic accidents, a very small quantity being enough to destroy alertness and confuse that nice driving judgment necessary in avoiding sudden dangers.

Leave a window open while you drive. Swing the garage doors wide before you start your engine. Fresh air, and plenty of it, is the one sure protection against carbon monoxide.

The philosophical attitude of Rep. M. Clyde Stout (D), chairman of the ways and means committee, tells the story of what you may expect: "Increased governmental activity means increased cost. . . . A boost in expenditures cannot be avoided."

Spending tax money is one thing. Imposing new taxes is a horse of a different color.

A movement for a state income tax had a short life several days ago after rural legislators had tentatively approved a bill exempting from taxation the first \$2,000 of valuation on every home. This relief to home owners would have deprived governments of \$15,000,000 to \$20,000,000 annually and would have made necessary the adoption of a new tax raising plan—probably a state income tax.

Urban representatives, led by able Rep. John Hamilton (D) of Detroit, went into action and

LITTLE STORIES FOR BEDTIME

by Thornton W. Burgess

WHY THE PLANS OF THE RATS FAILED.

YOU remember that the rats in the big barn had agreed that if Billy Mink should return they would all attack him at once and kill him or frighten him so that he would leave and never return. It was a perfectly good plan. Billy was more than a match for any single rat. He might be more than a match for any two rats. But if he had to fight all the rats at once he

They Were Crazy With Fear and Gave Him No Heed.

wouldn't have the smallest chance in the world.

All those rats had been very bold and brave when they had met to plan how they should get rid of this new enemy. Especially bold and brave had been the younger rats. They had agreed that the instant they heard the signal they would rush to do their part in the attack on Billy Mink. Only the wise, gray old leader had been doubtful. He had not let the others know that he was doubtful, for this would not have done at all.

But he knew what the younger rats did not know, which was that born in every rat is great fear of all members of Billy Mink's family, a fear so great that when it is aroused all else is forgotten. He knew that such fear becomes terror and terror destroys courage. It makes cowards of even those who are thought to be brave. So the gray, old leader was doubtful, and that doubt increased the fear which the very thought of Billy Mink filled him with.

Now the gray, old leader was not a coward himself. He would never have become a leader if he had been a coward. When he heard that danger signal he scrambled out of the nest where he had been taking a nap and hurried forth to lead his tribe in the great fight they had planned. Almost at once he met one of the loudest boasters among the younger rats, and this fellow was running in the opposite direction from the way he should have been going. More than this, he was squealing with fright. Then another and another and still another raced frantically past, each squealing with fright. He could not stop them. They were crazy with fear and gave him no heed.

In all directions he could hear frightened squeals and squeals and the scampering of many feet. He knew then that that which he had most feared had happened. The mere presence of Billy Mink had awakened that inborn fear, and each rat was thinking only of himself and how he could escape. Sadly the old leader turned and fled to save his own life. He knew that their plans for getting rid of Billy Mink had failed, and that he never would be able to make these followers stand and fight.

Friends Gather to Celebrate J. H. Moore's Birthday

Neighbors, friends and relatives gathered at the home of John H. Moore in Grant Saturday evening, June 5, to help him celebrate his seventy-fifth birthday. The evening was enjoyably spent in visiting and music. A three-story birthday cake beautifully decorated and having seventy-five candles was made by Mrs. Arthur Moore, daughter-in-law of Mr. Moore. As the hostess, Mrs. Eva Moore, served a dainty lunch consisting of brick cream, wafers and cake, the guest of honor very graciously cut his birthday cake, which also was served. Mr. Moore received many lovely as well as useful gifts.

Mr. Moore is still very active despite his seventy-five milestones, and carries on his usual duties about the farm.

He came to Michigan in April, 1890, and has always farmed. He is a member of the Grant M. E. Church of which he was Sunday School superintendent for many years, Sunday School teacher, and now serves on the board of trustees. He is always very enthusiastic with other activities of the church. He served Grant Township as supervisor for ten years and he now is serving his eighteenth year as chairman of the board of poor commissioners of Huron County.

The guests departed wishing Mr. Moore many more years of good health and many more birthdays.

Passing of Elmwood Township Pioneer

Mrs. John Jackson, who came to Elmwood Township in 1866, passed away on Thursday, June 3, in the Caro Community Hospital. Funeral services were held in the Caro Presbyterian Church on Saturday, Dr. J. Leslie French officiating. Entombment was in the Caro Cemetery.

Born September 1, 1860, near Toronto, Ontario, she came with her parents, Mr. and Mrs. George Wald, Sr., to Elmwood Township, Tuscola County, to start life as a pioneer family. Mrs. Jackson was then only six years of age, yet she recalled frequently the hardships of pioneer life, particularly the great fires of 1871 and 1881 which swept through the timber lands of the Thumb.

On March 2, 1882, she was united in marriage with John Jackson. They resided on their farm in Elmwood until 1915 when they moved to Caro.

Mr. and Mrs. Jackson celebrated their golden wedding in 1932 and Mr. Jackson passed away the following year.

Seven of nine children born to Mrs. Jackson survive. They are Mrs. Walter Brock, Roy Jackson, Miss Stella Jackson and Mrs. Thelma Bogert of Caro; William Jackson and Mrs. Edward Hartwick of Cass City; Glenn Jackson

of Pontiac. Two half-brothers, Ernest and Carl Wald, of Saskatchewan, 22 grandchildren and four great grandchildren also survive.

Three Killed in Automobile Crash

Harold Duda, 18, of Siegel Township and a member of the 1937 graduating class of the Bad Axe High School; Sylvester Cook, 19, and Clarence Smaglinski, both of Detroit, were instantly killed shortly after 8:30 p. m. Saturday when the car in which they were riding skidded from Highway M-83 in a rain storm, turned on its side and crashed top first into a tree. A blinding rain which made the road very slippery was blamed for the accident. The three young men were on their way from the homes of their parents in Siegel Township, Huron County, when the accident occurred.

The only witness was Francis Coaster, who was driving behind the other car, saw it swerve and go on its side and slide into the ditch. He told Sheriff John A. Graham, who investigated, that all the occupants of the car must have been killed instantly.

Cook and Smaglinski, both of whom are employed at the Briggs manufacturing plant, Detroit, had returned Saturday morning to the homes of their parents for the week-end.

Accommodation Delay Is Expensive

A promise to be accommodating may not be wise unless the favor is promptly executed. Howard Burlison, 37, of Vassar, learned this lesson early this week and Monday he paid a \$50 fine and \$15.30 costs in Justice Merle Atwood's court because of a party of which he is said to have been a member was too slow in accommodating a farmer to extricate his automobile.

It all happened this way, officers say. The aforesaid farmer was driving along a lonely road in Arabela Township near the Genesee County line when he came upon a group of parked cars. In turning out to pass them, the farmer's auto became stuck in the mud. He appealed to the car owners and their passengers for help. They promised to assist him after a while, their interest being centered in a cock fight in a pit in an open field. The farmer did not want to wait and endeavored to do the work alone. The harder and longer he worked about the car, the more angry he became. Finally, when he was able to start his car rolling along the highway, he promptly informed Deputy Sheriff Gleason of Millington about the rooster fight.

When Deputies Gleason and Erb and state police arrived at the fighting pit, Burlison was the only man who had remained after the contests. He was arrested and appeared before Justice Atwood on a charge of attending a cock fight. Officers claim spurs and other

Plan Hay Curing Demonstration

Final plans have been completed for the hay curing demonstration to be held on the farm of Henry Lane, one mile south and two and one-half miles east of Fairgrove, at one o'clock, June 16.

Those coming to this meeting will see the effect on hay of different methods of handling after cutting. Machinery companies are going to show their 1937 models. R. E. Decker of the Farm Crops Department of Michigan State College will be on hand to discuss hay making methods, show some different grades of alfalfa hay and explain how you can obtain the best grades.

The value of alfalfa hay depends upon its leafiness and color. The leaves contain two-thirds of the protein. Use methods of hay making that will save the leaves and you save dollars.

C. M. Harrison also of the Crops Department at the College will be present to discuss fall cutting test plots in the same field. Mr. Har-

rison and County Agricultural Agent E. L. Benton last fall staked out plots. Hay was removed from these plots on various dates in order to determine effect on the 1937 crop. The dates of cutting were September 1, September 15, October 1, and October 15, November 1. Results are now so startling as to be almost unbelievable unless seen. Mr. Harrison will harvest, weigh, and compare these plots during the afternoon.
