CASS CITY CHRONICLE

VOLUME 33, NUMBER 17.

AND HEALTH IMPROVES

H. M. Willis inserted a liner in the Chronicle last week advertising his gasoline service

station on M-53, a mile west of

New Greenleaf, for sale, because of ill health. Between Friday

and Monday, 10 prospective buy-

ers called, two with the neces-

sary cash in their fists, so to

speak. Between the time of in-

serting the advertising copy and

the period when buyers ap-peared, Mr. Willis' health took a

turn for the better and he de-

cided to retain the business.

Detroit Woman Is Fatally Injured in Crash on M-53

Car Overturned Sunday Evening; Three Others Were Severely Injured.

Mrs. Sylvester Topolewski, 28, of 3602 28th Street, Detroit, was fatally injured when the automobile driven by her husband turned turtle at the side of the road on M-53, 5 miles north of Hemans at 7:00 p. m. Sunday. She was brought to Pleasant Home Hospital and passed away at 9:30 the following morning without regaining consciousness.

Mrs. Topolewski suffered multiple fractures of the skull over the left temple, fractures of the fourth Snover ten-grade high school, has and fifth ribs on the left side, a laceration over the left eye, and bruises on the left hip and received a puncture of the left lung.

Mr. Topolewski, the driver of the car, escaped with bruises over the forehead. In the back seat were George German, 4407 Jackson Street, Detroit, and John Oros, 3541 29th Street, Detroit. Mr. Oros received a severe back strain between the shoulders and had the fourth left rib on the side torn from the spine. He spent three days in the hospital here. Mr. German received a fractured rib and many bruises about the left shoulder.

Two theories are given for the cause of the accident. One is that a tire blew out and the other is that the driver turned out to avoid either another car or a depression in the road. The Topolewski car was overturned and was found with wheels in the air after the accident.

Following the smash, the automobile was destroyed by fire. Mr. 68 cents a bushel for No. 2 grade Topolewski claims a cigarette was and 65 cents a bushel for No. 3 carelessly tossed into spilled gaso- grade, Lewis F. INDUSTRIAL HARMONY.

"How can we produce harmonious relations between ourselves and our employees?" is a question which many business managers are asking. Some industries are constantly torn up by strikes, which destroy purchasing power and slow down the country's industrial system.

A wage-earner once remarked: "If we saw our own bosses one tenth as much as we see the organizers and agitators, we might not dislike the capitalists so much." The boss who can get his men together in a room, talk reasonably and frankly to them, and win their confidence, has a good chance to avoid strikes.

SHORTAGE OF SKILLED WORKERS.

Reports are heard of shortages of skilled workers in various trades. During the dullest times of the have money saved ahead, and can depression, few apprentices were do things that cost money. If they taken on. If more help was need- would make it their habit to put ed, it was customary to call back some part of their pay envelope former employes who were lying aside to build up a future reidle. Then when business began serve, their chances will be greatly to expand, there were no more people who knew how to perform these jobs.

This situation should make a good opportunity for many young men who otherwise would become clerical workers and try to butt into the business world. There will always be plenty of clerical workers, but the man who acquires skill with his hands in some permanent trade is apt to find regular work at good pay from now on.

Short Courses Win Recognition

and Ruth Brown.

Short courses at Michigan State College are winning national reputation and are included in a current survey being undertaken by the American Youth commission of the American Council on Education. Correspondence received recently by R. W. Tenny, director of short

courses at the college at East Lansing, indicates that where other state colleges and universities have found waning interest in short term education especially designed for rural youth, Michigan is among the leaders.

Tenny's reports, relayed to E. L. Kirkpatrick of the youth commission, indicate that more than 300 were enrolled in the regular six to sixteen weeks short courses last The even shorter periods winter. of this type of education at the college, called conferences, attract-

ed 2,294. Conferences last but a few days but are packed with new ideas in research and science. Tenny remembers one of the first talks he had with R. S. Shaw, president of Michigan State College. Shaw was then dean of agriculture.

to the sweets of life.

THIS WORLD OF WORK. The impression prevails among

many people, that it is no longer necessary to do much hard work. They have the feeling that the prizes of life are won in other ways, by luck, by personal pull, by some kind of combination by which they get privileges and rewards.

This country was not built up on that principle. The blessings we enjoy were created by generations three times, the conductor tells the of hard toilers. They rejoiced in engineer to stop at the depot. Then the rewards of their honest labor the engineer indicates he under-

It is an Newspaper people constantly self friendly." The reticent and art which most anyone can master, self-absorbed person makes friends says Pathfinder Magazine, if he or she has the patience to stand before the mirror and practice speakthemselves cold and aloof toward

ing words and sentences without face movement. Words containing b, f, m, p, or v are the hardest but even these may be made to be understood after continued practice.

How Mayfair Got Name

Mayfair, London, derived its name from a fair that used to be held at the north side of Piccadilly during the first 15 days of May. Sydney Smith once said that Mayfair, the parallelogram between Oxford street, Piccadilly, Regent street and Hyde Park, "enclosed more intelligence and ability, to say nothing of wealth and beauty than the world had ever collected into one place before.'

Japan Produces Most.

"In Japan, where three-fourths of the world's raw silk is produced, the silkworm is the most valuable live stock. bulbs.

"Silkworm culture was kidnaped from China many centuries ago, according to tradition. Each cocoon is about the size and shape of a big peanut shell. It consists of a single continuous thread of silk from 500 to 1,300 yards long.

"The one-worm-power silk mill whose output surpasses man's cleverest imitations starts life in a pink egg which turns gray before it hatches and is so small that it needs the added weight of about 39,999 brother eggs to tip the scales at one ounce. The 'worm' is hatched in an incubator, appearing as a tiny larva no fatter than hairs. Immediately a banquet of mulberry leaves is spread over the wicker tray in which the tiny forms wiggle, and the ravenous munching of invisible | 1937. jaws is audible.

"After five days of continuous nibbling, the silkworm finds his interior a little too large for his exterior, and seeks the anaesthesia of sleep for his growing pains. During the nap his skin cracks neatly down the back, and he backs out of his discarded jacket and orders a double portion of mulberry leaves. On the sixth, twelfth, eighteenth, and twenty-sixth days of his existence he brings out a new edition of himself. For a final snack before he begins spinning, he devours 20 times his own weight in mulberry leaves."

Youth Depends on Bees to Pay College Tuition

Jackson, Mich .--- Swarms of buzzing bees are paying for the higher education of Floyd Soper, sixteenyear-old Jackson high school student.

He expects to have \$1,000 drawn from his hives in sale of honey before he enters college. He became an apiarist in 1933, buying a swarm of bees for a dollar, and now has 14 swarms in 20 hives.

answers of true and false or yes and no tests. Joachim places ten questions on a sheet and draws circles containing two answers adjacent to the questions. The pupil merely punches a hole in the answer he thinks is correct.

When Joachim grades the papers he puts each one in a frame and closes the lid. Ten tiny electric lights flare up, one for each question. Blue lights indicate a correct answer, incorrect answers light red

Tombstone's Gold Mining May Return From Grave

Tombstone, Ariz.-Large bodies of undiscovered ore some day again may put historic Tombstone among gold-producing centers of the world. the Arizona bureau of mines says. An exhaustive survey made by Eldred Wilson, geologist of the mines body, and Dr. B. S. Butler, head of the University of Arizona geology department, revealed that yet-undiscovered ore beds may restore the "ghost town" to its former level.

The mining town, almost deserted now, produced more than \$37,000,000 in mineral wealth between 1869 and

Farmers Go to School

Dog-Catch-Dog Theory

Works for Pound Man Lincoln Park, Mich.-This city boasts a four-footed official in deputy dog-catcher, "Unkie," large canine assistant to Walter Early, dog catcher.

Working on the theory that "dog catch dog" would make his job 50 per cent easier, Early pressed "Unkie," husky, fast and part Doberman Pinscher, into service as "deputy" two years ago.

Unkie's technique includes befriending the prospective victim and leading him to the dog wagon. If he fails in that, he pins the dog and stands guard over him until Early arrives with his net.

his fellow workers by their first stituted to recover the debt secured names.

Before you buy a new stove, stop in and see the

Don't judge today's electric ranges by your impression of electric ranges a few years ago! Prices have dropped substantially ... An electric range used to cost several times as much as an ordinary stove: Today, the price is just about the same. An electric range used to be expensive to operate: Today, the average cost for a family of four is \$1.73 per month. Only an electric range gives you the advantages of CLEANLINESS,

with pure heat from a glowing wire-heat as clean as sunlight; BETTER FLAVOR, with meats and vegetables cooked to melting tenderness in their own juices; healthful WATERLESS COOKING, with precious minerals and important food values sealed-in. Before you buy a new stove, stop in at your dealer's and look at the 1938-model electric ranges. You will be pleasantly surprised!

See the new electric ranges on display at department stores, electrical dealers or at your Detroit Edison office.

Cass City, Michigan.

Georgetown Once Busy Drowsy, quaint Georgetown was not ever thus. In the latter part of the Eighteenth century it was a busy seaport, had the finest gun foundries in America and conducted a world-wide trade in tobacco and flour mill shipping.

No Pure Water

It is said that absolutely pure water does not exist. Its nearest approximation, chemically pure water combined in a laboratory, is very difficult to prepare. The most common impurities of water are common salt and lime.

Two Kinds of Music "Dar is two kinds of music," said Uncle Eben. "One kind makes life a pleasure an' de other kind makes it a burden."

It's no longer Snow White and the Seven Dwarfs, it's to be Snow White and the Eight Dwarfs at least for one day on the campus of Michigan State College.

For the annual Farmers' Day program Friday. July 29. a mystery is being created by H. H. Musselman, head of agricultural engineering. He is in charge of a pageant of nearly 20 floats which will depict farm and home conveniences. The eight dwarfs will be in the pageant telling their own version of Musselman's mystery.

This pageant is one of the highlights of the day's program, annual summer offering of the college which usually attracts more than 5,000 to East Lansing. Science and research and entertainment comprise the program.

In the morning the theme will be how Michigan farmers can help save their portion of the annual national loss in live stock of \$12,-000,000. Parasites, bruises and injuries all contribute to this loss. Proper phases of breeding and feeding and handling on the way sports credit much of their success to the market all are to be depicted. the animal husbandry department. FLIGHT AROUND EARTH Howard Hughes and Companions Set New Record of

91 Hours . . . Japan Cancels 1940 Olympics

President Roosevelt addressing Louisville citizens from the platform of his special train, urging them to support Senator Barkley for renomination. The senator is at the President's left and Mayor Scholtz of Louisville at his right.

Hughes' Great Flight OWARD HUGHES and his crew H OWARD ROUTE and of four completed their remarkable flight around the world when they landed at Floyd Bennett air-

port, New York, 3 days, 19 hours and 17 minutes after starting from that place. They had covered 14,824 miles and made six stops for refueling - at Paris, Moscow, Omsk. Yakutsk, Fairbanks and Minneapolis. They cut more

Howard than three days off Hughes the record made by Wiley Post in 1933, but Hughes said after landing that he still considered Post's solo flight was the most remarkable job of flying ever done. On the hop across the Atlantic the time made by Lindbergh was

nearly halved. With Hughes, wealthy sportsman and aviator who financed and organized the flight, were Harry Connor and Thomas Thurlow, navigators; Richard Stoddart, radio operator, and Ed Lund, flight engineer.

Hughes himself was at the controls all the time, but said the robot pilot did all the flying except the takeoffs and landings. Much credit also was given the automatic navigator loaned by the army air corps. The chief perils encountered were on the flight to Paris, because they had barely enough fuel to reach Le Bourget airport; and the trip over Siberia where they had to go to an altitude of 17,000 feet and accumulated much ice Radio communicathat body declared the games would be held, "whether or not the government supports them.'

In Tokyo it was said the government's action was due to the cost of financing the games and to military leaders' opposition to a growth of nationalism among the Japanese people.

Though the government lacks money and materials for the necessary sports structures, it had prepared to contribute \$1,250,000 toward the cost, and only a few days ago 40 men for the Japanese football team were selected and started training.

Count Michimasa Soyeshima member of the International Olympic committee, said Japan might bid for the 1948 games.

"I hope Japan can bid then," he said. "Apparently it is impossible to bid even for the 1944 games. The cancellation was inevitable under the present circumstances."

It was expected the international committee would meet soon to determine the next move. London and Helsingfors, Finland, were mentioned as possible sites for the 1940 games.

Senator Thomas Wins VICTORY of Senator Elmer Thomas of Oklahoma in his fight

for renomination by the Democrats was hailed by the New Dealers as a direct result of the campaign speaking tour of President Roosevelt. The Pres-

ident told the Okla-

homans what a help

the senator had

Mr. and Mrs. James Bruce and

Wheat Loan Basis

SECRETARY WALLACE an-nounced the government loans to wheat raisers. They will average 59 to 60 cents a bushel. Only farmers co-operating in AAA crop control

who have not exceeded their soil depleting acreage allotment by more than 5 per cent will be eligible to the loans for which the RFC has pro-

vided 100 million dollars. Under the loan plan the wheat armer stands to win much and to lose nothing. If he is able to sell his wheat eventually for more than the loan, he will sell and pay off

the loan. If the farmer is unable to get more for his wheat than the loan rate he can default payment of the loan and

let the government take his wheat.

PWA Aid 'Conditional' PUBLIC Works administration, of which Harold Ickes is head, withdrew the outright allotments of about \$10,000,000 for power projects that would have competed with privately owned facilities, and substituted "conditional" loans and grants. for 21 of the projects. This action followed upon publica-

tion of the fact that the PWA had approved loans and grants totaling \$55,000,000 for 54 duplicating public power plants and that the private companies affected had not been given opportunity to sell their plants at a reasonable price.

New Air Board Meets MEMBERS of the new Civil Aeronautics authority got together in Washington and prepared to take

up their work. Edward J. Noble presided as chairman. Other members are: Harllee Branch, second assistant postmaster general, vicechairman; G. Grant Mason, Pan-American Airways official; Robert Hinckley, WPA director for far western states, and Oswald Ryan of Anderson, Ind., general counsel for

the federal power commission. Clinton M. Hester, assistant treasury general counsel, has been assigned the independent administrative position. He is responsible to the President. The board is re-

sponsible to congress. Du Pont and Raskob Hit THE United States board of tax

appeals ruled that Pierre S. du Pont and John J. Raskob must pay back federal taxes of upward of \$1,200,000. The board held that a series of

the Wilmington dynasty, and Raskob, former chairman of the Democratic national committee, sold each other large blocks of stock, could not be considered eligible for pur-

poses of tax reduction. Raskob's share of the payment will be between \$800,000 and \$900,-000, and DuPont's will be at least \$400,000.

tion with the land was maintained most of the time except for six hours before Minneapolis was reached. During that period their transmitter was out of commission.

The monoplane, named "New York World's Fair, 1940," was welcomed at New York by Mayor La Guardia and Grover Whalen and a tremendous crowd. The weary fliers soon got to bed, but next day the metropolis gave them one of its customary ticker-tape receptions with a parade. The wives of Stoddart, Connor and Thurlow were at the airport to meet their husbands. Katherine Hepburn, the movie star, bade Hughes good-by when he started and welcomed him back. In Hollywood it is rumored they are engaged or possibly secretly married. Another woman deeply interested in the flight was Miss Elinore Hoagland of New York, fiancee of Ed Lund.

Deficit to Be 4 Billions

IN REVISED budget estimates for the current fiscal year, given out in Washington, the President forecast a net federal deficit of \$3,984,-887,600, an increase of \$2,525,639,500 over last year's deficit and \$3,035,-000,000 more than he had estimated in January for the 12 months ending next June 30.

The deficit, which will increase the gross public debt by \$3,485,000,-000, will be financed, the President indicated, by a reduction of \$500,-000,000 in the working balance of the treasury's general fund; by the use of \$680,000,000 in special issues of government obligations and by \$2,805,000,000 in new federal financing.

The gross deficit was estimated at \$4,084,887,700, in which is included \$100,000,000 for debt retirement.

The business slump, which grew sharper after Roosevelt submitted his budget estimates to congress last January, was blamed by him for the inaccuracies of his forecasts.

Japan Cancels Olympics

JAPAN evidently thinks the war in China is not near its end. The Tokyo government has cancelled the Olympic games of 1940, dropping all plans to be the host of the world's athletes. The announcement, made by Marquis Koichi Kido, public welfare minister, surprised even the Japanese organizing committee, and the members of a good thing about him.

peen to him and how much he had done for the state; and he gave some swipes to Thomas' rivals. Governor

Sen. Thomas Marland and Representative Gomer Smith. So the Oklahomans picked Thomas by a good majority. For governor they named Leon C. Philips, much to the disappointment of Alfalfa Bill Murray.

In the course of his trip across the country, Mr. Roosevelt, in his capacity of head of the Democratic party, first boosted the cause of Senator Barkley of Kentucky, his staunch supporter, and cleverly avoided hitting too hard at Governor Happy Chandler, who seeks Barkley's seat. In Arkansas Mr. Roosevelt found

time to say kind words about Senafor Hattie Caraway.

Passing through Colorado and Nevada, he avoided politics in his talks, for Senators Alva Adams and Pat McCarren, both of whom have op-

posed some of his chief policies, are mighty strong in their states. Both of them boarded his train but their reception was decidedly cool. The President delivered the only set speech on his program at the San Francisco world's fair administration building. He then reviewed the United States battle fleet of

66 vessels, and spent several hours aboard the cruiser Houston. Next day he spent in Yosemite National park. After three days in California

the President boarded the Houston at San Diego and went to the Galapagos islands for some fishing. Thence he was to pass through the Panama canal and come back home by way of the southeastern states.

Van Nuys Nominated

OPPONENTS of Senator Frederick Van Nuys of Indiana accepted defeat with wry faces. They had intended that he should be "purged" for his fights against New Deal measures, but realized his threatened independent candidacy would split the party in the state wide open, and also would injure the presidential aspirations of Paul

V. McNutt. So Governor Townsend invited the senator to present his name to the state convention, and other candidates withdrew. Van Nuys was then perfunctorily renominated without anyone saying money."

In one of the boldest moves in the war, powerful Chinese guerilla contingents landed secretly on Namao island, off Swatow. They claimed to have recaptured a considerable part of the island which had been taken by the Japanese.

were killed by the warplanes. Un-

counted numbers were driven to

Justice Cardozo Dies

BENJAMIN N. CARDOZO, associate justice of the United States Supreme court, died at Port Ches-

ter, N. Y., of a chronic heart ailment that had kent him from work on the bench since last December. He was sixty - eight years old. Descended from Spanish Jews who came to America in 1750, he was born in New York city and educated at Columbia university. He

was appointed to the Sen. Wagner Supreme court by President Hoover in 1932 and lined up with the liberal minority. His scholarship and hard work won the highest respect. Chief Justice Hughes, informed of Cardozo's death in Italy, said: "It is an irreparable loss to the court and the nation. He was a jurist of the highest rank and noble spirit." Probably President Roosevelt will

not appoint Cardozo's successor before fall. for the court is in recess until October. But speculation as to his choice began immediately. The name most frequently heard in the discussions in Washington was that of Sen. Robert Wagner of New York, one of the President's chief lieutenants in the field of social legislation. Other New Yorkers mentioned are Ferdinand Pecora and Samuel Rosenman, state Supreme court justices, and Solicitor General

TVA Inquiry Opens
