CASS CITY, MICHIGAN, FRIDAY, JANUARY 13, 1939.

To Pave Five Miles on M-81 West of Cass City

Project Cost of \$182,000 to Be Divided Between the State and P. W. A.

Nearly five miles of State Highway M-81 running west from Cass City to Elmwood Corners will be graded and paved with concrete 22 feet wide this summer. This project is one of a second group of highway improvements which are to be undertaken by the Michigan State Highway Department under joint state and P. W. A. financing. It is reported that the cost of the project will be approximately \$182,000.00 of which the state pays 55% and the federal government 45%.

Charles McKichan of the Michigan State Highway Department, State Representative Audley Rawson, E. B. Schwaderer and Frank Reid were engaged last week-end in securing rights-of-way from property owners along the 4.873 miles to be improved which will increase the roadway from its pressecuring the signatures of property

The sharp turn at the five-mile corner west of Cass City will be eliminated and a gradually rounding curve will commence about 80 rods east of the five-mile corner and merge about 80 rods southwest of the corner with M-81 as it continues in a southwesterly course through Elmwood Township.

Sealed proposals, according to an advertisement inserted this week in the Chronicle by Murray D Van Wagoner, state highway commissioner, will be received from contractors until 10:00 a. m. on Wednesday, January 18, for improving the 4.873 miles of highway.

The successful bidder will be required to pay skilled labor at \$1.12½ per hour; intermediate labor, 75 cents per hour and unskilled Two Hurt in Two labor, 50 cents an hour.

Eighteen Teams Are Mowing Down Pins in the Local Alleys

Boys to Enter the Home Economics Dept. for Six Weeks

Girls Will Study Manual Arts for Similar Period in Experimental Course.

Girls will go into the manual arts department of the Cass City High School for six weeks and boys will, for a like period, enter the home economics department to learn table manners, camp cookery and the selection of clothing, according to plans of Orion Cardew and Miss Elsie Titsworth, instructors in these two departments, Miss Titsworth told Rotarians at their club luncheon Tuesday at the Hotel Gordon. This will be conducted as an experiment, and if successful, may possibly be continued for like periods in later years. Miss Titsworth explained the

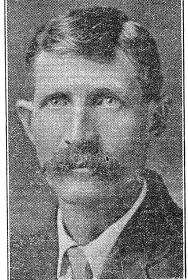

yearly program of her department in which 80 high school girls are

The first year's study is devoted to the preparation of balanced meals, the development of personality, the cultivation of manners second year to the girl and her home and family relations, the preparation of meals and serving them to guests, and the making of children's clothing; the third year to making the student a better member of her community, and the study of the home as it concerns sanitary conditions, interior decorations and the selection of furniture, and also consumer education and the selection of a vocation.

Miss Titsworth spends one month each summer in this community after school closes in June to visit each student at least twice and advise the pupil in her home project. Miss Titsworth drove 20 miles from Cass City to reach one student and says a number live 10, 12 and 14 miles distant who study in her department.

Tuscola Schools' **Expenses \$56,058 More than Income**

Forty Per Cent Cut in State Aid Would Cause Financial Worries.

If state aid to Michigan schools is cut 40% as threatened, 12 high schools in Tuscola County will receive an income for the present school year \$56,058 less than their anticipated expenditures. Unless these schools have carried over nice balances in their treasuries from last year, they are in for considerable financial worries.

This total was revealed when superintendents of the county met with School Commissioner Ben McComb at Caro Monday night to review their finances.

A committee of four, Superintendents J. L. Meachum of Mayville, Carl Strong of Reese, Philip Koopman of Caro and Ralph Brant of Vassar, were chosen to bring facts regarding the financial conditions of the schools to the attention of State Representative Audley Rawson, State Senator Leonard Paterson and other state officials. Several of the superintendents made a trip to Lansing Thursday.

Normally, the anticipated tuition of the 12 high schools in the county would total \$82,997.77 this school year. If the cut of 40% is made, the schools will lose \$33,198 on this one item of receipts from the state.

The names of the 12 high schools are here given. After each school are two sets of figures. Those in the first column represent the amount which a superintendent figures expenditures will exceed yearly income. Those in the second column are the amounts the schools would receive from annual tuition from the state provided no cut is made.

	Expenses	Usuai
	Exceed	Tuition
	Receipts	Payments
Iayville	\$ 5,500.00	\$ 8,422.00

Supervisors Settle Deputy Sheriff's Claim at \$1,617

Earl Lauer, Tuscola deputy sheriff, who lost the sight of one eye while on official duty, will receive \$1,617.90 as full compensation of his claim against the county, according to an agreement reached with the board of supervisors last week.

The supervisors, in a resolution, extended sympathy to Roy LaFave, Elmwood Township supervisor, who with his wife, was injured recently in an automobile accident. County Clerk Clare Horning was authorized to forward to Mr. LaFave his salary for the January session as if he had been able to attend. The committee on county of-

ficers' bonds recommends that bonds in the following amounts be approved: Clare W. Horning, county clerk, \$2,000; George F. Jeffrey, sheriff, \$10,000; Alger L. Bush, register of deeds, \$3,000; James Osburn, drain commissioner, \$5,000; Myron D. Orr and Warren Rundell, circuit court commissioners, each \$3,000; Arthur Willets, treasurer, \$25,000; O. E. McPherson, deputy treasurer, \$10,000; Lee Huston and Theron Donahue,, coroners, each \$10,0000 A. W. Atkins, road commissioner, \$2,500; Irving E. Oakes, surveyor, \$2,500.

RADIO QUIZ ON JAN. 29

CHURCH BOARD ORGANIZES.

At a meeting of the trustees of the Evangelical Church on Monday evening, the board was organized by the election of the following officers who are to serve in 1939: President, William J. Schwegler; secretary, A. A. Ricker; treasurer J. Ivan Niergarth.

Michigan Mirror

A Non-Partisan State News Letter By GENE ALLEMAN Michigan Press

Lansing-Like a tight-wire artist crossing an abyss, Governor Frank Fitzgerald proposes in his first message to the legislature to accomplish a remarkable balancing

He would wipe out a treasury deficit of staggering proportions and eventually balance the budget by reducing payrolls \$8,000,000 to \$8,500,000 in 60 to 90 days, eliminating expensive duplications in state accounting, tightening collection of the state sales tax, and Public Opinion otherwise by "living within our in-

At the same time the Governor would increase the amount of state aid to public schools from \$41,000,-000 (which they actually received in 1938) to \$45,000,000 for each of the next two years; liberalize state have a total monthly income of not less than \$30"; and step up the state tourist promotion fund from \$150,000 to \$200,000.

Governor Fitzgerald has chartered a course of fiscal sound government that will meet widespread approval.

Sympathy for Under-dog

The previous administration, following the pattern set by President Roosevelt in his New Deal, has espoused consistently the cause of the "forgotten man," the so-called called on Mrs. Louise Lewis Sat-"under-dog."

In fact, Governor Murphy in his zeal to advance the welfare of the worker tagged the Michigan Democratic party as a "labor party."

Edward Fry, writing as state "For too long a time we have been will be the order of the day. considered a labor party. . . . We have featured our labor support too strenuously." Fry pointed out a Louise McKay and Wanda West 1938 loss of 30,000 votes in Wayne visited with Mrs. Louise Lewis on County.

Hence it is interesting to examine the Fitzgerald message in the light of the previous administration. We cannot find evidence that the new administration will be reactionary. The hungry are to be fed. The aged are to receive considerate attention. Education is not to be neglected. Civil service is not to be "undermined." Conservation needs are to be carefully safeguarded.

Liquor Control

The controversial issue of liquor control-as long as a demand for liquor exists, controversy is inevitable—is injected into the 1939 program by the Governor with an emphasis on greater revenue earnings by the state.

Governor Fitzgerald would take the state out of the retail business whereby the state maintains community liquor stores for sale of liquor purchased by the state as wholesale in large quantities.

Retail merchants would take over the selling. The state would act as "a clearing ware house, a tax collecting agency and an enforcing arm.'

"I believe that with proper adjustments, greater revenues could be derived if state liquor stores were abolished," he points out. "Hundreds of thousands of dollars could be saved in decreased payrolls, rent, maintenance and so forth.'

This policy has the endorsement, it is understood, of Lieutenantgovernor Luren Dickinson of Charlotte, a long-time dry.

State Tourist Bureau

Following a cue given by many tourist-minded states. Fitzgerald favors the retention of the state tourist bureau which was created by the last legislature with \$50,000 state funds.

Coordination of tourist promotion work so that a central advertising campaign is carried on for Michigan as a whole would be continued by the Governor with \$100,-000 at his bidding, instead of \$50,-

However, half of the additional \$50,000 would be utilized to promote the sale of Michigan agricultural products on a matching state aid basis. The success of Maine, Washington, Oregon, and Idaho in promotion of their agricultural products through advertising is well known. Fitzgerald endorses this growers' movement with an offer to match their funds up to \$25,000.

Notice to Strike

The highlight of the governor's labor relations plan, as outlined in considerable detail in his message, is a ten days' notice by labor of strike action.

Strike orders would be filed with a non-partisan state board. In ten days' time the order's would become effective.

But in the meanwhile, while both sides were "cooling off," the board would strive by mediation alone to settle the differences involved. Picketing privileges would be limited to workers of the plant. Sit-

down strikes would be made illegal. Wild-cat strikes in defiance of state law would automatically subject employees to liability of loss of

On labor's side are these new restrictions imposed upon the employer. "It would be incumbent upon employers to rehire, and not discriminate against, workers participating in a legal strike." In vent of an "emergency situation" wherein wage reductions were to become effective at once, the board could order "any employer to restore conditions to their former level, pending the outcome of mediation." Workers would receive

number of hours, etc., during the 10 days' iterim between declaration of a strike and the actual walkout. While company unions would be prohibited, the door would be left open for formation by employees of 'a bona-fide independent union."

the same wages, work the same

Employing only voluntary mediation to effect labor peace, the governor's plan, if enacted by the legislature, would lean heavily upon public opinion as its enforcement arm. Accordingly, a free press is highly important to the success of the proposed labor relations plan in old age pensions "at the most rapid Michigan. Additional responsibilipossible pace so beneficiaries will ties would be imposed on newspapers, both dailies and weeklies.

Perennials are plants which when once established live and flower year after year. Most perennials sages. Sunday night, 7:30. Revi- do not flower until their second year of growth.

Convalescence is much less tiresome when you have an extension telephone in the bedroom, for you can then talk with many more friends than could possibly come to see you.

Convenience is another reason you'll want one . . . an extension telephone saves many steps each day. And privacy . . . so you can have personal conversations without the embarrassment of having others overhear.

And a bedroom telephone gives a reassuring sense of security at night, should emergencies of any kind arise.

Orchard Cover Crop Is Such as Winter Vetch

An orchard cover crop is one such as winter vetch or rye which lives over winter and starts growth very early in the spring. Cover crops | four days at Tarpon Springs, St. make some growth in the fall and even in the winter, and may be of great value in sections where low temperatures occur and the ground is free from snow for much of the

ally done in the summer or early Talbert, Missouri College of Agri-

usually seeded to another crop. It is true that the growing cover trees for soil moisture and nutrients during the late summer and early fall. But this effect is usually desired because it tends to slow up plants and cause them to harden their tissues for winter conditions. Annual cover crops are not as a rule deep-rooted and so may not influence deep-rooted tree fruits.

Stone, see and hear several planes going daughter, Miss Ruth, and son, down and by Sunday the air will Douglas, and Kenneth Purdy, all of be full of them. We are on the direct air line north and south.

This town has had a tremendous of the Christian Citizenship League building boom the last year and arranging for Sunday Evening claims the national per capita recbeach—another PWA project.

We had a very fine trip downtook a little different route and crossed the Ohio east of Cincinnati at Aberdeen and Maysville, Ky. It is much more scenic along the Ohio River and through the stock raising section of Kentucky but the route is more winding and perhaps not so fast as through Cincy but we enjoyed it more. We stopped before crossing the Ohio and watched the paddle-wheel boats pushing the coal barges down the river toward the Mississippi We had splendid the Mississippi. We had splendid weather through the Kentucky and Tennessee Mountains and after geting into Florida spent three or Petersburg, Sarasota and Fort Myers before crossing via Lake Okechobee.

This part of Central Florida was a surprise to me for I had always thought of it as Everglade and The seeding of cover crops is usu- | swampy back country, but during the last five or six years, the U.S. fall to secure a fairly good growth Sugar Company has developed this before winter, according to T. J. section into the finest sugar cane land and has the largest sugar reculture. The crop is then turned un- finery in the country at Clewiston. given clean cultivation. Then an in- beet sugar industry but it is rather terval of about four to six weeks remarkable the change that has occurs in most sections, during been brought about by this industry which the soil is bare or free of a and this also applies to the truck cover crop, after which the soil is garden development around the lake as well. We saw thousands of acres of green beans, peas, pepcrops may compete with the fruit pers, and squash ready for picking when we came through and they have sort of acquired the market which the southern section formerly monopolized. I don't think I have seen anywhere in Florida so many Australian Pine as they have planted along the road around this lake. I think I am safe in saying that from Clewiston to nearby Palm Beach there is a solid line of them for at least 60 miles. These pine grow to extreme heights and the branches grow close to the ground and make excellent wind

Another interesting thing in this garden section is that they plant a row of sunflowers with the beans about every 6th or 8th row and these act as a frost and wind protection. The citrus crop this year is the largest in years due to favorable weather but the demand seems to be taking care of the surplus. At least I haven't seen them

STAIRWAY LIGHT

A light on the stairway greatly reduces accidents. The convenience and safety of the stairway light is so great that it can scarcely be measured in terms of the few cents a month one pays for it. This incidental lighting really costs very little. It is used for a relatively short time. It comes on the low step in your bill. And it adds immeasurably to comfort and safety in your home. Any electrical contractor will gladly give you an estimate on this work. (We do no electrical wiring.) The Detroit Edison Company.

ELECTRICITY IS CHEAP!

Old Story Seen in Mineral Deposits

Geologists Reveal Interesting Facts in West.

NEW YORK. - Identification of tiny "heavy minerals" which have survived the elements for centuries is helping geologists to reconstruct money crop. a picture of western North America as it appeared before the Rocky mountains arose from the sea some 80,000,000 years ago, according to a report to the Geological Society of America by Dr. Marcellus H. Stow, professor of geology in Washington & Lee university.

So reliable are these heavy minerals as miniature "fingerprints" that the geologic history of an area tens of miles square can be accurately pictured by matching reoccurring specimens.

For hundreds of millions of years before the Rocky mountains were formed, their area, now rimmed with towering peaks, was a great inland basin filled with successive shallow seas, according to Dr. Stow. Then for an untold span of time, widespread and violent disturbances began to shake the earth's crust, warping, bowing and buckling great layers of rock.

Volcanoes erupted intermittently, emitting showers of debris and streams of lava. Such revolution affected many parts of the earth, until finally from the deep inland basins arose the Rocky mountains, the Andes, and other mountains in various parts of the world.

Dr. Stow investigated two series of rocks, one dating from the Late Mesozoic, laid down immediately before the Laramide revolution, and the other ascribed to the Early Cenozoic, deposited immediately after the revolution. He found "heavy minerals" in most of the 300 sandstone samples which he examined in the geological laboratory of Washington & Lee university.

By comparison of these minerals with similar ones occurring in beds, the geological history of which is understood, the sequence of the disturbances can be learned.

Loses Job, Baby Born;

All Comes Out in Wash MILWAUKEE, WIS.—Clyde Zibell, 25 years old, found himself jobless; his wife in the hospital where their second child was just

Did he apply for county relief or a place on the WPA rolls? Not Clyde Zibell.

Instead he rigged up his wife's washing machine and for two weeks has kept abreast of expenses by taking in the neighborhood washing. Now he has undertaken to do the ironing for any customer who wants the added service.

Zibell was employed in a Milwaukee shop as a machinist until recently. He said he learned to wash and iron when he was a boy on the farm. The Zibells have a daughter, 4 years old, who is at home with papa, and the newborn is in the hospital with mama.

New Type Baby Carriage Is Demanded for Nazis BERLIN.-The creation of a peo-

ple's baby carriage has been demanded by the German periodical, National Will. This demand follows the great publicity given the people's automobile a short time ago. Baby carriages with bumpers, knee-action, in streamlined limousine and sport cabriolet-with-trunk models are all too inconsiderate of the purchaser's pocketbook, says the magazine. The acquisition of a baby carriage, a fundamental necessity of the German family,

should be made possible to all. The people's baby carriage, says National Will, should be half as heavy as the present model, so that a mother would be able to reach the nearest park from her thirdfloor apartment without assistance.

Mile Line Constructed For X-Ray Examination

BREEDSVILLE, MICH. - An emergency rural electrification project to permit an X-ray examination was completed by a service crew of the Consumers Power company.

Mrs. John Robins, living a mile south and east of the village, was the patient. Her physician believed she had fractured her leg in a fall, but was unable to make an X-ray examination because the nearest power line was more than a mile away.

Learning of the situation, Fred C. Cope, district manager of the Consumers Power company at Kalamazoo, ordered the immediate installation of an emergency line.

U. S. Helps the Farmer Take Fuzz Off Peaches

WASHINGTON. - Uncle Sam is putting up the money to take the 'fur'' off Georgia peaches. High-speed de-furring machines

run with electricity furnished by a rural power co-operative financed with a loan from the rural electrification administration are now in operation in Upson county, Ga., the REA announces.

The peaches are spun about by rollers while in contact with brushes with just the right pressure to take off the fuzz and make them more attractive and palatable to eat fresh, it is explained.

DEFORD

The club will meet for dinner Friday, January 20, at the parsonage home of Rev. and Mrs. George of the program hour will be asdiscuss growing sugar beets as a

Members of the local Milk Producers' Association, held their annual business meeting on Tuesday, at the Deford Church. The Ladies' Aid Society served the members, numbering about eight, to a very pleasing chicken dinner. Members of the association voiced their approval at the business session by a unanimous vote. At the election of association officers, Charles Kilgore was unanimously chosen as president for the third consecutive year. Eldon Bruce was selected as secretary-treasurer; association delegates, John Zinnecker, Philip McComb and Vern Stewart.

An official of the association receiving plant at Detroit, in addressing the meeting, explained some of the many difficulties of securing, and maintaining, what the producers would call an adequate producing price, chief among them being the large amount of production going to the city, limited incomes of consumers, thousands of families being on the city welfare, and the cash and carry plan widening its territory every year.

Honoring the birthday of Mrs. vy Funk which occurred on Saturday, several of her former neighbors surprised her at the Lloyd Osburn home near Marlette. A potluck dinner was served, Mrs. Osburn presenting a splendid birthday cake. Those in attendance were Mrs. G. A. Martin, Mrs. A. L. Bruce, Mr. and Mrs. Rene McConnell, Mr. and Mrs. Howard Retherford, Mr. and Mrs. George Cooper, and Mr. and Mrs. H. D. Malcolm.

State of Michigan

IN THE CIRCUIT COURT FOR THE COUNTY OF TUSCOLA IN CHANCERY

In the matter of the petition of) George T. Gundry, Auditor General of the State of Michi-gan, for and in behalf of said state, for the sale of certain lands for taxes assessed thereon.

and in behalf of said state, and in behalf of said state, shows:

1. That the list of lands set forth in Schedule A contained in the Tax Record annexed to this petition, contains a description of all lands in said County of scription of all lands in said County of Tuscola upon which taxes were assessed Tuscola upon which taxes were assessed Tuscola upon which taxes were assessed Prods. Northwest to Southeast corner of Lot 9, Block 8, South 6 rods, East 9 rods, Northwest to Southeast corner Lot 9, Block 8 and West to beginning 1933 1.51

Township 12

Si/2 of SEi/4
Ni/6 of NWi/1 Schedule A contained in the Tax keeter annexed to this petition, contains a description of all lands in said County of Tuscola upon which taxes were assessed for the years mentioned therein, and which were returned as delinquent for non-payment of taxes, and which taxes have not been paid and have remained unpaid for more than one year after they were returned as delinquent, together with the total amount of such taxes, with interest computed thereon to the first day of May, A. D. 1939, and a collection fee of 4% extended separately against each parcel of land as provided by law.

2. That pursuant to Section 60 of Act 206 of the Public Acts of 1893, as amended by Act 325 of the Public Acts of 1937, said Schedule A includes all of said lands delinquent for taxes for the years 1933, 1934 and 1935, and lands delinquent for any installment of taxes under Act 126 of the Public Acts of 1933, as amended, including the interest and collection fee provided by law.

3. That said lands were returned to the Auditor General under the provisions of said taxes for said years respectively, and that said taxes remain unpaid; except that lands included in said schedules of said Tax Record for taxes of 1890 or prior years were returned to the Auditor General as delinquent for said taxes under the provisions of the general tax laws in force prior to the passage of Act 200 of the Public Acts of 1891, and which taxes remain unpaid.

4. That in all cases where lands are included in said schedule for taxes of 1200 of the Public Acts of 1891, and which taxes remain unpaid.

Public Acts of 1891, and which taxes remain unpaid.

4. That in all cases where lands are included in said schedule for taxes of 1890 or of any prior year, said lands have not been sold for said delinquent taxes or the sale or sales so made have been set aside by a court of competent jurisdiction, or have been cancelled as provided by law.

5. That in all cases where lands are included in said Schedule A, as aforesaid, for taxes of 1936, or any prior year, said lands have not been sold for said taxes or have been heretofore sold for said delinquent taxes and the sale, or sales, so made have been set aside by a court of competent jurisdiction or by legislative action, or have been cancelled as provided by law.

6. That the taxes, interest and collections set in the sale, or said taxes of the sale of

considered as a several decree in favor of the State of Michigan against each parcel of land for each tax included therein.

C. That such final decree be entered in the chancery record for recording the decrees of this court, and be in substance and form as that provided by Section 67 of Act 206, Public Acts 1893, as amended by Act 114, Public Acts of 1937. D. That your petitioner may have general relief in the premises.
And your petitioner will ever pray, etc.
Dated December 13, 1938.

GEORGE T. GUNDRY, Auditor General of the State of Michigan, NE¼ of NW¼ for and in behalf of said State.

FARM OPICS

DAIRY BARNS CAN CONTROL DISEASE

Mangers and the Platforms Should Be Kept Clean.

By Dr. George E. Taylor, Extension Dairyman, Rutgers University,— WNU Service.

The proper type and construction of the manger and standing platform in the dairy barn is important from the standpoint of controlling tuberculosis, Bang's disease, mastitis and other diseases affecting dairy cattle.

The manger and standing platform should be constructed of cement or some similar impervious material which is easily cleaned and disinfected when necessary. The manger should be equipped with individual drinking cups and solid manger partitions between each cow. The feeding manger should be separated from the feed alleyway by means of a front manger curb high enough to prevent litter from the alleyway getting into the manger proper. The organisms causing Bang's

disease and also tuberculosis gain entrance to the body principally through the mouth and digestive system. Anything that will prevent or partially eliminate the chances controlling the spread. The spread of tuberculosis is usually greater in herds that are watered by means of common drinking tanks. Watering animals by means of flooding the manger several times daily is an excellent way of spreading disease in an infected herd. Likewise, feed and litter in the feed alley is apt to become contaminated from the shoes of the herdsman or caretaker in the daily routine of feeding and milking infected herds. A manger curb will help eliminate the chances of infected grain and hay being swept back into the manger.

The standing platform should be wide enough and long enough to prevent udder injury. Udder injury of any nature should be regarded as a predisposing factor to mastitis. A solid platform curb six or eight inches high, extending from the manger back to the gutter between each stall, will tend to control the shifting of infected bedding from one stall to another. The organisms causing mastitis gain entrance

Profit in Good Finish

Is Cited by Poultrymen Every poultry producer should market a large proportion of his surplus stock at between three and five pounds dressed weight, well fattened, contend the Eastern Ontario Poultry pools. Officials point out that the greatest profit in dressed poultry is brought by the finishing

A thin bird is hard to sell at any price, while a fat one brings a premium. This premium is not difficult to secure, nor long deferred. Finishing for top grades takes only

a couple of weeks. Pool officials suggest that breeders confine birds to a small crate or pen. Feed a mixture of finely ground grains, preferably with coarse hulls sifted out. This is mixed with buttermilk or sour skim milk to the consistency of porridge. Feed twice daily during the fattening period, lightly for the first day or so, and then all the birds will clean up.

A few boiled potatoes make a good addition, state experts; also, 5 per cent mutton fat.

Farm Topics

Most of the eggs are laid early in the morning, the time varying with the seasons, or more properly with the length of the day.

A cantaloupe picked when it is ripe has a clean stem scar with no stem attached.

Cannabalism among chicks is

largely caused by lack of something to do, by overcrowding houses or by hunger. Successful sterilization and preser-

vation of milk for indefinite periods

is announced by a Wisconsin firm. Good layers have broad, deep, short heads and beaks; bright, prominent eyes; straight backs and wide spring of ribs, with deep bod-

Wheat is about equal to corn and barley in feeding value for dairy cows, although it is somewhat higher in protein.

Every man, woman, and child in Canada eats 31½ pounds of butter a

stored as long as 20 days without losing very much vitamin C. food authorities say.

County Seat Schools

Caro High School made a clean games in rather a convincing fash- Farmers are urged to attend.

In the main event, a poor defense and the failure to cash in on shots proved the downfall of the local hoopsters. Caro held the locals to one field goal the first half while m., Friday, January 13. her sharpshooters were piling up fifteen points.

During the third quarter, Cass City began to click and scored sev- Friday, January 13. en points to Caro's two but were unable to maintain the pace.

During the fourth quarter, Caro's snipers went to work again to score eleven points to Cass City's three to pile up a 28-14 victory.

In the preliminary Caro's second team defeated Cass City's seconds, 21-5, and in the opener the Caro Junior High won by a 13-6 margin. Cass City plays Vassar this Fri-
